UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

ý QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

o TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number: 001-33443

DYNEGY INC.

(Exact name of registrant as specified in its charter)

State of	I.R.S. Employer
Incorporation	Identification No.
Delaware	20-5653152

601 Travis, Suite 1400  
Houston, Texas 77002  
(Address of principal executive offices) (Zip Code)  
(713) 507-6400  
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes x No "

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes x No "

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Edgar Filing: DYNEGY INC. - Form 10-Q

Large accelerated filer  Accelerated filer   
Non-accelerated filer  Smaller reporting company   
(Do not check if a smaller reporting company) Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

---

Table of Contents

Indicate by check mark whether the registrant filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes x No "

Indicate the number of shares outstanding of our class of common stock, as of the latest practicable date: Common stock, \$0.01 par value per share, 131,372,747 shares outstanding as of July 13, 2017.

DYNEGY INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)  
For the Interim Periods Ended June 30, 2017 and 2016

Note 1—Basis of Presentation and Organization

The accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to interim financial reporting as prescribed by the SEC. The year-end consolidated balance sheet data was derived from audited consolidated financial statements, but does not include all disclosures required by the Generally Accepted Accounting Principles of the United States of America (“GAAP”). The unaudited consolidated financial statements contained in this report include all material adjustments of a normal recurring nature that, in the opinion of management, are necessary for a fair presentation of the results for the interim periods. Certain prior period amounts in our unaudited consolidated financial statements have been reclassified to conform to current year presentation. These interim financial statements should be read together with the consolidated financial statements and notes thereto included in our annual report on Form 10-K for the year ended December 31, 2016, filed with the SEC on February 24, 2017, which we refer to as our “Form 10-K.” Unless the context indicates otherwise, throughout this report, the terms “Dynergy,” “the Company,” “we,” “us,” “our,” and “ours” are used to refer to Dynergy Inc. and its direct and indirect subsidiaries.

We sell electric energy, capacity and ancillary services primarily on a wholesale basis from our power generation facilities. We also serve residential, municipal, commercial and industrial customers primarily in MISO and PJM through our Homefield Energy and Dynergy Energy Services retail businesses. We report the results of our power generation business as six segments in our unaudited consolidated financial statements: (i) PJM, (ii) ISO-NE/NYISO (“NY/NE”), (iii) ERCOT, (iv) MISO, (v) IPH, and (vi) CAISO. Our consolidated financial results also reflect corporate-level expenses such as general and administrative expense, interest expense, and income tax benefit (expense). All significant intercompany transactions have been eliminated. Please read Note 19—Segment Information for further discussion.

On February 2, 2017 (the “Emergence Date”), Illinois Power Generating Company (“Genco”) emerged from bankruptcy. Please read Note 18—Genco Chapter 11 Bankruptcy and Emergence for further discussion.

Note 2—Accounting Policies

The accounting policies followed by the Company are set forth in Note 2—Summary of Significant Accounting Policies in our Form 10-K. The accompanying unaudited consolidated financial statements include our accounts and the accounts of our majority-owned or controlled subsidiaries. Accounting policies for all of our operations are in accordance with GAAP. Except for the adoption of new policies as described below, there have been no significant changes to our accounting policies during the six months ended June 30, 2017.

Use of Estimates. The preparation of unaudited consolidated financial statements in conformity with GAAP requires management to make informed estimates and judgments that affect our reported financial position and results of operations based on currently available information. Actual results could differ materially from our estimates. The results of operations for the interim periods presented in this Form 10-Q are not necessarily indicative of the results to be expected for the full year or any other interim period due to seasonal fluctuations in demand for our energy products and services, changes in commodity prices, timing of maintenance and other expenditures, and other factors.

Accounting Standards Adopted

Statement of Cash Flows. In August 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-15-Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. To reduce current and future diversity in practice, the amendments in this ASU provide guidance for several cash flow classification issues identified where current GAAP is either unclear or does not include specific guidance. We adopted this ASU on January 1, 2017 and applied the amendments on a retrospective basis. The adoption of this ASU affected the classification of prepayments for future planned outage work performed under long-term service agreements. The majority of the cash prepayments required under these agreements will now be reflected as cash outflows from investing activities and the remainder will be classified as cash outflows from operating activities, based on whether they are anticipated to be expensed or capitalized. As a result of the

retrospective application of this ASU, we reclassified approximately \$62 million of cash prepayments from operating activities to investing activities in our unaudited consolidated statement of cash flows for the six months ended June 30, 2016.

In November 2016, the FASB issued ASU 2016-18-Statement of Cash Flows (Topic 230): Restricted Cash. The amendments in this ASU require that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally

DYNEGY INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)  
For the Interim Periods Ended June 30, 2017 and 2016

described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. We adopted this ASU as of January 1, 2017 and applied the amendments on a retrospective basis. As a result of the retrospective application of this ASU, changes in restricted cash of \$4 million and \$2.069 billion previously reflected as cash flows from operating activities and investing activities, respectively, are now reflected in Net increase (decrease) in cash, cash equivalents, and restricted cash in our unaudited consolidated statement of cash flows for the six months ended June 30, 2016. Additionally, restricted cash of \$39 million and \$2.104 billion are now reflected in the beginning of period and end of period cash, cash equivalents and restricted cash line items, respectively, in our unaudited consolidated statement of cash flows for the six months ended June 30, 2016. Please read Note 7—Cash Flow Information for further discussion.

**Compensation.** In March 2016, the FASB issued ASU 2016-09-Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. The amendments in this ASU simplify several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities and classification on the statement of cash flows. We adopted this ASU on January 1, 2017 with no material impact on our unaudited consolidated financial statements.

**Goodwill.** In January 2017, the FASB issued ASU 2017-04-Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment. To simplify the subsequent measure of goodwill, the amendments in this ASU eliminate step two from the goodwill impairment test. An entity will no longer be required to calculate the implied fair value of goodwill by assigning the fair value of a reporting unit to all of its assets and liabilities as if the reporting unit had been acquired in a business combination to determine the impairment of goodwill. The amendments in this ASU will now require goodwill impairment to be measured by the amount by which the carrying value of the reporting unit exceeds its fair value. The guidance in this ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Upon adoption, an entity shall apply the guidance in this ASU prospectively with early adoption permitted for annual goodwill tests performed after January 1, 2017. We adopted this ASU on January 1, 2017 with no material impact on our unaudited consolidated financial statements.

**Accounting Standards Not Yet Adopted**

**Financial Instruments with Down Round Features.** In July 2017, the FASB issued ASU 2017-11, Earnings Per Share (Topic 260); Distinguishing Liabilities from Equity (Topic 480); Derivatives and Hedging (Topic 815): Accounting for Certain Financial Instruments with Down Round Features. The amendments of this ASU update the classification analysis of certain equity-linked financial instruments, or embedded features, with down round features, as well as clarify existing disclosure requirements for equity-classified instruments. When determining whether certain financial instruments should be classified as liabilities or equity instruments, a down round feature no longer precludes equity classification when assessing whether the instrument is indexed to an entity's own stock. The guidance in this ASU is effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, with early adoption permitted. We are currently evaluating this ASU and any potential impacts the adoption will have on our unaudited consolidated financial statements.

**Business Combinations.** In January 2017, the FASB issued ASU 2017-01-Business Combinations (Topic 805): Clarifying the Definition of a Business. The amendments in this ASU clarify the definition of a business. The amendments affect all companies and other reporting organizations that must determine whether they have acquired or sold a business. The guidance in this ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017, with early adoption permitted. We are currently evaluating this ASU and any potential impacts the adoption will have on our unaudited consolidated financial statements.

**Pensions.** In March 2017, the FASB issued ASU No. 2017-07, Compensation-Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. The amendments of this ASU require an entity to report the service cost component of net benefit costs in the same line item as other compensation costs arising from services rendered by the related employees during the applicable

service period. The other components of net benefit cost are required to be presented separately from the service cost component and below the subtotal of operating income. Additionally, only the service cost component of net benefit costs is eligible for capitalization. The guidance in this ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017, with early adoption permitted. The adoption of this standard must be applied on a retrospective basis for the amendments concerning income statement presentation and on a prospective basis for the amendments regarding the capitalization of the service cost component. We are currently evaluating this ASU and any potential impacts the adoption will have on our unaudited consolidated financial statements.

DYNEGY INC.  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)  
 For the Interim Periods Ended June 30, 2017 and 2016

**Leases.** In February 2016, the FASB issued ASU 2016-02-Leases (Topic 842). The provisions in this ASU will require lessees to recognize lease assets and lease liabilities, for all leases, including operating leases, on the balance sheet. The lease assets recognized in the balance sheet will represent a right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. The lease liability recognized in the balance sheet will represent the lessee's obligation to make lease payments arising from a lease, measured based on the present value of the minimum rental payments. Entities may make an accounting policy election to not recognize lease assets or lease liabilities for leases with a term of 12 months or less. The guidance in this ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018, with early adoption permitted. We are currently evaluating this ASU and any potential impacts the adoption will have on our unaudited consolidated financial statements.

