Notes to Consolidated Financial Statements

March 31, 2016 and 2015

NOTE 1 - CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at March 31, 2016, and for all periods presented herein, have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2015 audited financial statements. The results of operations for the periods ended March 31, 2016 and 2015 are not necessarily indicative of the operating results for the full years.

NOTE 2 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES

Accounting Basis

The Company's financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. The Company has elected a December 31 fiscal year end.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

The Company has evaluated recent accounting pronouncements and their adoption has not had or is not expected to have a material impact on the Company's financial position, or statements.

NOTE 4 - SUBSEQUENT EVENTS

In accordance with ASC 855, Company management reviewed all material events through the date of this filing, and there are no material subsequent events to report other than those reported.

ITEM 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This Quarterly Report on Form 10-Q of Genie Gateway for the period ended March 31, 2016 contains forward-looking statements, principally in this Section and "Business." Generally, you can identify these statements because they use words like "anticipates," "believes," "expects," "future," "intends," "plans," and similar terms. These statements reflect only our current expectations. Although we do not make forward-looking statements unless we believe we have a reasonable basis for doing so, we cannot guarantee their accuracy and actual results may differ materially from those we anticipated due to a number of uncertainties, many of which are unforeseen, including, among others, the risks we face as described in this filing. You should not place undue reliance on these forward-looking statements which apply only as of the date of this quarterly report. To the extent that such statements are not recitations of historical fact, such statements constitute forward-looking statements that, by definition, involve risks and uncertainties. In any forward-looking statement where we express an expectation or belief as to future results or events, such expectation or belief is expressed in good faith and believed to have a reasonable basis, but there can be no assurance that the statement of expectation or belief will be accomplished.

We believe it is important to communicate our expectations to our investors. There may be events in the future; however, that we are unable to predict accurately or over which we have no control. The risk factors listed in this filing, as well as any cautionary language in this annual report, provide examples of risks, uncertainties and events that may cause our actual results to differ materially from the expectations we describe in our forward-looking statements. Factors that could cause actual results or events to differ materially from those anticipated, include, but are not limited to: our ability to successfully obtain financing for product acquisition; changes in product strategies; general economic, financial and business conditions; changes in and compliance with governmental regulations; changes in various tax laws; and the availability of key management and other personnel.

Overview

We were incorporated in Nevada on November 26, 1996, as "Conceptual Technologies, Inc." On April 9, 1998, we changed our name to "NovaMed, Inc." to reflect the acquisition of a medical device manufacturer and retailer. The medical device business was abandoned in October of 2000. On August 8, 2003, we acquired World Wide Auctioneers, Ltd. ("World Wide"), a British Virgin Island registered company and changed our name to "WWA Group, Inc." On September 9, 2015, we changed our name to "Genie Gateway".

On July 12, 2012 we entered into a Share Exchange Agreement (the "SD Agreement"), subject to shareholder approval, to acquire all of the issued and outstanding shares of Summit Digital, Inc. ("Summit") from Summit Digital Holdings, Inc. in exchange for shares of our common stock. The SD Agreement provided that Summit would exchange 100 shares or 100% of the issued and outstanding shares of Summit for 99,000,000 shares of our Common Stock, par value \$001 per share.

As a result of the SD Agreement, we conduct some of our business operations under the name Summit Digital. Those operations primarily relate to acquiring existing underutilized cable systems in rural, semi-rural and gated community markets, aggregating them into a single multi-system operator structure and creating growth by upgrading management, improving efficiency, cutting costs, and fully exploiting the opportunities presented by bundling multiple services such as basic TV, premium TV, pay-per-view, broadband Internet, and voice telephony.

On April 9, 2015, we closed the transaction contemplated by an Agreement of Exchange of Stock (the “Share Exchange Agreement”) by and between us, AllCom, a Nevada corporation (“AllCom”) and Genie Gateway, a California corporation (“Genie”), dated as of January 30, 2015, as amended, pursuant to which AllCom transferred to us 100% of the common stock of Genie in exchange for the issuance of: (i) 1,257,989 shares of our Common Stock, restricted in accordance with Rule 144, (ii) 5,000,000 shares of our Series B Convertible Preferred Stock, and (iii) 10,000,000 shares of our Series C Convertible Preferred Stock, all of which shares equate to approximately 97% of our outstanding voting control (not including the shares of our Series A Convertible Preferred Stock, which will be retired once we effect a reverse stock split of our common stock). As a result of closing this transaction, Genie became our wholly-owned subsidiary and now, in addition to managing our cable operations that we control through our subsidiary, Summit Digital, Inc., we are now also in the business of being a unified communications and

payment processing platform that blends business products and services - traditionally purchased from multiple vendors - into one seamless service, through Genie.

