SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2015

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission File Number: 001-34480

VERISK ANALYTICS, INC.
(Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction of incorporation or organization)	26-2994223 (I.R.S. Employer Identification No.)
---	---

545 Washington Boulevard Jersey City, NJ (Address of principal executive offices) (201) 469-2000 (Registrant’s telephone number, including area code)	07310-1686 (Zip Code)
---	--------------------------

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company <input type="checkbox"/>

Edgar Filing: Verisk Analytics, Inc. - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 24, 2015, there were 168,486,740 shares outstanding of the registrant's Common Stock, par value \$.001.

VERISK ANALYTICS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Amounts in thousands, except for share and per share data, unless otherwise stated)

1. Organization:

Verisk Analytics, Inc. and its consolidated subsidiaries (“Verisk” or the “Company”) enable risk-bearing businesses to better understand and manage their risks. The Company provides its customers proprietary data that, combined with analytic methods, create embedded decision support solutions. The Company is one of the largest aggregators and providers of data pertaining to property and casualty (“P&C”) insurance risks in the United States of America (“U.S.”). The Company offers solutions for detecting fraud in the U.S. P&C insurance, financial, healthcare, and global energy industries and sophisticated methods to predict and quantify loss in diverse contexts ranging from natural catastrophes to supply chain to health insurance. The Company provides solutions, including data, statistical models or tailored analytics, all designed to allow clients to make more logical decisions.

Verisk was established to serve as the parent holding company of Insurance Services Office, Inc. (“ISO”) upon completion of the initial public offering (“IPO”), which occurred on October 9, 2009. ISO was formed in 1971 as an advisory and rating organization for the P&C insurance industry to provide statistical and actuarial services, to develop insurance programs and to assist insurance companies in meeting state regulatory requirements. For over the past decade, the Company has broadened its data assets, entered new markets, placed a greater emphasis on analytics, and pursued strategic acquisitions. Verisk trades under the ticker symbol “VRSK” on the NASDAQ Global Select Market.

2. Basis of Presentation and Summary of Significant Accounting Policies:

The accompanying unaudited condensed consolidated financial statements have been prepared on the basis of accounting principles generally accepted in the U.S. (“U.S. GAAP”). The preparation of financial statements in conformity with these accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant estimates include acquisition purchase price allocations, the fair value of goodwill, the realization of deferred tax assets, fair value of stock based compensation, assets and liabilities for pension and postretirement benefits, and the estimate for the allowance for doubtful accounts. Actual results may ultimately differ from those estimates. The results of operations for the Company’s mortgage services business are reported as a discontinued operation for the period presented herein (See Note 6).

On May 19, 2015, the Company acquired Wood Mackenzie Limited (“Wood Mackenzie”) and has incorporated its financial statements into the Company’s condensed consolidated financial statements as of that date. The preliminarily estimated fair values of the tangible and intangible assets acquired and liabilities assumed in connection with the purchase of Wood Mackenzie have been recognized in the accompanying condensed consolidated balance sheets at June 30, 2015 based upon their preliminarily estimated fair values on May 19, 2015. The excess of the purchase price over the preliminary fair values of the net tangible and intangible assets was recorded as goodwill. The preliminary fair values recorded were based upon estimates and assumptions used in the Company’s historical valuation methodology. These estimates and assumptions are subject to change during the measurement period (up to one year from the acquisition date) and may have a significant impact on the consolidated financial statements (See Note 5 for further information).

The condensed consolidated financial statements as of June 30, 2015 and for the three and six months ended June 30, 2015 and 2014, in the opinion of management, include all adjustments, consisting of normal recurring items, to present fairly the Company’s financial position, results of operations and cash flows. The operating results for the three and six months ended June 30, 2015 are not necessarily indicative of the results to be expected for the full year. The condensed consolidated financial statements and related notes for the three and six months ended June 30, 2015 have been prepared on the same basis as and should be read in conjunction with the annual report on Form 10-K for the year ended December 31, 2014. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to the rules of the Securities and Exchange Commission (“SEC”). The Company believes the disclosures made are adequate to keep the

information presented from being misleading.
Recent Accounting Pronouncements

In April 2015, the Financial Accounting Standard Board ("FASB") issued Accounting Standards Update ("ASU") 2015-03, Simplifying the Presentation of Debt Issuance Costs ("ASU No. 2015-03"). The amendments in this update require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. ASU No. 2015-03 is effective for fiscal years beginning after December 15,

6

Table of Contents

2015, and interim periods within those fiscal years. Early adoption is permitted. The Company has elected not to early adopt and will conform with ASU No. 2015-03 in the condensed consolidated financial statements in future periods.

In April 2015, the FASB issued ASU 2015-05, Customer's Accounting for Fees Paid in a Cloud Computing Arrangement ("ASU No. 2015-05"). This guidance is intended to help entities evaluate the accounting for fees paid by a customer in a cloud computing arrangement, primarily to determine whether the arrangement includes a sale or license of software. ASU No. 2015-05 is effective for annual periods, including interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted. The Company has elected not to early adopt. The adoption of ASU No. 2015-05 is not expected to have a material impact on the Company's condensed consolidated financial statements.

3. Investments:

Available-for-sale securities consisted of the following:

	Adjusted Cost	Gross Unrealized Loss	Fair Value
June 30, 2015			
Registered investment companies	\$ 3,858	\$ (133)	\$ 3,725
December 31, 2014			
Registered investment companies	\$ 4,045	\$ (244)	\$ 3,801

In addition to the available-for-sale securities above, the Company has equity investments in non-public companies in which the Company acquired non-controlling interests and for which no readily determinable market value exists. These securities were accounted for under the cost method in accordance with ASC 323-10-25, The Equity Method of Accounting for Investments in Common Stock. At June 30, 2015 and December 31, 2014, the carrying value of such securities was \$8,588 and \$8,487, respectively, and has been included in "Other assets" in the accompanying condensed consolidated balance sheets.

4. Fair Value Measurements:

Certain assets and liabilities of the Company are reported at fair value in the accompanying condensed consolidated balance sheets. To increase consistency and comparability of assets and liabilities recorded at fair value, ASC 820-10, Fair Value Measurements ("ASC 820-10"), established a three-level fair value hierarchy to prioritize the inputs to valuation techniques used to measure fair value. ASC 820-10 requires disclosures detailing the extent to which companies measure assets and liabilities at fair value, the methods and assumptions used to measure fair value and the effect of fair value measurements on earnings. In accordance with ASC 820-10, the Company applied the following fair value hierarchy:

- Level 1 - Assets or liabilities for which the identical item is traded on an active exchange, such as publicly-traded instruments.
- Level 2 - Assets and liabilities valued based on observable market data for similar instruments.
- Level 3 - Assets or liabilities for which significant valuation assumptions are not readily observable in the market; instruments valued based on the best available data, some of which are internally-developed, and considers risk premiums that market participants would require.

The fair values of cash and cash equivalents (other than money-market funds which are recorded on a reported net asset value basis disclosed below), accounts receivable, accounts payable and accrued liabilities, fees received in advance, and short-term debt approximate their carrying amounts because of the short-term nature of these instruments.

The following table summarizes fair value measurements by level for cash equivalents and registered investment companies that were measured at fair value on a recurring basis:

Table of Contents

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
June 30, 2015			
Registered investment companies (1)	\$ 3,725	\$ 3,725	\$ —
December 31, 2014			
Cash equivalents - money-market funds	\$ 3,707	\$ —	\$ 3,707
Registered investment companies (1)	\$ 3,801	\$ 3,801	\$ —

(1) Registered investment companies are classified as available-for-sale securities and are valued using quoted prices in active markets multiplied by the number of shares owned.

The Company has not elected to carry its long-term debt at fair value. The carrying value of the long-term debt represents amortized cost. The Company assesses the fair value of its long-term debt based on quoted market prices if available, and if not, an estimate of interest rates available to the Company for debt with similar features, the Company's current credit rating and spreads applicable to the Company. The fair value of the long-term debt would be a Level 2 liability if the long-term debt was measured at fair value on the condensed consolidated balance sheets. The following table summarizes the carrying value and estimated fair value of the long-term debt as of June 30, 2015 and December 31, 2014, respectively:

	2015 Carrying Value	Estimated Fair Value	2014 Carrying Value	Estimated Fair Value
Financial instrument not carried at fair value:				
Long-term debt excluding capitalized leases	\$ 2,290,241	\$ 2,326,220	\$ 1,265,848	\$ 1,371,213

5. Acquisitions:

2015 Acquisition

On May 19, 2015, the Company acquired 100 percent of the stock of Wood Mackenzie for a net cash purchase price of \$2,889,629, including \$78,694 of an indemnity escrow, which the Company financed through a combination of debt and equity offerings, borrowings under the Company's new credit facility, and cash on hand. Due to the fact that a portion of the purchase price was funded in pounds sterling and the remainder in U.S. dollars, the Company entered into a foreign currency hedging instrument to purchase pounds sterling. The Company recorded a gain within "Gain on derivative instruments" in the accompanying consolidated statements of operations and received proceeds on the hedge of \$85,187. These proceeds were utilized to partially fund the acquisition of Wood Mackenzie. Wood Mackenzie is a global provider of data analytics and commercial intelligence for the energy, chemicals, metals and mining verticals. This acquisition advances the Company's strategy to expand internationally and positions the Company in the global energy market. Wood Mackenzie is included in the energy and specialized markets vertical, formerly named the specialized markets vertical, of the Decision Analytics segment.

Table of Contents

The preliminary purchase price allocation of the Wood Mackenzie acquisition resulted in the following:

	Wood Mackenzie	
Cash and cash equivalents	\$ 35,398	
Accounts receivable	83,143	
Current assets	85,652	
Fixed assets	66,886	
Intangible assets	1,294,944	
Goodwill and other	1,857,097	
Other assets	2,007	
Total assets acquired	3,425,127	
Current liabilities	(91,551)
Fees received in advance	(142,457)
Deferred income taxes, net	(258,976)
Other liabilities	(7,116)
Total liabilities assumed	(500,100)
Net assets acquired	2,925,027	
Cash acquired	(35,398)
Net cash purchase price	\$ 2,889,629	

The preliminary allocations of the purchase price above are subject to revisions as additional information is obtained about the facts and circumstances that existed as of the acquisition date. The revisions may have a significant impact on the consolidated financial statements. The allocations of the purchase price will be finalized once all information is obtained, but not to exceed one year from the acquisition date. The primary areas of the purchase price allocation that are not yet finalized relate to fixed assets and operating leases, income and non-income taxes, fees received in advance, the valuation of intangible assets acquired, and residual goodwill. The preliminary amounts assigned to intangible assets by type for the Wood Mackenzie acquisition were based upon the Company's valuation model and historical experiences with entities with similar business characteristics. The preliminary amounts are summarized in the table below:

	Weighted Average Useful Life	Total
Technology and database-related	8 years	\$ 454,736
Marketing-related	5 years	125,932
Contract-related	6 years	11,544
Customer-related	13 years	702,732
Total intangible assets		\$ 1,294,944

The goodwill associated with the stock purchase of Wood Mackenzie is not deductible for tax purposes. For the six months ended June 30, 2015, the Company incurred transaction costs related to this acquisition of \$26,617 included within "Selling, general and administrative" expenses and \$13,336 within "Interest Expense" in the accompanying consolidated statements of operations.

Supplemental information on an unaudited pro forma basis is presented below as if the acquisition of Wood Mackenzie occurred at the beginning of 2014. The pro forma information for the six months ended June 30, 2015 and 2014 presented below is based on estimates and assumptions, which the Company believes to be reasonable but not necessarily indicative of the consolidated financial position or results of operations in future periods or the results that actually would have been realized had this acquisition been completed at the beginning of 2014. The unaudited pro forma information includes intangible asset amortization charges and incremental borrowing costs as a result of the acquisition, net of related tax, estimated using the Company's effective tax rate for continuing operations for the periods presented.

Table of Contents

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2015 (unaudited)	2014	June 30, 2015	2014
Pro forma revenues	\$ 546,612	\$ 517,000	\$ 1,096,761	\$ 1,017,824
Pro forma income from continuing operations	\$ 139,132	\$ 90,523	\$ 243,054	\$ 181,573
Pro forma basic income from continuing operations per share	\$ 0.85	\$ 0.54	\$ 1.51	\$ 1.09
Pro forma diluted income from continuing operations per share	\$ 0.83	\$ 0.53	\$ 1.48	\$ 1.07

Acquisition Escrows

Pursuant to the related acquisition agreements, the Company has funded various escrow accounts to satisfy pre-acquisition indemnity and tax claims arising subsequent to the acquisition date. At June 30, 2015 and December 31, 2014, the escrows amounted to \$79,028 and \$5,583, respectively and have been included in “Other current assets” in the accompanying condensed consolidated balance sheets, respectively.

