Form 10-Q
October 30, 2015

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549
FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended September 30, 2015

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from _____ to _____

Commission File Number: 1-5672

ITT CORPORATION

State of Indiana

13-5158950

(State or Other Jurisdiction

(I.R.S. Employer

of Incorporation or Organization)

Identification Number)

1133 Westchester Avenue, White Plains, NY 10604

(Principal Executive Office)

Telephone Number: (914) 641-2000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 29, 2015, there were outstanding 89.5 million shares of common stock (\$1 par value per share) of the registrant.

FORWARD-LOOKING AND CAUTIONARY STATEMENTS

Some of the information included herein includes forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates, assumptions and projections about the business and future financial results of the industry in which we operate, and other legal, regulatory and economic developments. These forward-looking statements include, but are not limited to, future strategic plans and other statements that describe the company's business strategy, outlook, objectives, plans, intentions or goals, and any discussion of future operating or financial performance.

We use words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "target," "future," "may," "will," "could," "should," "potential," "continue," "guidance" and other similar expressions to identify such forward-looking statements. Forward-looking statements are uncertain and to some extent unpredictable, and involve known and unknown risks, uncertainties and other important factors that could cause actual results to differ materially from those expressed or implied in, or reasonably inferred from, such forward-looking statements.

Where in any forward-looking statement we express an expectation or belief as to future results or events, such expectation or belief is based on current plans and expectations of our management, expressed in good faith and believed to have a reasonable basis. However, there can be no assurance that the expectation or belief will result or will be achieved or accomplished. More information on factors that could cause actual results or events to differ materially from those anticipated is included in our reports filed with the U.S. Securities and Exchange Commission (the SEC), including our Annual Report on Form 10-K for the year ended December 31, 2014 (particularly under the caption "Risk Factors"), our Quarterly Reports on Form 10-Q (including Part II, Item 1A, "Risk Factors," of this Quarterly Report on Form 10-Q) and other documents we file from time to time with the SEC.

The forward-looking statements included in this Quarterly Report on Form 10-Q (this Report) speak only as of the date of this Report. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You can inspect, read and copy these reports, proxy statements and other information at the SEC's Public Reference Room, which is located at 100 F Street, N.E., Washington, D.C. 20549. You can obtain information regarding the operation of the SEC's Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains a website at www.sec.gov that makes available reports, proxy statements and other information regarding issuers that file electronically.

We make available free of charge at www.itt.com (in the "Investors" section) copies of materials we file with, or furnish to, the SEC. We use the Investor Relations page of our website at www.itt.com (in the "Investors" section) to disclose important information to the public.

Information contained on our website, or that can be accessed through our website, does not constitute a part of this Report. We have included our website address only as an inactive textual reference and do not intend it to be an active link to our website. Our corporate headquarters are located at 1133 Westchester Avenue, White Plains, NY 10604 and the telephone number of this location is (914) 641-2000.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
(DOLLARS AND SHARE AMOUNTS IN MILLIONS, UNLESS OTHERWISE STATED)

NOTE 1

DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Description of Business

ITT Corporation is a diversified manufacturer of highly engineered critical components and customized technology solutions for the energy, transportation, and industrial markets. Unless the context otherwise indicates, references herein to “ITT,” “the Company,” and such words as “we,” “us,” and “our” include ITT Corporation and its subsidiaries. ITT operates through four segments: Industrial Process, consisting of industrial pumping and complementary equipment; Motion Technologies, consisting of friction and shock and vibration equipment; Interconnect Solutions, consisting of electronic connectors; and Control Technologies, consisting of fluid handling, motion control, and noise and energy absorption products. Financial information for our segments is presented in Note 3, “Segment Information.”

On October 31, 2011, ITT completed the tax-free spin-off of its Defense and Information Solutions business, Exelis Inc. (Exelis), and its water-related businesses, Xylem Inc. (Xylem) by way of a distribution of all of the issued and outstanding shares of Exelis common stock and Xylem common stock, on a pro rata basis, to ITT shareholders of record on October 17, 2011. This transaction is referred to in this Report as the “2011 spin-off.” On May 29, 2015, Harris Corporation acquired Exelis.

Basis of Presentation

The unaudited consolidated condensed financial statements have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (SEC) and, in the opinion of management, reflect all adjustments (which include normal recurring adjustments) necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented. Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted pursuant to such SEC rules. We believe that the disclosures made are adequate to make the information presented not misleading. We consistently applied the accounting policies described in ITT's Annual Report on Form 10-K for the year ended December 31, 2014 (2014 Annual Report) in preparing these unaudited financial statements. These financial statements should be read in conjunction with the financial statements and notes thereto included in our 2014 Annual Report.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Estimates are revised as additional information becomes available. Estimates and assumptions are used for, but not limited to, asbestos-related liabilities and recoveries from insurers, revenue recognition, unrecognized tax benefits, deferred tax valuation allowances, projected benefit obligations for postretirement plans, accounting for business combinations, goodwill and other intangible asset impairment testing, environmental liabilities and recoveries from insurers, allowance for doubtful accounts and inventory valuation. Actual results could differ from these estimates. ITT's quarterly financial periods end on the Saturday that is generally closest to the last day of the calendar quarter, except for the last quarterly period of the fiscal year, which ends on December 31st. For ease of presentation, the quarterly financial statements included herein are described as ending on the last day of the calendar quarter.

NOTE 2

RECENT ACCOUNTING PRONOUNCEMENTS

The Company considers the applicability and impact of all accounting standard updates (ASUs). ASUs not listed below were assessed and determined to be either not applicable or are expected to have minimal impact on our consolidated financial position or results of operations.

Accounting Pronouncements Not Yet Adopted

In July 2015, the Financial Accounting Standards Board (FASB) amended the existing accounting standards for inventory, requiring that an entity measure inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The amendment applies to all inventory that is measured using a method other than last-in, first-out (LIFO) or the retail inventory method. The new guidance will be effective for the Company beginning in its first quarter of 2017 and will be applied prospectively. The adoption of this amendment is not expected to have a material impact to ITT's financial statements.

In May 2014, the FASB amended the existing accounting standards for revenue recognition. The amendments are based on the principle that revenue should be recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance provides a five-step analysis of transactions to determine when and how revenue is recognized. The guidance also requires enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. The new guidance will be effective for the Company beginning in its first quarter of 2018. The amendments may be applied retrospectively to each prior period presented or with the cumulative effect recognized as of the date of initial application. ITT is currently evaluating the impact of these amendments and the transition alternatives on ITT's financial statements.

NOTE 3

SEGMENT INFORMATION

The Company's segments are reported on the same basis used internally for evaluating performance and for allocating resources. Our four reportable segments are referred to as: Industrial Process, Motion Technologies, Interconnect Solutions and Control Technologies.

Industrial Process manufactures engineered fluid process equipment serving a diversified mix of customers in global infrastructure industries such as chemical, oil and gas, mining, and other industrial process markets and is a provider of plant optimization and efficiency solutions and aftermarket services and parts.

Motion Technologies manufactures brake components, shock absorbers and damping technologies for the global automotive, truck and trailer, public bus and rail transportation markets.

Interconnect Solutions manufactures and designs a wide range of highly engineered harsh environment connector solutions that make it possible to transfer signal and power between electronic devices which service global customers for the aerospace and defense, industrial and transportation, oil and gas, and medical markets.

Control Technologies manufactures specialized equipment, including actuation, fuel management, noise and energy absorption, and environmental control system components, for the aerospace and defense, and industrial markets.

Corporate and Other consists of corporate office expenses including compensation, benefits, occupancy, depreciation, and other administrative costs, as well as charges related to certain matters, such as asbestos and environmental liabilities, that are managed at a corporate level and are not included in segment results when evaluating performance or allocating resources. Assets of the segments exclude general corporate assets, which principally consist of cash, investments, asbestos-related assets and certain property, plant and equipment.

NOTE 4

RESTRUCTURING ACTIONS

The table below summarizes the restructuring costs presented within general and administrative expenses in our Consolidated Condensed Income Statements for the three and nine months ended September 30, 2015 and 2014.

For the Periods Ended September 30	Three Months		Nine Months	
	2015	2014	2015	2014
Severance costs	\$1.1	\$2.2	\$16.2	\$18.8
Asset write-offs	0.7	—	0.7	1.3
Other restructuring costs	—	0.9	0.9	2.1
Total restructuring costs	\$1.8	\$3.1	\$17.8	\$22.2
By segment:				
Industrial Process	\$0.6	\$1.6	\$10.6	\$4.5
Motion Technologies	—	0.1	—	0.3
Interconnect Solutions	0.9	0.4	6.2	16.4
Control Technologies	0.3	—	0.8	—
Corporate and Other	—	1.0	0.2	1.0

The following table displays a rollforward of the restructuring accruals, presented on our Consolidated Condensed Balance Sheet within accrued liabilities, for the nine months ended September 30, 2015 and 2014.

For the Nine Months Ended September 30	2015	2014
Restructuring accruals - beginning balance	\$21.9	\$14.7
Restructuring costs	17.8	22.2
Cash payments	(19.5)	(13.0)
Asset write-offs	(0.7)	(1.3)
Foreign exchange translation and other	(0.3)	(0.5)
Restructuring accrual - ending balance	\$19.2	\$22.1
By accrual type:		
Severance accrual	\$18.2	\$20.0
Facility carrying and other costs accrual	1.0	2.1

2015 Interconnect Solutions Restructuring Actions

In May 2015, we announced a restructuring action for the Company's Interconnect Solutions (ICS) segment to reduce overall costs and better align the segment with current market conditions. The Company expects to incur cash restructuring costs, principally involuntary severance, of approximately \$12 for 110 employees, which represents 6% of the ICS global workforce. The Company expects to substantially complete these actions in the next twelve months. The following table provides a rollforward of the restructuring accruals associated with the 2015 ICS restructuring action.

