Report of Independent Registered Public Accounting Firm

The Dow Chemical Company  
Employees' Savings Plan

We have audited the accompanying statements of net assets available for benefits of The Dow Chemical Company Employees' Savings Plan (the "Plan") as of December 31, 2013 and 2012 and the related statement of changes in net assets available for benefits for the year ended December 31, 2013. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan at December 31, 2013 and 2012 and the changes in net assets for the year ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at end of year as of December 31, 2013, and the schedule of reportable transactions as of December 31, 2013, are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

THE DOW CHEMICAL COMPANY EMPLOYEES' SAVINGS PLAN  
NOTES TO FINANCIAL STATEMENTS  
AS OF DECEMBER 31, 2013 and 2012, AND FOR THE YEAR ENDED DECEMBER 31, 2013

---

1. DESCRIPTION OF THE PLAN

The following description of The Dow Chemical Company Employees' Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document or Summary Plan Description for the legal description of the Plan's provisions.

General - The Plan is a defined contribution plan consisting of (1) a profit sharing plan with a cash or deferred feature which is intended to qualify under Sections 401(a) and 401(k) of the Internal Revenue Code as of 1986, as amended ("Code") and (2) a leveraged employee stock ownership plan ("LESOP") which is intended to qualify as a stock bonus plan under Sections 401(a) and 4975(e)(7). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan covers any person who is, or becomes, a regular employee of The Dow Chemical Company (the "Company" or "Dow"), or of certain of the Company's subsidiaries, subject to certain eligibility service requirements for part-time employees.

During 2012, the Triumph Seed Co., Inc. 401(k) Profit Sharing & Trust was merged into the Plan and Cal West Seeds LLC was authorized to participate in the Plan.

Employee Contributions - Plan participants generally may elect to contribute from 1% to 40% of their compensation, depending on the participant's eligible pay, limited to a 1% minimum contribution. Employees who do not exceed the gross compensation limits are limited to 40% of eligible pay in 0.5% increments, with a 1% minimum contribution. The maximum yearly gross compensation pre-tax or Roth 401(k) contribution made through payroll deductions was \$17,500 in 2013. Participants who attained age 50 before the end of the plan year were eligible to make additional catch-up contributions in the amount of \$5,500 in 2013. Plan participants may elect to increase, decrease, suspend, or resume compensation deferrals at any time. New elections are effective as soon as practicable after the request is processed. Newly hired eligible employees not electing to enroll (within 60 days of being hired) are automatically enrolled to contribute 3% of their eligible pay to the Plan, unless the employee elects to opt out. The automatic contributions will increase by 1% each year effective April 1 until the contribution rate reaches 6%, unless the employee designates otherwise. The contributions default to the applicable BTC Lifepath Fund based on the employee's date of birth, unless otherwise designated by the employee.

Company Contributions - In general, the Company's matching contribution provides a 100% match on the first 2% of eligible pay deferrals and a 50% match of the next 4% of eligible pay deferrals. Legacy Rohm and Haas Company employees' Company matching contributions are calculated as 100% of the first 3% of eligible pay deferrals and a 50% match of the next 3% of eligible pay deferrals. The Company's matching contribution is made in the form of Company stock from the LESOP. Employees may divest their Dow stock at any time and elect one of the other investment options available to them under the Plan.

In accordance with the provisions of the Plan, the Plan is required to release shares in proportion to the principal and interest paid on the LESOP loan as a percentage of beginning of year outstanding principal and interest. The shares released from unallocated LESOP shares are allocated to participants to satisfy the Company's matching requirements.

Except as otherwise provided by the Plan, if the required contributions are less than the value of shares released, the difference is allocated to participants (other than Legacy ROH Members) in the form of certain contingent matching contributions, and then to all participants, as an "Excess ESOP Shares Distribution" contribution. For the year ended December 31, 2013, the total number of shares allocated as contingent matching contributions and Excess ESOP Shares distribution contributions amounted to 1,170,776, with a market value of \$51,982,454. The Company intends to allocate these shares to the participants in 2014.

If the required Company matching contributions under the provisions of the Plan are greater than the value of the shares released, the Company is required to make an additional contribution to cover the shortfall. No such Company contributions were required for the year ended December 31, 2013.