6. Discontinued Operations:

On March 11, 2014, the Company sold 100 percent of the stock of the Company’s mortgage services business, Interthinx, which was a guarantor subsidiary under the then existing credit facility, in exchange for a purchase price of \$151,170 after a working capital adjustment of \$3,830. Upon completion of the sale, Interthinx ceased being a guarantor under the then existing credit facility. The Company recognized income from discontinued operations, net of tax, of \$29,177 in 2014 upon the finalization of the provision for income taxes. Results of operations for the mortgage services business are reported as a discontinued operation for the three and six months ended June 30, 2014.

The mortgage services business met the criteria for reporting as a discontinued operation and has been segregated from continuing operations. The following table summarizes the results from the discontinued operation for the three and six months ended June 30, 2014:

	Three months ended June 30, 2014	Six months ended June 30, 2014
Revenues from discontinued operations	\$ —	\$ 11,512
Income from discontinued operations before income taxes (including gain on sale of \$65,410)	\$ —	\$ 54,482
Provision for income taxes (including tax on gain on sale of \$27,067)	—	(23,365)
Income from discontinued operations, net of tax	\$ —	\$ 31,117

7. Goodwill and Intangible Assets:

The following is a summary of the change in goodwill from December 31, 2014 through June 30, 2015, both in total and as allocated to the Company’s operating segments:

	Risk Assessment	Decision Analytics	Total
Goodwill at December 31, 2014 (1)	\$ 55,555	\$ 1,151,591	\$ 1,207,146
Current year acquisition	—	1,857,097	1,857,097
Foreign currency translation	—	(6,601)	(6,601)
Goodwill at June 30, 2015 (1)	\$ 55,555	\$ 3,002,087	\$ 3,057,642

(1) These balances are net of accumulated impairment charges of \$3,244 that occurred prior to December 31, 2013. Goodwill and intangible assets with indefinite lives are subject to impairment testing annually as of June 30, or whenever events or changes in circumstances indicate that the carrying amount may not be fully recoverable. Goodwill impairment testing compares the carrying value of each reporting unit to its fair value. If the fair value of the reporting unit exceeds the carrying value of the net assets, including goodwill assigned to that reporting unit, goodwill is not impaired. If the carrying value of the reporting

Table of Contents

unit's net assets including goodwill exceeds the fair value of the reporting unit, then the Company will determine the implied fair value of the reporting unit's goodwill. If the carrying value of a reporting unit's goodwill exceeds its implied fair value, then an impairment loss is recorded for the difference between the carrying amount and the implied fair value of goodwill. The Company completed the required annual impairment test as of June 30, 2015, and concluded that there was no impairment of goodwill.

The Company's intangible assets and related accumulated amortization consisted of the following:

	Weighted Average Useful Life	Cost	Accumulated Amortization	Net
June 30, 2015				
Technology-based	8 years	\$ 753,813	\$ (210,035)) \$ 543,778
Marketing-related	5 years	197,171	(60,791)) 136,380
Contract-based	6 years	18,075	(6,782)) 11,293
Customer-related	13 years	1,099,605	(135,491)) 964,114
Total intangible assets		\$ 2,068,664	\$ (413,099)) \$ 1,655,565
December 31, 2014				
Technology-based	8 years	\$ 299,705	\$ (195,698)) \$ 104,007
Marketing-related	5 years	71,504	(54,745)) 16,759
Contract-based	6 years	6,555	(6,555)) —
Customer-related	13 years	399,011	(113,301)) 285,710
Total intangible assets		\$ 776,775	\$ (370,299)) \$ 406,476

Amortization expense related to intangible assets for the three months ended June 30, 2015 and 2014 was \$28,812 and \$14,221, respectively. Amortization expense related to intangible assets for the six months ended June 30, 2015 and 2014 was \$42,953 and \$28,433, respectively. Estimated amortization expense for the remainder of 2015 and the years through 2020 and thereafter for intangible assets subject to amortization is as follows:

Year	Amount
2015	\$ 101,242
2016	188,266
2017	187,362
2018	186,617
2019	185,156
2020 and thereafter	806,922
	\$ 1,655,565

8. Income Taxes:

The Company's effective tax rate for the three and six months ended June 30, 2015 was 18.76% and 27.33%, respectively, compared to the effective tax rate for the three and six months ended June 30, 2014 of 37.87% and 36.85%, respectively. The effective tax rate for the three and six months ended June 30, 2015 is lower than the June 30, 2014 effective tax rate primarily due to tax benefits related to the Wood Mackenzie acquisition. The difference between statutory tax rates and the Company's effective tax rate is primarily attributable to state taxes, tax benefits related to the Wood Mackenzie acquisition, and nondeductible share appreciation from the ISO 401(k) Savings and Employee Stock Ownership Plan ("KSOP").

Table of Contents

9. Debt:

The following table presents short-term and long-term debt by issuance as of June 30, 2015 and December 31, 2014:

	Issuance Date	Maturity Date	2015	2014
Short-term debt and current portion of long-term debt:				
Syndicated revolving credit facility	Various	Various	\$ 1,020,000	\$ 160,000
Prudential shelf notes:				
5.84% Series H shelf notes	10/26/2007	10/26/2015	—	17,500
6.28% Series I shelf notes	4/29/2008	4/29/2015	—	85,000
New York Life shelf notes:				
5.87% Series A shelf notes	10/26/2007	10/26/2015	—	17,500
6.35% Series B shelf notes	4/29/2008	4/29/2015	—	50,000
Capital lease obligations	Various	Various	5,797	6,058
Short-term debt and current portion of long-term debt			1,025,797	336,058
Long-term debt:				
Senior notes:				
4.000% senior notes, less unamortized discount of \$4,773 and \$0, respectively	5/15/2015	6/15/2025	895,227	—
5.500% senior notes, less unamortized discount of \$1,195 and \$0, respectively	5/15/2015	6/15/2045	348,805	—
4.125% senior notes, less unamortized discount of \$1,998 and \$2,137, respectively	9/12/2012	9/12/2022	348,002	347,863
4.875% senior notes, less unamortized discount of \$1,191 and \$1,361, respectively	12/8/2011	1/15/2019	248,809	248,639
5.800% senior notes, less unamortized discount of \$602 and \$654, respectively	4/6/2011	5/1/2021	449,398	449,346
Prudential shelf notes:				
6.85% Series J shelf notes	6/15/2009	6/15/2016	—	50,000
Capital lease obligations	Various	Various	3,623	5,026
Long-term debt			2,293,864	1,100,874
Total debt			\$ 3,319,661	\$ 1,436,932

On May 15, 2015, the Company completed an issuance of senior notes in the aggregate principal amount of \$900,000 and \$350,000 due on June 15, 2025 and June 15, 2045, respectively, that accrue interest at a rate of 4.000% and 5.500%, respectively. Interest is payable semi-annually on both series of senior notes on June 15th and December 15th of each year, beginning on December 15, 2015. The senior notes were issued at a discount of \$4,833 and \$1,201, respectively, and the Company incurred debt issuance costs on the senior notes of \$7,023 and \$3,941, respectively. The discount and debt issuance costs were recorded in "Long-term debt" and "Other assets," respectively, in the accompanying condensed consolidated balance sheets and these costs will be amortized to "Interest expense" in the accompanying condensed consolidated statements of operations over the life of the respective senior note. The net proceeds from the issuance of these notes was utilized to partially fund the acquisition of Wood Mackenzie. The indenture governing the senior notes restricts the Company's ability to, among other things, create certain liens, enter into sales/leaseback transactions and consolidate with, sell, lease, convey or otherwise transfer all or substantially all of the Company's assets, or merge with or into, any other person or entity. As of June 30, 2015 and December 31, 2014, the Company had senior notes with an aggregate principal amount of \$2,300,000 and \$1,050,000 outstanding, respectively, and was in compliance with their debt covenants.

On April 22, 2015, the Company signed an agreement to enter into a \$1,750,000 committed senior unsecured Syndicated Revolving Credit Facility (the "new Credit Facility") with Bank of America N.A., JP Morgan Chase, N.A.,

Edgar Filing: Verisk Analytics, Inc. - Form 10-Q

Sun Trust Bank, Wells Fargo Bank N.A., Citizens Bank, N.A., Morgan Stanley Senior Funding, Inc., HSBC Bank USA, N.A., Royal Bank of Canada, BNP Paribas, TD Bank, N.A., The Northern Trust Company, and Capital One N.A. The new Credit Facility became effective on May 15, 2015. The new Credit Facility has a single borrower, Verisk Analytics, Inc., and there are no guarantor subsidiaries of the debt. In accordance with the indenture governing our senior notes, the guarantor subsidiaries of the senior notes were automatically released as they were no longer guarantor subsidiaries under the new Credit Facility. Due to the fact that there are

12

Table of Contents

no longer any guarantor subsidiaries of the registered senior notes, the disclosure containing the Condensed Consolidated Financial Information for Guarantor Subsidiaries and Non-Guarantor Subsidiaries is no longer required. The Company utilized borrowings of \$930,000 from the new Credit Facility to partially fund the purchase of Wood Mackenzie. The new Credit Facility may also be used for general corporate purposes, including working capital needs and capital expenditures, acquisitions and the share repurchase program (the "Repurchase Program").

The new Credit Facility has replaced the previously existing \$990,000 Syndicated Revolving Credit Facility (the "old Credit Facility"). The new Credit Facility contains certain financial and other covenants that, among other things, impose certain restrictions on indebtedness, liens, investments, and capital expenditures. These covenants also place restrictions on mergers, asset sales, sale/leaseback transactions, payments between the Company and its subsidiaries, and certain transactions with affiliates. The financial covenants require that, at the end of any fiscal quarter, the Company have a consolidated interest coverage ratio of at least 3.0 to 1.0 and that it maintains, during any period of four fiscal quarters, a consolidated funded debt leverage ratio of 3.75 to 1.0, which ratio steps down to 3.5 to 1.0 at the end of the fourth fiscal quarter ending after the consummation of the acquisition of Wood Mackenzie. The Company was in compliance with all debt covenants under the new Credit Facility as of June 30, 2015. Interest on borrowings under the new Credit Facility is payable at an interest rate of LIBOR plus 1.125% to 1.625%, depending upon the consolidated funded debt leverage ratio. A commitment fee on any unused balance is payable periodically and will range from 12.5 to 25 basis points based upon the consolidated funded debt leverage ratio. As of June 30, 2015 and December 31, 2014, the Company had outstanding borrowings under the new Credit Facility and old Credit Facility of \$1,020,000 and \$160,000, respectively. On July 22, 2015, the Company repaid \$30,000 of its revolver borrowings that were outstanding as of June 30, 2015. On July 24, 2015, the Company entered into the First Amendment to the new Credit Facility which modified the definitions of Consolidated EBIT and Consolidated EBITDA to permit the adding back of certain non-recurring expenses related to the acquisition of Wood Mackenzie.

As of June 30, 2015, the Company no longer has any outstanding private placement debt. On April 29, 2015, the Company repaid \$85,000 and \$50,000 of private placement debt with Prudential Capital Group and New York Life, respectively, that came due utilizing \$55,000 from cash on hand and \$80,000 from borrowings under the Credit Facility. On May 14, 2015, the Company prepaid the remaining private placement debt with New York Life of \$17,500, which had been due on October 26, 2015, and \$17,500 and \$50,000 of remaining private placement debt with Prudential, which was due on October 26, 2015, and June 15, 2016, respectively. To prepay this debt, the Company utilized \$25,000 of cash on hand and borrowings from its Credit Facility of \$60,000. The make-whole costs for the prepayment of this debt was \$4,786 and was recorded to "Interest expense" in the accompanying condensed consolidated statements of operations during the six months ended June 30, 2015.

On March 10, 2015, in connection with the Company's agreement to acquire Wood Mackenzie, the Company entered into a commitment letter for a \$2,300,000 364-day bridge financing arrangement with Bank of America N.A. and Morgan Stanley Bank N.A. acting as joint lead arrangers. This financing arrangement was only to be utilized in the event the Company did not carry out the debt and equity offerings relating to its acquisition of Wood Mackenzie by a certain date, and was terminated upon the closing of the acquisition. See Note 5. The Company paid fees associated with this financing arrangement of \$9,100. Due to the completion of the debt and equity offerings, this arrangement was terminated and the full \$9,100 of fees were recorded to "Interest expense" in the accompanying condensed consolidated statements of operations during the six months ended June 30, 2015.

10. Stockholders' Equity:

The Company has 1,200,000,000 shares of authorized common stock. The common shares have rights to any dividend declared by the board of directors, subject to any preferential or other rights of any outstanding preferred stock, and voting rights to elect all twelve members of the board of directors.

The Company has 80,000,000 shares of authorized preferred stock, par value \$0.001 per share. The preferred shares have preferential rights over the common shares with respect to dividends and net distribution upon liquidation. The Company did not issue any preferred shares as of June 30, 2015.

