KINDER MORGAN, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

#### 1. General

#### Organization

Kinder Morgan, Inc. is the largest midstream and the third largest energy company in North America with a combined enterprise value of approximately \$115 billion and unless the context requires otherwise, references to "we," "us," "our," or "KMI" are intended to mean Kinder Morgan, Inc. and its consolidated subsidiaries. We own an interest in or operate approximately 73,000 miles of pipelines and 180 terminals. Our pipelines transport natural gas, refined petroleum products, crude oil, CO<sub>2</sub> and other products, and our terminals store petroleum products and chemicals and handle such products as ethanol, coal, petroleum coke and steel.

Effective on May 25, 2012, we completed the acquisition of all of the outstanding shares of El Paso Corporation, referred to as "EP." As a result, we own a 41% limited partner interest and the 2% general partner interest in El Paso Pipeline Partners, L.P., referred to as "EPB," as well as certain natural gas pipeline assets.

We also own the general partner and approximately 11% of the limited partner interests of Kinder Morgan Energy Partners, L.P., referred to as "KMP," one of the largest publicly-traded pipeline limited partnerships in America.

Our common stock trades on the New York Stock Exchange under the symbol "KMI."

Kinder Morgan Management, LLC, referred to as "KMR," is a publicly-traded Delaware limited liability company. Kinder Morgan G.P., Inc., the general partner of KMP and a wholly-owned subsidiary of ours, owns all of KMR's voting shares. KMR, pursuant to a delegation of control agreement, has been delegated, to the fullest extent permitted under Delaware law, all of Kinder Morgan G.P., Inc.'s power and authority to manage and control the business and affairs of KMP, subject to Kinder Morgan G.P., Inc.'s right to approve certain transactions.

#### **Basis of Presentation**

We have prepared our accompanying unaudited consolidated financial statements under the rules and regulations of the United States Securities and Exchange Commission. These rules and regulations conform to the accounting principles contained in the Financial Accounting Standards Board's Accounting Standards Codification. Under such rules and regulations, we have condensed or omitted certain information and notes normally included in financial statements prepared in conformity with the Codification. We believe, however, that our disclosures are adequate to make the information presented not misleading.

Our accompanying consolidated financial statements reflect normal adjustments, and also recurring adjustments that are, in the opinion of our management, necessary for a fair statement of our financial results for the interim periods, and certain amounts from prior periods have been reclassified to conform to the current presentation. Interim results are not necessarily indicative of results for a full year; accordingly, you should read these consolidated financial statements in conjunction with our consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2012 (2012 Form 10-K).

Our accounting records are maintained in United States dollars, and all references to dollars are United States dollars, except where stated otherwise. Canadian dollars are designated as C\$. Our consolidated financial statements include our accounts and those of our majority-owned subsidiaries as well as the accounts of KMP, EPB and KMR. Investments in jointly-owned operations in which we hold a 50% or less interest (other than KMP, EPB and KMR, because we have the ability to exercise significant control over their operating and financial policies) are accounted for under the equity method. All significant intercompany transactions and balances have been eliminated.

Notwithstanding the consolidation of KMP and EPB, and their respective subsidiaries, into our financial statements, we are not liable for, and our assets are not available to satisfy, the obligations of KMP and EPB, and/or their respective subsidiaries, and vice versa, except as discussed in the following paragraph. Responsibility for payments of obligations reflected in our, KMP's or EPB's financial statements is a legal determination based on the entity that incurs the liability.