**Revenue from Contracts with Customers.** In May 2014, the FASB issued ASU 2014-09-Revenue from Contracts with Customers (Topic 606). This ASU supersedes current revenue recognition requirements and industry specific guidance and develops a common revenue recognition standard whereby an entity will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration the entity expects to be entitled to in exchange for those goods or services. Additional disclosures will be required to describe the nature, amount, timing, and uncertainty of revenues and cash flows from contracts with customers. The guidance in this ASU and its amendments are effective for interim and annual periods beginning after December 15, 2017, with early adoption permitted for interim and annual periods beginning after December 15, 2016. We have established an implementation team to assess the impact the new accounting standard will have on our financial statements upon adoption and have not currently identified any material changes to the timing of our revenue recognition. We continue to assess the impact of the standard by reviewing our revenue contracts to determine if changes in our recognition policies or controls are necessary. We believe changes to our disclosures will primarily include a regional presentation of our revenues disaggregated by revenue type - energy, capacity, and ancillary services.

Note 3—Acquisitions and Divestitures

Acquisition

**ENGIE Acquisition.** On February 7, 2017 (the "ENGIE Acquisition Closing Date"), pursuant to the terms of the stock purchase agreement, as amended and restated on June 27, 2016, (the "ENGIE Acquisition Stock Purchase Agreement"), Dynegy acquired approximately 9,017 MW of generation from GDF SUEZ Energy North America, Inc. ("GSENA") and International Power, S.A. (the "Seller"), including (i) 15 natural gas-fired facilities located in Illinois, Massachusetts, New Jersey, Ohio, Pennsylvania, Texas, Virginia, and West Virginia, (ii) one coal-fired facility in Texas, and (iii) one waste coal-fired facility in Pennsylvania for a base purchase price of approximately \$3.3 billion in cash, subject to certain adjustments (the "ENGIE Acquisition").

**Business Combination Accounting.** The ENGIE Acquisition has been accounted for in accordance with ASC 805, Business Combinations, with identifiable assets acquired and liabilities assumed recorded at their estimated fair values on the acquisition date, February 7, 2017. A summary of the various techniques used to fair value the identifiable assets and liabilities, as well as their classification within the fair value hierarchy are listed below.

Working capital was valued using available market information (Level 2).

Acquired property, plant and equipment ("PP&E"), excluding those assets classified as held-for-sale, was valued using a discounted cash flow ("DCF") analysis based upon a debt-free, free cash flow model (Level 3). The DCF model was created for each power generation facility based on its remaining useful life, and:

for the years 2017 and 2018, included gross margin forecasts using quoted forward commodity market prices;  
 for the years 2019 through 2026, we used gross margin forecasts based upon commodity and capacity price curves developed internally using forward New York Mercantile Exchange natural gas prices and supply and demand factors;

for periods beyond 2026, we assumed a 2.5 percent growth rate.

We also used management's forecasts of operations and maintenance expense, general and administrative expense, as well as capital expenditures for the years 2017 through 2021, and for years thereafter assumed a 2.5 percent growth rate. These cash flows were discounted using discount rates of approximately 9 percent to 13 percent for gas-fired, and approximately 13 percent to 14 percent for coal-fired, generation facilities, based upon the plant's age, efficiency, region, and years until retirement.

▲Acquired PP&E classified as held-for-sale was valued based upon the sale price of the assets (Level 2).

DYNEGY INC.  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)  
 For the Interim Periods Ended June 30, 2017 and 2016

Acquired derivatives were valued using the methods described in Note 6—Fair Value Measurements (Level 2 or Level 3).

Contracts with terms that were not at current market prices were also valued using a DCF analysis (Level 3). The cash flows generated by the contracts were compared with their cash flows based on current market prices with the resulting difference recorded as either an intangible asset or liability.

Asset retirement obligations (“AROs”) were recorded in accordance with ASC 410, Asset Retirement and Environmental Obligations (Level 3).

The accounting for the ENGIE Acquisition is not complete because certain information and analysis that may impact our initial valuation is still being obtained or reviewed. Dynegy expects to finalize these amounts during the first quarter of 2018. The significant assets and liabilities for which provisional amounts are recognized are PP&E, deferred income taxes and taxes other than deferred income taxes. Additionally, some taxes have not yet been finalized with the associated taxing jurisdictions, resulting in a potential change to their fair value at acquisition. These changes may also impact the fair value of the acquired PP&E or deferred tax liability. As such, the provisional amounts recognized are subject to revision until our valuation is completed, not to exceed one year from the ENGIE Acquisition Closing Date, and any material adjustments identified that existed as of the acquisition date will be recognized in the period in which they are identified.

The following table summarizes the consideration paid and the provisional fair value amounts recognized for the assets acquired and liabilities assumed related to the ENGIE Acquisition, as of the acquisition date, February 7, 2017:

(amounts in millions)

Base purchase price	\$3,300
Working capital adjustments and other	(31 )
Fair value of total consideration transferred	\$3,269
Cash	\$20
Accounts receivable	22
Inventory	101
Prepayments and other current assets	3
Assets from risk management activities (including current portion of \$21 million)	25
Property, plant and equipment	2,756
Investment in unconsolidated affiliate	152
Intangible assets (including current portion of \$7 million)	50
Assets held-for-sale	445
Other long-term assets	131
Total assets acquired	3,705
Accounts payable	28
Liabilities from risk management activities (including current portion of \$13 million)	16
Asset retirement obligations	19
Intangible liabilities (including current portion of \$16 million)	30
Deferred income taxes, net	342
Other long-term liabilities	1
Total liabilities assumed	436
Net assets acquired	\$3,269

DYNEGY INC.  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)  
 For the Interim Periods Ended June 30, 2017 and 2016

The following table summarizes certain information related to the ENGIE Acquisition, which is included in our unaudited consolidated statements of operations:

	Three Months Ended June 30,		Six Months Ended June 30,	
(amounts in millions)	2017	2016	2017	2016
Acquisition costs	\$4	\$	-\$35	\$ 2
Revenues	\$246	N/A	\$324	N/A
Operating income	\$20	N/A	\$4	N/A

Pro Forma Results. The unaudited pro forma financial results for the six months ended June 30, 2017 and 2016 assume the ENGIE Acquisition occurred on January 1, 2016. The unaudited pro forma financial results may not be indicative of the results that would have occurred had the acquisition been completed as of January 1, 2016, nor are they indicative of future results of operations. The unaudited pro forma financial results for the six months ended June 30, 2017 and 2016 include adjustments of \$35 million and \$2 million, respectively, for non-recurring acquisition costs attributable to the ENGIE Acquisition.

(amounts in millions)	Six Months Ended June 30,	
	2017	2016
Revenue	\$2,468	\$2,315
Net income (loss)	\$302	\$(948 )
Net income (loss) attributable to Dynegy Inc.	\$303	\$(946 )

AER Acquisition. On April 12, 2017, we received approximately \$25 million of cash related to the 2013 AER Acquisition. As a result, we have recorded \$25 million in Other income and expense, net in our unaudited consolidated statement of operations.

#### Divestitures

On July 11, 2017, Dynegy completed the sale of its equity ownership interests in two peaking facilities in PJM to LS Power (the “Troy and Armstrong Sale”) for approximately \$480 million in cash, plus adjustments for capital expenditures and working capital. The facilities sold were recently acquired in the ENGIE Acquisition and total 1,269 MW. The proceeds are to be allocated to debt reduction.

The Troy and Armstrong facilities are classified as long-term assets held-for-sale as of June 30, 2017 and are presented below, in millions:

Inventory	\$11
Property, plant & equipment	452
Assets held-for-sale	\$463

#### Note 4—Unconsolidated Investments

##### Equity Method Investments

NELP. In connection with the ENGIE Acquisition, we acquired a 50 percent interest in Northeast Energy, LP (“NELP”), a joint venture with NextEra Energy, Inc., which indirectly owns the Bellingham NEA facility and the Sayreville facility. At June 30, 2017, our equity method investment in NELP included in our unaudited consolidated balance sheets was \$150 million. Upon the acquisition, we recognized basis differences in the net assets of approximately \$14 million related to PP&E. These basis differences are being amortized over their respective useful lives. Our risk of loss related to our equity method investment is limited to our investment balance.

For the three and six months ended June 30, 2017, we recorded \$1 million and less than \$1 million in equity earnings, respectively, related to our investment in NELP which is reflected in Earnings from unconsolidated investments in our unaudited consolidated statements of operations. For the six months ended June 30, 2017, we received a distribution

of \$2 million, all of which was considered to be a return of investment using the cumulative earnings approach and reflected as Distributions from unconsolidated investments in our unaudited consolidated statements of cash flows.