Equity Offering

The Company completed an equity offering of its common stock on May 12, 2015 in order to finance the acquisition of Wood Mackenzie. The Company received total proceeds of \$721,867, net of underwriting discount of \$20,413, from the offering of 10,604,000 treasury shares at a net public offering price of \$68.075 per share. In conjunction with the offering, the Company incurred \$1,019 of costs related to the issuance of the common stock. The proceeds from the offering, net of underwriting discount and related issuance costs, was recorded as a decrease to treasury shares at the weighted average price of the Company's treasury

Table of Contents

shares, with the remainder of the net proceeds recorded as an increase to additional paid in capital in the accompanying condensed consolidated balance sheets and condensed consolidated statements of changes in stockholders' equity.

Share Repurchase Program

Since the introduction of the Repurchase Program as a feature of the Company's capital management strategies in 2010, the Company has authorized repurchases of up to \$2,000,000 of its common stock and has repurchased shares with an aggregate value of \$1,810,193. The Company did not repurchase any shares during the six months ended June 30, 2015. As of June 30, 2015, the Company had \$189,807 available to repurchase shares. The Company has no obligation to repurchase stock under this program and intends to use this authorization as a means of offsetting dilution from the issuance of shares under the KSOP, the Verisk 2013 Equity Incentive Plan (the "2013 Incentive Plan"), the Verisk 2009 Equity Incentive Plan (the "2009 Incentive Plan"), and the ISO 1996 Incentive Plan (the "1996 Incentive Plan"), while providing flexibility to repurchase additional shares if warranted. This authorization has no expiration date and may be increased, reduced, suspended, or terminated at any time. Shares that are repurchased under the Repurchase Program will be recorded as treasury stock and will be available for future issuance.

In December 2014, the Company entered into an accelerated share repurchase program ("ASR") to repurchase shares of its common stock for an aggregate purchase price of \$500,000. Upon payment of the aggregate purchase price in December 2014, the Company received an initial delivery of 6,372,472 shares of the Company's common stock. Upon final settlement of the ASR agreement in June 2015, the Company received an additional 809,021 shares of the Company's common stock.

Treasury Stock

As of June 30, 2015, the Company's treasury stock consisted of 375,549,289 shares of common stock. During the six months ended June 30, 2015, the Company reissued 11,349,543 shares of common stock from the treasury shares at a weighted average price of \$6.56 per share.

Earnings Per Share ("EPS")

Basic EPS is computed by dividing income from continuing operations, income from discontinued operations and net income, respectively, by the weighted average number of common shares outstanding during the period. The computation of diluted EPS is similar to the computation of basic EPS except that the denominator is increased to include the number of additional common shares that would have been outstanding, using the treasury stock method, if the dilutive potential common shares, including stock options, nonvested restricted stock, and nonvested restricted stock units, had been issued.

Table of Contents

The following is a reconciliation of the numerators and denominators of the basic and diluted EPS computations for the three and six months ended June 30, 2015 and 2014:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Numerator used in basic and diluted EPS:				
Income from continuing operations	\$ 163,320	\$ 88,099	\$ 262,006	\$ 172,540
Income from discontinued operations, net of tax of \$0 and \$23,365, for the three and six months ended June 30, 2014, respectively (Note 6)	—	—	—	31,117
Net income	\$ 163,320	\$ 88,099	\$ 262,006	\$ 203,657
Denominator:				
Weighted average number of common shares used in basic EPS	164,141,804	166,343,630	161,114,861	166,662,806
Effect of dilutive shares:				
Potential common shares issuable from stock options and stock awards	3,444,296	3,160,034	3,418,795	3,299,771
Weighted average number of common shares and dilutive potential common shares used in diluted EPS	167,586,100	169,503,664	164,533,656	169,962,577

The potential shares of common stock that were excluded from diluted EPS were 1,784,103 and 2,105,653 for the three months ended June 30, 2015 and 2014 and 892,981 and 1,433,751 for the six months ended June 30, 2015 and 2014, respectively, because the effect of including these potential shares was anti-dilutive.

Accumulated Other Comprehensive Losses

The following is a summary of accumulated other comprehensive losses as of June 30, 2015 and December 31, 2014:

	2015		2014	
Foreign currency translation adjustment	\$ (7,515)	\$ (3,086)
Unrealized holding losses on available-for-sale securities, net of tax	(41)	(110)
Pension and postretirement adjustment, net of tax	(76,317)	(77,318)
Accumulated other comprehensive losses	\$ (83,873)	\$ (80,514)

Table of Contents

The before tax and after tax amounts of other comprehensive income for the three and six months ended June 30, 2015 and 2014 are summarized below:

	Before Tax		Tax Benefit (Expense)		After Tax
For the Three Months Ended June 30, 2015					
Foreign currency translation adjustment	\$ (4,209)	\$ —		\$ (4,209)
Unrealized holding loss on available-for-sale securities before reclassifications	(8)	3		(5)
Amount reclassified from accumulated other comprehensive losses (1)	19		(7)	12
Unrealized holding gain on available-for-sale securities	11		(4)	7
Pension and postretirement adjustment before reclassifications	1,460		(623)	837

- (1) This accumulated other comprehensive loss component, before tax, is included under “Investment income and others, net” in the accompanying condensed consolidated statements of operations.
- (2) These accumulated other comprehensive loss components, before tax, are included under “Cost of revenues” and “Selling, general and administrative” in the accompanying condensed consolidated statements of operations. These components are also included in the computation of net periodic (benefit) cost (see Note 12 Pension and Postretirement Benefits for additional details).

11. Equity Compensation Plans:

All of the Company’s outstanding stock options and restricted stock are covered under the 2013 Incentive Plan, 2009 Incentive Plan or the 1996 Incentive Plan. Awards under the 2013 Incentive Plan may include one or more of the following types: (i) stock options (both nonqualified and incentive stock options), (ii) stock appreciation rights, (iii) restricted stock, (iv) restricted stock units, (v) performance awards, (vi) other share based awards, and (vii) cash. Employees, directors and consultants are eligible for awards under the 2013 Incentive Plan. The Company issued common stock under these plans from the Company’s treasury shares. As of June 30, 2015, there were 10,243,335 shares of common stock reserved and available for future issuance under the 2013 Incentive Plan. Cash received from stock option exercises for the six months ended June 30, 2015 and 2014 was \$18,103 and \$14,923, respectively. On April 1, 2015, the Company granted 1,177,191 nonqualified stock options and 211,756 shares of restricted stock to key employees. The nonqualified stock options have an exercise price equal to the closing price of the Company’s common stock on the grant date, with a ten-year contractual term and a service vesting period of four years. The fair value of the restricted stock is determined using the closing price of the Company’s common stock on the grant date and has a service vesting period of four years. The Company recognizes the expense of the restricted stock ratably over the vesting period. The restricted stock is not assignable or transferable until it becomes vested.

On May 19, 2015, the Company granted nonqualified stock options and restricted stock to certain key employees of Wood Mackenzie. The Company granted 255,473 nonqualified stock options that vested on the grant date, 225,363 nonqualified stock options that are subject to a service vesting period of four years, and 127,931 nonqualified stock options that are subject to a four-

Table of Contents

year cliff vesting term. The Company granted 52,960 shares of restricted stock that vested on the grant date, 42,064 shares of restricted stock are subject to a service vesting period of four years, and 28,445 shares of restricted stock that are subject to four-year cliff vesting term. The nonqualified stock options have an exercise price equal to the closing price of the Company's common stock on the grant day with a ten-year contractual term. The fair value of the restricted stock is determined using the closing price of the Company's common stock on the grant date. The Company recognizes the expense of the restricted stock ratably over the vesting period. The restricted stock is not transferrable until it becomes vested.

On July 1, 2015, the Company granted 3,873 shares of common stock, 27,047 nonqualified stock options that were immediately vested, 51,876 nonqualified stock options with a one-year service period, and 11,119 deferred stock units to the directors of the Company. The nonqualified stock options have an exercise price equal to the closing price of the Company's common stock at the grant date and a ten-year contractual term.

The fair value of the stock options granted for the six months ended June 30, 2015 and 2014 was estimated using a Black-Scholes valuation model that uses the weighted average assumptions noted in the following table:

	2015		2014	
Option pricing model	Black-Scholes		Black-Scholes	
Expected volatility	20.25	%	20.56	%
Risk-free interest rate	1.51	%	1.49	%
Expected term in years	4.6		4.4	
Dividend yield	—	%	—	%
Weighted average grant date fair value per stock option	\$ 12.91		\$ 11.88	

The expected term for the stock options granted was estimated based on studies of historical experience and projected exercise behavior. However, for certain awards granted, for which no historical exercise pattern exists, the expected term was estimated using the simplified method. The risk-free interest rate is based on the yield of U.S. Treasury zero coupon securities with a maturity equal to the expected term of the equity award. The volatility factor is calculated using historical daily closing prices over the most recent period that is commensurate with the expected term of the stock option award. The volatility factor for stock options granted in 2015 was based on the volatility of the Company's stock. The expected dividend yield was based on the Company's expected annual dividend rate on the date of grant.

A summary of the stock options outstanding and exercisable as of December 31, 2014 and June 30, 2015 and changes during the interim period are presented below:

	Number of Options	Weighted Average Exercise Price	Aggregate Intrinsic Value
Outstanding at December 31, 2014	9,205,690	\$ 31.11	\$ 303,267
Granted	1,785,958	\$ 72.17	
Exercised	(580,926)	\$ 31.23	\$ 22,601
Cancelled or expired	(64,442)	\$ 60.73	
Outstanding at June 30, 2015	10,346,280	\$ 38.00	\$ 359,603
Exercisable at June 30, 2015	7,572,157	\$ 27.73	\$ 340,994
Exercisable at December 31, 2014	7,159,895	\$ 24.00	\$ 286,728

Intrinsic value for stock options is calculated based on the exercise price of the underlying awards and the quoted price of Verisk common stock as of the reporting date. In accordance with ASC 718, Stock Compensation ("ASC 718"), excess tax benefit from exercised stock options and restricted stock lapsed is recorded as an increase to additional paid-in capital and a corresponding reduction in income taxes payable. This tax benefit is calculated as the excess of the intrinsic value of options exercised and restricted stock lapsed in excess of compensation recognized for financial reporting purposes. The amount of the tax benefit that has been realized, as a result of those excess tax benefits, is presented as a financing cash inflow within the accompanying condensed consolidated statements of cash flows. For the six months ended June 30, 2015 and 2014, the Company recorded excess tax benefits of \$7,848 and \$9,705, respectively. The Company realized \$8,419 and \$6,094 of tax benefit within the Company's quarterly tax

payments through June 30, 2015 and 2014, respectively. Stock based compensation expense for the six months ended June 30, 2015 and 2014 was \$19,047 and \$11,057, respectively.

Table of Contents

The Company estimates expected forfeitures of equity awards at the date of grant and recognizes compensation expense only for those awards that the Company expects to vest. The forfeiture assumption is ultimately adjusted to the actual forfeiture rate. Changes in the forfeiture assumptions may impact the total amount of expense ultimately recognized over the requisite service period and may impact the timing of expense recognized over the requisite service period.

A summary of the status of the restricted stock awarded under the 2013 Incentive Plan as of December 31, 2014 and June 30, 2015 and changes during the interim period are presented below:

	Number of Shares	Weighted Average Grant Date Fair Value Per Share
Outstanding at December 31, 2014	442,310	\$ 56.84
Granted	335,225	\$ 72.22
Vested	(185,255)	\$ 57.42
Forfeited	(13,602)	\$ 60.27
Outstanding at June 30, 2015	578,678	\$ 65.48

As of June 30, 2015, there was \$68,420 of total unrecognized compensation costs, exclusive of the impact of vesting upon retirement eligibility, related to nonvested share-based compensation arrangements granted under the 2009 and 2013 Incentive Plans. That cost is expected to be recognized over a weighted average period of 3.07 years. As of June 30, 2015, there were 2,774,123 and 578,678 nonvested stock options and restricted stock, respectively, of which 2,343,488 and 494,668 are expected to vest. The total grant date fair value of options vested during the six months ended June 30, 2015 and 2014 was \$10,191 and \$6,299, respectively. The total grant date fair value of restricted stock vested during the six months ended June 30, 2015 and 2014 was \$9,727 and \$4,473, respectively.

The Company's employee stock purchase plan ("ESPP") offers eligible employees the opportunity to purchase shares of the Company's common stock at a discount of its fair market value at the time of purchase. During the six months ended June 30, 2015 and 2014, the Company issued 11,404 and 15,633 shares of common stock at a weighted discounted price of \$68.51 and \$56.99 for the ESPP, respectively.

