MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

JUNE 30, 2010

NOTE 1 ORGANIZATION AND ACCOUNTING POLICIES

Monmouth Real Estate Investment Corporation and its subsidiaries (MREIC, the Company or we) operate as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations. In addition, the Company currently owns a majority interest in two limited liability companies of which the Company consolidates their results of operations and financial condition. The Company also owns a portfolio of investment securities.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim consolidated financial statements furnished herein have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended June 30, 2010 are not necessarily indicative of the results that may be expected for the year ending September 30, 2010. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended September 30, 2009.

Certain amounts in the consolidated financial statements for the prior periods presented have been reclassified to conform to the financial statement presentation for the current year.

Use of Estimates

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and revenue and expenses for the periods then ended. Actual results could differ significantly from these estimates and assumptions.

Stock Based Compensation

The Company accounts for stock options in accordance with ASC 718-10 which requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). This compensation cost is determined using option pricing models, intended to estimate the fair value of the awards at the grant date. Compensation costs of \$5,364 and \$14,087 have been recognized in the three months ended June 30, 2010 and 2009, respectively, and compensation costs of \$10,728 and \$63,263 have been recognized in the nine months ended June 30, 2010 and 2009, respectively.

On July 26, 2007, the shareholders approved and ratified the Company's 2007 Stock Option Plan (the 2007 Plan) authorizing the grant to officers and key employees of options to purchase up to 1,500,000 shares of common stock.

On May 6, 2010, the shareholders approved and ratified an amendment and restatement of the 2007 Plan. The amendment and restatement made two significant changes: (1) the inclusion of Directors as participants in the 2007 Plan, and (2) the ability to grant restricted stock to Directors, officers and key employees. The amendment and restatement also made other conforming, technical and other minor changes. The amendment also makes certain modifications and clarifications,

Edgar Filing: MONMOUTH REAL ESTATE INVESTMENT CORP - Form 10-Q

including concerning administration and compliance with applicable tax rules, such as Section 162(m) of the Internal Revenue Code.

On August 2, 2010, the Company awarded 67,900 restricted shares to plan participants. Please see Note No. 14.

During the nine months ended June 30, 2010, the following stock options were granted:

<u>Date of Grant</u>	<u>Number of Employees</u>	<u>Number of Shares</u>	<u>Option Price</u>	<u>Expiration Date</u>
1/5/10	1	65,000	\$7.22	1/5/18

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions used for grants in the fiscal year indicated:

	Fiscal 2010	Fiscal 2009
Dividend yield	8.31%	8.30%
Expected volatility	19.30%	16.41%
Risk-free interest rate	3.25%	3.38%
Expected lives (years)	8	8
Estimated forfeitures	-0-	-0-

The weighted-average fair value of options granted during the nine months ended June 30, 2010 and 2009 was \$0.33 and \$0.23, respectively.

During the nine months ended June 30, 2010, six participants exercised options to purchase 116,185 shares of common stock at an average exercise price of \$6.58 for total proceeds of \$764,296. During the nine months ended June 30, 2010, options to purchase 114,765 shares expired and were added back to the pool of shares to be granted. The amount of shares available to grant as stock options or award as restricted stock under the amended and restated plan was 1,092,385 shares as of June 30, 2010. As of June 30, 2010, there were options to purchase 1,378,600 shares outstanding under the 2007 amended and restated plan.

Recent Accounting Pronouncements

Accounting Standards Codification (ASC) 805-10, Business Combinations and ASC 810-10, Consolidation, require most identifiable assets, liabilities, noncontrolling interests and goodwill acquired in a business combination to be recorded at full fair value and require noncontrolling interests (previously referred to as minority interests) to be reported as a component of equity, which changes the accounting for transactions with noncontrolling interest holders. The provisions of ASC 805-10 and ASC 810-10 are effective for this fiscal year beginning October 1, 2009. ASC 805-10 will be applied to business combinations occurring after October 1, 2009 and ASC 810-10 will be applied prospectively to all changes in noncontrolling interests, including any that existed at the effective date. The adoption of ASC 805-10 on October 1, 2009 for future business combinations resulted in the recognition of \$446,861 in professional fees and other acquisition expenses in our results of operations for the nine months ended June 30, 2010. These expenses would have been capitalized previously, pursuant to previous accounting standards. The Company adopted ASC 810-10 on October 1, 2009 and changed the presentation of minority interest on the financial statements. The noncontrolling interest is now reported separately within the shareholders equity section of the consolidated balance sheets.

