## **NATIONAL BEVERAGE CORP. AND SUBSIDIARIES**

### **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

National Beverage Corp. develops, produces, markets and sells a diverse portfolio of flavored beverage products primarily in North America. Incorporated in Delaware in 1985, National Beverage Corp. is a holding company for various operating subsidiaries. When used in this report, the terms “we,” “us,” “our,” “Company” and “National Beverage” mean National Beverage Corp. and its subsidiaries.

#### **1. SIGNIFICANT ACCOUNTING POLICIES**

##### ***Basis of Presentation***

The consolidated financial statements include the accounts of National Beverage Corp. and its subsidiaries. Significant intercompany transactions and accounts have been eliminated.

The consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles (“GAAP”) and rules and regulations of the Securities and Exchange Commission for interim financial reporting. Accordingly, they do not include all information and notes presented in the annual consolidated financial statements. The consolidated financial statements should be read in conjunction with the annual consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the fiscal year ended April 29, 2017. Excluding the adoption of the recently issued accounting pronouncements disclosed in Note 6, the accounting policies used in these interim consolidated financial statements are consistent with those used in the annual consolidated financial statements.

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. In our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Results for the interim periods presented are not necessarily indicative of results which might be expected for the entire fiscal year.

##### ***Derivative Financial Instruments***

We use derivative financial instruments to partially mitigate our exposure to changes in raw material costs. All derivative financial instruments are recorded at fair value in our Consolidated Balance Sheets. The estimated fair value of derivative financial instruments is calculated based on market rates to settle the instruments. We do not use

derivative financial instruments for trading or speculative purposes. Credit risk related to derivative financial instruments is managed by requiring high credit standards for counterparties and frequent cash settlements. See Note 5.

### *Earnings Per Common Share*

Basic earnings per common share is computed by dividing earnings available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per common share is calculated in a similar manner, but includes the dilutive effect of stock options.

### *Inventories*

Inventories are stated at the lower of first-in, first-out cost or market. Inventories at October 28, 2017 were comprised of finished goods of \$38.4 million and raw materials of \$21.3 million. Inventories at April 29, 2017 were comprised of finished goods of \$35.0 million and raw materials of \$18.4 million.

## 2. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment consist of the following:

	(In thousands)	
	October 28, 2017	April 29, 2017
Land	\$9,500	\$9,500
Buildings and improvements	51,323	51,157
Machinery and equipment	181,073	172,257
Total	241,896	232,914
Less accumulated depreciation	(172,537)	(167,764)
Property, plant and equipment – net	\$69,359	\$65,150

Depreciation expense was \$3.1 million and \$6.1 million for the three and six months ended October 28, 2017, respectively, and \$2.7 million and \$5.4 million for the three and six months ended October 29, 2016, respectively.

## 3. DEBT

At October 28, 2017, a subsidiary of the Company maintained unsecured revolving credit facilities with banks aggregating \$100 million (the “Credit Facilities”). The Credit Facilities expire from June 18, 2018 to April 30, 2021 and any borrowings would currently bear interest at .9% above one-month LIBOR. There were no borrowings outstanding under the Credit Facilities at October 28, 2017 or April 29, 2017. At October 28, 2017, \$2.2 million of the Credit Facilities was reserved for standby letters of credit and \$97.8 million was available for borrowings.

The Credit Facilities require the subsidiary to maintain certain financial ratios, including debt to net worth and debt to EBITDA (as defined in the Credit Facilities), and contain other restrictions, none of which are expected to have a material effect on our operations or financial position. At October 28, 2017, we were in compliance with all loan covenants.

## 4. STOCK-BASED COMPENSATION

During the six months ended October 28, 2017, options to purchase 17,400 shares were exercised (weighted average exercise price of \$16.18 per share) and options to purchase 900 shares were cancelled (weighted average exercise price of \$17.59 per share). At October 28, 2017, options to purchase 365,795 shares (weighted average exercise price of \$11.24 per share) were outstanding and stock-based awards to purchase 2,810,914 shares of common stock were available for grant.