KMP's FTC Natural Gas Pipelines Disposal Group - Discontinued operations

Effective November 1, 2012, we sold KMP's (i) Kinder Morgan Interstate Gas Transmission natural gas pipeline system; (ii) Trailblazer natural gas pipeline system; (iii) Casper and Douglas natural gas processing operations; and (iv) 50% equity investment in the

Rockies Express natural gas pipeline system to Tallgrass Development, L.P. (now known as Tallgrass Energy Partners, L.P. (Tallgrass) for approximately \$1.8 billion in cash (before selling costs), or \$3.3 billion including KMP's share of joint venture debt. In this report, we refer to this combined group of assets as KMP's FTC Natural Gas Pipelines disposal group. For more information about the presentation of KMP's FTC Natural Gas Pipelines disposal group as discontinued operations, see Note 2 "Summary of Significant Accounting Policies-Basis of Presentation" to our consolidated financial statements included in our 2012 Form 10-K. Goodwill

We evaluate goodwill for impairment on May 31 of each year. There were no impairment charges resulting from our May 31, 2012 impairment testing, and no event indicating an impairment has occurred subsequent to that date. Earnings per Share

On March 31, 2013, basic earnings per common share is computed based on the weighted-average number of common shares outstanding during each period. Diluted earnings per common share is computed based on the weighted-average number of common shares outstanding during each period, increased by the assumed conversion of securities (restricted stock is currently the only such security outstanding) convertible into common stock, for which the effect of conversion using the treasury stock method would be dilutive. For the three months ended March 31, 2013, our warrants and convertible trust preferred securities are antidilutive and, accordingly, are excluded from the determination of diluted earnings per share.

On December 26, 2012, the remaining series of the Class A, Class B and Class C shares were fully converted and as a result, only our Class P common stock was outstanding as of December 31, 2012.

For the three months ended March 31, 2012, earnings per share was calculated using the two-class method. Earnings were allocated to each class of common stock based on the amount of dividends declared in the current period for each class of stock plus an allocation of the undistributed earnings or excess distributions over earnings to the extent that each security shares in earnings or excess distributions over earnings. For the investor retained stock, the allocation of undistributed earnings or excess distributions over earnings was in direct proportion to the maximum number of Class P shares into which it could convert.

For the Class P diluted per share computations, total net income attributable to Kinder Morgan, Inc. was divided by the adjusted weighted-average shares outstanding during the period, including all dilutive potential shares. This included the Class P shares into which the investor retained stock was convertible. The number of Class P shares on a fully-converted basis was the same before and after any conversion of our investor retained stock. Each time one Class P share was issued upon conversion of investor retained stock, the number of Class P shares went up by one, and the number of Class P shares into which the investor retained stock was convertible went down by one. Accordingly, there was no difference between Class P basic and diluted earnings per share because the conversion of Class A, Class B, and Class C shares into Class P shares did not impact the number of Class P shares on a fully-converted basis. Commencing with the acquisition of EP, dilutive potential shares also included the Class P shares issuable in connection with the warrants and the trust preferred securities (see Note 4). As no securities were convertible into Class A shares, the basic and diluted earnings per share computations for Class A shares were the same. For the three months ended March 31, 2012, our warrants and convertible trust preferred securities were antidilutive and, accordingly, were excluded from the determination of diluted earnings per share.

The following table sets forth the computation of total basic and diluted earnings per share from continuing operations for the three months ended March 31, 2012 (in millions, except per share amounts):

The following table sets forth the computation of total basic and diluted earnings per share for the three months ended March 31, 2012 (in millions, except per share amounts):

Three Months Ended March 31, 2012 Net Income Available to Shareholders **Participating** Total Class P Class A Securities (a) Net income attributable to KMI \$21 Dividends declared during period \$54 \$154 \$12 (220)Excess distributions over earnings ) (151 \$(199 (48 Net income attributable to shareholders \$3 \$21 \$6 \$12 Basic earnings per share Basic weighted-average number of shares outstanding 171 536 N/A Basic earnings per common share(b) \$0.03 \$0.01 N/A Diluted earnings per share Net income attributable to shareholders and assumed \$3 N/A \$21 conversions(c) Diluted weighted-average number of shares 708 N/A 536 Diluted earnings per common share(b) \$0.03 \$0.01 N/A

Participating securities included Class B shares, Class C shares, and unvested restricted stock awards issued to non-senior management employees that contained rights to dividends. Our Class B and Class C shares were (a)entitled to participate in our earnings, only to the extent of cash distributions made to them. As a result, no earnings in excess of dividends received were allocated to the Class B and Class C shares in our determination of basic and diluted earnings per share.

