(In thousands, unless otherwise noted)

1. BACKGROUND AND BASIS OF PRESENTATION

Background

CommScope Holding Company, Inc., along with its direct and indirect subsidiaries (CommScope or the Company), is a global provider of infrastructure solutions for the core, access and edge layers of communication networks. The Company's solutions and services for wired and wireless networks enable high-bandwidth data, video and voice applications. CommScope's global leadership position is built upon innovative technology, broad solution offerings, high-quality and cost-effective customer solutions, and global manufacturing and distribution scale.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements reflect all adjustments of a normal, recurring nature that are, in the opinion of management, necessary for a fair presentation of the interim period financial statements. The results of operations for these interim periods are not necessarily indicative of the results of operations to be expected for any future period or the full fiscal year. Certain prior year amounts have been reclassified to conform to the current year presentation.

The unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP) for interim financial information and are presented in accordance with the applicable requirements of Regulation S-X. Accordingly, these financial statements do not include all of the information and notes required by U.S. GAAP for complete financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2017 (the 2017 Annual Report).

The significant accounting policies followed by the Company are set forth in Note 2 within the Company's audited consolidated financial statements included in the 2017 Annual Report. Other than the changes described below to revenue recognition policies as a result of the adoption of Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers, there were no material changes in the Company's significant accounting policies during the three or nine months ended September 30, 2018.

Revenue Recognition

The Company recognizes revenue based on the satisfaction of distinct obligations to transfer goods and services to customers. The majority of the Company's revenue is from product sales. Revenue from product sales is recognized when control is transferred to the customer, typically upon either shipment or delivery. A minor portion of the Company's revenue is derived from project contracts containing a combination of product and service obligations. Revenue from project contracts is recognized either at a point in time or over time using cost input methods, based on

the specific terms of each contract.

For project contracts containing multiple distinct performance obligations, the transaction price is allocated based on the relative standalone estimated selling price of each performance obligation. The relative standalone selling price is determined using current price lists and observable pricing in separate contracts with similar customers. For performance obligations recognized over-time, judgment is required to evaluate assumptions, including the total estimated costs to determine progress towards completion of the performance obligation and to calculate the corresponding amount of revenue to recognize. If estimated total costs on any contract are greater than the net contract revenues, the entire estimated loss is recognized in the period the loss becomes known. The cumulative effects on revenue from revisions to total estimated costs are recorded in the period in which the revisions to estimates are identified and the amounts can be reasonably estimated.

The Company also recognizes revenue from other customer contract types, including licensing of intellectual property, software licensing and post-contract support (PCS) which may be sold as part of a bundled product offering or as a separate contract. For bundled product arrangements, the transaction price is allocated based on the relative standalone estimated selling price of each performance obligation. Distinct intellectual property obligations, including software, are considered functional in nature and are recognized as revenue at the point in time the customer receives the rights to use and benefit from the intellectual property or are determined using a usage-based royalty. PCS obligations are typically recognized over the term of the contract.

6

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

Revenue is measured based on the consideration to which the Company expects to be entitled, based on customer contracts. For sales to distributors, system integrators and value-added resellers (primarily for the CommScope Connectivity Solutions (CCS) segment), revenue is adjusted for variable consideration amounts, including estimated discounts, returns, rebates and distributor price protection programs. These estimates are determined based upon historical experience, contract terms, inventory levels in the distributor channel and other related factors. Adjustments to variable consideration estimates are recorded when circumstances indicate revisions may be necessary.

The Company records a contract asset for unbilled accounts receivable related to revenue that has been recognized in advance of consideration being unconditionally due from the customer, which is common for certain project contract performance obligations. Contract asset amounts are transferred to accounts receivable when the Company's right to the consideration becomes unconditional, which varies by contract, but is generally based on achieving certain acceptance milestones.

A contract liability for deferred revenue is recorded when consideration is received or is unconditionally due from a customer prior to transferring control of goods or services to the customer under the terms of a contract. Deferred revenue balances typically result from advance payments received from customers for product contracts or from billings in excess of revenue recognized on project or services arrangements.

The Company includes shipping and handling costs billed to customers in net sales and includes the costs incurred to transport product to customers as cost of sales. Shipping and handling costs incurred after control is transferred to the customer are accounted for as fulfillment costs and are not accounted for as separate revenue obligations.

Concentrations of Risk and Related Party Transactions

Net sales to Anixter International Inc. and its affiliates (Anixter) accounted for 11% of the Company's total net sales during both the three and nine months ended September 30, 2018. Net sales to Anixter accounted for 12% and 11% of the Company's total net sales during the three and nine months ended September 30, 2017, respectively. Sales to Anixter primarily originate within the CCS segment. Other than Anixter, no direct customer accounted for 10% or more of the Company's total net sales for the three or nine months ended September 30, 2018 or 2017.

Accounts receivable from Anixter accounted for 12% of the Company's accounts receivable as of September 30, 2018. Other than Anixter, no direct customer accounted for 10% or more of the Company's accounts receivable as of September 30, 2018.

Product Warranties

The Company recognizes a liability for the estimated claims that may be paid under its customer warranty agreements to remedy potential deficiencies of quality or performance of the Company's products. These product warranties extend over periods ranging from one to twenty-five years from the date of sale, depending upon the product subject to the warranty. The Company records a provision for estimated future warranty claims as cost of sales based upon the historical relationship of warranty claims to sales and specifically identified warranty issues. The Company bases its estimates on assumptions that are believed to be reasonable under the circumstances and revises its estimates, as appropriate, when events or changes in circumstances indicate that revisions may be necessary. Such revisions may be

material.

The following table summarizes the activity in the product warranty accrual, included in other accrued liabilities:

	Three Months		Nine Months Ended	
	Ended		September 30,	
	September 30,	September 30,	September 30,	September 30,

7

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

Commitments and Contingencies

The Company is either a plaintiff or a defendant in certain pending legal matters in the normal course of business. The Company may also be called upon to indemnify certain customers for costs related to products or services sold to such customers. Management believes none of these legal matters will have a material adverse effect on the Company's business or financial condition upon final disposition.

In addition, the Company is subject to various federal, state, local and foreign laws and regulations governing the use, discharge, disposal and remediation of hazardous materials. Compliance with current laws and regulations has not had, and is not expected to have, a materially adverse effect on the Company's financial condition or results of operations.

Asset Impairments

Goodwill is tested for impairment annually or at other times if events have occurred or circumstances exist that indicate the carrying value of the reporting unit may exceed its fair value. During the three months ended September 30, 2018, through the annual planning process, the Company determined that an indicator of impairment existed for certain reporting units as a result of reductions in expected sales and operating income. The Company performed a step one goodwill impairment test as of September 30, 2018, and all reporting units passed step one. The Company identified no goodwill impairments during the three or nine months ended September 30, 2018 or 2017.

Property, plant and equipment and intangible assets with finite lives are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of the assets may not be recoverable, based on the undiscounted cash flows expected to be derived from the use and ultimate disposition of the assets. Assets identified as impaired are carried at estimated fair value. Equity investments without readily determinable fair values are evaluated each reporting period for impairment based on a qualitative assessment and are then measured at fair value if an impairment is determined to exist. Other than certain assets impaired as a result of restructuring actions, there were no definite-lived intangible or other long-lived asset impairments identified during the three or nine months ended September 30, 2018 or 2017.

Income Taxes

On December 22, 2017, the United States (U.S.) government enacted tax reform legislation that reduced the corporate income tax rate from 35% to 21% and included a broad range of complex provisions affecting the taxation of businesses. Generally, financial statement recognition of the new legislation would be required to be completed in the period of enactment; however, in response to the complexities of this new legislation, the Securities and Exchange Commission (SEC) staff issued Staff Accounting Bulletin No. 118 to provide companies with transitional relief. Specifically, when the initial accounting for items under the new legislation is incomplete, the guidance allows the recognition of provisional amounts when reasonable estimates can be made or the continued application of the prior tax law if a reasonable estimate of the effect cannot be made. The SEC staff has provided up to one year from the date of enactment for companies to finalize the accounting for the effects of this new legislation. During the three and nine months ended September 30, 2018, the Company recognized a \$2.5 million tax benefit related to changes made to the provisional amounts, primarily related to the Company's transition tax and from revaluing the Company's U.S. deferred

tax assets and liabilities. The Company expects to continue to refine the calculations as additional analysis is completed and as additional guidance and interpretations are available. Any changes made could be material to income tax expense.

The effective income tax rate of 2.7% for the three months ended September 30, 2018 was lower than the statutory rate of 21.0% due to a reduction in tax expense of \$24.1 million related to the expiration of statutes of limitations on various uncertain tax positions. The effective income tax rate of 23.9% for the nine months ended September 30, 2018 was higher than the statutory rate of 21.0% primarily due to the effect of the provision for state income taxes, the impact of earnings in foreign jurisdictions that are taxed at rates higher than the U.S. statutory rate, the impact of the new U.S. anti-deferral provisions and the impact of repatriation taxes. These increases to the effective tax rate were partially offset by a reduction in tax expense related to the expiration of statutes of limitations on various uncertain tax positions discussed above and the favorable impact of \$4.7 million of excess tax benefits related to equity-based compensation awards for the nine months ended September 30, 2018.

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

The effective income tax rate of 24.8% and 23.6% for the three and nine months ended September 30, 2017, respectively, was lower than the statutory rate of 35.0% primarily due to a reduction in tax expense related to the expiration of statutes of limitations on various uncertain tax positions. In addition, the effective income tax rate was favorably impacted by \$0.4 million and \$13.5 million of excess tax benefits related to equity-based compensation awards for the three and nine months ended September 30, 2017, respectively. Offsetting these decreases for the three and nine months ended September 30, 2017 was the effect of the provision for state income taxes.