DYNEGY INC.  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)  
 For the Interim Periods Ended June 30, 2017 and 2016

Elwood. On November 21, 2016, Dynegy sold its 50 percent equity interest in Elwood Energy, LLC, a limited liability company (“Elwood Energy”) and Elwood Expansion LLC, a limited liability company (and together with Elwood Energy “Elwood”), to J-Power USA Development Co. Ltd. for approximately \$173 million (the “Elwood Sale”). For the three and six months ended June 30, 2016, we recorded \$1 million and \$3 million, respectively, in equity earnings related to our investment in Elwood which is reflected in Earnings from unconsolidated investments in our unaudited consolidated statements of operations. For the six months ended June 30, 2016, we received distributions of \$8 million, all of which was considered to be a return of investment using the accumulated earnings approach and reflected as Distributions from unconsolidated investments in our unaudited consolidated statements of cash flows.

Note 5—Risk Management Activities, Derivatives and Financial Instruments

The nature of our business involves commodity market and financial risks. Specifically, we are exposed to commodity price variability related to our power generation business. Our commercial team manages these commodity price risks with financially and physically settled contracts consistent with our commodity risk management policy. Our treasury team manages our interest rate risk.

Our commodity risk management policy gives us the flexibility to sell energy and capacity and purchase fuel through a combination of spot market sales and near-term contractual arrangements (generally over a rolling one- to three-year time frame). Our commodity risk management goal is to protect cash flow in the near-term while keeping the ability to capture value longer-term.

Many of our contractual arrangements are derivative instruments and are accounted for at fair value as part of Revenues in our unaudited consolidated statements of operations. We have other contractual arrangements such as capacity forward sales arrangements, tolling arrangements, fixed price coal purchases, and retail power sales, which do not receive recurring fair value accounting treatment because these arrangements do not meet the definition of a derivative or are designated as “normal purchase, normal sale,” in accordance with ASC 815, Derivatives and Hedging. As a result, the gains and losses with respect to these arrangements are not reflected in the unaudited consolidated statements of operations until the delivery occurs.

Quantitative Disclosures Related to Financial Instruments and Derivatives

As of June 30, 2017, we had net purchases and sales of derivative contracts outstanding in the following quantities:

Contract Type	Quantity	Unit of Measure	Fair Value (1)
(dollars and quantities in millions)	Purchases (Sales)		Asset (Liability)
Commodity contracts:			
Electricity derivatives (2)	(65 )	MWh	\$ 40
Electricity basis derivatives (3)	(46 )	MWh	\$ (9 )
Natural gas derivatives (2)	410	MMBtu	\$ (17 )
Natural gas basis derivatives	135	MMBtu	\$ (15 )
Physical heat rate derivatives	142/(15)	MMBtu/MWh	\$ (11 )
Emissions derivatives	14	Metric Ton	\$ (8 )
Interest rate swaps	1,965	U.S. Dollar	\$ (18 )
Common stock warrants (4)	24	Warrant	\$ (3 )

(1) Includes both asset and liability risk management positions but excludes margin and collateral netting of \$46 million.

(2) Mainly comprised of swaps and physical forwards.

(3) Comprised of FTRs and swaps.

(4) Each warrant is convertible into one share of Dynegy common stock.

Derivatives on the Balance Sheet. The following tables present the fair value and balance sheet classification of derivatives in our unaudited consolidated balance sheets as of June 30, 2017 and December 31, 2016. As of June 30, 2017 and December 31, 2016, there were no gross amounts available to be offset that were not offset in our unaudited consolidated balance sheets.

Contract Type	Balance Sheet Location	June 30, 2017			
		Gross Fair Value	Contract Netting	Gross amounts offset in the balance sheet Collateral or Margin Received or Paid	Net Fair Value
(amounts in millions)					
Derivative assets:					
Commodity contracts	Assets from risk management activities	\$300	\$(182)	\$ —	\$118
Interest rate contracts	Assets from risk management activities	11	—	—	11
Total derivative assets		\$311	\$(182)	\$ —	\$129
Derivative liabilities:					
Commodity contracts	Liabilities from risk management activities	\$(320)	\$182	\$ 46	\$(92 )
Interest rate contracts	Liabilities from risk management activities	(29 )	—	—	(29 )
Common stock warrants	Accrued liabilities and other current liabilities and other long-term liabilities	(3 )	—	—	(3 )
Total derivative liabilities		\$(352)	\$182	\$ 46	\$(124)
Total derivatives		\$(41 )	\$—	\$ 46	\$5

Contract Type	Balance Sheet Location	December 31, 2016			
		Gross Fair Value	Contract Netting	Gross amounts offset in the balance sheet Collateral or Margin Received or Paid	Net Fair Value
(amounts in millions)					
Derivative assets:					
Commodity contracts	Assets from risk management activities	\$311	\$(165)	\$ —	\$146
Total derivative assets		\$311	\$(165)	\$ —	\$146
Derivative liabilities:					
Commodity contracts	Liabilities from risk management activities	\$(329)	\$165	\$ 54	\$(110)
Interest rate contracts	Liabilities from risk management activities	(30 )	—	—	(30 )
Common stock warrants	Accrued liabilities and other current liabilities	(1 )	—	—	(1 )

Total derivative liabilities	\$ (360)	\$ 165	\$ 54	\$ (141)
Total derivatives	\$ (49 )	\$ —	\$ 54	\$ 5

Certain of our derivative instruments have credit limits that require us to post collateral. The amount of collateral required to be posted is a function of the net liability position of the derivative as well as our established credit limit with the respective counterparty. If our credit rating were to worsen, the counterparties could require us to post additional collateral. The amount of additional collateral that would be required to be posted would vary depending on the extent of change in our credit rating as well as the requirements of the individual counterparty. As of June 30, 2017, the aggregate fair value of all commodity derivative instruments containing credit-risk-related contingent features, in a liability position and not fully collateralized, is \$15 million for which we have posted no collateral. Transactions with our clearing brokers are excluded as they are fully collateralized. Our

DYNEGY INC.  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)  
 For the Interim Periods Ended June 30, 2017 and 2016

remaining derivative instruments do not have credit-related collateral contingencies as they are included within our first-lien collateral program.

The following table summarizes our cash collateral posted as of June 30, 2017 and December 31, 2016, within Prepayments and other current assets in our unaudited consolidated balance sheets and the amount applied against short-term risk management activities:

Location on Balance Sheet	June 30, December 31,	
	2017	2016
(amounts in millions)		
Gross collateral posted with counterparties	\$ 80	\$ 116
Less: Collateral netted against risk management liabilities	46	54
Net collateral within Prepayments and other current assets	\$ 34	\$ 62

Impact of Derivatives on the Unaudited Consolidated Statements of Operations

We elect not to designate derivatives related to our power generation business and interest rate instruments as cash flow or fair value hedges. Thus, we account for changes in the fair value of these derivatives within our unaudited consolidated statements of operations.

Our unaudited consolidated statements of operations for the three and six months ended June 30, 2017 and 2016 include the impact of derivative financial instruments as presented below:

Derivatives Not Designated as Hedges	Location of Gain (Loss) Recognized in Income on Derivatives	Three Months Ended June 30,		Six Months Ended June 30,	
		2017	2016	2017	2016
(amounts in millions)					
Commodity contracts	Revenues	\$29	\$23	\$213	\$215
Interest rate contracts	Interest expense	\$1	\$(4)	\$3	\$(12)
Common stock warrants	Other income and (expense), net	\$3	\$—	\$15	\$1

Note 6—Fair Value Measurements

We apply the market approach for recurring fair value measurements, employing valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. We have consistently used the same valuation techniques for all periods presented. Please read Note 2—Summary of Significant Accounting Policies—Fair Value Measurements in our Form 10-K for further discussion.

DYNEGY INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)  
For the Interim Periods Ended June 30, 2017 and 2016

The following tables set forth, by level within the fair value hierarchy, our financial assets and liabilities that were accounted for at fair value on a recurring basis as of June 30, 2017 and December 31, 2016, and are presented on a gross basis before consideration of amounts netted under master netting agreements and the application of collateral and margin paid:

(amounts in millions)	Fair Value as of June 30, 2017

Level 3 Valuation Methods. The electricity derivatives classified within Level 3 include financial swaps executed in illiquid trading locations or on long dated contracts, capacity contracts and FTRs. The curves used to generate the fair value of the financial swaps are based on basis adjustments applied to forward curves for liquid trading points, while the curves for the capacity deals are based upon auction results in the marketplace, which are infrequently executed. The forward market price of FTRs is derived using historical congestion patterns within the marketplace and heat rate derivative valuations are derived using

14

---

DYNEGY INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)  
For the Interim Periods Ended June 30, 2017 and 2016

a discounted cash flow model, which uses modeled forward natural gas and power prices. The natural gas derivatives classified within Level 3 include financial swaps, basis swaps, and physical purchases executed in illiquid trading locations or on long dated contracts.

