

STARWOOD PROPERTY TRUST, INC.

Form 10-Q

May 04, 2018

[Table of Contents](#)

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number 001-34436

Starwood Property Trust, Inc.

(Exact name of registrant as specified in its charter)

Maryland
(State or Other Jurisdiction of
Incorporation or Organization)

27-0247747
(I.R.S. Employer
Identification No.)

591 West Putnam Avenue
Greenwich, Connecticut
(Address of Principal Executive Offices)

06830
(Zip Code)

Registrant's telephone number, including area code:

(203) 422-7700

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	Accelerated filer
Non-accelerated filer	Smaller reporting company
(Do not check if a smaller reporting company)	Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of the issuer's common stock, \$0.01 par value, outstanding as of April 30, 2018 was 261,986,337.

Special Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain forward-looking statements, including without limitation, statements concerning our operations, economic performance and financial condition. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are developed by combining currently available information with our beliefs and assumptions and are generally identified by the words “believe,” “expect,” “anticipate” and other similar expressions. Forward-looking statements do not guarantee future performance, which may be materially different from that expressed in, or implied by, any such statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their respective dates.

These forward-looking statements are based largely on our current beliefs, assumptions and expectations of our future performance taking into account all information currently available to us. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us or within our control, and which could materially affect actual results, performance or achievements. Factors that may cause actual results to vary from our forward-looking statements include, but are not limited to:

- factors described in our Annual Report on Form 10-K for the year ended December 31, 2017 and this Quarterly Report on Form 10-Q, including those set forth under the captions “Risk Factors” and “Business”;
- defaults by borrowers in paying debt service on outstanding indebtedness;
- impairment in the value of real estate property securing our loans or in which we invest;
- availability of mortgage origination and acquisition opportunities acceptable to us;
- potential mismatches in the timing of asset repayments and the maturity of the associated financing agreements;
- national and local economic and business conditions;
- general and local commercial and residential real estate property conditions;
- changes in federal government policies;
- changes in federal, state and local governmental laws and regulations;

- increased competition from entities engaged in mortgage lending and securities investing activities;
- changes in interest rates; and
- the availability of, and costs associated with, sources of liquidity.

In light of these risks and uncertainties, there can be no assurances that the results referred to in the forward-looking statements contained in this Quarterly Report on Form 10-Q will in fact occur. Except to the extent required by applicable law or regulation, we undertake no obligation to, and expressly disclaim any such obligation to, update or revise any forward-looking statements to reflect changed assumptions, the occurrence of anticipated or unanticipated events, changes to future results over time or otherwise.

Starwood Property Trust, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

As of March 31, 2018

(Unaudited)

1. Business and Organization

Starwood Property Trust, Inc. (“STWD” and, together with its subsidiaries, “we” or the “Company”) is a Maryland corporation that commenced operations in August 2009, upon the completion of our initial public offering. We are focused primarily on originating, acquiring, financing and managing commercial mortgage loans and other commercial real estate debt investments, commercial mortgage-backed securities (“CMBS”), and other commercial real estate investments in both the U.S. and Europe. We refer to the following as our target assets: commercial real estate mortgage loans, preferred equity interests, CMBS and other commercial real estate-related debt investments. Our target assets may also include residential mortgage-backed securities (“RMBS”), certain residential mortgage loans, distressed or non-performing commercial loans, commercial properties subject to net leases and equity interests in commercial real estate. As market conditions change over time, we may adjust our strategy to take advantage of changes in interest rates and credit spreads as well as economic and credit conditions.

We have three reportable business segments as of March 31, 2018:

- Real estate lending (the “Lending Segment”)—engages primarily in originating, acquiring, financing and managing commercial first mortgages, subordinated mortgages, mezzanine loans, preferred equity, CMBS, RMBS, certain residential mortgage loans, and other real estate and real estate-related debt investments in both the U.S. and Europe.
- Real estate property (the “Property Segment”)—engages primarily in acquiring and managing equity interests in stabilized commercial real estate properties, including multifamily properties, that are held for investment.
- Real estate investing and servicing (the “Investing and Servicing Segment”)—includes (i) a servicing business in the U.S. that manages and works out problem assets, (ii) an investment business that selectively acquires and manages unrated, investment grade and non-investment grade rated CMBS, including subordinated interests of securitization and resecuritization transactions, (iii) a mortgage loan business which originates conduit loans for the primary purpose of selling these loans into securitization transactions, and (iv) an investment business that selectively acquires commercial real estate assets, including properties acquired from CMBS trusts. This segment excludes the consolidation of securitization variable interest entities (“VIEs”).

We are organized and conduct our operations to qualify as a real estate investment trust (“REIT”) under the Internal Revenue Code of 1986, as amended (the “Code”). As such, we will generally not be subject to U.S. federal corporate income tax on that portion of our net income that is distributed to stockholders if we distribute at least 90% of our taxable income to our stockholders by prescribed dates and comply with various other requirements.

We are organized as a holding company and conduct our business primarily through our various wholly-owned subsidiaries. We are externally managed and advised by SPT Management, LLC (our “Manager”) pursuant to the terms of a management agreement. Our Manager is controlled by Barry Sternlicht, our Chairman and Chief Executive Officer. Our Manager is an affiliate of Starwood Capital Group, a privately-held private equity firm founded and controlled by Mr. Sternlicht.

Table of Contents

2. Summary of Significant Accounting Policies

Balance Sheet Presentation of the Investing and Servicing Segment's Variable Interest Entities

As noted above, the Investing and Servicing Segment operates an investment business that acquires unrated, investment grade and non-investment grade rated CMBS. These securities represent interests in securitization structures (commonly referred to as special purpose entities, or "SPEs"). These SPEs are structured as pass through entities that receive principal and interest on the underlying collateral and distribute those payments to the certificate holders. Under accounting principles generally accepted in the United States of America ("GAAP"), SPEs typically qualify as VIEs. These are entities that, by design, either (1) lack sufficient equity to permit the entity to finance its activities without additional subordinated financial support from other parties, or (2) have equity investors that do not have the ability to make significant decisions relating to the entity's operations through voting rights, or do not have the obligation to absorb the expected losses, or do not have the right to receive the residual returns of the entity.

Because the Investing and Servicing Segment often serves as the special servicer of the trusts in which it invests, consolidation of these structures is required pursuant to GAAP as outlined in detail below. This results in a consolidated balance sheet which presents the gross assets and liabilities of the VIEs. The assets and other instruments held by these VIEs are restricted and can only be used to fulfill the obligations of the entity. Additionally, the obligations of the VIEs do not have any recourse to the general credit of any other consolidated entities, nor to us as the consolidator of these VIEs.

The VIE liabilities initially represent investment securities on our balance sheet (pre-consolidation). Upon consolidation of these VIEs, our associated investment securities are eliminated, as is the interest income related to those securities. Similarly, the fees we earn in our roles as special servicer of the bonds issued by the consolidated VIEs or as collateral administrator of the consolidated VIEs are also eliminated. Finally, an allocable portion of the identified servicing intangible associated with the eliminated fee streams is eliminated in consolidation.

Refer to the segment data in Note 22 for a presentation of the Investing and Servicing Segment without consolidation of these VIEs.

Basis of Accounting and Principles of Consolidation

The accompanying condensed consolidated financial statements include our accounts and those of our consolidated subsidiaries and VIEs. Intercompany amounts have been eliminated in consolidation. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position,

results of operations, and cash flows have been included.

These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017 (the "Form 10-K"), as filed with the Securities and Exchange Commission ("SEC"). The results of operations for the three months ended March 31, 2018 are not necessarily indicative of the operating results for the full year.

Refer to our Form 10-K for a description of our recurring accounting policies. We have included disclosure in this Note 2 regarding principles of consolidation and other accounting policies that (i) are required to be disclosed quarterly, (ii) we view as critical, (iii) became significant since December 31, 2017 due to a corporate action or increase in the significance of the underlying business activity or (iv) changed upon adoption of an Accounting Standards Update ("ASU") issued by the Financial Accounting Standards Board ("FASB").

Variable Interest Entities

In addition to the Investing and Servicing Segment's VIEs, certain other entities in which we hold interests are considered VIEs as the limited partners of these entities do not collectively possess (i) the right to remove the general partner without cause or (ii) the right to participate in significant decisions made by the partnership.

Table of Contents

We evaluate all of our interests in VIEs for consolidation. When our interests are determined to be variable interests, we assess whether we are deemed to be the primary beneficiary of the VIE. The primary beneficiary of a VIE is required to consolidate the VIE. Accounting Standards Codification (“ASC”) 810, Consolidation, defines the primary beneficiary as the party that has both (i) the power to direct the activities of the VIE that most significantly impact its economic performance, and (ii) the obligation to absorb losses and the right to receive benefits from the VIE which could be potentially significant. We consider our variable interests as well as any variable interests of our related parties in making this determination. Where both of these factors are present, we are deemed to be the primary beneficiary and we consolidate the VIE. Where either one of these factors is not present, we are not the primary beneficiary and do not consolidate the VIE.

To assess whether we have the power to direct the activities of a VIE that most significantly impact the VIE’s economic performance, we consider all facts and circumstances, including our role in establishing the VIE and our ongoing rights and responsibilities. This assessment includes: (i) identifying the activities that most significantly impact the VIE’s economic performance; and (ii) identifying which party, if any, has power over those activities. In general, the parties that make the most significant decisions affecting the VIE or have the right to unilaterally remove those decision makers are deemed to have the power to direct the activities of a VIE. The right to remove the decision maker in a VIE must be exercisable without cause for the decision maker to not be deemed the party that has the power to direct the activities of a VIE.

To assess whether we have the obligation to absorb losses of the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE, we consider all of our economic interests, including debt and equity investments, servicing fees, and other arrangements deemed to be variable interests in the VIE. This assessment requires that we apply judgment in determining whether these interests, in the aggregate, are considered potentially significant to the VIE. Factors considered in assessing significance include: the design of the VIE, including its capitalization structure; subordination of interests; payment priority; relative share of interests held across various classes within the VIE’s capital structure; and the reasons why the interests are held by us.

Our purchased investment securities include CMBS which are unrated and non-investment grade rated securities issued by CMBS trusts. In certain cases, we may contract to provide special servicing activities for these CMBS trusts, or, as holder of the controlling class, we may have the right to name and remove the special servicer for these trusts. In our role as special servicer, we provide services on defaulted loans within the trusts, such as foreclosure or work-out procedures, as permitted by the underlying contractual agreements. In exchange for these services, we receive a fee. These rights give us the ability to direct activities that could significantly impact the trust’s economic performance. However, in those instances where an unrelated third party has the right to unilaterally remove us as special servicer without cause, we do not have the power to direct activities that most significantly impact the trust’s economic performance. We evaluated all of our positions in such investments for consolidation.

For securitization VIEs in which we are determined to be the primary beneficiary, all of the underlying assets, liabilities and equity of the structures are recorded on our books, and the initial investment, along with any associated

unrealized holding gains and losses, are eliminated in consolidation. Similarly, the interest income earned from these structures, as well as the fees paid by these trusts to us in our capacity as special servicer, are eliminated in consolidation. Further, an allocable portion of the identified servicing intangible asset associated with the servicing fee streams, and the corresponding allocable amortization or change in fair value of the servicing intangible asset, are also eliminated in consolidation.

We perform ongoing reassessments of: (i) whether any entities previously evaluated under the majority voting interest framework have become VIEs, based on certain events, and therefore subject to the VIE consolidation framework, and (ii) whether changes in the facts and circumstances regarding our involvement with a VIE causes our consolidation conclusion regarding the VIE to change.

Table of Contents

We elect the fair value option for initial and subsequent recognition of the assets and liabilities of our consolidated securitization VIEs. Interest income and interest expense associated with these VIEs are no longer relevant on a standalone basis because these amounts are already reflected in the fair value changes. We have elected to present these items in a single line on our condensed consolidated statements of operations. The residual difference shown on our condensed consolidated statements of operations in the line item “Change in net assets related to consolidated VIEs” represents our beneficial interest in the VIEs.

We separately present the assets and liabilities of our consolidated securitization VIEs as individual line items on our condensed consolidated balance sheets. The liabilities of our consolidated securitization VIEs consist solely of obligations to the bondholders of the related CMBS trusts, and are thus presented as a single line item entitled “VIE liabilities.” The assets of our consolidated securitization VIEs consist principally of loans, but at times, also include foreclosed loans which have been temporarily converted into real estate owned (“REO”). These assets in the aggregate are likewise presented as a single line item entitled “VIE assets.”

Loans comprise the vast majority of our securitization VIE assets and are carried at fair value due to the election of the fair value option. When an asset becomes REO, it is due to nonperformance of the loan. Because the loan is already at fair value, the carrying value of an REO asset is also initially at fair value. Furthermore, when we consolidate a CMBS trust, any existing REO would be consolidated at fair value. Once an asset becomes REO, its disposition time is relatively short. As a result, the carrying value of an REO generally approximates fair value under GAAP.

In addition to sharing a similar measurement method as the loans in a CMBS trust, the securitization VIE assets as a whole can only be used to settle the obligations of the consolidated VIE. The assets of our securitization VIEs are not individually accessible by the bondholders, which creates inherent limitations from a valuation perspective. Also creating limitations from a valuation perspective is our role as special servicer, which provides us very limited visibility, if any, into the performing loans of a CMBS trust.

REO assets generally represent a very small percentage of the overall asset pool of a CMBS trust. In a new issue CMBS trust there are no REO assets. We estimate that REO assets constitute approximately 3% of our consolidated securitization VIE assets, with the remaining 97% representing loans. However, it is important to note that the fair value of our securitization VIE assets is determined by reference to our securitization VIE liabilities as permitted under ASU 2014-13, Consolidation (Topic 810): Measuring the Financial Assets and the Financial Liabilities of a Consolidated Collateralized Financing Entity. In other words, our VIE liabilities are more reliably measurable than the VIE assets, resulting in our current measurement methodology which utilizes this value to determine the fair value of our securitization VIE assets as a whole. As a result, these percentages are not necessarily indicative of the relative fair values of each of these asset categories if the assets were to be valued individually.

Due to our accounting policy election under ASU 2014-13, separately presenting two different asset categories would result in an arbitrary assignment of value to each, with one asset category representing a residual amount, as opposed to its fair value. However, as a pool, the fair value of the assets in total is equal to the fair value of the liabilities.

For these reasons, the assets of our securitization VIEs are presented in the aggregate.

13

Table of Contents

Fair Value Option

The guidance in ASC 825, Financial Instruments, provides a fair value option election that allows entities to make an irrevocable election of fair value as the initial and subsequent measurement attribute for certain eligible financial assets and liabilities. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. The decision to elect the fair value option is determined on an instrument by instrument basis and must be applied to an entire instrument and is irrevocable once elected. Assets and liabilities measured at fair value pursuant to this guidance are required to be reported separately in our consolidated balance sheets from those instruments using another accounting method.

We have elected the fair value option for eligible financial assets and liabilities of our consolidated securitization VIEs, loans held-for-sale originated or acquired for future securitization, purchased CMBS issued by VIEs we could consolidate in the future and certain investments in marketable equity securities which, effective January 1, 2018, are now required to be carried at fair value through earnings. The fair value elections for VIE and securitization related items were made in order to mitigate accounting mismatches between the carrying value of the instruments and the related assets and liabilities that we consolidate at fair value. The fair value elections for mortgage loans held-for-sale were made due to the short-term nature of these instruments.

Fair Value Measurements

We measure our mortgage backed securities, derivative assets and liabilities, domestic servicing rights intangible asset and any assets or liabilities where we have elected the fair value option at fair value. When actively quoted observable prices are not available, we either use implied pricing from similar assets and liabilities or valuation models based on net present values of estimated future cash flows, adjusted as appropriate for liquidity, credit, market and/or other risk factors.

As discussed above, we measure the assets and liabilities of consolidated securitization VIEs at fair value pursuant to our election of the fair value option. The securitization VIEs in which we invest are “static”; that is, no reinvestment is permitted, and there is no active management of the underlying assets. In determining the fair value of the assets and liabilities of the securitization VIE, we maximize the use of observable inputs over unobservable inputs. Refer to Note 19 for further discussion regarding our fair value measurements.

Loans Held-for-Investment and Provision for Loan Losses

Loans that are held for investment are carried at cost, net of unamortized acquisition premiums or discounts, loan fees, and origination costs as applicable, unless the loans are deemed impaired. We evaluate each loan classified as held-for-investment for impairment at least quarterly. In connection with this evaluation, we assess the performance of each loan and assign a risk rating based on several factors, including risk of loss, loan-to-collateral value ratio (“LTV”), collateral performance, structure, exit plan, and sponsorship. Loans are rated “1” through “5”, from less risk to greater risk, in connection with this review.

Impairment occurs when it is deemed probable that we will not be able to collect all amounts due according to the contractual terms of the loan. If a loan is considered to be impaired, we record an allowance through the provision for loan losses to reduce the carrying value of the loan to the present value of expected future cash flows discounted at the loan’s contractual effective rate or the fair value of the collateral, if repayment is expected solely from the collateral. Actual losses, if any, could ultimately differ from these estimates.

Table of Contents

Cost Method Equity Investments

On January 1, 2018, ASU 2016-01, Financial Instruments – Overall (Subtopic 825-10) – Recognition and Measurement of Financial Assets and Financial Liabilities, became effective prospectively for public companies with a calendar fiscal year. This ASU requires entities to carry all investments in equity securities, including other ownership interests such as partnerships, unincorporated joint ventures, and limited liability companies, at fair value with changes in fair value recognized within net income. This ASU does not apply to equity method investments, investments in Federal Home Loan Bank (“FHLB”) stock, investments that result in consolidation of the investee or investments in certain investment companies. For investments in equity securities without a readily determinable fair value, an entity is permitted to elect a practicability exception, under which the investment will be measured at cost, less impairment, plus or minus observable price changes from orderly transactions of an identical or similar investment of the same issuer.

Additionally, this ASU eliminated the requirement to assess whether an impairment of an equity investment is other than temporary. The impairment model for equity investments subject to this election is now a single-step model whereby an entity performs a qualitative assessment to identify impairment. If the qualitative assessment indicates that an impairment exists, the entity would estimate the fair value of the investment and recognize in net income an impairment loss equal to the difference between the fair value and the carrying amount of the equity investment.

