UMH PROPERTIES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2011 (UNAUDITED)

NOTE 1 ORGANIZATION AND ACCOUNTING POLICY

UMH Properties, Inc. (the Company) owns and operates thirty-five manufactured home communities containing approximately 8,045 sites. The communities are located in New Jersey, New York, Ohio, Pennsylvania and Tennessee. The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (S&F), conducts manufactured home sales in its communities. S&F was established to enhance the occupancy of the communities. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

The Company has elected to be taxed as a real estate investment trust (REIT) under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim consolidated financial statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2010.

Use of Estimates

In preparing the consolidated financial statements in accordance with US GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and revenue and expenses for the years then ended. Actual results could differ significantly from these estimates and assumptions.

Stock Based Compensation

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to

the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. Compensation costs of \$49,200 and \$7,673 have been recognized for the three months ended March 31, 2011 and 2010, respectively.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions used for stock options granted during the three months ended March 31, 2010:

	2010
Dividend yield	9.85%
Expected volatility	22.37%
Risk-free interest rate	3.31%
Expected lives (years)	8

There were no options or restricted stock granted during the three months ended March 31, 2011. The weighted-average fair value of options granted during the three months ended March 31, 2010 was \$.32.

As of March 31, 2011, there were options outstanding to purchase 731,000 shares and 735,188 shares were available for grant under the Company's 2003 Stock Option and Stock Award Plan, as amended. As of March 31, 2010, there were options outstanding to purchase 601,000 shares and 925,188 shares were available for grant under the Company's 2003 Stock Option and Stock Award Plan, as amended.

Recent Accounting Pronouncements

In January 2010, the FASB issued ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures about Fair Value Measurements. This ASU requires new disclosures and clarifies certain existing disclosure requirements about fair value measurements. ASU 2010-06 requires a reporting entity to disclose significant transfers in and out of Level 1 and Level 2 fair value measurements, to describe the reasons for the transfers and to present separately information about purchases, sales, issuances and settlements for fair value measurements using significant unobservable inputs. ASU 2010-06 is effective for interim and annual reporting

Edgar Filing: UMH PROPERTIES, INC. - Form 10-Q

periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements, which is effective for interim and annual reporting periods beginning after December 15, 2010; early adoption is permitted. The adoption of ASU 2010-06 did not have a material impact on our financial position, results of operations or cash flows.

In July 2010, the FASB issued ASU 2010-20, Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses, which amends ASC Topic 310,

Receivables, which will require significant new disclosures about the allowance for credit losses and the credit quality of an entity's financing receivables. The requirements are intended to enhance transparency regarding credit losses and the credit quality of financing receivables by disclosing an evaluation of (i) the nature of credit risk inherent in the entity's portfolio of financing receivables, (ii) how that risk is analyzed and assessed in arriving at the allowance for credit losses and (iii) the changes and reasons for those changes in the allowance for credit losses. The new and amended disclosures as of the end of a reporting period are effective for interim and annual reporting periods ending on or after December 15, 2010. The new and amended disclosures about activity that occurs during a reporting period are effective for interim and annual reporting periods beginning on or after December 15, 2010. The adoption of ASU 2010-20 did not have a material impact on our financial position, results of operations or cash flows.

In December 2010, the FASB issued ASU 2010-29, Business Combinations (Topic 805) Disclosure of Supplementary Pro Forma Information for Business Combinations. ASU 2010-29 addresses the diversity in practice about the interpretation of the pro forma revenue and earnings disclosure requirements for business combinations. The amendments in ASU 2010-29 specify that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. The amendments in ASU 2010-29 also expand the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. The amendments in ASU 2010-29 are effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. The adoption of ASU 2010-29 did not have a material impact on our financial position, results of operations or cash flows.

NOTE 2 NET INCOME PER SHARE AND COMPREHENSIVE INCOME

Basic net income per share is calculated by dividing net income by the weighted average shares outstanding for the period. Diluted net income per share is calculated by dividing net income by the weighted average number of common shares outstanding plus the weighted average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method. Options in the amount of 58,658 and 24,204 shares for the three months ended March 31, 2011 and 2010, respectively, are included in the diluted weighted average shares outstanding. As of March 31, 2011 and 2010, options to purchase 518,000 and 470,000 shares, respectively, were antidilutive.

