ITEM 5. OTHER EVENTS

The information included in this Form 8-K affects only disclosures related to segment results, and does not in any way restate or revise the financial position, results of operations or cash flows in any previously reported Statement of Financial Position, Statement of Earnings or Statement of Cash Flows of General Electric Company ("GE") and consolidated affiliates, or the consolidating financial statements of GE or GE Capital Services, Inc. ("GE Capital").

On July 26, 2002, General Electric Company issued a press release announcing organizational changes that will result in GE Capital becoming four separate GE financial services businesses. On August 29, 2002, GE issued a press release announcing the formation of the GE Consumer Products business from the previously separate GE Appliances and GE Lighting businesses. As required by Statement of Financial Accounting Standards ("SFAS") No. 131, consolidated financial statements issued by GE in the future will reflect modifications to its reportable segments resulting from these organizational changes, including

reclassification of all comparative prior period segment information. Accordingly, in this Form 8-K, GE is providing the required reclassified information about these reorganizations as they relate to prior periods. This information also reflects previously disclosed changes in the basis for measurement of performance of GE's businesses that were made in the first quarter of 2002 in connection with GE adopting a new accounting requirement to cease amortizing goodwill as of January 1, 2002. These measurement changes were the treatment of goodwill amortization and earnings effects associated with GE pension and other retiree benefit plans as corporate rather than segment items, and allocation to segments of other selected costs previously reported at the corporate level. Such changes were previously disclosed in Form 8-K, filed by GE on April 11, 2002.

The attached exhibits provide two views of the reclassifications resulting from the organizational and measurement changes. Exhibits 99a through 99c set out the portions of GE's 2001 Form 10-K and most recent 2002 Form 10-Q that are affected by these changes. Exhibits 99d and 99e contain the complete set of consolidated financial statements from these filings for which the segment information has been reclassified to conform with the new segment presentation. These financial statements, conformed for the changes, will become the historical financial statements of GE for currently open and future SEC 1933 Act filings.