12. Pension and Postretirement Benefits:

The Company maintained a frozen qualified defined benefit pension plan for certain of its employees through membership in the Pension Plan for Insurance Organizations (the "Pension Plan"), a multiple-employer trust. The Company has applied a cash balance formula to determine future benefits. Under the cash balance formula, each participant has an account, which is credited annually based on the interest earned on the previous year-end cash balance. The Company also has a frozen non-qualified supplemental cash balance plan ("SERP") for certain employees. The SERP is funded from the general assets of the Company.

The Company also provides certain healthcare and life insurance benefits to certain qualifying active and retired employees. The Postretirement Health and Life Insurance Plan (the "Postretirement Plan"), which has been frozen, is contributory, requiring participants to pay a stated percentage of the premium for coverage. The components of net periodic (benefit) cost for the three and six months ended June 30, are summarized below:

Table of Contents

	Pension Plan and SERP		Postretirement Plan	
	For the Three Months Ended June 30,			
	2015	2014	2015	2014
Interest cost	\$ 4,487	\$ 4,738	\$ 134	\$ 163
Expected return on plan assets	(8,657)	(8,458)	(142)	(200)
Amortization of prior service credit	—	—	(38)	(37)
Amortization of net actuarial loss	612	116	156	176
Net periodic (benefit) cost	\$ (3,558)	\$ (3,604)	\$ 110	\$ 102
Employer contributions, net	\$ 278	\$ 72	\$ 139	\$ (1,152)
	For the Six Months Ended June 30,			
	2015	2014	2015	2014
Interest cost	\$ 9,044	\$ 9,551	\$ 268	\$ 326
Expected return on plan assets	(17,216)	(16,971)	(285)	(400)
Amortization of prior service credit	—	—	(75)	(73)
Amortization of net actuarial loss	1,407	268	312	352
Net periodic (benefit) cost	\$ (6,765)	\$ (7,152)	\$ 220	\$ 205
Employer contributions, net	\$ 495	\$ 267	\$ 91	\$ (1,152)

The expected contributions to the Pension Plan, SERP and Postretirement Plan for the year ending December 31, 2015 are consistent with the amounts previously disclosed as of December 31, 2014.

13. Segment Reporting:

ASC 280-10, Disclosures About Segments of an Enterprise and Related Information (“ASC 280-10”), establishes standards for reporting information about operating segments. ASC 280-10 requires that a public business enterprise report financial and descriptive information about its operating segments.

Operating segments are components of an enterprise for which separate financial information is available that is evaluated regularly by the chief operating decision maker (“CODM”) in deciding how to allocate resources and in assessing performance. The Company’s President and Chief Executive Officer is identified as the CODM as defined by ASC 280-10. Consistent with the internal management of the Company’s business operations based on service offerings, the Company is organized into the following two operating segments, which are also the Company’s reportable segments:

Decision Analytics: The Company develops solutions that its customers use to analyze the key processes in managing risk: ‘prediction of loss’, ‘detection and prevention of fraud’ and ‘quantification of loss’. The Company’s combination of algorithms and analytic methods incorporates its proprietary data to generate solutions. In most cases, the Company’s customers integrate the solutions into their models, formulas or underwriting criteria in order to predict potential loss events, ranging from hurricanes and earthquakes to unanticipated healthcare claims. The Company develops catastrophe and extreme event models and offers solutions covering natural and man-made risks, including acts of terrorism. The Company also develops solutions that allow customers to quantify costs after loss events occur. Fraud solutions include data on claim histories, analysis of claims to find emerging patterns of fraud, and identification of suspicious claims in the insurance and healthcare sectors. The Company discloses revenue within this segment based on the industry vertical groupings of insurance, financial services, healthcare, and energy and specialized markets (formerly named specialized markets).

On March 11, 2014, the Company sold its mortgage services business, Interthinx, which was part of the Decision Analytics segment. Results of operations for the mortgage services business are reported as a discontinued operation for the three and six months ended June 30, 2014. Refer to Note 6 for more information.

Risk Assessment: The Company is the leading provider of statistical, actuarial and underwriting data for the U.S. P&C insurance industry. The Company’s databases include cleansed and standardized records describing premiums and losses in insurance transactions, casualty and property risk attributes for commercial buildings and their occupants and fire suppression capabilities of municipalities. The Company uses this data to create policy language and proprietary risk classifications that are industry standards and to generate prospective loss cost estimates used to price insurance policies.

The two aforementioned operating segments represent the segments for which separate discrete financial information is available and upon which operating results are regularly evaluated by the CODM in order to assess performance and allocate

20

Table of Contents

resources. The Company uses EBITDA as the profitability measure for making decisions regarding ongoing operations. EBITDA is net income before interest expense, provision for income taxes, depreciation and amortization of fixed and intangible assets. EBITDA is the measure of operating results used to assess corporate performance and optimal utilization of debt and acquisitions. Operating expenses consist of direct and indirect costs principally related to personnel, facilities, software license fees, consulting, travel, and third-party information services. Indirect costs are generally allocated to the segments using fixed rates established by management based upon estimated expense contribution levels and other assumptions that management considers reasonable. The Company does not allocate interest expense and provision for income taxes, since these items are not considered in evaluating the segment's overall operating performance. The CODM does not evaluate the financial performance of each segment based on assets. On a geographic basis, no individual country outside of the U.S. accounted for 5.0% or more of the Company's consolidated revenues for the three and six months ended June 30, 2015 or 2014.

The following table provides the Company's revenue and EBITDA by reportable segment for the three and six months ended June 30, 2015 and 2014, and the reconciliation of EBITDA to operating income as shown in the accompanying condensed consolidated statements of operations:

	For the Three Months Ended June 30, 2015			For the Three Months Ended June 30, 2014		
	Decision Analytics	Risk Assessment	Total	Decision Analytics	Risk Assessment	Total

Table of Contents

14. Related Parties:

The Company considers its stockholders that own more than 5.0% of the outstanding common stock to be related parties as defined within ASC 850, Related Party Disclosures. As of June 30, 2015 and December 31, 2014, the Company had no transactions with related parties owning more than 5.0% of its common stock, except for transactions with the KSOP as disclosed in Note 16 Compensation Plans of the Company's consolidated financial statements included in the 2014 Form 10-K filing.

15. Commitments and Contingencies:

The Company is a party to legal proceedings with respect to a variety of matters in the ordinary course of business, including the matters described below. With respect to ongoing matters, the Company is unable, at the present time, to determine the ultimate resolution of or provide a reasonable estimate of the range of possible loss attributable to these matters or the impact they may have on the Company's results of operations, financial position or cash flows. This is primarily because the matters are generally in early stages and discovery has either not commenced or been completed. Although the Company believes it has strong defenses and intends to vigorously defend these matters, the Company could in the future incur judgments or enter into settlements of claims that could have a material adverse effect on its results of operations, financial position or cash flows.

Interthinx, Inc. Litigation

On April 20, 2015, the Company was served with a putative class action titled John Weber v. Interthinx, Inc. and Verisk Analytics, Inc. The plaintiff, a former employee of the Company's former subsidiary Interthinx, Inc. in Missouri, filed the class action complaint in the United States District Court for the Eastern District of Missouri on behalf of all review appraisers and individuals holding comparable positions with different titles who were employed by Interthinx for the last three years nationwide and who were not paid overtime wages. The class complaint claims that the review appraiser employees were misclassified as exempt employees and, as a result, were denied certain wages and benefits that would have been received if they were properly classified as non-exempt employees. It pleads a Collective Action under section 216(b) of the Fair Labor Standards Act for unpaid overtime and seeks overtime wages, liquidated damages, declaratory relief, interest, costs and attorneys' fees.

On March 11, 2014, the Company sold 100 percent of the stock of Interthinx, Inc. At this time, it is not possible to determine the ultimate resolution of, or estimate the liability related to this matter.

Mariah Re Litigation

On July 8, 2013, the Company was served with a summons and complaint filed in the United States District Court for the Southern District of New York in an action titled Mariah Re LTD. v. American Family Mutual Insurance Company ("American Family"), ISO Services, Inc. and AIR Worldwide Corporation, which was amended by the plaintiff on October 18, 2013 (the "Amended Complaint"). Plaintiff Mariah is a special purpose vehicle established to provide reinsurance to defendant American Family Insurance. Mariah entered into contracts with the Company's ISO Services, Inc. and AIR Worldwide Corporation subsidiaries, pursuant to which, among other things, Mariah (i) licensed the right to utilize information published in Catastrophe Bulletins issued by the Property Claims Services division of ISO Services, Inc. and (ii) engaged AIR Worldwide Corporation as Calculation Agent to compute certain reinsured losses. The Amended Complaint alleges the following causes of action: (1) breach of contract against ISO Services, Inc, AIR Worldwide Corporation, and American Family; (2) unjust enrichment against American Family; (3) conversion against American Family; (4) tortious interference with contract against American Family; (5) declaratory judgment against all defendants and (6) specific performance against all defendants. The Amended Complaint seeks declaratory relief, specific performance, restitution, monetary damages and attorneys' fees. On November 20, 2013, the three defendants filed motions to dismiss the Amended Complaint. On September 30, 2014, the District Court granted defendants' motions and dismissed the Amended Complaint in its entirety, with prejudice. Mariah filed a Notice of Appeal on October 28, 2014. The United States Court of Appeals for the Second Circuit affirmed the District Court's dismissal of the Amended Complaint on June 30, 2015.

MediConnect Global, Inc. Litigation

On October 11, 2013, the Company was served with a summons and complaint in an action titled Naveen Trehan v. MediConnect Global, Inc., Amy Anderson and Verisk Health, Inc. filed on October 9, 2013 in the United States District Court for the District of Utah. The complaint, brought by a former minority shareholder of the Company's

subsidiary, MediConnect Global, Inc., arises from MediConnect's buyout of Naveen Trehan and his family members' shares on October 15, 2010. Plaintiff claims that the sale of the shares was based on MediConnect's representations concerning third parties that had expressed interest in an acquisition, merger or investment in MediConnect at that time. Plaintiff claims that MediConnect did not disclose the Company, which purchased MediConnect on March 23, 2012, as a possible suitor. The complaint alleges four causes of action: (1) breach of fiduciary duty against MediConnect and Amy Anderson for failure to disclose the Company's interest in acquiring, merging with or investing in MediConnect prior to the buyout of his shares; (2) fraud against Amy Anderson and MediConnect for

Table of Contents

intentionally providing false information to plaintiff with the purpose of inducing him to agree to sell his shares at an artificially low price; (3) negligent misrepresentation against Amy Anderson and MediConnect for their negligent failure to discover and disclose the Company's interest in acquiring MediConnect prior to the buyout of plaintiff's shares and (4) a violation of SEC Rule 10b-5 against Amy Anderson and MediConnect for defrauding plaintiff and failing to disclose material information in connection with the sale of securities. The complaint seeks joint and several recoveries from Amy Anderson and MediConnect for compensatory damages, punitive damages, and disgorgement of all profits earned through the investment of plaintiff's funds, attorneys' fees, interest and an order from the court that plaintiff's funds be held in a constructive trust.

At this time, it is not possible to determine the ultimate resolution of, or estimate the liability related to this matter. Insurance Services Office, Inc. Litigation

In October 2013, the Company was served with a summons and complaint filed in the United States District Court for the Southern District of New York in an action titled Laurence J. Skelly and Ellen Burke v. Insurance Services Office, Inc. and the Pension Plan for Insurance Organizations. The plaintiffs, former employees of the Company's subsidiary Insurance Services Office, Inc. ("ISO"), bring the action on their own behalf as participants in the Pension Plan for Insurance Organizations and on the behalf of similarly situated participants of the pension plan and ask the court to declare that a certain amendment to the pension plan as of December 31, 2001, which terminated their right to calculate and define the value of their retirement benefit under the pension plan based on their compensation levels as of immediately prior to their "retirement" (the "Unlawful Amendment"), violated the anti-cutback provisions and equitable principles of ERISA. The First Amended Class Action Complaint (the "Amended Complaint") alleges that (1) the Unlawful Amendment of the pension plan violated Section 502(a)(1)(B) of ERISA as well as the anti-cutback rules of ERISA Section 204(g) and Section 411(d)(6) of the Internal Revenue Code; (2) ISO's failure to provide an ERISA 204(h) notice in a manner calculated to be understood by the average pension plan participant was a violation of Sections 204(h) and 102(a) of ERISA; and (3) the Living Pension Right was a contract right under ERISA common law and that by terminating that right through the Unlawful Amendment ISO violated plaintiffs' common law contract rights under ERISA. The Amended Complaint seeks declaratory, equitable and injunctive relief enjoining the enforcement of the Unlawful Amendment and ordering the pension plan and ISO retroactive to the date of the Unlawful Amendment to recalculate the accrued benefits of all class members, indemnification from ISO to the pension plan for costs and contribution requirements related to voiding the Unlawful Amendment, bonuses to the class representatives, costs and attorney's fees. On September 12, 2014, the District Court granted ISO's motion to dismiss the Amended Complaint finding that ISO provided ample, clear and sufficient notice of the 2002 Amendment to the Plan and that plaintiffs' claims were time barred. Plaintiffs filed their Notice of Appeal on October 14, 2014. The United States Court of Appeals for the Second Circuit affirmed the District Court's dismissal of the Amended Complaint on April 27, 2015 and denied the Appellants' Petition for a Re-Hearing on June 16, 2015.