## 5. DERIVATIVE FINANCIAL INSTRUMENTS

From time to time, we enter into aluminum swap contracts to partially mitigate our exposure to changes in the cost of aluminum cans. Such financial instruments are designated and accounted for as a cash flow hedge. Accordingly, gains or losses attributable to the effective portion of the cash flow hedge are reported in Accumulated Other Comprehensive Income (Loss) (“AOCI”) and reclassified into cost of sales in the period in which the hedged transaction affects earnings. The ineffective portion of the change in fair value of our cash flow hedge was immaterial. The following summarizes the gains (losses) recognized in the Consolidated Statements of Income and AOCI relative to the cash flow hedge for the three and six months ended October 28, 2017 and October 29, 2016:

	(In thousands)			
	Three Months		Six Months	
	Ended	Ended	Ended	Ended
	2017	2016	2017	2016
Recognized in AOCI:				
Gain (loss) before income taxes	\$5,523	\$253	\$4,556	\$(197 )
Less income tax provision (benefit)	2,049	94	1,690	(73 )
Net	\$3,474	\$159	\$2,866	\$(124 )
Reclassified from AOCI to cost of sales:				
Gain (loss) before income taxes	\$362	\$(1,083)	\$393	\$(2,193)
Less income tax provision (benefit)	135	(402 )	146	(814 )
Net	\$227	\$(681 )	\$247	\$(1,379)
Net change to AOCI	\$3,247	\$840	\$2,619	\$1,255

As of October 28, 2017, the notional amount of our outstanding aluminum swap contracts was \$42.6 million and, assuming no change in the commodity prices, \$3.1 million of unrealized gain before tax will be reclassified from AOCI and recognized in earnings over the next 12 months. See Note 1.

As of October 28, 2017, the fair value of the derivative asset and derivative long-term asset was \$3.1 million and \$308,000, which was included in prepaid and other assets and other assets, respectively. At April 29, 2017, the fair value of the derivative asset, derivative liability and derivative long-term liability was \$602,000, \$848,000 and \$476,000, which was included in prepaid and other assets, accrued liabilities and other liabilities, respectively. Such valuation does not entail a significant amount of judgment and the inputs that are significant to the fair value measurement are Level 2 as defined by the fair value hierarchy as they are observable market based inputs or unobservable inputs that are corroborated by market data.

## 6. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2016-09, “Compensation-Stock Compensation: Improvements to Employee Share-Based Payment Accounting” (“ASU 2016-09”). The updated guidance simplifies and changes how companies account for certain aspects of share-based payment awards to employees, including accounting for income taxes and forfeitures, as well as classification of certain items in the statement of cash flows. The Company adopted ASU 2016-09 effective April 30, 2017 and elected to apply the cash flow guidance retrospectively; therefore, cash flow from operating activities increased and cash flow from financing activities decreased by \$76,000 for the six months ended October 29, 2016. The Company also elected to continue to estimate the number of awards that are expected to vest using the forfeiture option. The adoption of ASU 2016-09 reduced the Company’s income tax expense by \$480,000 and \$561,000 for the three and six months ended October 28, 2017, respectively.

In November 2015, the FASB issued Accounting Standards Update No. 2015-17, “Balance Sheet Classification of Deferred Taxes” (“ASU 2015-17”). ASU 2015-17 requires companies to classify all deferred tax liabilities and assets as noncurrent on the balance sheet. We adopted ASU 2015-17 effective for our fiscal year beginning April 30, 2017, electing to apply it retrospectively to all periods presented. As a result, \$3.9 million of deferred taxes was reclassified from current to non-current on the consolidated balance sheet as of April 29, 2017.