Sensitivity to Changes in Significant Unobservable Inputs for Level 3 Valuations. The significant unobservable inputs used in the fair value measurement of our commodity instruments categorized within Level 3 of the fair value hierarchy include estimates of forward congestion, power price spreads, and natural gas pricing, and the difference between our plant locational prices to liquid hub prices. Power price spreads, and natural gas pricing, and the difference between our plant locational prices to liquid hub prices are generally based on observable markets where available, or derived from historical prices and forward market prices from similar observable markets when not available. Increases in the price of the spread on a buy or sell position in isolation would result in a higher/lower fair value measurement. The significant unobservable inputs used in the valuation of Dynegy's contracts classified as Level 3 as of June 30, 2017 are as follows:

Transaction Type	Quantity	Unit of Measure	Net Fair Value	Valuation Technique	Significant Unobservable Input	Significant Unobservable Input Range
(dollars in millions)						
Electricity derivatives:						
Forward contracts—power (1)	(12)	Million MWh	\$ 3	Basis spread + liquid location	Basis spread	\$4.25 - \$6.25
FTRs	(40)	Million MWh	\$ (4 )	Historical congestion	Forward price	\$0 - \$6.00
Physical heat rate derivatives	23/(3)	Million MMBtu/Million MWh	\$ (2 )	Discounted Cash Flow	Forward price	\$2.40 - \$3.30 / \$25 - \$31
Natural gas derivatives (1)	103	Million MMBtu	\$ 1	Illiquid location fixed price	Forward price	\$2.50 - \$3.10

(1) Represents forward financial and physical transactions at illiquid pricing locations and long-dated contracts. The following tables set forth a reconciliation of changes in the fair value of financial instruments classified as Level 3 in the fair value hierarchy:

(amounts in millions)	Three Months Ended June 30, 2017			
	Electricity Derivatives	Natural Gas Derivatives	Heat Rate Derivatives	Total
Balance at March 31, 2017	\$ (17)	\$ (2 )	\$ —	\$ (19)

15

---

DYNEGY INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)  
For the Interim Periods Ended June 30, 2017 and 2016

(amounts in millions)	Three Months Ended June 30, 2016			
	Electricity Derivatives	Natural Gas Derivatives	Coal Derivatives	Total
Balance at March 31, 2016	\$ (17)	\$ (18 )	\$ 1	\$ (34)
Total gains (losses) included in earnings	(12 )	—	—	(12 )
Settlements (1)	5	3	—	8
Balance at June 30, 2016	\$ (24)	\$ (15 )	\$ 1	\$ (38)
Unrealized gains (losses) relating to instruments held as of June 30, 2016	\$ (12)	\$ —	\$ —	\$ (12)

  

(amounts in millions)	Six Months Ended June 30, 2016			
	Electricity Derivatives	Natural Gas Derivatives	Coal Derivatives	Total
Balance at December 31, 2015	\$ (18)	\$ (32 )	\$ 2	\$ (48)
Total gains (losses) included in earnings	(5 )	3	—	(2 )
Settlements (1)	(1 )	14	(1 )	12
Balance at June 30, 2016	\$ (24)	\$ (15 )	\$ 1	\$ (38)
Unrealized gains (losses) relating to instruments held as of June 30, 2016	\$ (5 )	\$ 3	\$ —	\$ (2 )

(1) For purposes of these tables, we define settlements as the beginning of period fair value of contracts that settled during the period.

Gains and losses recognized for Level 3 recurring items are included in Revenues in our unaudited consolidated statements of operations for commodity derivatives. We believe an analysis of commodity instruments classified as Level 3 should be undertaken with the understanding that these items generally serve as economic hedges of our power generation portfolio. We did not have any material transfers between Level 1, Level 2 and Level 3 for the three and six months ended June 30, 2017 and 2016.

**Nonfinancial Assets and Liabilities.** Nonfinancial assets and liabilities that are measured at fair value on a nonrecurring basis are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of such assets and liabilities and their placement within the fair value hierarchy.

During the three and six months ended June 30, 2017 and 2016, we recorded impairment charges related to certain of our facilities using a discounted cash flow model classified as Level 3 within the fair value hierarchy. See Note 9—Property, Plant and Equipment for further discussion. During the six months ended June 30, 2017, we fair valued the ENGIE Acquisition and our acquisition of additional joint ownership interest in the Zimmer facility. See Note 3—Acquisitions and Divestitures for further discussion of the fair value hierarchy classifications of valuations of acquired identifiable assets and liabilities and Note 10—Joint Ownership of Generating Facilities for further discussion of the acquisition of additional joint ownership interest in the Zimmer facility.

The following table provides a reconciliation of cash, cash equivalents and restricted cash reported within our unaudited consolidated balance sheets that sum to the total of the same such amounts shown in our unaudited consolidated statements of cash flows:

	June 30, 2017	June 30, 2016
(amounts in millions)		
Cash and cash equivalents	\$ 447	\$ 1,142
Restricted cash included in current assets (1)	—	104
Restricted cash included in long-term assets (2)	—	2,000
Total cash, cash equivalents and restricted cash	\$ 447	\$ 3,246

(1) Includes \$70 million placed in escrow for the issuance of the Tranche C Term Loan (\$50 million of pre-funded interest and \$20 million of pre-funded original issue discount) and \$34 million related to collateral.

(2) Relates to amounts placed into escrow for the issuance of the Tranche C Term Loan.

Note 8—Inventory

A summary of our inventories is as follows:

	June 30, 2017	December 31, 2016
(amounts in millions)		
Materials and supplies	\$ 254	\$ 182
Coal	192	238
Fuel oil	13	17
Natural gas	15	—
Emissions allowances (1)	3	8
Total	\$ 477	\$ 445

At June 30, 2017 and December 31, 2016, a portion of this inventory was held as collateral by one of our (1) counterparties as part of an inventory financing agreement. Please read Note 12—Debt—Emissions Repurchase Agreements for further discussion.

Note 9—Property, Plant and Equipment

A summary of our property, plant and equipment is as follows:

	June 30, 2017	December 31, 2016
(amounts in millions)		
Power generation	\$ 10,065	\$ 7,537
Buildings and improvements	1,137	944
Office and other equipment	117	98
Property, plant and equipment	11,319	8,579
Accumulated depreciation	(1,834)	(1,458)
Property, plant and equipment, net	\$ 9,485	\$ 7,121

DYNEGY INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)  
For the Interim Periods Ended June 30, 2017 and 2016

### Impairments

For the three and six months ended June 30, 2017 and 2016, we recognized the following impairments in our unaudited consolidated statements of operations (amounts in millions):

Facility	Fair Value	Three Months Ended June 30,		Six Months Ended June 30,	
		2017	2016	2017	2016
Baldwin (1)	\$ 97	\$—	\$645	\$—	\$645
Killen (2)	\$ —	—	—	20	—
Hennepin (1)	\$ 16	10	—	10	—
Havana (1)	\$ 37	89	—	89	—
Total		\$99	\$645	\$119	\$645

(1) Units failed to recover their basic operating costs in the MISO capacity auctions.

(2) In first quarter 2017, Dayton Power and Light Co., the partner and operator of Killen, announced the shutdown of the Killen generation facility by June 2018.

As a result of our impairment analysis on our coal facilities in MISO, we decreased the estimated useful lives of certain of the facilities.

### Retirements

The Brayton Point facility officially retired on June 1, 2017. During the three and six months ended June 30, 2017, we recognized \$5 million of severance costs, which were classified within Operating and maintenance expense in our unaudited consolidated statement of operations.

### Note 10—Joint Ownership of Generating Facilities

We hold ownership interests in certain jointly owned generating facilities. We are entitled to the proportional share of the generating capacity and the output of each unit equal to our ownership interests. We pay our share of capital expenditures, fuel inventory purchases, and operating expenses, except in certain instances where agreements have been executed to limit certain joint owners' maximum exposure to additional costs. Our share of revenues and operating costs of the jointly owned generating facilities is included within the corresponding financial statement line items in our unaudited consolidated statements of operations.

The following tables present the ownership interests of the jointly owned facilities as of June 30, 2017 and December 31, 2016 included in our unaudited consolidated balance sheets. Each facility is co-owned with one or more other generation companies.

(dollars in millions)	June 30, 2017				
	Ownership Interest	Property, Plant and Equipment	Accumulated Depreciation	Construction Work in Progress	Total
Miami Fort	64.0%	\$ 209	\$ (50 )	\$ 4	\$163
Stuart (1)(2)	39.0%	\$ —	\$ —	\$ 2	\$2
Zimmer	71.9%	\$ 125	\$ (33 )	\$ 8	\$100
Killen (1)(2)	33.0%	\$ —	\$ —	\$ —	\$—

(dollars in millions)	December 31, 2016

(1)Facilities not operated by Dynegy.

DYNEGY INC.  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)  
 For the Interim Periods Ended June 30, 2017 and 2016

(2) Stuart Unit 1 is scheduled to be retired in the third quarter of 2017, with remaining Stuart and Killen units scheduled to be retired by mid-2018.

