Notes to Condensed Consolidated Financial Statements (Unaudited)

March 26, 2016

(In thousands, except per share information)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Additionally, the condensed consolidated financial statements should be read in conjunction with Item 2 of Management's Discussion and Analysis of Financial Condition and Results of Operations, included in this Form 10-Q. Operating results for the 13-week period ended March 26, 2016 are not necessarily indicative of the results that may be expected for the year ending December 31, 2016.

The condensed consolidated balance sheet at December 26, 2015 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 26, 2015.

The Company's fiscal year is based on a 52-53 week period ending on the last Saturday of the calendar year. Therefore the financial results of certain fiscal years, and the associated 14-week quarters, will not be exactly comparable to the prior and subsequent 52-week fiscal years and the associated quarters having only 13 weeks. The quarters ended March 26, 2016 and March 28, 2015 both contain operating results for 13 weeks.

2. Inventories

The components of inventories consist of the following:

Edgar Filing: GARMIN LTD - Form 10-Q

	March 26, 2016	December 26, 2015
Raw materials	\$ 195,441	\$ 203,173
Work-in-process	75,957	69,690
Finished goods	295,117	273,762
Inventory reserves	(48,748)	(46,071)
Inventory, net of reserves	\$ 517,767	\$ 500,554

3. Earnings Per Share

The following table sets forth the computation of basic and diluted net income per share:

	13-Weeks Ended	
	March 26, 2016	March 28, 2015
Numerator:		
Numerator for basic and diluted net income per share - net income	\$88,092	\$66,793
Denominator:		
Denominator for basic net income per share – weighted-average common shares	189,497	191,762
Effect of dilutive securities – stock options, stock appreciation rights and restricted stock units	154	579
Denominator for diluted net income per share – adjusted weighted-average common shares	189,651	192,341
Basic net income per share	\$0.46	\$0.35
Diluted net income per share	\$0.46	\$0.35

There were 4,295 and 2,229 anti-dilutive stock options, stock appreciation rights and restricted stock units (collectively “equity awards”) outstanding during the 13-week periods ended March 26, 2016 and March 28, 2015, respectively.

There were 2 and 37 shares issued as a result of exercises and releases of equity awards for the 13-week periods ended March 26, 2016 and March 28, 2015, respectively.

4. Segment Information

The Company has identified five reportable segments – Auto, Aviation, Marine, Outdoor and Fitness. The Company’s Chief Operating Decision Maker (CODM) assesses segment performance and allocates resources to each segment individually.

Net sales, gross profit, and operating income for each of the Company’s reportable segments are presented below. In 2016 the Company moved action camera related revenue and expenses from the Outdoor segment to the Auto

segment, allowing for alignment and synergies with other camera-based efforts occurring within the Auto segment. The overall impact of the move was immaterial. However, action camera related operating results for the 13-weeks ended March 28, 2015 have been recast to conform to the current year presentation.

Reportable Segments

	Outdoor	Fitness	Marine	Auto	Aviation	Total
13-Weeks Ended March 26, 2016						
Net sales	\$96,827	\$142,418	\$82,880	\$195,599	\$106,316	\$624,040
Gross profit	\$58,932	\$72,294	\$44,149	\$86,144	\$78,331	\$339,850
Operating income	\$27,885	\$16,573	\$10,293	\$18,566	\$30,486	\$103,803
13-Weeks Ended March 28, 2015						
Net sales	\$72,815	\$130,994	\$64,297	\$219,226	\$98,062	\$585,394
Gross profit	\$49,064	\$83,075	\$35,513	\$104,959	\$71,511	\$344,122
Operating income	\$23,770	\$34,638	\$4,566	\$22,544	\$26,180	\$111,698

Allocation of certain research and development expenses, and selling, general, and administrative expenses are made to each segment on a percent of revenue basis.