On August 1, 2014 the Company was served with an Amended Complaint filed in the United States District Court for the District of Colorado titled Snyder, et. al. v. ACORD Corp., et al. The action is brought by nineteen individual plaintiffs, on their own behalf and on behalf of a putative class, against more than 120 defendants, including the Company and its subsidiary, Insurance Services Office, Inc. ("ISO"). Except for the Company, ISO and the defendant Acord Corporation, which provides standard forms to assist in insurance transactions, most of the other defendants are property and casualty insurance companies that plaintiffs claim conspired to underpay property damage claims. Plaintiffs claim that the Company and ISO, along with all of the other defendants, violated state and federal antitrust and racketeering laws as well as state common law. On September 8, 2014, the Court entered an Order striking the Amended Complaint and granting leave to the plaintiffs to file a new complaint. On October 13, 2014, plaintiffs filed their Second Amended Complaint, which was re-filed by plaintiffs to correct errors as the Third Amended Complaint. The Third Amended Complaint similarly alleges that the defendants conspired to underpay property damage claims, but does not specifically allege what role the Company or ISO played in the alleged conspiracy. It claims that the Company and ISO, along with all of the other defendants, violated state and federal antitrust and racketeering laws as well as state common law, and seeks all available relief including, injunctive, statutory, actual and punitive damages as well as attorneys' fees.

At this time, it is not possible to determine the ultimate resolution of, or estimate the liability related to this matter.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our historical financial statements and the related notes included in our annual report on Form 10-K, or 2014 10-K, dated and filed with the Securities and Exchange Commission on February 24, 2015. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those discussed in or implied by any of the forward-looking statements as a result of various factors, including but not limited to those listed under "Risk Factors" and "Special Note Regarding Forward Looking Statements" in our 2014 10-K.

We enable risk-bearing businesses to better understand and manage their risks and opportunities associated with those risks. We provide value to our customers by supplying proprietary data that, combined with our analytic methods, creates embedded decision support solutions. We are one of the largest aggregators and providers of data and analytics pertaining to U.S. property and casualty, or P&C, insurance risks. We offer solutions for detecting fraud in the U.S. P&C insurance, financial services, healthcare, and global energy industries and sophisticated methods to predict and quantify loss in diverse contexts ranging from natural catastrophes to supply chain to health insurance. Our customers use our solutions to make better risk decisions with greater efficiency and discipline. We refer to these products and services as "solutions" due to the integration among our products and the flexibility that enables our customers to purchase components or the comprehensive package of products. These solutions take various forms, including data, statistical models or tailored analytics, all designed to allow our clients to make more logical decisions. We believe our solutions for analyzing risk positively impact our customers' revenues and help them better manage their costs.

We organize our business in two segments: Risk Assessment and Decision Analytics. Our Risk Assessment segment provides statistical, actuarial and underwriting data for the U.S. P&C insurance industry. Our Risk Assessment segment revenues represented approximately 35.8% and 38.9% of our revenues for the six months ended June 30, 2015 and 2014, respectively. Our Decision Analytics segment provides solutions to our customers within four vertical market-related groupings of insurance, financial services, healthcare, and energy and specialized markets. Our Decision Analytics segment revenues represented approximately 64.2% and 61.1% of our revenues for the six months ended June 30, 2015 and 2014, respectively.

Executive Summary

Key Performance Metrics

We believe our business' ability to generate recurring revenue and positive cash flow is the key indicator of the successful execution of our business strategy. We use year-over-year revenue growth and EBITDA margin as metrics to measure our performance. EBITDA and EBITDA margin are non-GAAP financial measures (See footnote 1 within the Condensed Consolidated Results of Operations section of Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations).

Revenue growth. We use year-over-year revenue growth as a key performance metric. We assess revenue growth based on our ability to generate increased revenue through increased sales to existing customers, sales to new customers, sales of new or expanded solutions to existing and new customers, and strategic acquisitions of new businesses.

EBITDA margin. We use EBITDA margin as a metric to assess segment performance and scalability of our business. We assess EBITDA margin based on our ability to increase revenues while controlling expense growth.

Revenues

We earn revenues through subscriptions, long-term agreements and on a transactional basis. Subscriptions for our solutions are generally paid in advance of rendering services either quarterly or in full upon commencement of the subscription period, which is usually for one year and automatically renewed each year. As a result, the timing of our cash flows generally precedes our recognition of revenues and income and our cash flow from operations tends to be higher in the first quarter as we receive subscription payments. Examples of these arrangements include subscriptions that allow our customers to access our standardized coverage language, our claims fraud database or our actuarial services throughout the subscription period. In general, we experience minimal revenue seasonality within the business. Our long-term agreements are generally for periods of three to five years. We recognize revenue from subscriptions ratably over the term of the subscription and most long-term agreements are recognized ratably over the

term of the agreement.

Approximately 89.9% and 89.2% of the revenues in our Risk Assessment segment for the six months ended June 30, 2015 and 2014, respectively, were derived from subscriptions and long-term agreements for our solutions. Our customers in this segment include most of the P&C insurance providers in the United States. Approximately 65.2% and 64.8% of the revenues in our Decision Analytics segment, for the six months ended June 30, 2015 and 2014, respectively, were derived from subscriptions and long-

25

Table of Contents

term agreements for our solutions. In this segment, our customer bases are within the insurance, healthcare, financial services, and energy and specialized markets verticals.

Certain of our solutions are also paid for by our customers on a transactional basis. For example, we have solutions that allow our customers to access property-specific rating and underwriting information to price a policy on a commercial building, or compare a P&C insurance, medical or workers' compensation claim with information in our databases. We also have the majority of solutions in our healthcare category paid for on a transactional basis. These transactions, largely in the second half of our fiscal year, are primarily related to Medicare Advantage reviews based on volumes from and determined by our customers. For the six months ended June 30, 2015 and 2014, approximately 26.0% and 25.7%, respectively, of our revenues were derived from providing transactional solutions. We earn transactional revenues as our solutions are delivered or services performed. In general, transactions are billed monthly at the end of each month.

Principal Operating Costs and Expenses

Personnel expenses are the major component of both our cost of revenues and selling, general and administrative expenses. Personnel expenses, which represented 65.1% and 57.9% of our total expenses for the six months ended June 30, 2015 and 2014, respectively, include salaries, benefits, incentive compensation, equity compensation costs, sales commissions, employment taxes, recruiting costs, and outsourced temporary agency costs.

We allocate personnel expenses between two categories, cost of revenues and selling, general and administrative expense, based on the actual costs associated with each employee. We categorize employees who maintain our solutions as cost of revenues, and all other personnel, including executive managers, sales people, marketing, business development, finance, legal, human resources, and administrative services, as selling, general and administrative expenses. A significant portion of our other operating costs, such as facilities and communications, is also either captured within cost of revenues or selling, general and administrative expenses based on the nature of the work being performed.

While we expect to grow our headcount over time to take advantage of our market opportunities, we believe that the economies of scale in our operating model will allow us to grow our personnel expenses at a lower rate than revenues. Historically, our EBITDA margin has improved because we have been able to increase revenues without a proportionate corresponding increase in expenses. However, part of our corporate strategy is to invest in new solutions which may offset margin expansion.

Cost of Revenues. Our cost of revenues consists primarily of personnel expenses. Cost of revenues also includes the expenses associated with the acquisition and verification of data, the maintenance of our existing solutions and the development and enhancement of our next-generation solutions. Our cost of revenues excludes depreciation and amortization.

Selling, General and Administrative Expenses. Our selling, general and administrative expenses consist primarily of personnel costs. A portion of the other operating costs such as facilities, insurance and communications is also allocated to selling, general and administrative expenses based on the nature of the work being performed by the employee. Our selling, general and administrative expenses exclude depreciation and amortization.

Acquisition

On May 19, 2015, we acquired 100% of the stock of Wood Mackenzie Limited ("Wood Mackenzie") for a net cash purchase price of approximately \$2,890.0 million, which we financed through a combination of a debt offering, an equity offering, borrowings under our new Credit Facility, and cash on hand. Due to the fact that a portion of the purchase price was funded in pounds sterling and the remainder in U.S. dollars, we entered into a foreign currency hedging instrument to purchase pounds sterling. We recorded a gain within "Gain on derivative instruments" in the accompanying consolidated statements of operations and received proceeds on the hedge of \$85.2 million. These proceeds were utilized to partially fund the acquisition of Wood Mackenzie. Wood Mackenzie is a global provider of data analytics and commercial intelligence for the energy, chemicals, metals and mining verticals. This acquisition advances our strategy to expand internationally and positions us in the global energy market. We have included Wood Mackenzie in the energy and specialized vertical, formerly named specialized markets, of the Decision Analytics segment. See Note 5 of our condensed consolidated financial statements included in this Form 10-Q for further

information.

Discontinued Operations

On March 11, 2014, we sold our mortgage services business, Interthinx. Results of operations for the mortgage services business are reported as a discontinued operation for the six months ended June 30, 2014. See Note 6 of our condensed consolidated financial statements included in this Form 10-Q. As necessary, all amounts have been retroactively adjusted in all periods presented to give recognition to this discontinued operation.

Table of Contents

EBITDA is the financial measure which management uses to evaluate the performance of our Company. “EBITDA” is defined as net income before interest expense, provision for income taxes, and depreciation and amortization of fixed and intangible assets. In addition, this Management’s Discussion and Analysis of Financial Condition and Results of Operations includes references to EBITDA margin, which is computed as EBITDA divided by revenues. See Note 13 of our condensed consolidated financial statements included in this Form 10-Q filing. Although (1) EBITDA is a non-GAAP financial measure, EBITDA is frequently used by securities analysts, lenders and others in their evaluation of companies. EBITDA has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for an analysis of our results of operations or cash flows from operating activities reported under GAAP. Management uses EBITDA in conjunction with GAAP operating performance measures as part of its overall assessment of company performance. Some of these limitations are:

- EBITDA does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;
- EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Although depreciation and amortization are noncash charges, the assets being depreciated and amortized often will have to be replaced in the future and EBITDA does not reflect any cash requirements for such replacements; and
- Other companies in our industry may calculate EBITDA differently than we do, limiting its usefulness as a comparative measure. Please note because EBITDA is calculated from net income, this presentation included EBITDA from discontinued operations of our mortgage services business.

(2) On March 11, 2014, we sold our mortgage services business, Interthinx. See Note 6 of our condensed consolidated financial statements included in this Form 10-Q filing.

Consolidated Results of Continuing Operations

Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014

Revenues

Revenues were \$957.0 million for the six months ended June 30, 2015 compared to \$833.2 million for the six months ended June 30, 2014, an increase of \$123.8 million or 14.9%. Excluding Maplecroft and Wood Mackenzie, our recent acquisitions' revenues of \$44.6 million, which are both reported within our Decision Analytics segment, our consolidated revenue growth increased \$79.2 million or 9.5%. Revenues within our Decision Analytics segment, excluding our recent acquisitions, increased by \$60.9 million or 12.0% and revenues in our Risk Assessment segment increased by \$18.3 million or 5.7%. Revenue growth within Decision Analytics, excluding recent acquisitions, was primarily driven by increases in our insurance, healthcare, and financial services revenue categories. Within Risk Assessment, both industry-standard insurance programs and property-specific rating and underwriting information contributed to its revenue growth. Refer to the Results of Continuing Operations by Segment within this section for further information regarding our revenues.

Cost of Revenues

Cost of revenues was \$379.4 million for the six months ended June 30, 2015 compared to \$342.2 million for the six months ended June 30, 2014, an increase of \$37.2 million or 10.9%. Our recent acquisitions within the Decision Analytics segment, accounted for an increase of \$22.9 million in cost of revenues of which \$6.0 million were non-recurring equity compensation associated with the Wood Mackenzie acquisition and the remaining amount was primarily related to salaries and employee benefits. Excluding the impact of our recent acquisitions, our cost of revenues increased \$14.3 million or 4.2%. The increase was primarily due to increases in salaries and employee benefits of \$13.7 million, rent expense of \$1.4 million and other operating costs of \$0.9 million. These increases were offset by decreases in data costs and data processing fees of \$1.5 million (mostly related to our Decision Analytics segment) and information technology expense of \$0.2 million.

