Item 8.01. Other Events.

The following description of Cardinal Health's capital stock is included for the purpose of updating and superseding the description of Cardinal Health's capital stock included in its registration statement on Form 8-A filed with the SEC on August 19, 1994 (File No. 001-11373) and the current report on Form 8-K filed on August 10, 2012 updating such description. The description set forth below is hereby incorporated by reference into, and modifies and supersedes, any prior description of Cardinal Health's capital stock in any registration statement or report filed with the SEC under the Securities Act of 1933, as amended (the "Securities Act"), or the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and will be available for incorporation by reference into Cardinal Health's future filings under the Securities Act and the Exchange Act.

DESCRIPTION OF CAPITAL STOCK

The following is a summary of Cardinal Health's capital stock. The following summary of the terms of Cardinal Health's capital stock is not meant to be complete and is qualified by reference to Cardinal Health's Amended and Restated Articles of Incorporation, as amended (the "Articles"), and Cardinal Health's Restated Code of Regulations (the "Regulations").

The Articles authorize Cardinal Health to issue up to 750,000,000 common shares. On September 30, 2015, approximately 329 million common shares were issued and outstanding and approximately 35 million common shares were held in treasury. The Articles also authorize Cardinal Health to issue up to 5,000,000 Class B common shares, none of which are outstanding or reserved for issuance, and 500,000 non-voting preferred shares, none of which are outstanding or reserved for issuance.

From time to time, Cardinal Health may issue additional authorized but unissued common shares for share dividends, stock splits, employee benefit and compensation programs, financing and acquisition transactions and other general purposes. Those common shares will be available for issuance without action by Cardinal Health's shareholders, unless action by the Cardinal Health shareholders is required by applicable law or the rules of the New York Stock Exchange or any other stock exchange on which common shares may be listed in the future.

Common Shares

All of the outstanding common shares are fully paid and nonassessable. Holders of common shares do not have preemptive rights and have no right to convert their common shares into any other security. All common shares are entitled to participate equally and ratably in dividends, when and as declared by Cardinal Health's board of directors. In the event of the liquidation of Cardinal Health, holders of common shares are entitled to share ratably in assets remaining after payment of all liabilities, subject to prior distribution rights of any preferred shares then outstanding. Holders of common shares are entitled to one vote per share upon all matters on which shareholders are entitled to vote. Holders of Class B common shares (if any are issued in the future) are entitled to one-fifth of one vote per share upon all matters on which shareholders are entitled to vote. Except as otherwise expressly provided by law, the Articles or the Regulations, all matters on which shareholders are entitled to vote will be decided by the majority of votes cast without regard to abstentions. Under certain circumstances, holders of Class B common shares have a right to a separate class vote. Holders of common shares do not have any rights to cumulate votes in the election of directors.

Preferred Shares

No shares of non-voting preferred shares are currently outstanding. Under the Articles, Cardinal Health's board of directors, without further action by its shareholders, is authorized to issue up to 500,000 non-voting preferred shares, without par value, in one or more series and to fix the designations, preferences, limitations and relative or other rights thereof, including the designation and authorized number of shares constituting each series, dividend rights, liquidation price, redemption rights, sinking fund requirements, conversion rights and restrictions on the issuance of such shares. The issuance of preferred shares could adversely affect the holders of common shares. The issuance of preferred shares could also have the effect, under certain circumstances, of delaying, deferring or preventing a change of control of Cardinal Health.

Board of Directors

Cardinal Health's board of directors currently consists of eleven members. The Regulations provide that the number of directors is fixed from time to time by the board of directors, but in no case may the number of directors be decreased

to fewer than nine nor increased to more than sixteen. The board of directors may fill any vacancy, including a vacancy created by an increase in the number of directors. Each director serves until the next annual meeting of shareholders and until his or her successor is duly elected and qualified or until his or her earlier resignation, removal from office or death. In uncontested elections of directors, as defined in the Articles, directors are elected by a majority of the votes cast; director elections other than uncontested elections are governed by a plurality voting standard.

Anti-takeover Protections

The following summarizes Chapter 1704 of the Ohio Revised Code which may have the effect of prohibiting, raising the costs of, or otherwise impeding, a change of control of Cardinal Health, whether by merger, consolidation or sale of assets or stock (by tender offer or otherwise), or by other methods. Chapter 1704 provides generally that any person who has beneficial ownership of 10% or more of a corporation's voting stock (thereby being an "interested shareholder") may not engage in a wide range of "business combinations" with the corporation for a period of three years following the date the person became an interested shareholder, unless the directors of the corporation have approved the transaction or the interested shareholder's acquisition of shares of the corporation, in either case, prior to the date the interested shareholder became an interested shareholder of the corporation. After the three-year period, business combinations between the corporation and the interested shareholder are prohibited unless certain fair price provisions are complied with or the shareholders of the corporation approve the transaction by the affirmative vote of two-thirds of the voting power of the corporation, including at least a majority of the disinterested shareholders. These restrictions on interested shareholders do not apply under certain circumstances, including when a person becomes an "interested shareholder" only because a corporation has repurchased some of its voting stock.

Exclusive Forum Provision

The Regulations provide that, unless Cardinal Health consents in writing to the selection of an alternate forum, a state court located in Franklin County, Ohio (or if no state court in Franklin County, Ohio has jurisdiction, then the federal court for Franklin County, Ohio) will be the exclusive forum for derivative suits and certain other actions, including any action asserting a claim against Cardinal Health or any director, officer or other employee arising under Ohio corporation law, the Articles or the Regulations.

Transfer Agent and Registrar

The transfer agent and registrar for the common shares is Computershare Trust Company, N.A., Canton, Massachusetts.