On May 12, 2017, the joint owners received approval to retire the units at Stuart Station and Killen effective June 1, 2018. On July 19, 2017, Stuart Unit 1 received approval from PJM to retire early effective September 30, 2017. On May 9, 2017, Dynegy finalized the sale of its 40 percent ownership interest in Conesville to American Electric Power (“AEP”) in exchange for AEP’s 25.4 percent ownership interest in Zimmer. As a result, Dynegy now owns 71.9 percent of the Zimmer facility and no longer has an ownership interest in the Conesville facility. No cash was exchanged in the transaction and no additional debt was incurred by either party. AEP returned a previously issued letter of credit totaling \$58 million to Dynegy. The acquisition of the additional interest in Zimmer has been accounted for as a business combination using similar fair value methodologies as described in Note 3—Acquisitions and Divestitures. The fair value of the additional Zimmer interest is \$27 million and was allocated \$14 million to Property, plant and equipment, \$14 million to Inventory and \$1 million to ARO liability in our unaudited consolidated balance sheets. As a result of the Conesville sale, we recognized a loss of \$30 million for the three and six months ended June 30, 2017, representing the difference between the \$57 million book value of our transferred interest in Conesville and the \$27 million fair value of the acquired interest in Zimmer.

On April 21, 2017, Dynegy reached an agreement with AES Ohio Generation, LLC and The Dayton Power and Light Company (collectively, “AES”) under which Dynegy will purchase AES’ 28.1 percent interest in Zimmer and 36 percent interest in Miami Fort for \$50 million in cash and the assumption of certain liabilities, subject to customary adjustments. The transaction is expected to close in the second half of 2017.

Note 11—Intangible Assets and Liabilities

The following table summarizes the components of our intangible assets and liabilities as of June 30, 2017 and December 31, 2016:

(amounts in millions)	June 30, 2017			December 31, 2016		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
<b>Intangible Assets:</b>						
Electricity contracts	\$281	\$ (219 )	\$ 62	\$260	\$ (206 )	\$ 54

DYNEGY INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)  
For the Interim Periods Ended June 30, 2017 and 2016

The following table presents our amortization expense (revenue) of intangible assets and liabilities for the three and six months ended June 30, 2017 and 2016:

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
(amounts in millions)				
Electricity contracts, net (1)	\$9	\$17	\$24	\$33
Coal contracts, net (2)	(1 )	(11 )	(3 )	(23 )
Coal transport contracts, net (2)	(2 )	(7 )	(5 )	(14 )
Gas transport contracts, net (2)	(2 )	—	(1 )	17
Total	\$4	\$(1)	\$15	\$13

(1) The amortization of these contracts is recognized in Revenues or Cost of sales in our unaudited consolidated statements of operations.

(2) The amortization of these contracts is recognized in Cost of sales in our unaudited consolidated statements of operations.

The following table summarizes the components of our contract based intangible assets and liabilities recorded in connection with the ENGIE Acquisition in February 2017:

(amounts in millions/months)	Gross Carrying Amount	Weighted-Average Amortization Period
Intangible Assets:		
Electricity contracts	\$ 34	39
Gas transport contracts	16	47
Total intangible assets	\$ 50	41

Intangible Liabilities:

Electricity contracts	\$ (11 )	32
Gas contracts	—	1
Gas transport contracts	(17 )	35
Gas storage contracts	(2 )	13
Total intangible liabilities	\$ (30 )	33
Total intangible assets and liabilities, net	\$ 20	

Amortization expense (revenue), net related to intangible assets and liabilities recorded in connection with the ENGIE Acquisition for the next five years as of June 30, 2017 is as follows: 2017—\$(5) million, 2018—\$8 million, 2019—\$17 million, 2020—\$4 million and 2021—\$(1) million.

DYNEGY INC.

6.75% Senior Notes, due 2019	2,100	2,100
7.375% Senior Notes, due 2022	1,750	1,750
5.875% Senior Notes, due 2023	500	500
7.625% Senior Notes, due 2024	1,250	1,250
8.034% Senior Notes, due 2024 (2)	184	—
8.00% Senior Notes, due 2025	750	750
Equipment Financing Agreements	131	97
Subtotal unsecured obligations	6,725	6,527
Total debt obligations	9,521	9,099
Unamortized debt discounts and issuance costs	(204)	(120)
	9,317	8,979
Less: Current maturities, including unamortized debt discounts and issuance costs, net	106	201
Total long-term debt	\$9,211	\$ 8,778

(1) At December 31, 2016, the \$2.0 billion Tranche C Term Loan was held by Dynegy Finance IV. Upon the close of the ENGIE Acquisition, this debt obligation became Dynegy Inc.'s secured obligation.

On the Genco Emergence Date, we issued \$182 million of 8.034 percent seven-year unsecured senior notes due (2)2024 and on April 18, 2017, we issued an additional \$3 million of such notes. See Note 18—Genco Chapter 11 Bankruptcy and Emergence for further discussion.

Credit Agreement

As of June 30, 2017, we had a \$3.769 billion credit agreement, as amended, that consisted of (i) a \$2.224 billion seven-year senior secured term loan facility (the “Tranche C-1 Term Loan”) and (ii) \$1.545 billion in senior secured revolving credit facilities (the “Revolving Facility,” and collectively with the Tranche C-1 Term Loan the “Credit Agreement”). During the six months ended June 30, 2017, we made the following changes to the Credit Agreement: On January 10, 2017, we amended the Credit Agreement (Fourth Amendment) to increase the revolver capacity by \$45 million and to extend the maturity date on \$450 million in revolver capacity to 2021, which was effective upon the ENGIE Acquisition Closing Date.

On the ENGIE Acquisition Closing Date, we amended the Credit Agreement (Fifth Amendment) to (i) reduce the interest rate applicable to the Tranche C Term Loan by 75 basis points and (ii) extend the maturity to 2024 of the existing Tranche B-2 Term Loan through the exchange of the outstanding initial Tranche B-2 Term Loan for the \$2.224 billion Tranche C-1 Term Loan.

DYNEGY INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

For the Interim Periods Ended June 30, 2017 and 2016

At June 30, 2017, there was \$300 million drawn on the Revolving Facility. We also had outstanding letters of credit (“LCs”) of approximately \$318 million, which reduce the amount available under the Revolving Facility. The Credit Agreement contains customary events of default and affirmative and negative covenants, subject to certain specified exceptions, including a Senior Secured Leverage Ratio (as defined in the Credit Agreement) calculated on a rolling four quarters basis. Under the Credit Agreement, if Dynegy utilizes 25 percent or more of its Revolving Facility, Dynegy must be in compliance with the Consolidated Senior Secured Net Debt to Consolidated Adjusted EBITDA ratio of 4.00:1.00. Our revolver usage at June 30, 2017 was 40 percent of the aggregate revolver commitment due to outstanding LCs and revolver draws. Based on the calculation outlined in the Credit Agreement, we were in compliance with these covenants as of June 30, 2017.

Under the terms of the Credit Agreement, existing balances under our Forward Capacity Agreement, Inventory Financing Agreements, and Equipment Financing Agreements are excluded from Net Debt, as defined in the Credit Agreement.

#### Senior Notes

The senior notes are unsecured and unsubordinated obligations of the Company and are guaranteed by each of the Company’s current and future wholly-owned domestic subsidiaries that from time to time are a borrower or guarantor under the Credit Agreement. The senior notes indentures limit, among other things, the ability of the Company or any of the guarantors to create liens upon any principal property to secure debt for borrowed money in excess of, among other limitations, 30.0% of total assets.

**Interest Rate Swaps.** In March 2017, we amended our existing interest rate swaps to more closely match the terms of our Tranche C-1 Term Loan. The swaps have an aggregate notional value of approximately \$765 million at an average fixed rate of 3.03 percent and expire between the second quarter of 2018 and the second quarter of 2020. In a previous extension to the existing interest rate swaps, in lieu of paying the breakage fees related to terminating the old swaps and issuing the new swaps, the costs were incorporated into the terms of the new swaps. As a result, any cash flows related to the settlement of the swaps are reflected as a financing activity in our unaudited consolidated statements of cash flows.

Additionally, in May 2017, we entered into new interest rate swap agreements. The swaps have an aggregate notional value of approximately \$1.2 billion at an average fixed rate of 1.97 percent, and expire in the first quarter of 2024. Any cash flows related to the settlement of these swaps are reflected as an operating activity in our unaudited consolidated statements of cash flows.

#### Amortizing Notes

On June 21, 2016, in connection with the issuance of the tangible equity units (“TEUs”), Dynegy issued the Amortizing Notes with a principal amount of approximately \$87 million. The Amortizing Notes mature on July 1, 2019. Each installment payment per Amortizing Note will be paid in cash and will constitute a partial repayment of principal and a payment of interest, computed at an annual rate of 7 percent. Interest will be calculated on the basis of a 360 day year consisting of twelve 30 day months. Payments will be applied first to the interest due and payable and then to the reduction of the unpaid principal amount, allocated as set forth in the Indenture.

The indenture limits, among other things, the ability of Dynegy to consolidate, merge, sell, or dispose all or substantially all of its assets. If a fundamental change occurs, or if Dynegy elects to settle the prepaid stock contracts (“SPCs”) early, then the holders of the Amortizing Notes will have the right to require Dynegy to repurchase the Amortizing Notes at a repurchase price equal to the principal amount of the Amortizing Notes as of the repurchase date (as described in the supplemental indenture) plus accrued and unpaid interest. The Indenture also contains customary events of default which would permit the holders of the Amortizing Notes to declare those Amortizing Notes to be immediately due and payable if not cured within applicable grace periods, including the failure to make timely installment payments on the Amortizing Notes or other material indebtedness, the failure to satisfy covenants, and specified events of bankruptcy and insolvency.