In May 2009, the Financial Accounting Standards Board (FASB) issued guidance on the accounting for and disclosure of events that occur after the balance sheet date. This guidance was effective for interim and annual financial periods ending after June 15, 2009. In February 2010, the FASB issued

Accounting Standards Update (ASU) 2010-09, Subsequent Events: Amendments to Certain Recognition and Disclosure Requirements. This ASU retracts the requirement to disclose the date through which subsequent events have been evaluated and whether that date is the date the financial statements were issued or were available to be issued. ASU 2010-09 requires an entity that is a SEC filer to evaluate subsequent events through the date that the financial statements are issued. ASU 2010-09 is effective for interim and annual financial periods ending after February 24, 2010. The adoption of this guidance did not have an impact on our consolidated financial statements.

In January 2010, the FASB issued ASU 2010-01, Equity (Topic 505) Accounting for Distributions to Shareholders with Components of Stock and Cash. ASU 2010-01 clarifies that the stock portion of a distribution to shareholders that allows them to elect to receive cash or shares with a potential limitation on the amount of cash that all shareholders can elect to receive is considered a share issuance. ASU 2010-01 is effective for interim and annual periods ending on or after December 15, 2009 and should be applied on a retrospective basis. The adoption of ASU 2010-01 did not have any impact on our financial position, results of operations or cash flows. All of the Company's distributions have been made in cash.

In January 2010, the FASB issued ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures about Fair Value Measurements. This ASU requires new disclosures and clarifies certain existing disclosure requirements about fair value measurements. ASU 2010-06 requires a reporting entity to disclose significant transfers in and out of Level 1 and Level 2 fair value measurements, to describe the reasons for the transfers and to present separately information about purchases, sales, issuances and settlements for fair value measurements using significant unobservable inputs. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements, which is effective for interim and annual reporting periods beginning after December 15, 2010; early adoption is permitted. We do not expect that the full adoption of ASU 2010-06 will have a material impact on our financial position, results of operations or cash flows.

NOTE 2 NET INCOME (LOSS) ATTRIBUTABLE TO MREIC'S COMMON SHAREHOLDERS PER SHARE

Basic net income (loss) attributable to MREIC's common shareholders per share is calculated by dividing net income (loss) attributable to MREIC's common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net income (loss) per common share is calculated by dividing net income (loss) attributable to MREIC's common shareholders plus interest expense related to the Convertible Subordinated Debentures (Debentures) by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method, plus the number of shares resulting from the possible conversion of the Debentures during the period.

The following amounts related to the potential conversion of the Debentures are excluded from the calculation due to their antidilutive effect:

NOTE 8 - FAIR VALUE MEASUREMENTS

The Company measures certain financial assets and liabilities at fair value on a recurring basis, including securities available for sale. The fair value of these financial assets was determined using the following inputs at June 30, 2010:

	Fair Value Measurements at Reporting Date Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Securities available for sale	\$35,355,783	\$35,355,783	\$-0-	\$-0-
Real estate held for sale	2,724,261	-0-	2,724,261	-0-

The Company is also required to disclose certain information about fair values of financial instruments. Estimates of fair value are made at a specific point in time based upon where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. For a portion of the Company's financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only and, therefore, cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of cash and cash equivalents approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate loans payable and Subordinated Convertible Debentures approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. At June 30, 2010, the fair value (estimated based upon expected cash outflows discounted at current market rates) and carrying value of fixed rate mortgage notes payable amounted to approximately \$212,402,000 and \$213,984,835, respectively. As of June 30, 2010, the above listed real estate held for sale consists of an industrial property in Quakertown, PA which was classified as held for sale as of June 30, 2010 and is recorded at estimated fair value. The other property held for sale as of June 30, 2010, located in Greensboro, NC is recorded at depreciated cost.

NOTE 13 CONTINGENCIES AND COMMITMENTS

From time to time, the Company can be subject to claims and litigation arising in the ordinary course of business. Management does not believe that any such claim or litigation would have a material adverse effect on the

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto provided elsewhere herein and the Company's September 30, 2009 Annual Report on Form 10-K.

