Report of Independent Accountants

To the Participants and Administrator of

Kinder Morgan, Inc. Savings Plan:

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Kinder Morgan, Inc. Savings Plan (the "Plan") at December 31, 2000 and 1999, and the changes in net assets available for benefits for the year ended December 31, 2000 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held for investment purposes and reportable transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Kinder Morgan, Inc. Savings Plan **(Formerly K N Energy, Inc. Profit Sharing and Savings Plan)** **Notes to Financial Statements and Schedules**

1. Description of the Plan

General

The Employees Retirement Fund Trust Profit Sharing Plan (the "Profit Sharing Plan") of K N Energy, Inc. was established in 1945 for the benefit of eligible employees (as defined in the Profit Sharing Plan indenture). Effective with K N Energy, Inc.'s acquisition of Kinder Morgan (Delaware), Inc., formerly Kinder Morgan, Inc., a Delaware corporation, K N Energy, Inc. changed its name to Kinder Morgan, Inc. (the "Company").

The Profit Sharing Plan is the surviving plan of a merger, effective July 1, 1994, of the 401(k) Retirement Savings Plan and Trust (the "401(k) Plan") and the Profit Sharing Plan. The surviving Profit Sharing Plan was amended and restated, including the name change to the K N Energy, Inc. Profit Sharing and Savings Plan.

In 2000, the Profit Sharing Plan was merged with the Kinder Morgan Bulk Terminals Retirement Savings Plan (the "KMBT Plan") and the Kinder Morgan Retirement Savings Plan (the "KMRS Plan"). The merged plan was renamed the Kinder Morgan, Inc. Savings Plan (the "Plan"). All assets in the KMBT and KMRS Plans, which totaled approximately \$32.6 million, were liquidated and invested in the Plan pursuant to the participants' directions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation. Reference should be made to the Plan agreement for a more complete description of the Plan's provisions.

Contributions

Participants may elect to make pretax contributions totaling from 1 percent to 15 percent of their annual compensation, limited by requirements of the Internal Revenue Code ("IRC"). Participants may discontinue their election to contribute at any time.

Beginning in July 2000, the Company began making Qualified Non-Elective Contributions ("QNEC") to the Plan on behalf of each eligible employee. The QNEC is equal to 4 percent of eligible compensation and is contributed each pay period. All Company contributions are invested in Kinder Morgan, Inc. common stock, which is immediately transferable to other available investments at the employee's discretion. In addition to the QNEC, the Company may also make discretionary contributions to the Plan, based on the Company's performance. The total Company contribution was \$3,232,522 for the year ended December 31, 2000.

Under IRS regulation, annual additions under the Plan and all other plans sponsored by the Company are limited to the lesser of 25 percent of eligible compensation or \$30,000 for each employee. Annual additions are defined as employer contributions and employee contributions.

Kinder Morgan, Inc. Savings Plan

(Formerly K N Energy, Inc. Profit Sharing and Savings Plan)

Notes to Financial Statements and Schedules

Benefits/Vesting

Participants are fully and immediately vested in all employee contributions and all Company contributions made after July 1, 2000. Former K N Energy, Inc. employees who received Company contributions between January 1, 1995 and June 30, 2000 are subject to a four-year vesting provision (25 percent per year of service) on those contributions. Employee contributions may be withdrawn, with the approval of the Fiduciary Committee, in the event of unusual expenses connected with illness or disability, for children's college expenses, or for the purchase of a primary residence, as defined in the Plan document. If not withdrawn earlier, a participant's account will be distributed in the event of termination of employment, death, or termination of the Plan. If a participant's account is less than \$5,000, a lump-sum distribution will generally be made. If a participant's account is greater than \$5,000, the participant's distribution options are: lump-sum distribution, monthly or yearly installments, or purchase of an annuity. Upon retirement, participants may choose to leave their account in the Plan.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Loans

Participants may borrow, from the vested portion of their fund accounts, a minimum of \$500 up to a maximum equal to the lesser of 50 percent of their vested deferral account balance or \$50,000. The loans are subject to certain restrictions as defined in the Plan document and applicable restrictions under the IRC.