Our equity investments within the scope of this ASU are limited to our cost method equity investments discussed in Note 7, with the exception of our FHLB stock which is outside the scope of this ASU, and to our marketable equity security discussed in Note 5 for which we had previously elected the fair value option. Our cost method equity investments within the scope of this ASU do not have readily determinable fair values. Therefore, we have elected the practicability exception whereby we measure these investments at cost, less impairment, plus or minus observable price changes from orderly transactions of identical or similar investments of the same issuer. Refer to Note 7 for further discussion.

Revenue Recognition

On January 1, 2018, new accounting rules regarding revenue recognition became effective for public companies with a calendar fiscal year. None of our significant revenue sources – interest income from loans and investment securities, loan servicing fees, and rental income – are within the scope of the new revenue recognition guidance. The revenue recognition guidance also included revisions to existing accounting rules regarding the determination of whether a company is acting as a principal or agent in an arrangement and accounting for sales of nonfinancial assets where the seller has continuing involvement. These additional revisions also did not materially impact the Company.

Earnings Per Share

We present both basic and diluted earnings per share (“EPS”) amounts in our financial statements. Basic EPS excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of shares of common stock outstanding for the period. Diluted EPS reflects the maximum potential dilution that could occur from (i) our share-based compensation, consisting of unvested restricted stock (“RSAs”) and restricted stock units (“RSUs”), (ii) shares contingently issuable to our Manager, (iii) the “in-the-money” conversion options associated with our outstanding convertible senior notes (see Notes 10 and 17), and (iv) non-controlling interests that are redeemable with our common stock (see Note 16). Potential dilutive shares are excluded from the calculation if they have an anti-dilutive effect in the period.

Nearly all of the Company’s unvested RSUs and RSAs contain rights to receive non-forfeitable dividends and thus are participating securities. In addition, the non-controlling interests that are redeemable with our common stock are considered participating securities because they earn a preferred return indexed to the dividend rate on our common stock (see Note 16). Due to the existence of these participating securities, the two-class method of computing EPS is required, unless another method is determined to be more dilutive. Under the two-class method, undistributed earnings are reallocated between shares of common stock and participating securities. For the three months ended March 31, 2018 and 2017, the two-class method resulted in the most dilutive EPS calculation.

Table of Contents

Use of Estimates

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. The most significant and subjective estimate that we make is the projection of cash flows we expect to receive on our loans, investment securities and intangible assets, which has a significant impact on the amounts of interest income, credit losses (if any), and fair values that we record and/or disclose. In addition, the fair value of financial assets and liabilities that are estimated using a discounted cash flows method is significantly impacted by the rates at which we estimate market participants would discount the expected cash flows.

Recent Accounting Developments

On February 25, 2016, the FASB issued ASU 2016-02, Leases (Topic 842), which establishes a right-of-use model for lessee accounting which results in the recognition of most leased assets and lease liabilities on the balance sheet of the lessee. Lessor accounting was not significantly changed by this ASU. This ASU is effective for annual periods, and interim periods therein, beginning after December 15, 2018 by applying a modified retrospective approach. Early application is permitted. We are in the process of assessing the impact this ASU will have on the Company.

On June 16, 2016, the FASB issued ASU 2016-13, Financial Instruments—Credit Losses (Topic 326) – Measurement of Credit Losses on Financial Instruments, which mandates use of an “expected loss” credit model for estimating future credit losses of certain financial instruments instead of the “incurred loss” credit model that current GAAP requires. The “expected loss” model requires the consideration of possible credit losses over the life of an instrument as opposed to only estimating credit losses upon the occurrence of a discrete loss event in accordance with the current “incurred loss” methodology. This ASU is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2019. Early application is permitted though no earlier than the first interim or annual period beginning after December 15, 2018. Though we have not completed our assessment of this ASU, we expect the ASU to result in our recognition of higher levels of allowances for loan losses. Our assessment of the estimated amount of such increases remains in process.

On January 26, 2017, the FASB issued ASU 2017-04, Goodwill and Other (Topic 350) – Simplifying the Test for Goodwill Impairment, which simplifies the method applied for measuring impairment in cases where goodwill is impaired. This ASU specifies that goodwill impairment will be measured as the excess of the reporting unit’s carrying value (inclusive of goodwill) over its fair value, eliminating the requirement that all assets and liabilities of the reporting unit be remeasured individually in connection with measurement of goodwill impairment. This ASU is effective for annual periods, and interim periods therein, beginning after December 15, 2019 and is applied prospectively. Early application is permitted. We do not expect the application of this ASU to materially impact the Company.

On August 28, 2017, the FASB issued ASU 2017-12, Derivatives and Hedging (Topic 815) – Targeted Improvements to Accounting for Hedging Activities, which amends and simplifies existing guidance regarding the designation and measurement of designated hedging relationships. This ASU is effective for annual periods, and interim periods therein, beginning after December 15, 2018. Early application is permitted. We do not expect the application of this ASU to materially impact the Company.

Table of Contents

3. Acquisitions and Divestitures

Woodstar II Portfolio Acquisition

During the three months ended March 31, 2018, we acquired 18 of the 27 affordable housing communities comprising our “Woodstar II Portfolio.” The Woodstar II Portfolio is comprised of 6,109 units concentrated primarily in Central and South Florida and is 99% occupied. The 18 affordable housing communities acquired during the three months ended March 31, 2018 comprise 4,057 units and were acquired for \$404.7 million, including contingent consideration of \$26.7 million (the “Q1 2018 Closing”). The properties acquired in the Q1 2018 Closing were recognized initially at their purchase price of \$378.0 million plus capitalized acquisition costs of \$3.6 million. Contingent consideration of \$26.7 million will be recognized when the contingency is resolved. Government sponsored mortgage debt of \$7.3 million with weighted average fixed annual interest rates of 2.88% and remaining weighted average terms of 17.7 years was assumed at closing. We financed the Q1 2018 Closing utilizing new 10-year mortgage debt totaling \$300.9 million with weighted average fixed annual interest rates of 3.82% (as set forth in Note 9).

In December 2017, we acquired eight of the affordable housing communities (the “Q4 2017 Closing”), which include 1,740 units, for \$156.2 million, including contingent consideration of \$10.8 million. We financed the Q4 2017 Closing utilizing 10-year mortgage debt totaling \$116.7 million with a fixed 3.81% interest rate.

We effectuated the Woodstar II Portfolio acquisitions via a contribution of the properties by third parties (the “Contributors”) to SPT Dolphin Intermediate LLC (“SPT Dolphin”), a newly-formed, wholly-owned subsidiary of the Company. In exchange for the contribution, the Contributors received cash, Class A units of SPT Dolphin (the “Class A Units”) and rights to receive additional Class A Units if certain contingent events occur. The Class A unitholders have the right, commencing six months from issuance, to redeem their Class A Units for consideration equal to the current share price of the Company’s common stock on a one-for-one basis, with the consideration paid in either cash or the Company’s common stock, at the determination of the Company.

The Q1 2018 Closing resulted in the Contributors receiving cash of \$223.3 million, 6,979,089 Class A Units and rights to receive an additional 1,301,414 Class A Units if certain contingent events occur. In aggregate, the Q1 2018 Closing and Q4 2017 Closing have resulted in the Contributors receiving cash of \$308.1 million, 9,758,863 Class A Units and rights to receive an additional 1,800,335 Class A Units if certain contingent events occur.

Since substantially all of the fair value of the properties acquired was concentrated in a group of similar identifiable assets, the Woodstar II Portfolio acquisitions were accounted for in accordance with the asset acquisition provisions of ASC 805, Business Combinations.

Master Lease Portfolio

During the three months ended March 31, 2018, we sold two retail properties within the Master Lease Portfolio for \$37.2 million, recognizing a gain on sale of \$3.9 million, within gain on sale of investments and other assets in our condensed consolidated statement of operations. Refer to Note 6 for further discussion of the Master Lease Portfolio.

Investing and Servicing Segment Property Portfolio

During the three months ended March 31, 2018, our Investing and Servicing Segment acquired the \$27.7 million net assets of two commercial real estate properties from consolidated CMBS trusts for a total gross purchase price of \$28.0 million. These properties, aggregated with the controlling interests in 23 remaining commercial real estate properties acquired from CMBS trusts during the years ended December 31, 2015, 2016 and 2017 for an aggregate acquisition price of \$291.7 million, comprise the Investing and Servicing Segment Property Portfolio (the "REIS Equity Portfolio"). When the properties are acquired from CMBS trusts that are consolidated as VIEs on our balance sheet, the acquisitions are reflected as repayment of debt of consolidated VIEs in our condensed consolidated statements of cash flows.

Table of Contents

During the three months ended March 31, 2018, we sold three properties within the Investing and Servicing Segment for \$15.1 million, recognizing a total gain on sale of \$6.4 million, within gain on sale of investments and other assets in our condensed consolidated statement of operations. One of these properties was acquired by a third party which already held a \$0.3 million non-controlling interest in the property. During the three months ended March 31, 2018, \$1.3 million of the gain on sale was attributable to non-controlling interests. No Investing and Servicing Segment properties were sold during the three months ended March 31, 2017.

4. Loans

Our loans held-for-investment are accounted for at amortized cost and our loans held-for-sale are accounted for at the lower of cost or fair value, unless we have elected the fair value option. The following tables summarize our investments in mortgages and loans by subordination class as of March 31, 2018 and December 31, 2017 (dollars in thousands):

	Carrying Value	Face Amount	Weighted Average Coupon		Weighted Average Life ("WAL") (years)(1)
March 31, 2018					
First mortgages (2)	\$ 5,438,170	\$ 5,459,593	6.4	%	2.2
Subordinated mortgages (3)	177,360	177,402	11.1	%	1.8
Mezzanine loans (2)	547,048	546,762	11.1	%	1.1
Other	26,076	29,660	8.6	%	3.6
Total loans held-for-investment	6,188,654	6,213,417			
Loans held-for-sale, fair value option, residential	662,971	642,752	6.2	%	6.6
Loans held-for-sale, fair value option, commercial	60,762	60,850	5.0	%	10.0
Loans transferred as secured borrowings	74,463	75,000	6.5	%	2.0
Total gross loans	6,986,850	6,992,019			
Loan loss allowance (loans held-for-investment)	(5,868)	—			
Total net loans	\$ 6,980,982	\$ 6,992,019			
December 31, 2017					
First mortgages (2)	\$ 5,818,804	\$ 5,843,623	6.2	%	2.0

Edgar Filing: STARWOOD PROPERTY TRUST, INC. - Form 10-Q

Subordinated mortgages (3)	177,115	177,386	10.8	%	1.9
Mezzanine loans (2)	545,299	545,355	11.0	%	1.1
Other	25,607	29,320	8.5	%	3.9
Total loans held-for-investment	6,566,825	6,595,684			
Loans held-for-sale, fair value option, residential	613,287	594,105	6.2	%	5.4
Loans held-for-sale, fair value option, commercial	132,456	132,393	4.6	%	10.0
Loans transferred as secured borrowings	74,403	75,000	6.2	%	2.3
Total gross loans	7,386,971	7,397,182			
Loan loss allowance (loans held-for-investment)	(4,330)	—			
Total net loans	\$ 7,382,641	\$ 7,397,182			

(1) Represents the WAL of each respective group of loans as of the respective balance sheet date. The WAL of each individual loan is calculated using amounts and timing of future principal payments, as projected at origination or acquisition.

(2) First mortgages include first mortgage loans and any contiguous mezzanine loan components because as a whole, the expected credit quality of these loans is more similar to that of a first mortgage loan. The application of this methodology resulted in mezzanine loans with carrying values of \$689.0 million and \$851.1 million being classified as first mortgages as of March 31, 2018 and December 31, 2017, respectively.

Table of Contents

- (3) Subordinated mortgages include B-Notes and junior participation in first mortgages where we do not own the senior A-Note or senior participation. If we own both the A-Note and B-Note, we categorize the loan as a first mortgage loan.

As of March 31, 2018, approximately \$5.7 billion, or 92.8%, of our loans held-for-investment were variable rate and paid interest principally at LIBOR plus a weighted-average spread of 4.9%.

Our loans are typically collateralized by real estate. As a result, we regularly evaluate the extent and impact of any credit deterioration associated with the performance and/or value of the underlying collateral property, as well as the financial and operating capability of the borrower. Specifically, a property's operating results and any cash reserves are analyzed and used to assess (i) whether cash flow from operations is sufficient to cover the debt service requirements currently and into the future, (ii) the ability of the borrower to refinance the loan, and/or (iii) the property's liquidation value. We also evaluate the financial wherewithal of any loan guarantors as well as the borrower's competency in managing and operating the properties. In addition, we consider the overall economic environment, real estate sector, and geographic sub-market in which the borrower operates. Such impairment analyses are completed and reviewed by asset management and finance personnel who utilize various data sources, including (i) periodic financial data such as property operating statements, occupancy, tenant profile, rental rates, operating expenses, the borrower's exit plan, and capitalization and discount rates, (ii) site inspections, and (iii) current credit spreads and discussions with market participants.

Our evaluation process, as described above, produces an internal risk rating between 1 and 5, which is a weighted average of the numerical ratings in the following categories: (i) sponsor capability and financial condition, (ii) loan and collateral performance relative to underwriting, (iii) quality and stability of collateral cash flows, and (iv) loan structure. We utilize the overall risk ratings as a concise means to monitor any credit migration on a loan as well as on the whole portfolio. While the overall risk rating is generally not the sole factor we use in determining whether a loan is impaired, a loan with a higher overall risk rating would tend to have more adverse indicators of impairment, and therefore would be more likely to experience a credit loss.

Table of Contents

The rating categories generally include the characteristics described below, but these are utilized as guidelines and therefore not every loan will have all of the characteristics described in each category:

Rating	Characteristics
1	<p>Sponsor capability and financial condition—Sponsor is highly rated or investment grade or, if private, the equivalent thereof with significant management experience.</p> <p>Loan collateral and performance relative to underwriting—The collateral has surpassed underwritten expectations.</p> <p>Quality and stability of collateral cash flows—Occupancy is stabilized, the property has had a history of consistently high occupancy, and the property has a diverse and high quality tenant mix.</p> <p>Loan structure—LTV does not exceed 65%. The loan has structural features that enhance the credit profile.</p>
2	<p>Sponsor capability and financial condition—Strong sponsorship with experienced management team and a responsibly leveraged portfolio.</p> <p>Loan collateral and performance relative to underwriting—Collateral performance equals or exceeds underwritten expectations and covenants and performance criteria are being met or exceeded.</p> <p>Quality and stability of collateral cash flows—Occupancy is stabilized with a diverse tenant mix.</p> <p>Loan structure—LTV does not exceed 70% and unique property risks are mitigated by structural features.</p>
3	<p>Sponsor capability and financial condition—Sponsor has historically met its credit obligations, routinely pays off loans at maturity, and has a capable management team.</p> <p>Loan collateral and performance relative to underwriting—Property performance is consistent with underwritten expectations.</p> <p>Quality and stability of collateral cash flows—Occupancy is stabilized, near stabilized, or is on track with underwriting.</p> <p>Loan structure—LTV does not exceed 80%.</p>
4	<p>Sponsor capability and financial condition—Sponsor credit history includes missed payments, past due payment, and maturity extensions. Management team is capable but thin.</p> <p>Loan collateral and performance relative to underwriting—Property performance lags behind underwritten expectations. Performance criteria and loan covenants have required occasional waivers. A sale of the property may be necessary in order for the borrower to pay off the loan at maturity.</p> <p>Quality and stability of collateral cash flows—Occupancy is not stabilized and the property has a large amount of rollover.</p> <p>Loan structure—LTV is 80% to 90%.</p>
5	<p>Sponsor capability and financial condition—Credit history includes defaults, deeds in lieu, foreclosures, and/or bankruptcies.</p> <p>Loan collateral and performance relative to underwriting—Property performance is significantly worse than underwritten expectations. The loan is not in compliance with loan covenants and performance criteria and may be in default. Sale proceeds would not be sufficient to pay off the loan at maturity.</p> <p>Quality and stability of collateral cash flows—The property has material vacancy and significant rollover of remaining tenants.</p> <p>Loan structure—LTV exceeds 90%.</p>

Table of Contents

As of March 31, 2018, the risk ratings for loans subject to our rating system, which excludes loans for which the fair value option has been elected, by class of loan were as follows (dollars in thousands):

Risk Rating Category	Balance Sheet Classification Loans Held-For-Investment				Loans Held-For-Sale	Loans Transferred		% of Total Loans
	First Mortgages	Subordinated Mortgages	Mezzanine Loans	Other		As Secured Borrowings	Total	
1	\$ 1,789	\$ —	\$ —	\$ 20,068	\$ —	\$ —	\$ 21,857	0.3 %
2	2,221,941	32,049	209,751	—	—	74,463	2,538,204	36.3 %
3	2,980,626	133,334	337,297	6,008	—	—	3,457,265	49.5 %
4	183,452	—	—	—	—	—	183,452	2.6 %
5	50,362	11,977	—	—	—	—	62,339	0.9 %
N/A	—	—	—	—	723,733	—	723,733	10.4 %
	\$ 5,438,170	\$ 177,360	\$ 547,048	\$ 26,076	\$ 723,733	\$ 74,463	\$ 6,986,850	100.0 %

As of December 31, 2017, the risk ratings for loans subject to our rating system, which excludes loans for which the fair value option has been elected, by class of loan were as follows (dollars in thousands):

Risk Rating Category	Balance Sheet Classification Loans Held-For-Investment				Loans Held-For-Sale	Loans Transferred		% of Total Loans
	First Mortgages	Subordinated Mortgages	Mezzanine Loans	Other		As Secured Borrowings	Total	
1	\$ 2,003	\$ —	\$ —	\$ 20,267	\$ —	\$ —	\$ 22,270	0.3 %
2	2,462,268	11,927	137,803	—	—	—	2,611,998	35.4 %
3	3,183,592	165,188	407,496	5,340	—	74,403	3,836,019	51.9 %
4	120,479	—	—	—	—	—	120,479	1.6 %
5	50,462	—	—	—	—	—	50,462	0.7 %
N/A	—	—	—	—	745,743	—	745,743	10.1 %
	\$ 5,818,804	\$ 177,115	\$ 545,299	\$ 25,607	\$ 745,743	\$ 74,403	\$ 7,386,971	100.0 %

After completing our impairment evaluation process as of March 31, 2018, we concluded that none of our loans were impaired and therefore no individual loan impairment charges were required on any individual loans, as we expect to collect all outstanding principal and interest.