The Company is a REIT. The Company's primary business is the ownership and management of industrial buildings subject to long-term leases to investment-grade tenants. During the nine months ended June 30, 2010, the Company purchased four net-leased industrial properties, located in Memphis, Tennessee, Houston, Texas, Dallas, Texas and Ft. Mill, South Carolina totaling approximately 839,000 square feet, for approximately \$52,989,000. In addition, the Company purchased the remaining noncontrolling interest in the entity which holds the El Paso, TX property for approximately \$949,000. As of June 30, 2010, the Company owned sixty-two industrial properties and one shopping center with total square footage of approximately 6,971,000. Total real estate investments were approximately \$390,654,000 as of June 30, 2010. These properties are located in twenty-five states. As of June 30, 2010, the Company's weighted average lease expiration term was approximately 5.0 years and its occupancy rate was 96%. As of June 30, 2010, the Company's average rent per occupied square foot for fiscal 2010 was estimated at approximately \$5.81.

The Company's revenue primarily consists of rental and reimbursement revenue from the ownership of industrial rental property. Income from property operations defined as rental and reimbursement revenue less real estate taxes and operating expenses increased \$957,111 or 12% for the three months ended June 30, 2010 as compared to the three months ended June 30, 2009 and increased \$2,149,113 or 9% for the nine months ended June 30, 2010 as compared to the nine months ended June 30, 2009. The increase is due to the acquisition of the four industrial properties mentioned above. The income from the Company's property operations continues to meet management's expectations.

The Company has a concentration of FDX-leased properties. As of June 30, 2010, no tenant leased more than 5% of the Company's total leased square footage with the exception of FDX and its subsidiaries, which leased 49% of our total leased square footage, and the Mead Corporation, which leased 6% of our total leased square footage. The only tenant that accounted for more than 5% of our total rental and reimbursement revenue for the nine months ended June 30, 2010 was FDX and its subsidiaries. Annualized rental and reimbursement revenue from FDX and FDX subsidiaries are estimated at approximately 57% of total rental and reimbursement revenue for fiscal 2010. This is a risk shareholders should consider.

The Company also holds a portfolio of securities of other REITs with a fair value of \$35,355,783 as of June 30, 2010, which earns dividend and interest income. The dividends received from our securities investments were at a weighted average yield of approximately 7% as of June 30, 2010. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real property investments.

On October 20, 2009, the Company sold 1,730,200 shares of common stock in a registered direct placement at \$6.50 per share. The Company received net proceeds from the offering of approximately \$10,400,000 after offering costs. The Company used the net proceeds to purchase three industrial properties in the ordinary course of business.

On April 23, 2010, the Company sold 4,000,000 shares of common stock in a registered direct placement at \$7.50 per share. The Company received net proceeds from the offering of approximately \$28,200,000 after offering costs. The Company used the net proceeds to purchase one industrial property, buy out the noncontrolling interest in an industrial property, repay our \$15,000,000 line of credit and invest

in REIT securities. The Company intends to make additional acquisitions of industrial properties when investments meeting our investment criteria can be found.

On March 19, 2010, our common stock was added to the Wilshire US Real Estate Investment Trust (REIT) Index, which measures the stock price of various U. S. publicly traded real estate investment trusts.

On June 1, 2010, our common and preferred stock listings were transferred from the NASDAQ Global Select Market to the New York Stock Exchange under the symbols MNR and MNR PRA, respectively.

See PART I, Item 1 Business in the Company's September 30, 2009 Annual Report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities, challenges, and risks on which the Company is focused.

Changes in Results of Operations

As of June 30, 2010, the Company owned sixty-three properties with total square footage of approximately 6,971,000 as compared to fifty-eight properties with total square footage of approximately 6,070,000 as of June 30, 2009. As of June 30, 2010, the Company's weighted average lease expiration term was approximately 5.0 years. The Company's occupancy rate was 96% as of June 30, 2010 and 2009.

The Company was able to renew all of the six leases expiring in fiscal year 2010 as follows:

Property	Square feet	Former Rent PSF	Previous Lease Expiration	Renewal Rent PSF	New Lease Expiration	Renewal Term (years)

Weighted Average	\$6.43	\$6.04	3.8
------------------	--------	--------	-----

Rental and reimbursement revenue increased \$1,316,357 or 13% for the three months ended June 30, 2010 as compared to the three months ended June 30, 2009 and increased \$2,538,025 or 8% for the nine months ended June 30, 2010 as compared to the nine months ended June 30, 2009. The net increase is due mainly to the following:

-

Increases in rent and reimbursements from the new properties acquired in Memphis, TN, Houston, TX, Dallas, TX and Ft. Mill, SC totaling approximately \$1,100,000 for the three months ended June 30, 2010 as compared to the three months ended June 30, 2009 and \$2,575,000 for the nine months ended June 30, 2010 as compared to the nine months ended June 30, 2009.