The following table sets forth the components of the Company's comprehensive income for the three months ended March 31, 2011 and 2010:

	2011	2010
Net income	\$2,124,864	\$1,884,998
Change in unrealized gain on		
securities available for sale	(1,759,132)	4,089,943
Comprehensive income	\$365,732	\$5,974,941

NOTE 3 SECURITIES AVAILABLE FOR SALE

During the quarter ended March 31, 2011, the Company sold securities with an adjusted cost of \$1,152,212 and recognized a gain on sale of \$1,541,856. The Company also made purchases of \$4,698,619 in securities available for sale. Of this amount, the Company made total purchases of 44,893 common shares of Monmouth Real Estate Investment Corporation (MREIC), a related REIT, in its Dividend Reinvestment and Stock Purchase Plan for a total cost of \$356,129 or an average cost of \$7.93 per share. As of March 31, 2011, the Company owned a total of 1,672,281 shares of MREIC at a total cost of \$13,708,505 or an average cost of \$8.20 per share.

As of March 31, 2011, the Company had eight securities that were temporarily impaired. The Company considers many factors in determining whether a security is other than temporarily impaired, including the nature of the security and the cause, severity and duration of the impairment. The following is a summary of temporarily impaired securities at March 31, 2011:

	Less Than 12 Months		12 Months or Longer	
	Fair <u>Value</u>	Unrealized <u>Loss</u>	Fair <u>Value</u>	Unrealized <u>Loss</u>
Preferred Stock	\$ 2,505,579	\$ 34,826	\$ -0-	\$ -0-
Common Stock	1,513,600	205,628	-0-	-0-
Total	\$ 4,019,179	\$240,454	\$ -0-	\$ -0-

The following is a summary of the range of the losses:

Number of			
<u>Individual Securities</u>	<u>Fair Value</u>	<u>Unrealized Loss</u>	<u>Range of Loss</u>
7	\$2,989,579	\$ 46,273	Less than or equal to 10%
1	1,029,600	194,181	Less than or equal to 20%
8	\$ 4,019,179	\$240,454	

The Company has determined that these securities are temporarily impaired as of March 31, 2011. The Company normally holds REIT securities long term and has the ability and intent to hold securities to recovery. As of March 31, 2011, the Company had total net unrealized gains of \$4,691,249 in its REIT securities portfolio.

NOTE 4 - LOANS AND MORTGAGES PAYABLE

On March 28, 2011, the Company obtained a \$9,520,000 mortgage on Cedarcrest Village from Oritani Bank. This mortgage is at a fixed rate of 5.125% and matures on April 1, 2021. The interest rate will reset after five years to the rate the Federal Home Loan Bank of New York charges to its members plus 2%. The monthly payment of principal and interest is based on a 30-year amortization schedule.

NOTE 5 - SHAREHOLDERS' EQUITY

On March 15, 2011, the Company paid \$2,523,564 of which \$418,315 was reinvested, as a dividend of \$.18 per share to shareholders of record as of February 15, 2011.

During the three months ended March 31, 2011, the Company received, including dividends reinvested, a total of \$4,749,703 from the Dividend Reinvestment and Stock Purchase Plan. There were 479,483 new shares issued under the Plan.

On April 6, 2011, the Company declared a dividend of \$.18 per share to be paid June 15, 2011 to shareholders of record as of May 16, 2011.

NOTE 6 - FAIR VALUE MEASUREMENTS

In accordance with ASC 820-10, Fair Value Measurements and Disclosures, the Company measures certain financial assets and liabilities at fair value on a recurring basis, including securities available for sale. The fair value of this

financial asset was determined using the following inputs at March 31, 2011:

Fair Value Measurements at Reporting Date Using				
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	Total			
Securities available for sale - Preferred Stock	\$6,043,888	\$6,043,888	\$ -0-	\$ -0-
Securities available for sale - Common Stock	24,500,864	24,500,864	-0-	-0-
Total	\$30,544,752	\$30,544,752	\$ -0-	\$ -0-

The Company is required to disclose certain information about fair values of financial instruments, as defined in ASC 825-10, Financial Instruments. Estimates of fair value are made at a specific point in time, based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. All of the Company's securities available for sale have quoted market prices. However, for a portion of the Company's other financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties, future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only and, therefore, cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of cash and cash equivalents and notes receivables approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate mortgages payable and loans payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. As of March 31, 2011, the fair and carrying value of fixed rate mortgages payable amounted to \$78,379,691 and \$76,727,472, respectively. The fair value of mortgages payable is estimated based upon discounted cash flows at current market rates for instruments with similar remaining terms.