Selling, General and Administrative Expenses

Selling, general and administrative expenses, or SGA, were \$149.6 million for the six months ended June 30, 2015 compared to \$114.2 million for the six months ended June 30, 2014, an increase of \$35.4 million or 31.0%. Our recent acquisitions within the Decision Analytics segment, accounted for an increase of \$34.8 million in SGA, of which \$20.7 million were non-recurring transaction costs associated with the Wood Mackenzie acquisition and the remaining amount was primarily related to salaries and employee benefits. Excluding costs associated with our recent

acquisitions, SGA increased \$0.6 million or 0.5%. The increase was primarily due to increases in salaries and employee benefits of \$0.4 million, professional consulting costs of \$0.4 million. These increases were offset by a decrease in other general expenses of \$0.2 million.

Table of Contents

Depreciation and Amortization of Fixed Assets

Depreciation and amortization of fixed assets was \$53.1 million for the six months ended June 30, 2015 compared to \$40.5 million for the six months ended June 30, 2014, an increase of \$12.6 million or 31.0%. The increase in depreciation and amortization of fixed assets includes depreciation of furniture and equipment, software, computer hardware, and related equipment and depreciation and amortization related to our recent acquisitions of \$1.9 million.

Amortization of Intangible Assets

Amortization of intangible assets was \$43.0 million for the six months ended June 30, 2015 compared to \$28.4 million for the six months ended June 30, 2014, an increase of \$14.6 million or 51.1%. The increase of \$16.8 million was primarily related to our recent acquisitions of Maplecroft and Wood Mackenzie, offset by intangible assets that have been fully amortized of \$2.2 million.

Gain on derivative instruments

Gain on derivative instruments was \$85.2 million for the six months ended June 30, 2015 resulting from the execution of a non-recurring foreign currency hedging strategy in connection with the acquisition of Wood Mackenzie within our Decision Analytics segment. There was no gain on derivative instruments for the six months ended June 30, 2014.

Interest Expense

Interest expense was \$55.9 million for the six months ended June 30, 2015, compared to \$34.9 million for the six months ended June 30, 2014, an increase of \$21.0 million or 60.2%. The increase is primarily due to the interest on the additional debt incurred in connection with the acquisition of Wood Mackenzie as well as the bridge financing arrangement.

Provision for Income Taxes

The provision for income taxes was \$98.5 million for the six months ended June 30, 2015 compared to \$100.7 million for the six months ended June 30, 2014, a decrease of \$2.2 million or 2.2%. The effective tax rate was 27.3% for the six months ended June 30, 2015 compared to 36.9% for the six months ended June 30, 2014. The effective rate for the six months ended June 30, 2015 was lower than the June 30, 2014 effective tax rate primarily due to tax benefits related to the Wood Mackenzie acquisition.

EBITDA Margin

The EBITDA margin for our consolidated results, including discontinued operations, was 53.5% for the six months ended June 30, 2015 compared to 51.2% for the six months ended June 30, 2014. The non-recurring derivative gain offset by the transaction costs related to the Wood Mackenzie acquisition positively impacted our EBITDA margin by 6.1% for the six months ended June 30, 2015. The discontinued operations representing the gain on sale of our mortgage services business positively impacted our EBITDA margin by 5.9% for the six months ended June 30, 2014.

Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014

Revenues

Revenues were \$497.6 million for the three months ended June 30, 2015 compared to \$423.6 million for the three months ended June 30, 2014, an increase of \$74.0 million or 17.5%. Excluding our recent acquisitions, which is reported in our Decision Analytics segment, our consolidated revenue growth increased \$32.0 million or 7.6%. Revenues within our Decision Analytics segment, excluding recent acquisitions, increased by \$22.3 million or 8.5% and revenues in our Risk Assessment segment increased by \$9.7 million or 6.0%. Revenue growth within Decision Analytics was primarily driven by increases in our financial services, healthcare, and insurance revenue categories. Within Risk Assessment, both categories industry-standard insurance programs and property-specific rating and underwriting information contributed to its revenue growth. Refer to the Results of Continuing Operations by Segment within this section for further information regarding our revenues.

Cost of Revenues

Cost of revenues was \$195.2 million for the three months ended June 30, 2015 compared to \$172.5 million for the three months ended June 30, 2014, an increase of \$22.7 million or 13.2%. Our recent acquisitions within the Decision Analytics segment, accounted for an increase of \$21.2 million in cost of revenues of which \$6.0 million were non-recurring equity compensation associated with the Wood Mackenzie acquisition and the remaining amount was primarily related to salaries and employee benefits. Excluding the impact of our recent acquisitions, our cost of revenues increased \$1.5 million or 0.9%. The increase was primarily due to increases in salaries and employee

benefits of \$7.4 million, rent expense of \$1.8 million and other

29

Table of Contents

operating costs of \$0.3 million. These increases were offset by decreases in data costs and data processing fees of \$6.6 million (mostly related to our Decision Analytics segment) and information technology expense of \$1.4 million.

Selling, General and Administrative Expenses

Selling, general and administrative expenses, or SGA, were \$91.3 million for the three months ended June 30, 2015 compared to \$57.1 million for the three months ended June 30, 2014, an increase of \$34.2 million or 60.0%. Our recent acquisitions within the Decision Analytics segment, accounted for an increase of \$34.4 million in SGA of which \$20.7 million were non-recurring transaction costs associated with the Wood Mackenzie acquisition and the remaining amount was primarily related to salaries and employee benefits. Excluding costs associated with our recent acquisitions, SGA decreased \$0.2 million or 0.4%. The decrease was primarily due to lower professional consulting costs of \$2.1 million. This decrease was offset by increases in salaries and employee benefits of \$1.6 million and other general expenses of \$0.3 million.

Depreciation and Amortization of Fixed Assets

Depreciation and amortization of fixed assets was \$28.6 million for the three months ended June 30, 2015 compared to \$20.7 million for the three months ended June 30, 2014, an increase of \$7.9 million or 38.1%. The increase in depreciation and amortization of fixed assets includes depreciation of furniture and equipment, software, computer hardware, and related equipment and depreciation and amortization related to our recent acquisitions of \$1.9 million.

Amortization of Intangible Assets

Amortization of intangible assets was \$28.9 million for the three months ended June 30, 2015 compared to \$14.2 million for the three months ended June 30, 2014, an increase of \$14.7 million or 102.6%. The increase of \$16.5 million was primarily related to our recent acquisitions of Maplecroft and Wood Mackenzie offset by intangible assets that have been fully amortized of \$1.8 million.

Gain on derivative instruments

Gain on derivative instruments was \$85.2 million for the three months ended June 30, 2015 resulting from the execution of the foreign currency hedging strategy in connection with the acquisition of Wood Mackenzie within our Decision Analytics segment. There was no gain on derivative instruments for the three months ended June 30, 2014.

Interest Expense

Interest expense was \$37.7 million for the three months ended June 30, 2015 compared to \$17.5 million for the three months ended June 30, 2014, an increase of \$20.2 million or 115.7%. The increase is primarily due to the interest on the additional debt incurred in connection with the acquisition of Wood MacKenzie as well as the bridge financing arrangement.

Provision for Income Taxes

The provision for income taxes was \$37.7 million for the three months ended June 30, 2015 compared to \$53.7 million for the three months ended June 30, 2014, a decrease of \$16.0 million or 29.8%. The effective tax rate was 18.8% for the three months ended June 30, 2015 compared to 37.9% for the three months ended June 30, 2014. The effective rate for the three months ended June 30, 2015 was lower than the June 30, 2014 effective tax rate primarily due to tax benefits related to the Wood Mackenzie acquisition.

EBITDA Margin

The EBITDA margin for our consolidated results was 59.5% for the three months ended June 30, 2015 compared to 45.9% for the three months ended June 30, 2014. The non-recurring derivative gain offset by the transaction costs related to the Wood Mackenzie acquisition positively impacted our EBITDA margin by 11.8% for the three months ended June 30, 2015.

Results of Continuing Operations by Segment

Decision Analytics

Revenues

Revenues for our Decision Analytics segment were \$614.4 million for the six months ended June 30, 2015 compared to \$508.9 million for the six months ended June 30, 2014, an increase of \$105.5 million or 20.7%. Excluding revenue of \$44.6 million from our recent acquisitions, Decision Analytics revenue increased by \$60.9 million or 12.0%. Our revenue by category for the periods presented is set forth below:

Table of Contents

	Six Months Ended June 30,		Percentage	
	2015	2014	Change	
	(In thousands)			
Insurance	\$ 319,009	\$ 294,261	8.4	%
Financial services	61,550	42,853	43.6	%
Healthcare	144,155	128,988	11.8	%
Energy and specialized markets	89,661	42,830	109.3	%
Total Decision Analytics	\$ 614,375	\$ 508,932	20.7	%

Our insurance revenue increased \$24.7 million or 8.4%, primarily due to increases within our underwriting solutions, catastrophe modeling services, insurance fraud revenue, and loss quantification solutions.

Our financial services revenue increased \$18.8 million or 43.6%, primarily due to a media effectiveness project revenue that occurred in the first quarter and the continued demand for our analytic solutions and services.

Our healthcare revenue increased \$15.1 million or 11.8%, primarily due to an increase in transactions within our revenue and quality intelligence solutions and our healthcare revenue growth was lowered by changes in our customer contract language. For comparability had the contract language also been in effect in the prior period our revenue growth would have been 18.4%.

Our energy and specialized markets, formerly named specialized markets, revenue increased \$46.9 million or 109.3%; excluding Maplecroft and Wood Mackenzie revenues of \$44.6 million, our energy and specialized markets revenue increased \$2.3 million or 5.2% due to growth in our environmental health and safety services and weather risk solutions.

Revenues for our Decision Analytics segment were \$325.9 million for the three months ended June 30, 2015 compared to \$261.6 million for the three months ended June 30, 2014, an increase of \$64.3 million or 24.6%.

Excluding revenue of \$42.0 million from our recent acquisitions, Decision Analytics revenue increased by \$22.3 million or 8.5%. Our revenue by category for the periods presented is set forth below:

	Three Months Ended June 30,		Percentage	
	2015	2014	Change	
	(In thousands)			
Insurance	\$ 165,276	\$ 152,831	8.1	%
Financial services	26,380	21,837	20.8	%
Healthcare	69,051	65,092	6.1	%
Energy and specialized markets	65,213	21,842	198.6	%
Total Decision Analytics	\$ 325,920	\$ 261,602	24.6	%

Our insurance revenue increased \$12.4 million or 8.1%, primarily due to increases within our underwriting solutions.

Our financial services revenue increased \$4.6 million or 20.8%, primarily due to continued demand for our analytic solutions and services.

Our healthcare revenue increased \$3.9 million or 6.1%, primarily to an increase in transactions within our revenue and quality intelligence solutions and our healthcare revenue growth was lowered by changes in our customer contract language. For comparability had the contract language also been in effect in the prior period, our revenue growth would have been 19.6%.

Our energy and specialized markets revenue, formerly named specialized markets, increased \$43.4 million or 198.6%; excluding Maplecroft and Wood Mackenzie revenues of \$42.0 million, our energy and specialized markets revenue increased \$1.4 million or 6.0% due to growth in our environmental health and safety services and weather risk solutions.

Cost of Revenues

Cost of revenues for our Decision Analytics segment were \$278.1 million for the six months ended June 30, 2015 compared to \$239.8 million for the six months ended June 30, 2014, an increase of \$38.3 million or 15.9%. Our recent acquisitions within the Decision Analytics segment, accounted for an increase of \$22.9 million in cost of revenues of which \$6.0 million were non-recurring equity compensation associated with the Wood Mackenzie acquisition and the remaining amount was primarily

Table of Contents

related to salaries and employee benefits. Excluding the impact of our recent acquisitions, our cost of revenues for this segment increased \$15.4 million or 6.4%. The increase was primarily due to increases in salaries and employee benefits of \$15.8 million, rent expense of \$1.4 million and other operating costs of \$1.0 million. These increases were offset by decreases in data costs and data processing fees of \$2.4 million (mostly related to the change in our customer contract within our healthcare vertical) and information technology expense of \$0.4 million.

Cost of revenues for our Decision Analytics segment were \$144.8 million for the three months ended June 30, 2015 compared to \$120.0 million for the three months ended June 30, 2014, an increase of \$24.8 million or 20.6%. Our recent acquisitions within the Decision Analytics segment, accounted for an increase of \$21.2 million in cost of revenues of which \$6.0 million were non-recurring equity compensation associated with the Wood Mackenzie acquisition and the remaining amount was primarily related to salaries and employee benefits. Excluding the impact of our recent acquisitions, our cost of revenues increased \$3.6 million or 3.0%. The increase was primarily due to increases in salaries and employee benefits of \$9.2 million, rent expense of \$2.1 million and other operating costs of \$0.5 million. These increases were offset by decreases in data costs and data processing fees of \$7.2 million (mostly related to the change in our customer contract within our healthcare vertical) and information technology expense of \$1.0 million.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for our Decision Analytics segment were \$110.6 million for the six months ended June 30, 2015 compared to \$76.7 million for the six months ended June 30, 2014, an increase of \$33.9 million or 44.3%. Our recent acquisitions within the Decision Analytics segment, accounted for an increase of \$34.8 million in SGA of which \$20.7 million were non-recurring transaction costs associated with the Wood Mackenzie acquisition and the remaining amount was primarily related to salaries and employee benefits. Excluding costs associated with our recent acquisitions, SGA decreased \$0.9 million or 1.1%. The decrease was primarily due to a decrease in salaries and employee benefits of \$1.6 million and other general expenses of \$0.6 million. These decreases were offset by an increase in professional consulting costs of \$1.3 million.