-

Increases in rent and reimbursements from properties expanded in fiscal 2009 in Cheektowaga, NY and Griffin, GA totaling approximately \$88,000 for the three months ended June 30, 2010 as compared to the three months ended June 30, 2009 and \$283,000 for the nine months ended June 30, 2010 as compared to the nine months ended June 30, 2009.

- Decrease in rent and reimbursements from our vacant property in Liberty, MO of \$302,000 for the nine months ended June 30, 2010 as compared to the nine months ended June 30, 2009. The vacant property in Greensboro, NC was classified as held for sale as of June 30, 2010 and all income and expenses related to that property are classified as discontinued operations.

Real estate taxes increased \$300,889 or 18% for the three months ended June 30, 2010 as compared to the three months ended June 30, 2009 and increased \$311,552 or 6% for the nine months ended June 30, 2010 as compared to the nine months ended June 30, 2009. The net increase for the three and nine months is due mainly to the real estate taxes related to the four industrial properties acquired in fiscal 2010 and increases in real estate taxes due to higher assessed values from the five properties expanded during fiscal 2008. Since the majority of our properties are net-leased, the increase in real estate taxes is recovered from the tenants.

Operating expenses increased \$58,357 or 13% for the three months ended June 30, 2010 as compared to the three months ended June 30, 2009 and increased \$77,390 or 6% for the nine months ended June 30, 2010 as compared to the nine months ended June 30, 2009. The increase is due mainly to an increase in operating expenses related to the acquisition of the four properties noted above.

General and administrative expense increased \$618,102 for the three months ended June 30, 2010 as compared to the three months ended June 30, 2009 and increased \$645,843 for the nine months ended June 30, 2010 as compared to the nine months ended June 30, 2009. The increase for both the three and nine months is due mainly to accruals of \$489,000 for the three months ended June 30, 2010 related to increases in executive compensation and benefits. In addition, the Company recorded expenses in the three months ended June 30, 2010 of approximately \$85,000 related to public relations and professional fees for the transfer of the Company's stock listing from NASDAQ to the New York Stock Exchange on June 1, 2010.

Acquisition costs of \$173,057 for the three months ended June 30, 2010 and \$446,861 for the nine months ended June 30, 2010 relates to the transaction and due diligence costs associated with the acquisition of the four industrial properties in fiscal 2010 and purchasing the remaining noncontrolling interest in the El Paso, TX property, which costs would have been previously capitalized in prior years under previous accounting standards. The Company adopted ASC 805-10, Business Combinations on October 1, 2009, which requires purchases of operating properties to be recorded at full fair value and transaction costs to be expensed.

The following table summarizes the Company's gain (loss) on securities transactions for the three and nine months ended June 30, 2010 and 2009:

	Three Months Ended		Nine Months Ended	
	6/30/10	6/30/09	6/30/10	6/30/09
Gain (Loss) on sale of securities, net	\$672,177	\$-0-	\$1,782,749	(\$688,504)
Impairment losses	-0-	(106,602)	-0-	(6,000,678)
Gain (Loss) on securities transactions, net	\$672,177	(\$106,602)	\$1,782,749	(\$6,689,182)

During the three and nine months ended June 30, 2009, the Company recognized a loss of \$106,602 and \$6,000,678, respectively, due to writing down of the carrying value of securities which were considered other than temporarily impaired. During fiscal 2010, the market for REIT securities has improved and as of June 30, 2010, the Company had a net unrealized gain on its securities portfolio of \$6,806,649. In addition, the Company realized gains of \$672,177 and \$1,782,749 for the three and nine months ended June 30, 2010.