Table of Contents

In accordance with our policies, we record an allowance for loan losses equal to (i) 1.5% of the aggregate carrying amount of loans rated as a “4,” plus (ii) 5% of the aggregate carrying amount of loans rated as a “5,” plus (iii) impaired loan reserves, if any. The following table presents the activity in our allowance for loan losses (amounts in thousands):

	For the Three Months Ended	
	March 31, 2018	2017
Allowance for loan losses at January 1	\$ 4,330	\$ 9,788
Provision for loan losses	1,538	(305)
Charge-offs	—	—
Recoveries	—	—
Allowance for loan losses at March 31	\$ 5,868	\$ 9,483
Recorded investment in loans related to the allowance for loan loss	\$ 245,791	\$ 499,539

The activity in our loan portfolio was as follows (amounts in thousands):

	For the Three Months Ended	
	March 31, 2018	2017
Balance at January 1	\$ 7,382,641	\$ 5,946,274
Acquisitions/originations/additional funding	1,178,560	1,067,021
Capitalized interest (1)	16,253	15,079
Basis of loans sold (2)	(411,625)	(216,431)
Loan maturities/principal repayments	(1,225,815)	(230,931)
Discount accretion/premium amortization	12,052	7,519
Changes in fair value	7,800	10,593
Unrealized foreign currency translation gain	22,552	6,053
Change in loan loss allowance, net	(1,538)	305
Transfer to/from other asset classifications	102	603
Balance at March 31	\$ 6,980,982	\$ 6,606,085

(1) Represents accrued interest income on loans whose terms do not require current payment of interest.

(2) See Note 11 for additional disclosure on these transactions.

Table of Contents

5. Investment Securities

Investment securities were comprised of the following as of March 31, 2018 and December 31, 2017 (amounts in thousands):

	Carrying Value as of	
	March 31, 2018	December 31, 2017
RMBS, available-for-sale	\$ 240,853	\$ 247,021
CMBS, fair value option (1)	1,045,217	1,024,143
Held-to-maturity (“HTM”) securities	236,319	433,468
Equity security, fair value	13,322	13,523
Subtotal—Investment securities	1,535,711	1,718,155
VIE eliminations (1)	(1,021,248)	(999,952)
Total investment securities	\$ 514,463	\$ 718,203

(1) Certain fair value option CMBS are eliminated in consolidation against VIE liabilities pursuant to ASC 810.

Purchases, sales and principal collections for all investment securities were as follows (amounts in thousands):

	RMBS, available-for-sale	CMBS, fair value option	HTM Securities	Equity Security	Total
Three Months Ended March 31, 2018					
Purchases (1)	\$ —	\$ —	\$ —	\$ —	\$ —
Sales (2)	—	—	—	—	—
Principal collections	10,150	777	208,303	—	219,230
Three Months Ended March 31, 2017					
Purchases (1)	\$ —	\$ —	\$ —	\$ —	\$ —
Sales (2)	—	10,434	—	—	10,434
Principal collections	10,228	5,766	60,056	—	76,050

(1) During the three months ended March 31, 2018 and 2017, we purchased \$30.2 million and \$57.4 million of CMBS, respectively, for which we elected the fair value option. Due to our consolidation of securitization VIEs, \$30.2 million and \$57.4 million, respectively, of this amount is eliminated and reflected as repayment of debt of consolidated VIEs in our condensed consolidated statements of cash flows.

(2) During the three months ended March 31, 2018 and 2017, we sold \$7.9 million and \$15.2 million of CMBS,

respectively, for which we had previously elected the fair value option. Due to our consolidation of securitization VIEs, \$7.9 million and \$4.8 million, respectively, of this amount is eliminated and reflected as issuance of debt of consolidated VIEs in our condensed consolidated statements of cash flows.

RMBS, Available-for-Sale

The Company classified all of its RMBS as available-for-sale as of March 31, 2018 and December 31, 2017. These RMBS are reported at fair value in the balance sheet with changes in fair value recorded in accumulated other comprehensive income (“AOCI”).

Table of Contents

The tables below summarize various attributes of our investments in available-for-sale RMBS as of March 31, 2018 and December 31, 2017 (amounts in thousands):

	Purchase Amortized Cost	Credit OTTI	Recorded Amortized Cost	Unrealized Gains or (Losses) Recognized in AOCI			Net Fair Value Adjustment	Fair Value
				Non-Credit OTTI	Gross Unrealized Gains	Gross Unrealized Losses		
March 31, 2018 RMBS	\$ 191,698	\$ (9,897)	\$ 181,801	\$ —	\$ 59,052	\$ —	\$ 59,052	\$ 240,853
December 31, 2017 RMBS	\$ 199,029	\$ (9,897)	\$ 189,132	\$ (94)	\$ 58,011	\$ (28)	\$ 57,889	\$ 247,021

	Weighted Average Coupon (1)	Weighted Average Rating	WAL (Years) (2)
March 31, 2018 RMBS	3.0	% CCC-	6.3
December 31, 2017 RMBS	2.8	% B	6.4

(1) Calculated using the March 31, 2018 and December 31, 2017 one-month LIBOR rate of 1.883% and 1.564%, respectively, for floating rate securities.

(2) Represents the WAL of each respective group of securities as of the respective balance sheet date. The WAL of each individual security is calculated using projected amounts and projected timing of future principal payments.

As of March 31, 2018, approximately \$202.2 million, or 84.0%, of RMBS were variable rate and paid interest at LIBOR plus a weighted average spread of 1.22%. As of December 31, 2017, approximately \$207.0 million, or 83.8%, of RMBS were variable rate and paid interest at LIBOR plus a weighted average spread of 1.22%. We purchased all of the RMBS at a discount, a portion of which will be accreted into income over the expected remaining life of the security. The majority of the income from this strategy is earned from the accretion of this accretable discount.

The following table contains a reconciliation of aggregate principal balance to amortized cost for our RMBS as of March 31, 2018 and December 31, 2017 (amounts in thousands):

	March 31, 2018	December 31, 2017
Principal balance	\$ 355,083	\$ 366,711
Accretable yield	(51,794)	(55,712)
Non-accretable difference	(121,488)	(121,867)
Total discount	(173,282)	(177,579)
Amortized cost	\$ 181,801	\$ 189,132

The principal balance of credit deteriorated RMBS was \$334.8 million and \$345.5 million as of March 31, 2018 and December 31, 2017, respectively. Accretable yield related to these securities totaled \$45.6 million and \$49.2 million as of March 31, 2018 and December 31, 2017, respectively.

Table of Contents

The following table discloses the changes to accretable yield and non-accretable difference for our RMBS during the three months ended March 31, 2018 (amounts in thousands):

Three Months Ended March 31, 2018	Accretable Yield	Non-Accretable Difference
Balance as of January 1, 2018	\$ 55,712	\$ 121,867
Accretion of discount	(2,819)	—
Principal write-downs, net	—	(1,478)
Purchases	—	—
Sales	—	—
OTTI	—	—
Transfer to/from non-accretable difference	(1,099)	1,099
Balance as of March 31, 2018	\$ 51,794	\$ 121,488

We have engaged a third party manager who specializes in RMBS to execute the trading of RMBS, the cost of which was \$0.5 million for both the three months ended March 31, 2018 and 2017, which has been recorded as management fees in the accompanying condensed consolidated statements of operations.

The following table presents the gross unrealized losses and estimated fair value of any available-for-sale securities that were in an unrealized loss position as of March 31, 2018 and December 31, 2017, and for which OTTI (full or partial) have not been recognized in earnings (amounts in thousands):

	Estimated Fair Value		Unrealized Losses	
	Securities with a loss less than 12 months	Securities with a loss greater than 12 months	Securities with a loss less than 12 months	Securities with a loss greater than 12 months
As of March 31, 2018				
RMBS	\$ —	\$ —	\$ —	\$ —
As of December 31, 2017				
RMBS	\$ 10,321	\$ 643	\$ (99)	\$ (23)

As of March 31, 2018, there were no securities with unrealized losses. As of December 31, 2017, there were three securities with unrealized losses reflected in the table above. After evaluating these securities and recording adjustments for credit-related OTTI, we concluded that the remaining unrealized losses reflected above were noncredit-related and would be recovered from the securities' estimated future cash flows. We considered a number of factors in reaching this conclusion, including that we did not intend to sell the securities, it was not considered more likely than not that we would be forced to sell the securities prior to recovering our amortized cost, and there were no material credit events that would have caused us to otherwise conclude that we would not recover our cost. Credit losses, which represent most of the OTTI we record on securities, are calculated by comparing (i) the estimated future

cash flows of each security discounted at the yield determined as of the initial acquisition date or, if since revised, as of the last date previously revised, to (ii) our amortized cost basis. Significant judgment is used in projecting cash flows for our non-agency RMBS. As a result, actual income and/or impairments could be materially different from what is currently projected and/or reported.

CMBS, Fair Value Option

As discussed in the “Fair Value Option” section of Note 2 herein, we elect the fair value option for the Investing and Servicing Segment’s CMBS in an effort to eliminate accounting mismatches resulting from the current or potential consolidation of securitization VIEs. As of March 31, 2018, the fair value and unpaid principal balance of CMBS where we have elected the fair value option, before consolidation of securitization VIEs, were \$1.0 billion and \$4.1 billion, respectively. The \$1.0 billion fair value balance represents our economic interests in these assets. However, as a result of our consolidation of securitization VIEs, the vast majority of this fair value (all except \$24.0 million at March 31, 2018) is eliminated against VIE liabilities before arriving at our GAAP balance for fair value option CMBS.

As of March 31, 2018, none of our CMBS where we have elected the fair value option were variable rate.

Table of Contents

HTM Securities

The table below summarizes unrealized gains and losses of our investments in HTM securities as of March 31, 2018 and December 31, 2017 (amounts in thousands):

	Net Carrying Amount (Amortized Cost)	Gross Unrealized Holding Gains	Gross Unrealized Holding Losses	Fair Value
March 31, 2018				
CMBS	\$ 215,847	\$ 3,927	\$ (6,657)	\$ 213,117
Preferred interests	20,472	637	—	21,109
Total	\$ 236,319	\$ 4,564	\$ (6,657)	\$ 234,226
December 31, 2017				
CMBS	\$ 413,110	\$ 2,002	\$ (7,779)	\$ 407,333
Preferred interests	20,358	647	—	21,005
Total	\$ 433,468	\$ 2,649	\$ (7,779)	\$ 428,338

The table below summarizes the maturities of our HTM CMBS and our HTM preferred equity interests in limited liability companies that own commercial real estate as of March 31, 2018 (amounts in thousands):

	CMBS	Preferred Interests	Total
Less than one year	\$ 119,073	\$ —	\$ 119,073
One to three years	66,211	—	66,211
Three to five years	30,563	20,472	51,035
Thereafter	—	—	—
Total	\$ 215,847	\$ 20,472	\$ 236,319

Equity Security, Fair Value

During 2012, we acquired 9,140,000 ordinary shares from a related-party in Starwood European Real Estate Finance Limited (“SEREF”), a debt fund that is externally managed by an affiliate of our Manager and is listed on the London Stock Exchange. The fair value of the investment remeasured in USD was \$13.3 million and \$13.5 million as of March 31, 2018 and December 31, 2017, respectively. As of March 31, 2018, our shares represent an approximate 2% interest in SEREF.

6. Properties

Our properties are held within the following portfolios:

Ireland Portfolio

The Ireland Portfolio is comprised of 11 net leased fully occupied office properties and one multifamily property all located in Dublin, Ireland, which the Company acquired during the year ended December 31, 2015. The Ireland Portfolio, which collectively is comprised of approximately 600,000 square feet, includes total assets of \$514.3 million and assumed debt of \$283.0 million at acquisition. Following our acquisition, all assumed debt was immediately extinguished and replaced with new financing of \$328.6 million from the Ireland Portfolio Mortgage.

Woodstar I Portfolio

The Woodstar I Portfolio is comprised of 32 affordable housing communities with 8,948 units concentrated primarily in the Tampa, Orlando and West Palm Beach metropolitan areas. During the year ended December 31, 2015, we acquired 18 of the 32 affordable housing communities of the Woodstar I Portfolio with the final 14 communities acquired during the year ended December 31, 2016 for an aggregate acquisition price of \$421.5 million. We assumed federal, state and county sponsored financing and other debt in connection with this acquisition.

Table of Contents

Woodstar II Portfolio

The Woodstar II Portfolio is comprised of 27 affordable housing communities with 6,109 units concentrated primarily in Central and South Florida and is 99% occupied. Refer to Note 3 for further discussion of the Woodstar II Portfolio.

Medical Office Portfolio

The Medical Office Portfolio is comprised of 34 medical office buildings acquired for a purchase price of \$758.7 million during the year ended December 31, 2016. These properties, which collectively comprise 1.9 million square feet, are geographically dispersed throughout the U.S. and primarily affiliated with major hospitals or located on or adjacent to major hospital campuses.

Master Lease Portfolio

In September 2017, we acquired 20 retail properties and three industrial properties (the “Master Lease Portfolio”) for a purchase price of \$553.3 million, inclusive of \$3.7 million of related transaction costs. Concurrently with the acquisition, we leased the properties back to the seller under corporate guaranteed master net lease agreements with initial terms of 24.6 years and periodic rent escalations. These properties, which collectively comprise 5.3 million square feet, are geographically dispersed throughout the U.S., with more than 50% of the portfolio, by carrying value, located in Utah, Florida, Texas and Minnesota. We utilized \$265.9 million in new financing in order to fund the acquisition.

Investing and Servicing Segment Property Portfolio

The REIS Equity Portfolio is comprised of 25 commercial real estate properties. Refer to Note 3 for further discussion of the REIS Equity Portfolio.

The table below summarizes our properties held as of March, 31, 2018 and December 31, 2017 (dollars in thousands):

	Depreciable Life	March 31, 2018	December 31, 2017
Property Segment			
Land and land improvements	0 – 15 years	\$ 675,856	\$ 585,915
Buildings and building improvements	5 – 45 years	2,092,139	1,838,266
Furniture & fixtures	3 – 7 years	40,888	31,028
Investing and Servicing Segment			
Land and land improvements	0 – 15 years	87,536	86,711
Buildings and building improvements	3 – 40 years	219,552	212,094
Furniture & fixtures	2 – 5 years	1,399	1,036
Properties, cost		3,117,370	2,755,050
Less: accumulated depreciation		(128,506)	(107,569)
Properties, net		\$ 2,988,864	\$ 2,647,481

During the three months ended March 31, 2018, we sold five operating properties for \$52.3 million, recognizing a gain on sale of \$10.3 million within gain on sale of investments and other assets in our condensed consolidated statement of operations. One of these properties was acquired by a third party which already held a \$0.3 million non-controlling interest in the property. During the three months ended March 31, 2018, \$1.3 million of the gain on sale was attributable to non-controlling interests. No operating properties were sold during the three months ended March 31, 2017.

Table of Contents

7. Investment in Unconsolidated Entities

The table below summarizes our investments in unconsolidated entities as of March 31, 2018 and December 31, 2017 (dollars in thousands):

	Participation / Ownership % (1)	Carrying value as of	
		March 31, 2018	December 31, 2017
Equity method:			
Retail Fund	33%	\$ 107,189	\$ 110,704
Investor entity which owns equity in an online real estate company	50%	9,338	9,312
Equity interests in commercial real estate	50%	7,051	(2) 23,192
Equity interest in a residential mortgage originator	N/A	7,358	7,742
Various	25% - 50%	4,416	3,538
		135,352	154,488
Cost method:			
Equity interest in a servicing and advisory business	6%	6,207	12,234
Investment funds which own equity in a loan servicer and other real estate assets	4% - 6%	9,225	9,225
Various	0% - 3%	9,328	9,556
		24,760	31,015
		\$ 160,112	\$ 185,503

(1) None of these investments are publicly traded and therefore quoted market prices are not available.

(2) During the three months ended March 31, 2018, our preferred equity investment in a portfolio of student housing properties was redeemed in full for cash proceeds of \$16.7 million.

As of March 31, 2018, the carrying value of our equity investment in a residential mortgage originator exceeded the underlying equity in net assets of such investee by \$1.6 million. This difference is the result of the Company recording its investment in the investee at its acquisition date fair value, which included certain non-amortizing intangible assets not recognized by the investee. Should the Company determine these intangible assets held by the investee are impaired, the Company will recognize such impairment loss through earnings from unconsolidated entities in our statement of operations, otherwise, such difference between the carrying value of our equity investment in the residential mortgage originator and the underlying equity in the net assets of the residential mortgage originator will continue to exist. Other than our equity interest in the residential mortgage originator, there were no differences between the carrying value of our equity method investments and the underlying equity in the net assets of the investees as of March 31, 2018.

During the three months ended March 31, 2018, we did not become aware of any observable price changes in our cost method investments that are within the scope of ASU 2016-01 or any indicators of impairment.

Table of Contents

8. Goodwill and Intangibles

Goodwill

Goodwill at March 31, 2018 and December 31, 2017 represents the excess of consideration transferred over the fair value of net assets of LNR Property LLC (“LNR”) acquired on April 19, 2013. The goodwill recognized is attributable to value embedded in LNR’s existing platform, which includes a network of commercial real estate asset managers, work-out specialists, underwriters and administrative support professionals as well as proprietary historical performance data on commercial real estate assets.

Intangible Assets

Servicing Rights Intangibles

In connection with the LNR acquisition, we identified domestic servicing rights that existed at the purchase date, based upon the expected future cash flows of the associated servicing contracts. At March 31, 2018 and December 31, 2017 the balance of the domestic servicing intangible was net of \$24.9 million and \$28.2 million, respectively, which was eliminated in consolidation pursuant to ASC 810 against VIE assets in connection with our consolidation of securitization VIEs. Before VIE consolidation, as of March 31, 2018 and December 31, 2017, the domestic servicing intangible had a balance of \$49.8 million and \$59.0 million, respectively, which represents our economic interest in this asset.