Selling, general and administrative expenses for our Decision Analytics segment were \$71.3 million for the three months ended June 30, 2015 compared to \$38.6 million for the three months ended June 30, 2014, an increase of \$32.7 million or 84.9%. Our recent acquisitions accounted for an increase of \$34.4 million in SGA of which \$20.7 million were non-recurring transaction costs associated with the Wood Mackenzie acquisition and the remaining amount was primarily related to salaries and employee benefits. Excluding costs associated with our recent acquisitions, SGA decreased \$1.7 million or 4.3%. The decrease was primarily due to lower professional consulting costs of \$1.5 million and other general expenses of \$0.2 million.

EBITDA Margin

The EBITDA margin for our Decision Analytics segment, including discontinued operations, was 50.5% for the six months ended June 30, 2015 compared to 47.7% for the six months ended June 30, 2014. The non-recurring derivative gain offset by the transaction costs related to the Wood Mackenzie acquisition positively impacted our EBITDA margin by 9.6% for the six months ended June 30, 2015. The discontinued operations including the gain on the sale of our mortgage services business positively impacted our EBITDA margin by 9.9% for the six months ended June 30, 2014.

Risk Assessment**Revenues**

Revenues for our Risk Assessment segment were \$342.6 million for the six months ended June 30, 2015 compared to \$324.3 million for the six months ended June 30, 2014, an increase of \$18.3 million or 5.7%. Revenues for our Risk Assessment segment were \$171.7 million for the three months ended June 30, 2015 compared to \$162.0 million for the three months ended June 30, 2014, an increase of \$9.7 million or 6.0%. The overall increase within this segment primarily resulted from an increase in prices derived from continued enhancements to the content of our industry-standard insurance programs' solutions as well as selling expanded solutions to existing customers.

Table of Contents

Our revenue by category for the periods presented is set forth below:

	Three Months Ended		Percentage Change		Six Months Ended		Percentage Change	
	June 30, 2015 (In thousands)	2014			June 30, 2015 (In thousands)	2014		
Industry-standard insurance programs	\$ 130,776	\$ 123,194	6.2	%	\$ 261,372	\$ 247,011	5.8	%
Property-specific rating and underwriting information	40,954	38,758	5.7	%	81,300	77,254	5.2	%
Total Risk Assessment	\$ 171,730	\$ 161,952	6.0	%	\$ 342,672	\$ 324,265	5.7	%

Cost of Revenues

Cost of revenues for our Risk Assessment segment was \$101.3 million for the six months ended June 30, 2015 compared to \$102.4 million for the six months ended June 30, 2014, a decrease of \$1.1 million or 1.0%. The decrease was primarily due to salaries and employee benefits costs decrease of \$2.1 million primarily due to a slight reduction in headcount and other operating costs of \$0.1 million. This decrease was offset by increases in data and consulting costs of \$0.9 million and an increase in information technology expenses of \$0.2 million.

Cost of revenues for our Risk Assessment segment was \$50.4 million for the three months ended June 30, 2015 compared to \$52.5 million for the three months ended June 30, 2014, a decrease of \$2.1 million or 3.9%. The decrease was primarily due to salaries and employee benefits costs decrease of \$1.8 million primarily due to a slight reduction in headcount, a decrease in information technology expenses of \$0.4 million, and a decrease in rent of \$0.3 million and other expenses of \$0.2 million. These decreases were offset by increases in data and consulting costs of \$0.6 million.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for our Risk Assessment segment were \$39.0 million for the six months ended June 30, 2015 compared to \$37.5 million for the six months ended June 30, 2014, an increase of \$1.5 million or 3.8%. The increase were primarily due to an increase in salaries and employee benefits of \$2.0 million and other general expense of \$0.4 million. These increases were offset by a decrease in professional fees of \$0.9 million.

Selling, general and administrative expenses for our Risk Assessment segment were \$20.0 million for the three months ended June 30, 2015 compared to \$18.5 million for the three months ended June 30, 2014, an increase of \$1.5 million or 7.8%. The increase were primarily due to an increase in salaries and employee benefits of \$1.6 million and other general expense of \$0.5 million. These increases were offset by a decrease in professional fees of \$0.6 million.

EBITDA Margin

EBITDA margin for our Risk Assessment segment was 59.1% for the six months ended June 30, 2015 compared to 56.9% for the six months ended June 30, 2014. The increase in our EBITDA margin was primarily attributed to operating leverage in the segment as well as cost efficiencies.

Liquidity and Capital Resources

As of June 30, 2015 and December 31, 2014, we had cash and cash equivalents and available-for-sale securities of \$149.2 million and \$43.2 million, respectively. Subscriptions for our solutions are billed and generally paid in advance of rendering services either quarterly or in full upon commencement of the subscription period, which is usually for one year. Subscriptions are automatically renewed at the beginning of each calendar year. We have historically generated significant cash flows from operations. As a result of this factor, as well as the availability of funds under our \$1,750.0 million Syndicated Revolving Credit Facility, or new Credit Facility, we believe that we will have sufficient cash to meet our working capital and capital expenditure needs, and to fuel our future growth plans. We have historically managed the business with a working capital deficit due to the fact that, as described above, we offer our solutions and services primarily through annual subscriptions or long-term contracts, which are generally prepaid quarterly or annually in advance of the services being rendered. When cash is received for prepayment of invoices, we record an asset (cash and cash equivalents) on our balance sheet with the offset recorded as a current liability (fees received in advance). This current liability is deferred revenue that does not require a direct cash outflow since our customers have prepaid and are obligated to purchase the services. In most businesses, growth in revenue

typically leads to an increase in the accounts receivable balance

33

Table of Contents

causing a use of cash as a company grows. Unlike those businesses, our cash position is favorably affected by revenue growth, which results in a source of cash due to our customers prepaying for most of our services.

Our capital expenditures as a percentage of revenues for the six months ended June 30, 2015 and 2014, were 6.3% and 9.0%, respectively. The expected capital expenditures for the year ending December 31, 2015 will be approximately \$170.0 million, which we expect to primarily include expenditures on our technology infrastructure and our continuing investments in developing and enhancing our solutions. Expenditures related to developing and enhancing our solutions are predominately related to internal use software and are capitalized in accordance with ASC 350-40, "Accounting for Costs of Computer Software Developed or Obtained for Internal Use." We also capitalize amounts in accordance with ASC 985-20, "Software to be Sold, Leased or Otherwise Marketed."

We have also historically used a portion of our cash for repurchases of our common stock from our stockholders. During the six months ended June 30, 2015 and 2014, we repurchased \$0 and \$119.1 million of our common stock, respectively.

Financing and Financing Capacity

We had total debt, excluding capital lease obligations, of \$3,310.2 million and \$1,425.8 million at June 30, 2015 and December 31, 2014, respectively. The debt at June 30, 2015 was primarily issued under senior notes in May 2015 and during 2012 and 2011. On May 15, 2015, we completed an issuance of senior notes in the aggregate principal amounts of \$900.0 million and \$350.0 million due on June 15, 2025 and June 15, 2045, respectively, that accrue interest at a rate of 4.000% and 5.500%, respectively. Interest is payable semi-annually on both series of senior notes on June 15th and December 15th of each year, beginning on December 15, 2015. The senior notes were issued at a discount of \$4.8 million and \$1.2 million, respectively, and we incurred debt issuance costs on the senior notes of \$7.0 million and \$3.9 million, respectively. The discount and debt issuance costs were recorded as "Long-term debt" and "Other assets," respectively, in the accompanying condensed consolidated balance sheets, and these costs will be amortized to "Interest expense" in the accompanying condensed consolidated statements of operations in this quarterly report on Form 10-Q over the life of the respective senior note. The net proceeds from the issuance of these notes were utilized to partially fund the acquisition of Wood Mackenzie. The indenture governing the senior notes restricts our ability to, among other things, create certain liens, enter into sales/leaseback transactions and consolidate with, sell, lease, convey or otherwise transfer all or substantially all of our assets, or merge with or into, any other person or entity. As of June 30, 2015, we had senior notes with an aggregate principal amount of \$2,300.0 million outstanding, and we were in compliance with our debt covenants.

On April 22, 2015, we signed an agreement to enter into a \$1,750.0 million committed senior unsecured Syndicated Revolving Credit Facility, or new Credit Facility, with Bank of America N.A., JP Morgan Chase, N.A., Sun Trust Bank, Wells Fargo Bank N.A., Citizens Bank, N.A., Morgan Stanley Senior Funding, Inc., HSBC Bank USA, N.A., Royal Bank of Canada, BNP Paribas, TD Bank, N.A., The Northern Trust Company, and Capital One N.A. The new Credit Facility became effective on May 15, 2015, and we utilized borrowings of \$930.0 million from the new Credit Facility to partially fund the purchase of Wood Mackenzie. The new Credit Facility may also be used for general corporate purposes, including working capital needs and capital expenditures, acquisitions and the share repurchase program, or Repurchase Program. The new Credit Facility has replaced the previously existing \$990.0 million Syndicated Revolving Credit Facility, or old Credit Facility.

The new Credit Facility contains certain financial and other covenants that, among other things, impose certain restrictions on indebtedness, liens, investments, and capital expenditures. These covenants also place restrictions on mergers, asset sales, sale/leaseback transactions, payments between us and our subsidiaries, and certain transactions with affiliates. The financial covenants require that, at the end of any fiscal quarter, we have a consolidated interest coverage ratio of at least 3.0 to 1.0 and that we maintain, during any period of four fiscal quarters, a consolidated funded debt leverage ratio of 3.75 to 1.0, which ratio steps down to 3.5 to 1.0 at the end of the fourth fiscal quarter ending after the consummation of the acquisition of Wood Mackenzie. We were in compliance with all debt covenants under the new Credit Facility as of June 30, 2015. During the six months ended June 30, 2015, we had total combined borrowings under the old Credit Facility and new Credit Facility of \$1,100.0 million and repaid \$240.0 million during this six month period. Interest on borrowings under the new Credit Facility is payable at an interest rate of LIBOR plus 1.125% to 1.625%, depending upon the consolidated funded debt leverage ratio. A commitment fee on any

unused balance is payable periodically and will range from 12.5 to 25 basis points based upon the consolidated funded debt leverage ratio. As of June 30, 2015 and December 31, 2014, we had outstanding borrowings under the new Credit Facility and old Credit Facility of \$1,020.0 million and \$160.0 million, respectively. On July 22, 2015, we repaid \$30.0 million of our revolver borrowings that were outstanding as of June 30, 2015. On July 24, 2015, we entered into the First Amendment to the new Credit Facility which modified the definitions of Consolidated EBIT and Consolidated EBITDA to permit the adding back of certain non-recurring expenses related to the acquisition of Wood Mackenzie.

As of June 30, 2015, we no longer have any outstanding private placement debt. On April 29, 2015, we repaid \$85.0 million and \$50.0 million of private placement debt with Prudential Capital Group and New York Life, respectively, that came due utilizing \$55.0 million from cash on hand and \$80.0 million from borrowings under the Credit Facility. In addition, on May 14, 2015, we

Table of Contents

prepaid the remaining private placement debt with New York Life of \$17.5 million, which had been due on October 26, 2015, and \$17.5 million and \$50.0 million of remaining private placement debt with Prudential, which had been due on October 26, 2015 and June 15, 2016, respectively. To prepay this debt, we utilized \$25.0 million of cash on hand and borrowings from our Credit Facility of \$60.0 million. The make-whole costs for the prepayment of this debt was \$4.8 million and was recorded to "Interest expense" in the accompanying condensed consolidated statements of operations in this quarterly report on Form 10-Q during the six months ended June 30, 2015.

On March 10, 2015, in connection with our agreement to acquire Wood Mackenzie, we entered into a commitment letter for a \$2,300.0 million 364-day bridge financing arrangement with Bank of America N.A. and Morgan Stanley Bank N.A. acting as joint lead arrangers. This financing arrangement was only to be utilized in the event we did not carry out the debt and equity offerings relating to its acquisition of Wood Mackenzie by a certain date, and was terminated upon the closing of the acquisition. See Note 5 of our condensed consolidated financial statements included in this quarterly report on Form 10-Q filing. We paid fees associated with this financing arrangement of \$9.1 million. Due to the completion of the debt and equity offerings, this arrangement was terminated and the full \$9.1 million of fees were recorded to "Interest expense" in the accompanying condensed consolidated statements of operations in this quarterly report on Form 10-Q during the six months ended June 30, 2015.