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, “Revenue from Contracts with Customers” (“ASU 2014-09”). ASU 2014-09 requires an entity to recognize revenue in an amount that reflects the consideration it expects to receive in exchange for goods or services. On August 12, 2015, the FASB issued ASU 2015-14 which deferred the effective date of ASU 2014-09 by one year and is effective for our fiscal year beginning April 29, 2018. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements; however, adoption is not expected to have a material impact on our financial position, results of operations or cash flows.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, “Leases” (“ASU 2016-02”). ASU 2016-02 requires the lease rights and obligations arising from lease contracts, including existing and new arrangements, to be recognized as assets and liabilities on the balance sheet. ASU 2016-02 is effective for our fiscal year beginning April 28, 2019. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In August 2017, the FASB issued Accounting Standards Update 2017-12, “Targeted Improvements to Accounting for Hedge Activities” (“ASU 2017-12”). This amendment simplifies the application of hedge accounting and enables companies to better portray the economics of risk management activities in their financial statements. ASU 2017-12 is effective for our fiscal year beginning April 28, 2019. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

## **7. COMMITMENTS AND CONTINGENCIES**

As of October 28, 2017, we guaranteed the residual value of certain leased equipment in the amount of \$1.7 million. If the proceeds from the sale of such equipment are less than the balance required by the lease when the lease terminates on August 1, 2019, the Company shall be required to pay the difference up to such guaranteed amount. The Company does not expect to incur a loss on such guarantee.

## **8. CASH DIVIDEND**

On May 5, 2017, the Company declared a special cash dividend of \$1.50 per share to shareholders of record on June 5, 2017. The cash dividend of \$69.9 million was paid on August 4, 2017.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Overview

National Beverage Corp. proudly refreshes America with a distinctive portfolio of Sparkling Waters, Juices, Energy Drinks and Carbonated Soft Drinks. We believe that our ingenious product designs, innovative packaging and imaginative flavors, along with our corporate culture and philosophy, makes National Beverage unique in the beverage industry. The Company's primary market focus is North America, but our products are also distributed in various other countries. National Beverage Corp. was incorporated in Delaware in 1985 and began trading as a public company on the NASDAQ Stock Market in 1991. In this report, the terms "we," "us," "our," "Company" and "National Beverage" mean National Beverage Corp. and its subsidiaries unless indicated otherwise.

National Beverage is evolving to meet the healthy hydration demands of consumers. Health and wellness awareness has increased significantly, resulting in growing demand for beverages with little or no calories and wholesome natural ingredients. Our brands emphasize distinctly-flavored beverages in attractive packaging that appeal to multiple demographic groups. The attentive, health-conscious and discriminating consumer is ever more alert to wellness choices and better-for-you ingredients that align to this transition and strategic focus.

Our brands consist of (i) beverages geared to the active and health-conscious consumer ("Power+ Brands") including sparkling waters, energy drinks, and juices, and (ii) Carbonated Soft Drinks in a variety of flavors including regular, sugar-free and reduced calorie options. Our portfolio of Power+ Brands includes LaCroix®, LaCroix Cúrate™, LaCroix NiCola™ and Shasta Sparkling Water® products; Rip It® energy drinks and shots; and Everfresh®, Everfresh Premier Varietals™ and Mr. Pure® 100% juice and juice-based products. Our Carbonated Soft Drinks portfolio includes Shasta® and Faygo®, iconic brands whose flavor development spans more than 125 years.

To service a diverse customer base that includes numerous national retailers, as well as thousands of smaller "up-and-down-the-street" accounts, we utilize a hybrid distribution system to deliver our products primarily through the take-home, convenience and food-service channels.

Our strategy emphasizes the growth of our products by (i) developing healthier beverages in response to the global shift in consumer buying habits and tailoring the variety and types of beverages in our portfolio to satisfy the preferences of a diverse mix of 'crossover consumers' – a growing group desiring a change to better-for-you beverages; (ii) emphasizing unique flavor development and variety throughout our product lines and brands; (iii) leveraging our efficient production and distribution systems, cost-effective social media platforms and regionally focused marketing programs to profitably deliver high-quality products at optimal consumer price-points; and (iv) responding faster and

more creatively to consumer trends than competitors who are burdened by production and distribution complexity as well as legacy costs.