For the Nine Months Ended September 30	2015
Restructuring accruals - beginning balance	\$—
Restructuring costs	6.4
Cash payments	(4.8)
Restructuring accruals - ending balance	\$1.6

2015 Industrial Process Restructuring Actions

In March 2015, we announced a series of restructuring actions in the Company's Industrial Process segment related to a strategic reorganization of the business and to achieve efficiencies and reduce the overall cost structure. The Company expects to incur cash restructuring costs, principally involuntary severance costs of approximately \$15 to \$16 and other non-cash restructuring costs of approximately \$2 in aggregate related to this action. The costs incurred during the nine months ended September 30, 2015 primarily relate to employee severance for approximately 200 planned headcount reductions. We expect to incur the remaining restructuring costs of approximately \$6 to \$7 over the next 3 to 6 months related to this action. The following table provides a rollforward of the restructuring accruals associated with the 2015 Industrial Process restructuring actions.

For the Nine Months Ended September 30	2015
Restructuring accruals - beginning balance	\$—
Restructuring costs	10.6
Cash payments	(3.1)
Asset write-offs	(0.7)
Restructuring accruals - ending balance	\$6.8

2013 / 2014 Interconnect Solutions Restructuring Actions

In 2013, we initiated a comprehensive restructuring plan to improve the overall cost structure of the Company's ICS segment, including the transition of certain production lines from one location to another existing lower cost manufacturing site. During 2015, we reversed \$0.2 of a previously estimated restructuring liability and made cash payments of \$7.3, resulting in a remaining liability of \$9.4 as of September 30, 2015. The remaining liability, which is primarily related to employee severance, is expected to be fully satisfied over the next 18 months. We do not expect to incur any additional charges related to this restructuring action.

NOTE 5

INCOME TAXES

For the three months ended September 30, 2015 and 2014, the Company recognized income tax expense of \$11.4 and \$38.0, respectively, representing an effective tax rate of 10.6% and 31.9%, respectively. For the nine months ended September 30, 2015 and 2014, the Company recognized income tax expense of \$53.0 and \$63.4, respectively, representing an effective tax rate of 16.1% and 28.8%, respectively. The lower effective tax rate in 2015 is primarily resulting from the settlement of a U.S. income tax audit and the release of the valuation allowance on certain net deferred tax assets in China due to positive income in recent years. The Company continues to benefit from earnings eligible for a tax holiday in South Korea, as well as a larger mix of earnings in non-U.S. jurisdictions with favorable tax rates.

During the third quarter, the Company effectively settled the U.S. income tax audit for tax years 2009-2011. The Company recorded a tax benefit of \$18.0 in continuing operations, which includes a net tax benefit of \$8.0 from favorable audit adjustments and \$10.0 from the recognition of previously unrecognized tax positions. In addition, this U.S. income tax audit resulted in tax benefit of \$20.9 related to discontinued operations, which includes net tax expense of \$17.4 from unfavorable audit adjustments and a tax benefit of \$38.3 from the recognition of previously unrecognized tax positions. In accordance with the existing Tax Matters Agreement entered into between the Company, Exelis, and Xylem in connection with the 2011 spin-off (the Tax Matters Agreement), the Company is entitled to reimbursement for a portion of the tax liability and has recorded a receivable of \$1.6 and \$13.2 in continuing and discontinued operations, respectively.

The Company operates in various tax jurisdictions and is subject to examination by tax authorities in these jurisdictions. The Company is currently under examination in several jurisdictions including Canada, Germany, Hong Kong, Italy, Mexico, South Korea, the U.S. and Venezuela. The estimated tax liability calculation for unrecognized tax benefits includes dealing with uncertainties in the application of complex tax laws and regulations in various tax jurisdictions. Due to the complexity of some uncertainties, the ultimate resolution may result in a payment that is materially different from the current estimate of the unrecognized tax benefit. Over the next 12 months, the net amount of the tax liability for unrecognized tax benefits in foreign and domestic jurisdictions could change by approximately \$17.7 due to changes in audit status, expiration of statutes of limitations and other events. The settlement of any future examinations could result in changes in amounts attributable to the Company under its

existing Tax Matters Agreement with Exelis and Xylem.

10

NOTE 6

EARNINGS PER SHARE

The following table provides a reconciliation of the data used in the calculation of basic and diluted earnings per share from continuing operations attributable to ITT for the three and nine months ended September 30, 2015 and 2014.

For the Periods Ended September 30	Three Months		Nine Months	
	2015	2014	2015	2014
Basic weighted average common shares outstanding	89.4	91.6	89.9	91.5
Add: Dilutive impact of outstanding equity awards	0.9	1.3	0.9	1.4
Diluted weighted average common shares outstanding	90.3	92.9	90.8	92.9

The following table provides the number of shares underlying stock options excluded from the computation of diluted earnings per share for the three and nine months ended September 30, 2015 and 2014 because they were anti-dilutive.

For the Periods Ended September 30	Three Months		Nine Months	
	2015	2014	2015	2014
Anti-dilutive stock options	0.4	0.2	0.4	0.2
Average exercise price	\$42.42	\$43.51	\$42.53	\$43.51
Year(s) of expiration	2024 - 2025	2024	2024 - 2025	2024

In addition, 0.2 of outstanding return on invested capital (ROIC) awards were excluded from the computation of diluted earnings per share for both the three and nine months ended September 30, 2015 and 2014 respectively, as the necessary performance conditions have not been yet been satisfied.

Depreciation expense of \$16.4 and \$50.4 and \$18.5 and \$52.2 was recognized in the three and nine months ended September 30, 2015 and the three and nine months ended September 30, 2014, respectively.

NOTE 11

GOODWILL AND OTHER INTANGIBLE ASSETS, NET

Goodwill

The following table provides a rollforward of the carrying amount of goodwill for the nine months ended September 30, 2015 by segment.

	Industrial Process	Motion Technologies	Interconnect Solutions	Control Technologies	Total
Goodwill - December 31, 2014	\$331.9	\$43.9	\$71.2	\$185.1	\$632.1
Acquired	—	—	—	13.3	13.3
Allocated to Divestiture	—	—	—	(2.7)	(2.7)
Foreign currency	(14.7)	(3.6)	(1.7)	—	(20.0)
Goodwill - September 30, 2015	\$317.2	\$40.3	\$69.5	\$195.7	\$622.7

Goodwill acquired during 2015 relates to the Hartzell Aerospace acquisition. Refer to Note 18, Acquisitions, for additional information.

Goodwill of \$2.7 was written-off during the second quarter of 2015 in connection with the sale of an industrial product line within our Control Technologies segment that occurred in June 2015. The sale of this product line resulted in a net gain of \$0.1, which included the allocation of this goodwill.

Other Intangible Assets, Net

	September 30, 2015			December 31, 2014		
	Gross Carrying Amount	Accumulated Amortization	Net Intangibles	Gross Carrying Amount	Accumulated Amortization	Net Intangibles
Customer relationships	\$96.3	\$(41.4)	\$54.9	\$83.1	\$(38.3)	\$44.8
Proprietary technology	35.3	(11.0)	24.3	28.1	(9.9)	18.2
Patents and other	8.7	(6.2)	2.5	15.2	(13.1)	2.1
Finite-lived intangible total	140.3	(58.6)	81.7	126.4	(61.3)	65.1
Indefinite-lived intangibles	24.9	—	24.9	26.3	—	26.3
Other Intangible Assets	\$165.2	\$(58.6)	\$106.6	\$152.7	\$(61.3)	\$91.4

The fair value of intangible assets acquired in connection with the purchase of Hartzell Aerospace, based on a preliminary valuation, included \$17.1 of customer relationships, \$9.6 of proprietary technology, and \$1.9 of backlog. These intangible assets will be amortized straight-line over their estimated useful lives of 20 years, 20 years, and 12 months, respectively. See Note 18, Acquisitions, for additional information.

Amortization expense related to finite-lived intangible assets was \$3.0 and \$8.7 and \$2.5 and \$8.8 for the three and nine months ended September 30, 2015 and the three and nine months ended September 30, 2014, respectively.

NOTE 12

ACCRUED LIABILITIES AND OTHER NON-CURRENT LIABILITIES

	September 30, 2015	December 31, 2014
Compensation and other employee-related benefits	\$146.8	\$176.5
Asbestos-related liabilities	87.6	106.6
Customer-related liabilities	41.7	41.3
Accrued income taxes and other tax-related liabilities	39.8	28.0

Other	36.1	38.5
Other non-current liabilities	\$194.2	\$269.5

NOTE 13

COMMERCIAL PAPER

Commercial paper outstanding as of September 30, 2015 was \$10.5, with an associated weighted average interest rate of 0.68% and maturity terms less than one month from the date of issuance. There was no commercial paper outstanding as of December 31, 2014.

NOTE 14

POSTRETIREMENT BENEFIT PLANS

The following tables provide the components of net periodic benefit cost for pension plans and other employee-related benefit plans for the three and nine months ended September 30, 2015 and 2014.

Three Months Ended September 30	2015			2014		
	Pension	Other Benefits	Total	Pension	Other Benefits	Total
Service cost	\$1.4	\$0.3	\$1.7	\$1.2	\$0.5	\$1.7
Interest cost	3.6	1.4	5.0	3.9	2.0	5.9
Expected return on plan assets	(5.1)	(0.2)	(5.3)	(5.1)	(0.2)	(5.3)
Amortization of prior service cost (benefit)	0.2	(2.8)	(2.6)	0.1	(1.5)	(1.4)
Amortization of net actuarial loss	2.2	1.3	3.5	1.6	0.8	2.4
Total net periodic benefit cost	\$2.3	\$—	\$2.3	\$1.7	\$1.6	\$3.3

Nine Months Ended September 30	2015			2014		
	Pension	Other Benefits	Total	Pension	Other Benefits	Total
Service cost	\$4.0	\$0.7	\$4.7	\$3.7	\$1.4	\$5.1
Interest cost	10.7	3.8	14.5	11.7	5.9	17.6
Expected return on plan assets	(15.3)	(0.6)	(15.9)	(15.5)	(0.5)	(16.0)
Amortization of prior service cost (benefit)	0.7	(8.3)	(7.6)	0.5	(4.5)	(4.0)
Amortization of net actuarial loss	6.5	3.5	10.0	4.7	2.3	7.0
Total net periodic benefit cost	\$6.6	\$(0.9)	\$5.7	\$5.1	\$4.6	\$9.7

We made contributions to our global postretirement plans of \$8.2 and \$7.7 during the nine months ended September 30, 2015 and 2014, respectively. We expect to make additional contributions of approximately \$2 to \$5 during the remainder of 2015, principally related to our other postretirement employee benefit plans.