Forfeitures

Forfeitures of non-vested employer contributions remain in the plan and earn interest income. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company profit sharing contributions. During 2000, \$107,034 of employer contributions was forfeited by terminating employees before those amounts became vested. At December 31, 2000, the remaining forfeiture balance was \$606,039.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are accounted for at fair market values. Participant loans are valued at cost, which approximates fair market value. Unrealized appreciation (depreciation) is the difference between the fair value at the end of the current year and the cost of the

-5-

Kinder Morgan, Inc. Savings Plan (Formerly K N Energy, Inc. Profit Sharing and Savings Plan) Notes to Financial Statements and Schedules

investment, if acquired during the Plan year, or the fair value at the beginning of the Plan year. The accompanying supplemental schedule of assets held for investment purposes reflects cost basis determined utilizing an original cost approach as required by ERISA.

Purchases and sales of the funds are reflected on a trade date basis. Gain or loss on sale of units is based on average cost.

The Plan presents in the statement of changes in net assets the net appreciation (depreciation) in the fair value of investments, which consists of realized gains and losses, and the net change in unrealized appreciation (depreciation) on those investments.

Other

The Company's annual discretionary contribution, if any, is determined when annual net income and payroll amounts are known. The contribution is allocated to participants subsequent to year-end.

The Company provides certain administrative and accounting services to the Plan at no cost and also pays the cost of certain outside services provided to the Plan. Such outside services paid by the

Company were approximately \$29,000 in 1999. No such payments were made by the Company in 2000.

Payment of Benefits

Benefits are recorded when paid.

3. Investments

Participants may designate their allocated portion of the contribution, in percentage increments divisible by five, to one or more of the eligible investment programs. New Plan participants may elect to transfer investments from other qualified plans into the Plan.

The investment programs of the Plan and the number of participants in each program at December 31, 2000 and 1999 are briefly described as follows:

Putnam S&P 500 Index Fund

- This program invests in stocks that closely approximate the return of the S&P 500 index. At December 31, 2000, 879 participants held 187,433 shares with a cost of \$6,526,542 and a market value of \$5,937,871. This investment option was not available in 1999.

Prior to January 1, 1987, participants had the option of purchasing life insurance through the Plan. Thereafter, the segment of the Plan allowing for the purchase of a life insurance policy on the life of the participant was frozen so that no new policies could be written. Participants with policies at December 31, 1986, had the following options: 1) allow the policy to remain in force with a frozen face value and fixed premium payments, 2) elect to use the cash surrender value ("CSV") of the policy to purchase paid-up life insurance or 3) reinvest the CSV of the policy in another fund. The value of life insurance in force is not recorded in these financial statements.

The following presents the fair value of investments that represent 5 percent or more of the Plan's net assets:

5. Tax Status

The Plan is qualified under the IRC as exempt from federal income taxes, and the Plan received a favorable determination letter from the Internal Revenue Service on August 23, 1996. The Plan has been amended since receiving this determination; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the administrator believes that the Plan was tax exempt as of the financial statement dates.

Employer contributions to the Plan and all earnings from Plan investments are not taxable to participants until a partial or complete distribution of such contributions or earnings is made.

6. Party-in-Interest Transactions

Certain Plan investments are shares of Kinder Morgan, Inc. common stock. Certain Plan investments are shares of mutual funds and money market funds managed by Putnam Investments, Inc. Putnam Fiduciary Trust Company (the Trustee of the Plan) is a subsidiary of Putnam Investments, Inc. and, therefore, these transactions qualify as party-in-interest.

7. Risks and Uncertainties

The Plan provides for various investment options in mutual funds, money market funds and Company common stock. Investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts shown in the Statements of Net Assets Available for Benefits.