NOTE 7 - CONTINGENCIES

From time to time, the Company may be subject to claims and litigation in the ordinary course of business. Management does not believe that any such claim or litigation will have a material adverse effect on the financial position or results of operations.

NOTE 8 - SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest during the three months ended March 31, 2011 and 2010 was \$1,280,250 and \$1,174,539, respectively. Interest cost capitalized to Land Development was \$71,817 and \$70,630 for the three months ended March 31, 2011 and 2010, respectively.

During the three months ended March 31, 2011 and 2010, the Company had dividend reinvestments of \$418,315 and \$289,375, respectively, which required no cash transfers.

NOTE 9 SUBSEQUENT EVENTS

Material subsequent events have been evaluated and are disclosed through the date these financial statements were issued.

On April 15, 2011, the Company entered into a definitive Real Estate Purchase Agreement to acquire 3 manufactured home communities located in Tennessee. These 3 all-age family communities total 680 sites situated on approximately 209 acres. The average occupancy for these communities is approximately 73%. The aggregate consideration to be paid by the Company in this transaction is approximately \$13.3 million.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto included elsewhere herein and in our annual report on Form 10-K for the year ended December 31, 2010.

The Company is a self-administered, self-managed, real estate investment trust (REIT) with headquarters in Freehold, New Jersey. The Company's primary business is the ownership and operation of manufactured home communities leasing manufactured home spaces on a month-to-month basis to private manufactured home owners. The Company also leases homes to residents and, through, its taxable REIT subsidiary, UMH Sales and Finance, Inc. (S&F), sells and finances homes to residents and prospective residents of our communities. The Company owns thirty-five communities containing approximately 8,045 sites. These communities are located in New Jersey, New York, Ohio, Pennsylvania and Tennessee. The Company also invests in securities of other REITs.

On April 15, 2011, the Company entered into a definitive Real Estate Purchase Agreement to acquire 3 manufactured home communities located in Tennessee. These 3 all-age family communities total 680 sites situated on approximately 209 acres. The average occupancy for these communities is approximately 73%. The aggregate consideration to be paid by the Company in this transaction is approximately \$13.3 million.

The Company's income primarily consists of rental and related income from the operation of its manufactured home communities. Income also includes sales of manufactured homes. Total income increased \$855,182, or 10% for the quarter ended March 31, 2011 as compared to the quarter ended March 31, 2010. This was primarily due to the purchase of seven communities during 2010, partially offset by a decrease in sales of manufactured homes of \$370,707, or 25% for the quarter ended March 31, 2011 as compared to the quarter ended March 31, 2010. The decrease in sales was primarily due to the severe winter weather. Additionally, while housing markets are beginning to stabilize, our customers still face difficulties in selling their existing homes. This coupled with continued high unemployment rates, has negatively impacted our sales and our gross profit percentage.

Economic growth in the US economy has moderated and high unemployment rates have persisted. However, activity in our communities has recently increased as conventional home ownership rates continue to fall. In this environment, we are seeing increased demand for rental units and since the first quarter of 2010, have added a net of approximately 160 rental units to selected communities. Occupied rental units represent approximately 11% of total occupied sites at

quarter end. We hope to convert renters to new homeowners in the future.

The Company also holds a portfolio of securities of other REITs with a fair value of \$30,544,752 at March 31, 2011. The Company invests in these securities on margin from time to

time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real property investments. At March 31, 2011, the Company's portfolio consisted of 80% common stocks and 20% preferred stocks. The Company's weighted-average yield on the securities portfolio was approximately 6.9% at March 31, 2011.

The market for REIT securities has continued to improve in the first quarter of 2011. The Company took advantage of this and realized a net gain of \$1,541,856 on securities transactions for the quarter ended March 31, 2011 as compared to \$981,915 for the quarter ended March 31, 2010. At March 31, 2011, the Company had unrealized gains of \$4,691,249 in its REIT securities portfolio. The dividends received from our securities investments continue to meet our expectations. It is our intent to hold these securities long-term.