Dividends - Participants invested in The Dow Chemical Company common stock funds may elect to receive dividends as a distribution rather than reinvesting dividends within the participant account.

Account Valuation - Participant account balances reflect the total contributions made to the Plan by employees and the Company, plus investment results, less expenses and withdrawals.

4

---

**Vesting** - Participants are immediately vested in all amounts credited to their plan account, including employee contributions, the Company contributions, and investment earnings.

**Benefits Distribution** - Benefits are generally distributable upon termination of employment as a lump-sum payment or partial withdrawal or may be deferred until minimum distributions are required by law. Eligible retirees age 65 or older, or age 50 and over with at least 10 years of eligible service, may also request partial withdrawals from the Plan. Active employees may request in service distribution upon the attainment of age 59 1/2. After tax withdrawals are available once every six months. In certain limited hardship situations (as defined by Internal Revenue Service (IRS) regulations), participants may withdraw up to 100% of their account balance.

**Participant Notes Receivable** - Active participants, retirees, and terminated participants may borrow from their employee contributions, plus earnings on those contributions, with a minimum note receivable of \$1,000. Participant notes receivable are limited to the smaller of:

50% of the total account balance or  
\$50,000 less the highest outstanding participant note receivable balance in the preceding 12 months

Note receivable repayments for active employees are made through payroll deductions, on an after tax basis, with a minimum term of six months and a maximum of 60 months for any purpose other than the purchase of a primary residence; and a minimum term of six months and a maximum of 120 months for participant note receivable for the purpose of purchasing a primary residence. Repayments, both interest and principal, are credited to the participant's account and are allocated among the fund options according to the participant's current investment election. A fixed interest rate is applied to the note receivable. This rate is equal to the prime rate on the last day of each calendar quarter before the loan is processed. The range of interest rates on notes receivable outstanding at December 31, 2013 and 2012 was 3.25% to 10.5% and 3.25% to 11.5%, respectively.

**Investments** - Participants direct the investment of their contributions into various investment options offered by the Plan.

**Administration** - Administrative expenses of the trustee are charged to the Plan. The net assets of the Plan are held by Fidelity Management Trust Company ("Fidelity"), who acts as independent trustee, custodian, and recordkeeper for all the investments in the Plan. Fidelity manages certain plan investments. All transactions with Fidelity qualify as party-in-interest transactions.

**Amendment or Termination** - The Plan does not have an expiration date. The Company may at any time terminate, amend, or modify the Plan, subject to certain rights of the Plan participants. Upon termination of the Plan, each participant is entitled to receive the entire balance in his or her account in accordance with the terms of the Plan.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting** - The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America. Investment transactions are accounted for on the trade date, and dividend and interest income is recorded when earned.

**Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Temporary Investments - Temporary investments are investments in short term money market funds in the respective investment funds.

Investment Valuation and Income Recognition - Investments in the Plan consisting of common stock of the Company, mutual funds, futures and options derivative contracts, and common stock are stated at fair value based upon the quoted market value of such securities at year end. The investments in common/collective trusts are valued at net asset value per share (or its equivalent) of the fund, based on the fair market values of the underlying net assets. Due to their short term nature and liquidity, temporary investments are stated at outstanding balance, which approximates fair value. Fixed income securities and To Be Announced derivative contracts (see below for description) are valued using quoted market price and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. Wrap contracts are valued based on the rebid price.

Investments of the Interest Income Fund (“Fund”) included in the Plan consist of Synthetic Guaranteed Investment Contracts (“Synthetic GICs”). Synthetic GICs operate similarly to an insurance company separate account investment contract, except that the assets are placed in a separate custodial account (owned by the Plan) rather than such assets being held in a separate account of the insurance company. A Synthetic GIC is a wrap contract paired with an underlying investment or investments, usually a portfolio, owned by the Plan, of high-quality, intermediate term fixed income securities or common collective trusts holding similar investments. The Plan purchases a wrapper contract from financial services institutions.

In addition to holding certain assets, Synthetic GICs include features designed to provide participant liquidity at book value as well as periodic interest crediting rates. The liquidity feature is also known as “benefit responsiveness.” Synthetic GICs may be issued by banks, insurance companies, and other financial institutions.

The Synthetic GICs provide for prospective crediting interest rate adjustments based on the interest earnings and fair value of the underlying trust assets. The crediting interest rates are reset monthly and the contracts provide that the crediting interest rates cannot be less than zero.