Lease Intangibles

In connection with our acquisitions of commercial real estate, we recognized in-place lease intangible assets and favorable lease intangible assets associated with certain non-cancelable operating leases of the acquired properties.

The following table summarizes our intangible assets, which are comprised of servicing rights intangibles and lease intangibles, as of March 31, 2018 and December 31, 2017 (amounts in thousands):

Edgar Filing: STARWOOD PROPERTY TRUST, INC. - Form 10-Q

	As of March 31, 2018		Net Carrying Value	As of December 31, 2017		Net Carrying Value
	Gross Carrying Value	Accumulated Amortization		Gross Carrying Value	Accumulated Amortization	
Domestic servicing rights, at fair value	\$ 24,945	\$ —	\$ 24,945	\$ 30,759	\$ —	\$ 30,759
In-place lease intangible assets	200,444	(75,070)	125,374	187,816	(65,351)	122,465
Favorable lease intangible assets	37,552	(8,242)	29,310	37,231	(7,363)	29,868
Total net intangible assets	\$ 262,941	\$ (83,312)	\$ 179,629	\$ 255,806	\$ (72,714)	\$ 183,092

29

Table of Contents

The following table summarizes the activity within intangible assets for the three months ended March 31, 2018 (amounts in thousands):

	Domestic Servicing Rights	In-place Lease Intangible Assets	Favorable Lease Intangible Assets	Total
Balance as of January 1, 2018	\$ 30,759	\$ 122,465	\$ 29,868	\$ 183,092

(a) Subject to certain conditions as defined in the respective facility agreement.

- (b) Maturity date for borrowings collateralized by loans is September 2018 before extension options and September 2021 assuming exercise of extension options. Borrowings collateralized by loans existing at maturity may remain outstanding until such loan collateral matures, subject to certain specified conditions and not to exceed September 2025.
- (c) The initial maximum facility size of \$600.0 million may be increased to \$1.0 billion at our option, subject to certain conditions.

Table of Contents

- (d) Subject to borrower's option to choose alternative benchmark based rates pursuant to the terms of the credit agreement.
- (e) The initial maximum facility size of \$300.0 million may be increased to \$650.0 million, subject to certain conditions.
- (f) Facility carries a rolling 11-month term which may reset monthly with the lender's consent not to exceed December 2018. This facility carries no maximum facility size. Amounts reflect the outstanding balance as of March 31, 2018.
- (g) Facility carries a rolling 12-month term which may reset monthly with the lender's consent. Current maturity is March 2019. This facility carries no maximum facility size. Amounts reflect the outstanding balance as of March 31, 2018.
- (h) The date that is 270 days after the buyer delivers notice to seller, subject to a maximum date of September 2018.
- (i) Subject to a 25 basis point floor.

In the normal course of business, the Company is in discussions with its lenders to extend or amend any financing facilities which contain near term expirations.

During the three months ended March 31, 2018, we entered into two mortgage loans with aggregate maximum borrowings of \$34.8 million to finance commercial real estate previously acquired by our Investing and Servicing Segment. As of March 31, 2018, these facilities carry a remaining weighted average term of 4.2 years with floating annual interest rates of LIBOR + 2.62%.

In February 2018, we amended the Lender 7 Secured Financing facility to extend the current maturity from July 2018 to February 2021, reduce the spread from LIBOR + 2.75% to LIBOR + 2.25% and decrease available borrowings from \$450.0 million to \$300.0 million while maintaining the option to upsize to \$650.0 million, subject to certain conditions.

In February 2018, we amended the Conduit Repo 3 facility to extend the current maturity from February 2018 to February 2020.

In February 2018, we entered into mortgage loans with total borrowings of \$300.9 million to finance the Q1 2018 Closing of our Woodstar II Portfolio. The loans carry 10-year terms and weighted average fixed annual interest rates of 3.82%. Additional government sponsored mortgage loans of \$7.3 million with weighted average fixed annual interest rates of 2.88% and remaining weighted average terms of 17.7 years were assumed at closing.

Our secured financing agreements contain certain financial tests and covenants. As of March 31, 2018, we were in compliance with all such covenants.

Table of Contents

The following table sets forth our five year principal repayments schedule for secured financings assuming no defaults and excluding loans transferred as secured borrowings. Our credit facilities generally require principal to be paid down prior to the facilities' respective maturities if and when we receive principal payments on, or sell, the investment collateral that we have pledged. The amount reflected in each period includes principal repayments on our credit facilities that would be required if (i) we received the repayments that we expect to receive on the investments that have been pledged as collateral under the credit facilities, as applicable, and (ii) the credit facilities that are expected to have amounts outstanding at their current maturity dates are extended where extension options are available to us (amounts in thousands):

	Repurchase Agreements	Other Secured Financing	Total
2018 (remainder of)	\$ 300,195	\$ 51,977	\$ 352,172
2019	292,055	98,062	390,117
2020	944,805	373,218	1,318,023
2021	191,260	682,640	873,900
2022	689,231	26,548	715,779
Thereafter	265,760	1,681,204	1,946,964
Total	\$ 2,683,306	\$ 2,913,649	\$ 5,596,955

For the three months ended March 31, 2018 and 2017, approximately \$5.1 million and \$4.7 million, respectively, of amortization of deferred financing costs from secured financing agreements was included in interest expense on our condensed consolidated statements of operations.

The following table sets forth our outstanding balance of repurchase agreements related to the following asset collateral classes as of March 31, 2018 and December 31, 2017 (amounts in thousands):

Class of Collateral	March 31, 2018	December 31, 2017
Loans held-for-investment	\$ 2,324,300	\$ 2,637,475
Loans held-for-sale	37,125	66,970
Investment securities	321,881	530,650
	\$ 2,683,306	\$ 3,235,095

We seek to mitigate risks associated with our repurchase agreements by managing risk related to the credit quality of our assets, interest rates, liquidity, prepayment speeds and market value. The margin call provisions under the majority of our repurchase facilities, consisting of 33% of these agreements, do not permit valuation adjustments based on capital markets activity. Instead, margin calls on these facilities are limited to collateral-specific credit marks. To monitor credit risk associated with the performance and value of our loans and investments, our asset

management team regularly reviews our investment portfolios and is in regular contact with our borrowers, monitoring performance of the collateral and enforcing our rights as necessary. For repurchase agreements containing margin call provisions for general capital markets activity, approximately 27% of these pertain to our loans held-for-sale, for which we manage credit risk through the purchase of credit index instruments. We further seek to manage risks associated with our repurchase agreements by matching the maturities and interest rate characteristics of our loans with the related repurchase agreements.

Table of Contents

10. Unsecured Senior Notes

The following table is a summary of our unsecured senior notes outstanding as of March 31, 2018 and December 31, 2017 (dollars in thousands):

	Coupon	Effective	Maturity	Remaining	Carrying Value at	
	Rate	Rate (1)	Date	Period of	March 31,	December
				Amortization	2018	31, 2017
2018 Convertible Notes	N/A	N/A	N/A	N/A	—	369,981
2019 Convertible Notes	4.00	% 5.35	% 1/15/2019	0.8 years	341,363	341,363
2021 Senior Notes (February)	3.63	% 3.89	% 2/1/2021	2.8 years	500,000	—
2021 Senior Notes (December)	5.00	% 5.32	% 12/15/2021	3.7 years	700,000	700,000
2023 Convertible Notes	4.38	% 4.86	% 4/1/2023	5.0 years	250,000	250,000
2025 Senior Notes	4.75	% 5.04	% 3/15/2025	7.0 years	500,000	500,000
Total principal amount					2,291,363	2,161,344
Unamortized discount—Convertible Notes					(8,905)	(11,186)
Unamortized discount—Senior Notes					(19,497)	(16,654)
Unamortized deferred financing costs					(10,330)	(8,269)
Carrying amount of debt components					\$ 2,252,631	\$ 2,125,235
Carrying amount of conversion option equity components recorded in additional paid-in capital					\$ 21,636	\$ 31,638

(1) Effective rate includes the effects of underwriter purchase discount and the adjustment for the conversion option on our convertible senior notes, the value of which reduced the initial liability and was recorded in additional paid in capital.

Senior Notes

On January 29, 2018, we issued \$500.0 million of 3.625% Senior Notes due 2021 (the “2021 February Notes”). The 2021 February Notes mature on February 1, 2021. Prior to November 1, 2020, we may redeem some or all of the 2021 February Notes at a price equal to 100% of the principal amount thereof, plus the applicable “make-whole” premium as of the applicable date of redemption. On and after November 1, 2020, we may redeem some or all of the 2021 February Notes at a price equal to 100% of the principal amount thereof. In addition, prior to February 1, 2020, we may redeem up to 40% of the 2021 February Notes at the applicable redemption price using the proceeds of certain equity offerings. The 2021 February Notes were swapped to floating rate (see Note 12).

Convertible Senior Notes

In March 2018, we repaid the full outstanding principal amount of the 4.55% Convertible Senior Notes due 2018 (the “2018 Notes”) in cash upon their maturity. We recognized interest expense of \$11.3 million and \$19.5 million during the three months ended March 31, 2018 and 2017, respectively, from our unsecured convertible senior notes.

Table of Contents

On March 29, 2017, we issued \$250.0 million of 4.375% Convertible Senior Notes due 2023 (the “2023 Notes”). The proceeds from the issuance of the 2023 Notes were used to repurchase \$230.0 million of the 2018 Notes for \$250.7 million. The repurchase price was allocated between the fair value of the liability component and the fair value of the equity component of the 2018 Notes at the repurchase date. The portion of the repurchase price attributable to the equity component totaled \$18.1 million and was recognized as a reduction of additional paid-in capital during the three months ended March 31, 2017. The portion of the repurchase price attributable to the liability component exceeded the net carrying amount of the liability component by \$5.9 million, which was recognized as a loss on extinguishment of debt in our condensed consolidated statement of operations for the three months ended March 31, 2017.

The following table details the conversion attributes of our Convertible Notes outstanding as of March 31, 2018 (amounts in thousands, except rates):

	March 31, 2018		Conversion Spread Value - Shares (3) For the Three Months Ended	
	Conversion Rate (1)	Conversion Price (2)	March 31, 2018	March 31, 2017
2018 Notes	N/A	N/A	—	1,200
2019 Notes	51.2214	\$ 19.52	1,209	2,020
2023 Notes	38.5959	\$ 25.91	—	—
			1,209	3,220

-
- (1) The conversion rate represents the number of shares of common stock issuable per \$1,000 principal amount of Convertible Notes converted, as adjusted in accordance with the indentures governing the Convertible Notes (including the applicable supplemental indentures).
- (2) As of March 31, 2018 and 2017, the market price of the Company’s common stock was \$20.95 and \$22.58 per share, respectively.
- (3) The conversion spread value represents the portion of the Convertible Notes that are “in-the-money”, representing the value that would be delivered to investors in shares upon an assumed conversion.

The if-converted value of the 4.00% Convertible Senior Notes due 2019 (the “2019 Notes”) exceeded their principal amount by \$25.0 million at March 31, 2018 as the closing market price of the Company’s common stock of \$20.95 per share exceeded the implicit conversion price of \$19.52 per share. However, the if converted value of the 2023 Notes was less than their principal amount by \$47.9 million at March 31, 2018 as the closing market price of the Company’s common stock was less than the implicit conversion price of \$25.91 per share.

The Company has asserted its intent and ability to settle the principal amount of the Convertible Notes in cash. As such, only the conversion spread value, if any, is included in the computation of diluted EPS.

Table of Contents

11. Loan Securitization/Sale Activities

As described below, we regularly sell loans and notes under various strategies. We evaluate such sales as to whether they meet the criteria for treatment as a sale—legal isolation, ability of transferee to pledge or exchange the transferred assets without constraint, and transfer of control.

Within the Investing and Servicing Segment, we originate commercial mortgage loans with the intent to sell these mortgage loans to VIEs for the purposes of securitization. These VIEs then issue CMBS that are collateralized in part by these assets, as well as other assets transferred to the VIE. In certain instances, we retain an interest in the VIE and/or serve as special servicer for the VIE. The following summarizes the fair value and par value of loans sold from our conduit platform, as well as the amount of sale proceeds used in part to repay the outstanding balance of the repurchase agreements associated with these loans for the three months ended March 31, 2018 and 2017 (amounts in thousands):

	For the Three Months Ended March 31,	
	2018	2017
Fair value of loans sold	\$ 266,632	\$ 179,296
Par value of loans sold	256,818	168,564
Repayment of repurchase agreements	193,844	126,518

Within the Lending Segment, we originate or acquire loans and then subsequently sell a portion, which can be in various forms including first mortgages, A-Notes, senior participations and mezzanine loans. Typically, our motivation for entering into these transactions is to effectively create leverage on the subordinated position that we will retain and hold for investment. In certain instances, we continue to service the loan following its sale. The following table summarizes our loans sold and loans transferred as secured borrowings by the Lending Segment net of expenses (amounts in thousands):

For the Three Months Ended March 31,	Loan Transfers Accounted for as Sales		Loan Transfers Accounted for as Secured Borrowings	
	Face Amount	Proceeds	Face Amount	Proceeds
2018	\$ 146,400	\$ 145,273	\$ —	\$ —
2017	38,750	37,079	—	—

During the three months ended March 31, 2018 and 2017, gains (losses) recognized by the Lending Segment on sales of loans were not material.

Table of Contents

12. Derivatives and Hedging Activity

Risk Management Objective of Using Derivatives

We are exposed to certain risks arising from both our business operations and economic conditions. Refer to Note 13 to the consolidated financial statements included in our Form 10-K for further discussion of our risk management objectives and policies.

Designated Hedges

The Company does not generally elect to apply the hedge accounting designation to its hedging instruments. During the three months ended March 31, 2018, the Company's only designated hedges were comprised of two outstanding interest rate swaps that have been designated as cash flow hedges of the interest rate risk associated with forecasted interest payments. As of March 31, 2018, the fair value of these cash flow hedges was not material. Additionally, during the three months ended March 31, 2018 and 2017 the impact of these cash flow hedges on our net income was not material and we did not recognize any hedge ineffectiveness in earnings associated with these cash flow hedges.

Non-designated Hedges

We have entered into a series of forward contracts whereby we agreed to sell an amount of foreign currency for an agreed upon amount of USD at various dates through March 2022. These forward contracts were entered into to economically fix the USD amounts of foreign denominated cash flows expected to be received by us related to certain foreign denominated loan investments and properties.

The following table summarizes our non-designated foreign exchange ("Fx") forwards, interest rate contracts, and credit index instruments as of March 31, 2018 (notional amounts in thousands):

Type of Derivative	Number of Contracts	Aggregate Notional Amount	Notional Currency	Maturity
Fx contracts – Buy Euros ("EUR")	4	1,441	EUR	April 2018
Fx contracts – Sell Euros ("EUR") (1)	39	258,921	EUR	April 2018 – March 2022

Edgar Filing: STARWOOD PROPERTY TRUST, INC. - Form 10-Q

Fx contracts – Buy Pounds Sterling ("GBP")	2	5,145	GBP	July 2019
Fx contracts – Sell Pounds Sterling ("GBP")	145	199,270	GBP	April 2018 – December 2021
Interest rate swaps – Paying fixed rates	21	853,671	USD	April 2019 – April 2028
Interest rate swaps – Receiving fixed rates	2	970,000	USD	January 2021 – March 2025
Interest rate caps	2	294,000	EUR	May 2020
Interest rate caps	11	128,464	USD	June 2018 – October 2021
Credit index instruments	8	49,000	USD	September 2058 – November 2059
Total	234			

(1) Includes 27 Fx contracts entered into to hedge our Euro currency exposure created by our acquisition of the Ireland Portfolio. As of March 31, 2018, these contracts have an aggregate notional amount of €223.2 million and varying maturities through June 2020.

Table of Contents

The table below presents the fair value of our derivative financial instruments as well as their classification on the condensed consolidated balance sheets as of March 31, 2018 and December 31, 2017 (amounts in thousands):

	Fair Value of Derivatives in an Asset Position (1) as of		Fair Value of Derivatives in a Liability Position (2) as of	
	March 31, 2018	December 31, 2017	March 31, 2018	December 31, 2017
Derivatives designated as hedging instruments:				
Interest rate swaps	\$ 30	\$ 25	\$ —	\$ —
Total derivatives designated as hedging instruments	30	25	—	—
Derivatives not designated as hedging instruments:				
Interest rate contracts	40,026	27,234	17,373	2,781

13. Offsetting Assets and Liabilities

The following tables present the potential effects of netting arrangements on our financial position for financial assets and liabilities within the scope of ASC 210-20, Balance Sheet—Offsetting, which for us are derivative assets and liabilities as well as repurchase agreement liabilities (amounts in thousands):

	(i) Gross Amounts Recognized	(ii) Gross Amounts Offset in the Statement of Financial Position	(iii) = (i) - (ii) Net Amounts Presented in the Statement of Financial Position	(iv) Gross Amounts Not Offset in the Statement of Financial Position Financial Instruments	Cash Collateral Received / Pledged	(v) = (iii) - (iv) Net Amount
As of March 31, 2018						
Derivative assets	\$ 41,067	\$ —	\$ 41,067	\$ 956	\$ —	\$ 40,111
Derivative liabilities	\$ 57,600	\$ —	\$ 57,600	\$ 956	\$ 55,086	\$ 1,558
Repurchase agreements	2,683,306	—	2,683,306	2,683,306	—	—
	\$ 2,740,906	\$ —	\$ 2,740,906	\$ 2,684,262	\$ 55,086	\$ 1,558
As of December 31, 2017						
Derivative assets	\$ 33,898	\$ —	\$ 33,898	\$ 6,523	\$ —	\$ 27,375
Derivative liabilities	\$ 36,200	\$ —	\$ 36,200	\$ 6,523	\$ 15,333	\$ 14,344
Repurchase agreements	3,235,095	—	3,235,095	3,235,095	—	—
	\$ 3,271,295	\$ —	\$ 3,271,295	\$ 3,241,618	\$ 15,333	\$ 14,344

14. Variable Interest Entities

Investment Securities

As discussed in Note 2, we evaluate all of our investments and other interests in entities for consolidation, including our investments in CMBS and our retained interests in securitization transactions we initiated, all of which are

generally considered to be variable interests in VIEs.