Earnings Per Share

Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share is based on net income divided by the weighted average number of common shares outstanding plus the effect of potentially dilutive common shares using the treasury stock method. Potentially dilutive common shares include outstanding equity-based awards (stock options, restricted stock units and performance share units). Certain outstanding equity-based awards were not included in the computation of diluted earnings per share because the effect was either antidilutive or the performance conditions were not met (2.5 million shares and 1.8 million shares for the three and nine months ended September 30, 2018, respectively, and 1.7 million shares and 1.3 million shares for the three and nine months ended September 30, 2017, respectively).

The following table presents the basis for the earnings per share computations (in thousands, except per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Numerator:				
Net income for basic and diluted earnings per share	\$63,843	\$51,157	\$163,500	\$140,183

Earnings per share:				
Basic	\$0.33	\$0.27	\$0.85	\$0.73
Diluted	\$0.33	\$0.26	\$0.84	\$0.71

Recent Accounting Pronouncements

Adopted During the Nine Months Ended September 30, 2018

The Company adopted ASU No. 2014-09, Revenue from Contracts with Customers, including all subsequently issued clarifying guidance, on January 1, 2018. The core principle of the new guidance is to recognize revenue when promised goods or services are transferred to customers in an amount that reflects the consideration that is expected to

be received for those goods or services. The Company adopted the standard using the modified retrospective approach with the cumulative effect of applying the standard on the date of adoption recognized in retained earnings (accumulated deficit).

Revenue recognition for the Company's product sales remained generally consistent with historical practice. However, the adoption of ASU No. 2014-09 resulted in acceleration of revenue recognition for certain project contracts containing integrated product and service obligations, primarily within the CommScope Mobility Solutions (CMS) segment. These multi-element contracts represented less than 2.0% of total net sales for the three and nine months ended September 30, 2018 and 2017. For these contracts, certain performance obligations are recognized over time using cost-based input methods, which recognize revenue and cost of sales based on the relationship between actual costs incurred compared to the total estimated cost for the performance obligation. Based on contracts in effect at January 1, 2018, the Company recorded a cumulative effect adjustment, net of tax, of \$3.4 million, which reduced the

9

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

accumulated deficit on the Condensed Consolidated Balance Sheets. This adjustment reflects an acceleration of revenues of \$8.0 million.

The impact of adoption of the new revenue recognition standard on the condensed consolidated financial statements was as follows:

	Three Months Ended September 30, 2018			Nine Months Ended September 30, 2018		
	As Reported	Amounts Without Adoption of ASU No. 2014-09	Effect of Change Increase / (Decrease)	As Reported	Amounts Without Adoption of ASU No. 2014-09	Effect of Change Increase / (Decrease)
Net sales	\$1,150,405	\$1,148,956	\$ 1,449	\$3,510,778	\$3,511,013	\$ (235)

Equity:			
Retained earnings (accumulated deficit)	(226,494)	(229,235)	2,741

The Company adopted ASU No. 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities, on January 1, 2018. This new guidance modifies how entities measure equity investments (except those accounted for under the equity method of accounting) and present changes in the fair value of financial liabilities; simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a

qualitative assessment to identify impairment; changes presentation and disclosure requirements; and clarifies that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets. Adoption of this new guidance did not have a material impact on the consolidated financial statements.

The Company adopted ASU No. 2016-16, Accounting for Income Taxes, Intra-Entity Asset Transfers of Assets Other than Inventory, on January 1, 2018. Under previous guidance, the tax effects of intra-entity asset transfers were deferred until the transferred asset was sold to a third party or otherwise recovered through use. The new guidance eliminates the exception for all intra-entity sales of assets other than inventory. As a result, the tax effect of an intra-entity asset sale would be recognized when the transfer occurs. The Company recorded a cumulative effect adjustment of \$2.6 million as of January 1, 2018 that decreased the accumulated deficit on the Condensed Consolidated Balance Sheets as a result of this new guidance.

10

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

The Company adopted ASU No. 2017-07, Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, on January 1, 2018. The new standard requires an employer to report the service cost component of net periodic benefit cost in the same line item as other compensation costs arising from services rendered by the employee and requires the other components of net periodic benefit cost to be reported outside the subtotal of operating income. Of the total \$1.3 million of net periodic benefit income for the three months ended September 30, 2018, \$2.3 million of net periodic benefit income was recorded in other income (expense), net, and \$1.0 million of net periodic benefit cost was recorded within operating income. Of the total \$3.8 million of net periodic benefit income for the nine months ended September 30, 2018, \$6.9 million of net periodic benefit income was recorded in other income (expense), net, and \$3.2 million of net periodic benefit cost was recorded within operating income. The Company utilized the practical expedient and used the amounts disclosed in its employee benefit plans note for the three and nine months ended September 30, 2018 as the basis for applying the retrospective presentation requirements. The Company reclassified \$1.4 million and \$4.2 million of net periodic benefit income from operating income to other income (expense), net for the three and nine months ended September 30, 2017, respectively. The adoption of this guidance had no impact on the previously reported income before income taxes or net income for the three or nine months ended September 30, 2017.

The Company adopted ASU No. 2017-12, Targeted Improvements to Accounting for Hedging Activities, on January 1, 2018. The new guidance provides targeted improvements to the hedge accounting model intended to allow financial reporting to more closely reflect an entity's risk management activities and to simplify the application of hedge accounting. Beginning January 1, 2018, the Company has elected to assess the effectiveness of its net investment hedges using the spot rate method. As a result, differences between the spot rate and the forward rate will be amortized on a straight-line basis to other income (expense), net over the life of the contract. See Note 6 for the details on the impact of this change to the financial statements.

Issued but Not Adopted

In August 2018, the Financial Accounting Standards Board (FASB) issued ASU No. 2018-15, Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement (CCA) that is a Service Contract, which aligns the accounting for costs incurred to implement a CCA that is a service arrangement with the guidance on capitalizing costs associated with developing or obtaining internal-use software. ASU No. 2018-15 is effective for the Company as of January 1, 2020 and early adoption is permitted. The Company is evaluating the impact of the new guidance on the consolidated financial statements and when it will be adopted.

In August 2018, the FASB issued ASU No. 2018-14, Disclosure Framework: Changes to the Disclosure Requirements for Defined Benefit Plans, which adds disclosure requirements identified as relevant for employers that sponsor defined benefit pension or other postretirement plans, removes disclosures that are no longer considered cost beneficial, and clarifies existing guidance for certain disclosure requirements. ASU No. 2018-14 is effective for the Company as of January 1, 2021 and early adoption is permitted. The Company does not expect the new guidance to have a significant impact on the consolidated financial statements.

In February 2018, the FASB issued ASU No. 2018-02, Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income, which allows companies to elect reclassification from accumulated other comprehensive income to retained earnings for certain tax effects resulting from the U.S. tax legislation enacted in

2017. ASU No. 2018-02 is effective for the Company as of January 1, 2019 and early adoption is permitted. The Company does not expect to elect the permitted reclassification and therefore does not expect the new guidance to have an impact on the consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-04, Simplifying the Test of Goodwill Impairment, which eliminates Step 2 from the goodwill impairment test. Under the new guidance, an entity will perform its annual or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity will recognize a goodwill impairment charge for the excess of the reporting unit's carrying amount over its fair value, up to the amount of goodwill allocated to that reporting unit. ASU No. 2017-04 is effective for the Company as of January 1, 2020 and early adoption is permitted. The Company is evaluating the impact of the new guidance on the consolidated financial statements and when it will be adopted.

In June 2016, the FASB issued ASU No. 2016-13, Measurement of Credit Losses on Financial Instruments. The new guidance replaces the current incurred loss method used for determining credit losses on financial assets, including trade receivables, with an expected credit loss method. ASU No. 2016-13 is effective for the Company as of January 1, 2020 and early adoption is permitted. The Company is evaluating the impact of the new guidance on the consolidated financial statements and when it will be adopted.

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

In February 2016, the FASB issued ASU No. 2016-02, Leases, which supersedes the current leasing guidance in Topic 840, Leases. Under the new guidance, lessees are required to recognize assets and lease liabilities for the rights and obligations created by leased assets previously classified as operating leases. ASU No. 2016-02 is effective for the Company as of January 1, 2019. In July 2018, the FASB issued ASU No. 2018-11, which allows entities a transition election to change the date of initial application of the standard to the beginning of the year of adoption and to recognize the effects of applying Topic 842 as a cumulative-effect adjustment to retained earnings (accumulated deficit) as opposed to restating comparative periods for the effects of applying the new standard. The Company expects to elect this transition approach. The Company is in the process of implementing the necessary changes to its accounting policies, processes, internal controls and information systems that will be required to meet the new standard's reporting and disclosure requirements. The Company continues to assess the impact of adoption on the consolidated financial statements but expects the only significant impact of the ASU to be the recognition of right-of-use assets and lease liabilities for operating leases.

2. ACQUISITIONS

On August 1, 2017, the Company acquired Cable Exchange in an all cash transaction. The Company paid \$108.7 million (\$105.2 million net of cash acquired) and recorded a \$14.5 million liability for the remaining payments due. Cable Exchange is a quick-turn supplier of fiber optic and copper assemblies for data, voice and video communications. Net sales of Cable Exchange products are reflected in the CCS segment for the three and nine months ended September 30, 2018 and 2017 and were not material.

The allocation of the purchase price, based on estimates of the fair values of the assets acquired and liabilities assumed, is as follows (in millions):

	Estimated Fair Value
Cash and cash equivalents	\$ 3.5
Accounts receivable	6.4
Inventory	4.4
Property, plant and equipment	0.9
Goodwill	49.6
Identifiable intangible assets	61.1
Less: Liabilities assumed	(2.7)
Net acquisition cost	\$ 123.2

The goodwill arising from the purchase price allocation of the Cable Exchange acquisition is believed to result from the Company's reputation in the marketplace and assembled workforce and is expected to be deductible for income tax purposes.