The Class A shares earnings per share as compared to the Class P shares earnings per share were reduced due to the sharing of economic benefits (including dividends) amongst the Class A, B, and C shares. Class A, B and C shares owned by Richard Kinder, the sponsor investors, the original shareholders, and other management were referred to as "investor retained stock," and were convertible into a fixed number of Class P shares. In the aggregate, our investor retained stock was entitled to receive a dividend per share on a fully-converted basis equal to the dividend per share on our common stock. The conversion of shares of investor retained stock into Class P shares did not increase our total fully-converted shares outstanding, impact the aggregate dividends we paid or the dividends we paid per share on our Class P common stock.

For the diluted earnings per share calculation, total net income attributable to each class of common stock was (c) divided by the adjusted weighted-average shares outstanding during the period, including all dilutive potential shares.

#### 2. Acquisitions and Divestitures

#### KMI Acquisition of El Paso Corporation

Effective on May 25, 2012, we acquired all of the outstanding shares of EP for an aggregate consideration of approximately \$23 billion (excluding assumed debt). In total, EP shareholders received \$11.6 billion in cash, 330 million KMI Class P shares with a fair value of \$10.6 billion as of May 24, 2012 and 505 million KMI warrants with a fair value of \$863 million as of May 24, 2012. The warrants have an exercise price of \$40 per share and a 5-year term.

#### Pro Forma Statements of Income

The following summarized unaudited pro forma consolidated statement of income information for the three months ended 2012 is presented as if the EP acquisition had been completed on January 1, 2012. The summarized unaudited pro forma consolidated statement of income information is not necessarily indicative of what the actual results of operations or financial position of KMI would have been if the transactions had in fact occurred on the date or for the period indicated, nor does it purport to project the results of operations or financial position of KMI for any future periods or as of any date.

The following summarized unaudited pro forma consolidated statement of income information is in millions, except per share amounts.

The summarized unaudited pro forma consolidated statement of income information includes adjustments to: include the results of EP;

include the results of discontinued operations from (i) EP Energy and (ii) KMP's FTC Natural Gas Pipelines disposal group (see below) including \$428 million of losses (net of income taxes) on the remeasurement of the asset disposal group for the three months ended March 31, 2012;

include incremental interest expense related to financing the transactions;

include incremental depreciation and amortization expense on assets and liabilities that were revalued as part of the purchase price allocation;

reflect income taxes for the above adjustments at our effective income tax rate; and

reflect the increase in KMI Class P shares outstanding.

Copano Energy, L.L.C. Acquisition

On May 1, 2013, KMP completed the acquisition of Copano Energy, L.L.C., referred to in this report as Copano, for a total purchase price of approximately \$5 billion, including the assumption of debt. The transaction, which was approved by Copano's unitholders and the boards of directors of each of KMR, Kinder Morgan G.P., Inc., as KMP's general partner, and Copano was a 100% unit for unit transaction with an exchange ratio of 0.4563 of KMP's common units for each Copano unit.

Copano is a midstream natural gas company that provides comprehensive services to natural gas producers, including natural gas gathering, processing, treating and natural gas liquids fractionation. Copano owns an interest in or operates approximately 6,900 miles of pipelines with 2.7 billion cubic feet per day of natural gas transportation capacity, and also owns nine natural gas processing plants with more than 1 billion cubic feet per day of natural gas processing capacity and 315 million cubic feet per day of natural gas treating capacity. Its operations are located primarily in Texas, Oklahoma and Wyoming. Most of the acquired assets will be included in the Natural Gas Pipelines business segment.