Securitization VIEs consolidated in accordance with ASC 810 are structured as pass through entities that receive principal and interest on the underlying collateral and distribute those payments to the certificate holders. The assets and other instruments held by these securitization entities are restricted and can only be used to fulfill the obligations of the entity. Additionally, the obligations of the securitization entities do not have any recourse to the general credit of any other consolidated entities, nor to us as the primary beneficiary. The VIE liabilities initially represent investment securities on our balance sheet (pre-consolidation). Upon consolidation of these VIEs, our associated investment securities are eliminated, as is the interest income related to those securities. Similarly, the fees we earn in our roles as special servicer of the bonds issued by the consolidated VIEs or as collateral administrator of the consolidated VIEs are also eliminated. Finally, an allocable portion of the identified servicing intangible associated with the eliminated fee streams is eliminated in consolidation.

VIEs in which we are the Primary Beneficiary

The inclusion of the assets and liabilities of securitization VIEs in which we are deemed the primary beneficiary has no economic effect on us. Our exposure to the obligations of securitization VIEs is generally limited to our investment in these entities. We are not obligated to provide, nor have we provided, any financial support for any of these consolidated structures.

We also hold controlling interests in non-securitization entities that are considered VIEs, most of which were established to facilitate the acquisition of certain properties. SPT Dolphin, the entity which holds the Woodstar II Portfolio, is a VIE because the third party interest holders do not carry kick-out rights or substantive participating rights. We were deemed to be the primary beneficiary of the VIE because we possess both the power to direct the activities of

Table of Contents

the VIE that most significantly impact its economic performance and a significant economic interest in the entity. This VIE had assets of \$670.8 million and liabilities of \$427.0 million as of March 31, 2018. In total, our consolidated non-securitization VIEs had assets of \$785.5 million and liabilities of \$511.5 million as of March 31, 2018.

VIEs in which we are not the Primary Beneficiary

In certain instances, we hold a variable interest in a VIE in the form of CMBS, but either (i) we are not appointed, or do not serve as, special servicer or (ii) an unrelated third party has the rights to unilaterally remove us as special servicer without cause. In these instances, we do not have the power to direct activities that most significantly impact the VIE's economic performance. In other cases, the variable interest we hold does not obligate us to absorb losses or provide us with the right to receive benefits from the VIE which could potentially be significant. For these structures, we are not deemed to be the primary beneficiary of the VIE, and we do not consolidate these VIEs.

As of March 31, 2018, two of our CDO structures were in default, which, pursuant to the underlying indentures, changes the rights of the variable interest holders. Upon default of a CDO, the trustee or senior note holders are allowed to exercise certain rights, including liquidation of the collateral, which at that time, is the activity which would most significantly impact the CDO's economic performance. Further, when the CDO is in default, the collateral administrator no longer has the option to purchase securities from the CDO. In cases where the CDO is in default and we do not have the ability to exercise rights which would most significantly impact the CDO's economic performance, we do not consolidate the VIE. As of March 31, 2018, neither of these CDO structures were consolidated.

As noted above, we are not obligated to provide, nor have we provided, any financial support for any of our securitization VIEs, whether or not we are deemed to be the primary beneficiary. As such, the risk associated with our involvement in these VIEs is limited to the carrying value of our investment in the entity. As of March 31, 2018, our maximum risk of loss related to securitization VIEs in which we were not the primary beneficiary was \$24.0 million on a fair value basis.

As of March 31, 2018, the securitization VIEs which we do not consolidate had debt obligations to beneficial interest holders with unpaid principal balances of \$4.7 billion. The corresponding assets are comprised primarily of commercial mortgage loans with unpaid principal balances corresponding to the amounts of the outstanding debt obligations.

We also hold passive non-controlling interests in certain unconsolidated entities that are considered VIEs. We are not the primary beneficiaries of these VIEs as we do not possess the power to direct the activities of the VIEs that most significantly impact their economic performance and therefore report our interests, which totaled \$123.8 million as of March 31, 2018, within investment in unconsolidated entities on our condensed consolidated balance sheet. Our

maximum risk of loss is limited to our carrying value of the investments.

15. Related-Party Transactions

Management Agreement

We are party to a management agreement (the “Management Agreement”) with our Manager. Under the Management Agreement, our Manager, subject to the oversight of our board of directors, is required to manage our day to day activities, for which our Manager receives a base management fee and is eligible for an incentive fee and stock awards. Our Manager’s personnel perform certain due diligence, legal, management and other services that outside professionals or consultants would otherwise perform. As such, in accordance with the terms of our Management Agreement, our Manager is paid or reimbursed for the documented costs of performing such tasks, provided that such costs and reimbursements are in amounts no greater than those which would be payable to outside professionals or consultants engaged to perform such services pursuant to agreements negotiated on an arm’s-length basis. Refer to Note 16 to the consolidated financial statements included in our Form 10-K for further discussion of this agreement.

Table of Contents

In February 2018, our board of directors authorized an amendment to our Management Agreement to adjust the calculation of the base management fee and incentive fee to treat equity securities of subsidiaries issued in exchange for properties or interests therein as issued common stock, effective December 28, 2017 (the “Amendment”). Refer to Note 16 to the consolidated financial statements included in our Form 10-K for further discussion of the Amendment.

Base Management Fee. For the three months ended March 31, 2018 and 2017, approximately \$17.5 million and \$16.9 million, respectively, was incurred for base management fees. As of March 31, 2018 and December 31, 2017, there were \$17.5 million and \$17.1 million, respectively, of unpaid base management fees included in related-party payable in our condensed consolidated balance sheets.

Incentive Fee. For the three months ended March 31, 2018 and 2017, approximately \$9.6 million and \$5.5 million, respectively, was incurred for incentive fees. As of March 31, 2018 and December 31, 2017, approximately \$9.6 million and \$22.0 million, respectively, of unpaid incentive fees were included in related-party payable in our condensed consolidated balance sheets.

Expense Reimbursement. For the three months ended March 31, 2018 and 2017, approximately \$2.1 million and \$1.6 million, respectively, was incurred for executive compensation and other reimbursable expenses and recognized within general and administrative expenses in our condensed consolidated statements of operations. As of March 31, 2018 and December 31, 2017, approximately \$4.6 million and \$3.3 million, respectively, of unpaid reimbursable executive compensation and other expenses were included in related-party payable in our condensed consolidated balance sheets.

Equity Awards. In certain instances, we issue RSAs to certain employees of affiliates of our Manager who perform services for us. During the three months ended March 31, 2018 and 2017, we granted 189,813 and 138,264 RSAs, respectively, at grant date fair values of \$4.0 million and \$3.1 million, respectively. Expenses related to the vesting of awards to employees of affiliates of our Manager were \$0.5 million and \$0.6 million during the three months ended March 31, 2018 and 2017, respectively, and are reflected in general and administrative expenses in our condensed consolidated statements of operations. These shares generally vest over a three-year period.

Manager Equity Plan

In March 2017, we granted 1,000,000 RSUs to our Manager under the Starwood Property Trust, Inc. Manager Equity Plan (“Manager Equity Plan”). In May 2015, we granted 675,000 RSUs to our Manager under the Manager Equity Plan. In connection with these grants and prior similar grants, we recognized share-based compensation expense of \$2.9 million and \$1.5 million within management fees in our condensed consolidated statements of operations for the three months ended March 31, 2018 and 2017, respectively. Refer to Note 16 for further discussion of these grants.

In May 2017, the Company's shareholders approved the Starwood Property Trust, Inc. 2017 Manager Equity Plan (the "2017 Manager Equity Plan") which replaced the Manager Equity Plan. Refer to Note 16 for further discussion.

Investments in Loans and Securities

In January 2018, the Company acquired a \$130.0 million first mortgage participation from an unaffiliated third party, which bears interest at LIBOR plus 4.00%. The loan is secured by four U.S. power plants that each have long-term power purchase agreements with investment grade counterparties. The borrower is an affiliate of our Manager.

In February 2018, a GBP denominated first mortgage loan that we had co-originated with SEREF in November 2013, which was secured by Centre Point, an iconic tower located in Central London, England, was repaid in full.

In March 2018, the Company acquired a €55.0 million newly-originated loan participation from SEREF, which is secured by a luxury resort in Estepona, Spain.

Table of Contents

Acquisitions from Consolidated CMBS Trusts

Our Investing and Servicing Segment acquires interests in properties for its REIS Equity Portfolio from CMBS trusts, some of which are consolidated as VIEs on our balance sheet. Acquisitions from consolidated VIEs are reflected as repayment of debt of consolidated VIEs in our condensed consolidated statements of cash flows. During the three months ended March 31, 2018, we acquired \$27.7 million of net real estate assets from consolidated CMBS trusts for a gross purchase price of \$28.0 million. Refer to Note 3 for further discussion of these acquisitions. No real estate assets were acquired from consolidated CMBS trusts during the three months ended March 31, 2017.

Refer to Note 16 to the consolidated financial statements included in our Form 10-K for further discussion of related-party agreements.

16. Stockholders' Equity and Non-Controlling Interests

During the three months ended March 31, 2018 our board of directors declared the following dividend:

Declaration Date	Record Date	Ex-Dividend Date	Payment Date	Amount	Frequency
2/28/18	3/30/18	3/28/18	4/13/18	\$ 0.48	Quarterly

During the three months ended March 31, 2018 and 2017, there were no shares issued under our At-The-Market Equity Offering Sales Agreement. During the three months ended March 31, 2018 and 2017, shares issued under the Starwood Property Trust, Inc. Dividend Reinvestment and Direct Stock Purchase Plan (the "DRIP Plan") were not material.

In February 2017, our board of directors extended the term of our \$500.0 million common stock and Convertible Note repurchase program through January 2019. Refer to Note 17 to the consolidated financial statements included in our Form 10-K for further information regarding the repurchase program. During the three months ended March 31, 2018, we repurchased 573,255 shares of common stock for \$12.1 million and no Convertible Notes under our repurchase program. There were no share or Convertible Notes repurchases under the repurchase program during the three months ended March 31, 2017. The repurchase of the 2018 Notes discussed in Note 10 was not considered part of the repurchase program and therefore did not reduce our available capacity for future repurchases under the repurchase program. As of March 31, 2018, we had \$250.1 million of remaining capacity to repurchase common stock and/or Convertible Notes under the repurchase program.

Equity Incentive Plans

In May 2017, the Company's shareholders approved the 2017 Manager Equity Plan and the Starwood Property Trust, Inc. 2017 Equity Plan (the "2017 Equity Plan"), which allow for the issuance of up to 11,000,000 stock options, stock appreciation rights, RSAs, RSUs or other equity-based awards or any combination thereof to the Manager, directors, employees, consultants or any other party providing services to the Company. The 2017 Manager Equity Plan succeeds and replaces the Manager Equity Plan and the 2017 Equity Plan succeeds and replaces the Starwood Property Trust, Inc. Equity Plan (the "Equity Plan") and the Starwood Property Trust, Inc. Non-Executive Director Stock Plan (the "Non-Executive Director Stock Plan").

The table below summarizes our share awards granted or vested under the Manager Equity Plan and 2017 Manager Equity Plan during the three months ended March 31, 2018 and 2017 (dollar amounts in thousands):

Grant Date	Type	Amount Granted	Grant Date Fair Value	Vesting Period
March 2017	RSU	1,000,000	\$ 22,240	3 years
May 2015	RSU	675,000	16,511	3 years

As of March 31, 2018, there were 10.3 million shares available for future grants under the 2017 Manager Equity Plan and the 2017 Equity Plan.

Table of Contents

Schedule of Non-Vested Shares and Share Equivalents

	2017	2017	2017	Weighted Average Grant Date Fair Value (per share)
	Equity Plan	Equity Plan	Total	
Balance as of January 1, 2018	885,138	806,251	1,691,389	\$ 21.95
Granted	459,118	—	459,118	21.25
Vested	(263,886)	(139,583)	(403,469)	21.82
Forfeited	—	—	—	—
Balance as of March 31, 2018	1,080,370	666,668	1,747,038	21.80

Non-Controlling Interests in Consolidated Subsidiaries

As discussed in Note 3, in connection with our Woodstar II Portfolio acquisitions, we issued 9.8 million Class A Units in SPT Dolphin. Commencing six months from issuance, Class A Units are redeemable for consideration equal to the current share price of the Company's common stock on a one-for-one basis, with the consideration paid in either cash or the Company's common stock, at the determination of the Company. In consolidation, the issued Class A Units are reflected as non-controlling interests in consolidated subsidiaries on our condensed consolidated balance sheets.

To the extent SPT Dolphin has sufficient cash available, the Class A Units earn a preferred return indexed to the dividend rate of the Company's common stock. Any distributions made pursuant to this waterfall are recognized within net income attributable to non-controlling interests in our condensed consolidated statement of operations. During the three months ended March 31, 2018, we recognized net income attributable to non-controlling interests of \$2.5 million associated with these Class A Units.

During the three months ended March 31, 2018, we acquired the non-controlling interest held by a third party in one of our consolidated REIS Equity Portfolio properties, which was carried at \$0.3 million, for \$3.3 million. The excess of the consideration paid to acquire the non-controlling interest over the carrying value of the non-controlling interest was recorded as a reduction of stockholders' equity during the three months ended March 31, 2018.

Table of Contents

17. Earnings per Share

The following table provides a reconciliation of net income and the number of shares of common stock used in the computation of basic EPS and diluted EPS (amounts in thousands, except per share amounts):

	For the Three Months Ended March 31,	
	2018	2017
Basic Earnings		
Income attributable to STWD common stockholders	\$ 99,932	\$ 102,358
Less: Income attributable to participating shares not already deducted as non-controlling interests	(721)	(899)
Basic earnings	\$ 99,211	\$ 101,459
Diluted Earnings		
Income attributable to STWD common stockholders	\$ 99,932	\$ 102,358
Less: Income attributable to participating shares not already deducted as non-controlling interests	(721)	(899)
Add: Undistributed earnings to participating shares	—	—
Less: Undistributed earnings reallocated to participating shares	—	—
Diluted earnings	\$ 99,211	\$ 101,459
Number of Shares:		
Basic — Average shares outstanding	260,664	258,997
Effect of dilutive securities — Convertible Notes	1,209	3,220
Effect of dilutive securities — Contingently issuable shares	229	121
Effect of dilutive securities — Unvested non-participating shares	22	103
Diluted — Average shares outstanding	262,124	262,441
Earnings Per Share Attributable to STWD Common Stockholders:		
Basic	\$ 0.38	\$ 0.39
Diluted	\$ 0.38	\$ 0.39

As of March 31, 2018 and 2017, participating shares of 11.3 million and 1.9 million, respectively, were excluded from the computation of diluted shares as their effect was already considered under the more dilutive two-class method used above. Such participating shares at March 31, 2018 included 9.8 million potential shares of our common stock issuable upon redemption of the Class A Units in SPT Dolphin, as discussed in Note 16.

Additionally, as of March 31, 2018, there were 27.1 million potential shares of common stock contingently issuable upon the conversion of the Convertible Notes. The Company has asserted its intent and ability to settle the principal

amount of the Convertible Notes in cash. As a result, this principal amount, representing 25.9 million shares at March 31, 2018, was not included in the computation of diluted EPS. However, as discussed in Note 10, the conversion option associated with the 2019 Notes is “in-the-money” as the if-converted value of the 2019 Notes exceeded their principal amount by \$25.0 million at March 31, 2018. The dilutive effect to EPS is determined by dividing this “conversion spread value” by the average share price. The “conversion spread value” is the value that would be delivered to investors in shares based on the terms of the Convertible Notes, upon an assumed conversion. In calculating the dilutive effect of these shares, the treasury stock method was used and resulted in a dilution of 1.2 million shares for the three months ended March 31, 2018. The conversion option associated with the 2023 Notes is “out-of-the-money” because the if-converted values of the 2023 Notes was less than their principal amount by \$47.9 million at March 31, 2018; therefore, there was no dilutive effect to EPS.

Table of Contents

18. Accumulated Other Comprehensive Income

The changes in AOCI by component are as follows (amounts in thousands):

	Effective Portion of Cumulative Loss on Cash Flow Hedges	Cumulative Unrealized Gain (Loss) on Available-for- Sale Securities	Foreign Currency Translation	Total
Three Months Ended March 31, 2018				
Balance at January 1, 2018	\$ 25	\$ 57,889	\$ 12,010	\$ 69,924
OCI before reclassifications	9	1,209	4,218	5,436
Amounts reclassified from AOCI	(4)	(46)	—	(50)
Net period OCI	5	1,163	4,218	5,386
Balance at March 31, 2018	\$ 30	\$ 59,052	\$ 16,228	\$ 75,310
Three Months Ended March 31, 2017				
Balance at January 1, 2017	\$ (26)	\$ 44,929	\$ (8,765)	\$ 36,138
OCI before reclassifications	47	1,931	2,007	3,985
Amounts reclassified from AOCI	29	(85)	—	(56)
Net period OCI	76	1,846	2,007	3,929
Balance at March 31, 2017	\$ 50	\$ 46,775	\$ (6,758)	\$ 40,067

The reclassifications out of AOCI impacted the condensed consolidated statements of operations for the three months ended March 31, 2018 and 2017 as follows (amounts in thousands):

Details about AOCI Components	Amounts Reclassified from AOCI during the Three Months Ended March 31,		Affected Line Item in the Statements of Operations
	2018	2017	
Gain (loss) on cash flow hedges:			
Interest rate contracts	\$ 4	\$ (29)	Interest expense
Unrealized gains (losses) on available-for-sale securities:			
Interest realized upon collection	46	85	Interest income from investment securities
Total reclassifications for the period	\$ 50	\$ 56	

19. Fair Value

GAAP establishes a hierarchy of valuation techniques based on the observability of inputs utilized in measuring financial assets and liabilities at fair value. GAAP establishes market-based or observable inputs as the preferred source of values, followed by valuation models using management assumptions in the absence of market inputs. The three levels of the hierarchy are described below:

Level I—Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level II—Inputs (other than quoted prices included in Level I) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life.