3. GOODWILL

The following table presents goodwill by reportable segment (in millions):

	CCS	CMS	Total
Goodwill, gross at December 31, 2017	\$2,193.2	\$904.4	\$3,097.6
Foreign exchange	(26.0)	(2.0)	(28.0)
Goodwill, gross at September 30, 2018	2,167.2	902.4	3,069.6
Accumulated impairment charges at December 31, 2017			
and September 30, 2018	(51.5)	(159.5)	(211.0)
Goodwill, net at September 30, 2018	\$2,115.7	\$742.9	\$2,858.6

Less: Debt issuance costs, net of amortization	(50,849)	(63,460)
Total long-term debt	\$ 3,983,790	\$ 4,369,401

See Note 6 in the Notes to Consolidated Financial Statements in the 2017 Annual Report for additional information on the terms and conditions of the Company's debt obligations.

Senior Secured Credit Facilities

In July 2018, the Company repaid \$400.0 million of its senior secured term loan due 2022 (the 2022 Term Loan). The payment was made using \$250.0 million of cash on hand and \$150.0 million borrowed under the Company's asset-based revolving credit facility (the revolving credit facility). In connection with this voluntary repayment, \$7.4 million of original issue discount and debt issuance costs were written off and included in interest expense.

In August 2018, the Company repaid \$100.0 million of the \$150.0 million borrowed under the revolving credit facility and in September 2018, the Company repaid the remaining \$50.0 million borrowed under the revolving credit facility. As of September 30, 2018, the Company had availability of \$521.6 million under the revolving credit facility, after giving effect to borrowing base limitations and outstanding letters of credit.

No portion of the 2022 Term Loan was reflected as a current portion of long-term debt as of September 30, 2018 related to the potentially required excess cash flow payment because the amount that may be payable in 2019, if any, cannot currently be reliably estimated. There was no excess cash flow payment required in 2018 related to 2017.

Other Matters

The Company's non-guarantor subsidiaries held \$2,411 million, or 36%, of total assets and \$486 million, or 10%, of total liabilities as of September 30, 2018 and accounted for \$453 million, or 39%, and \$1,388 million, or 40%, of net sales for the three and nine months ended September 30, 2018, respectively. As of December 31, 2017, the non-guarantor subsidiaries held \$2,587 million, or 37%, of total assets and \$569 million, or 11%, of total liabilities. For the three and nine months ended September 30, 2017, the non-guarantor subsidiaries accounted for \$494 million, or 44%, and \$1,405 million, or 41%, of net sales, respectively. All amounts presented exclude intercompany balances.

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

The weighted average effective interest rate on outstanding borrowings, including the amortization of debt issuance costs and original issue discount, was 5.70% and 5.45% at September 30, 2018 and December 31, 2017, respectively.

6. DERIVATIVES AND HEDGING ACTIVITIES

Derivatives Not Designated As Hedging Instruments

The Company uses forward contracts to hedge a portion of its balance sheet foreign exchange re-measurement risk and to hedge certain planned foreign currency expenditures. As of September 30, 2018, the Company had foreign exchange contracts outstanding with maturities of up to twelve months and aggregate notional values of \$331 million (based on exchange rates as of September 30, 2018). Unrealized gains and losses resulting from these contracts are recognized in other income (expense), net and partially offset corresponding foreign exchange gains and losses on the balances and expenditures being hedged. These instruments are not held for speculative or trading purposes, are not designated as hedges for hedge accounting purposes and are marked to market each period through earnings.

The following table presents the balance sheet location and fair value of the Company's derivatives not designated as hedging instruments:

	Balance Sheet Location	Fair Value of Asset (Liability)	
		September 30, 2018	December 31, 2017
Foreign currency contracts	Prepaid expenses and other current assets	\$ 1,542	\$ 9,050
Foreign currency contracts	Other accrued liabilities	(6,574)	(574)
Total derivatives not designated as hedging instruments		\$ (5,032)	\$ 8,476

The pretax impact of these foreign currency forward contracts, both matured and outstanding, on the Condensed Consolidated Statements of Operations and Comprehensive Income is as follows:

		Gain (Loss)
Foreign Currency Forward Contracts	Location of Gain (Loss)	Recognized
Three Months Ended September 30, 2018	Other income (expense), net	\$ (4,902)
Three Months Ended September 30, 2017	Other income (expense), net	\$ 8,458
Nine Months Ended September 30, 2018	Other income (expense), net	\$ (12,463)
Nine Months Ended September 30, 2017	Other income (expense), net	\$ 22,866

Derivative Instruments Designated As Net Investment Hedge

The Company has a hedging strategy to designate certain foreign exchange contracts as net investment hedges to mitigate a portion of the foreign currency risk on the euro net investment in a foreign subsidiary. As of September 30, 2018, the Company held designated forward contracts with outstanding maturities of up to fifteen months and an

aggregate notional value of \$55 million.

In the first quarter of 2018, the Company changed the method used to assess the effectiveness of its net investment hedges from the forward rate method to the spot rate method. The Company believes the spot rate method better aligns with the underlying foreign currency exposure of the hedged net investment. Effective January 1, 2018, the spot-forward differences of the designated forward contracts are excluded from hedge effectiveness at inception and are recognized on a straight-line basis to other income (expense), net over the life of each contract. The amortization of the spot-forward differences was not material for the three or nine months ended September 30, 2018.

Hedge effectiveness is assessed each quarter based on the net investment in the foreign subsidiary designated as the hedged item and the changes in the fair value of designated forward contracts based on spot rates. For hedges that meet the effectiveness requirements, changes in fair value are recorded as a component of other comprehensive income (loss), net of tax. As of September 30, 2018, there was no ineffectiveness on the instruments designated as net investment hedges.

16

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

The following table presents the balance sheet location and fair value of the derivative instruments designated as net investment hedges:

	Balance Sheet Location	Fair Value of Asset (Liability)	
		September 30, 2018	December 31, 2017
Foreign currency contracts	Prepaid expenses and other current assets	\$2,197	\$ —
Foreign currency contracts	Other noncurrent assets	67	—
Foreign currency contracts	Other accrued liabilities	—	(403)
Total derivatives designated as net investment hedging instruments		\$2,264	\$ (403)

The after-tax impact of the forward contracts designated as net investment hedging instruments, both matured and outstanding, on the Condensed Consolidated Statements of Operations and Comprehensive Income is as follows:

	Location of Gain (Loss)	Effective Portion of Gain (Loss) Recognized
Foreign Currency Forward Contracts		
Three Months Ended September 30, 2018	Other comprehensive income (loss), net of tax	\$ 192
Three Months Ended September 30, 2017	Other comprehensive income (loss), net of tax	\$ (1,471)
Nine Months Ended September 30, 2018	Other comprehensive income (loss), net of tax	\$ 2,645
Nine Months Ended September 30, 2017	Other comprehensive income (loss), net of tax	\$ (4,822)

7. FAIR VALUE MEASUREMENTS

The Company's financial instruments consist primarily of cash and cash equivalents, trade receivables, trade payables, debt instruments and foreign currency contracts. For cash and cash equivalents, trade receivables and trade payables, the carrying amounts of these financial instruments as of September 30, 2018 and December 31, 2017 were considered representative of their fair values due to their short terms to maturity. The fair values of the Company's debt instruments and foreign currency contracts were based on indicative quotes.

Fair value measurements using quoted prices in active markets for identical assets and liabilities fall within Level 1 of the fair value hierarchy, measurements using significant other observable inputs fall within Level 2, and measurements using significant unobservable inputs fall within Level 3.

Edgar Filing: CommScope Holding Company, Inc. - Form 10-Q

The carrying amounts, estimated fair values and valuation input levels of the Company's foreign currency contracts and debt instruments as of September 30, 2018 and December 31, 2017, are as follows:

	September 30, 2018		December 31, 2017		Valuation Inputs
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	
Assets:					
Foreign currency contracts	\$3,806	\$3,806	\$9,050	\$9,050	Level 2
Liabilities:

These fair value estimates are based on pertinent information available to management as of the valuation date. Although management is not aware of any factors that would significantly affect these fair value estimates, such amounts have not been comprehensively revalued for purposes of these financial statements since those dates, and current estimates of fair value may differ significantly from the amounts presented.

8. SEGMENTS AND GEOGRAPHIC INFORMATION

The CommScope Connectivity Solutions (CCS) segment provides innovative fiber optic and copper cable and connectivity solutions for use in data centers and business enterprise, telecommunications, cable television and residential broadband networks. The CCS portfolio includes solutions for indoor and outdoor network applications. Indoor network solutions are found in commercial buildings and in the network core, which includes data centers, central offices and cable television headends. These solutions include optical fiber and twisted pair structured cabling solutions, intelligent infrastructure management hardware and software, high-density fiber optic connectivity, fiber management systems, patch cords and panels, pre-terminated fiber connectivity, complete cabling systems and cable assemblies for use in offices and data centers. Outdoor network solutions are found in both local-area and wide-area networks and “last-mile” fiber-to-the-home installations, including deployments of fiber-to-the-node (FTTN), fiber-to-the-premises (FTTP) and fiber-to-the-distribution point (FTTdP) to homes, businesses and cell sites. These solutions support the multichannel video, voice and high-speed data services provided by telecommunications operators and multi-system operators. The Company’s fiber optic connectivity solutions are primarily comprised of hardened connector systems, fiber distribution hubs and management systems, couplers and splitters, plug and play multiport service terminals, hardened optical terminating enclosures, high density cable assemblies, splices and splice closures.