Net sales and property and equipment, net by geographic area are as follows as of and for the 13-week periods ended March 26, 2016 and March 28, 2015. Note that APAC includes Asia Pacific and EMEA includes Europe, the Middle East and Africa:

	Americas	APAC	EMEA	Total
March 26, 2016				
Net sales to external customers	\$317,957	\$80,355	\$225,728	\$624,040
Property and equipment, net	\$297,033	\$112,115	\$39,819	\$448,967
March 28, 2015				
Net sales to external customers	\$305,261	\$71,782	\$208,351	\$585,394
Property and equipment, net	\$276,605	\$111,544	\$47,955	\$436,104

5. Warranty Reserves

The Company's products sold are generally covered by a warranty for periods ranging from one to two years. The Company's estimate of costs to service its warranty obligations are based on historical experience and expectation of future conditions and are recorded as a liability on the balance sheet. The following reconciliation provides an illustration of changes in the aggregate warranty reserve.

	13-Weeks Ended	
	March 26, 2016	March 28, 2015
Balance - beginning of the period	\$30,449	\$ 27,609
Accrual for products sold	12,452	6,742
Expenditures	(11,494)	(10,485)
Balance - end of the period	\$31,407	\$ 23,866

6. Commitments and Contingencies

The Company is party to certain commitments, which include purchases of raw materials, advertising expenditures, investments in certain low income housing tax credit projects, and other indirect purchases in connection with conducting our business. The aggregate amount of purchase orders and other commitments open as of March 26, 2016 was approximately \$273,124. We cannot determine the aggregate amount of such purchase orders that represent contractual obligations because purchase orders may represent authorizations to purchase rather than binding agreements. Our purchase orders are based on our current needs and are typically fulfilled within short periods of time.

In the normal course of business, the Company and its subsidiaries are parties to various legal claims, investigations and complaints, including matters alleging patent infringement and other intellectual property claims. The Company evaluates, on a quarterly basis, developments in legal proceedings, investigations or claims that could affect the amount of any accrual or disclosure. The assessment regarding whether a loss is probable or a reasonable possibility, and whether the loss or a range of loss is estimable, often involves a series of complex judgments about future events.

Management of the Company currently does not believe there is at least a reasonable possibility the Company may have incurred a material loss, or a material loss in excess of recorded accruals, with respect to loss contingencies individually and in the aggregate, for the fiscal quarter ended March 26, 2016. The results of legal proceedings, investigations and claims, however, cannot be predicted with certainty. Although management considers the likelihood to be remote, an adverse resolution of one or more of such matters in excess of management's expectations could have a material adverse effect on the Company's results of operations in a particular quarter or fiscal year.

The Company settled or resolved certain matters during the fiscal quarter ended March 26, 2016 that did not individually or in the aggregate have a material impact on the Company's financial condition or results of operations.

7. Income Taxes

The Company's income tax expense increased from \$9,403 to \$19,455 for the 13-week period ended March 26, 2016, compared to the 13-week period ended March 28, 2015. The effective tax rate was 18.1% in the first quarter of 2016, compared to 12.3% in the first quarter of 2015. The increase in effective tax rate compared to the first quarter 2015 resulted from the reduced income projection for 2016, which negatively impacts our income mix by jurisdiction. Additionally, the favorable release of uncertain tax position reserves due to expiration of certain statutes of limitations or completion of tax audits decreased by \$1,514 compared to the first quarter of 2015. The increase in the effective tax rate was partially offset as a result of the permanent extension of the U.S. research and development tax credit legislation, which had not yet been extended in the first quarter of 2015.

8. Marketable Securities

The Financial Accounting Standards Board ("FASB") ASC topic entitled *Fair Value Measurements and Disclosures* defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The accounting guidance classifies the inputs used to measure fair value into the following hierarchy:

Level 1 Unadjusted quoted prices in active markets for the identical asset or liability

Level 2 Observable inputs for the asset or liability, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability

Level 3 Unobservable inputs for the asset or liability

The Company endeavors to utilize the best available information in measuring fair value. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation is based on prices obtained from an independent pricing vendor using both market and income approaches. The primary inputs to the valuation include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields, and credit spreads.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Available-for-sale securities measured at estimated fair value on a recurring basis are summarized below:

	Fair Value Measurements as of March 26, 2016

(1) Represents impairment not related to credit for those investment securities that have been determined to be other-than-temporarily impaired.