Level III—Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model.

Table of Contents

Valuation Process

We have valuation control processes in place to validate the fair value of the Company's financial assets and liabilities measured at fair value including those derived from pricing models. These control processes are designed to assure that the values used for financial reporting are based on observable inputs wherever possible. Refer to Note 20 to the consolidated financial statements included in our Form 10-K for further discussion of our valuation process.

We determine the fair value of our assets and liabilities measured at fair value on a recurring and nonrecurring basis in accordance with the methodology described in our Form 10-K.

Fair Value Disclosures

The following tables present our financial assets and liabilities carried at fair value on a recurring basis in the condensed consolidated balance sheets by their level in the fair value hierarchy as of March 31, 2018 and December 31, 2017 (amounts in thousands):

	March 31, 2018

Amounts were transferred from Level II to Level III due to a decrease in the observable relevant market activity and amounts were transferred from Level III to Level II due to an increase in the observable relevant market activity.

Table of Contents

The following table presents the fair values, all of which are classified in Level III of the fair value hierarchy, of our financial instruments not carried at fair value on the condensed consolidated balance sheets (amounts in thousands):

	March 31, 2018		December 31, 2017	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial assets not carried at fair value:				
Loans held-for-investment and loans transferred as secured borrowings	\$ 6,257,249	\$ 6,335,551	\$ 6,636,898	\$ 6,729,302
HTM securities	236,319	234,226	433,468	428,338
Financial liabilities not carried at fair value:				
Secured financing agreements and secured borrowings on transferred loans	\$ 5,628,589	\$ 5,564,347	\$ 5,847,241	\$ 5,810,998
Unsecured senior notes	2,252,631	2,287,522	2,125,235	2,191,285

The following is quantitative information about significant unobservable inputs in our Level III measurements for those assets and liabilities measured at fair value on a recurring basis (dollars in thousands):

	Carrying Value at March 31, 2018	Valuation Technique	Unobservable Input	Range as of (1)	
				March 31, 2018	December 31, 2017
Loans held-for-sale, fair value option	\$ 723,733	Discounted cash flow	Yield (b)	4.8% - 6.0%	4.3% - 6.0%
			Duration (c)	1.8 - 13.0 years	1.8 - 12.1 years
RMBS	240,853	Discounted cash flow	Constant prepayment rate (a)	23.0% - 1.0%	21.4% - 0.9%
			Constant default rate (b)	5.6% - 15%	5.8% - 14%
			Loss severity (b)	74% (e) - 4%	75% (e)
			Delinquency rate (c)	33% - 24%	4% - 33%
			Servicer advances (a)	83%	83%
			Annual coupon deterioration (b)	0% - 0.8%	0% - 0.8%
			Putback amount per projected total collateral loss (d)	0% - 7%	0% - 7%

Edgar Filing: STARWOOD PROPERTY TRUST, INC. - Form 10-Q

CMBS	23,969	Discounted cash flow	Yield (b)	0% - 295.6%	0% - 168.5%
			Duration (c)	0 - 9.7 years	0 - 9.7 years
Domestic servicing rights	24,945	Discounted cash flow	Debt yield (a)	7.75%	7.75%
			Discount rate (b)	15%	15%
			Control migration (b)	0% - 80%	0% - 80%
VIE assets	49,233,307	Discounted cash flow	Yield (b)	0% - 938.0%	0% - 826.6%
			Duration (c)	0 - 13.4 years	0 - 14.0 years
VIE liabilities	2,205,734	Discounted cash flow	Yield (b)	0% - 938.0%	0% - 826.6%
			Duration (c)	0 - 13.4 years	0 - 14.0 years

(1) The ranges of significant unobservable inputs are represented in percentages and years.

Sensitivity of the Fair Value to Changes in the Unobservable Inputs

- (a) Significant increase (decrease) in the unobservable input in isolation would result in a significantly higher (lower) fair value measurement.
- (b) Significant increase (decrease) in the unobservable input in isolation would result in a significantly lower (higher) fair value measurement.
- (c) Significant increase (decrease) in the unobservable input in isolation would result in either a significantly lower or higher (higher or lower) fair value measurement depending on the structural features of the security in question.
- (d) Any delay in the putback recovery date leads to a decrease in fair value for the majority of securities in our RMBS portfolio.
- (e) 80% and 81% of the portfolio falls within a range of 45%-80% as of March 31, 2018 and December 31, 2017, respectively.

Table of Contents

20. Income Taxes

Certain of our subsidiaries have elected to be treated as taxable REIT subsidiaries (“TRSs”). TRSs permit us to participate in certain activities from which REITs are generally precluded, as long as these activities meet specific criteria, are conducted within the parameters of certain limitations established by the Code, and are conducted in entities which elect to be treated as taxable subsidiaries under the Code. To the extent these criteria are met, we will continue to maintain our qualification as a REIT.

Our TRSs engage in various real estate related operations, including special servicing of commercial real estate, originating and securitizing commercial mortgage loans, and investing in entities which engage in real estate related operations. As of March 31, 2018 and December 31, 2017, approximately \$1.2 billion and \$673.1 million, respectively, of assets, including \$70.6 million and \$24.1 million in cash, respectively, were owned by TRS entities. Our TRSs are not consolidated for U.S. federal income tax purposes, but are instead taxed as corporations. For financial reporting purposes, a provision for current and deferred taxes is established for the portion of earnings recognized by us with respect to our interest in TRSs.

The following table is a reconciliation of our U.S. federal income tax determined using our statutory federal tax rate to our reported income tax provision for the three months ended March 31, 2018 and 2017 (dollars in thousands):

	For the Three Months Ended March 31,					
	2018			2017		
Federal statutory tax rate	\$ 22,606	21.0	%	\$ 35,655	35.0	%
REIT and other non-taxable income	(20,343)	(18.9)	%	(36,425)	(35.8)	%
State income taxes	593	0.6	%	(139)	(0.1)	%
Federal benefit of state tax deduction	(124)	(0.1)	%	49	—	%
Other	124	0.1	%	(123)	(0.1)	%
Effective tax rate	\$ 2,856	2.7	%	\$ (983)	(1.0)	%

21. Commitments and Contingencies

As of March 31, 2018, we had future funding commitments on 50 loans totaling \$1.7 billion, of which we expect to fund \$1.4 billion. These future funding commitments primarily relate to construction projects, capital improvements, tenant improvements and leasing commissions. Generally, funding commitments are subject to certain conditions that must be met, such as customary construction draw certifications, minimum debt service coverage ratios or executions of new leases before advances are made to the borrower.

Management is not aware of any other contractual obligations, legal proceedings, or any other contingent obligations incurred in the normal course of business that would have a material adverse effect on our condensed consolidated financial statements.

22. Segment Data

In its operation of the business, management, including our chief operating decision maker, who is our Chief Executive Officer, reviews certain financial information, including segmented internal profit and loss statements prepared on a basis prior to the impact of consolidating securitization VIEs under ASC 810. The segment information within this note is reported on that basis.

Table of Contents

23. Subsequent Events

Our significant events subsequent to March 31, 2018 were as follows:

Manager Equity Plan

On April 4, 2018, we granted 775,000 RSUs to our Manager under the 2017 Manager Equity Plan at a grant date fair value of \$16.3 million. The award was granted based on the market price of the Company's common stock on the grant date and vests over a three-year period.

Dividend Declaration

On May 4, 2018, our board of directors declared a dividend of \$0.48 per share for the second quarter of 2018, which is payable on July 13, 2018 to common stockholders of record as of June 29, 2018.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

This “Management’s Discussion and Analysis of Financial Condition and Results of Operations” should be read in conjunction with the information included elsewhere in this Quarterly Report on Form 10-Q and in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2017 (the “Form 10-K”). This discussion contains forward-looking statements that involve risks and uncertainties. Actual results could differ significantly from the results discussed in the forward-looking statements. See “Special Note Regarding Forward-Looking Statements” at the beginning of this Quarterly Report on Form 10-Q.

Overview

Starwood Property Trust, Inc. (“STWD” and, together with its subsidiaries, “we” or the “Company”) is a Maryland corporation that commenced operations in August 2009, upon the completion of our initial public offering. We are focused primarily on originating, acquiring, financing and managing commercial mortgage loans and other commercial real estate debt investments, commercial mortgage-backed securities (“CMBS”), and other commercial real estate investments in both the U.S. and Europe. We refer to the following as our target assets: commercial real estate mortgage loans, preferred equity interests, CMBS and other commercial real estate-related debt investments. Our target assets may also include residential mortgage-backed securities (“RMBS”), certain residential mortgage loans, distressed or non-performing commercial loans, commercial properties subject to net leases and equity interests in commercial real estate. As market conditions change over time, we may adjust our strategy to take advantage of changes in interest rates and credit spreads as well as economic and credit conditions.

We have three reportable business segments as of March 31, 2018:

- Real estate lending (the “Lending Segment”)—engages primarily in originating, acquiring, financing and managing commercial first mortgages, subordinated mortgages, mezzanine loans, preferred equity, CMBS, RMBS, certain residential mortgage loans, and other real estate and real estate-related debt investments in both the U.S. and Europe.
- Real estate property (the “Property Segment”)—engages primarily in acquiring and managing equity interests in stabilized commercial real estate properties, including multifamily properties, that are held for investment.
- Real estate investing and servicing (the “Investing and Servicing Segment”)—includes (i) a servicing business in the U.S. that manages and works out problem assets, (ii) an investment business that selectively acquires and manages unrated, investment grade and non-investment grade rated CMBS, including subordinated interests of securitization and resecuritization transactions, (iii) a mortgage loan business which originates conduit loans for the primary purpose of selling these loans into securitization transactions, and (iv) an investment business that selectively

acquires commercial real estate assets, including properties acquired from CMBS trusts. This segment excludes the consolidation of securitization variable interest entities (“VIEs”).

Refer to Note 1 of our condensed consolidated financial statements included herein (the “Condensed Consolidated Financial Statements”) for further discussion of our business and organization.

Table of Contents

Developments During the First Quarter of 2018

Woodstar II Portfolio Acquisition

During the three months ended March 31, 2018, we acquired 18 of the 27 affordable housing communities comprising our “Woodstar II Portfolio.” The 18 affordable housing communities acquired during the three months ended March 31, 2018 comprise 4,057 units and were acquired for \$404.7 million, including contingent consideration of \$26.7 million (the “Q1 2018 Closing”). Government sponsored mortgage debt of \$7.3 million with weighted average fixed annual interest rates of 2.88% and remaining weighted average terms of 17.7 years was assumed at closing. We financed the Q1 2018 Closing utilizing new 10-year mortgage debt totaling \$300.9 million with weighted average fixed annual interest rates of 3.82%. The Woodstar II Portfolio is comprised of 6,109 units concentrated primarily in Central and South Florida and is 99% occupied.

Other Developments

- The Lending Segment originated or acquired \$1.2 billion of commercial loans during the quarter, including the following:
 - o \$214.0 million first mortgage and mezzanine loan for the acquisition of a 1.2 million square foot Class A office tower located in Houston, Texas, of which the Company funded \$117.0 million.
 - o \$170.3 million first mortgage loan for the development of a 53-story residential tower located in Brooklyn, New York, which was unfunded as of March 31, 2018.
 - o \$140.3 million first mortgage and mezzanine loan for the acquisition and conversion of a 16-story property located in Alexandria, Virginia. The Company subsequently sold the \$106.2 million first mortgage loan and the mezzanine loan was unfunded as of March 31, 2018.
 - o \$130.4 million first mortgage loan for the refinancing of a 380.9 thousand square foot office building located in Arlington, Virginia, of which the Company funded \$113.3 million.
 - o \$130.0 million first mortgage for four U.S. power plants, that each have long-term power purchase agreements with investment grade counterparties, which the Company has fully funded.
- Funded \$169.1 million of previously originated loan commitments.

- Received gross proceeds of \$1.5 billion (net proceeds of \$0.9 billion) from maturities, sales and principal repayments on loans held-for-investment and single-borrower CMBS.
- Originated or acquired conduit loans of \$185.5 million and received proceeds of \$266.6 million from sales.
- Named special servicer on three new issue CMBS deals with a total unpaid principal balance of \$2.0 billion; in the case of one of these CMBS deals, we retained the related B-piece.
- Acquired commercial real estate from CMBS trusts for a gross purchase price of \$28.0 million.
- Sold commercial real estate for total gross proceeds of \$52.3 million and recognized net gains of \$9.0 million.
- Issued \$500.0 million of 3.625% Senior Notes due 2021 (the “2021 February Notes”).
- Repurchased 573,255 shares of common stock for a total cost of \$12.1 million.

Table of Contents

Subsequent Events

Refer to Note 23 to the Condensed Consolidated Financial Statements for disclosure regarding significant transactions that occurred subsequent to March 31, 2018.

Results of Operations

The discussion below is based on accounting principles generally accepted in the United States of America (“GAAP”) and therefore reflects the elimination of certain key financial statement line items related to the consolidation of securitization variable interest entities (“VIEs”), particularly within revenues and other income, as discussed in Note 2 to the Condensed Consolidated Financial Statements. For a discussion of our results of operations excluding the impact of Accounting Standards Codification (“ASC”) Topic 810 as it relates to the consolidation of securitization VIEs, refer to the Non-GAAP Financial Measures section herein.

The following table compares our summarized results of operations for the three months ended March 31, 2018 and 2017 by business segment (amounts in thousands):

	For the Three Months Ended		
	March 31, 2018	2017	\$ Change

Table of Contents

Three Months Ended March 31, 2018 Compared to the Three Months Ended March 31, 2017

Lending Segment

Revenues

For the three months ended March 31, 2018, revenues of our Lending Segment increased \$27.7 million to \$149.8 million, compared to \$122.1 million for the three months ended March 31, 2017. This increase was primarily due to (i) a \$25.9 million increase in interest income from loans principally due to increased LIBOR rates, higher average loan balances primarily due to the acquisition of residential loans held-for-sale and higher levels of prepayment related income, partially offset by the compression of interest rate spreads in credit markets and (ii) a \$1.7 million increase in interest income from investment securities due to prepayment related income.

Costs and Expenses

For the three months ended March 31, 2018, costs and expenses of our Lending Segment increased \$16.2 million to \$41.0 million, compared to \$24.8 million for the three months ended March 31, 2017. This increase was primarily due to a \$12.1 million increase in interest expense associated with the various secured financing facilities used to fund a portion of our investment portfolio, a \$2.5 million increase in general and administrative expenses and a \$1.8 million increase in our loan loss allowance.

Net Interest Income (amounts in thousands)

	For the Three Months		
	Ended		
	March 31,		
	2018	2017	Change
Interest income from loans	\$ 134,972	\$ 109,046	\$ 25,926
Interest income from investment securities	14,439	12,719	1,720
Interest expense	(32,021)	(19,957)	(12,064)
Net interest income	\$ 117,390	\$ 101,808	\$ 15,582

For the three months ended March 31, 2018, net interest income of our Lending Segment increased \$15.6 million to \$117.4 million, compared to \$101.8 million for the three months ended March 31, 2017. This increase reflects the net increase in interest income explained in the Revenues discussion above, partially offset by the increase in interest expense on our secured financing facilities.

During the three months ended March 31, 2018 and 2017, the weighted average unlevered yields on the Lending Segment's loans and investment securities were 7.4% and 7.1%, respectively. The increase in the weighted average unlevered yield is primarily due to increases in LIBOR and higher levels of prepayment related income, partially offset by the compression of interest rate spreads in credit markets.

During the three months ended March 31, 2018 and 2017, the Lending Segment's weighted average secured borrowing rates, inclusive of interest rate hedging costs and the amortization of deferred financing fees, were 4.1% and 3.6%, respectively, and 4.0% and 3.5%, respectively, excluding the impact of bridge financing. The increases in borrowing rates primarily reflect increases in LIBOR, partially offset by the compression of interest rate spreads in credit markets.

Other Income

For the three months ended March 31, 2018, other income of our Lending Segment increased \$1.2 million to \$2.1 million, compared to \$0.9 million for the three months ended March 31, 2017. The increase was primarily due to an \$8.7 million increase in foreign currency gain, partially offset by a \$6.3 million increased loss from derivatives. The increased loss from derivatives reflects a \$10.6 million increased loss on foreign currency hedges partially offset by a \$4.3 million increased gain on interest rate swaps. The foreign currency hedges are used to fix the U.S. dollar amounts of cash flows (both interest and principal payments) we expect to receive from our foreign currency denominated loans and CMBS

Table of Contents

investments. The increased loss on the foreign currency hedges and the increased foreign currency gain reflect the overall weakening of the U.S. dollar against the pound sterling (“GBP”) in the first quarter of 2018 versus a lesser weakening of the U.S. dollar in the first quarter of 2017. The interest rate swaps are used primarily to fix our interest rate payments on certain variable rate borrowings which fund fixed rate investments.

Property Segment

Change in Results by Portfolio (amounts in thousands)

	\$ Change from prior period		Gain (loss) on derivative financial instruments	Other income (loss)	Income (loss) before income taxes
	Revenues	Costs and expenses			
Master Lease Portfolio	\$ 12,095	\$ 8,339	\$ —	\$ 3,941	\$ 7,697
Medical Office Portfolio	379	1,298	9,329	—	8,410
Ireland Portfolio	1,579	1,447	(6,899)	2	(6,765)
Woodstar I Portfolio	377	1,412	—	—	(1,035)
Woodstar II Portfolio	7,483	10,909	—	18	(3,408)
Investment in unconsolidated entities	—	—	—	(5,976)	(5,976)
Other/Corporate	—	643	—	—	(643)
Total	\$ 21,913	\$ 24,048	\$ 2,430	\$ (2,015)	\$ (1,720)

See Note 6 to the Condensed Consolidated Financial Statements for a description of the above-referenced Property Segment portfolios.

Revenues

For the three months ended March 31, 2018, revenues of our Property Segment increased \$21.9 million to \$66.8 million, compared to \$44.9 million for the three months ended March 31, 2017. The increase in revenues in the first quarter of 2018 was primarily due to the inclusion of rental income from the Master Lease Portfolio, which was acquired on September 25, 2017, and the Woodstar II Portfolio, which was acquired over a period between December 2017 and March 2018.