Interest and dividend income increased \$111,029 for the three months ended June 30, 2010 as compared to the three months ended June 30, 2009 and decreased \$32,712 for the nine months ended June 30, 2010 as compared to the nine months ended June 30, 2009. The increase for the three months was due mainly to an increase in the average balance of securities available for sale for the three months ended June 30, 2010 as compared to the three months ended June 30, 2009, partially offset by a decrease in the weighted average yield for the three months ended June 30, 2010 as compared to the three months ended June 30, 2009. The average balance of the securities was \$32,483,000 and \$18,068,000 for the three months ended June 30, 2010 and 2009, respectively, and the weighted average yield for the three months ended June 30, 2010 and 2009 was 6.9% and 11.1%, respectively. The slight decrease in interest and dividend for the nine months ended June 30, 2010 as compared to the nine months ended June 30, 2009 is due mainly to the decrease in weighted average yield for the nine month period offset by the increase in the average balance of securities available for sale. The average balance of the securities was \$29,344,000 and \$17,500,000 for the nine months ended June 30, 2010 and 2009, respectively and the weighted average yield for the nine months ended June 30, 2010 and 2009 was approximately 7.7% and 13%, respectively.

Income (loss) from discontinued operations for the three and nine months ended June 30, 2010 and 2009 includes the results of operations of the Quakertown, Pennsylvania and Greensboro, North Carolina properties which were classified as held for sale as of June 30, 2010.

The following table summarizes the components of discontinued operations:

	Three Months Ended		Nine Months Ended	
	6/30/10	6/30/09	6/30/10	6/30/09

Cash flows from discontinued operations for the nine months ended June 30, 2010 are combined with the cash flows from operations within each of the three categories presented. Cash flows from discontinued operations are as follows:

		Nine Months Ended	
		<u>6/30/10</u>	<u>6/30/09</u>
Cash flows from Operating Activities	Discontinued Operations	\$89,944	\$309,863
Cash flows from Investing Activities	Discontinued Operations	-0-	-0-
Cash flows from Financing Activities	Discontinued Operations	(89,944)	(309,863)

The absence of cash flows from discontinued operations is not expected to materially affect future liquidity and capital resources.

Changes in Financial Condition

The Company generated net cash from operating activities of \$14,702,526 and \$15,034,896 for the nine months ended June 30, 2010 and 2009, respectively.

Real estate investments increased \$45,990,307 from September 30, 2009 to June 30, 2010. This increase is due mainly to the purchase of the industrial properties in Memphis, TN, Houston, TX, Dallas,

TX and Ft. Mill, SC totaling \$52,988,596 partially offset by depreciation expense for the nine month period of \$6,841,604.

Securities available for sale increased \$7,531,118 from September 30, 2009 to June 30, 2010. The increase is due mainly to the purchases of securities of \$12,154,669 and an increase in the unrealized gain on securities of \$3,009,818 partially offset by sales and redemptions of securities with an adjusted cost of \$7,633,369.

Mortgage notes payable increased \$21,934,552 from September 30, 2009 to June 30, 2010. This increase is due to new mortgage proceeds of \$31,864,126 from the financing of the following property acquisitions:

Location	Mortgage	Interest Rate
Memphis, TN	\$10,000,000	6.250%
Houston, TX	5,400,000	6.875%
Dallas, TX	11,700,000	6.750%
Ft. Mill, SC	4,764,126	7.000%

This increase was offset by principal repayments of \$9,929,574 for the nine months ended June 30, 2010. The Company is scheduled to repay a total of approximately \$13,000,000 in mortgage principal in fiscal 2010 and intends to repay these mortgages from funds raised in the DRIP and from cash from operations.

Loans payable decreased \$10,275,865 from September 30, 2009 to June 30, 2010. The decrease was due to repayment of the \$15,000,000 balance on the line of credit with the proceeds from the registered direct placement partially offset by draws on the margin loan to purchase securities available for sale. As of June 30, 2010, the Company had an outstanding balance of \$8,787,885 outstanding on its margin loans and \$15,000,000 available on its line of credit.

Liquidity and Capital Resources

Net cash provided by operating activities was \$14,702,526 and \$15,034,896 for the nine months ended June 30, 2010 and 2009, respectively. Distributions paid on common stock for the nine months ended June 30, 2010 and 2009 were \$13,411,375 and \$11,162,648, respectively (of which \$3,439,157 and \$3,204,286, respectively, were reinvested). The Company pays distributions from cash provided by operating activities.

As of June 30, 2010, the Company owned securities available for sale of \$35,355,783 subject to margin loans of \$8,787,885. These marketable securities provide the Company with additional liquidity as well as dividend income.