(2) Represents unrealized losses on investment securities that have not been determined to be other-than-temporarily impaired.

The Company's investment policy requires investments to be rated A or better with the objective of minimizing the potential risk of principal loss. The fair value of the securities varies from period to period due to changes in interest rates, in the performance of the underlying collateral and in the credit performance of the underlying issuer, among other factors. The Company does not intend to sell the securities that have an unrealized loss shown in the table above and it is not more likely than not that the Company will be required to sell the investment before recovery of their amortized costs bases, which may be maturity.

The Company recognizes the credit component of other-than-temporary impairments of debt securities in "Other Income" and the noncredit component in "Other comprehensive income (loss)" for those securities that we do not intend to sell and for which it is not more likely than not that we will be required to sell before recovery. During 2015 and the 13-week period ending March 26, 2016, the Company did not record any material impairment charges on its outstanding securities.

The amortized cost and estimated fair value of the securities at an unrealized loss position at March 26, 2016 were \$977,633 and \$967,719, respectively. Approximately 48.8% of securities in the Company's portfolio were at an unrealized loss position at March 26, 2016. We have the ability to hold these securities until maturity or their value is recovered. We do not consider these unrealized losses to be other-than-temporary credit losses because there has been no deterioration in credit quality and no change in the cash flows of the underlying securities. The Company does not intend to sell the securities and it is not more likely than not that the Company will be required to sell the securities; therefore, no impairment has been recorded in the accompanying condensed consolidated statement of income.

The cost of securities sold is based on the specific identification method.

The following table displays additional information regarding gross unrealized losses and fair value by major security type for available-for-sale securities in an unrealized loss position:

9.Share Repurchase Plan

On February 13, 2015, the Board of Directors approved a share repurchase program authorizing the Company to repurchase up to \$300,000 of the common shares of Garmin Ltd. The repurchases may be made from time to time as market and business conditions warrant on the open market or in negotiated transactions in compliance with the SEC's Rule 10b-18. The timing and amounts of any repurchases will be determined by the Company's management depending on business and market conditions and other factors including price, regulatory requirements and capital availability. The program does not require the purchase of any minimum number of shares and may be suspended or discontinued at any time. The share repurchase authorization expires on December 31, 2016. As of March 26, 2016, the Company had repurchased 3,679 shares using cash of \$151,209. There remains approximately \$148,791 available to repurchase additional shares under this authorization.

11. Recently Issued Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (Topic 606) (“ASU 2014-09”), which supersedes previous revenue recognition guidance. ASU 2014-09 requires that a company will recognize revenue at an amount that reflects the consideration to which the company expects to be entitled in exchange for transferring goods or services to a customer. The new standard may be applied retrospectively to each prior period presented or in a modified retrospective approach in which the cumulative effect will be recognized as of the date of adoption. In August 2015, the FASB issued Accounting Standards Update No. 2015-14 (“ASU 2015-14”), which defers the effective date of the new guidance such that the new provisions will now be required for fiscal years, and interim periods within those years, beginning after December 15, 2017. In March 2016, the FASB issued Accounting Standards Update No. 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (“ASU 2016-08”), which clarifies the implementation guidance on principal versus agent considerations (reporting revenue gross versus net) in the new revenue recognition standard. The Company is currently evaluating the impact of adopting the new revenue standards on its consolidated financial statements.

In January 2016, the FASB issued Accounting Standards Update No. 2016-01, Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities (“ASU 2016-01”). The standard addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. ASU 2016-01 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. The Company is currently evaluating the impact of adopting the new standard on its consolidated financial statements.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, Leases (Topic 842) (“ASU 2016-02”), which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. ASU 2016-02 requires lessees to present a right-of-use asset and a corresponding lease liability on the balance sheet. Lessor accounting is substantially unchanged compared to the current accounting guidance. ASU 2016-02 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018. Early adoption is permitted. The Company is currently evaluating the impact of adopting the new standard on its consolidated financial statements.