Costs and Expenses

For the three months ended March 31, 2018, costs and expenses of our Property Segment increased \$24.0 million to \$68.3 million, compared to \$44.3 million for the three months ended March 31, 2017. The increase in costs and expenses reflects increases of \$9.3 million in depreciation and amortization, \$8.1 million in other rental related costs and \$6.3 million in interest expense, all primarily due to the inclusion of the Master Lease Portfolio and Woodstar II Portfolio, both of which were acquired after March 31, 2017.

Other Income

For the three months ended March 31, 2018, other income of our Property Segment increased \$0.4 million to \$2.4 million, compared to \$2.0 million for the three months ended March 31, 2017. The increase in other income was primarily due to (i) a \$3.9 million net gain on sale of two properties in the Master Lease Portfolio and (ii) a \$2.4 million favorable change in gain (loss) on derivatives, both partially offset by (iii) a \$6.0 million unfavorable change in earnings (loss) from unconsolidated entities principally due to unfavorable decreases in fair value of the properties in the Retail Fund, which is an investment company that measures its assets at fair value. The \$2.4 million favorable change in gain (loss) on derivatives reflects a \$9.3 million increased gain on interest rate swaps which primarily hedge the variable interest rate risk on borrowings secured by our Medical Office Portfolio, partially offset by a \$6.9 million increased loss on foreign exchange contracts which economically hedge our Euro currency exposure with respect to the Ireland Portfolio.

Table of Contents

Investing and Servicing Segment and VIEs

Revenues

For the three months ended March 31, 2018, revenues of our Investing and Servicing Segment increased \$12.2 million to \$44.0 million after consolidated VIE eliminations of \$41.2 million, compared to \$31.8 million after consolidated VIE eliminations of \$48.6 million for the three months ended March 31, 2017. The VIE eliminations are merely a function of the number of CMBS trusts consolidated in any given period, and as such, are not a meaningful indicator of the operating results for this segment. The increase in revenues in the first quarter of 2018 was primarily due to increases of \$12.0 million in servicing fees and \$2.2 million in rental income on our REIS Equity Portfolio (see Note 3 to the Condensed Consolidated Financial Statements), partially offset by a \$1.7 million decrease in interest income from CMBS investments. The \$12.0 million increase in servicing fees is primarily due to higher default interest collections and loan modification fees. The \$1.7 million decrease in CMBS interest income reflects a \$1.3 million increase in VIE eliminations related to the CMBS trusts we consolidate. Excluding the effect of these eliminations, CMBS interest income decreased by \$0.4 million.

Costs and Expenses

For the three months ended March 31, 2018, costs and expenses of our Investing and Servicing Segment decreased \$0.4 million to \$37.7 million, compared to \$38.1 million for the three months ended March 31, 2017, inclusive of VIE eliminations which were nominal for both periods. The decrease in costs and expenses was primarily due to a decrease in general and administrative expenses, partially offset by increases in interest expense and costs of rental operations associated with our REIS Equity Portfolio.

Other Income

For the three months ended March 31, 2018, other income of our Investing and Servicing Segment decreased \$2.1 million to \$69.0 million including additive net VIE eliminations of \$41.6 million, from \$71.1 million including additive net VIE eliminations of \$49.0 million for the three months ended March 31, 2017. The decrease in other income was primarily due to (i) a \$16.5 million decrease in the change in value of net assets related to consolidated VIEs, partially offset by (ii) a \$6.4 million gain on sale of three operating properties, (iii) a \$4.3 million increased gain on derivatives which principally hedge our interest rate risk on conduit loans and (iv) a \$2.6 million lesser decrease in fair value of servicing rights primarily reflecting the effect of VIE eliminations on the expected amortization of this deteriorating asset net of increases in fair value due to the attainment of new servicing contracts. The change in net assets related to consolidated VIEs reflects amounts associated with the Investing and Servicing Segment's variable interests in CMBS trusts it consolidates, including special servicing fees, interest income, and changes in fair value of CMBS and servicing rights. As noted above, this number is merely a function of the number of CMBS trusts

consolidated in any given period, and as such, is not a meaningful indicator of the operating results for this segment. Before VIE eliminations, there was an increase in fair value of CMBS securities of \$14.0 million and \$19.0 million in the three months ended March 31, 2018 and 2017, respectively.

Income Tax (Provision) Benefit

Historically, our consolidated income tax provision principally relates to the taxable nature of the Investing and Servicing Segment's loan servicing and loan conduit businesses which are housed in TRSs. For the three months ended March 31, 2018, we had a tax provision of \$2.9 million compared to a tax benefit of \$1.0 million in the three months ended March 31, 2017. The change primarily reflects an increase in the taxable income of our TRSs, including gains on sales of certain operating properties.

Table of Contents

Corporate

Costs and Expenses

For the three months ended March 31, 2018, corporate expenses increased \$8.7 million to \$66.3 million, compared to \$57.6 million for the three months ended March 31, 2017. The increase was primarily due to (i) a \$6.2 million increase in management fees and (ii) a \$2.2 million increase in interest expense principally on the increased borrowings under our unsecured senior notes.

Other Loss

For the three months ended March 31, 2018, corporate other loss increased \$7.1 million to \$13.0 million, compared to \$5.9 million for the three months ended March 31, 2017. The increase in corporate other loss was primarily due to a \$13.0 million loss on interest rate swaps used to hedge a portion of our unsecured senior notes used to repay variable-rate secured financing, partially offset by the non-recurrence of a \$5.9 million loss on extinguishment of debt in the three months ended March 31, 2017.

Non-GAAP Financial Measures

Core Earnings is a non-GAAP financial measure. We calculate Core Earnings as GAAP net income (loss) excluding the following:

- (i) non-cash equity compensation expense;
- (ii) incentive fees due under our management agreement;
- (iii) depreciation and amortization of real estate and associated intangibles;

- (iv) acquisition costs associated with successful acquisitions;
- (v) any unrealized gains, losses or other non-cash items recorded in net income for the period, regardless of whether such items are included in other comprehensive income or loss, or in net income; and
- (vi) any deductions for distributions payable with respect to equity securities of subsidiaries issued in exchange for properties or interests therein.

We believe that Core Earnings provides an additional measure of our core operating performance by eliminating the impact of certain non-cash expenses and facilitating a comparison of our financial results to those of other comparable REITs with fewer or no non-cash adjustments and comparison of our own operating results from period to period. Our management uses Core Earnings in this way, and also uses Core Earnings to compute the incentive fee due under our management agreement. The Company believes that its investors also use Core Earnings or a comparable supplemental performance measure to evaluate and compare the performance of the Company and its peers, and as such, the Company believes that the disclosure of Core Earnings is useful to (and expected by) its investors.

However, the Company cautions that Core Earnings does not represent cash generated from operating activities in accordance with GAAP and should not be considered as an alternative to net income (determined in accordance with GAAP), or an indication of our cash flows from operating activities (determined in accordance with GAAP), a measure of our liquidity, or an indication of funds available to fund our cash needs, including our ability to make cash distributions. In addition, our methodology for calculating Core Earnings may differ from the methodologies employed by other REITs to calculate the same or similar supplemental performance measures, and accordingly, our reported Core Earnings may not be comparable to the Core Earnings reported by other REITs.

Table of Contents

The weighted average diluted share count applied to Core Earnings for purposes of determining Core Earnings per share (“EPS”) is computed using the GAAP diluted share count, adjusted for the following:

- (i) Unvested stock awards – Currently, unvested stock awards are excluded from the denominator of GAAP EPS. The related compensation expense is also excluded from Core Earnings. In order to effectuate dilution from these awards in the Core Earnings computation, we adjust the GAAP diluted share count to include these shares.
- (ii) Conversion spread value – Conversion of our convertible notes is an event that is contingent upon numerous factors, none of which are in our control, and is an event that may or may not occur. As a result, the portion of our convertible notes that will be “in-the-money” at settlement is unknown. Consistent with the treatment of other unrealized adjustments to Core Earnings, we adjust the GAAP diluted share count to exclude the conversion spread value until a conversion occurs.
- (iii) Subsidiary equity – The intent of the February 2018 amendment to our management agreement (the “Amendment”) is to treat subsidiary equity in the same manner as if parent equity had been issued. The Class A Units issued in connection with the acquisition of assets in our Woodstar II Portfolio are currently excluded from our GAAP diluted share count, with the subsidiary equity represented as non-controlling interests in consolidated subsidiaries on our GAAP balance sheet. Consistent with the Amendment, we adjust GAAP diluted share count to include these subsidiary units.

The following table presents our diluted weighted average shares used in our GAAP EPS calculation reconciled to our diluted weighted average shares used in our Core EPS calculation (amounts in thousands):

	For the Three Months Ended March 31,	
	2018	2017
Diluted weighted average shares - GAAP	262,124	262,441
Add: Unvested stock awards	1,634	913
Add: Woodstar II Class A Units	5,143	—
Less: Conversion spread value	(1,209)	(3,220)
Diluted weighted average shares - Core	267,692	260,134

The definition of Core Earnings allows management to make adjustments, subject to the approval of a majority of our independent directors, in situations where such adjustments are considered appropriate in order for Core Earnings to be calculated in a manner consistent with its definition and objective. No adjustments to the definition of Core Earnings became effective during the three months ended March 31, 2018. However, as a reminder, in 2015, we adjusted the calculation of Core Earnings related to the equity component of our convertible notes. For GAAP purposes, we amortize the equity component of these instruments through interest expense. For Core Earnings, the amount is not considered realized until the earlier of (a) the entire issuance of the notes has been extinguished; or (b)

the equity portion has been fully amortized via repurchases of the notes. During the three months ended March 31, 2018, the 2018 Notes matured and were fully repaid in cash. As a result, we reflected \$10.0 million as a positive adjustment to Core Earnings, representing the \$28.1 million equity balance recognized upon issuance of the 2018 Notes, net of \$18.1 million in adjustments related to cumulative repurchases through the maturity date.

Lending Segment

The Lending Segment's Core Earnings increased by \$14.7 million, from \$98.1 million during the first quarter of 2017 to \$112.8 million in the first quarter of 2018. After making adjustments for the calculation of Core Earnings, revenues were \$149.6 million, costs and expenses were \$38.8 million and other income was \$3.3 million.

Core revenues, consisting principally of interest income on loans, increased by \$27.8 million in the first quarter of 2018, primarily due to (i) a \$25.9 million increase in interest income from loans principally due to increased LIBOR rates, higher average loan balances and higher levels of prepayment related income, partially offset by the compression of interest rate spreads in credit markets, and (ii) a \$1.7 million increase in interest income from investment securities due to prepayment related income.

Core costs and expenses increased by \$14.4 million in the first quarter of 2018, primarily due to a \$12.1 million increase in interest expense associated with the various secured financing facilities used to fund a portion of our investment portfolio and a \$2.7 million increase in general and administrative expenses.

Table of Contents

Core other income increased by \$2.1 million, primarily due to increased earnings from unconsolidated entities and favorable change in foreign currency gain (loss), partially offset by an unfavorable change in gain (loss) on foreign currency derivatives.

Property Segment

Core Earnings by Portfolio (amounts in thousands)

	For the Three Months		
	Ended March 31, 2018	2017	Change
Master Lease Portfolio	\$ 9,578	\$ —	\$ 9,578
Medical Office Portfolio	6,205	6,771	(566)
Ireland Portfolio	5,401	5,118	283
Woodstar I Portfolio	5,124	5,882	(758)
Woodstar II Portfolio	2,127	—	2,127
Investment in unconsolidated entities	—	1,772	(1,772)
Other/Corporate	(1,293)	(672)	(621)
Core Earnings	\$ 27,142	\$ 18,871	\$ 8,271

The Property Segment's Core Earnings increased by \$8.2 million, from \$18.9 million during the first quarter of 2017 to \$27.1 million in the first quarter of 2018. After making adjustments for the calculation of Core Earnings, revenues were \$66.6 million, costs and expenses were \$42.1 million and other income was \$3.9 million.

Core revenues increased by \$22.1 million in the first quarter of 2018, primarily due to the inclusion of rental income for the Master Lease Portfolio and Woodstar II Portfolio, both of which were acquired after March 31, 2017.

Core costs and expenses increased by \$15.1 million in the first quarter of 2018, primarily due to increases in rental related costs of \$8.0 million and interest expense of \$6.5 million primarily relating to the new Master Lease Portfolio and Woodstar II Portfolio.

Core other income increased by \$2.5 million in the first quarter of 2018, primarily due to a \$3.7 million net gain on sale of two properties in the Master Lease Portfolio, partially offset by a \$1.8 million decrease in equity in earnings recognized from our investment in the Retail Fund.

Investing and Servicing Segment

The Investing and Servicing Segment's Core Earnings decreased by \$8.0 million, from \$65.3 million during the first quarter of 2017 to \$57.3 million in the first quarter of 2018. After making adjustments for the calculation of Core Earnings, revenues were \$84.3 million, costs and expenses were \$32.0 million, other income was \$7.2 million, income tax provision was \$0.7 million and the deduction of income attributable to non-controlling interests was \$1.5 million.

Core revenues increased by \$1.9 million in the first quarter of 2018, primarily due to increases of \$3.3 million in servicing fees and \$2.6 million in rental income from our REIS Equity Portfolio, partially offset by a \$3.6 million decrease in interest income from our CMBS portfolio.

Core costs and expenses decreased by \$0.2 million in the first quarter of 2018, primarily due to a decrease in general and administrative expenses, partially offset by increases in interest expense and costs of rental operations associated with our REIS Equity Portfolio.

Core other income decreased by \$6.3 million principally due to (i) a \$14.7 million decrease in net realized gains from CMBS and (ii) a \$1.1 million decrease in realized gains on conduit loans, both partially offset by (iii) realized gains of \$4.7 million on the sales of three operating properties and (iv) a \$4.0 million favorable change in realized gains (losses) on derivatives and foreign currency.

Table of Contents

Income taxes, which principally relate to the operating results of our servicing and conduit businesses which are held in TRSs, increased \$1.9 million due to an increase in the taxable income of our TRSs.

Income attributable to non-controlling interests increased \$1.9 million primarily due to minority investors' share of gains from the three operating properties sold during the first quarter of 2018.

Corporate

Core corporate costs and expenses decreased by \$9.0 million, from \$50.4 million in the first quarter of 2017 to \$41.4 million in the first quarter of 2018, primarily due to the \$10.0 million positive adjustment to Core Earnings upon the repayment at maturity of the 2018 Notes as described above.

Liquidity and Capital Resources

Liquidity is a measure of our ability to meet our cash requirements, including ongoing commitments to repay borrowings, fund and maintain our assets and operations, make new investments where appropriate, pay dividends to our stockholders, and other general business needs. We closely monitor our liquidity position and believe that we have sufficient current liquidity and access to additional liquidity to meet our financial obligations for at least the next 12 months. Our strategy for managing liquidity and capital resources has not changed since December 31, 2017. Refer to our Form 10-K for a description of these strategies.

Cash Flows for the three Months Ended March 31, 2018 (amounts in thousands)

	GAAP	VIE Adjustments	Excluding Investing and Servicing VIEs

Cash, cash equivalents and restricted cash, beginning of period	418,273	(5,726)	412,547
Effect of exchange rate changes on cash	398	—	398
Cash, cash equivalents and restricted cash, end of period	\$ 379,421	\$ (6,215)	\$ 373,206

Table of Contents

The discussion below is on a non-GAAP basis, after removing adjustments principally resulting from the consolidation of the Investing and Servicing Segment's VIEs under ASC 810. These adjustments principally relate to (i) purchase of CMBS, loans and real estate from consolidated VIEs, which are reflected as repayments of VIE debt on a GAAP basis and (ii) principal collections of CMBS related to consolidated VIEs, which are reflected as VIE distributions on a GAAP basis. There is no significant net impact to cash flows from operations or to overall cash resulting from these consolidations. Refer to Note 2 of our Condensed Consolidated Financial Statements for further discussion.

Cash and cash equivalents decreased by \$39.7 million during the three months ended March 31, 2018, reflecting net cash used in financing activities of \$491.4 million, partially offset by net cash provided by investing activities of \$359.8 million and net cash provided by operating activities of \$91.9 million.

Net cash provided by operating activities of \$91.9 million for the three months ended March 31, 2018 related primarily to cash interest income of \$114.5 million from our loan origination and conduit programs, cash interest income on investment securities of \$42.6 million and \$21.6 million of proceeds from principal collections and sales, net of originations and purchases of loans held-for-sale. Net rental income provided cash of \$54.9 million and servicing fees provided cash of \$40.9 million. Offsetting these cash inflows were cash interest expense of \$75.7 million, a net change in operating assets and liabilities of \$59.4 million, management fees of \$27.7 million and general and administrative expenses of \$23.0 million.

Net cash provided by investing activities of \$359.8 million for the three months ended March 31, 2018 related primarily to the proceeds received from principal collections and sales of loans of \$1.0 billion, investment securities of \$241.6 million and sale of properties of \$51.1 million, partially offset by origination and acquisition of new loans held-for-investment of \$900.9 million, the purchase of properties and other assets of \$34.8 million and the purchase of investment securities of \$30.2 million.

Net cash used in financing activities of \$491.4 million for the three months ended March 31, 2018 related primarily to repayments of our secured debt, net of borrowings and deferred loan costs, of \$247.8 million, distributions to non-controlling interests of \$229.4 million and dividend distributions of \$125.7 million, partially offset by net borrowings after repayments of our unsecured debt of \$123.1 million. The distributions to non-controlling interests were principally related to the Q1 2018 Closing of the Woodstar II Portfolio acquisition.

	\$ 8,077,585	\$ 7,985,429	\$ 3,540,672	\$ 4,444,757			

(1) First mortgages include first mortgage loans and any contiguous mezzanine loan components because as a whole, the expected credit quality of these loans is more similar to that of a first mortgage loan. The application of this methodology resulted in mezzanine loans with carrying values of \$689.0 million and \$851.1 million being classified as first mortgages as of March 31, 2018 and December 31, 2017, respectively.

(2) CMBS held-to-maturity (“HTM”) and mandatorily redeemable preferred equity interests in commercial real estate entities.