Total expenses increased by approximately 13% for the quarter ended March 31, 2011 as compared to the quarter ended March 31, 2010. This was primarily due to the acquisition of the new communities in 2010.

Net income and income from community operations (defined as rental and related income less community operating expenses) both increased by approximately 13% for the quarter ended March 31, 2011 as compared to the quarter ended March 31, 2010. This was primarily due to the acquisition of the new communities in 2010.

In spite of the challenges of the broad economy, the Company continues to strengthen its balance sheet. We have recently closed on a \$9,520,000 mortgage loan. We have one mortgage with a current balance of approximately \$4.6 million maturing in December 2011 and are in the process of refinancing/extending that loan. At March 31, 2011, the Company had \$10.5 million in cash, \$30 million in securities encumbered by a \$2.5 million term loan, and \$2 million available on its \$5 million unsecured line of credit.

The Company intends to continue to increase its real estate investments. In 2010, we added seven manufactured home communities, encompassing over 1,200 sites, to our portfolio. We have been positioning ourselves for future growth and will continue to seek opportunistic investments. In 2011, we have contracted to purchase 3 communities for an aggregate purchase price of approximately \$13.3 million. The Company anticipates closing on this transaction during the second quarter. However, there is no guarantee that any new opportunities will materialize or that the Company will be able to take advantage of such opportunities.

The Company believes that funds generated from operations and the DRIP, the funds available on the line of credit, together with the ability to finance and refinance its properties will provide sufficient funds to adequately meet its obligations over the next year.

See PART I, Item 1 Business in the Company's 2010 annual report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

Changes In Results Of Operations

Rental and related income increased 18% from \$6,704,321 for the quarter ended March 31, 2010 to \$7,930,210 for the quarter ended March 31, 2011. This was primarily due to the acquisition of seven communities during 2010 and rental increases to residents. This was partially offset by a decrease in occupancy of 70 sites in one of our communities in Memphis, TN due to a severe flood that swept the region in May 2010. The Company has been raising rental rates by approximately 3% to 6% annually. Occupancy has remained relatively stable at 78%. The Company has faced many challenges in filling vacant homesites due to the current economic environment.

Sales of manufactured homes amounted to \$1,086,244 and \$1,456,951 for the quarters ended March 31, 2011 and 2010, respectively. Cost of sales of manufactured homes amounted to \$984,371 and \$1,374,033 for the quarters ended March 31, 2011 and 2010, respectively. Selling expenses amounted to \$385,096 and \$398,718 for the quarters ended March 31, 2011 and 2010, respectively. These decreases are directly attributable to the decrease in sales. Loss from the sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses) amounted to \$283,223 or 26% of total sales, and \$315,800 or 22% of total sales for the quarters ended March 31, 2011 and 2010, respectively. The Company believes that sales of new homes produces new rental revenue and is an investment in the upgrading of the communities.

Community operating expenses increased 23% from \$3,434,701 for the quarter ended March 31, 2010 to \$4,234,976 for the quarter ended March 31, 2011. This was primarily due to the acquisition of seven communities during 2010 and an increase in personnel and related costs. General and administrative expenses increased 11% from \$866,728 for the quarter ended March 31, 2010 to \$966,053 for the quarter ended March 31, 2011. This was primarily due to an increase in compensation, directors fees and professional fees. Depreciation expense increased 37% from \$1,018,648 for the quarter ended March 31, 2010 to \$1,395,634 for the quarter ended March 31, 2011. This was primarily due to the acquisition of seven communities during 2010. Amortization expense increased 51% from \$51,120 for the quarter ended March 31, 2010 to \$77,283 for the quarter ended March 31, 2011. This was primarily due to the new mortgages for the 2010 acquisitions.

Interest and dividend income remained relatively stable at \$1,043,215 for the quarter ended March 31, 2011 as compared to \$1,077,612 for the quarter ended March 31, 2010.

Gain on securities transactions, net amounted to \$1,541,856 and \$981,915 for the quarters ended March 31, 2011 and 2010, respectively. The market for REIT securities has continued to improve. At March 31, 2011, the Company had unrealized gains of \$4,691,249 in its REIT securities portfolio. The dividends received from our securities investments continue to meet our expectations. It is our intent to hold these securities long-term.

Interest expense increased 19% from \$1,219,905 for the quarter ended March 31, 2010 to \$1,455,706 for the quarter ended March 31, 2011. This was primarily due to an increase in mortgages payable due to the new mortgages for the 2010 acquisitions.