In March 2016, the FASB issued Accounting Standards Update No. 2016-09, Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting (“ASU 2016-09”), which is intended to simplify the accounting for share-based payment awards. The standard includes provisions addressing income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. ASU 2016-09 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. The Company is currently evaluating the impact of adopting the new standard on its consolidated financial statements.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The discussion set forth below, as well as other portions of this Quarterly Report, contains statements concerning potential future events. Such forward-looking statements are based upon assumptions by management, as of the date of this Quarterly Report, including assumptions about risks and uncertainties faced by the Company. Readers can identify these forward-looking statements by their use of such verbs as expects, anticipates, believes or similar verbs or conjugations of such verbs. If any of the Company’s assumptions prove incorrect or should unanticipated circumstances arise, actual results could materially differ from those anticipated by such forward-looking statements. The differences could be caused by a number of factors or combination of factors including, but not limited to, those factors identified in the Company’s Annual Report on Form 10-K for the year ended December 26, 2015. This report has been filed with the Securities and Exchange Commission (the "SEC" or the "Commission") in Washington, D.C. and can be obtained by contacting the SEC's public reference operations or obtaining it through the SEC's website at <http://www.sec.gov>. Readers are strongly encouraged to consider those factors when evaluating any forward-looking statement concerning the Company. The Company will not update any forward-looking statements in this Quarterly Report to reflect future events or developments.

The information contained in this Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Condensed Consolidated Financial Statements and Notes thereto included in this Form 10-Q and the audited financial statements and notes thereto in the Company's Annual Report on Form 10-K for the year ended December 26, 2015.

The Company is a leading worldwide provider of navigation, communications and information devices, most of which are enabled by Global Positioning System, or GPS, technology. We operate in five business segments, the outdoor, fitness, marine, auto and aviation markets. The Company's segments offer products through its network of independent dealers and distributors. However, the nature of products and types of customers for the five segments may vary significantly. As such, the segments are managed separately.

Results of Operations

The following table sets forth the Company's results of operations as a percentage of net sales during the periods shown (the table may not foot due to rounding):

	13-Weeks Ended			
	March 26, 2016		March 28, 2015	
Net sales	100	%	100	%
Cost of goods sold	46	%	41	%
Gross profit	54	%	59	%
Advertising	5	%	5	%
Selling, general and administrative	15	%	17	%
Research and development	17	%	18	%
Total operating expenses	38	%	40	%
Operating income	17	%	19	%
Other income (expense), net	1	%	-6	%
Income before income taxes	17	%	13	%
Provision for income taxes	3	%	2	%
Net income	14	%	11	%

The Company manages its operations in five segments: outdoor, fitness, marine, auto, and aviation, and each of its segments employs the same accounting policies. Allocation of certain research and development expenses, and selling, general, and administrative expenses are made to each segment on a percent of revenue basis. The segment table located in Note 4 sets forth the Company's results of operations (in thousands) including net sales, gross profit, and operating income for each of the Company's five segments during the periods shown. For each line item in the table, the total of the outdoor, fitness, marine, auto, and aviation segments' amounts equals the amount in the condensed consolidated statements of income included in Item 1.

In 2016 the Company moved action camera related revenue and expenses from the Outdoor segment to the Auto segment, allowing for alignment and synergies with other camera-based efforts occurring within the Auto segment. The overall impact of the move was immaterial. However, action camera related operating results for the 13-weeks ended March 28, 2015 have been recast to conform to the current year presentation.

Comparison of 13-Weeks Ended March 26, 2016 and March 28, 2015

(Amounts included in the following discussion are stated in thousands unless otherwise indicated)

Net Sales

	13-weeks ended March 26, 2016		13-weeks ended March 28, 2015		Year over Year		
	Net Sales	% of Revenues	Net Sales	% of Revenues	\$ Change	% Change	
Outdoor	\$ 96,827	16	% \$ 72,815	12	% \$24,012	33	%
Fitness	142,418	23	% 130,994	22	% 11,423	9	%
Marine	82,880	13	% 64,297	11	% 18,583	29	%

Aviation	106,316	17	% 98,062	17	% 8,254	8	%
Total	\$ 624,040	100	% \$ 585,394	100	% \$38,645	7	%

Net sales increased 7% for the 13-week period ended March 26, 2016 when compared to the year-ago quarter. All segments, excluding auto, grew in the quarter. Auto revenue remains the largest portion of our revenue mix at 31% in the first quarter of 2016 compared to 37% in the first quarter of 2015.