Table of Contents

As of March 31, 2018 and December 31, 2017, our Lending Segment's investment portfolio, excluding loans held-for-sale, RMBS and other investments, had the following characteristics based on carrying values:

Collateral Property Type	March 31, 2018		December 31, 2017	
Office	36.0	%	33.7	%
Hotel	20.9	%	16.8	%
Mixed Use	10.3	%	18.4	%
Multifamily	9.6	%	9.4	%
Residential	8.6	%	7.1	%
Retail	5.1	%	7.8	%
Parking	2.5	%	2.2	%
Industrial	2.5	%	2.3	%
Other	4.5	%	2.3	%
	100.0	%	100.0	%

Geographic Location	March 31, 2018		December 31, 2017	
North East	27.7	%	31.5	%
West	21.7	%	21.6	%
South West	16.4	%	12.1	%
South East	9.8	%	12.6	%
International	9.5	%	12.4	%
Mid Atlantic	8.9	%	4.7	%

- (a) Subject to certain conditions as defined in the respective facility agreement.
- (b) Approved but undrawn capacity represents the total draw amount that has been approved by the lender related to those assets that have been pledged as collateral, less the drawn amount.
- (c) Unallocated financing amount represents the maximum facility size less the total draw capacity that has been approved by the lender.
- (d) Maturity date for borrowings collateralized by loans is September 2018 before extension options and September 2021 assuming the exercise of extension options. Borrowings collateralized by loans existing at maturity may remain outstanding until such loan collateral matures, subject to certain specified conditions and not to exceed September 2025.
- (e) The initial maximum facility size of \$600.0 million may be increased to \$1.0 billion at our option, subject to certain conditions.
- (f) Subject to borrower's option to choose alternative benchmark based rates pursuant to the terms of the credit agreement.
- (g) The initial maximum facility size of \$300.0 million may be increased to \$650.0 million, subject to certain conditions.
- (h) Facility carries a rolling 11-month term which may reset monthly with the lender's consent not to exceed December 2018. This facility carries no maximum facility size. Amount herein reflects the outstanding balance as of March 31, 2018.
- (i) Facility carries a rolling 12-month term which may reset monthly with the lender's consent. Current maturity is March 2019. This facility carries no maximum facility size. Amount herein reflects the outstanding balance as of March 31, 2018.
- (j) The date that is 270 days after the buyer delivers notice to seller, subject to a maximum date of September 2018.
- (k) Subject to a 25 basis point floor.

Table of Contents

As of March 31, 2018, Wells Fargo Bank, N.A. is our largest creditor through two repurchase facilities (Lender 1 Repo 1 facility and mortgage-backed securities (“MBS”) Repo 4 facility).

Refer to Note 9 of our Condensed Consolidated Financial Statements for further disclosure regarding the terms of our secured financing arrangements.

Variance between Average and Quarter-End Credit Facility Borrowings Outstanding

The following table compares the average amount outstanding under our secured financing agreements during each quarter and the amount outstanding as of the end of each quarter, together with an explanation of significant variances (amounts in thousands):

Quarter Ended	Quarter-End Balance	Weighted-Average Balance During Quarter	Variance	Explanations for Significant Variances
December 31, 2017	5,813,447	5,885,681	(72,234)	(a)
March 31, 2018	5,596,955	5,573,668	23,287	(b)

(a) Variance primarily due to the following: (i) \$188.7 million repaid on Lender 9 Repo 1 throughout the quarter; and (ii) \$59.0 million repaid on Lender 10 Repo 1 in December 2017; partially offset by (iii) \$195.0 million drawn on FHLB throughout the quarter.

(b) Variance primarily due to the following: (i) \$308.3 million drawn on Woodstar II Portfolio Mortgages; partially offset by (ii) \$147.2 million repaid on MBS Repo 2; and (iii) \$112.8 million repaid on Lender 1 Repo 1 throughout the quarter.

Borrowings under Unsecured Senior Notes

During the three months ended March 31, 2018 and 2017, the weighted average effective borrowing rate on our unsecured senior notes was 4.9% and 5.7%, respectively. The effective borrowing rate includes the effects of underwriter purchase discount and the adjustment for the conversion option on the convertible notes, the initial value of which reduced the balance of the notes.

Refer to Note 10 of our Condensed Consolidated Financial Statements for further disclosure regarding the terms of our unsecured senior notes.

Scheduled Principal Repayments on Investments and Overhang on Financing Facilities

The following scheduled and/or projected principal repayments on our investments were based upon the amounts outstanding and contractual terms of the financing facilities in effect as of March 31, 2018 (amounts in thousands):

	Scheduled Principal Repayments on Loans and HTM Securities	Scheduled/Projected Principal Repayments on RMBS and CMBS	Projected/Required Repayments of Financing	Scheduled Principal Inflows Net of Financing Outflows
Second Quarter 2018	\$ 575,848	\$ 24,501	\$ (156,893)	\$ 443,456
Third Quarter 2018	686,201	54,241	(84,511)	655,931
Fourth Quarter 2018	607,375	17,611	(110,768)	514,218
First Quarter 2019	355,680	51,456	(572,493)	(165,357)
Total	\$ 2,225,104	\$ 147,809	\$ (924,665)	\$ 1,448,248

In the normal course of business, the Company is in discussions with its lenders to extend or amend any financing facilities which contain near term expirations.

Table of Contents

Issuances of Equity Securities

We may raise funds through capital market transactions by issuing capital stock. There can be no assurance, however, that we will be able to access the capital markets at any particular time or on any particular terms. We have authorized 100,000,000 shares of preferred stock and 500,000,000 shares of common stock. At March 31, 2018, we had 100,000,000 shares of preferred stock available for issuance and 238,044,838 shares of common stock available for issuance.

Other Potential Sources of Financing

In the future, we may also use other sources of financing to fund the acquisition of our target assets, including other secured as well as unsecured forms of borrowing and sale of certain investment securities which no longer meet our return requirements.

Repurchases of Equity Securities and Convertible Senior Notes

In September 2014, our board of directors authorized and announced the repurchase of up to \$250.0 million of our outstanding common stock over a period of one year. Subsequent amendments to the repurchase program approved by our board of directors in December 2014, June 2015, January 2016 and February 2017 resulted in the program being (i) amended to increase maximum repurchases to \$500.0 million, (ii) expanded to allow for the repurchase of our outstanding convertible senior notes under the program and (iii) extended through January 2019. Purchases made pursuant to the program are made in either the open market or in privately negotiated transactions from time to time as permitted by federal securities laws and other legal requirements. The timing, manner, price and amount of any repurchases are discretionary and will be subject to economic and market conditions, stock price, applicable legal requirements and other factors. The program may be suspended or discontinued at any time. During the three months ended March 31, 2018, we repurchased \$12.1 million of common stock and no convertible senior notes under the repurchase program. As of March 31, 2018, we have \$250.1 million of remaining capacity to repurchase common stock and/or convertible senior notes under the repurchase program.

Table of Contents

Off-Balance Sheet Arrangements

We have relationships with unconsolidated entities and financial partnerships, such as entities often referred to as VIEs. Our maximum risk of loss associated with our involvement in VIEs is limited to the carrying value of our investment in the entity and any unfunded capital commitments. Refer to Note 14 of our Condensed Consolidated Financial Statements for further discussion.

Dividends

We intend to continue to make regular quarterly distributions to holders of our common stock. U.S. federal income tax law generally requires that a REIT distribute annually at least 90% of its REIT taxable income, without regard to the deduction for dividends paid and excluding net capital gains, and that it pay tax at regular corporate rates to the extent that it annually distributes less than 100% of its net taxable income. We intend to continue to pay regular quarterly dividends to our stockholders in an amount approximating our net taxable income, if and to the extent authorized by our board of directors. Before we pay any dividend, whether for U.S. federal income tax purposes or otherwise, we must first meet both our operating and debt service requirements. If our cash available for distribution is less than our net taxable income, we could be required to sell assets or borrow funds to make cash distributions or we may make a portion of the required distribution in the form of a taxable stock distribution or distribution of debt securities. Refer to our Form 10-K for a detailed dividend history.

The Company's board of directors declared the following dividend during the three months ended March 31, 2018:

Declare Date	Record Date	Payment Date	Amount	Frequency
2/28/18	3/30/18	4/13/18	\$ 0.48	Quarterly

On May 4, 2018, our board of directors declared a dividend of \$0.48 per share for the second quarter of 2018, which is payable on July 13, 2018 to common stockholders of record as of June 29, 2018.

Leverage Policies

Our strategies with regards to use of leverage have not changed significantly since December 31, 2017. Refer to our Form 10-K for a description of our strategies regarding use of leverage.

Table of Contents

Contractual Obligations and Commitments

Contractual obligations as of March 31, 2018 are as follows (amounts in thousands):

	Total	Less than 1 year	1 to 3 years	3 to 5 years	More than 5 years
Secured financings (a)	\$ 5,596,955	\$ 301,386	\$ 1,773,264	\$ 503,782	\$ 3,018,523
Unsecured senior notes	2,291,363	341,363	500,000	700,000	750,000
Secured borrowings on transferred loans (b)	75,000	—	75,000	—	—
Loan funding commitments (c)	1,441,174	724,870	644,625	71,679	—
Future lease commitments	32,146	6,649	11,700	1,977	11,820
Total	\$ 9,436,638	\$ 1,374,268	\$ 3,004,589	\$ 1,277,438	\$ 3,780,343

- (a) Represents the contractual maturity of the respective credit facility, inclusive of available extension options. If investments that have been pledged as collateral repay earlier than the contractual maturity of the debt, the related portion of the debt would likewise require earlier repayment.
- (b) These amounts relate to financial asset sales that were required to be accounted for as secured borrowings. As a result, the assets we sold remain on our consolidated balance sheet for financial reporting purposes. Such assets are expected to provide match funding for these liabilities.
- (c) Excludes \$243.7 million of loan funding commitments in which management projects the Company will not be obligated to fund in the future due to repayments made by the borrower either earlier than, or in excess of, expectations.

The table above does not include interest payable, amounts due under our management agreement or amounts due under our derivative agreements as those contracts do not have fixed and determinable payments.

Critical Accounting Estimates

Refer to the section of our Form 10-K entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Estimates” for a full discussion of our critical accounting estimates. Our critical accounting estimates have not materially changed since December 31, 2017.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We seek to manage our risks related to the credit quality of our assets, interest rates, liquidity, prepayment speeds and market value while, at the same time, seeking to provide an opportunity to stockholders to realize attractive risk-adjusted returns through ownership of our capital stock. While we do not seek to avoid risk completely, we believe the risk can be quantified from historical experience and seek to actively manage that risk, to earn sufficient compensation to justify taking those risks and to maintain capital levels consistent with the risks we undertake. Our strategies for managing risk and our exposure to such risks have not changed materially since December 31, 2017. Refer to our Form 10-K, Item 7A for further discussion.

Credit Risk

Our loans and investments are subject to credit risk. The performance and value of our loans and investments depend upon the owners' ability to operate the properties that serve as our collateral so that they produce cash flows adequate to pay interest and principal due to us. To monitor this risk, our Manager's asset management team reviews our investment portfolios and is in regular contact with our borrowers, monitoring performance of the collateral and enforcing our rights as necessary.

Table of Contents

We seek to further manage credit risk associated with our Investing and Servicing Segment loans held-for-sale through the purchase of credit index instruments. The following table presents our credit index instruments as of March 31, 2018 and December 31, 2017 (dollars in thousands):

	Face Value of Loans Held-for-Sale	Aggregate Notional Value of Credit Index Instruments	Number of Credit Index Instruments
March 31, 2018	\$ 60,850	\$ 49,000	8
December 31, 2017	\$ 132,393	\$ 49,000	8

Capital Market Risk

We are exposed to risks related to the equity capital markets, and our related ability to raise capital through the issuance of our common stock or other equity instruments. We are also exposed to risks related to the debt capital markets, and our related ability to finance our business through borrowings under repurchase obligations or other debt instruments. As a REIT, we are required to distribute a significant portion of our taxable income annually, which constrains our ability to accumulate operating cash flow and therefore requires us to utilize debt or equity capital to finance our business. We seek to mitigate these risks by monitoring the debt and equity capital markets to inform our decisions on the amount, timing, and terms of capital we raise.

Interest Rate Risk

Interest rates are highly sensitive to many factors, including fiscal and monetary policies and domestic and international economic and political considerations, as well as other factors beyond our control. We are subject to interest rate risk in connection with our investments and the related financing obligations. In general, we seek to match the interest rate characteristics of our investments with the interest rate characteristics of any related financing obligations such as repurchase agreements, bank credit facilities, term loans, revolving facilities and securitizations. In instances where the interest rate characteristics of an investment and the related financing obligation are not matched, we mitigate such interest rate risk through the utilization of interest rate derivatives of the same duration. The following table presents financial instruments where we have utilized interest rate derivatives to hedge interest rate risk and the related interest rate derivatives as of March 31, 2018 and December 31, 2017 (dollars in thousands):

Face Value of	Aggregate Notional Value of Interest	Number of Interest
---------------	---	--------------------

Edgar Filing: STARWOOD PROPERTY TRUST, INC. - Form 10-Q

	Hedged Instruments	Rate Derivatives	Rate Derivatives
Instrument hedged as of March 31, 2018

	\$ 2,150,562	\$ 1,761,780	35

Table of Contents

The following table summarizes the estimated annual change in net investment income for our LIBOR-based investments and our LIBOR-based debt assuming increases or decreases in LIBOR and adjusted for the effects of our interest rate hedging activities (amounts in thousands, except per share data):

	Variable-rate investments and indebtedness	3.0%	2.0%	1.0%	1.0%
Income (Expense) Subject to Interest Rate Sensitivity	(1)	Increase	Increase	Increase	Decrease (2)
Investment income from variable-rate investments	\$ 5,980,323	\$ 177,204	\$ 118,087	\$ 58,970	\$ (49,182)
Interest expense from variable-rate debt, net of interest rate derivatives	(3,911,879)	(124,204)	(84,906)	(43,840)	44,046
Net investment income from variable rate instruments	\$ 2,068,444	\$ 53,000	\$ 33,181	\$ 15,130	\$ (5,136)
Impact per diluted shares outstanding		\$ 0.20	\$ 0.13	\$ 0.06	\$ (0.02)

(1) Includes the notional value of interest rate derivatives.

(2) Assumes LIBOR does not go below 0%.

Foreign Currency Risk

We intend to hedge our currency exposures in a prudent manner. However, our currency hedging strategies may not eliminate all of our currency risk due to, among other things, uncertainties in the timing and/or amount of payments received on the related investments, and/or unequal, inaccurate, or unavailable hedges to perfectly offset changes in future exchange rates. Additionally, we may be required under certain circumstances to collateralize our currency hedges for the benefit of the hedge counterparty, which could adversely affect our liquidity.

Consistent with our strategy of hedging foreign currency exposure on certain investments, we typically enter into a series of forwards to fix the U.S. dollar amount of foreign currency denominated cash flows (interest income, rental income and principal payments) we expect to receive from our foreign currency denominated investments. Accordingly, the notional values and expiration dates of our foreign currency hedges approximate the amounts and timing of future payments we expect to receive on the related investments.

The following table represents our current currency hedge exposure as it relates to our investments denominated in foreign currencies, along with the aggregate notional amount of the hedges in place (amounts in thousands except for number of contracts, using the March 31, 2018 GBP closing rate of 1.4015 and Euro ("EUR") closing rate of 1.2324):

Carrying Value of Net Investment	Local Currency	Number of Foreign Exchange Contracts	Aggregate Notional Value of Hedges Applied	Expiration Range of Contracts
\$ 59,438	GBP	65	\$ 62,775	April 2018 – June 2019
—	EUR	5	3,854	April 2018
32,613	EUR	11	41,945	May 2018 – March 2022
48,305	GBP	14	77,751	May 2018 – July 2020
428	GBP	3	1,080	June 2018 – March 2019
146,869	EUR	27	(1) 275,080	June 2018 – June 2020
30,563	GBP	15	42,341	June 2018 – December 2021
58,237	GBP	45	88,899	May 2018 – November 2021
13,322	GBP	5	13,642	June 2018 – April 2019
\$ 389,775		190	\$ 607,367	

(1) These foreign exchange contracts hedge our EUR currency exposure created by our acquisition of the Ireland Portfolio.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures. We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer, as appropriate, to allow timely decisions regarding required disclosures.

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting. No change in internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) occurred during the quarter ended March 31, 2018 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

Currently, no material legal proceedings are pending or, to our knowledge, threatened or contemplated against us, that could have a material adverse effect on our business, financial position or results of operations.

Item 1A. Risk Factors.

There have been no material changes to the risk factors previously disclosed in the Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the three months ended March 31, 2018, certain third parties (the “Contributors”) contributed properties to SPT Dolphin Intermediate LLC (“SPT Dolphin”), a subsidiary of the Company, as the second phase of its acquisition of the Woodstar II Portfolio, as described further in Note 3 to the Condensed Consolidated Financial Statements. Among other consideration, the Contributors (the “Class A Unitholders”) received 6,979,089 Class A units of SPT Dolphin (the “Class A Units”) and rights to receive an additional 1,301,414 Class A Units if certain contingent events occur.

The Class A Unitholders have the right, commencing six months from issuance, to redeem their Class A Units for cash or, in the sole discretion of the Company, shares of the Company’s common stock on a one-for-one basis, subject to certain anti-dilution adjustments. In connection with the issuance of the Class A Units, the Class A Unitholders received certain registration rights with respect to the shares of the Company’s common stock, if any, issued upon the redemption of Class A Units.

The Class A Units issued in connection with the closing of the first and second phases of the transaction were issued in reliance on the exemption from registration provided by Section 4(a)(2) of the Securities Act of 1933.

Issuer Purchases of Equity Securities

The following table provides information regarding our purchases of common stock during the quarter ended March 31, 2018:

Period	Total number of shares purchased	Average repurchase price per share	Number of shares purchased as part of publicly announced program (1)	Value of shares available for purchase under the program (in thousands)
March 2018	573,255	\$ 21.07	573,255	\$ 250,120

(1) Our board of directors has authorized the repurchase of up to \$500.0 million of our outstanding common stock and convertible notes through January 2019.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.