The CommScope Mobility Solutions (CMS) segment provides the integral building blocks for cellular base station sites and related connectivity; indoor, small cell and distributed antenna wireless systems; and wireless network backhaul planning and optimization products and services. These solutions enable wireless operators to increase spectral efficiency and enhance cellular coverage and capacity in challenging network conditions such as commercial buildings, urban areas, stadiums and transportation systems. The CMS segment focuses on all aspects of the radio access network (RAN) from the macro through the metro, to the indoor layer. Macro cell solutions can be found at wireless tower sites and on rooftops and include base station antennas, microwave antennas, hybrid fiber-feeder and power cables, coaxial cables, connectors and filters. Metro cell solutions can be found on street poles and on other urban, outdoor structures and include radio frequency (RF) delivery and connectivity solutions, equipment housing and concealment. These fully integrated outdoor systems are comprised of specialized antennas, filters/combiners, backhaul solutions, intra-system cabling and power distribution, all minimized to fit an urban environment. Distributed antenna systems and small cell indoor solutions allow wireless operators to increase spectral efficiency and thereby extend and enhance cellular coverage and capacity in challenging network conditions.

9. RESTRUCTURING COSTS

The Company incurs costs associated with restructuring initiatives intended to improve overall operating performance and profitability. The costs related to restructuring actions are generally composed of employee-related costs, lease termination costs and fixed asset related costs. Employee-related costs include the expected severance costs and related benefits as well as one-time severance benefits that are accrued over the remaining period employees are required to work in order to receive such benefits. Lease termination costs include the discounted cost of unused leased facilities, net of anticipated sub-rental income. Fixed asset related costs include non-cash impairments or fixed asset disposals associated with restructuring actions in addition to the cash costs to uninstall, pack, ship and reinstall manufacturing equipment and the costs to prepare the receiving facility to accommodate relocated equipment. Fixed asset related costs are expensed as incurred. Cash paid is net of proceeds received from the sale of related assets.

As a result of restructuring and consolidation actions, the Company owns unutilized real estate at various facilities both inside and outside the U.S. The Company is attempting to sell or lease this unutilized space. Additional impairment charges may be incurred related to these or other excess assets.

The Company's net pretax restructuring charges, by segment, were as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2018	2017	2018	2017
CCS	\$(409)	\$5,569	\$6,648	\$19,922
CMS	7,479	(209)	13,090	4,599
Total	\$7,070	\$5,360	\$19,738	\$24,521

Restructuring reserves were included in the Company's Condensed Consolidated Balance Sheets as follows:

	September 30, December 31,	
	2018	2017
Other accrued liabilities	\$ 14,195	\$ 24,961
Other noncurrent liabilities	6,153	7,036
Total liability	\$ 20,348	\$ 31,997

Cost Alignment Restructuring Actions

Prior to the acquisition of TE Connectivity's Broadband Network Solutions (BNS) business in August 2015, the Company initiated restructuring actions to realign and lower its cost structure, primarily through workforce reductions and other cost reduction initiatives, including the cessation of manufacturing operations at various facilities. As of September 30, 2018, these actions were substantially complete except for a \$5.9 million liability for lease termination costs, for which the Company expects to make cash payments, net of sublease income, of \$0.3 million during the remainder of 2018 and make the remaining payments of \$5.6 million between 2019 and 2022.

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

BNS Integration Restructuring Actions

Following the acquisition of BNS, the Company initiated a series of restructuring actions, which are currently ongoing, to integrate and streamline operations and achieve cost synergies. The activity within the liability established for the BNS integration restructuring actions for the three and nine months ended September 30, 2018 was as follows:

	Employee- Related Costs	Lease Termination Costs	Fixed Asset Related Costs	Total
Balance at June 30, 2018	\$ 14,555	\$ 652	\$ —	\$ 15,207
Additional charge recorded	6,120	656	(1,733)	5,043
Cash paid	(6,710)	(830)	(159)	(7,699)
Consideration received	—	—	6,609	6,609
Foreign exchange and other non-cash items	(40)	(4)	(4,717)	(4,761)
Balance at September 30, 2018	\$ 13,925	\$ 474	\$ —	\$ 14,399
Balance at December 31, 2017	\$ 25,588	\$ 1,080	\$ —	\$ 26,668
Additional charge recorded	17,149	1,465	(1,026)	17,588
Cash paid	(28,531)	(2,053)	(553)	(31,137)
Consideration received	—	—	11,123	11,123
Foreign exchange and other non-cash items	(281)	(18)	(9,544)	(9,843)
Balance at September 30, 2018	\$ 13,925	\$ 474	\$ —	\$ 14,399

The BNS integration actions include the announced closures or reduction in activities at various U.S. and international facilities as well as headcount reductions in sales, marketing and administrative functions. The Company has recognized restructuring charges of \$127.2 million since the BNS acquisition for integration actions. No significant additional restructuring charges are expected to be incurred to complete the previously announced BNS integration initiatives. The Company expects to make cash payments of \$7.9 million during the remainder of 2018 and additional cash payments of \$6.5 million between 2019 and 2021. Future restructuring actions may be identified and the resulting charges and cash requirements may be material.

10. EMPLOYEE BENEFIT PLANS

Pension Plans

	Three Months Ended September 30,			
	U.S. Plans		Non-U.S. Plans	
	2018	2017	2018	2017

Expected return on plan assets	(4,791)	(5,061)	(5,841)	(5,642)
Net periodic benefit cost (income)	\$(462)	\$(99)	\$2,212	\$3,051

21

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

Service cost is primarily included in cost of sales and selling, general and administrative expenses while the other components of net periodic benefit cost (income) are included in other income (expense), net.

The Company contributed \$2.9 million and \$8.7 million to its defined benefit pension plans during the three and nine months ended September 30, 2018, respectively. During the remainder of 2018, the Company anticipates making additional contributions of approximately \$0.4 million to these plans.

The Company intends to terminate a significant U.S. defined benefit pension plan in the fourth quarter of 2018 through the purchase of annuities. The Company contributed \$3.0 million to the plan during the nine months ended September 30, 2018, which was needed to substantially fund the termination of the plan. Upon termination, the Company expects to recognize a pretax charge in other income (expense), net, primarily related to unrecognized net actuarial losses currently recorded in accumulated other comprehensive loss of \$33 million to \$35 million.

Other Postretirement Benefit Plans

The Company has amended certain of its U.S. postretirement medical plans to terminate benefits as of December 31, 2018. The Company expects to recognize a pretax gain in other income (expense), net, in the fourth quarter of 2018 related to unrecognized prior service credits and unrecognized net actuarial gains currently recorded in accumulated other comprehensive loss of \$9 million to \$10 million.

11. STOCKHOLDERS' EQUITY

Stock Repurchase Program

On August 3, 2017, the Company announced its Board of Directors had authorized the repurchase of up to \$100.0 million of the Company's outstanding common stock. The Company repurchased \$75.0 million of its common stock under this authorization in 2017, but no shares were repurchased under this plan during the three or nine months ended September 30, 2018. The program expired on July 31, 2018.

Equity-Based Compensation Plans

As of September 30, 2018, \$66.7 million of unrecognized compensation costs related to unvested stock options, restricted stock units (RSUs) and performance share units (PSUs) are expected to be recognized over a remaining weighted average period of 1.4 years. There were no significant capitalized equity-based compensation costs at September 30, 2018.

The following table shows the location of equity-based compensation expense on the statement of operations:

	Three Months Ended		Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
Selling, general and administrative	\$8,629	\$8,365	\$25,691	\$24,041

Edgar Filing: CommScope Holding Company, Inc. - Form 10-Q

Cost of sales	1,433	1,386	4,267	4,001
Research and development	1,265	1,223	3,765	3,530
Total equity-based compensation expense	\$11,327	\$10,974	\$33,723	\$31,572

Stock Options

Stock options are awards that allow the recipient to purchase shares of the Company's common stock at a fixed price. Stock options are granted at an exercise price equal to the Company's stock price at the date of grant. These awards generally vest over three years following the grant date and have a contractual term of ten years.

22

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

The following table summarizes the stock option activity (in thousands, except per share data and years):

	Shares	Weighted Average Option Exercise Price Per Share	Weighted Average Remaining Contractual Term in Years	Aggregate Intrinsic Value
Options outstanding at June 30, 2018	4,784	\$ 15.30		
Granted	5	\$ 31.36		
Exercised	(1)	\$ 27.80		
Forfeited	—	\$ —		
Options outstanding at September 30, 2018	4,788	\$ 15.31	4.0	\$ 80,633
Options outstanding at December 31, 2017	4,830	\$ 13.01		
Granted	482	\$ 38.34		
Exercised	(435)	\$ 11.47		
Forfeited	(89)	\$ 34.09		
Options outstanding at September 30, 2018	4,788	\$ 15.31	4.0	\$ 80,633
Options vested at September 30, 2018	3,955	\$ 10.79	3.0	\$ 80,151
Options unvested at September 30, 2018	833	\$ 36.76	8.8	\$ 482

The exercise prices of outstanding options at September 30, 2018 were in the following ranges (in thousands, except per share data and years):

Range of Exercise Prices	Options Outstanding		Options Exercisable		
	Shares	Weighted Average Remaining Contractual Life in Years	Weighted Average Exercise Price Per Share	Shares	Weighted Average Exercise Price Per Share
\$2.96 to \$5.74	2,502	2.1	\$ 5.42	2,502	\$ 5.42
\$5.75 to \$22.99	653	1.6	\$ 8.58	653	\$ 8.58
\$23.00 to \$42.32	1,633	7.9	\$ 33.16	800	\$ 29.41
\$2.96 to \$42.32	4,788	4.0	\$ 15.31	3,955	\$ 10.79

The Company uses the Black-Scholes model to estimate the fair value of stock option awards at the date of grant. Key inputs and assumptions used in the model include the grant date fair value of common stock, exercise price of the award, the expected option term, the risk-free interest rate, stock price volatility and the Company's projected dividend

yield. The expected term represents the period over which the Company's employees are expected to hold their options. The risk-free interest rate reflects the yield on zero-coupon U.S. treasury securities with a term equal to the option's expected term. Expected volatility is derived based on the historical volatility of the Company's stock. The Company's projected dividend yield is zero. The Company believes the valuation technique and the approach utilized to develop the underlying assumptions are appropriate in estimating the fair values of its stock options. Estimates of fair value are not intended to predict actual future events or the value ultimately realized by employees who receive equity awards. Subsequent events are not indicative of the reasonableness of the original estimates of fair value made by the Company.