#### Letter of Credit Facilities

Dynegy has a Letter of Credit Reimbursement Agreement with an issuing bank, for an LC in an amount not to exceed \$55 million. In July 2017, the expiry date of the facility was extended one year, to September 19, 2018. At June 30, 2017, there was \$55 million outstanding under this LC.

Following the ENGIE Acquisition Closing Date, Dynegy entered into a Letter of Credit Reimbursement Agreement with an issuing bank, pursuant to which the issuing bank agreed to provide LCs in an amount not to exceed \$50 million. The facility

DYNEGY INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

For the Interim Periods Ended June 30, 2017 and 2016

matures February 7, 2018 and may be extended at the Lender's discretion for up to four additional one-year terms. As of June 30, 2017, there was \$40 million outstanding under this facility.

Forward Capacity Agreement

As of June 30, 2017, we have sold a portion of our PJM capacity in Planning Years 2018-2019 and 2019-2020 to a financial institution. Dynegy will continue to be subject to the performance obligations as well as any associated performance penalties and bonus payments for those planning years. As a result, this transaction is accounted for as a debt issuance of \$230 million with an implied interest rate of 4.7 percent. On March 29, 2017, we replaced an existing Planning Year 2017-2018 contract in the amount of \$110 million, with a Planning Year 2019-2020 contract in the amount of \$121 million. On July 7, 2017, we replaced \$99 million of \$109 million of an existing Planning Year 2018-2019 contract with a Planning Year 2020-2021 contract in the amount of \$110 million.

Inventory Financing Agreements

Brayton Point Inventory Financing. On May 31, 2017, the Brayton Point inventory financing agreement terminated and the remaining obligation was paid. The Brayton Point facility officially retired on June 1, 2017.

Emissions Repurchase Agreements. In August 2015, we entered into two repurchase transactions with a third party in which we sold approximately \$78 million of RGGI inventory and received cash. In February 2017, we repurchased approximately \$30 million of the previously sold RGGI inventory. We are obligated to repurchase the remaining inventory in February 2018 at a specified price with an annualized carry cost of approximately 3.49 percent. As of June 30, 2017, there was \$48 million, in aggregate, outstanding under these agreements.

Equipment Financing Agreements

Under certain of our contractual service agreements in which we receive maintenance and capital improvements for our gas-fueled generation fleet, we have obtained parts and equipment intended to increase the output, efficiency, and availability of our generation units. We have financed these parts and equipment under agreements with maturities ranging from 2017 to 2025. The portion of future payments attributable to principal will be classified as cash outflows from financing activities, and the portion of future payments attributable to interest will be classified as cash outflows from operating activities in our unaudited consolidated statements of cash flows. The related assets were recorded at the net present value of the payments of \$103 million. The \$28 million discount is currently being amortized as interest expense over the life of the payments.

Note 13—Commitments and Contingencies

Legal Proceedings

Set forth below is a summary of our material ongoing legal proceedings. We record accruals for estimated losses from contingencies when available information indicates that a loss is probable and the amount of the loss, or range of loss, can be reasonably estimated. In addition, we disclose matters for which management believes a material loss is reasonably possible. In all instances, management has assessed the matters below based on current information and made judgments concerning their potential outcome, giving consideration to the nature of the claim, the amount, if any, the nature of damages sought, and the probability of success. Management regularly reviews all new information with respect to such contingencies and adjusts its assessments and estimates of such contingencies accordingly. Because litigation is subject to inherent uncertainties including unfavorable rulings or developments, it is possible that the ultimate resolution of our legal proceedings could involve amounts that are different from our currently recorded accruals, and that such differences could be material.

In addition to the matters discussed below, we are party to other routine proceedings arising in the ordinary course of business. Any accruals or estimated losses related to these matters are not material. In management's judgment, the ultimate resolution of these matters will not have a material effect on our financial condition, results of operations, or cash flows.

Gas Index Pricing Litigation. We, through our subsidiaries, and other energy companies are named as defendants in several lawsuits claiming damages resulting from alleged price manipulation and false reporting of natural gas prices to various index publications from 2000-2002. The cases allege that the defendants engaged in an antitrust conspiracy

to inflate natural gas prices in three states (Kansas, Missouri, and Wisconsin) during the relevant time period. The cases are consolidated in a multi-district litigation proceeding pending in the United States District Court for Nevada. On March 30, 2017, the court denied Plaintiffs' motion to certify a class action, which will be subject to an interlocutory appeal granted by the Ninth Circuit on June 13, 2017. At this time we cannot reasonably estimate a potential loss.

DYNEGY INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

For the Interim Periods Ended June 30, 2017 and 2016

**Advatech Dispute.** On September 2, 2016, our Genco subsidiary terminated its Second Amended and Restated Newton Flue Gas Desulfurization System Engineering, Procurement, Construction and Commissioning Services Contract dated as of December 15, 2014 with Advatech, LLC. Advatech issued Genco its final invoice on September 30, 2016 totaling \$81 million. Genco contested the invoice on October 3, 2016 and believes the proper amount is less than \$1 million. On October 27, 2016, Advatech initiated the dispute resolution process under the Contract and filed for arbitration on March 16, 2017. Settlement discussions required under the dispute resolution process have been unsuccessful. We believe the risk of a material loss related to this dispute to be remote. We dispute the allegations and will defend our position vigorously.

**Other Contingencies**

**MISO 2015-2016 Planning Resource Auction.** In May 2015, three complaints were filed at FERC regarding the Zone 4 results for the 2015-2016 Planning Resource Auction (“PRA”) conducted by MISO. Dynegy is a named party in one of the complaints. The complainants, Public Citizen, Inc., the Illinois Attorney General, and Southwestern Electric Cooperative, Inc., have challenged the results of the PRA as unjust and unreasonable, requested rate relief/refunds, and requested changes to the MISO PRA structure going forward. Complainants have also alleged that Dynegy may have engaged in economic or physical withholding in Zone 4 constituting market manipulation in the 2015-2016 PRA. The Independent Market Monitor for MISO (“MISO IMM”), which was responsible for monitoring the MISO 2015-2016 PRA, determined that all offers were competitive and that no physical or economic withholding occurred. The MISO IMM also stated, in a filing responding to the complaints, that there is no basis for the proposed remedies. We filed our Answer to these complaints and believe that we complied fully with the terms of the MISO tariff in connection with the 2015-2016 PRA, disputed the allegations, and will defend our actions vigorously. In addition, the Illinois Industrial Energy Consumers filed a complaint at FERC against MISO on June 30, 2015 requesting prospective changes to the MISO tariff. Dynegy also responded to this complaint.

On October 1, 2015, FERC issued an order of non-public, formal investigation, stating that shortly after the conclusion of the 2015-2016 PRA, FERC’s Office of Enforcement began a non-public informal investigation into whether market manipulation or other potential violations of FERC orders, rules, and regulations occurred before or during the PRA (the “Order”). The Order noted that the investigation is ongoing, and that the order converting the informal, non-public investigation to a formal, non-public investigation does not indicate that FERC has determined that any entity has engaged in market manipulation or otherwise violated any FERC order, rule, or regulation. Dynegy is participating in the investigation. We believe the risk of a material loss related to the investigation to be remote. On December 31, 2015, FERC issued an order on the complaints requiring a number of prospective changes to the MISO tariff provisions associated with calculating Initial Reference Levels and Local Clearing Requirements, effective as of the 2016-2017 PRA. The order did not address the arguments of the complainants regarding the 2015-2016 PRA, and stated that those issues remain under consideration and will be addressed in a future order.

**New Source Review and CAA Matters.**

**New Source Review.** Since 1999, the EPA has been engaged in a nationwide enforcement initiative to determine whether coal-fired power plants failed to comply with the requirements of the New Source Review and New Source Performance Standard provisions under the CAA when the plants implemented modifications. The EPA’s initiative focuses on whether projects performed at power plants triggered various permitting requirements, including the need to install pollution control equipment.

In August 2012, the EPA issued a Notice of Violation (“NOV”) alleging that projects performed in 1997, 2006, and 2007 at the Newton facility violated Prevention of Significant Deterioration, Title V permitting, and other requirements. The NOV remains unresolved. We believe our defenses to the allegations described in the NOV are meritorious. A decision by the U.S. Court of Appeals for the Seventh Circuit in 2013 held that similar claims older than five years were barred by the statute of limitations. This decision may provide an additional defense to the allegations in the Newton facility NOV. In September 2016, we retired Newton Unit 2.