Amortization from accumulated other comprehensive income into earnings related to prior service cost and net actuarial loss was \$0.8 and \$1.9, and \$0.8 and \$2.1, net of tax, during the three and nine months ended September 30, 2015 and 2014, respectively. No other reclassifications from accumulated other comprehensive income into earnings were recognized during any of the presented periods.

NOTE 15

LONG-TERM INCENTIVE EMPLOYEE COMPENSATION

Our long-term incentive plan (LTIP) costs are primarily recorded within general and administrative expenses. The following table provides the components of LTIP costs for the three and nine months ended September 30, 2015 and 2014.

For the Periods Ended September 30	Three Months		Nine Months	
	2015	2014	2015	2014
Equity based awards	\$4.2	\$4.0	\$11.1	\$10.8
Liability-based awards	(0.1)	1.0	0.8	2.9
Total share-based compensation expense	\$4.1	\$5.0	\$11.9	\$13.7

At September 30, 2015, there was estimated unrecognized compensation cost of \$25.8 related to unvested equity-based awards that is expected to be recognized ratably over a weighted-average period of 2.1 years, and \$2.4 related to unvested liability-based awards that are expected to be recognized ratably over a weighted-average period of 2.0 years.

Year-to-Date 2015 LTIP Activity

The majority of our LTIP activity occurs during the first quarter of each year. The majority of LTIP grants occurred on February 25, 2015. During the nine months ended September 30, 2015, we granted the following LTIP awards as provided in the table below:

	# of Awards Granted	Grant Date Fair Value
Non-qualified stock options (NQOs)	0.2	\$11.23
Restricted stock units (RSUs)	0.3	\$40.93
Total shareholder return (TSR) awards	0.1	\$45.67
Return on invested capital (ROIC) awards	0.1	\$40.12

The NQOs vest either on the completion of a three-year service period or annually in three equal installments, as determined by employee level, and have a ten-year expiration period. RSUs, TSR awards, and ROIC awards vest on the completion of a three-year service period.

During the nine months ended September 30, 2015 and 2014, 0.3 and 0.8 NQOs were exercised resulting in proceeds of \$5.5 and \$14.3, respectively. In addition, RSUs of 0.3 vested and were issued during both nine month periods ended September 30, 2015 and 2014, respectively.

The fair value of each NQO grant was estimated on the date of grant using a binomial lattice pricing model that incorporates multiple and variable assumptions over time, including assumptions such as employee exercise patterns, stock price volatility and changes in dividends. The following table details the weighted average assumptions used to measure fair value and the resulting grant date fair value for the first quarter 2015 NQO grants.

Dividend yield	1.1%
Expected volatility	29.4%
Expected life	5.8 years
Risk-free rates	1.7%
Grant date fair value	\$11.23

NOTE 16

CAPITAL STOCK

On October 27, 2006, a three-year \$1 billion share repurchase program was approved by the Board of Directors (2006 Share Repurchase Program). On December 16, 2008, the provisions of the 2006 Share Repurchase Program were modified by the Board of Directors to replace the original three-year term with an indefinite term. We repurchased 2.0 and 0.4 shares of common stock for \$80.0 and \$20.0 during the nine months ended September 30, 2015 and 2014, respectively, under this program. To date, under the 2006 Share Repurchase Program, the Company has repurchased 18.4 shares for \$759.3.

Separate from the 2006 Share Repurchase Program, the Company repurchased 0.1 shares and 0.1 shares for an aggregate price of \$3.9 and \$5.5, during the nine months ended September 30, 2015 and 2014, respectively, in settlement of employee tax withholding obligations due upon the vesting of restricted stock units.

NOTE 17

COMMITMENTS AND CONTINGENCIES

From time to time, we are involved in legal proceedings that are incidental to the operation of our businesses. Some of these proceedings allege damages relating to environmental exposures, intellectual property matters, copyright infringement, personal injury claims, employment and employee benefit matters, government contract issues and commercial or contractual disputes and acquisitions or divestitures. We will continue to aggressively defend all such claims. Although the ultimate outcome of any legal matter cannot be predicted with certainty, based on present information including our assessment of the merits of the particular claim, as well as our current reserves and insurance coverage, we do not expect that such legal proceedings will have a material adverse impact on our financial statements, unless otherwise noted below.

Asbestos Matters

ITT, including its subsidiary Goulds Pumps, Inc. (Goulds Pumps), has been sued, along with many other companies in product liability lawsuits alleging personal injury due to asbestos exposure. These claims generally allege that certain products sold by us or our subsidiaries prior to 1985 contained a part manufactured by a third party (e.g., a gasket) which contained asbestos. To the extent these third-party parts may have contained asbestos, it was encapsulated in the gasket (or other) material and was non-friable. As of September 30, 2015, there were 38 thousand pending active claims against ITT, including Goulds Pumps, filed in various state and federal courts alleging injury as a result of exposure to asbestos. Activity related to these asserted asbestos claims during the period was as follows:

For the Nine Months Ended September 30 (in thousands)	2015	2014
Pending claims – Beginning	62	79
New claims	3	3
Settlements	(1)	(2)
Dismissals	(26)	(12)
Pending claims – Ending	38	68
Pending inactive claims ^(a)	—	18
Pending active claims	38	50

Inactive claims represent pending claims in Mississippi filed in 2004 or prior, which have been excluded from our asbestos measurement because the plaintiffs cannot demonstrate a significant compensable loss. As such, ^(a) management believes these claims have little-to-no value. As of September 30, 2015, all inactive claims have been dismissed.

Frequently, plaintiffs are unable to identify any ITT or Goulds Pumps product as a source of asbestos exposure. Our experience to date is that a majority of resolved claims are dismissed without any payment from the Company. Management believes that a large majority of the pending claims have little or no value. In addition, because claims are sometimes dismissed in large groups, the average cost per resolved claim can fluctuate significantly from period to period. ITT expects more asbestos-related suits will be filed in the future, and ITT will continue to aggressively defend or seek a reasonable resolution, as appropriate.

Asbestos litigation is a unique form of litigation. Frequently, the plaintiff sues a large number of defendants and does not state a specific claim amount. After filing of the complaint, the plaintiff engages defendants in settlement negotiations to establish a settlement value based on certain criteria, including the number of defendants in the case. Rarely do the plaintiffs seek to collect all damages from one defendant. Rather, they seek to spread the liability, and thus the payments, among many defendants. As a result of this and other factors, the Company is unable to estimate the maximum potential exposure to pending claims and claims estimated to be filed over the next 10 years.

Estimating our exposure to pending asbestos claims and those that may be filed in the future is subject to significant uncertainty and risk as there are multiple variables that can affect the timing, severity, quality, quantity and resolution of claims. Any predictions with respect to the variables impacting the estimate of the asbestos liability and related asset are subject to even greater uncertainty as the projection period lengthens. In light of the uncertainties and variables inherent in the long-term projection of the Company's asbestos exposures, although it is probable that the Company will incur additional costs for asbestos claims filed beyond the next 10 years, which additional costs may be material, we do not believe there is a reasonable basis for estimating those costs at this time.

The asbestos liability and related receivables reflect management's best estimate of future events. However, future events affecting the key factors and other variables for either the asbestos liability or the related receivables could cause actual costs or recoveries to be materially higher or lower than currently estimated. Due to these uncertainties, as well as our inability to reasonably estimate any additional asbestos liability for claims which may be filed beyond the next 10 years, it is not possible to predict the ultimate cost of resolving all pending and unasserted asbestos claims. We believe it is possible that future events affecting the key factors and other variables within the next 10 years, as well as the cost of asbestos claims filed beyond the next 10 years, net of expected recoveries, could have a material adverse effect on our financial statements.

Income Statement Costs / Benefit

In the third quarter of each year, we conduct our annual asbestos remeasurement with the assistance of outside consultants to review and update the underlying assumptions used in our asbestos liability and related asset estimates. In each remeasurement, the underlying assumptions are updated based on our actual experience since our previous annual remeasurement and we reassess the appropriate reference period used in determining each assumption and our expectations regarding future conditions, including inflation.

Based on the results of this study, in the third quarter of 2015, we decreased our estimated undiscounted asbestos liability, including legal fees, by \$52.7, reflecting a decrease in costs the company estimates will be incurred to resolve all pending claims, as well as unasserted claims estimated to be filed over the next 10 years. The decrease in our estimated liability is a result of several developments, including favorable experience in the ratio of dismissed claims versus settled claims and lower settlement values. These favorable factors were offset in part by an increasing number of cases expected to be adjudicated. Further, in the third quarter of 2015, the Company decreased its estimated asbestos-related assets by \$7.9, primarily due to the decrease in the estimated liability.

Further, in the third quarter of 2015, ITT entered into a settlement agreement with an insurer to settle responsibility for certain insured claims, resulting in a benefit of \$1.2.

During the second quarter of 2015, the Company changed its asbestos defense strategy and retained a single firm to defend the Company in all asbestos litigation. This long-term strategy streamlines the Company's management of cases and significantly reduces defense costs. Our agreement with the defense firm is currently limited to a certain set of claims and the remaining claims are expected to be transitioned to the firm within the next four years. Based on the terms of the agreement, the Company adjusted its asbestos liability and related assets in the second quarter of 2015 and recognized a net benefit of \$100.7 for the revised estimate of the cost to defend pending claims and claims expected to be filed over the next 10 years.

In addition to the charges associated with our annual remeasurement, we record a net asbestos charge each quarter to maintain a rolling 10-year forecast period. The table below summarizes the total net asbestos charges for the three and nine months ended September 30, 2015 and 2014.

