### Use of Non-GAAP Financial Information

To supplement its consolidated financial statements presented in accordance with GAAP, the Registrant uses certain non-GAAP financial measures, including EBITDA and EBITDA per shares, which are derived from results based on GAAP. Non-GAAP adjustments are provided to enhance the user's overall understanding of the Registrant's current financial performance and its prospects for the future, including its results of operations, cash generated and resources available for strategic opportunities including reinvestment in the business and acquisitions. In addition, the Registrant has historically reported similar non-GAAP results to the investment community, and, as a result, believes the inclusion of non-GAAP presentations provides consistency in its financial reporting. Further, the non-GAAP results are one of the primary indicators management uses for planning and forecasting in future periods. The presentation of this additional information is not meant to be considered in isolation or as a substitute for results prepared in accordance with accounting principles generally accepted in the United States.

The information set forth under this "Item 2.02. Results of Operations and Financial Condition" (including the exhibit) shall not be deemed to be "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be incorporated by reference in any filing made by the Registrant pursuant to the Securities Act of 1933, as amended, other than to the extent that such filing incorporates by reference any or all of such information by express reference thereto.