On September 9, 2015, our common stock underwent a 1-for-100 reverse stock split. The share numbers in this Quarterly Report are expressed in post-stock split numbers. The 5,000,000 shares of Series B Convertible Preferred Stock that were issued in the Share Exchange Transaction were automatically converted into 16,666,666 shares of our post-split common stock upon the reverse stock split going effective.

| Other income (expense) | 290 | 19,250 |
| Net income (loss) | \$ 19,569 | \$ (40,637) |

Operating Income (Loss)

We had operating income of \$19,800 for the three months ended March 31, 2016, compared to an operating loss of \$49,155 for the three months ended March 31, 2015. This difference was attributable to an increase of \$100,000 in

Edgar Filing: GENIE GATEWAY - Form 10-Q

revenue from royalty revenue in the period in 2016 compared to 2015 and lower cost of goods sold, offset by slightly lower revenue from cable/internet sales, higher general, selling and administrative expenses, and higher salaries and wages. We expect our operating income (loss) to continue to be significantly impacted by our acquisition of Genie Gateway.

Revenue

Our revenue from the three months ended March 31, 2016 was \$208,938 compared to \$116,347 for the three months ended March 31, 2015. Our revenue for the three months ended March 31, 2016 included \$108,938 from our Summit Digital subsidiary and \$100,000 in royalty revenue from our Genie Gateway subsidiary, the latter received from AllCom, our largest shareholder, for intellectual property we license from it. The revenue from our Summit Digital subsidiary was the result of sales of Summit Digital's bundled services such as basic TV, premium TV, pay-per-view, broadband Internet, and voice telephony. Our revenue for the three months ended March 31, 2015 was derived entirely from the operations of Summit Digital, as we had not completed the acquisition of our Genie Gateway subsidiary as of March 31, 2015.

Cost of Goods Sold

Our cost of goods sold for the three months ended March 31, 2016 were \$45,677, compared to \$56,224 for the same period in 2015. The cost of goods sold for the three months ended March 31, 2016 was entirely related to the revenues generated from Summit Digital, Inc. In future periods we expect our cost of goods sold to increase as a result of our acquisition of Genie Gateway on April 9, 2015.

General, Selling and Administrative Expenses

General, selling and administrative expenses were \$98,836 for the three months ended March 31, 2016, compared to \$80,294 for the three months ended March 31, 2015. Our primary general and administrative expenses for the period in 2016 were consulting, legal and accounting fees, which were approximately \$71,061. Our primary general and administrative expenses for the period in 2015 were wages and consulting. The increase in our general, selling and administrative expenses was largely due to the increases related to our acquisition of Genie Gateway. We expect our general, selling and administrative expenses to increase significantly in future periods due to our acquisition of Genie Gateway.

Salaries and Wages

Our expenses related to salaries and wages were \$43,726 for the three months ended March 31, 2016, compared to \$24,842 for the three months ended March 31, 2015. The increase in our salaries and wages for the three months in 2016 was a result of increases due to our acquisition of Genie Gateway. We expect our salaries and wages will increase in future periods as a result of the acquisition Genie Gateway.

Depreciation

During the three months ended March 31, 2016, we had depreciation of \$900, primary related to office equipment and cable and wireless plant assets. We had expenses of \$4,142 for the three months ended March 31, 2015, also related to equipment and cable and wireless plant assets.

Interest Income/Expense

We had interest expense \$521 for the three months ended March 31, 2016, compared to interest expense of \$579 for the three months ended March 31, 2015. Interest expense for both periods relates primarily to our line of credit with Huntington National Bank.

Gain (Loss) on Derivative Liability

During the three months ended March 31, 2016 we did not have any gain (loss) on derivative liability because we retired our convertible debt and did not have any derivative liabilities outstanding during the period. For the three months ended March 31, 2015, we recognized a non-cash loss on derivative liabilities of \$10,153, which was due primarily to the change in fair value of the conversion option on convertible debt which was recorded as a derivative liability.

Other Income (Expense)

During the three months ended March 31, 2016 and March 31, 2015, we had other expense of \$290 and \$19,250, respectively. These amounts were related to adjustments to correctly state balance sheet accounts.