For the Periods Ended September 30	Three Months		Nine Months	
	2015	2014	2015	2014
Asbestos provision	\$15.7	\$16.3	\$47.0	\$48.0
Defense cost adjustment	—	—	(100.7)	—
Net asbestos remeasurement	(44.8)	(58.8)	(44.8)	(58.8)
Settlement agreement	(1.2)	—	(1.2)	—
Asbestos-related (benefit) costs, net	\$(30.3)	\$(42.5)	\$(99.7)	\$(10.8)

Changes in Financial Position

The Company's estimated asbestos exposure, net of expected recoveries, for the resolution of all pending claims and claims estimated to be filed in the next 10 years was \$631.9 and \$746.8 as of September 30, 2015 and December 31, 2014, respectively. The following table provides a rollforward of the estimated asbestos liability and related assets for the nine months ended September 30, 2015.

	Liability	Asset	Net
Balance as of December 31, 2014	\$1,223.2	\$476.4	\$746.8
Asbestos provision	54.8	7.8	47.0
Defense cost adjustment	(124.2)	(23.5)	(100.7)
Asbestos remeasurement	(52.7)	(7.9)	(44.8)
Settlement agreement	—	1.2	(1.2)
Net cash activity	(52.3)	(37.1)	(15.2)
Balance as of September 30, 2015	\$1,048.8	\$416.9	\$631.9
Current portion	\$87.6	\$74.5	
Noncurrent portion	\$961.2	\$342.4	

Environmental

In the ordinary course of business, we are subject to federal, state, local, and foreign environmental laws and regulations. We are responsible, or are alleged to be responsible, for ongoing environmental investigation and site remediation. These sites are in various stages of investigation and/or remediation and in many of these proceedings our liability is considered de minimis. We have received notification from the U.S. Environmental Protection Agency, and from similar state and foreign environmental agencies, that a number of sites formerly or currently owned and/or operated by ITT, and other properties or water supplies that may be or have been impacted from those operations, contain disposed or recycled materials or wastes and require environmental investigation and/or remediation. These sites include instances where we have been identified as a potentially responsible party under federal and state environmental laws and regulations.

The following table provides a rollforward of the estimated environmental liability and related assets for the nine months ended September 30, 2015.

	Liability	Asset	Net
Balance as of December 31, 2014	\$89.9	\$7.7	\$82.2
Change in estimates for pre-existing accruals			
Continuing operations	1.4	0.3	1.1
Discontinued operations	(2.8)	(0.9)	(1.9)
Accruals added during the period for new matters	—	—	—
Net cash activity	(9.1)	(0.4)	(8.7)
Foreign currency	(0.4)	—	(0.4)
Balance as of September 30, 2015	\$79.0	\$6.7	\$72.3

We are currently involved with 53 active environmental investigation and remediation sites. At September 30, 2015, we have estimated the potential high-end liability range of environmental-related matters to be \$136.

As actual costs incurred at identified sites in future periods may vary from our current estimates given the inherent uncertainties in evaluating environmental exposures, management believes it is possible that the outcome of these uncertainties may have a material adverse effect on our financial statements.

Other Matters

The Company has received a civil subpoena from the Department of Defense, Office of the Inspector General requesting documents pertaining to certain products manufactured by the Company's Interconnect Solutions segment that are purchased or used by the U.S. government. The Company is cooperating with the request. The inquiry is in the early stages and the Company is unable to estimate the timing or outcome of the matter.

NOTE 18

ACQUISITIONS

Hartzell Aerospace

On March 31, 2015, we completed the acquisition of Hartzell Aerospace for a purchase price of \$53.5 that was funded through additional commercial paper borrowings. Hartzell Aerospace, which reported 2014 revenues of \$34, designs and manufactures products to support aerospace applications, featuring a differentiated portfolio of environmental control system components and an established aftermarket business. Hartzell Aerospace employs approximately 240 employees at its two facilities in California. The acquisition is being reported within the Control Technologies segment and complements the ITT aerospace growth platform, with customer and sales channel alignment and key high-growth and next-generation platform expansion opportunities.

The allocation of purchase price is based on the fair value of assets acquired and liabilities assumed as of the acquisition date. The aggregate estimated fair value of customer relationships, proprietary technology, and backlog was \$17.1, \$9.6 and \$1.9, respectively. Other assets acquired and liabilities assumed, net, as part of the acquisition were \$11.6 and primarily related to working capital balances. The excess of the purchase price over the estimated fair value of net assets acquired of \$13.3 was recorded as goodwill (which is expected to be deductible for income tax purposes). All of the goodwill has been assigned to the Control Technologies segment.

Our financial statements include the results of operations and cash flows from Hartzell Aerospace, prospectively from the acquisition date; however, these results were not material and accordingly, pro forma results of operations have not been presented.

NOTE 19

SUBSEQUENT EVENTS

On October 5, 2015, we completed the acquisition of Wolverine Automotive Holdings Inc., the parent company of Wolverine Advanced Materials LLC (Wolverine). Wolverine is a manufacturer of customized technologies for automotive braking systems and specialized sealing solutions for harsh operating environments across a range of industries. The purchase price of \$300, net of cash acquired, was funded through a combination of cash and a \$200 borrowing from our revolving credit facility. Wolverine has approximately 500 employees globally and reported 2014 revenues of \$154, including \$17 of sales to ITT. The acquisition will be reported within the Motion Technologies segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(In millions, except per share amounts, unless otherwise stated)

OVERVIEW

ITT Corporation is a diversified manufacturer of highly engineered critical components and customized technology solutions for the energy, transportation and industrial markets. Building on our heritage of engineering, we partner with our customers to deliver enduring solutions to the key industries that underpin our modern way of life. We manufacture components that are integral to the operation of systems and manufacturing processes in our key markets. Our products provide enabling functionality for applications where reliability and performance are critically important to our customers and the users of their products.

Our businesses share a common, repeatable operating model. Each business applies technology and engineering expertise to solve our customer's most pressing challenges. Our applied engineering aptitude enables a tight business fit with our customers given the critical nature of their applications. This in turn provides us with unique insight to our customer's requirements and enables us to develop solutions to assist our customers in achieving their business goals. Our technology and customer intimacy in tandem produce opportunities to capture recurring revenue streams, aftermarket opportunities, and long lived original equipment manufacturer (OEM) platforms.

Our product and service offerings are organized into four segments: Industrial Process, Motion Technologies, Interconnect Solutions, and Control Technologies. See Note 3, Segment Information, in this Report for a summary description of each segment. Additional information is also available in our 2014 Annual Report within Part I, Item 1, "Description of Business".

DISCUSSION OF FINANCIAL RESULTS

Three and Nine Months Ended September 30

Income from continuing operations attributable to ITT Corporation	96.5	80.6	19.7 %	275.8	155.0	77.9 %	
Income (loss) from discontinued operations, net of tax	34.2	(0.3) (a)	39.3	(4.2) (a)	
Net income attributable to ITT Corporation	130.7	80.3	62.8 %	315.1	150.8	109.0 %	

(a) The percentage change was intentionally excluded as the resulting figure is not considered meaningful.

All comparisons included within Management's Discussion and Analysis of Financial Condition and Results of Operations refer to the comparable three or nine month periods ended September 30, 2014, unless stated otherwise.

Executive Summary

During the third quarter of 2015, we recognized revenue of \$601.9 reflecting a decrease of \$55.2, or 8.4%, primarily related to the impact of unfavorable foreign currency translation of \$50.8. Organic revenue also reflects adjustments to revenue related to our Hartzell Aerospace acquisition and an industrial product line divestiture in our Control Technologies business. On an organic basis, revenue decreased 1.8% compared to the prior year, primarily due to slowing global general industrial market conditions, which negatively impacted both our Interconnect Solutions segment, as well as our components businesses within Control Technologies. These declines were coupled with the ongoing global weakness in the oil and gas market affecting capital spending levels which impacted both our Industrial Process and Interconnect Solutions segments, as well as weak KONI rail shipments during the quarter. The decline in revenue was partially offset by strength from our Motion Technologies segment due to improved global production rates and share gains in key OEM automotive geographies, coupled with increased independent aftermarket volumes.

Orders received during the third quarter of 2015 were \$530.4 reflecting a decrease of \$158.3, or 23.0%, including a \$49.6 unfavorable impact from foreign currency translation. Organic orders declined 16.7%, primarily reflecting the current weakness in the oil and gas market as compared to the third quarter of 2014 which marked one of the highest quarterly order totals for the Industrial Process segment. The decline during the third quarter of 2015 also reflects softness in our commercial and aftermarket aerospace orders in the Control Technologies segment and continued connector weakness across each of the key end markets. The impact of these challenging conditions was partially offset by continued growth from new global OEM automotive platform wins.

Operating income for the third quarter of 2015 decreased \$15.8, or 13.2%, versus the prior year, reflecting a lower benefit from asbestos-related matters of \$12.2, an unfavorable impact of approximately \$10 related to foreign currency fluctuations, continued operational disruptions at our Interconnect Solutions segment associated with our North American footprint transition with an unfavorable impact of approximately \$7, and pricing headwinds. The impact of these items was partially offset by strong net operating productivity from our ongoing Lean transformation, significant restructuring benefits from the actions taken at Industrial Process and Interconnect Solutions, and our focused cost containment efforts at the corporate and segment levels.

Income from continuing operations during the third quarter of 2015 was \$96.5, or \$1.07 per diluted share, representing an increase of \$15.9, or \$0.20 per diluted share, which reflects a favorable impact from the completion of a U.S. federal tax audit, the benefit from a lower effective tax rate, and lower outstanding shares due to our first quarter 2015 share repurchases, in addition to the items noted above. Adjusted income from continuing operations, a non-GAAP measure, was \$56.9, or \$0.63 per diluted share, for the third quarter of 2015, reflecting a \$4.8, or 7.8% decrease, compared to the prior year.

Further details related to these results are contained elsewhere in the Discussion of Financial Results section. Refer to the section titled "Key Performance Indicators and Non-GAAP Measures" for reconciliations between GAAP and non-GAAP metrics.

(a) See the section titled "Key Performance Indicators and Non-GAAP Measures" for a definition and reconciliation of organic revenue.