Cash Flow

The following table summarizes our cash flow data for the six months ended June 30, 2015 and 2014:

	Six Months Ended June 30,		Percentage
	2015	2014	Change
	(In thousands)		
Net cash provided by operating activities	\$ 355,501	\$ 286,835	23.9 %
Net cash (used in) provided by investing activities	\$ (2,865,258)	\$ 70,484	(4,165.1)%
Net cash provided by (used in) financing activities	\$ 2,603,364	\$ (104,432)	2,592.9 %

Operating Activities

Net cash provided by operating activities was \$355.5 million for the six months ended June 30, 2015 compared to \$286.8 million for the six months ended June 30, 2014. The increase in net cash provided by operating activities was primarily due to an increase in cash receipts from customers driven by an increase in revenues and operating profit, partially offset by acquisition fees related to the acquisition of Wood Mackenzie.

Investing Activities

Net cash used in investing activities was \$2,865.3 million for the six months ended June 30, 2015 and net cash provided by investing activities was \$70.5 million for the six months ended June 30, 2014. The change in investing activities was primarily due to the net of cash acquisition of Wood Mackenzie of \$2,889.6 million on May 19, 2015.

Financing Activities

Net cash provided by financing activities was \$2,603.4 million and net cash used in financing activities was \$104.4 million for the six months ended June 30, 2015 and 2014, respectively. Net cash provided by financing activities for the six months ended June 30, 2015 was primarily related to the net proceeds from the debt and equity offerings of \$1,244.0 million and \$720.8 million, respectively, and other borrowings from our old and new Credit Facilities, net of repayments, of \$640.0 million, partially offset by the prior year repurchases of common stock of \$122.1 million versus no repurchases in the current year. Net cash used in financing activities for the six months ended June 30, 2014 was primarily related to the repurchase of common stock of \$122.1 million, partially offset by proceeds from stock option exercises and other stock option related items of \$21.0 million.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Contractual Obligations

There have been no material changes to our contractual obligations outside the ordinary course of our business from those reported in our annual report on Form 10-K and filed with the Securities and Exchange Commission on February 24, 2015 except as noted below.

Table of Contents

To partially fund the acquisition of Wood Mackenzie, we completed a public bond offering on May 15, 2015, which consisted of the issuance of \$900.0 million aggregate principal amount of 4.000% Senior Notes due 2025 (“2025 notes”) and \$350.0 million aggregate principal amount of 5.500% Senior Notes due 2045 (“2045 notes”). The 2025 notes will bear interest at a fixed rate of 4.000% per annum, with interest payable semi-annually and will mature on June 15, 2025. The 2045 notes will bear interest at a fixed rate of 5.500% per annum, with interest also payable semi-annually, and will mature on June 15, 2045. We will pay interest on each series of notes on June 15 and December 15 of each year, beginning on December 15, 2015. We received net proceeds of \$1,235.1 million after deducting issue discount and underwriting discounts and commissions of \$14.9 million. In addition, we repaid \$135.0 million of private placement debt that came due in April 2015 and prepaid the remaining \$85.0 million of private placement debt in May of 2015 of which \$35.0 million had been due to mature in October of 2015 and \$50.0 million had been due to mature in June of 2016. We no longer have any outstanding private placement debt.

Critical Accounting Policies and Estimates

Our management’s discussion and analysis of financial condition and results of operations are based on our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements require management to make estimates and judgments that affect reported amounts of assets and liabilities and related disclosures of contingent assets and liabilities at the dates of the financial statements and revenue and expenses during the reporting periods. These estimates are based on historical experience and on other assumptions that are believed to be reasonable under the circumstances. On an ongoing basis, management evaluates its estimates, including those related to acquisition purchase price allocations, revenue recognition, goodwill and intangible assets, pension and other post retirement benefits, stock-based compensation, and income taxes. Actual results may differ from these assumptions or conditions. Some of the judgments that management makes in applying its accounting estimates in these areas are discussed under the heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our annual report on Form 10-K dated and filed with the Securities and Exchange Commission on February 24, 2015. Since the date of our annual report on Form 10-K, there have been no material changes to our critical accounting policies and estimates.

Although there has been no material changes to our critical accounting policies and estimates, there was a significant estimate this quarter related to the acquisition of Wood Mackenzie. The preliminarily estimated fair values of the tangible and intangible assets acquired and liabilities assumed in connection with the purchase of Wood Mackenzie have been recognized in the accompanying condensed consolidated balance sheets based on known facts that existed on the date of acquisition. The excess of the purchase price over the preliminary fair values of the net tangible and intangible assets was recorded as goodwill. The preliminary fair values recorded were based upon estimates and assumptions used in the Company’s historical valuation methodology. These estimates and assumptions are subject to change during the measurement period (up to one year from the acquisition date) and may have a significant impact on the consolidated financial statements. See Note 5 of our condensed consolidated financial statements included in this Form 10-Q for further information.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Other than the item below, market risks at June 30, 2015 have not materially changed from those discussed under Item 7A in our annual report on Form 10-K dated and filed with the Securities and Exchange Commission on February 24, 2015:

Foreign Currency Risk

Our foreign-based businesses and results of operations are exposed to movements in the U.S. dollar to British pounds and other foreign currency exchange rates. A portion of our revenue is denominated in British pounds and other foreign currencies. If the U.S. dollar strengthens against British pounds and other foreign currencies, our revenues reported in U.S. dollars would decline. With regard to operating expense, our primary exposure to foreign currency exchange risk relates to operating expense incurred in British pounds and other foreign currencies. If British pounds and other foreign currencies strengthen, costs reported in U.S. dollars will increase. Movements in the U.S. dollar to British pounds and other foreign currency exchange rates did not have a material effect on our revenue during the six months ended June 30, 2015. A hypothetical ten percent change in average exchange rates versus the U.S. dollar would not have resulted in a material change to our earnings.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We are required to maintain disclosure controls and procedures (as that term is defined in Rules 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to ensure that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives at the reasonable assurance level.

Our management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this quarterly report on Form 10-Q for the Company and our subsidiaries other than Wood Mackenzie and its subsidiaries that we acquired on May 19, 2015. Management excluded from its assessment the internal control over financial reporting at Wood Mackenzie and subsidiaries, which was acquired on May 19, 2015 and represented approximately 4.8% of total assets, and 4.2% of revenues as of and for the six months ended June 30, 2015. Based upon the foregoing assessments, our Chief Executive Officer and Chief Financial Officer have concluded that, as of June 30, 2015, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

We are in the process of integrating Wood MacKenzie (which we acquired in May 2015) into our overall internal control over financial reporting process. Other than this ongoing integration, during the six months ended June 30, 2015, there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

We are party to legal proceedings with respect to a variety of matters in the ordinary course of business. See Part I Item I. Note 15 to our condensed consolidated financial statements for the six months ended June 30, 2015 for a description of our significant current legal proceedings, which is incorporated by reference herein.

Item 1A. Risk Factors

There has been no material change in the information provided under the heading “Risk Factors” in our annual report on Form 10-K dated and filed with the Securities and Exchange Commission on February 24, 2015 except for the items noted below.

We incurred substantial additional indebtedness in connection with the acquisition of Wood Mackenzie.

On May 19, 2015, we consummated the acquisition of Wood Mackenzie (the “Acquisition”). In order to finance the Acquisition, we incurred \$2,180.0 million of indebtedness. As of June 30, 2015, we had total consolidated indebtedness of approximately \$3,319.7 million, and our leverage ratio (debt to EBITDA) increased from 1.57x to 3.10x. Our increased leverage resulting from the Acquisition could adversely affect our business. In particular, it could increase our vulnerability to sustained, adverse macroeconomic weakness, limit our ability to obtain further financing and limit our ability to pursue certain operational and strategic opportunities. In addition, we incurred approximately \$40.0 million in expenses to consummate the Acquisition. The increased leverage, potential lack of access to financing and increased expenses could have a material adverse effect on our financial condition, results of operations and cash flows.

We may not realize the expected benefits of the Acquisition.

We may fail to realize the expected benefits of the Acquisition or successfully integrate Wood Mackenzie’s operations or preserve its customers and employees in an efficient or timely manner. The necessity of coordinating geographically separated organizations, systems and facilities and addressing possible differences in business backgrounds, corporate cultures and management philosophies may increase the difficulties of integration. This integration effort may also distract our management’s focus from our existing core businesses or impair our existing relationships with employees, customers and our strategic partners. We may not be able to achieve the targeted operating or long-term strategic benefits of the Acquisition or could incur higher transition costs. An inability to realize the full extent of, or any of, the anticipated benefits of the Acquisition, as well as any delays encountered in the integration process or an inability to integrate the operations of the two companies could have a material adverse effect on our financial condition, results of operations and cash flows.

General economic uncertainties, including downward trends in the energy industry, could reduce demand by Wood Mackenzie’s customers for its products and services.

Demand for Wood Mackenzie’s products and services may be negatively influenced by general economic uncertainties, particularly any downward trends in the energy industry. Many factors could negatively affect the revenues, profits and discretionary spending of Wood Mackenzie’s customers. Such factors include commodity prices (in particular, oil and coal), the state of the local economy, interest rates, currency exchange rates, political uncertainty or restrictions and regulations, the availability of industry resources and other matters. A downturn or perceived downturn in the economy, particularly the energy industry, could add pricing pressure, delay subscription renewals or lead to more challenging or protracted fee negotiations or generally lower acceptance of our solutions by Wood Mackenzie’s customers, which could cause a decline in our revenues and have a material adverse effect on our financial condition, results of operations and cash flows.

Our operations are subject to additional risks inherent in international operations.

Wood Mackenzie is based in the United Kingdom and conducts its principal operations outside the United States. As a result, the percentage of our revenues generated outside of the United States has increased materially. Conducting extensive international operations subjects us to risks that are inherent in international operations, including challenges posed by different pricing environments and different forms of competition; lack of familiarity and burdens of complying with foreign laws, legal standards, regulatory requirements, tariffs and other barriers; unexpected changes in regulatory requirements, taxes, trade laws, tariffs, export quotas, custom duties or other trade restrictions; differing technology standards; difficulties in collecting accounts receivable; difficulties in managing and staffing international

operations; varying expectations as to employee standards; potentially adverse tax consequences, including possible restrictions on the repatriation of earnings; and reduced or varied protection for intellectual property rights in some countries. Moreover, international operations could be interrupted and negatively affected by economic changes, geopolitical regional conflicts, terrorist activity, political unrest, civil strife, acts of war and other economic or political

38

Table of Contents

uncertainties. All of these risks could result in increased costs or decreased revenues, either of which could have a material adverse effect on our financial condition, results of operations and cash flows.

We are subject to the increased risk of exchange rate fluctuations.

The revenues and costs of Wood Mackenzie are primarily denominated in pound sterling. As a result of the Acquisition, we face greater exposure to movements in currency exchange rates, which may cause our revenue and operating results to differ materially from expectations. Our operating results could be negatively affected depending on the amount of revenue and expense denominated in foreign currencies. As exchange rates vary, revenue, cost of revenue, operating expenses and other operating results, when remeasured in U.S. dollars, may differ materially from expectations. Although we may apply certain strategies to mitigate foreign currency risk, these strategies may not eliminate our exposure to foreign exchange rate fluctuations and would involve costs and risks of their own, such as ongoing management time and expertise, external costs to implement the strategies and potential accounting implications.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Recent Sales of Unregistered Securities

There were no unregistered sales of equity securities by the Company during the period covered by this report.

Issuer Purchases of Equity Securities

Our board of directors has authorized a Repurchase Program, of up to \$2.0 billion, including a \$500.0 million accelerated share repurchase program, or ASR Program, announced in December 2014. Excluding the ASR Program, \$189.8 million remains available as of June 30, 2015. These authorizations have no expiration dates and may be suspended or terminated at any time. Since the introduction of share repurchase as a feature of our capital management strategies in 2010, we have repurchased shares with an aggregate value of \$1.8 billion. We did not repurchase any shares for the quarter ended June 30, 2015.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

On July 24, 2015, the Company entered into the First Amendment to the Second Amended and Restated Credit Agreement (the "First Amendment") dated April 22, 2015 among the Company, as the borrower, and the lenders and the agents party thereto. The First Amendment modified the definitions of Consolidated EBIT and Consolidated EBITDA to permit the adding back of certain non-recurring expenses related to the acquisition of Wood Mackenzie. All borrowings under the credit facility shall continue to remain unsecured. The foregoing description of the First Amendment is qualified in its entirety by reference to the First Amendment, which is annexed as Exhibit 10.2 to this quarterly report on Form 10-Q and is incorporated by reference in its entirety.

Item 6. Exhibits

See Exhibit Index.