Total unit sales increased to 3,316 in the first quarter of 2016 from 3,044 in the same period of 2015.

Auto segment revenue decreased 11% from the year-ago quarter, as personal navigation device (PND) volumes continued to decline and due to the reduced contribution of amortization of previously deferred revenue in the first quarter of 2016 compared to first quarter 2015. Revenue in our outdoor segment experienced robust growth of 33% driven by growth in wearable and dog categories. Revenue in our marine segment increased 29% as new products, which garner higher average selling prices (ASPs), led to improved demand and market share gains. Fitness revenue grew 9% due to strong growth of newly introduced products. Aviation revenue increased 8% from the year-ago quarter due to contributions in both OEM and aftermarket.

Cost of Goods Sold

	13-weeks ended March 26, 2016		13-weeks ended March 28, 2015		Year over Year		
	Cost of Goods	% of Revenues	Cost of Goods	% of Revenues	\$ Change	% Change	
Outdoor	\$ 37,895	39	% \$ 23,751	33	% \$ 14,143	60	%

Marine	38,731	47	% 28,784	45	% 9,947	35	%
Auto	109,455	56	% 114,267	52	% (4,812)	-4	%
Aviation	27,985	26	% 26,551	27	% 1,434	5	%
Total	\$ 284,190	46	% \$ 241,272	41	% \$ 42,919	18	%

Cost of goods sold increased 500 basis points as a percentage of revenue from the year ago quarter with increases in all segments that posted revenue growth with a slightly offsetting decline in auto, while increasing 18% in absolute dollars.

In the auto segment, the 400 basis point cost of goods sold increase reflects lower PND shipments and product mix shift toward lower margin software-focused OEM solutions. Cost of goods as a percentage of revenue for fitness was negatively impacted by product mix shifts to high volume, lower ASP activity trackers. In the outdoor segment, the increase in cost of goods sold reflects product mix shift toward higher cost per unit products. In the marine segment, the cost of goods sold increase reflects the product mix shift toward higher cost per unit products while in the aviation

segment product mix resulted in decreased cost of goods sold as a percent of revenue.

Gross Profit

	13-weeks ended March 26, 2016		13-weeks ended March 28, 2015		Year over Year		
	Gross Profit	% of Revenues	Gross Profit	% of Revenues	\$ Change	% Change	
Outdoor	\$ 58,932	61	% \$ 49,064	67	% \$9,868	20	%
Fitness	72,294	51	% 83,075	63	% (10,781)	-13	%
Marine	44,149	53	% 35,513	55	% 8,635	24	%
Auto	86,144	44	% 104,959	48	% (18,815)	-18	%
Aviation	78,331	74	% 71,511	73	% 6,819	10	%
Total	\$ 339,850	54	% \$ 344,122	59	% \$(4,271)	-1	%

Gross profit dollars in the first quarter of 2016 decreased 1% while gross profit margin decreased 400 basis points compared to the first quarter of 2015. Fitness, outdoor, marine and auto suffered gross margin decline, as discussed above. Aviation margins increased slightly, as discussed above.

Advertising Expense

	13-weeks ended March 26, 2016		13-weeks ended March 28, 2015		Year over Year		
	Advertising Expense	% of Revenues	Advertising Expense	% of Revenues	\$ Change	% Change	
Outdoor	\$ 5,158	5	% \$ 4,151	6	% \$ 1,008	24	%
Fitness	14,852	10	% 11,170	9	% 3,682	33	%
Marine	4,603	6	% 3,763	6	% 839	22	%
Auto	6,165	3	% 7,225	3	% (1,060)	-15	%
Aviation	1,455	1	% 1,363	1	% 92	7	%
Total	\$ 32,233	5	% \$ 27,672	5	% \$ 4,560	16	%

Advertising expense increased 16% in absolute dollars and were flat year-over-year as a percent of revenue. The increase in absolute dollars primarily occurred in fitness and outdoor with increased media spend and cooperative advertising. This increase was partially offset by decreased spending in auto due to reduced cooperative advertising associated with lower volumes.