Industrial Process

Revenue for the three months ended September 30, 2015 decreased \$22.1, or 7.6%, including an unfavorable foreign currency translation impact of \$20.0. Organic revenue decreased \$2.1, or 0.7%, primarily reflecting the challenging industrial market conditions that have been experienced throughout 2015 which have impacted capital spending levels and led to customer project delays. Revenue from our aftermarket business declined 5% as postponement of customer maintenance activities impacted global parts sales. Revenue from engineered project pumps grew 2% over the prior year as solid global downstream oil and gas growth, which was supported by strong backlog entering this year, and year-over-year growth in the North American pulp and paper market was offset by significant declines in upstream and midstream oil and gas activity. Shipments of short-cycle baseline pumps and valves increased 2% over the prior year due to book-and-ship activity, as well as backlog entering the year.

Revenue for the nine months ended September 30, 2015 decreased \$53.9, or 6.2%, including an unfavorable foreign currency translation impact of \$45.2. Organic revenue decreased \$8.8, or 1.0%, primarily reflecting the challenging industrial market conditions that have been experienced throughout 2015 which have impacted capital spending levels and led to customer project delays. The overall impact from current market conditions was offset by 2015 shipments from prior year order bookings. See below for further discussion on Industrial Process backlog.

Orders for the three and nine months ended September 30, 2015 decreased \$116.4, or 35.8%, and \$210.8 or 23.1%, respectively, including an unfavorable foreign currency translation impact of \$18.5 and \$46.7, respectively. Organic orders for the three and nine months ended decreased \$97.9, or 30.1%, and \$164.2, or 18.0%, respectively, reflecting capital project uncertainty and delays primarily within the oil and gas, chemical, and mining markets due to soft market conditions, global oil volatility and market uncertainty, and difficult prior year comparisons, which included multiple large-scale highly engineered pump project wins.

Backlog

The level of order and shipment activity related to engineered pumps can vary from period to period, which may impact the year-over-year comparisons. Backlog as of September 30, 2015 was \$475.9, reflecting a decrease of \$127.5, or 21.1%, from the December 31, 2014 level, and includes a \$26.5 unfavorable foreign currency translation impact. The decrease reflects a delinquency reduction through improved operational performance combined with a lower project order in-take due to global capital project delays and lower oil and gas, chemical, and general industrial orders due to market uncertainty and volatility.

Motion Technologies

Revenue for the three months ended September 30, 2015 decreased \$17.1, or 8.7%, resulting from an unfavorable foreign currency translation impact of \$25.2. Organic revenue increased \$8.1, or 4.1% against the prior year, driven by growth of 7% within our Friction Technologies business reflecting strength in the OEM and the independent aftermarket sales channels. Strength in OEM brake pads was delivered across all major geographic regions, and reflects incremental benefits from platform wins that are now entering production. Sales into the independent aftermarket channel increased approximately 26% due to timing impacts from our customer's inventory management. Sales from our KONI business decreased approximately 10%, primarily reflecting softness within the global rail markets.

Revenue for the nine months ended September 30, 2015 decreased \$57.3, or 9.4%, resulting from an unfavorable foreign currency translation impact of \$89.9. Organic revenue increased \$32.6, or 5.3%, primarily reflecting strength in OEM brake pads across all major geographic regions. Sales to OES increased 4% as strength in the U.S. and China were partially offset by a decline in Europe. Sales into the independent aftermarket channel were relatively flat to the prior year through the first nine months. Sales from our KONI business decreased 2%, reflecting sales growth within the U.S. defense market related to our placement on a U.S. military platform which was offset by a decline in global rail.

Orders for the three and nine months ended September 30, 2015 decreased \$26.4, or 12.9%, and \$76.1, or 11.9%, respectively, reflecting unfavorable foreign currency translation impacts of \$25.9 and \$93.3, respectively. Organic orders for the three and nine months ended September 30, 2015 decreased \$0.5, or 0.2%, and increased \$17.2, or 2.7%, respectively. The continued strength by our Friction Technologies business in winning OEM platforms was the primary driver of the quarter and year-to-date organic order growth, which was partially offset by an order decline from our KONI business primarily within the rail market. The organic order decline for the quarter-to-date period was

the result of lower activity within the rail market and the timing of orders related to the U.S. military platform.

23

Interconnect Solutions

Revenue for the three and nine months ended September 30, 2015 decreased by \$15.6, or 15.9%, and \$59.1, or 19.6%, respectively. These results include unfavorable foreign currency translation impacts of \$5.2 and \$17.2, respectively. Organic revenue for the three and nine months ended September 30, 2015 declined \$10.4, or 10.6%, and \$41.9, or 13.9%, respectively. Sales volumes for both the quarter and year-to-date periods were down across all market categories. Weakness in upstream oil and gas and other strategic markets, declining revenue from end-of-life non-strategic connector platforms, shipment delays due to operational disruptions from the relocation of certain North American operations, and a decline in market share contributed to the overall decline in revenue.

Orders for the three and nine months ended September 30, 2015 decreased \$9.2, or 9.9%, and \$45.0, or 15.3%, respectively, including unfavorable foreign exchange translation impacts of \$4.8 and \$17.0. Organic orders for the three and nine months ended September 30, 2015 decreased \$4.4, or 4.7%, and \$28.0, or 9.5%, respectively, reflecting a decline in market share and challenging market conditions due to continued softness in the U.S. defense market, the decline in global oil prices, and a slow-down in the industrial market.

Control Technologies

Revenue for the three and nine months ended September 30, 2015 decreased by \$0.9, or 1.3%, and \$7.2, or 3.3%, respectively. Revenue for the third quarter and year-to-date 2015 periods include sales of \$9.1 and \$18.6, respectively, from the Hartzell Aerospace acquisition, and reflects a year-over-year decline of \$2.0 and \$2.8, respectively, associated with an industrial product line that was sold in June of 2015. Revenue for the periods also reflects unfavorable foreign exchange translation impacts of \$0.4 and \$1.5, respectively. Organic revenue for the three and nine months ended September 30, 2015 declined \$7.6, or 10.7%, and \$21.5, or 9.9%, respectively. The decline in organic revenue reflects lower sales at CT Aerospace of 7% and 9% and at CT Industrial of 22% and 13% for the quarter and year-to-date periods, respectively. Volume declines at CT Aerospace reflect program declines in our Enivate product line, as well as softness in the aerospace aftermarket channel. The decline in revenue for the year-to-date period also reflects shipments for a large prior year retro-fit program that occurred during the first quarter of 2014 and lower commercial OEM. Volume declines from CT Industrial primarily reflect declines in energy absorption products in the U.S. and China and the impact from the oil and gas markets and overall weakness in the industrial markets.

Orders for the three and nine months ended September 30, 2015 decreased by \$5.9, or 8.7% and \$5.2, or 2.4%, respectively. Orders for the third quarter and year-to-date 2015 periods include \$8.1 and \$18.0, respectively, from the Hartzell Aerospace acquisition, and reflects a year-over-year decline of \$1.7 and \$2.4, respectively, associated with an industrial product line that was sold in June of 2015. Orders for each period also reflect an unfavorable foreign exchange translation impact of \$0.4 and \$1.6, respectively. Organic orders for the three and nine months ended September 30, 2015 decreased \$11.9, or 17.5%, and \$19.2, or 8.8%, respectively. CT Aerospace orders declined approximately 20% and 8% for the quarter and year-to-date periods, respectively, primarily reflecting a significant prior year defense order that was not repeated during 2015, program declines in our Enivate product line, and an aftermarket program that is reaching its end-of-life. CT Industrial orders declined 14% and 15%, for the three and nine months ended September 30, 2015, respectively, primarily reflecting a decline in energy absorption products in China and Europe and the impact from the oil and gas markets and overall weakness in the industrial markets.

GROSS PROFIT

The table below provides gross profit and gross margin by segment for the three and nine months ended September 30, 2015 and 2014.

For the Periods Ended September 30	Three Months			Nine Months

General and administrative expenses	60.2	69.1	(12.9)%	186.8	216.3	(13.6)%
Research and development expenses	18.0	20.1	(10.4)%	55.2	56.4	(2.1)%
Asbestos-related benefit, net	(30.3)	(42.5)	(28.7)%	(99.7)	(10.8)	823.1 %
Total operating expenses	\$91.0	\$100.2	(9.2)%	\$281.5	\$427.0	(34.1)%
Total Operating Expenses By Segment:						
Industrial Process	\$49.0	\$65.2	(24.8)%	\$170.6	\$192.7	(11.5)%
Motion Technologies	24.1	22.3	8.1 %	65.0	63.5	2.4 %
Interconnect Solutions	22.3	22.6	(1.3)%	71.3	87.4	(18.4)%
Control Technologies	14.7	15.0	(2.0)%	45.3	44.7	1.3 %
Corporate & Other	(19.1)	(24.9)	(23.3)%	(70.7)	38.7	(282.7)%

Sales and marketing expenses for the three and nine months ended September 30, 2015 decreased \$10.4, or 19.4%, and \$25.9, or 15.7%, respectively. The decline for both periods is primarily due to lower commission expense, a decline in variable costs associated with lower sales, and cost reduction actions.

General and administrative (G&A) expenses for the three and nine months ended September 30, 2015 decreased \$8.9 or 12.9%, and \$29.5, or 13.6%, respectively. Both periods benefited from past restructuring and Lean initiatives and focused cost control management efforts as well as from certain non-recurring operational items, including repositioning-related costs of \$2.9 and \$6.8 incurred during the 2014 quarter and year-to-date periods, respectively (repositioning costs reflect certain charges incurred following the 2011 spin-off). G&A expenses for the three month period reflect lower restructuring costs of \$1.3, whereas the nine month period reflects lower restructuring costs of \$4.4 (see Note 4, Restructuring Actions, to the Consolidated Condensed Financial Statements for additional information).