23

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

The following table presents the weighted average assumptions used to estimate the fair value of stock option awards granted during the three and nine months ended September 30, 2018 and 2017.

	Three Months Ended September 30,		Nine Months Ended September 30,			
	2018	2017	2018	2017	2018	2017
Expected option term (in years)	6.0	*	6.0	6.0		
Risk-free interest rate	2.8 %	*	2.7 %	2.0 %		
Expected volatility	35.0 %	*	35.0 %	40.0 %		
Weighted average exercise price	\$31.36	*	\$38.34	\$38.00		
Weighted average fair value at grant date	\$12.18	*	\$14.83	\$15.72		

*No stock options were granted during the three months ended September 30, 2017.

Restricted Stock Units

RSUs entitle the holder to shares of common stock after a vesting period that generally ranges from one to three years. The fair value of the awards is determined on the grant date based on the Company's stock price.

The following table summarizes the RSU activity (in thousands, except per share data):

	Weighted Average Grant Restricted Stock		Date Fair Value
	Units	Per Share	
Non-vested RSUs at June 30, 2018	2,155	\$ 35.43	
Granted	2	\$ 31.36	
Vested and shares issued	(8) \$ 34.31	
Forfeited	(61) \$ 35.47	
Non-vested RSUs at September 30, 2018	2,088	\$ 35.43	
Non-vested RSUs at December 31, 2017	2,279	\$ 31.83	
Granted	1,122	\$ 37.97	
Vested and shares issued	(1,081) \$ 30.80	
Forfeited	(232) \$ 33.88	
Non-vested RSUs at September 30, 2018	2,088	\$ 35.43	

Performance Share Units

PSUs are stock awards in which the number of shares ultimately received by the employee depends on Company performance against specified targets. Such awards typically vest over three years and the number of shares issued can

vary from 0% to 200% of the number of PSUs granted, depending on performance. The fair value of each PSU is determined on the date of grant based on the Company's stock price. The ultimate number of shares issued and the related compensation cost recognized is based on the final performance metrics compared to the targets specified in the grants.

24

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

The following table summarizes the PSU activity (in thousands, except per share data):

		Weighted
		Average Grant
	Performance	Date Fair Value
	Share Units	Per Share

Non-vested PSUs at December 31, 2017	344	\$ 26.75
Granted	186	\$ 38.34
Vested and shares issued	(203)	\$ 26.80
Forfeited	(31)	\$ 26.27
Non-vested PSUs at September 30, 2018	296	\$ 34.05

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following narrative is an analysis of the three and nine months ended September 30, 2018 compared to the three and nine months ended September 30, 2017. The discussion is provided to increase the understanding of, and should be read in conjunction with, the unaudited condensed consolidated financial statements and accompanying notes included in this report as well as the audited consolidated financial statements, related notes thereto and management's discussion and analysis of financial condition and results of operations, including management's discussion and analysis regarding the application of critical accounting policies as well as the risk factors, included in our 2017 Annual Report.

We discuss certain financial measures in management's discussion and analysis of financial condition and results of operations, including Adjusted Operating Income and Adjusted EBITDA, that differ from measures calculated in accordance with generally accepted accounting principles in the United States (GAAP). See "Reconciliation of Non-GAAP Measures" included elsewhere in this quarterly report for more information about these non-GAAP financial measures, including our reasons for including the measures and material limitations with respect to the usefulness of the measures.

Overview

We are a global provider of infrastructure solutions for the core, access and edge layers of communication networks. Our solutions and services for wired and wireless networks enable high-bandwidth data, video and voice applications. Our global leadership position is built upon innovative technology, broad solution offerings, high-quality and cost-effective customer solutions, and global manufacturing and distribution scale.

The following is a summary of our results for the three and nine months ended September 30, 2018 compared to the prior year periods:

- Net sales increased by 1.9% and 2.1%, respectively;
- Operating income increased 5.4% and 4.9%, respectively;
 - Non-GAAP adjusted operating income decreased 1.4% and 3.0%, respectively;
- Net income increased 24.6% and 16.6%, respectively; and
- Diluted earnings per share increased 26.9% and 18.3%, respectively.

CRITICAL ACCOUNTING POLICIES

Other than the changes to revenue recognition policies as a result of the adoption of Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers, as of January 1, 2018, there have been no material changes in our critical accounting policies or significant accounting estimates as disclosed in our 2017 Annual Report. See the discussion in Note 1 in the notes to unaudited condensed consolidated financial statements included in this report for further information regarding the adoption of ASU No. 2014-09.

Net sales	\$1,150.4	\$1,128.8	\$21.6	1.9 %	\$3,510.8	\$3,440.2	\$70.6	2.1 %
Domestic	653.0	595.3	57.7	9.7	1,975.1	1,887.5	87.6	4.6
International	497.4	533.5	(36.1)	(6.8)	1,535.7	1,552.7	(17.0)	(1.1)

The increase in net sales for the three and nine months ended September 30, 2018 compared to the same prior year periods was driven mostly by higher net sales in the United States (U.S.) and the Europe, Middle East and Africa (EMEA) region. The increase in the U.S. was driven mainly by government initiatives to promote the expansion of wireless networks but was partially offset by reductions in certain selling prices. Net sales in the U.S. also benefitted from incremental net sales related to the acquisition of Cable Exchange on August 1, 2017. While net sales in the EMEA region for the three months ended September 30, 2018 were not significantly impacted by foreign exchange rate changes, the increase for the nine months ended September 30, 2018 was driven mostly by favorable foreign exchange rate changes. These increases in net sales were partially offset by decreases in the Asia Pacific (APAC) region as a result of projects in 2017 that did not recur in 2018. Net sales to customers located outside of the U.S. comprised 43.2% and 43.7% of total net sales for the three and nine months ended September 30, 2018, respectively, compared to 47.3% and 45.1% for the three and nine months ended September 30, 2017, respectively. Foreign exchange rate changes had an unfavorable impact on net sales of 1.5% for the three months ended September 30, 2018 compared to the prior year period. Foreign exchange rate changes were not significant for the nine months ended September 30, 2018, excluding the impacts related to the EMEA region discussed above.

From a segment perspective, net sales from the CommScope Connectivity Solutions (CCS) segment increased 3.2% for the three months ended September 30, 2018 compared to the prior year period due primarily to increases in U.S. net sales but partially offset by decreases in the APAC region. CCS segment net sales increased 1.4% for the nine months ended September 30, 2018 primarily due to higher net sales in the EMEA region and the U.S. but partially offset by decreases in the APAC region. CommScope Mobility Solutions (CMS) segment net sales were essentially unchanged for the three months ended September 30, 2018 mainly due to decreases in the APAC region that were almost completely offset by increases in the U.S. CMS segment net sales increased 3.1% for the nine months ended September 30, 2018 compared to the prior year period due largely to higher U.S. net sales but partially offset by lower net sales in the APAC region. For further details by segment, see the section titled “Segment Results” below.

Gross profit, SG&A expense and R&D expense

	Three Months Ended				Nine Months Ended			
	September 30, 2018	September 30, 2017	\$ Change	% Change	September 30, 2018	September 30, 2017	\$ Change	% Change
	(dollars in millions)							
Gross profit	\$423.9	\$428.6	\$(4.7)	(1.1)%	\$1,306.6	\$1,354.2	\$(47.6)	(3.5)%
As a percent of sales	36.8%	38.0%			37.2%	39.4%		
SG&A expense	174.0	184.9	(10.9)	(5.9)%	544.3	604.4	(60.1)	(9.9)%
As a percent of sales	15.1%	16.4%			15.5%	17.6%		
R&D expense	44.8	44.6	0.2	0.4%	142.4	140.6	1.8	1.3%
As a percent of sales	3.9%	4.0%			4.1%	4.1%		

Gross profit (net sales less cost of sales)

Despite higher sales volumes and favorable geographic mix, gross profit and gross profit as a percentage of sales decreased for the three and nine months ended September 30, 2018, primarily due to reductions in certain selling prices, higher material costs and unfavorable foreign exchange rate changes.

Selling, general and administrative expense

Selling, general and administrative (SG&A) expense for the three and nine months ended September 30, 2018 was lower than the prior year periods due primarily to benefits from cost reduction initiatives and lower costs related to the integration of the Broadband Network Solutions (BNS) business acquired from TE Connectivity in 2015. These decreases in costs were partially offset by higher incentive compensation expense for the three and nine months ended September 30, 2018 and higher bad debt expense for the nine months ended September 30, 2018. SG&A expense as a percentage of sales decreased from the prior year period as a result of these overall net reductions in expense and higher sales.

Research and development expense

Research and development (R&D) expense and R&D expense as a percentage of sales were relatively unchanged for the three and nine months ended September 30, 2018 compared to the prior year periods. R&D activities generally relate to ensuring that our products are capable of meeting the evolving technological needs of our customers, bringing new products to market and modifying existing products to better serve our customers.

Amortization of purchased intangible assets and Restructuring costs, net

Nine Months Ended

Edgar Filing: CommScope Holding Company, Inc. - Form 10-Q

	Three Months Ended			September 30,		\$
	September 30, 2018	September 30, 2017	Change	2018	2017	Change
	(dollars in millions)					
Amortization of purchased intangible assets	\$65.8	\$68.3	\$ (2.5)	\$ 199.5	\$ 202.9	\$ (3.4)
Restructuring costs, net	7.1	5.4	1.7	19.7	24.5	(4.8)

28

Amortization of purchased intangible assets

The amortization of purchased intangible assets decreased for the three and nine months ended September 30, 2018 compared to the prior year periods because certain of our intangible assets became fully amortized. This decrease was partially offset during the nine months ended September 30, 2018 by the amortization of intangible assets related to the Cable Exchange acquisition that occurred in August 2017.

