ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Skkynet's actual results could differ materially from those set forth on the forward looking statements as a result of the risks set forth in Skkynet's filings with the Securities and Exchange Commission, general economic conditions, and changes in the assumptions used in making such forward looking statements.

OVERVIEW

The Company operates its business through its wholly-owned subsidiary Cogent Real-Time Systems, Inc. The Company has taken the existing business lines of Cogent and integrated these with cloud based systems.

The Company provides software and related systems and facilities to collect process and distribute real-time information over a network. This capability allows the customers to both locally and remotely manage, supervise and control industrial processes and financial information systems. By using this software and where requested by a client, our web based assets, this gives clients and their customers (to the extent relevant) the ability and the tools to observe and interact with these processes and services in real-time as they are underway and to give them the power to analyze, alter, stop or otherwise influence these activities to conform to their plans.

RESULTS OF OPERATIONS

For the three and six month periods ending April 30, 2015, revenues were $309,886 and $541,750 compared to $248,298 and $535,347 for the same period in 2014. Revenue increased for the three and six month period ending April 30, 2015 over the three and six month period ended April 30, 2014 plus higher deferred revenue in 2015 over 2014 confirmed higher sales to customers during 2015. The Company has concentrated on launching the cloud services which in the long term should result in increased sales.

General and administrative expense increased to $583,601 and $1,345,986 for the three and six months ended April 30, 2015 from $422,460 and $805,822 for the same periods in 2014. The increase in general and administrative expenses for the three and six months ended April 30, 2015 included options expensed of $218,376 compared to $172,582 in 2014, increased consulting, the opening of a new office plus added marketing expenses to propel business growth.

For the three and six month periods ending April 30, 2015 the Company posted an operating loss of $303,782 and $842,607 compared to an operation loss of $175,905 and $272,740 for the same periods in 2014. The increase in operating loss is attributable to increased expenses in consulting, salaries and office opening expenses plus the stock compensation of $37,250, depreciation of $11,226 and option expenses of $218,636.

Other income and expenses for the three and six month periods ending April 30, 2015 was a loss of $2,116 and $4,128 compared to other income of $9,802 and $6,714 for the same periods in 2014. Interest expense, plus the gains and losses on currency exchange and gains on debt forgiveness, made up the other income and expenses for the three and six month's periods in both 2015 and 2014.

A net loss of $305,898 and $846,735 was recorded for the three and six months period ending April 30, 2015 compared to a net loss of $166,103 and $266,026 for the same periods in 2014. The loss can be attributed to added employee costs and increased marketing activity in 2015 compared to 2014.

LIQUIDITY AND CAPITAL RESOURCES

At April 30, 2015, Skkynet had current assets of $757,908 and current liabilities of $715,288, resulting in working capital of $42,620. Accumulated deficit as of April 30, 2015 was $2,550,063 with total shareholders' equity of $103,530.

Net cash used in operations for the six months ending April 30, 2015 was $529,061 compared to net cash used of $256,781 for the same period in 2014. Net cash used in operations increased primarily due to an increase in the net loss of $846,735 and an increase in accounts payable of $107,319. These were offset by stock based compensation of $37,250, stock option based compensation of $218,736, accrued liabilities to related parties of $139,251, and deferred revenue of $73,234.

Cash used in investing activities in the six months period ended April 30, 2015 and 2014 were $1,118 and $735. The investing activity in 2015 included the acquisition of Nic Corporation for $110,000 in cash, offset by cash received of $108,882, plus stock of $74,500.

Net cash provided in financing activities during the six months ended April 30, 2015 was $100,000 compared to net cash provided of $328,667 for the same period in 2014. The difference was due to the sale of common stock of $337,125 offset by the reduction of notes payable to related parties of $35,904 in 2014 compared to the sale of common stock for cash of $100,000 in the same period in 2015.

OFF-BALANCE SHEET ARRANGEMENTS

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a "smaller reporting company" as defined by Item 10 of Regulation S-K, Skkynet is not required to provide information required under this Item.

12

ITEM 4: CONTROLS AND PROCEDURES

This report includes the certifications of our Chief Executive Officer and Chief Financial Officer required by Rule 13a-14 under the Securities Exchange Act of 1934 (the "Exchange Act"). See Exhibits 31.1 and 31.2. This Item 4 includes information concerning the controls and control evaluations referred to in those certifications.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to management, including the Principal Executive Officer and the Principal Financial Officer, to allow timely decisions regarding required disclosures.

In connection with the preparation of this report, our management, under the supervision and with participation of our Principal Executive Officer and Principal Financial Officer (the “Certifying Officers”) conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of April 30, 2015. Based on that evaluation, our management concluded that there is a material weakness in our disclosure controls and procedures over financial reporting. The material weakness results from a lack of written procedures which effectively documents the proper procedures and descriptions of the duties of all persons involved in the disclosure controls of the Company. The Company hopes to implement plans to document the procedures and internal controls of the Company. A material weakness is a deficiency, or a combination of control deficiencies, in disclosure control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company’s annual or interim financial statements will not be prevented or detected on a timely basis. This does not include an evaluation by the Company’s registered public accounting firm regarding the Company’s internal control over financial reporting.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our most recent quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Our management believes that the Unaudited Financial Statements included herein present, in all material respects, the Company’s financial condition, results of operations and cash flows for the periods presented.

13