Gain on sale of investment property and equipment amounted to \$8,564 and \$15,105 for the quarters ended March 31, 2011 and 2010, respectively.

Changes in Financial Condition

Securities available for sale increased 6% or \$1,787,275 during the quarter ended March 31, 2011. The increase was due primarily to purchases of \$4,698,619, partially offset by the sales of securities with an adjusted cost of \$1,152,212 and a decrease in the unrealized gain of \$1,759,132.

Inventory of manufactured homes remained relatively stable. Because conventional home ownership rates continue to decline, the Company is optimistic about future sales and rental prospects.

Mortgages payable increased 10% or \$8,967,431 during the quarter ended March 31, 2011. This increase was due to a new \$9,520,000 mortgage partially offset by principal repayments of \$552,569.

Loans payable decreased 26% or \$5,684,882 during the quarter ended March 31, 2011. This decrease was primarily due to proceeds of the new mortgage being used to pay down the margin loan.

The Company raised \$4,749,703 from the issuance of shares in the DRIP during the quarter ended March 31, 2011, which included dividend reinvestments of \$418,315. Dividends paid on the common stock for the quarter ended March 31, 2011 were \$2,523,564 of which \$418,315 was reinvested. On April 6, 2011, the Company declared a dividend of \$.18 per share to be paid on June 15, 2011 to shareholders of record, May 16, 2011.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its line of credit, refinance debt, or raise capital through the DRIP or capital markets.

Liquidity And Capital Resources

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory, investment in securities of other REITs and payments of expenses relating to real estate operations. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, proceeds from the DRIP, and access to the capital markets.

Current economic indicators show the US economy to be slowly improving. The affordability of our homes should enable the Company to perform well despite the challenging economy. While the recent recession has proven difficult, the manufactured housing community

property type has been more stable than other commercial property types.

Net cash provided by operating activities amounted to \$2,375,966 and \$2,681,185 for the quarters ended March 31, 2011 and 2010, respectively.

As of March 31, 2011, the Company had cash and cash equivalents of \$10,547,376 and securities available for sale of \$30,544,752, subject to a bank loan of \$2,500,000. These marketable securities provide the Company with additional liquidity. The dividends received from our securities investments continue to meet our expectations. As of March 31, 2011, the Company had unrealized gains of \$4,691,249 in its REIT securities portfolio.

As of March 31, 2011, the Company has a \$5,000,000 unsecured line of credit, of which \$3,000,000 was utilized and a \$10,000,000 revolving line of credit for the financing of home sales, of which \$7,750,000 was utilized. The Company also has a \$7,500,000 revolving credit facility to finance inventory purchases, of which \$3,301,280 was utilized. The Company owns 35 properties, of which 13 are unencumbered. These marketable securities, non-mortgaged properties, and lines of credit provide the Company with additional liquidity. The Company has been raising capital through its DRIP. The Company believes that funds generated from operations, the DRIP, the funds available on the lines of credit, together with the ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next several years.

The Company has one mortgage with a balance of approximately \$4,600,000 maturing in December 2011. We are currently in the process of refinancing/extending this mortgage and are optimistic that we will be successful.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations

Funds from Operations (FFO) is defined as net income excluding gains (or losses) from sales of depreciable assets, plus depreciation. FFO should be considered as a supplemental measure of operating performance used by real estate investment trusts (REITs). FFO excludes historical cost depreciation as an expense and may facilitate the comparison

of REITs which have different cost basis. The items excluded from FFO are significant components in understanding and assessing the Company's financial performance. FFO (1) does not represent cash flow from operations as defined by generally accepted accounting principles; (2) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (3) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the quarter ended March 31, 2011 and 2010 is calculated as follows:

	2011	2010
Net Income	\$2,124,864	\$1,884,998
Gain on Sales of		
Depreciable Assets	(8,564)	(15,105)
Depreciation Expense	1,395,634	1,018,648
FFO	\$3,511,934	\$2,888,541

The following are the cash flows provided (used) by operating, investing and financing activities for the three months ended March 31, 2011 and 2010:

	2011	2010
Operating Activities	\$2,375,966	\$2,681,185
Investing Activities	(2,762,690)	(848,474)
Financing Activities	5,273,080	493,037