Our operating results are affected by numerous factors, including fluctuations in the costs of raw materials, changes in consumer preference for beverage products, competitive pricing in the marketplace and weather conditions. Beverage sales are seasonal with the highest volume typically realized during the summer and warmer months. As a result, our operating results from one fiscal quarter to the next may not be comparable.

## RESULTS OF OPERATIONS

Three Months Ended October 28, 2017 (second quarter of fiscal 2018) compared to

Three Months Ended October 29, 2016 (second quarter of fiscal 2017)

Net sales for the second quarter of fiscal 2018 increased 20.1% to \$244.1 million compared to \$203.2 million for the second quarter of fiscal 2017. The increase in sales resulted primarily from a 17.7% increase in case volume and, to a lesser extent, a higher average selling price. The volume increase includes 41.0% growth of our Power+ Brands, partially offset by a decline in Carbonated Soft Drinks. Average selling price per case increased 1.4% due to changes in product mix.

Gross profit for the second quarter of fiscal 2018 increased 22.1% to \$96.1 million compared to \$78.7 million for the second quarter of fiscal 2017. The increase in gross profit is due to increased volume and growth in higher margin Power+ Brands. The cost of sales per case was flat. As a result, gross margin improved to 39.4% compared to 38.7% for the second quarter of fiscal 2017.

Selling, general and administrative expenses for the second quarter of fiscal 2018 increased \$4.0 million to \$45.4 million from \$41.4 million for the second quarter of fiscal 2017. The increase was due to higher distribution, selling, marketing and administrative costs, primarily related to volume growth. As a percent of net sales, selling, general and administrative expenses decreased to 18.6% from 20.4% primarily due to the leveraging effects of higher volume on fixed costs.

Other income includes interest income of \$315,000 for the second quarter of fiscal 2018 and \$143,000 for the second quarter of fiscal 2017. The increase in interest income is due to higher return on investments, partially offset by lower average invested balances.

The Company's effective income tax rate, based upon estimated annual income tax rates, was 33.3% for the second quarter of fiscal 2018 and 34.2% for the second quarter of fiscal 2017. The difference between the effective rate and the federal statutory rate of 35% was primarily due to the effects of state income taxes, the domestic manufacturing deduction and the adoption of ASU 2016-09 related to share-based payment awards. See Note 6 of Notes to Unaudited Consolidated Financial Statements.

Six Months Ended October 28, 2017 (first six months of fiscal 2018) compared to

Six Months Ended October 29, 2016 (first six months of fiscal 2017)

Net sales for the first six months of fiscal 2018 increased 19.9% to \$504.0 million compared to \$420.3 million for the first six months of fiscal 2017. The increase in sales resulted primarily from a 16.2% increase in case volume and, to a lesser extent, a higher average selling price. The volume increase includes 39.3% growth of our Power+ Brands, partially offset by a decline in Carbonated Soft Drinks. Average selling price per case increased 2.0% due to changes in product mix.

Gross profit for the first six months of fiscal 2018 increased 22.1% to \$200.6 million compared to \$164.2 million for the first six months of fiscal 2017. The increase in gross profit is due to increased volume and growth in higher margin Power+ Brands. The cost of sales per case was flat. As a result, gross margin improved to 39.8% compared to 39.1% for the first six months of fiscal 2017.

Selling, general and administrative expenses for the first six months of fiscal 2018 increased \$9.3 million to \$92.1 million from \$82.9 million for the first six months of fiscal 2017. The increase was due to higher distribution, selling, marketing and administrative costs, primarily related to volume growth. As a percent of net sales, selling, general and administrative expenses decreased to 18.3% from 19.7% primarily due to the leveraging effects of higher volume on fixed costs.

Other income includes interest income of \$596,000 for the first six months of fiscal 2018 and \$246,000 for the first six months of fiscal 2017. The increase in interest income is due to both average invested balances and return on investments.