Liquidity and Capital Resources for Three Months ended March 31, 2016 and 2015

Introduction

During the three months ended March 31, 2016 we generated a slight profit from our operations. We had operating losses during the three months ended March 31, 2015, largely as a result of losses from our operations prior to our transaction with AllCom, which closed on April 9, 2015. Our cash and cash equivalents as of March 31, 2016 was \$10,567. Beginning with the second quarter of 2016 we believe our revenue will be sufficient to support our current ongoing operating expenses going forward.

Our cash, current assets, total assets, current liabilities, and total liabilities as of March 31, 2016 compared to December 31, 2015, respectively, are as follows:

| | March 31, | | December 31, | |
|---------------------------|------------------|----|---------------------|---------------|
| | 2016 | | 2015 | Change |
| Cash | \$ 10,567 | \$ | 75,144 | \$ (64,577) |
| Total Current Assets | 941,156 | | 912,899 | 28,257 |
| Total Assets | 1,088,048 | | 1,058,504 | 29,544 |
| Total Current Liabilities | 233,605 | | 223,629 | 9,976 |
| Total Liabilities | \$ 245,480 | \$ | 235,504 | \$ 9,976 |

Our total assets increased by \$29,544 as of March 31, 2016 compared to December 31, 2015. Our current assets increased by \$28,257 over the same period. These slight increases were primarily due to increases in our accounts receivable, which increased as a result of our acquisition of Genie Gateway.

Our current liabilities increased by \$9,976 and our total liabilities increased by the same amount as of March 31, 2016 as compared to December 31, 2015. These slight increases were primarily due to increases in our accounts payable.

Cash Requirements

We had cash and cash equivalents available as of March 31, 2016 of \$10,567 and \$75,144 as of December 31, 2015. We believe our revenue will be sufficient to support our current ongoing business operations going forward.

Sources and Uses of Cash

Operations

We had net cash used in operating activities of \$62,389 for the three months ended March 31, 2016, as compared to \$9,875 for the three months ended March 31, 2015. For the three months ended March 31, 2016, the net cash used in operating activities consisted primarily of our net income of \$19,569, adjusted primarily by depreciation and amortization of \$900, and changes in our operating assets and liabilities of an increase in accounts receivable of \$92,834, an increase in accounts payable of \$15,867, a decrease of \$4,391 in accrued expenses, and a decrease of \$1,500 in note payables.

Investing

For the three months ended March 31, 2016 we had net cash used by investing activities of \$2,188, all of which was attributed to the purchase of property and equipment. We did not have any net cash provided by or used by investing activities in the three months ended March 31, 2015.

Financing

We did not have any net cash provided by financing activities in either of the three-month periods ended March 31, 2016 or 2015.

Off Balance Sheet Arrangements

We have no off balance sheet arrangements.

ITEM 3

Quantitative and Qualitative Disclosures about Market Risk

As a smaller reporting company, we are not required to provide the information required by this Item.

ITEM 4

Controls and Procedures

(a)

Evaluation of Disclosure Controls Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) that are designed to ensure that information that would be required to be disclosed in Exchange Act reports is recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including to our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As required by Rule 13a-15 under the Exchange Act, our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2016. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of March 31, 2016, and as of the date that the evaluation of the effectiveness of our disclosure controls and procedures was completed, our disclosure controls and procedures were not effective to satisfy the objectives for which they are intended.

Management's Report on Internal Controls over Financial Reporting

Our management is responsible for establishing and maintaining effective internal control over financial reporting (as defined in Rule 13a-15(f) of the Securities Exchange Act). Management assessed the effectiveness of the Company's internal control over financial reporting as of March 31, 2016. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on that assessment, management believes that, as of March 31, 2016, the Company's internal control over financial reporting was ineffective based on the COSO criteria, due to the following material weaknesses listed below.

Insufficient segregation of duties in our finance and accounting functions due to limited personnel. We internally performed all aspects of our financial reporting process, including, but not limited to, access to the underlying accounting records and systems, the ability to post and record journal entries and responsibility for the preparation of the financial statements. Due to the fact these duties were performed by limited personnel, a lack of review was created over the financial reporting process that might result in a failure to detect errors in spreadsheets, calculations, or assumptions used to compile the financial statements and related disclosures as filed with the SEC.

Insufficient corporate governance policies. Our corporate governance activities and processes are not always formally documented.

These control deficiencies could result in a material misstatement to our interim or annual financial statements that would not be prevented or detected.

When we are financially able, we intend to take appropriate and reasonable steps to make the necessary improvements to remediate these deficiencies and we intend to consider the results of our remediation efforts and related testing as part of our next assessment of the effectiveness of our internal control over financial reporting.

(c)

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting during the period ended March 31, 2016, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