Selling, General and Administrative Expense

	13-weeks ended March 26, 2016		13-weeks ended March 28, 2015		Year over Year		
	Selling, General & Admin. Expenses	% of Revenues	Selling, General & Admin. Expenses	% of Revenues	\$ Change	% Change	
Outdoor	\$ 15,971	16	% \$ 12,665	17	% \$ 3,306	26	%
Fitness	26,051	18	% 25,082	19	% 968	4	%
Marine	16,082	19	% 13,979	22	% 2,103	15	%
Auto	30,790	16	% 40,746	19	% (9,956)	-24	%
Aviation	6,716	6	% 6,278	6	% 438	7	%
Total	\$ 95,610	15	% \$ 98,750	17	% (\$ 3,139)	-3	%

Selling, general and administrative expense decreased 3% in absolute dollars and 200 basis points as a percent of revenues compared to the year-ago quarter. The absolute dollar decrease is related to less litigation related costs compared to the year ago period. Variances by segment are primarily due to the allocation of certain selling, general and administrative expenses based on percentage of total revenues.

Research and Development Expense

Edgar Filing: GARMIN LTD - Form 10-Q

Total	\$108,204	17	% \$106,002	18	% \$2,202	2	%

Research and development expense increased 2% due to ongoing development activities for new products. In absolute dollars, research and development costs increased \$2.2 million when compared with the year-ago quarter but decreased as a percent of revenue by 100 basis points. Our research and development spending is focused on creating new products, new product categories, and new markets through innovation and clear differentiators from our competition.

Operating Income

	13-weeks ended March 26, 2016		13-weeks ended March 28, 2015		Year over Year			
	Operating Income	% of Revenues	Operating Income	% of Revenues	\$ Change	% Change

Total	\$ 103,803	17	% \$ 111,698	19	% \$(7,896)	-7	%	

Operating income decreased 7% in absolute dollars and 200 basis points as a percent of revenue when compared to the first quarter of 2015. Revenue growth, declines in the gross margin percentage, as discussed above, coupled with increases in advertising and research and development, contributed to the decline.

Other Income (Expense)

	13-weeks ended March 26, 2016	13-weeks ended March 28, 2015
Interest Income	\$ 7,428	\$ 8,024
Foreign Currency gains (losses)	\$ (4,839)	(44,264)
Other	\$ 1,155	738
Total	\$ 3,744	\$ (35,502)

The average return on cash and investments during the first quarter of 2016 was 1.3% compared to 1.2% during the same quarter of 2015. Lower interest income in the first quarter of 2016, as compared to the same period of 2015, is due to reduced cash balances in the current period.

Foreign currency gains and losses for the Company are typically driven by movements in the Taiwan Dollar and the Euro in relation to the U.S. Dollar. The Taiwan Dollar is the functional currency of Garmin Corporation. The U.S. Dollar is the functional currency of Garmin (Europe) Ltd. The Euro is the functional currency of most other European subsidiaries. As these entities have grown, currency fluctuations can generate material gains and losses. Additionally, Euro-based inter-company transactions can also generate currency gains and losses. Due to the relative size of the entities using a functional currency other than the Taiwan Dollar and the Euro, currency fluctuations related to these entities are not expected to have a material impact on the Company's financial statements.

The \$4.8 million currency loss in the first quarter of 2016 was primarily due to the weakening of the U.S. Dollar against the Taiwan Dollar. During the first quarter of 2016, the U.S. Dollar weakened 1.0% against the Taiwan Dollar, resulting in a loss of \$6.6 million. This was partially offset by the U.S. Dollar also weakening 1.7% against the Euro, resulting in a gain of \$1.1 million. The remaining net currency gain of \$0.7 million is related to other currencies and timing of transactions.