#### KMP's FTC Natural Gas Pipelines Disposal Group – Discontinued Operations

As described above in Note 1, we began accounting for KMP's FTC Natural Gas Pipelines disposal group as discontinued operations in the first quarter of 2012 (prior to our sale announcement, we included the disposal group in the Natural Gas Pipelines business segment). During that quarter, the disposal group's net assets were remeasured to reflect the initial assessment of its fair value as a result of the FTC mandated sale requirement, and based on this remeasurement, we recognized a \$428 million loss. We reported this loss amount separately as "Loss on sale and the remeasurement of KMP's FTC Natural Gas Pipelines disposal group to fair value, net of tax" within the discontinued operations section of our accompanying consolidated statement of income for the three months ended March 31, 2012. The final consideration was trued up in the first quarter of 2013 resulting in a \$2 million additional loss recorded as "Loss on sale and the remeasurement of KMP's FTC Natural Gas Pipelines disposal group to fair value, net of tax." As a result of our remeasurement of net assets to fair value and the sale of net assets, we recognized a combined \$937 million loss for the year ended December 31, 2012.

Summarized financial information for KMP's FTC Natural Gas Pipelines disposal group is as follows (in millions):

#### **Express Pipeline System**

Effective March 14, 2013, KMP sold both its one-third equity ownership interest in the Express pipeline system and its subordinated debenture investment in Express to Spectra Energy Corp. for \$403 million in cash. We recorded a pre-tax gain of \$225 million with respect to this transaction, and we reported this amount separately as "Gain on sale of investments in Express pipeline system" in our accompanying consolidated statement of income for the three months ended March 31, 2013. We also recorded an income tax expense of \$84 million related to this gain amount, and we included this expense within "Income Tax Expense" in our accompanying consolidated statement of income for the three months ended March 31, 2013. As of the date of sale, KMP's equity investment in Express totaled \$67 million and its note receivable due from Express totaled \$110 million.

Prior to KMP's sale, we (i) accounted for KMP's equity investment under the equity method of accounting; (ii) accounted for KMP's debt investment under the historical amortized cost method of accounting; and (ii) included the financial results of the Express pipeline system within the Kinder Morgan Canada-KMP business segment. As of December 31, 2012, KMP's equity and debt investments in Express totaled \$65 million and \$114 million, respectively,

and we included the combined \$179 million amount within "Assets held for sale" on our accompanying consolidated balance sheet as of that date.

## BBPP Holdings Ltda

As of December 31, 2012, we owned a 33 1/3% interest in BBPP Holdings Ltda which we acquired as a part of the May 25, 2012 EP acquisition. The remaining interest is owned 33 1/3% by British Gas International Holdings B.V. and 33 1/3% by Total. BBPP Holdings Ltda owns a 29% interest in Transportadora Brasileira Gasoduto Bolivia-Brasil S.A. which is referred to as the Bolivia to Brazil Pipeline. On January 18, 2013, we completed the sale of our equity interests in the Bolivia to Brazil Pipeline for \$88 million. As of December 31, 2012, our \$88 million equity interests in the Bolivia to Brazil Pipeline was included within "Assets held for sale" on our accompanying consolidated balance sheet.

Kinder Morgan, Inc. Form 10-Q

Drop-Down of EP Assets to KMP

March 2013

Effective March 1, 2013, KMP acquired from us the remaining 50% ownership interest it did not already own in both the El Paso Natural Gas pipeline system and the El Paso midstream assets for an aggregate consideration of approximately \$1.7 billion (including a proportional 50% of assumed debt borrowings as of March 1, 2013). The drop-down transaction was accounted for as a transfer of net assets between entities under common control. Specifically, we have retrospectively adjusted our consolidated financial statements to reflect the recognition by KMP of the acquired assets and assumed liabilities at our carrying value, including our El Paso purchase accounting adjustments as of May 25, 2012. In this report, we refer to this acquisition of assets from KMI as the drop-down transaction; the combined group of assets acquired from KMI as the drop-down asset group; the El Paso Natural Gas pipeline system or El Paso Natural Gas Company, L.L.C. as EPNG; and the El Paso midstream assets or Kinder Morgan Altamont LLC (formerly, El Paso Midstream Investment Company, L.L.C.) as the midstream assets.