Certain events may limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin offs of a subsidiary) which cause a significant withdrawal from the Plan; or (iv) the failure of the Plan to qualify for exemption from federal income taxes or any required exemption of prohibited transaction under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value, is probable.

Synthetic GICs generally impose conditions on both the Plan and the issuer. If an event of default occurs and is not resolved, the non defaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the plan agreement. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; has a decline in its long-term credit rating below a threshold set forth in the contract; or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement investment contract, losses may occur if the market value of the Plan's assets, which were covered by the contract, is below the contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default.

If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If a contract terminates due to a decline in the ratings of the issuer, the issuer may be required to pay to the Plan the cost of acquiring a replacement contract (i.e., replacement cost) within the meaning of the contract. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

Changes in fixed income market conditions and interest rates may affect the yield to maturity and the market value of the underlying investments. Such changes could have a material impact on the Synthetic GIC's future interest crediting rates. In addition, participant withdrawals from and transfers out of the Interest Income Fund made according to Plan provisions are paid at contract value but funded through the market value liquidation of the underlying investments. This process of funding participant withdrawals and transfers from market value liquidations of underlying investments may also have an effect on future interest crediting rates.

The difference between the Fund's contract value and the related market value of underlying Fund investments is represented on the Plan's statements of net assets available for benefits as the "adjustments from fair value to contract value for fully benefit responsive investment contracts."

All of the Plan's Synthetic GICs are considered to be fully benefit responsive and are therefore recorded at contract value in accordance with the accounting standards. The average yield for the Plan's Synthetic GICs was approximately 1.3% and .8% as

of December 31, 2013 and 2012, respectively. The crediting interest rate was approximately 1.8% and 2.3% at December 31, 2013 and 2012, respectively. There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Derivative Instruments - In order to manage interest rate exposures, investment managers are allowed to enter into derivative contracts. These derivative contracts consist of future contracts, including future option contracts, and To Be Announced Contracts ("TBA"). A future contract is a contractual agreement to make or take delivery of a standardized quantity of a specific grade or type of commodity or financial instrument at a specified future date in accordance with terms specified by a regulated futures exchange. These contracts involve elements of market risk in excess of amounts recognized in the statements of net assets available for benefits. The credit risk associated with these contracts is minimal as they are traded on organized exchanges and settled daily. Upon entering into a futures contract, the Plan is required to deposit either in cash or securities an amount ("initial margin") equal to a certain percentage of the notional value of the contract. Subsequent payments are then made or received by the Plan, depending on the daily fluctuation in the value of the underlying contracts. A TBA is when a mortgage backed security issued by Freddie Mac, Fannie Mae or Ginnie Mae is purchased but the actual security is not assigned until 48 hours prior to trade settlement date. The Plan's investment policies specifically prohibit the use of derivatives for speculative purposes.

In connection with certain derivative instrument agreements, the Plan receives noncash collateral as security to mitigate the risk of counterparties not meeting obligations under the terms of the agreements. The noncash collateral received is not reflected in the net assets of the Plan, as the Plan does not sell or pledge the noncash collateral.

The net assets of the Plan reflect the fair value of the derivative instruments in a loss position as an offset against the fair value of derivative instruments in a gain position. Any gains or losses recognized on derivatives are recognized in current year investment income. The estimated fair values of derivative instruments at December 31, 2013 and 2012 are as follows:

Interest rate instruments:	2013	2012
Assets	\$45,257,533	\$48,547,460
Liabilities	44,429,011	48,023,895

Asset and liability derivatives are included in investments on the Statements of Net Assets Available for Benefits.

For the year ended December 31, 2013, the amounts of gain or loss recognized as investment income on the Statement of Changes in Net Assets Available for Benefits attributable to derivative instruments are as follows:

Interest rate instruments:		
Futures	\$5,568,088	
TBA	(568,615	)
	\$4,999,473	

The Plan is not invested in any over-the-counter derivatives. All securities are settled through organized exchanges.

During 2013 and 2012, the derivative investments were primarily futures contracts and TBAs. The notional amount represents the contract amount, not the amount at risk. The absolute notional amount of interest rate instruments was \$281 million and \$166 million at December 31, 2013 and 2012, respectively.

