This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of proxies to be voted at the Annual Meeting of Shareholders of Mechanical Technology Incorporated to be held on June 19, 2003, and any adjournment thereof, at The Desmond, Albany, New York.

The shares represented by properly completed proxies received prior to the vote will be voted FOR 1) the election of directors, unless specific instructions to the contrary are given or an abstention from voting is indicated by the shareholder; and 2) the ratification of the appointment of PricewaterhouseCoopers LLP as independent auditors. Votes will be tabulated by inspectors of election appointed in accordance with the applicable provisions of the New York Business Corporation Law.

COMMITTEES AND MEETINGS OF THE BOARD OF DIRECTORS

The Board of Directors held 9 meetings during 2002. All directors attended at least 75% of all of the Board and committees meetings held during 2002. The Board of Directors has established an Audit Committee and a Compensation Committee. The Company does not have a standing Nominating Committee of the Board of Directors.

Audit Committee

The Audit Committee currently consists of Mr. O'Connor (Chairman), Mr. Dohring and Dr. Robb. Prior to Mr. Church's appointment as Chairman and CEO

3

of the Company on October 22, 2002 and prior to Mr. Goldberg's resignation on December 31, 2002, they served as members of the Audit Committee. The Board has determined that the members of the Audit Committee satisfy all requirements as to independence, financial literacy and experience, except that Mr. Goldberg, as a director of First Albany Companies Inc., an affiliate of the Company, and Mr. Dohring as former President (April 1, 2000 to April 5, 2002) of MTI Instruments, Inc., a subsidiary of the Company, may not have been deemed independent as defined in Nasdaq Marketplace Rule 4200(a)(14). Based on Mr. Dohring's extensive business experience and his unique knowledge and understanding of the Company and its industry, the Board of Directors determined that Mr. Dohring's membership on the Audit Committee is in the best interests of the Company and its shareholders.

The Audit Committee met six times during 2002. The responsibilities of the Audit Committee are set forth in the Charter of the Audit Committee, which was adopted by the Board of Directors of the Company on March 30, 2000. The Committee, among other matters, is responsible for the annual appointment of independent accountants as the auditors of the Company, and reviews the arrangements for and the results of the auditors' examination of the Company's books and records, auditors' compensation, internal accounting control procedures, and activities. The Audit Committee also reviews the Company's accounting policies, control systems and compliance activities. The Committee also reviews the Charter of the Audit Committee.

Audit Committee Report

Management is responsible for the Company's internal controls and the financial reporting process. The Company's independent auditor's, PricewaterhouseCoopers LLP ("PwC"), are responsible for performing an independent audit of the Company's financial statements in accordance with generally accepted auditing standards and to issue a report on those financial statements.

The Board of Directors has not yet designated any members as Audit Committee Financial Experts under the rules of the SEC adopted in January 2003, which will be effective later in the year. The Board will consider this matter during 2003 as a part of its ongoing governance review.

Review of Audited Financial Statements with Management

The Audit Committee reviewed and discussed the Company's audited financial statements for the year ended December 31, 2002 and the three months ended December 31, 2001 ("the Transition Period"), with the management of the Company.

In addition, the Audit Committee has received the written disclosures and the letter from PwC required by Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees," and has discussed with PwC the independent accountants' independence from the Company and its management.

4

The Company's Audit Committee has not yet adopted/enacted pre-approval policies and procedures for audit and non-audit services. However, for the year ended December 31, 2002, the Audit Committee pre-approved audit and tax fees. Therefore, the proxy disclosure does not include pre-approval policies and procedures and related information. The Company is early-adopting components of the proxy fee disclosure requirements; the requirement does not become effective until periodic annual filings for the first fiscal year ending after December 15, 2003.

Compensation Committee

Drs. Robb and Sternlicht and Mr. O'Connor currently serve as the members of the Company's Compensation Committee. Mr. Goldberg served as a member of the Compensation Committee until his resignation from the Board of Directors on December 31, 2002. The Compensation Committee was established to set and administer the policies that govern annual stock and non-stock compensation for the Company's executives, review general compensation levels for other employees as a group and review and recommend policies regarding the Company's compensation and incentive plans. After review and approval by the Compensation Committee, issues pertaining to executive compensation and compensation policies are reported to the Board of Directors. The Compensation Committee met two times during 2002.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Corporation's executive compensation program is administered by the Compensation Committee. This committee, composed of Drs. Robb and Sternlicht and Mr. O'Connor, is responsible for establishing the policies that govern base salary, as well as short and long-term incentives for the Company's senior management team. Mr. Goldberg served on the Compensation Committee until his resignation from the Board on December 31, 2002.

The Committee believes that the primary objectives of the Company's compensation policies are to attract and retain a management team that can effectively implement and execute the Company's strategic business plan. These compensation policies include (i) an overall management compensation program that is competitive with management compensation programs at companies of similar sizes and lines of business; and, (ii) long-term incentive compensation in the form of stock options which will encourage management to continue to focus on stockholder return.

The Committee's goal is to use compensation policies to closely align the interests of management with the interests of stockholders in building long-term value for the Company's stockholders. The Committee reviews its compensation policies from time to time in order to determine the reasonableness of the Company's compensation programs and to take into account factors which are unique to the Company.

As described below, Messrs. Church and Soucy and Drs. Acker and Gottesfeld have signed Employee Agreements with the Company defining the employee's duties, salary, severance arrangements and restrictions on competition with the Company. For more detailed information on employment arrangements, see "Employment Agreements" below.

6

Base Salary.

The Committee's goal is not only to assure a base level sufficient to attract and retain key executives, but also to balance that goal with long-term incentives which assure that a significant portion of annual compensation is dependent upon the performance of the Company.