The consideration that we received from KMP consisted of (i) \$988 million in cash; (ii) 1,249,452 common units (valued at \$108 million based on the \$86.72 closing market price of KMP's common units on the New York Stock Exchange on the March 1, 2013 issuance date); and (iii) \$557 million in assumed debt (consisting of 50% of the outstanding principal amount of EPNG's debt borrowings as of March 1, 2013, excluding any debt fair value adjustments). We used the proceeds from the March 1, 2013 drop-down transaction to (i) pay down \$947 million of our senior secured term loan facility and (ii) reduce borrowings under our credit facility. Also, see Note 3.

The terms of the drop-down transaction were approved on our behalf by the independent members of our board of directors and on KMP's behalf by Kinder Morgan G.P., Inc., as KMP's general partner, and KMR's audit committees and the boards of directors of both Kinder Morgan G.P., Inc. and KMR, in its capacity as the delegate of Kinder Morgan G.P., Inc., following the receipt by our independent directors and by the audit committees of Kinder Morgan G.P., Inc. and KMR of separate fairness opinions from different independent financial advisors.

August 2012

Effective August 1, 2012, KMP acquired the full ownership interest in the Tennessee Gas natural gas pipeline system and an initial 50% ownership interest in EPNG from us for an aggregate consideration of approximately \$6.2 billion. For additional information about this acquisition, see Note 3 "Acquisitions and Divestitures-Drop-Down of EP Assets to KMP" to our consolidated financial statements included in our 2012 Form 10-K.

Income Tax Impact on the Drop-Down of EP Assets to KMP

As discussed above, we accounted for the acquisition of EP as a business combination and for the subsequent March 2013 and August 2012 drop-down transactions as transfers of net assets between entities under common control. For income tax purposes, the March 2013 transaction was treated as a contribution and the August 2012 drop-down transaction was treated as a partial sale, and a partial contribution.

Our accounting policy is to apply the look-through method of recording deferred taxes on the outside book tax basis differences in our investments without regard to non tax deductible goodwill. As a result of the drop-down transactions, a deferred tax liability arose related to the portion of the outside basis difference associated with the underlying goodwill that was contributed to KMP by us. However, since the drop-downs were transactions between entities under common control, we recognized an offsetting deferred charge of \$448 million for the August 2012 and \$53 million for the March 2013 drop-down transactions. These balances will be amortized to income tax expense over

the remaining useful lives of the transferred assets of approximately 25 years. Similar to the impact described above, KMP's acquisition of a 50% ownership interest in the EP Midstream joint venture, also generated the recognition of a deferred charge and corresponding deferred tax liability and is included in the amount above.

The amortization of the deferred charge will result in incremental income tax expense of approximately \$20 million per year. For the three months ended March 31, 2013, total income tax expense related to the amortization of the deferred charges was approximately \$5 million.

#### 3. Debt

We classify our debt based on the contractual maturity dates of the underlying debt instruments. We defer costs associated with debt issuance over the applicable term and then amortize these costs as interest expense in our consolidated statements of

income. The following table summarizes the carrying value of our outstanding debt, excluding debt fair value adjustments (in millions):

	March 31, 2013	December 31, 2012
Current portion of debt(a)	\$2,876	\$2,401
Long-term portion of debt	29,065	29,409
Carrying value of debt(b)	\$31,941	\$31,810