Benefits Payable - Amounts payable to persons who have withdrawn from participation are not recorded as a liability of the Plan. Benefits payable to participants who had withdrawn from participation in the Plan as of December 31, 2013 and 2012 were insignificant.

Federal Income Tax Status - The Internal Revenue Service has determined and informed the Company by a letter dated August 9, 2013 that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Internal Revenue Code (the "Code"). Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. On January 31, 2014, the Company submitted an application for a new determination letter for the Plan in accordance with the IRS Cycle C filing procedures.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes it is no longer subject to tax examinations for years prior to 2010.

Risks and Uncertainties - The Plan invests in various investment instruments. At December 31, 2013, the Plan did have concentration of risk of the following:

- United States equity markets through various investments in mutual and pooled funds (excluding target date funds);
- Interest rate and credit risk through investments in the Interest Income Fund; and
- The Dow Chemical Company credit risk through Dow stock investments.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

### 3. INVESTMENTS

The Plan's significant investments as of December 31, 2013 and 2012 are as follows:

	2013	2012
The Dow Chemical Company Stock - at fair value:		
Dow Stock (1)	\$781,240,555	\$706,488,180
LESOP Allocated (2)	654,693,274	500,146,344
LESOP Unallocated (3)	1,006,126,156	823,077,248
Mutual funds - at fair value:		
Fidelity Contrafund K (1)	584,509,545	441,097,416
S&P 500 Index Fund	1,024,905,963	792,687,525
Synthetic GICs:		
IGT INVESCO ShrTrm Bond - at contract value	821,887,174	852,586,602

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

The Dow Chemical Company Stock:

Dow Stock (1)	\$229,722,663	
LESOP Allocated (2)	184,444,754	
LESOP Unallocated (3)	278,225,610	
Common/collective trusts	437,700,251	
Mutual funds	338,203,817	
Common stock	6,580,273	
Synthetic GICs:		
Fixed Income Securities	24,053,356	
Common/collective trusts	20,416,021	
Wrap Contracts	(19,304	)
Other	(745,599	)
Net appreciation in fair value of investments	\$1,518,581,842	

(1) Represents a party-in-interest to the Plan.

- (2) Participant directed and represents a party-in-interest to the Plan.
- (3) Non-participant directed and represents a party-in-interest to the Plan.

The Plan's investment in The Dow Chemical Company LESOP, at December 31, 2013 and 2012, is presented in the following table:

	2013		2012	
	Allocated	Unallocated	Allocated	Unallocated
Number of Shares	14,745,344	22,660,499	15,474,825	25,466,499
Cost	\$72,580,627	\$356,721,064	\$78,388,782	\$391,472,993
Fair Value	\$654,693,274	\$1,006,126,156	\$500,146,344	\$823,077,248

#### 4. FAIR VALUE

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

For investments classified as Level 1 (measured using quoted prices in active markets), the total fair value is either the price of the most recent trade at the time of the market close or the official close price as defined by the exchange in which the asset is most actively traded on the last trading day of the period, multiplied by the number of units held without consideration of transaction costs.

For investments classified as Level 2 (measured using significant other observable inputs), the Level 1 process is utilized where available (primarily for some debt securities). If the Level 1 process is not available, the underlying assets are valued based on the price a dealer would pay for the security or similar securities, adjusted for any terms specific to that security. Market inputs are obtained from well established and recognized vendors of market data and placed through tolerance/quality checks.

For investments classified as Level 3, the total fair value is based on significant unobservable inputs including assumptions where there is little, if any, market activity for the investment. Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 investments. As a result, the unrealized gains and losses for these investments presented in the tables below may include changes in fair value that were attributable to both observable and unobservable inputs.

The investment's fair value level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables present information about certain assets of the Plan measured at fair value on a recurring basis.

Assets Measured at Fair Value on a  
Recurring Basis at December 31,  
2013

Total assets at fair value	\$ 4,098,437,117	\$ 4,278,198,848	\$ 357,650	\$ 8,376,993,615

This class represents investments in actively managed common/collective trusts that invest primarily in equity (1) securities, which may include common stocks, options and futures. There were no significant redemption restrictions, redemption notification requirements, or unfunded commitments.

This class represents investments in actively managed common/collective trusts that invest in a variety of fixed (2) income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options and futures. There were no significant redemption restrictions, redemption notification requirements, or unfunded commitments.