Bonus.

No bonuses were paid to Messrs. Church, Chaves or Soucy or to Dr. Acker in Fiscal 2002. Dr. Gottesfeld was paid a bonus in Fiscal 2002.

Stock Options.

In examining stock option, equity incentive, phantom stock and other plans typically provided to senior management in publicly held companies, the Compensation Committee determined that the Company should provide equity incentives to its senior management. Stock options have been issued in recognition of the performance of the senior management team to date in improving the Company's financial position, establishing important strategic relationships with distributors, and developing technology and bringing to market innovative new products. The Committee also believes that the granting of stock options is a valuable incentive tool for management to continue to focus on realizing strategic goals and in building value for all stockholders.

Most of the stock option grants vest over a multi-year period.

Compensation of Chief Executive Officer.

Dale W. Church became the Company's Chief Executive Officer on October 22, 2002 and received salary compensation of \$23,077 for the period October 22 to December 31, 2002. The compensation for Mr. Church was based upon careful analysis of other comparable public companies' chief executive officer's compensation and the performance of the Company, including progress on the development and commercialization of MTI Micro's direct methanol micro fuel cell system, revenue generation at MTI Instruments and Mr. Church's efforts in identifying potential funding sources for the Company and its subsidiaries.

Compliance with Internal Revenue Code Section 162(m).

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation over \$1 million paid to the Corporation's Chief Executive Officer and the four other most highly compensated executive officers. Qualifying performance-based compensation will not be subject to the deduction limit if certain requirements are met. The Committee periodically reviews the potential consequences of Section 162(m) and may structure the performance-based portions of its executive compensation to comply with certain exemptions to Section 162(m). However, the Committee reserves the right to use its judgment to authorize compensation payments that do not comply with the exemptions to Section 162(m) when the Committee believes that such payments are appropriate and in the best interests of

the stockholders, after taking into consideration changing business conditions or the officer's performance.

Compensation Committee

Dr. Beno Sternlicht

Mr. E. Dennis O'Connor

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

In 2002, the Compensation Committee, consisted of Drs. Robb and Sternlicht and Mr. Goldberg until his resignation from the Board of Directors on December 31, 2002, none of whom are employees of the Company. Mr. Goldberg is the President and a member of the Board of Directors of First Albany Companies Inc. For information concerning the committee members' relationship to the Company see "Securities Ownership of Certain Beneficial Owners" and "Certain Relationships and Related Transactions."

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Management believes transactions among related parties are as fair to the Company as obtainable from unaffiliated third parties.

On December 20, 2002, the Company and First Albany Companies Inc.

("FAC") completed a share exchange transaction in which FAC exchanged 8 million shares of the Company's common stock owned by FAC for 2,721,088 shares of Plug Power common stock owned by the Company. As a condition of the exchange, FAC agreed not to sell its remaining shares of the Company for two years ("lock-up agreement"). MTI waived this lock-up agreement in late December 2002 to permit FAC to gift shares. The Company recorded a non-cash gain on the exchange transaction of \$8.006 million and recorded treasury stock at a non-cash cost of \$13.606 million. As of December 31, 2002, FAC owns 2,991,040 shares, or approximately 10.83%, of the Company.

As a result of the transaction, the Company is no longer required to account for its remaining holdings in Plug Power under the equity method of accounting. Under the equity method of accounting, the Company was required to report its proportionate share of Plug Power's financial results.

During the twelve months ended December 31, 2002, FAC sold 662,705 shares of the Company's common stock in the public markets.

As of December 31, 2002, Mechanical Technology owns approximately 4.58% of SatCon's outstanding stock. David B. Eisenhaure, a Director of the Company, is President, Chief Executive Officer and Chairman of the Board of Directors of SatCon.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's directors, executive officers and holders of more than 10% of the Company's Common Stock to file with the SEC initial reports of ownership of the Company's Common Stock and other equity securities on a Form 3 and reports of changes in such ownership on a Form 4 or Form 5. Officers, directors and 10% stockholders are required by SEC regulations to furnish

the Company with copies of all Section 16(a) forms they file. To the Company's knowledge, based solely on a review of the Company's records and written representations by the persons required to file such reports, all filing requirements of Section 16(a) were satisfied with respect to the Company's most recent Calendar year.

8

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

The Audit Committee annually considers and recommends to the Board the appointment of the Company's independent auditors.

The persons named in the enclosed Proxy will vote to ratify the appointment of PricewaterhouseCoopers LLP ("PwC") as independent auditors for the year ending December 31, 2003 unless otherwise directed by the stockholders. A representative of PwC is expected to be present at the Annual Meeting and will have the opportunity to make a statement and answer appropriate questions from stockholders. If the stockholders do not ratify the appointment of PwC as the Company's independent auditors, the appointment of such independent auditors will be reconsidered by the Audit Committee and the Board.

Potential realizable value is based on the assumption that the common stock appreciates at the annual rate shown, compounded annually, from the date of grant until expiration of the 10-year term. These numbers are calculated based upon Securities and Exchange Commission requirements and do not reflect the Company's projection or estimate of future stock price growth. Potential realizable values are computed by multiplying the number of shares of common stock subject to a given option by the fair market value on the date of grant, assuming that the aggregate stock value derived from that calculation compounds at the annual 5% or 10% rate shown in the table for the entire 10-year term of the option and subtracting from that the aggregate option exercise price.

3

100% exercisable at grant. Reflects awards under the Directors' Stock Option Program for services as a Director.

4

50% or 25,000 shares are exercisable on first anniversary date (August 5, 2003) and 25% or 12,500 shares are exercisable on second and third anniversary dates.