Zimmer NOVs. In December 2014, the EPA issued an NOV alleging violation of opacity standards at the Zimmer facility, which we co-own and operate. The EPA previously had issued NOVs to Zimmer in 2008 and 2010 alleging violations of the CAA, the Ohio State Implementation Plan, and the station's air permits involving standards applicable to opacity, sulfur dioxide, sulfuric acid mist, and heat input. The NOVs remain unresolved. We are unable to predict the outcome of these matters.

Killen and Stuart NOVs/ Notices of Intent to Sue. The EPA issued NOVs in December 2014 for Killen and Stuart, and in February 2017 for Stuart, alleging violations of opacity standards. In May and June 2017, we received two letters from the Sierra Club providing notice of its intent to sue various Dynegy entities and the owner and operator of the Killen and Stuart facilities, respectively, alleging violations of opacity standards under the CAA. We jointly own but do not operate the Killen and

DYNEGY INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

For the Interim Periods Ended June 30, 2017 and 2016

Stuart facilities. The Dayton Power and Light Company, the operator of Killen and Stuart, is expected to act on behalf of itself and the co-owners with respect to these matters. We are unable to predict the outcome of these matters.

Edwards CAA Citizen Suit. In April 2013, environmental groups filed a CAA citizen suit in the U.S. District Court for the Central District of Illinois alleging violations of opacity and particulate matter limits at our IPH segment's Edwards facility. In August 2016, the District Court granted the plaintiffs' motion for summary judgment on certain liability issues. We filed a motion seeking interlocutory appeal of the court's summary judgment ruling. In February 2017, the appellate court denied our motion for interlocutory appeal. The District Court has scheduled the remedy phase trial for October 2018. We dispute the allegations and will defend the case vigorously.

Ultimate resolution of any of these CAA matters could have a material adverse impact on our future financial condition, results of operations, and cash flows. A resolution could result in increased capital expenditures for the installation of pollution control equipment, increased operations and maintenance expenses, and penalties. At this time we are unable to make a reasonable estimate of the possible costs, or range of costs, that might be incurred to resolve these matters.

Coal Combustion Residuals/ Groundwater.

MISO Segment. In 2012, the Illinois EPA ("IEPA") issued violation notices alleging violations of groundwater standards onsite at our Baldwin and Vermilion facilities' CCR surface impoundments. In 2016, the IEPA approved our closure and post-closure care plans for the Baldwin old east, east, and west fly ash CCR surface impoundments. We are working towards implementation of those closure plans.

At our retired Vermilion facility, which is not subject to the CCR rule, we submitted proposed corrective action plans involving closure of two CCR surface impoundments (i.e., the old east and the north impoundments) to the IEPA in 2012, with revised plans submitted in 2014. In May 2017, in response to a request from the IEPA for additional information regarding the closure of these Vermilion surface impoundments, we agreed to perform additional groundwater sampling and further analysis of closure options and riverbank stabilization options.

IPH Segment. In 2012, the IEPA issued violation notices alleging violations of groundwater standards at the Newton and Coffeen facilities' CCR surface impoundments. We are addressing these CCR surface impoundments in accordance with the CCR rule.

If remediation measures concerning groundwater are necessary at any of our coal-fired MISO or IPH Segment facilities, we may incur significant costs that could have a material adverse effect on our financial condition, results of operations, and cash flows. At this time we cannot reasonably estimate the costs, or range of costs, of remediation, if any, that ultimately may be required. CCR surface impoundment and landfill closure costs are reflected in our AROs.

Dam Safety Assessment Reports. The EPA initiated a nationwide investigation of the structural integrity of CCR surface impoundments in 2009. The EPA assessments found all of our surface impoundments to be in satisfactory or fair condition, with the exception of the surface impoundments at the Baldwin and Hennepin facilities.

In response to the Hennepin report, we made capital improvements to the Hennepin east CCR surface impoundment berms and notified the EPA of our intent to close the Hennepin west CCR surface impoundment, which is reflected in our AROs. We performed further studies needed to support closure of the west CCR surface impoundment, submitted those studies to the IEPA in 2014 and await IEPA action.

In response to the Baldwin report, we notified the EPA of our action plan, which included implementation of recommended operating practices, remedial measures and studies. At this time, to resolve the concerns raised in the EPA's assessment report and as a result of the CCR rule, we plan to initiate closure of the Baldwin west fly ash CCR surface impoundment in 2017, which is reflected in our AROs.

Other Commitments

In conducting our operations, we routinely enter into long-term commodity purchase and sale commitments, as well as agreements that commit future cash flow to the lease or acquisition of assets used in our businesses. These commitments have been typically associated with commodity supply arrangements, capital projects, reservation charges associated with firm transmission, transportation, storage and leases for office space, equipment, design and

construction, plant sites, and power generation assets.

DYNEGY INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)  
For the Interim Periods Ended June 30, 2017 and 2016

#### Indemnifications and Guarantees

In the ordinary course of business, we routinely enter into contractual agreements that contain various representations, warranties, indemnifications and guarantees. Examples of such agreements include, but are not limited to, service agreements, equipment purchase agreements, engineering and technical service agreements, asset sales agreements, and procurement and construction contracts. Some agreements contain indemnities that cover the other party's negligence or limit the other party's liability with respect to third party claims, in which event we will effectively be indemnifying the other party. Virtually all such agreements contain representations or warranties that are covered by indemnifications against the losses incurred by the other parties in the event such representations and warranties are false. While there is always the possibility of a loss related to such representations, warranties, indemnifications, and guarantees in our contractual agreements, and such loss could be significant, in most cases management considers the probability of loss to be remote. We have accrued no amounts with respect to the indemnifications as of June 30, 2017 because none were probable of occurring, nor could they be reasonably estimated.

#### Note 14—Income Taxes

**Income Tax Benefit.** We compute our quarterly taxes under the effective tax rate method based on applying an anticipated annual effective rate to our year-to-date income or loss, except for significant, unusual, or extraordinary transactions. Income taxes for significant, unusual, or extraordinary transactions are computed and recorded in the period that the specific transaction occurs. The income taxes related to income (loss) from continuing operations were as follows:

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
(amounts in millions)				
Expected refund of AMT credits previously subject to a valuation allowance	\$7	\$ —	\$7	\$ —
Release of valuation allowance for OCI transactions that impacted deferred income taxes	4	—	4	—
Valuation allowance release as a result of the 2017 ENGIE Acquisition and the 2016 EquiPower Acquisition	—	3	317	3
Other state taxes	5	6	1	(10)
Income tax benefit (expense)	\$16	\$ 9	\$329	\$(7)

As of June 30, 2017, we continued to maintain a valuation allowance against our net deferred tax assets in each jurisdiction as they arise as there was not sufficient evidence to overcome our historical cumulative losses to conclude that it is more-likely-than-not our net deferred tax assets can be realized in the future.

**Unrecognized Tax Benefits.** During the first quarter of 2017, we increased our unrecognized tax benefits by \$66 million as a result of the ENGIE Acquisition for uncertain tax positions included in GSENA's tax returns prior to our ownership. The entire \$66 million would impact our effective tax rate if recognized.

#### Note 15—Pension and Other Post-Employment Benefit Plans

We sponsor and administer defined benefit plans and defined contribution plans for the benefit of our employees and also provide other post-employment benefits to retirees who meet age and service requirements, which are further described in Note 19—Employee Compensation, Savings, Pension and Other Post-Employment Benefit Plans in our Form 10-K.

In the first quarter of 2017, the Dynegy pension and other post-employment plans were amended as a result of negotiations with former Duke Midwest union participants, IBEW Local 1347. As part of these amendments, the participants' previous pension plan accrued benefits will be frozen as of December 31, 2017 and will begin accruing on January 1, 2018 with a minimum interest crediting rate of 4 percent. Other post-employment plans were amended to provide retiree medical plan benefits to only certain participants as of January 1, 2018. As a result of these amendments, we remeasured our benefit obligations and funded status of the affected plans and recorded a net-of-tax

gain of approximately \$15 million through accumulated other comprehensive income during the first quarter of 2017.

Expected return on plan assets	(13)	(12)	(1)	(2)
Amortization of prior service credit	(1)	—	(3)	(2)
Net periodic benefit cost (gain)	\$5	\$6	\$(3)	\$(2)

Note 16—Stockholders' Equity

#### Preferred Stock

We pay quarterly dividends on our mandatory convertible preferred stock on February 1, May 1, August 1, and November 1 of each year, if declared by our Board of Directors. For each of the six months ended June 30, 2017 and 2016, we paid \$11 million in dividends.

On July 3, 2017, our Board of Directors declared a dividend on our mandatory convertible preferred stock of \$1.34 per share, or approximately \$5 million in the aggregate. The dividend is for the period beginning on May 1, 2017 and ending on July 31, 2017. Such dividends were paid on August 1, 2017, to stockholders of record as of July 15, 2017.

#### Stock Purchase Agreement-Terawatt

On February 24, 2016, Dynegy entered into a Stock Purchase Agreement with Terawatt Holdings, LP (“Terawatt”), an affiliate of the ECP Funds, pursuant to which at the ENGIE Acquisition Closing Date, Dynegy issued to Terawatt 13,711,152 shares of Dynegy common stock for \$150 million.