As of March 31, 2013 and December 31, 2012, balances include (i) KMI's credit facility borrowings of \$1,274 (a) million and \$1,035 million, respectively; (ii) KMP's commercial paper borrowings of \$595 million and \$621 million, respectively; and (iii) \$160 million and \$288 million of letter of credit facilities, respectively. Excludes debt fair value adjustments. As of March 31, 2013 and December 31, 2012, our "Debt fair value adjustments" increased our debt balances by \$2,449 million and \$2,591 million, respectively. In addition to all unamortized debt discount/premium amounts and purchase accounting on our debt balances, our debt fair value adjustments also include amounts associated with the offsetting entry for hedged debt and any unamortized portion of proceeds received from the early termination of interest rate swap agreements. For further information about our debt fair value adjustments, see Note 5 "Risk Management-Fair Value of Derivative Contracts."

#### Changes in Debt

Changes in our and our subsidiaries outstanding debt, excluding debt fair value adjustments, during the three months ended March 31, 2013 are summarized as follows (in millions):

On February 28, 2013, KMP completed a public offering of two separate series of senior notes. KMP received (a) proceeds, after deducting the underwriting discount, of \$991 million, and used the proceeds to pay a portion of the purchase price for its drop-down transaction and to reduce the borrowings under its commercial paper program.

KMP's subsidiary, Kinder Morgan Altamont LLC maintains an unsecured revolving bank credit facility that matures on August 2, 2014. Effective March 31, 2013, Kinder Morgan Altamont LLC reduced the amount available for borrowing under this credit facility from \$95 million to approximately \$1 million. In addition, in February 2013, prior to KMP's March 1, 2013 acquisition date, KMP and KMI each contributed \$45 million to repay the outstanding \$90 million borrowings under this credit facility, and following this repayment, Kinder Morgan Altamont LLC had no outstanding debt.

#### Credit Facilities

#### **KMI**

As of March 31, 2013, the amount available for borrowing under KMI's \$1.75 billion senior secured credit facility was reduced by a combined amount of \$1,351 million consisting of (i) \$1,274 million in borrowings outstanding under its credit facility and (ii) \$77 million in fifteen letters of credit primarily consisting of letters of credit that are required under provisions of our property and casualty, workers' compensation and general liability insurance policies.

#### **KMP**

As of March 31, 2013, KMP had approximately \$1,395 million of borrowing capacity available under its \$2.2 billion credit facility. The amount available for borrowing under KMP's credit facility was reduced by a combined amount of \$805 million, consisting of \$595 million of commercial paper borrowings and \$210 million of letters of credit, consisting of (i) a \$100 million letter of credit that supports certain proceedings with the California Public Utilities Commission involving refined products tariff charges on the intrastate common carrier operations of KMP's Pacific operations' pipelines in the state of California; (ii) a combined \$85 million in three letters of credit that support tax-exempt bonds; and (iii) a combined \$25 million in other letters of credit supporting other obligations of KMP and its subsidiaries.

#### Subsequent Event

On May 1, 2013, KMP entered into an Amended and Restated Credit Agreement (the "Credit Agreement") among KMP, as Borrower; Kinder Morgan Operating L.P. "B", as the Subsidiary Borrower; a diverse syndicate of banks; and Wells Fargo Bank, National Association, as Administrative Agent. The Credit Agreement provides for a \$2.7 billion unsecured revolving credit facility, which will expire on May 1, 2018, and replaces KMP's \$2.2 billion unsecured revolving credit facility that was scheduled to mature on July 1, 2016. The Credit Agreement includes financial covenants and events of default that are common in such agreements and are substantially unchanged as compared to those under KMP's previous credit facility. The credit facility can be used as a backup for KMP's short-term commercial paper program and for general partnership purposes.

#### **EPB**

As of March 31, 2013, EPB had no outstanding balance under its revolving credit facility and \$10 million in outstanding letters of credit. EPB availability under this facility as of March 31, 2013 was approximately \$1.0 billion. Kinder Morgan G.P., Inc. Preferred Shares