Research and development (R&D) expenses for the three and nine months ended September 30, 2015 decreased \$2.1, or 10.4%, and \$1.2, or 2.1%, as compared to the same prior year periods, respectively, mainly due to foreign currency translation impacts of \$1.6 and \$4.8, respectively. R&D costs for 2015 reflect our increased

investment in product development activities at Control Technologies and consistent levels of investment spending levels at the other three business segments.

In the third quarter of 2015, we recognized a net asbestos-related benefit of \$30.3 compared to a \$42.5 benefit in the prior year, primarily due to a lower benefit from our annual asbestos remeasurements. The change in asbestos-related benefit, net for the nine months ended September 30, 2015 is principally due to a \$100.7 benefit recognized during the second quarter of 2015, reflecting a new single firm strategy and streamlined case management that is expected to significantly reduce asbestos defense costs. See Note 17, Commitments and Contingencies, to the Consolidated Condensed Financial Statements for further information.

OPERATING INCOME

For the Periods Ended September 30	Three Months			Nine Months				
	2015	2014	Change	2015	2014	Change		
Industrial Process	\$34.0	\$31.0	9.7 %	\$95.9	\$80.7	18.8 %		
Motion Technologies	33.0	36.5	(9.6)%	111.0	111.4	(0.4)%

Consolidated operating margin	17.3 %	18.2 %	(90)bp	17.9 %	11.2 %	670 bp		

Industrial Process operating income for the three months ended September 30, 2015 increased \$3.0, or 9.7%, resulting in a 200 basis point improvement in operating margin. The increase in operating income and margin was the result of net savings from restructuring, Lean, sourcing, and cost control initiatives of approximately \$10, lower commission expenses of \$4.7, and lower postretirement costs of \$1.1. The benefit provided by these favorable items was partially offset by negative pricing and sales mix impacts of approximately \$10 and unfavorable foreign exchange impacts of approximately \$3.

Industrial Process operating income for the nine months ended September 30, 2015 increased \$15.2, or 18.8%, resulting in a 250 basis point improvement to operating margin. The increase in operating income and margin was primarily the result of net savings from restructuring, Lean, sourcing, and cost control initiatives of approximately \$20, a favorable product warranty resolution during 2015, lower commission expenses of \$9.2, and lower postretirement costs of \$4.0. The favorability of these items was partially offset by negative pricing and sales mix impacts of approximately \$12 and higher restructuring costs of \$6.0.

Motion Technologies operating income for the three months ended September 30, 2015 decreased \$3.5, or 9.6%, resulting in a 20 basis point decline in operating margin. Operating income for the nine months ended September 30, 2015 decreased \$0.4, or 0.4%, however operating margin improved 180 basis points due to the impact of our operational performance initiatives. The operating income results for the both periods was driven by sales volume growth, coupled with continued press efficiency improvements and net savings from Lean, sourcing, and cost control initiatives resulting in a benefit of approximately \$4 and \$11 for the 2015 quarter and year-to-date periods, respectively. The benefits were partially offset by unfavorable foreign currency impacts of approximately \$6 and \$20 for the 2015 quarter and year-to-date periods, respectively, and also reflect legal settlement favorability in 2014, and unfavorable pricing impacts. The year-to-date 2015 period also benefited from a \$2.5 gain from an insurance recovery.

Interconnect Solutions operating income for the three months ended September 30, 2015 decreased \$7.6, or 67.9%, resulting in a 710 basis point decline in operating margin. Operating income for the nine months ended

September 30, 2015 decreased 12.9, or 62.9%, resulting in a 370 basis point decline in operating margin. The results for both periods reflect declines in sales volume of approximately \$4 and \$17, respectively, from challenging market conditions as well as from shipment delays and incremental costs of approximately \$7 and \$18 for the quarter and year-to-date periods, respectively, related to operational disruptions from the relocation of certain North American operations. Foreign currency unfavorably impacted the 2015 quarter and year-to-date operating income results by \$1 and \$3 respectively. In addition, restructuring costs for the year-to-date period of 2015 were lower by \$10.2 due to our prior year restructuring initiatives which also provided a year-over-year savings and operating income benefits of approximately \$5 and \$10, for the three and nine months ended September 30, 2015, respectively.

Control Technologies operating income for the three months ended September 30, 2015 decreased \$1.7, or 10.8%, resulting in a 210 basis point decline in operating margin. Operating income for the nine months ended September 30, 2015 decreased \$6.9, or 14.6%, resulting in a 250 basis point decline in operating margin. The decrease in operating income primarily relates to sales volume decreases and an unfavorable sales mix of approximately \$5 and \$13, respectively. The year-to-date period includes higher R&D expenses of \$1.6 and restructuring costs of \$0.8, which were partially offset by the 2015 operating income generated by the Hartzell Aerospace acquisition. These items were partially offset by net savings from Lean and sourcing initiatives and cost control management actions for the three and nine months ended September 30, 2015 of approximately \$2 and \$7, respectively, and lower compensation costs. Other corporate costs for the three and nine months ended September 30, 2015 improved by \$6.2, or 36.0%, and \$19.9, or 41.2%, respectively. The decline in other corporate costs reflects lower investment-related expenditures versus the prior year, principally the strengthening of our Human Resources capabilities that took place during 2014 and costs associated with a company-wide culture initiative that launched during the first quarter of 2014. In addition, other corporate costs for both periods improved due to lower environmental expense of \$1.2 and \$3.4, respectively, and lower departmental spending primarily driven by focused cost control actions.

INTEREST AND NON-OPERATING INCOME AND EXPENSES, NET

During the three and nine months ended September 30, 2015, the Company recognized interest and non-operating income, net of \$4.0 and \$2.5, respectively, as compared to interest and non-operating expenses, net of \$0.7 and \$2.3, respectively. The favorable year-over-year change is principally related to interest income of \$3.4 recognized during the third quarter of 2015 on prepaid income taxes and a \$1.6 receivable with Exelis and Xylem, both of which relate to the settlement of the U.S. income tax audit.

INCOME TAX EXPENSE

For the three months ended September 30, 2015 and 2014, the Company recognized income tax expense of \$11.4 and \$38.0, respectively, representing an effective tax rate of 10.6% and 31.9%, respectively. For the nine months ended September 30, 2015 and 2014, the Company recognized income tax expense of \$53.0 and \$63.4, respectively, representing an effective tax rate of 16.1% and 28.8%, respectively. The lower effective tax rate in 2015 is primarily resulting from the settlement of a U.S. income tax audit and the release of the valuation allowance on certain net deferred tax assets in China due to positive income in recent years. The Company continues to benefit from earnings being eligible for a tax holiday in South Korea, as well as a larger mix of earnings in non-U.S. jurisdictions with favorable tax rates.

During the third quarter, the Company effectively settled the U.S. income tax audit for tax years 2009-2011. The Company recorded a tax benefit of \$18.0 in continuing operations, which includes a net tax benefit of \$8.0 from favorable audit adjustments and \$10.0 from the recognition of previously unrecognized tax benefits. In addition, this U.S. income tax audit resulted in a tax benefit of \$20.9 related to discontinued operations, which includes net tax expense of \$17.4 from unfavorable audit adjustments and a tax benefit of \$38.3 from the recognition of previously unrecognized tax positions. In accordance with the existing Tax Matters Agreement with Exelis and Xylem, the Company is entitled to reimbursement for a portion of the tax liability and has recorded a receivable of \$1.6 and \$13.2 in continuing and discontinued operations, respectively.

The Company operates in various tax jurisdictions and is subject to examination by tax authorities in these jurisdictions. The Company is currently under examination in several jurisdictions including Canada, Germany, Hong Kong, Italy, Mexico, South Korea, the U.S. and Venezuela. The estimated tax liability calculation for unrecognized tax benefits includes dealing with uncertainties in the application of complex tax laws and regulations in various tax jurisdictions. Due to the complexity of some uncertainties, the ultimate resolution may result in a payment that is

materially different from the current estimate of the unrecognized tax benefit. Over the next 12

27

months, the net amount of the tax liability for unrecognized tax benefits in foreign and domestic jurisdictions could change by approximately \$17.7 due to changes in audit status, expiration of statutes of limitations and other events. The settlement of any future examinations could result in changes in amounts attributable to the Company under its existing Tax Matters Agreement with Exelis and Xylem.

INCOME FROM DISCONTINUED OPERATIONS, NET OF TAX

For the three and nine months ended September 30, 2015, the Company recognized income from discontinued operations of \$34.2 and \$39.3, respectively, principally related to the settlement of the U.S. income tax audit during the third quarter of 2015. This includes a tax benefit of \$38.3 from the recognition of previously unrecognized tax positions, related net interest income of \$3.2, and a \$13.2 receivable due from Exelis and Xylem, partially offset by net tax expense of \$17.4 from unfavorable audit adjustments. For the three and nine months ended September 30, 2014 the Company recognized a loss from discontinued operations of \$0.3 and \$4.2, respectively, due to costs incurred related to certain legacy liabilities.

LIQUIDITY

Funding and Liquidity Strategy

Our funding needs are monitored and strategies are executed to meet overall liquidity requirements, including the management of our capital structure on both a short- and long-term basis. We expect to fund our ongoing working capital, capital expenditures, dividends, and financing requirements through cash flows from operations and cash on hand or by accessing the commercial paper market. If our access to the commercial paper market were adversely affected, we believe that alternative sources of liquidity, including our 2014 Revolving Credit Agreement, described below, would be sufficient to meet our short-term funding requirements.

We manage our worldwide cash requirements considering available funds among the many subsidiaries through which we conduct business and the cost effectiveness with which those funds can be accessed. We have identified and continue to look for opportunities to access cash balances in excess of local operating requirements to meet global liquidity needs in a cost-efficient manner. A majority of our cash and cash equivalents is held by our international subsidiaries. We have, and plan to, transfer cash between certain international subsidiaries and the U.S. and other international subsidiaries when it is cost effective to do so. Our intent is generally to indefinitely reinvest these funds outside of the U.S. consistent with our overall intention to support growth and expand in markets outside the U.S. through the development of products, increased non-U.S. capital spending, and potentially the acquisition of foreign businesses. However, we have determined that certain undistributed foreign earnings generated in Luxembourg, Japan, Hong Kong, and South Korea should not be considered permanently reinvested outside of the U.S. Net cash transfers from foreign countries amounted to \$177.5 during the first nine months of 2015, which included distributions of \$120.0 and intercompany loan repayments of \$57.5. During 2014, cash distributions from foreign countries were \$138.5. The timing and amount of additional future remittances, if any, remains under evaluation.