Restructuring costs, net

Restructuring costs, net for the three and nine months ended September 30, 2018 and 2017 were primarily related to the continuing integration of the BNS business. No significant additional restructuring charges are expected to be incurred to complete the previously announced BNS integration initiatives. From a cash perspective, we paid \$7.7 million and \$32.7 million to settle restructuring liabilities during the three and nine months ended September 30, 2018, respectively, and expect to pay an additional \$8.2 million by the end of 2018 related to restructuring actions that have been initiated. In addition, we expect to pay \$12.1 million between 2019 and 2022 related to restructuring actions that have been initiated. Additional restructuring actions may be identified and the resulting charges and cash requirements may be material.

Net interest expense, Other income (expense), net and Income taxes

	Three Months Ended September 30, 2018			Nine Months Ended September 30, 2018		
	2018	2017	\$ Change	2018	2017	\$ Change
Net interest expense	\$(64.2)	\$(60.6)	\$ (3.6)	\$(181.3)	\$(189.0)	\$ 7.7
Other income (expense), net	(2.4)	3.2	(5.6)	(4.5)	(9.2)	4.7
Income tax expense	(1.8)	(16.9)	15.1	(51.4)	(43.4)	(8.0)

Net interest expense

Net interest expense for the three months ended September 30, 2018 increased compared to the prior year period due to the write-off of \$7.4 million of debt issuance costs and original issue discount in connection with the repayment of \$400.0 million on our senior secured term loan due 2022 (the 2022 Term Loan). The increase in net interest expense due to the write-off of debt issuance costs and original issue discount was partially offset by decreases due to lower long-term debt balances as a result of voluntary repayments in the fourth quarter of 2017 and in July 2018, partially offset by an increase in LIBOR.

Net interest expense for the nine months ended September 30, 2018 decreased due to lower long-term debt balances as a result of the voluntary repayments in the fourth quarter of 2017 and in July 2018 on the 2022 Term Loan and the amendment to reduce the interest rate margin on the 2022 Term Loan in May 2017, partially offset by an increase in LIBOR. The impact of the \$7.4 million write-off of debt issuance costs and original issue discount discussed above on the comparison of the nine months ended September 30, 2018 to the prior year period was more than offset by the impact of the write-off of \$9.6 million of debt issuance costs and original issue discount during the same prior year period in connection with the redemption of \$500.0 million of 4.375% senior secured notes due 2020 (the 2020 Notes) and the repayment of \$250.0 million of senior secured term loans. The redemption of the 2020 Notes and the repayment of the senior secured term loans were substantially funded by the issuance in March 2017 of \$750.0 million of 5.00% senior notes due 2027 (the 2027 Notes).

Our weighted average effective interest rate on outstanding borrowings, including the amortization of debt issuance costs and original issue discount, was 5.70% at September 30, 2018, 5.45% at December 31, 2017 and 5.34% at September 30, 2017.

Other income (expense), net

The change in other income (expense), net for the three months ended September 30, 2018 compared to the prior year period was partially due to the impact of a \$2.4 million gain on the sale of a portion of our investment in Hydrogenics Corporation (Hydrogenics) in the prior year period. The change in other income (expense), net for the nine months ended September 30, 2018 compared to the prior year period was mainly the result of a redemption premium of \$14.8 million incurred during the first quarter of 2017 in connection with the redemption of the 2020 Notes, partially offset by \$9.0 million in gains recognized during the nine months ended September 30, 2017 related to the sale of a portion of our investment in Hydrogenics.

29

Foreign exchange losses of \$4.3 million and \$13.0 million were included in other income (expense), net for the three and nine months ended September 30, 2018, respectively, compared to foreign exchange losses of \$1.7 million and \$7.1 million for the three and nine months ended September 30, 2017, respectively. Due to the planned liquidation of a foreign subsidiary, we expect to recognize a pretax foreign exchange loss of approximately \$13 million in other income (expense), net in the fourth quarter of 2018 related to foreign currency translation adjustments currently reported in accumulated other comprehensive loss, based on September 30, 2018 exchange rates.

Net periodic benefit income of \$2.3 million and \$6.9 million was included in other income (expense), net for the three and nine months ended September 30, 2018, respectively, as a result of the adoption of ASU No. 2017-07, Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. Other income (expense), net for the three and nine months ended September 30, 2017 was recast to include \$1.4 million and \$4.2 million, respectively, of net periodic benefit income as a result of the new guidance. See the discussion in Note 1 in the notes to unaudited condensed consolidated financial statements included in this report for further information regarding the adoption of this new accounting guidance.

In the fourth quarter of 2018, we intend to terminate a significant U.S. defined benefit pension plan to be settled through the purchase of annuities. As a result of the settlement, we expect to recognize a pretax charge in other income (expense), net, primarily related to unrecognized net actuarial losses currently recorded in accumulated other comprehensive loss of approximately \$33 million to \$35 million. We have also amended certain of our U.S. postretirement medical plans to terminate benefits as of December 31, 2018. We expect to recognize a pretax gain in other income (expense), net, in the fourth quarter of 2018 related to unrecognized prior service credits and unrecognized net actuarial gains currently recorded in accumulated other comprehensive loss of \$9 million to \$10 million.

Income tax expense

On December 22, 2017, the U.S. government enacted tax reform legislation that reduced the corporate income tax rate from 35% to 21% and included a broad range of complex provisions affecting the taxation of businesses. Generally, financial statement recognition of the new legislation would be required to be completed in the period of enactment; however, in response to the complexities of this new legislation, the Securities and Exchange Commission (SEC) staff issued Staff Accounting Bulletin No. 118 to provide companies with transitional relief. Specifically, when the initial accounting for items under the new legislation is incomplete, the guidance allows the recognition of provisional amounts when reasonable estimates can be made or the continued application of the prior tax law if a reasonable estimate of the effect cannot be made. The SEC staff has provided up to one year for companies to finalize the accounting for the effects of this new legislation. During the three and nine months ended September 30, 2018, we recognized a \$2.5 million tax benefit related to changes made to the provisional amounts, primarily related to our transition tax and from revaluing our U.S. deferred tax assets and liabilities. We expect to continue to refine the calculations as additional analysis is completed and as additional guidance and interpretations are available. Any changes made could be material to income tax expense.

The effective income tax rate of 2.7% for the three months ended September 30, 2018 was lower than the statutory rate of 21.0% due to the reduction in tax expense of \$24.1 million related to the expiration of statutes of limitations on various uncertain tax positions. The effective income tax rate of 23.9% for the nine months ended September 30, 2018 was higher than the statutory rate of 21.0% primarily due to the effect of the provision for state income taxes, the impact of earnings in foreign jurisdictions that are taxed at rates higher than the U.S., the impact of the new U.S. anti-deferral provisions and the impact of repatriation taxes. These increases to the effective tax rate were partially offset by the reduction in tax expense due to the expiration of statutes of limitations on various uncertain tax positions

discussed above and the favorable impact of \$4.7 million of excess tax benefits related to equity-based compensation awards for the nine months ended September 30, 2018.

Our effective income tax rate of 24.8% and 23.6% for the three and nine months ended September 30, 2017, respectively, was lower than the statutory rate of 35.0% primarily due to a reduction in tax expense related to the expiration of statutes of limitations on various uncertain tax positions. In addition, the effective tax rate was favorably affected by \$0.4 million and \$13.5 million of excess tax benefits related to equity-based compensation awards for the three and nine months ended September 30, 2017, respectively. Offsetting these decreases for the three and nine months ended September 30, 2017 was the effect of the provision for state income taxes.

CommScope Connectivity Solutions Segment

Our CCS segment provides innovative fiber optic and copper cable and connectivity solutions for use in data centers and business enterprise, telecommunications, cable television and residential broadband networks. Our CCS portfolio includes solutions for indoor and outdoor network applications. Indoor network solutions are found in commercial buildings and in the network core. They are primarily delivered through our SYSTIMAX, NETCONNECT and Uniprise brands and offer a complete end-to-end physical layer solution, including optical fiber and twisted pair structured cable solutions, intelligent infrastructure management hardware and software and network rack and cabinet enclosures. Our outdoor network solutions are found in access and edge networks and include a broad portfolio of fiber-to-the-home equipment and headend solutions. Our fiber optic connectivity solutions are primarily comprised of hardened connector systems, fiber distribution hubs and management systems, couplers and splitters, plug and play multiport service terminals, hardened optical terminating enclosures, high density cable assemblies, splices and splice closures.

CCS segment net sales were higher in the three months ended September 30, 2018 compared to the prior year period primarily due to increases in net sales in the U.S. and to a lesser extent the Caribbean and Latin America (CALA) and EMEA regions. These increases in net sales were partially offset by decreases in the APAC region and in Canada. CCS segment net sales were higher in the nine months ended September 30, 2018 due to increases in net sales primarily in the EMEA region and the U.S. and to a lesser extent the CALA region. The increase in net sales in the EMEA region was mostly driven by favorable foreign exchange rate changes for the nine months ended September 30, 2018. The increase in U.S. net sales for the nine months ended September 30, 2018 was driven by incremental net sales due to the acquisition of Cable Exchange on August 1, 2017. These increases were partially offset by decreases in net sales in the APAC region and in Canada. Foreign exchange rate changes had an unfavorable impact on CCS segment net sales of 1.7% for the three months ended September 30, 2018 compared to the prior year period. Foreign exchange rate changes were not significant to CCS segment net sales for the nine months ended September 30, 2018, excluding the impacts related to the EMEA region discussed above.

CCS segment operating income and non-GAAP adjusted operating income increased during the three and nine months ended September 30, 2018 compared to the prior year periods. CCS segment operating income benefitted from lower integration costs and restructuring costs, which are excluded from non-GAAP adjusted operating income. Both operating income and non-GAAP adjusted operating income benefitted from higher sales volumes and cost savings initiatives that were partially offset by selling price reductions, higher material costs and unfavorable foreign exchange rate changes. See “Reconciliation of Non-GAAP Measures.”