As of June 30, 2010, the Company had an unrealized gain on its portfolio of \$6,806,649. The dividends received from our investments, which are predominately REIT preferred issues, continue to meet our expectations.

As of June 30, 2010, the Company owned sixty-three properties (sixty-two industrial properties and one shopping center), of which fifty-four carried mortgage loans totaling \$213,984,835. The unencumbered properties could be refinanced to raise additional funds, although covenants in the Company's line of credit limit the amount of unencumbered properties which can be mortgaged. The Company had full availability on its \$15,000,000 line of credit as of June 30, 2010. The Company's total net debt plus preferred equity to total market capitalization was 51% as of June 30, 2010.

On October 20, 2009, the Company sold 1,730,200 shares of common stock in a registered direct placement at \$6.50 per share. The Company received net proceeds from the offering of approximately \$10,400,000 after offering costs. The Company used the net proceeds to purchase three industrial properties.

On April 23, 2010, the Company sold 4,000,000 shares of common stock in a registered direct placement at \$7.50 per share. The Company received net proceeds from the offering of approximately

\$28,200,000 after offering costs. The Company used the net proceeds to purchase one industrial property, buy out the noncontrolling interest in an industrial property, repay our \$15,000,000 line of credit and invest in REIT securities.

The Company intends to make additional acquisitions of industrial properties when investments meeting our investment criteria can be found.

The Company raised \$12,773,811 (including reinvestments of \$3,439,157) from the issuance of 1,804,882 common shares in the Dividend Reinvestment and Stock Purchase Plan (DRIP) during the nine months ended June 30, 2010.

During the nine months ended June 30, 2010, the Company paid \$13,411,375 in total cash dividends or \$.45 per common share to common shareholders, of which \$3,439,157 was reinvested in the DRIP. On July 1, 2010, the Board of Directors declared a dividend of \$0.15 per common share to be paid on September 15, 2010 to common shareholders of record as of August 16, 2010.

During the nine months ended June 30, 2010, the Company paid \$1,890,911 in preferred dividends. On July 1, 2010, the Board of Directors declared a dividend of \$.4766 per share of the Company's 7.625% Series A Cumulative Redeemable Preferred Stock payable September 15, 2010, to preferred shareholders of record as of August 16, 2010.

During the nine months ended June 30, 2010, six employees exercised options to purchase 116,185 shares of common stock at an average exercise price of \$6.58. Total proceeds to the Company were \$764,296.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its margin loans, refinance debt, or raise capital through the DRIP or capital markets.

As described above, the Company has been raising capital through its DRIP, private placements and public offerings of common and preferred stock and investing in net leased industrial properties. The Company believes that funds generated from operations and the DRIP, together with the ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next year.

The Company seeks to invest in well-located, modern buildings leased to investment grade tenants on long-term leases. In management's opinion, newly built facilities leased to FDX and its subsidiaries meet these criteria. The Company has a concentration of FDX and FDX subsidiary leased properties. As of June 30, 2010, no tenant leased more than 5% of the Company's total leased square footage with the exception of FDX and its subsidiaries, which leased 49% of our total leased square footage, and the Mead Corporation, which leased 6% of our total leased square footage. The only tenant that accounted for more than 5% of our total rental and reimbursement revenue for the nine months ended June 30, 2010 was FDX and its subsidiaries. Annualized rent and reimbursement revenue from FDX and FDX subsidiaries is estimated at approximately 57% of total rental and reimbursement revenue for fiscal year 2010. FDX is a publicly-owned corporation and information on its financial business operations is readily available to the Company's shareholders.

The Company intends to acquire additional net-leased industrial properties on long-term leases to investment grade tenants and expand its current properties when needed. The Company has historically financed purchases of real estate and expansions primarily through mortgages. To the extent that funds or appropriate properties are not available, fewer acquisitions and expansions will be made.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations

Funds from operations (FFO) is defined as net income, excluding gains or losses from sales of depreciable assets, plus real estate-related depreciation and amortization. FFO should be considered as a supplemental measure of operating performance used by REITs. FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO are significant components in understanding the Company's financial performance.

FFO (i) does not represent cash flow from operations as defined by generally accepted accounting principles; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the three and nine months ended June 30, 2010 and 2009 is calculated as follows:

	Three Months Ended		Nine Months Ended	
	6/30/2010	6/30/2009	6/30/10	6/30/09