The amount and timing of dividends payable on our common stock are within the sole discretion of our Board of Directors and will be based on, and affected by, a number of factors, including our financial position and results of operations, available cash, expected capital spending plans, prevailing business conditions, and other factors the Board of Directors deems relevant. Therefore, there can be no assurance as to what level of dividends, if any, will be paid in the future. In the third quarter of 2015, we declared a dividend of \$0.1183 per share for shareholders of record on September 11, 2015, which was paid on October 1, 2015. The dividend declared in the third quarter of 2015 is a 7.5% increase from the prior year.

Significant factors that affect our overall management of liquidity include our credit ratings, the adequacy of commercial paper and supporting bank lines of credit, and the ability to attract long-term capital on satisfactory terms. We assess these factors along with current market conditions on a continuous basis, and as a result, may alter the mix of our short- and long-term financing when it is advantageous to do so.

We access the commercial paper market to supplement the cash flows generated internally to provide additional short-term funding for strategic investments and other funding requirements. We manage our short-term liquidity through the use of our commercial paper program by adjusting the level of commercial paper borrowings as opportunities to deploy additional capital arise and it is cost effective to do so. As of September 30, 2015, we had an outstanding commercial paper balance of \$10.5. The average outstanding commercial paper balance during the nine months ended September 30, 2015 was \$70.3. There have been no other material changes that have impacted our

funding and liquidity capabilities since December 31, 2014.

28

Credit Facilities

On November 25, 2014, we refinanced our existing credit facility with a new five-year revolving \$500 credit agreement (the 2014 Revolving Credit Agreement). The 2014 Revolving Credit Agreement provides for increases in principal of up to \$200 for a possible maximum total of \$700 in aggregate principal amount, at the request of the Company and with the consent of the institutions providing such increased commitments. The 2014 Revolving Credit Agreement is intended to provide access to additional liquidity and be a source of alternate funding to the commercial paper program, if needed. Our policy is to maintain unused committed bank lines of credit in an amount greater than outstanding commercial paper balances. The provisions of the 2014 Revolving Credit Agreement require that we maintain an interest coverage ratio, as defined in such agreement, of at least 3.0 times and a leverage ratio, as defined in such agreement, of not more than 3.0 times. At September 30, 2015, we had no amounts outstanding under the 2014 Revolving Credit Agreement. As of September 30, 2015, our interest coverage ratio and leverage ratio were within the prescribed thresholds. In the event of certain ratings downgrades of the Company, to a level below investment grade, the direct and indirect significant U.S. subsidiaries of the Company would be required to guarantee the obligations under the credit facility. On October 5, 2015, we borrowed \$200 from the credit facility to partially fund the Wolverine acquisition.

Sources and Uses of Liquidity

Our principal source of liquidity is our cash flow generated from operating activities, which provides us with the ability to meet the majority of our short-term funding requirements. The following table summarizes net cash derived from operating, investing, and financing activities from continuing operations, as well as net cash from discontinued operations, for the nine months ended September 30, 2015 and 2014.

For the Nine Months Ended September 30	2015	2014
Operating activities	\$147.1	\$131.9
Investing activities	(111.4)	(32.5)
Financing activities	(90.2)	(63.9)
Foreign exchange	(23.9)	(15.1)
Total net cash flow from continuing operations	(78.4)	20.4
Net cash from discontinued operations	(0.7)	(5.1)
Net change in cash and cash equivalents	\$(79.1)	\$15.3

Net cash provided by operating activities was \$147.1 for the nine months ended September 30, 2015, representing an increase of \$15.2, or 11.5%, from the prior year, reflecting lower income tax payments, net of refunds, of \$23.1 which was partially offset by higher asbestos-related payments of \$6.3 and restructuring-related payments of \$6.5.

Fluctuations in working capital, primarily related to accounts receivable, provided a year-over-year favorable impact of \$14.7, which was partially offset by lower segment operating income after adjustment for non-cash charges, such as depreciation and amortization, of \$8.

Net cash used in investing activities was \$111.4 reflecting an increase of \$78.9 over the prior year, primarily due to our acquisition of Hartzell Aerospace for \$53.5 in the second quarter of 2015, as well as higher 2014 maturities of short-term investments (net of purchases) that exceed the 2015 amount by \$46.7. Capital expenditure spending decreased \$10.2 year-over-year with spending for both years focused on capacity expansion projects and system upgrades. In addition, during the second quarter of 2015 we sold an industrial product line within our Control Technologies segment resulting in proceeds of \$8.9.

Net cash used in financing activities was \$90.2 reflecting a increase of \$26.3 for the nine months ended September 30, 2015. The increase primarily reflects \$58.4 of higher repurchases of ITT common stock and a lower cash benefit of \$14.0 related to the exercise of employee stock options, which partially offset a year-over-year change in commercial paper borrowing activity of \$48.5.

Asbestos

Based on the estimated undiscounted asbestos liability as of September 30, 2015 for claims filed or estimated to be filed over the next 10 years, we have estimated that we will be able to recover approximately 40% of the asbestos indemnity and defense costs from our insurers. Actual insurance reimbursements may vary significantly from period to period and the anticipated recovery rate is expected to decline over time due to gaps in our insurance coverage, reflecting uninsured periods, the insolvency of certain insurers, prior settlements with our insurers, and our expectation that certain insurance policies will exhaust within the next 10 years. In the tenth year of our estimate, our insurance recoveries are currently projected to be 15%. Additionally, future recovery rates may be impacted by other factors, such as future insurance settlements, insolvencies, and judicial determinations relevant to our coverage program, which are difficult to predict and subject to a high degree of uncertainty.

While there are overall limits on the aggregate amount of insurance available to the Company with respect to asbestos claims, with respect to certain coverage, those overall limits were not reached by the estimated liability recorded by the Company at September 30, 2015.

Further, there is uncertainty in estimating when cash payments related to the recorded asbestos liability will be fully expended and such cash payments will continue for a number of years beyond the next 10 years due to the significant proportion of future claims included in the estimated asbestos liability and the delay between the date a claim is filed and when it is resolved. Subject to these inherent uncertainties, it is expected that cash payments related to pending claims and claims to be filed in the next 10 years will extend through approximately 2029.

Although asbestos cash outflows can vary significantly from year to year, our current net cash outflows, net of tax benefits, are projected to average \$15 to \$25 over the next five years, as compared to an average of \$11 over the past three annual periods, and increase to an average of approximately \$35 to \$45 per year over the remainder of the projection period.

In light of the uncertainties and variables inherent in the long-term projection of the Company's asbestos exposures and potential recoveries, although it is probable that the Company will incur additional costs for asbestos claims filed beyond the next 10 years, we do not believe that there is a reasonable basis for estimating the number of future claims, the nature of future claims, or the cost to resolve future claims for years beyond the next 10 years at this time.

Accordingly, no liability or related asset has been recorded for any costs that may be incurred for claims asserted subsequent to 2025.

Due to these uncertainties, as well as our inability to reasonably estimate any additional asbestos liability for claims that may be filed beyond the next 10 years, it is not possible to predict the ultimate outcome of the cost of resolving the pending and estimated unasserted asbestos claims. We believe it is possible that the future events affecting the key factors and other variables within the next 10 years, as well as the cost of asbestos claims filed beyond the next 10 years, net of expected recoveries, could have a material adverse effect on our financial statements.

KEY PERFORMANCE INDICATORS AND NON-GAAP MEASURES

Management reviews a variety of key performance indicators including revenue, segment operating income and margins, earnings per share, order growth, and backlog, among others. In addition, we consider certain measures to be useful to management and investors when evaluating our operating performance for the periods presented. These measures provide a tool for evaluating our ongoing operations and management of assets from period to period. This information can assist investors in assessing our financial performance and measures our ability to generate capital for deployment among competing strategic alternatives and initiatives, including, but not limited to, acquisitions, dividends, and share repurchases. These metrics, however, are not measures of financial performance under accounting principles generally accepted in the United States of America (GAAP) and should not be considered a substitute for measures determined in accordance with GAAP. We consider the following non-GAAP measures, which may not be comparable to similarly titled measures reported by other companies, to be key performance indicators:

“organic revenue” and “organic orders” are defined as revenue and orders, excluding the impacts of foreign currency fluctuations and acquisitions and divestitures. Divestitures include sales of portions of our business that did not meet the criteria for presentation as a discontinued operation. The period-over-period change resulting from foreign currency fluctuations is estimated using a fixed exchange rate for both the current and prior periods. Reconciliations of organic revenue for the three and nine months ended September 30, 2015 are provided below.

Three Months Ended September 30, 2015	Industrial Process	Motion Technologies	Interconnect Solutions	Control Technologies	Eliminations	Total ITT	% Change

31

“adjusted segment operating income” is defined as operating income, adjusted to exclude special items that include, but are not limited to, restructuring and realignment costs, asset impairment charges, transformation costs, repositioning costs, certain acquisition-related expenses, and other unusual or infrequent operating items. Special items represent significant charges or credits that impact current results, which management views as unrelated to the Company's ongoing operations and performance.

Reconciliations of segment operating income to adjusted segment operating income for the three and nine months ended September 30, 2015 and 2014 are provided below.

Three Months Ended September 30, 2015	Industrial Process	Motion Technologies	Interconnect Solutions	Control Technologies	Total Segment
Segment operating income	\$34.0	\$33.0	\$3.6	\$14.0	\$84.6

Adjusted segment operating income	\$84.8	\$111.7	\$41.1	\$47.4	\$285.0

“adjusted income from continuing operations” and “adjusted income from continuing operations per diluted share” are defined as income from continuing operations attributable to ITT Corporation and income from continuing operations attributable to ITT Corporation per diluted share, adjusted to exclude special items that include, but are not limited to, asbestos-related costs, transformation costs, repositioning costs, restructuring and realignment costs, asset impairment charges, certain acquisition-related expenses, income tax settlements or adjustments, and other unusual or infrequent non-operating items. Special items represent significant charges or credits, on an after-tax basis, that impact current results, which management views as unrelated to the Company's ongoing operations and performance.