The majority of the \$44.3 million currency loss in the first quarter of 2015 was due to the strengthening of the U.S. Dollar against the Euro in congruence with the U.S. Dollar weakening against the Taiwan Dollar. During the first quarter of 2015, the U.S. Dollar strengthened 10.8% compared to the Euro resulting in a loss of \$31.0 million while the U.S. Dollar weakened against the Taiwan Dollar 1.9% resulting in a loss of \$14.0 million. The remaining net currency gain of \$0.7 million is related to other currencies and timing of transactions.

Income Tax Provision

The Company's income tax expense increased from \$9.4 million to \$19.5 million for the 13-week period ended March 26, 2016, compared to the 13-week period ended March 28, 2015. The effective tax rate was 18.1% in the first quarter of 2016, compared to 12.3% in the first quarter of 2015. The increase in effective tax rate compared to the first quarter 2015 resulted from the reduced income projection for 2016, which negatively impacts our income mix by jurisdiction. Additionally, the favorable release of uncertain tax position reserves due to expiration of certain statutes of limitations or completion of tax audits decreased by \$1.5 million compared to the first quarter of 2015. The increase in the effective tax rate was partially offset as a result of the permanent extension of the U.S. research and development tax credit legislation, which had not yet been extended in the first quarter of 2015.

Net Income

As a result of the above, net income increased by \$21.3 million for the 13-week period ended March 26, 2016 to \$88.1 million compared to \$66.8 million for the 13-week period ended March 28, 2015.

(In thousands)	13-Weeks Ended	
	Mar 26, 2016	Mar 28, 2015
Net cash provided by operating activities	\$ 129,387	\$ 81,655

The \$47.7 million increase in cash provided by operating activities in the first quarter of 2016 compared to first quarter of 2015 was primarily due to the following:

- other current and noncurrent liabilities providing \$41.8 million more cash primarily due to the timing of payments for royalties
- inventories and related provisions for obsolete and slow moving inventories providing \$41.7 million more cash primarily due to reduced purchases of raw materials and
- net income increasing \$21.3 million as discussed in the Results of Operations above

Partially offset by:

- the \$53.3 million impact of decreasing unrealized foreign currency losses due primarily to foreign currency rate fluctuations as discussed in the Results of Operations section above
- accounts payable providing \$19.5 million less cash due to the timing of disbursements and
- the impact of income tax payable providing \$11.5 million less cash due to the timing of disbursements

Net cash provided by investing activities	\$8,631	\$23,177

The \$14.6 million decrease in cash provided by investing activities in first quarter of 2016 compared to first quarter of 2015 was primarily due to the following:

· increased cash payments for acquisitions of \$49.5 million

Partially offset by:

· increased net redemptions of marketable securities of \$32.4 million

It is management's goal to invest the on-hand cash consistent with Garmin's investment policy, which has been approved by the Board of Directors. The investment policy's primary purpose is to preserve capital, maintain an acceptable degree of liquidity, and maximize yield within the constraint of low credit risk. Garmin's average interest rate returns on cash and investments during first quarter of 2016 and 2015 were approximately 1.3% and 1.2%, respectively.

Financing Activities

(In thousands)	13-Weeks Ended	
	Mar 26, 2016	Mar 28, 2015
Net cash used in financing activities	\$(116,273)	\$(107,668)

The \$8.6 million increase in cash used in financing activities in first quarter of 2016 compared to first quarter of 2015 was primarily due to the following:

- increased dividend payments of \$4.6 million due to the increase of our year-over-year dividend rate and
- increased purchases of treasury stock of \$3.5 million under a share repurchase authorization

We currently use cash flow from operations to fund our capital expenditures, to support our working capital requirements, to pay dividends, and to fund share repurchases. We expect that future cash requirements will principally be for capital expenditures, working capital, payment of dividends declared, share repurchases and the funding of strategic acquisitions. We believe that our existing cash balances and cash flow from operations will be sufficient to meet our long-term projected capital expenditures, working capital and other cash requirements.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There are numerous market risks that can affect our future business, financial condition and results of operations. In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part II, “Item 7A. Quantitative and Qualitative Disclosures About Market Risk” in our Annual Report on Form 10-K for the fiscal year ended December 26, 2015. There have been no material changes during the 13-week period ended March 26, 2016 in the risks described in our Annual Report on Form 10-K related to market sensitivity, inflation, foreign currency exchange rate risk and interest rate risk.