The Company's effective income tax rate, based upon estimated annual income tax rates, was 33.7% for the first six months of fiscal 2018 and 34.2% for the first six months of fiscal 2017. The difference between the effective rate and the federal statutory rate of 35% was primarily due to the effects of state income taxes, the domestic manufacturing deduction and the adoption of ASU 2016-09 related to share-based payment awards. See Note 6 of Notes to Unaudited Consolidated Financial Statements.

## **LIQUIDITY AND FINANCIAL CONDITION**

### **Liquidity and Capital Resources**

Our principal source of funds is cash generated from operations. At October 28, 2017, we maintained \$100 million unsecured revolving credit facilities, under which no borrowings were outstanding and \$2.2 million was reserved for standby letters of credit. We believe existing capital resources will be sufficient to meet our liquidity and capital requirements for the next twelve months.

On May 5, 2017, the Company declared a special cash dividend of \$1.50 per share to shareholders of record on June 5, 2017. The cash dividend totaling \$69.9 million was paid on August 4, 2017.

### **Cash Flows**

Net cash provided by operating activities for the first six months of fiscal 2018 amounted to \$72.3 million compared to \$53.3 million for the first six months of fiscal 2017. For the first six months of fiscal 2018, cash flow was principally provided by net income of \$72.3 million, an increase in accounts payable of \$6.6 million and depreciation and amortization aggregating \$7.1 million, offset in part by volume related increases in trade receivables and inventory.

Net cash used in investing activities for the first six months of fiscal 2018 reflects capital expenditures of \$10.3 million, compared to capital expenditures of \$8.5 million for the first six months of fiscal 2017. Capital expenditures were increased in order to support volume growth.

Net cash used in financing activities for the first six months of fiscal 2018 amounted to \$69.6 million, which included the payment of cash dividends of \$69.9 million.

### **Financial Position**

During the first six months of fiscal 2018, our working capital increased to \$183.1 million from \$181.1 million at April 29, 2017. The increase in working capital resulted primarily from higher trade receivables and inventories, partially offset by lower cash and higher accounts payable balances. Trade receivables increased \$9.0 million due to increased sales, while days sales outstanding improved to 29.9 days from 30.6 days. Inventories increased \$6.4 million as a result of the Company maintaining higher inventory levels to support sales increases. Inventory turns improved to 9.9 from 9.5 times. At October 28, 2017, the current ratio was 2.9 to 1 compared to 3.1 to 1 at April 29, 2017 primarily due to the effect of the \$69.9 million cash dividend.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

There have been no material changes in market risks from those reported in our Annual Report on Form 10-K for the fiscal year ended April 29, 2017.

### **ITEM 4. CONTROLS AND PROCEDURES**

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of the Company's management, including our Chief Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our "disclosure controls and procedures" (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures were effective to ensure information required to be disclosed by us in reports we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (2) accumulated and communicated to our management, including our Chief Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

### **FORWARD-LOOKING STATEMENTS**

Certain statements in this Quarterly Report on Form 10-Q (the "Form 10-Q") constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risk, uncertainties and other factors that may cause the actual results, performance or achievements of our Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, but are not limited to, the following: general economic and business conditions, pricing of competitive products, success of new product and flavor introductions, fluctuations in the costs of raw materials and packaging supplies, ability to pass along cost increases to our customers, labor strikes or work stoppages or other interruptions in the employment of labor, continued retailer support for our products, changes in brand image, consumer preferences and our success in creating products geared toward consumers' tastes, success in implementing business strategies, changes in business strategy or development plans, government regulations, taxes or fees imposed on the sale of our products, unfavorable weather conditions and other factors referenced in this Form 10-Q. For a further list and description of various risks, relevant factors and uncertainties that could cause future results or events to differ materially from those expressed or implied in our forward-looking statements, see the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition

and Results of Operations” sections contained in our Annual Report on Form 10-K for the fiscal year ended April 29, 2017 and other filings with the Securities and Exchange Commission. We disclaim an obligation to update any such factors or to publicly announce the results of any revisions to any forward-looking statements contained herein to reflect future events or developments.
