Section 1 - Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Company Overview

The terms “Company” and “Vera Bradley” refer to Vera Bradley, Inc. and its subsidiaries, except where the context requires otherwise or where otherwise indicated.

Vera Bradley is a leading designer of women’s handbags and accessories, luggage and travel items, eyewear, and stationery and gifts. Founded in 1982 by friends Barbara Bradley Baekgaard and Patricia R. Miller, the brand’s innovative designs, iconic patterns and versatile styles offer women of all ages a colorful way to accessorize every look.

Vera Bradley offers a unique, multi-channel sales model, as well as a focus on service and a high level of customer engagement. The Company sells its products through two reportable segments: Direct and Indirect. The Direct business consists of sales of Vera Bradley products through the Company’s full-line and factory outlet stores in the United States, verabradley.com, direct-to-consumer eBay sales, and the Company’s annual outlet sale in Fort Wayne, Indiana. As of January 30, 2016, the Company operated 110 full-line stores and 40 factory outlet stores. The Indirect business consists of sales of Vera Bradley products to approximately 2,600 specialty retail locations, substantially all of which are located in the United States, as well as department stores, national accounts, third party e-commerce sites, the Company's wholesale business in Japan, and third party inventory liquidators.

Vera Bradley contracts to manufacture products that may contain gold, tantalum, tin and tungsten (“3TG”), such as handbags, accessories, and luggage and travel items. The Company determined that certain of its products may have zippers, fasteners or other components and materials, which are necessary to the production or functionality of its products, that may contain 3TG.

As these materials are necessary to Vera Bradley’s products, the Company is dedicated to tracing the origin of these metals to ensure our sourcing practices do not support conflict or human rights abuses in the Democratic Republic of Congo (“DRC”) and surrounding area.

Conflict Minerals Disclosures

In accordance with the execution of this policy, Vera Bradley has concluded in good faith that during 2015,

- a) Vera Bradley contracted to manufacture products for which “conflict minerals” (as defined in Section 1502(e)(4) of the Dodd-Frank Wall Street Reform and Consumer Protection Act) are necessary to the functionality or production. Based on a Reasonable Country of Origin Inquiry (“RCOI”) and subsequent due diligence, Vera Bradley does not have concrete findings on whether its sourcing practices directly or indirectly funded armed groups in the Covered
- b) Countries. Vera Bradley has, however, found no reasonable basis for concluding that its suppliers sourced 3TG that directly or indirectly finance or benefit armed groups.

In accord with Rule 13p-1 under the Securities Exchange Act of 1934 (“Rule 13p-1”), Vera Bradley, Inc. has filed this Specialized Disclosure Form (“Form SD”) and the associated Conflict Minerals Report, and both reports are posted in the “Customer Service” section, under “Supply Chain,” of the Company’s website at www.verabradley.com.

Reasonable Country of Origin Inquiry (“RCOI”) Description

Edgar Filing: Vera Bradley, Inc. - Form SD

To complete the RCOI required by the SEC Final Rule, Vera Bradley's suppliers were engaged, by a third party provider, to collect information about the presence and sourcing of 3TG used in the products and components supplied to Vera Bradley. the program utilized the Conflict-Free Sourcing Initiative's Conflict Minerals Reporting Template (CMRT). Only CMRT's version 3.0 or higher were accepted. Suppliers were offered two options to submit the required information, either by uploading the CMRT is MS Excel format or by completing an online survey version of this template on a third-party provider's platform.

Supplier Engagement

The RCOI began with an introduction email from Vera Bradley to suppliers describing the Conflict Minerals Compliance Program ("CMCP") requirements. Following that introduction email, a subsequent email was sent to suppliers containing a registration and survey request link for the on-line data collection platform.

In an effort to increase awareness of the CMCP, supporting regulation, and frequently asked questions concerning 3TG mineral tracing, Vera Bradley's suppliers were introduced to the third party provider's Conflict Minerals Resource Center in the initial registration email. The Supplier Resource Center was provided as an educational tool to facilitate a deeper understanding of the program and education as to why information is being requested.

Following the initial introductions to the program and information request, up to 5 reminder emails were sent to each non-responsive supplier requesting survey completion.

New Information Cut-off

In recognition that the information requested can take time to collect and aggregate, suppliers were given a final deadline of April 1, 2016 to provide information about the metal processors present in their supply chains for the 2015 reporting year.

Information Requested

Suppliers were asked to provide information regarding the sourcing of their materials with the ultimate goal of identifying the 3TG smelters or refiners ("SORs") and associated mine countries of origin. Suppliers who had already performed a RCOI through the use of the CMRT were asked to upload this document into the third party provider's platform or to provide this information in the online survey version.

Suppliers had the ability to share information at a level with which they are most comfortable, i.e. company, product or user-defined, but the declaration scope had to be specified.

Quality Assurance

Supplier responses were evaluated for plausibility, consistency, and gaps. If any of the following quality control flags were raised, suppliers were automatically contacted by the third party platform on a bi-weekly basis up to 3 contacts.

- One or more SORs were listed for an unused metal;

- SOR information was not provided for a used metal, or SOR information provided was not a verified metal processor;

- Supplier answered "yes" to sourcing from the Democratic Republic of the Congo or adjoining countries ("DRC"), but none of the SORs listed are known to source from the region;

- Supplier indicated that they have not received conflict minerals data for each metal from all relevant suppliers;

- Supplier indicated they have not identified all of the SORs used for the products included in the declaration scope;

- Supplier indicated they have not provided all applicable SOR information received;
- and

- Supplier indicated 100% of the 3TG for products covered by the declaration originates from scrap/recycled sources, but one or more SORs listed are not known to be exclusive recyclers.

RCOI Results

A total of 73 Tier 1 suppliers were identified as in-scope for conflict mineral regulatory purposes and contacted as part of the RCOI process. The response rate among these suppliers was 45%. Of these responding suppliers, 18% indicated one or more of the regulated metals (3TG) as necessary to the functionality or production of the products they supply to Vera Bradley. There was an indication of DRC sourcing for 10 out of 153 verified SORs.

Due Diligence

A description of the measures Vera Bradley took to exercise due diligence on the source and chain of custody of its conflict minerals for which Vera Bradley knew or had reason to believe were sourced from the Covered Countries based on the RCOI described above, is provided in the Conflict Minerals Report attached hereto as Exhibit 1.01.

Item 1.02 Exhibit
