On August 28, 2014, Methes Energies International Ltd. (“Methes”) issued a press release, announcing that it has: (i) entered into a feedstock credit facility with a major provider of credit to the renewable fuels industry (the “Lender”), that will provide Methes all the feedstock that is requested to run at full current capacity and allow Methes to fulfill future orders for biodiesel that it receives from its customers that have been approved by the Lender; and (ii) established a feedstock hedging account with the Lender to protect its margins against market price fluctuations (the “Feedstock Credit Facility”).

The Lender is a subsidiary of a Fortune 500 company which trades in a number of commodities and the group has important connections in the biodiesel industry.