A reconciliation of adjusted income from continuing operations, including adjusted income from continuing operations per diluted share, is provided below.

For the Periods Ended September 30	Three Months		Nine Months	
	2015	2014	2015	2014
Income from continuing operations attributable to ITT Corporation	\$96.5	\$80.6	\$275.8	\$155.0
Net asbestos-related benefit, net of tax	(19.1)	(26.8)	(62.8)	(6.8)
Restructuring costs, net of tax	1.4	2.6	14.8	15.1
Tax-related special items ^(a)	(21.2)	1.6	(46.4)	4.4
Other special items, net of tax	(0.7)	3.7	(2.4)	6.8
Adjusted income from continuing operations	\$56.9	\$61.7	\$179.0	\$174.5
Income from continuing operations attributable to ITT Corporation per diluted share	\$1.07	\$0.87	\$3.04	\$1.67
Adjusted income from continuing operations per diluted share	\$0.63	\$0.66	\$1.97	\$1.88

The special items, presented net of tax, above include an aggregate net tax expense (benefit) of \$11.2, \$13.2, \$34.2, and \$(6.9), respectively, in the 2015 and 2014 periods as presented.

Tax-related special items for the three months ended September 30, 2015 primarily relate to a tax benefit for previously unrecognized tax positions, the settlement of the U.S. income tax audit, and the tax impact of a change in the valuation allowance assessment. Tax-related special items for the nine months ended September 30, 2015 also include a reduction in the tax on undistributed foreign earnings. Tax-related special items for the three months ended September 30, 2014 primarily relate to the tax on a deemed distribution of foreign earnings, a change in the foreign valuation allowance assessment and tax basis step-up election in Italy. Tax-related special items for the nine months ended September 30, 2014 also include the tax impacts from a change in New York state income tax law.

“adjusted free cash flow” is defined as net cash provided by operating activities less capital expenditures, adjusted for cash payments for restructuring actions, transformation costs, repositioning costs, net asbestos cash flows and other significant items that impact current results which management views as unrelated to the Company's ongoing operations and performance. Due to other financial obligations and commitments, including asbestos, the entire free cash flow may not be available for discretionary purposes. A reconciliation of adjusted free cash flow is provided below.

For the Nine Months Ended September 30	2015	2014
Net cash provided by operating activities	\$147.1	\$131.9
Capital expenditures ^(b)	(63.8)	(71.9)
Restructuring cash payments	19.5	13.0
Net asbestos cash flows	15.2	8.9
Repositioning and other cash payments	2.4	6.3
Adjusted free cash flow	\$120.4	\$88.2

Capital expenditures represent capital expenditures as reported in the Consolidated Condensed Statement of Cash Flows, less capital expenditures associated with repositioning activities. Capital expenditures associated with repositioning activities were \$0.4 and \$2.5 during the nine months ended September 30, 2015 and 2014, respectively.

RECENT ACCOUNTING PRONOUNCEMENTS

See Note 2 to the Consolidated Condensed Financial Statements for information on recent accounting pronouncements.

CRITICAL ACCOUNTING ESTIMATES

The preparation of ITT's financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. ITT believes the most complex and sensitive judgments, because of their significance to the Consolidated Condensed Financial Statements, result primarily from the need to make estimates about the effects of matters that are inherently uncertain. Management's Discussion and Analysis of Financial Condition and Results of Operations in the 2014 Annual Report describes the critical accounting estimates that are used in the preparation of the Consolidated Condensed Financial Statements. Actual results in these areas could differ from management's estimates. There have been no significant changes concerning ITT's critical accounting estimates as described in our 2014 Annual Report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There has been no material change in the information concerning market risk as stated in our 2014 Annual Report. However, we provide the following update to our 10-K disclosure related to the highly inflationary economy of Venezuela:

During the second quarter of 2015, we remeasured the financial statements of our Venezuelan subsidiary at 197 Bsf to 1 USD based upon the SIMADI exchange rate which represents the best estimate of what the Company will be able to exchange at in the future. The remeasurement resulted in de minimis impact to our financial statements.

ITEM 4. CONTROLS AND PROCEDURES

The Chief Executive Officer and Chief Financial Officer of the Company have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, such officers have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective.

There have been no changes in our internal control over financial reporting during the last fiscal quarter that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we are involved in legal proceedings that are incidental to the operation of our businesses. Some of these proceedings allege damages relating to environmental exposures, intellectual property matters, copyright infringement, personal injury claims, employment and employee benefit matters, government contract issues and commercial or contractual disputes and acquisitions or divestitures. Descriptions of certain legal proceedings to which the Company is a party are contained in Note 17, "Commitments and Contingencies" to the Consolidated Condensed Financial Statements included in Part I, Item 1 of this Report and are incorporated by reference herein. Such descriptions include the following recent developments:

Asbestos Proceedings

ITT, including its subsidiary Goulds Pumps, Inc., has been joined as a defendant with numerous other companies in product liability lawsuits alleging personal injury due to asbestos exposure. These claims allege that certain of our products sold prior to 1985 contained a part manufactured by a third party (e.g., a gasket) which contained asbestos. To the extent these third-party parts may have contained asbestos, it was encapsulated in the gasket (or other) material and was non-friable. Frequently, the plaintiffs are unable to identify any ITT or Goulds Pumps product as a source of asbestos exposure. In addition, a large majority of claims pending against the Company have been placed on inactive dockets because the plaintiff cannot demonstrate a significant compensable loss. Our experience to date is that a substantial portion of resolved claims have been dismissed without payment by the Company.

We record a liability for pending asbestos claims and asbestos claims estimated to be filed over the next 10 years. While it is probable that we will incur additional costs for future claims to be filed against the Company, a liability for potential future claims beyond the next 10 years is not reasonably estimable due to the uncertainties and variables inherent in the long-term projection of the Company's asbestos exposures and potential recoveries. As of September 30, 2015, we have recorded an undiscounted asbestos-related liability for pending claims and unasserted claims estimated to be filed over the next 10 years of \$1,048.8, including expected legal fees, and an associated asset of \$416.9 which represents estimated recoveries from insurers, resulting in a net asbestos exposure of \$631.9.

Other Matters

The Company has received a civil subpoena from the Department of Defense, Office of the Inspector General requesting documents pertaining to certain products manufactured by the Company's Interconnect Solutions segment that are purchased or used by the U.S. government. The Company is cooperating with the request. The inquiry is in the early stages and the Company is unable to estimate the timing or outcome of the matter.

ITEM 1A. RISK FACTORS

Reference is made to the risk factors set forth in Part I, Item 1A, "Risk Factors," of our 2014 Annual Report, which are incorporated by reference herein. There has been no material changes with regard to the risk factors disclosed in such report.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(IN MILLIONS, EXCEPT PER SHARE AMOUNTS)	TOTAL NUMBER OF SHARES PURCHASED	AVERAGE PRICE PAID PER SHARE ⁽¹⁾	TOTAL NUMBER OF SHARES PURCHASED AS PART OF PUBLICLY ANNOUNCED PLANS OR PROGRAMS ⁽²⁾	MAXIMUM DOLLAR VALUE OF SHARES THAT MAY YET BE PURCHASED UNDER THE PLANS OR PROGRAMS ⁽²⁾
PERIOD				
7/1/2015 - 7/31/2015	—	—	—	\$240.7
8/1/2015 - 8/31/2015	—	—	—	\$240.7
9/1/2015 - 9/30/2015	—	—	—	\$240.7

(1) Average price paid per share is calculated on a settlement basis and includes commissions.

On October 27, 2006, our Board of Directors approved a three-year \$1 billion share repurchase program (2006 Share Repurchase Program). On December 16, 2008, our Board of Directors modified the provisions of the 2006 Share Repurchase Program to replace the original three-year term with an indefinite term. As of September 30, 2015, we had repurchased 18.4 shares for \$759.3, including commissions, under the 2006 Share Repurchase Program. The program is consistent with our capital allocation process, which has centered on those investments necessary to grow our businesses organically and through acquisitions, while also providing cash returns to shareholders. Our strategy for cash flow utilization is to invest in our business, execute strategic acquisitions, pay dividends and repurchase common stock.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

Disclosure pursuant to Section 219 of the Iran Threat Reduction & Syria Human Rights Act (ITRA)

This disclosure is made pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012 which added subsection (r) to section 13 of the Exchange Act (Section 13(r)) requiring a public reporting issuer to disclose in its annual or quarterly reports whether it or any affiliates have knowingly engaged in specified activities or transactions relating to Iran, including activities conducted outside the United States by non-U.S. affiliates in compliance with local law.

In its 2012 Annual Report, ITT described its acquisition of all the shares of Bornemann in November 2012, as well as certain activities of Bornemann in Iran and the wind down of those activities in accordance with a General License issued on December 26, 2012 (the General License) by the Office of Foreign Assets Control (OFAC). As permitted by the General License, on or before March 8, 2013, Bornemann completed the wind-down activities and ceased all activities in Iran. As required to be disclosed by Section 13(r), the gross revenues and operating income to Bornemann from its Iranian activities subsequent to its acquisition by ITT were Euros 2.2 million and Euros 1.5 million, respectively. Prior to its acquisition by ITT, Bornemann issued a performance bond to its Iranian customer in the amount of Euros 1.3 million (the Bond). Bornemann requested that the Bond be canceled prior to March 8, 2013; however, the former customer refused this request and as a result the Bond remains outstanding. Bornemann did not receive gross revenues or operating income, or pay interest, with respect to the Bond in 2013, 2014, or through September 30, 2015, however, Bornemann did pay fees in 2014 of approximately Euros 11 thousand to the German financial institution which is maintaining the Bond.

ITEM 6. EXHIBITS

(a) See the Exhibit Index for a list of exhibits filed herewith.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned thereunto duly authorized.