Item 4. Controls and Procedures

(a) *Evaluation of disclosure controls and procedures.* The Company maintains a system of disclosure controls and procedures that are designed to provide reasonable assurance that information, which is required to be timely disclosed, is accumulated and communicated to management in a timely fashion. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. As of March 26, 2016, the Company carried out an evaluation, under the supervision and with the participation of the Company’s management, including the Company’s Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company’s disclosure controls and procedures. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded as of March 26, 2016 that our disclosure controls and procedures were effective such that the information relating to the Company, required to be disclosed in our Securities and Exchange Commission (“SEC”) reports (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to the Company’s management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) *Changes in internal control over financial reporting.* There has been no change in the Company's internal controls over financial reporting that occurred during the Company's fiscal quarter ended March 26, 2016 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II - Other Information

Item 1. Legal Proceedings

The following information supplements and amends the discussion set forth under Part I, Item 3 "Legal Proceedings" in the Company's Annual Report on Form 10-K for the fiscal year ended December 26, 2015.

Brian Meyers, on behalf of himself and all others similarly situated, v. Garmin International, Inc. Garmin USA, Inc. and Garmin Ltd.

On March 30, 2016, the court denied the plaintiff's motion for class certification, granted summary judgment in favor of Garmin and dismissed the lawsuit.

Navico Inc. And Navico Holding AS v. Garmin International, Inc. and Garmin USA, Inc.

On March 4, 2016 Navico Inc. and Navico Holding AS filed suit in the United States District Court for the Eastern District of Texas, Marshall Division, against Garmin International, Inc. and Garmin USA, Inc. (collectively, "Garmin") alleging infringement of U.S. Patents 9,223,022 ("the '022 patent") and 9,244,168 ("the '168 patent"). On April 1, 2016 Garmin filed its answer asserting that each asserted claim of the '022 and '168 patents is invalid and/or not infringed and that the '022 and '168 patents are unenforceable due to inequitable conduct by Navico's representatives during the prosecution of these patents. On April 1, 2016 Garmin also filed a motion to transfer this action to the United States District Court for the Northern District of Oklahoma. Although there can be no assurance that an unfavorable outcome of this litigation would not have a material adverse effect on our operating results, liquidity or financial position, Garmin believes that the claims in this lawsuit are without merit and intends to vigorously defend this lawsuit.

Pioneer Corporation v. Iiyonet Inc.

On February 16, 2016 the eighth round of oral arguments was held before the Tokyo District Court. The court has scheduled a ninth and final round of oral arguments to take place on May 12, 2016. On April 8, 2016, the Japanese Patent Office issued a Trial Decision finding that Pioneer's asserted claims, as amended, are valid.

In the normal course of business, the Company and its subsidiaries are parties to various legal claims, actions, and complaints, including matters involving patent infringement, other intellectual property, product liability, customer claims and various other risks. It is not possible to predict with certainty whether or not the Company and its subsidiaries will ultimately be successful in any of these legal matters, or if not, what the impact might be. However, the Company's management does not expect that the results in any of these legal proceedings will have a material adverse effect on the Company's results of operations, financial position or cash flows.

Item 1A. Risk Factors

There are many risks and uncertainties that can affect our future business, financial performance or share price. In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 26, 2015. There have been no material changes during the 13-week period ended March 26, 2016 in the risks described in our Annual Report on Form 10-K. These risks, however, are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Items (a) and (b) are not applicable.

(c) Issuer Purchases of Equity Securities

The Board of Directors approved a share repurchase program on February 13, 2015, authorizing the Company to purchase up to \$300 million of its common shares as market and business conditions warrant. The share repurchase authorization expires on December 31, 2016. The following table lists the Company's share purchases during the first quarter of fiscal 2016:

Period	Total # of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares (or approx. Dollar Value of Shares in thousands) That may yet be Purchased Under the Plans or Program
December 27, 2015 - January 23, 2016	135,007	\$ 34.08	135,007	\$ 163,986
January 24, 2016- February 20, 2016	121,589	\$ 35.00	121,589	\$ 159,731