We expect demand for our indoor network CCS products to be driven by global information technology spending and spending in core networks as the ongoing need for bandwidth and intelligence in the network continues to create demand for high-performance connectivity solutions. We expect demand for our outdoor network CCS products to be driven by global deployment of fiber-optic solutions for fiber-to-the-X applications, new services, competitive dynamics in the access market, ongoing maintenance requirements of cable networks and residential construction market activity in North America. Spending patterns by service providers and data center customers can be volatile. Uncertain global economic conditions, variability in the levels of commercial and residential construction activity, consolidation among service providers, uncertain levels of information technology spending and reductions in the levels of distributor inventories may negatively affect demand for our products. The increasing demand for fiber solutions is expected to be somewhat offset by decelerating demand for copper solutions in networks. We expect modest near-term net sales growth in the CCS segment as a result of these business dynamics as well as ongoing pricing pressure.

CommScope Mobility Solutions Segment

Our CMS segment, primarily through our Andrew brand, is a global leader in providing the integral building blocks for cellular base station sites and related connectivity; indoor, small cell and distributed antenna wireless systems; and wireless network backhaul planning and optimization products and services. The primary sources of revenue for our CMS segment are (i) product sales of primarily passive transmission devices for the wireless infrastructure market including base station and microwave antennas, hybrid fiber-feeder and power cables, coaxial cable connectors and equipment primarily used by wireless operators, (ii) product sales of active electronic devices and services including filters and tower-mounted amplifiers and (iii) engineering and consulting services and products such as distributed antenna systems that are used to extend and enhance the coverage of wireless networks in areas where signals are difficult to send or receive, such as large buildings, urban areas, stadiums and transportation systems.

32

CMS segment net sales were essentially unchanged during the three months ended September 30, 2018 compared to the prior year period as decreases in the APAC and CALA regions were almost completely offset by increases in the U.S. and to a lesser extent increases in Canada and the EMEA region. CMS segment net sales increased during the nine months ended September 30, 2018 driven by higher sales volumes in the U.S. that were offset partially by reductions in certain selling prices. During the nine months ended September 30, 2018, the CMS segment also saw increases, though less pronounced, in the EMEA region, which were almost all due to favorable exchange rate changes, and in Canada. These increases in CMS segment net sales were offset partially by decreases in net sales during nine months ended September 30, 2018 primarily in the APAC region but also in the CALA region. Foreign exchange rate changes had an unfavorable impact on CMS segment net sales of 1.2% for the three months ended September 30, 2018 compared to the prior year period. Foreign exchange rate changes were not significant to CMS segment net sales for the nine months ended September 30, 2018, excluding the impacts related to the EMEA region discussed above.

CMS segment operating income and non-GAAP adjusted operating income decreased for the three months ended September 30, 2018 compared to the prior year period primarily due to selling price reductions. CMS segment operating income and non-GAAP adjusted operating income decreased for the nine months ended September 30, 2018 primarily due to selling price reductions and unfavorable foreign exchange rate changes, partially offset by higher sales volume and favorable geographic mix. CMS segment operating income was also impacted by higher restructuring costs which are excluded from non-GAAP adjusted operating income. See “Reconciliation of Non-GAAP Measures.”

Our sales to wireless operators are volatile. We expect longer-term demand for our CMS products to be positively affected by wireless coverage and capacity expansion in emerging markets and growth in mobile data services and network capacity requirements in developed markets. In addition, we expect demand for our CMS products to be favorably affected by government initiatives to promote the expansion of wireless networks (e.g., FirstNet) over the next few years. We also expect longer-term demand for our CMS products to be positively affected by the introduction of 5G technology. In preparation for 5G networks, we continue to invest heavily in R&D, support customer trials and participate in industry forums to help shape 5G standards. Uncertainty in the global economy or a particular region or consolidation among or other investments by wireless operators may slow the growth or cause a decline in capital spending by wireless operators and negatively impact our net sales. We expect modest near-term net sales growth in the CMS segment as a result of these business dynamics as well as ongoing pricing pressure.

LIQUIDITY AND CAPITAL RESOURCES

The following table summarizes certain key measures of our liquidity and capital resources.

	September 30		December 31,	
	2018	2017	\$	%
	(dollars in millions)			
Cash and cash equivalents	\$352.4	\$ 454.0	\$(101.6)	(22.4)%
Working capital ⁽¹⁾ , excluding cash and cash equivalents	750.5	766.2	(15.7)	(2.0)
Availability under revolving credit facility	521.6	425.4	96.2	22.6
Long-term debt	3,983.8	4,369.4	(385.6)	(8.8)
Total capitalization ⁽²⁾	5,738.9	6,017.2	(278.3)	(4.6)
Long-term debt as a percentage of total capitalization	69.4	%	72.6	%

(1) Working capital consisted of current assets of \$1,867.5 million less current liabilities of \$764.6 million at September 30, 2018. Working capital consisted of current assets of \$1,943.9 million less current liabilities of \$723.7 million at December 31, 2017.

(2) Total capitalization includes long-term debt and stockholders' equity.

Our principal sources of liquidity on a short-term basis are cash and cash equivalents, cash flows provided by operations and availability under credit facilities. On a long-term basis, our potential sources of liquidity also include raising capital through the issuance of debt and/or equity. The primary uses of liquidity include debt service requirements (including voluntary debt repayments or redemptions), funding acquisitions, funding working capital requirements, capital expenditures, paying restructuring costs, income tax payments, funding pension and other postretirement obligations and potential stock repurchases. We believe that our existing cash, cash equivalents and cash flows from operations, combined with availability under our revolving credit facility and access to capital markets, will be sufficient to meet our presently anticipated future cash needs. We may experience volatility in cash flows between periods due to, among other reasons, variability in the timing of vendor payments and customer receipts. We may, from time to time, borrow under our revolving credit facility or issue securities, if market conditions are favorable, to meet future cash needs or to reduce our borrowing costs.

Although there are no financial maintenance covenants under the terms of our senior notes, there is a limitation, among other limitations, on certain future borrowings based on an adjusted leverage ratio or a fixed charge coverage ratio. These ratios are based on financial measures similar to adjusted EBITDA as presented in the "Reconciliation of Non-GAAP Measures" section below, but also give pro forma effect to certain events, including acquisitions and savings from cost reduction initiatives such as facility closures and headcount reductions. For the twelve months ended September 30, 2018, our pro forma adjusted EBITDA, as measured pursuant to the indentures governing our notes, was \$952.8 million, which included \$17.3 million of savings from announced cost reduction initiatives so that the impact of the cost reduction initiatives is fully reflected in the twelve-month period used in the calculation of the ratios. In addition to limitations under these indentures, our senior secured credit facilities contain customary negative covenants. We believe we are in compliance with the covenants under our indentures and senior secured credit facilities at September 30, 2018.

Cash and cash equivalents decreased during the first nine months of 2018 mainly due to the voluntary repayment of \$400.0 million on the 2022 Term Loan, cash paid for investments in property, plant and equipment and cash paid for withholding taxes related to the vesting of equity-based compensation awards, partially offset by cash generated by operations. As of September 30, 2018, approximately 92% of our cash and cash equivalents were held outside the U.S.

Working capital, excluding cash and cash equivalents, decreased during the nine months ended September 30, 2018. The decrease was mainly due to changes in income tax balances and higher accrued interest, offset partially by higher inventory balances as of September 30, 2018 compared to December 31, 2017. In September 2018, we sold approximately \$30 million of accounts receivable under customer-sponsored supplier financing agreements. Under these agreements, we are able to sell accounts receivable to a bank, and we retain no interest in and have no servicing responsibilities for the accounts receivable sold. The resulting reduction in accounts receivable at September 30, 2018 compares to an approximately \$60 million reduction in accounts receivable at December 31, 2017 due to customer payments in late 2017 that were due in the first quarter of 2018. The net reduction in total capitalization during the nine months ended September 30, 2018 reflected the repayment of \$400.0 million on the 2022 Term Loan and foreign currency translation losses partially offset by current year earnings.

Cash Flow Overview

	Nine Months Ended			
	September 30, 2018	September 30, 2017	\$ Change	% Change
	(in millions)			
Net cash generated by operating activities	\$361.9	\$335.4	\$26.5	7.9 %
Net cash used in investing activities	(41.4)	(141.5)	100.1	(70.7)
Net cash used in financing activities	(410.6)	(229.3)	(181.3)	79.1

Operating Activities

During the nine months ended September 30, 2018, we generated \$361.9 million of cash through operating activities compared to \$335.4 million during the nine months ended September 30, 2017. The higher level of cash generation was due to lower payments of incentive compensation during the nine months ended September 30, 2018 compared with the prior year period as well as our initial participation in customer-sponsored supplier financing agreements as described above. These increases were offset by lower cash flows from accounts receivable due to the receipt of approximately \$60 million of customer payments in late 2017 that were due in the first quarter of 2018. The increase of cash used for inventory was largely offset by a decrease of cash used for accounts payable for the nine months ended September 30, 2018 compared to the prior year period.

Investing Activities

Investment in property, plant and equipment during the nine months ended September 30, 2018 was \$55.4 million compared with \$51.2 million for the prior year period. The investment in property, plant and equipment was primarily related to supporting improvements in manufacturing operations, including expanding production capacity and investing in information technology, including software developed for internal use.

During the nine months ended September 30, 2018 and 2017, we sold property and equipment no longer being utilized for \$12.7 million and \$5.0 million, respectively.

During the nine months ended September 30, 2017, we acquired Cable Exchange and paid \$105.2 million, net of cash acquired, using cash on hand. Also during the nine months ended September 30, 2017 we received proceeds of \$9.9 million related to the sale of the remainder of our investment in Hydrogenics.