This class represents investments in actively managed common/collective trusts with investments in both equity (3) and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, real estate, interest rate swaps, options and futures. There were no significant redemption restrictions, redemption notification requirements, or unfunded commitments.

Changes in Level 3 assets measured at fair value on a recurring basis for the year ended December 31, 2013 are as follows:

Balance as of January 1, 2013	Synthetic GIC Wrap Contract	
	\$ 357,650	
Unrealized Loss	(19,304	)
Balance as of December 31, 2013	\$ 338,346	

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2013.

The Plan also holds other assets and liabilities not measured at fair value on a recurring basis, including accrued income, LESOP loan payables, and accrued liabilities and payables. The fair value of these assets and liabilities approximates the carrying amounts in the accompanying financial statements due to either the short maturity of the investments or the use of interest rates that approximate market rates of similar maturity dates, terms, and nonperformance risks. Under the fair value hierarchy, these financial instruments are valued primarily using level 2 inputs.

## 5. LEVERAGED EMPLOYEE STOCK OWNERSHIP PLAN AND LOAN PAYABLE

The Plan consists of a profit sharing plan with a cash or deferred feature which is intended to qualify under Sections 401(a) and 401(k) of the Internal Revenue Code of 1986, as amended (the "Code"), and an employee stock ownership plan (the "ESOP") that is intended to qualify (as a stock bonus plan) under Sections 401(a) and 4975(e)(7) of the Code. The ESOP consists of (i) a leveraged employee stock ownership plan or LESOP, and (ii) the Dow Company Stock Fund. The LESOP includes (i) the assets of the Suspense Account and (ii) a LESOP Stock Fund which (A) shall consist of shares of Dow Common Stock acquired with the proceeds of exempt loans, and allocated to participant accounts, and (B) shall provide for such subaccounts as described in the definition of "LESOP Account" in Section 1.3 in the Plan and as further necessary. The portion of the Plan invested in the Dow Stock Fund constitutes part of the employee stock ownership plan under Section 4975(e)(7) of the Code.

The Plan has one loan outstanding at December 31, 2013 and 2012, which bears interest at 10.03% and matures in 2020. The loan is between the Plan and Dorintal Reinsurance Ltd., a party-in-interest. Prior to February 28, 2011, the loan was between the Plan and Rohm and Haas Holdings Ltd.. On February 28, 2011, Rohm and Haas Holdings Ltd. and Dorintal Reinsurance Ltd entered into an amalgamation agreement, which resulted in the amalgamation of the two companies. The combined company is known as Dorintal Reinsurance Ltd. The Plan uses dividends paid on unallocated shares of Company common stock to make the scheduled quarterly principal and interest payments. If needed, the Plan may use dividends on allocated shares of Company common stock to make the scheduled principal and interest payments. Dividends from allocated shares used to pay principal and interest are replaced by an equal value of shares released in accordance with the release fraction. The Company is required to make a cash contribution to fund any quarterly shortages in Company common stock dividends paid as compared to required principal and interest payments. There was no shortfall so there was no need for a Company cash contribution for the year ended December 31, 2013. The Company declared common stock dividends of \$1.28 per share during 2013.

Interest expense for the year ended December 31, 2013 is \$9,830,166. The minimum principal payments on this loan to maturity are as follows:

2014	\$11,231,088
2015	12,400,648
2016	13,692,004
2017	15,117,833
2018	16,692,143
Thereafter	22,437,797
	\$91,571,513

## 6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2013 and 2012:

	2013	2012
Net assets available for benefits per the financial statements	\$9,512,186,201	\$8,287,500,901
Adjustment from contract value to fair value for fully benefit-responsive synthetic guaranteed investment contracts	51,577,588	113,534,522
Net assets available for benefits per Form 5500	\$9,563,763,789	\$8,401,035,423

For the year ended December 31, 2013, the following is a reconciliation of net investment income per the financial statements to Form 5500:

Net investment gain per the financial statements	\$1,688,355,001	
Adjustment for participant notes receivable interest	4,285,794	
Adjustment from contract value to fair value for fully benefit-responsive synthetic guaranteed investment contracts	(61,956,934	)
Net investment gain per Form 5500	\$1,630,683,861