#### ECP Buyout

Dynegy settled its payment obligation to Energy Capital Partners (“ECP”) of \$375 million on the ENGIE Acquisition Closing Date. This payment is recorded as a reduction in additional paid-in capital in our unaudited consolidated balance sheet and is reflected as a purchase of a noncontrolling interest in financing activities in our unaudited consolidated statement of cash flows as of June 30, 2017.

#### Earnings (Loss) Per Share

Basic earnings (loss) per share is based on the weighted average number of common shares outstanding during the period. Diluted earnings (loss) is based on the weighted average number of common shares used for the basic earnings (loss) per share computation, adjusted for the incremental issuance of shares of common stock assuming (i) our stock options and warrants are exercised under the treasury stock method, (ii) our restricted stock units and performance stock units are fully vested under the treasury stock method, and (iii) our mandatory convertible preferred stock and the SPCs are converted into common stock under the if-converted method. Please read Note 18—Capital Stock and Note 13—Tangible Equity Units in our Form 10-K for further discussion.

DYNEGY INC.  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)  
 For the Interim Periods Ended June 30, 2017 and 2016

The following table reflects significant components of our weighted-average shares outstanding used in the basic and diluted loss per share calculations for the three and six months ended June 30, 2017 and 2016:

	Three		Six	
	Months		Months	
	Ended		Ended	
	June 30,		June 30,	
(in millions)	2017	2016	2017	2016
Shares outstanding at the beginning of the period (1)	154	117	140	117
Weighted-average shares outstanding during the period of:				
Shares issued under long-term compensation plans	—	—	1	—
Shares issued under the PIPE Transaction	—	—	11	—
Prepaid stock purchase contract (TEUs) (1)	—	3	—	1
Basic weighted-average shares outstanding	154	120	152	118
Dilution from potentially dilutive shares (2)	—	—	19	—
Diluted weighted-average shares outstanding (3)	154	120	171	118

(1) The minimum settlement amount of the TEUs, or 23,092,460 shares, is considered to be outstanding since the issuance date of June 21, 2016, and is included in the computation of basic earnings (loss) per share for the three and six months ended June 30, 2017 and 2016. Please read Note 13—Tangible Equity Units in our Form 10-K for further discussion.

(2) Shares included in the computation of diluted earnings per share for the six months ended June 30, 2017 consist of: 5,425,700 additional shares upon settlement of the TEUs - which reflects the difference between the minimum settlement amount included in basic weighted-average shares outstanding and the maximum settlement amount (28,518,160 shares);

12,903,200 additional shares consisting of the maximum settlement amount of shares which can be converted from our outstanding mandatory convertible preferred stock; and

774,864 additional shares attributable to restricted stock units and performance stock units.

(3) Entities with a net loss from continuing operations are prohibited from including potential common shares in the computation of diluted per share amounts. Accordingly, we have utilized the basic shares outstanding amount to calculate both basic and diluted loss per share for the three months ended June 30, 2017 and three and six months ended June 30, 2016.

For the three and six months ended June 30, 2017 and 2016, the following potentially dilutive securities were not included in the computation of diluted per share amounts because the effect would be anti-dilutive:

	Three		Six	
	Months		Months	
	Ended		Ended	
	June 30,		June 30,	
(in millions of shares)	2017	2016	2017	2016
Stock options	4.3	2.8	2.8	2.8
Restricted stock units	1.3	1.3	—	1.3
Performance stock units	1.6	1.2	—	1.2
Warrants	24.4	15.6	24.4	15.6
Series A 5.375% mandatory convertible preferred stock	12.9	12.9	—	12.9
Prepaid stock purchase contract (TEUs)	5.4	5.4	—	5.4
Total	49.9	39.2	27.2	39.2

DYNEGY INC.  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)  
 For the Interim Periods Ended June 30, 2017 and 2016

Accumulated Other Comprehensive Income

Changes in accumulated other comprehensive income, net of tax, by component, are as follows:

(amounts in millions)	Six Months Ended June 30, 2017	2016
Beginning of period	\$21	\$19
Other comprehensive income before reclassifications:		
Actuarial gain and plan amendments (net of tax of \$4 and zero, respectively)	11	—
Amounts reclassified from accumulated other comprehensive income:		
Amortization of unrecognized prior service credit (net of tax of zero and zero, respectively) (1)	(4 )	(2 )
Net current period other comprehensive income (loss), net of tax	7	(2 )
End of period	\$28	\$17

Amounts are associated with our defined benefit pension and other post-employment benefit plans and are included (1) in the computation of net periodic pension cost (gain). Please read Note 15—Pension and Other Post-Employment Benefit Plans for further discussion.

Note 17—Condensed Consolidating Financial Information

Dynegy's senior notes are guaranteed by certain, but not all, of our wholly owned subsidiaries. The following condensed consolidating financial statements present the financial information of (i) Dynegy ("Parent"), which is the parent and issuer of the senior notes, on a stand-alone, unconsolidated basis, (ii) the guarantor subsidiaries of Dynegy, (iii) the non-guarantor subsidiaries of Dynegy, and (iv) the eliminations necessary to arrive at the information for Dynegy on a consolidated basis. The 100 percent owned subsidiary guarantors, jointly, severally, fully, and unconditionally, guarantee the payment obligations under the senior notes. Please read Note 12—Debt for further discussion.

These statements should be read in conjunction with the unaudited consolidated financial statements and notes thereto of Dynegy. The supplemental condensed consolidating financial information has been prepared pursuant to the rules and regulations for condensed financial information and does not include all disclosures included in annual financial statements. The inclusion of Dynegy's subsidiaries as either guarantor subsidiaries or non-guarantor subsidiaries in the condensed consolidating financial information is determined as of the most recent balance sheet date presented. On February 2, 2017, upon Genco's emergence from bankruptcy, IPH (excluding Electric Energy, Inc.) became a guarantor to the senior notes. Accordingly, condensed consolidating financial information previously reported has been retroactively adjusted to reflect the status of Dynegy's subsidiaries as either guarantor subsidiaries or non-guarantor subsidiaries as of June 30, 2017.

For purposes of the unaudited condensed consolidating financial statements, a portion of our intercompany receivable, which we do not consider to be likely of settlement, has been classified as equity as of June 30, 2017 and December 31, 2016.

Note 18—Genco Chapter 11 Bankruptcy and Emergence

On December 9, 2016, Genco filed a petition (the “Bankruptcy Petition”) under title 11 of the United States Code (the “Bankruptcy Code”) in the United States Bankruptcy Court for the Southern District of Texas (the “Bankruptcy Court”). On January 25, 2017, the Bankruptcy Court confirmed the Genco Plan and Genco emerged from bankruptcy on February 2, 2017. As a result, we eliminated \$825 million of Genco senior notes and \$7 million of accrued interest in exchange for:

• On the Emergence Date, \$113 million of cash, \$182 million of new Dynegy seven year unsecured notes, and warrants (the “2017 Warrants”) to purchase up to 8.7 million shares of common stock with a fair value of \$17 million.

• On April 18, 2017, \$3 million of cash, \$3 million of new Dynegy seven-year unsecured notes, and 0.1 million 2017 Warrants with a fair value of less than \$1 million.

The 2017 Warrants, which have an exercise price of \$35 per share of common stock, have a seven-year term expiring on February 2, 2024 and are recorded as Other long-term liabilities in our unaudited consolidated balance sheet as of June 30, 2017.

DYNEGY INC.  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)  
 For the Interim Periods Ended June 30, 2017 and 2016

The following table summarizes the Company's gain from the termination of the Genco senior notes, which is recognized in Bankruptcy reorganization items in our unaudited consolidated statement of operations for the six months ended June 30, 2017:

(amounts in millions)

Liabilities subject to compromise, which were terminated	\$832
Less:	
Seven-year unsecured notes	185
Cash consideration	116
Accrual for future potential distributions	22
2017 Warrants, at fair value	17
Legal and consulting fees	10
Bankruptcy reorganization items	\$482

For income tax purposes, the income from cancellation of debt is excluded from taxable income in the current year and will instead reduce Genco's tax attributes.

As of June 30, 2017, we have accrued a liability of \$22 million for remaining distributions. On August 1, 2017, approximately \$6 million of cash, \$4 million of new Dynegy seven-year unsecured notes, and 0.2 million 2017 Warrants with a fair value of less than \$1 million were issued to remaining eligible holders of Genco senior notes and represented the final payment in the Genco restructuring. Accordingly, we will recognize an approximate \$12 million additional gain to Bankruptcy reorganization items in the third quarter of 2017.

Note 19—Segment Information

We report the results of our operations in six segments: (i) PJM, (ii) NY/NE, (iii) ERCOT, (iv) MISO, (v) IPH, and (vi) CAISO. PJM also includes our Dynegy Energy Services retail business in Ohio and Pennsylvania. IPH also includes our Homefield Energy retail business in Illinois. Our unaudited consolidated financial results also reflect corporate-level expenses such as general and administrative expense, interest expense, and income tax benefit (expense).