Financing Activities

In July 2018, we repaid \$400.0 million of the 2022 Term Loan. The payment was made using \$250.0 million of cash on hand and \$150.0 million borrowed under our asset-based revolving credit facility (the revolving credit facility) which was repaid during the third quarter. We expect to voluntarily repay additional debt in the future and may repurchase certain of our senior notes if market conditions are favorable and the applicable indenture and the credit agreements governing the senior secured credit facilities permit such repayment or repurchase. In addition, we may refinance portions of our existing debt to lower borrowing costs, extend the term or adjust the total amount of fixed or floating-rate debt.

As of September 30, 2018, we had no outstanding borrowings under the revolving credit facility and the remaining availability was \$521.6 million, reflecting a borrowing base of \$550.0 million reduced by \$28.4 million of letters of credit issued under the revolving credit facility.

During the nine months ended September 30, 2018, we received proceeds of \$5.0 million related to the exercise of stock options. Also during the nine months ended September 30, 2018, employees surrendered 401,992 shares of our common stock to satisfy their tax withholding requirements on vested restricted stock units and performance share units, which reduced cash flows by \$15.6 million.

35

During the nine months ended September 30, 2017, we issued the 2027 Notes for \$750.0 million and the proceeds, together with cash on hand, were used to (i) redeem all \$500.0 million of the outstanding 2020 Notes, (ii) repay a portion of the outstanding borrowings under our senior secured term loans, including \$111.9 million of outstanding principal on our senior secured term loan due 2018 and \$138.1 million of outstanding principal on the 2022 Term Loan, and (iii) pay related fees and expenses. We paid a \$14.8 million premium to redeem the 2020 Notes and paid \$7.2 million in debt issuance costs related to the 2027 Notes. In addition, during the nine months ended September 30, 2017, we amended the 2022 Term Loan to reduce the interest rate margin by 50 basis points which resulted in the repayment of \$30.4 million to certain lenders under the senior secured credit facilities and the receipt of \$30.4 million in proceeds from the new lenders and existing lenders who increased their positions. We also paid \$1.1 million in debt modification costs related to this amendment. Additionally, during the nine months ended September 30, 2017, we voluntarily repaid \$25.0 million of the 2022 Term Loan. Also during the nine months ended September 30, 2017, we paid cash of \$175.0 million to repurchase stock under stock repurchase programs authorized by our Board of Directors in 2017. In addition, we received proceeds of \$8.8 million related to the exercise of stock options and employees surrendered 398,698 shares of our common stock to satisfy their tax withholding requirements on vested restricted stock units, which reduced cash flows by \$15.0 million.

Off-Balance Sheet Arrangements

We are not party to any significant off-balance sheet arrangements except for operating leases. There have not been any material changes to our off-balance sheet arrangements during the nine months ended September 30, 2018.

Reconciliation of Non-GAAP Measures

We believe that presenting certain non-GAAP financial measures enhances an investor's understanding of our financial performance. We further believe that these financial measures are useful in assessing our operating performance from period to period by excluding certain items that we believe are not representative of our core business. We also use certain of these financial measures for business planning purposes and in measuring our performance relative to that of our competitors. We believe these financial measures are commonly used by investors to evaluate our performance and that of our competitors. However, our use of the terms non-GAAP adjusted operating income and non-GAAP adjusted EBITDA may vary from that of others in our industry. These financial measures should not be considered as alternatives to operating income (loss), net income (loss) or any other performance measures derived in accordance with U.S. GAAP as measures of operating performance, operating cash flows or liquidity.

We also believe presenting these non-GAAP results for the twelve months ended September 30, 2018 provides an additional tool for assessing our recent performance. Such amounts are unaudited and are derived by subtracting the data for the nine months ended September 30, 2017 from the data for the year ended December 31, 2017 and then adding the data for the nine months ended September 30, 2018.

Consolidated

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q or any other oral or written statements made by us or on our behalf may include forward-looking statements that reflect our current views with respect to future events and financial performance.

These forward-looking statements are generally identified by their use of such terms and phrases as “intend,” “goal,” “estimate,” “expect,” “project,” “projections,” “plans,” “anticipate,” “should,” “could,” “designed to,” “foreseeable future,” “be,” “scheduled,” “outlook,” “target,” “guidance” and similar expressions, although not all forward-looking statements contain such terms. This list of indicative terms and phrases is not intended to be all-inclusive.

These statements are subject to various risks and uncertainties, many of which are outside our control, including, without limitation, our dependence on customers’ capital spending on data and communication systems; concentration of sales among a limited number of customers and channel partners; changes in technology; industry competition and the ability to retain customers through product innovation, introduction and marketing; risks associated with our sales through channel partners; changes to the regulatory environment in which our customers operate; product quality or performance issues and associated warranty claims; our ability to maintain effective management information systems and to implement major systems initiatives successfully; cyber-security incidents, including data security breaches, ransomware or computer viruses; the risk our global manufacturing operations suffer production or shipping delays, causing difficulty in meeting customer demands; the risk that internal production capacity or that of contract manufacturers may be insufficient to meet customer demand or quality standards; changes in cost and availability of key raw materials, components and commodities and the potential effect on customer pricing; risks associated with our dependence on a limited number of key suppliers for certain raw material and components; the risk that contract manufacturers we rely on encounter production, quality, financial or other difficulties; our ability to integrate and fully realize anticipated benefits from prior or future acquisitions or equity investments; potential difficulties in realigning global manufacturing capacity and capabilities among our global manufacturing facilities that may affect our ability to meet customer demands for products; possible future restructuring actions; substantial indebtedness and maintaining compliance with debt covenants; our ability to incur additional indebtedness; our ability to generate cash to service our indebtedness; possible future impairment charges for fixed or intangible assets, including goodwill; income tax rate variability and ability to recover amounts recorded as deferred tax assets; our ability to attract and retain qualified key employees; labor unrest; obligations under our defined benefit employee benefit plans may require plan contributions in excess of current estimates; significant international operations exposing us to economic, political and other risks, including the impact of variability in foreign exchange rates; our ability to comply with governmental anti-corruption laws and regulations and export and import controls worldwide; our ability to compete in international markets due to export and import controls to which we may be subject; changes in the laws and policies in the United States affecting trade, including the risk and uncertainty related to tariffs or a potential global trade war that may impact our products; costs of protecting or defending intellectual property; costs and challenges of compliance with domestic and foreign environmental laws; risks associated with stockholder activism, which could cause us to incur significant expense, hinder execution of our business strategy and impact the trading value of our securities; and other factors beyond our control. These and other factors are discussed in greater detail in our 2017 Annual Report and in Part II, Item 1A, Risk Factors, of this report. Although the information contained in this Quarterly Report on Form 10-Q represents our best judgment as of the date of this report based on information currently available and reasonable assumptions, we can give no assurance that the expectations will be attained or that any deviation will not be material. Given these uncertainties, we caution you not to place undue reliance on these forward-looking statements, which speak only as of the date made. We are not undertaking any duty or obligation to update this information to reflect developments or information obtained after the date of this report, except as otherwise may be required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the interest rate risk, commodity price risk or foreign currency exchange rate risk information previously reported under Item 7A of our 2017 Annual Report, as filed with the SEC on February 15, 2018.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting during the quarter ended September 30, 2018 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The material set forth under “Commitments and Contingencies” in Note 1 of Notes to the Unaudited Condensed Consolidated Financial Statements in Part 1, Item 1 of this Quarterly Report on Form 10-Q is incorporated herein by reference.

ITEM 1A. RISK FACTORS

There have been no material changes from our risk factors as previously reported in Item 1A of our 2017 Annual Report, except as follows:

Additional tariffs or a global trade war could increase the cost of our products, which could adversely impact the competitiveness of our products.

Recently, the United States (U.S.) administration announced tariffs on certain products imported into the U.S., which has resulted in reciprocal tariffs from other countries, including countries where we operate. The U.S. administration has also announced that the U.S. has renegotiated the North American Free Trade Agreement with Mexico and Canada. The renegotiated agreement remains subject to ratification by the U.S. Congress and by the governments of Mexico and Canada, and the prospects for and timing of approval are uncertain.

These developments have created uncertainty about the future relationship between the U.S. and certain of its trading partners and may reduce global trade and trade between the U.S. and other nations, including countries in which we currently operate. Changes in policy or continued uncertainty could depress economic activity and restrict our access to suppliers or customers. We have significant international manufacturing operations, particularly in China and Mexico. The tariffs implemented on our products (or on materials, parts or components we use to manufacture our products) by the U.S. will increase the cost of our products manufactured and imported into the U.S. Tariffs and other trade restrictions announced by other countries on products manufactured in the U.S. could likewise increase the costs of those products when imported into other countries. If additional tariffs or trade restrictions are implemented on our products (or on materials, parts or components we use to manufacture our products) by the U.S. or other countries, the cost of our products manufactured in China, Mexico or other countries and imported into the U.S. or other countries could increase further. These cost increases could adversely affect the demand for our products and/or reduce margins, which could have a material adverse effect on our business and our earnings.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Recent Sales of Unregistered Securities:

None.

Issuer Purchases of Equity Securities:

The authorization granted by the Company’s Board of Directors in August 2017 to repurchase up to \$100.0 million of the Company’s outstanding common stock expired on July 31, 2018. The Company did not repurchase any common stock under this plan during the three months ended September 30, 2018.

The following table summarizes the stock purchase activity for the three months ended September 30, 2018:

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Value of Shares that May Yet be Purchased Under the Plans or Programs
July 1, 2018 - July 31, 2018	909	\$ 32.19	—	\$ —
August 1, 2018 - August 31, 2018	1,106	\$ 31.88	—	\$ —
September 1, 2018 - September 30, 2018	791	\$ 30.94	—	\$ —
Total	2,806	\$ 31.71	—	

(1) The shares purchased were withheld to satisfy the withholding tax obligations related to restricted stock units and performance share units that vested during the period.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS
