March 01, 2012

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended January 31, 2012

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 000-14798

American Woodmark Corporation
(Exact name of registrant as specified in its charter)

Virginia
(State or other jurisdiction of
incorporation or organization)

54-1138147
(I.R.S. Employer
Identification No.)

3102 Shawnee Drive, Winchester,
Virginia
(Address of principal executive offices)

22601
(Zip Code)

(540) 665-9100
(Registrant's telephone number, including area code)

Not Applicable
(Former name, former address and former fiscal year, if changed
since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Edgar Filing: AMERICAN WOODMARK CORP - Form 10-Q

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer (Do not check if a smaller reporting company)	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of February 23, 2012, 14,379,875 shares of the Registrant's Common Stock were outstanding.

AMERICAN WOODMARK CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE A--BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete consolidated financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine-month periods ended January 31, 2012 are not necessarily indicative of the results that may be expected for the fiscal year ending April 30, 2012. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2011 filed with the U.S. Securities Exchange Commission (SEC).

NOTE B--NEW ACCOUNTING PRONOUNCEMENTS

In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income," which requires an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income, or in two separate but consecutive statements. Additionally, ASU 2011-05 eliminates the option to present comprehensive income and its components as part of the statement of shareholders' equity. The ASU does not change the items that must be reported in other comprehensive income. ASU 2011-05 will be effective for the Company beginning May 1, 2012.

In December 2011, the FASB issued ASU No. 2011-12, "Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU No. 2011-05." The amendments are being made to allow FASB time to redeliberate whether to present on the face of the financial statements the effects of reclassifications out of accumulated other comprehensive income on the components of net income and other comprehensive income. Companies should continue to report reclassifications out of accumulated other comprehensive income consistent with the presentation requirements in effect before ASU No. 2011-05. All other requirements in ASU 2011-05 are not affected by ASU 2011-12.

NOTE C--COMPREHENSIVE LOSS

The Company's comprehensive loss was \$16.4 million and \$21.4 million for the three months and nine months ended January 31, 2012, respectively, and \$5.5 million and \$15.7 million for the three months and nine months ended January 31, 2011, respectively. Comprehensive loss differs from net loss due to the changes in the Company's pension benefits liability. See Note J "Pension Benefits" for more information regarding the Company's pension costs.

NOTE D--EARNINGS (NET LOSS) PER SHARE

The following table sets forth the computation of basic and diluted earnings (net loss) per share:

(in thousands, except per share amounts)	Three Months Ended January 31		Nine Months Ended January 31	
	2012	2011	2012	2011
Numerator used for both basic and diluted earnings (net loss) per share:				
Net loss	\$(9,114)	\$(5,828)	\$(14,806)	\$(16,630)
Denominator:				
Denominator for basic earnings (net loss) per share-weighted average shares	14,362	14,263	14,331	14,242
Effect of dilutive securities:				
Stock options and restricted stock units	--	--	--	--
Denominator for diluted earnings (net loss) per share-weighted average shares and assumed conversions	14,362	14,263	14,331	14,242
Net loss per share				
Basic	\$(0.63)	\$(0.41)	\$(1.03)	\$(1.17)
Diluted	\$(0.63)	\$(0.41)	\$(1.03)	\$(1.17)

Potentially dilutive securities of 119,000 and 130,000 shares for the three-month periods ended January 31, 2012 and 2011, respectively, and 129,000 and 68,000 shares for the nine-month periods ended January 31, 2012 and 2011, respectively, have not been considered in the calculation of net loss per share, as the effect would be anti-dilutive.

NOTE E--STOCK-BASED COMPENSATION

The Company has various stock compensation plans. During the quarter ended January 31, 2012, the Company did not grant any stock compensation awards to employees or non-employee directors. During the nine months ended January 31, 2012, the Board of Directors of the Company approved grants of non-statutory stock options and performance-based restricted stock units to key employees and grants of service-based restricted stock units to key employees and non-employee directors. The Company granted non-statutory stock options to key employees for 130,000 shares of the Company's common stock with a weighted average exercise price of \$18.16 per share. The options vest evenly over a three-year period and have a ten-year contractual term. The employee performance-based restricted stock units totaled 134,250 units and the employee and non-employee director service-based restricted stock units totaled 64,750 units. The performance-based restricted stock units entitle the recipients to receive one share of the Company's common stock per unit granted if applicable performance conditions are met and the recipient remains employed with the Company until the units vest. The service-based units entitle the recipients to receive one share of the Company's common stock per unit granted if they remain employed with the Company until the units vest. The Company's restricted stock units granted to employees cliff-vest three years from the grant date.

For the three-month and nine-month periods ended January 31, 2012 and 2011, stock-based compensation expense was allocated as follows:

(in thousands)	Three Months Ended January 31,		Nine Months Ended January 31,	
	2012	2011	2012	2011
Cost of sales and distribution	\$117	\$186	\$415	\$516
Selling and marketing expenses	162	180	551	580
General and administrative expenses	494	683	1,640	1,753
Stock-based compensation expense	\$773	\$1,049	\$2,606	\$2,849

NOTE F--CUSTOMER RECEIVABLES

The components of customer receivables were:

(in thousands)	January 31, 2012	April 30, 2011
Gross customer receivables	\$26,774	\$33,039
Less:		
Allowance for doubtful accounts	(142)	(67)
Allowance for returns and discounts	(1,621)	(1,905)
Net customer receivables	\$25,011	\$31,067

NOTE G--INVENTORIES

The components of inventories were:

(in thousands)	January 31, 2012	April 30, 2011
Raw materials	\$9,627	\$9,275
Work-in-process	14,276	16,597
Finished goods	8,042	8,679
Total FIFO inventories	31,945	34,551
Reserve to adjust inventories to LIFO value	(9,807)	(10,080)
Total LIFO inventories	\$22,138	\$24,471

For the nine-month periods ended January 31, 2012 and 2011, the gain recognized by the Company related to the liquidation of LIFO based inventories was not material. Interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs. Since these items are estimated, interim results are subject to the final year-end LIFO inventory valuation.

NOTE H--PRODUCT WARRANTY

The Company estimates outstanding warranty costs based on the historical relationship between warranty claims and revenues. The warranty accrual is reviewed monthly to verify that it properly reflects the remaining obligation based on the anticipated expenditures over the balance of the obligation period. Adjustments are made when actual warranty

claim experience differs from estimates. Warranty claims are generally made within three months of the original shipment date.

The following is a reconciliation of the Company's warranty liability:

(in thousands)	Nine Months Ended January 31	
	2012	2011
Beginning balance at May 1	\$1,738	\$1,582
Accrual	6,337	5,035
Settlements	(6,384)	(5,072)
Ending balance at January 31	\$1,691	\$1,545

NOTE I--CASH FLOW

Supplemental disclosures of cash flow information:

(in thousands)	Nine Months Ended January 31	
	2012	2011
Cash paid during the period for:		
Interest	\$362	\$373
Income taxes	\$206	\$216

NOTE J--PENSION BENEFITS

Net periodic pension cost consisted of the following for the three months and nine months ended January 31, 2012 and 2011.

(in thousands)	Three Months Ended January 31		Nine Months Ended January 31	
	2012	2011	2012	2011
Service cost	\$1,326	\$1,179	\$3,892	\$3,538
Interest cost	1,633	1,567	4,986	4,701
Expected return on plan assets	(1,633)	(1,540)	(4,945)	(4,620)
Amortization of net loss	428	499	1,472	1,497
Amortization of prior service cost	13	21	53	64
Curtailement expense	331	--	331	--
Net periodic pension cost	\$2,098	\$1,726	\$5,789	\$5,180

In December 2011, the Company's Board of Directors approved the freezing of the Company's hourly and salary defined-benefit pension plans, effective as of April 30, 2012. As a result, the Company re-measured its pension liability, updating the pension measurement assumptions, and recorded pension curtailment charges of \$0.3 million. The re-measurement also resulted in an increase in the Company's pension liability of \$15.2 million, predominantly due to the decrease in the discount rate used for determining the present value of the Company's pension obligations from 5.66% at April 30, 2011 to 4.76% at December 31, 2011, which in turn caused a corresponding increase in accumulated other comprehensive loss, net of tax. See Note C "Comprehensive Loss."

The Company expects to contribute \$2.9 million to its pension plans in fiscal 2012, which represents both required and discretionary funding. As of January 31, 2012, \$1.4 million of contributions have been made. The Company was

not required to make, and did not make, any contributions to the pension plans in fiscal 2011.

NOTE K—RESTRUCTURING CHARGES

In the third quarter of fiscal 2012, the Company announced a restructuring plan (“2012 Restructuring Plan”) that committed to the closing of two of the Company’s manufacturing plants, which are located in Hardy County, West Virginia, and Hazard, Kentucky, offering its assembly plant in Tahlequah, Oklahoma, idled since 2009, for sale, and realigning its retirement program, including freezing the Company’s defined benefit pension plans. The two plants are expected to cease operations by April 30, 2012. The continuing housing slump led to the decision to reduce production capacity. The 2012 Restructuring Plan is intended to reduce costs and increase the Company’s utilization rates and decrease overhead costs within the Company’s manufacturing operations. As a result of the 2012 Restructuring Plan, the Company expects to incur total pre-tax exit costs of \$15.6 million related to this shut-down initiative, including severance and separation costs of \$5.6 million, pension curtailments of \$0.3 million, and \$9.7 million for equipment, inventory, and facilities-related expenses.

During the three and nine month periods ended January 31, 2012, the Company recognized pre-tax restructuring charges of \$10.3 million and \$10.4 million, respectively, of which \$10.2 million were related to the 2012 Restructuring Plan. Included in the \$10.2 million of restructuring charges were \$2.4 million of severance and separation costs, pension curtailments of \$0.3 million and \$7.5 million for equipment, inventory and facilities-related expenses.

A reserve for restructuring charges in the amount of \$2.3 million is included in the Company’s consolidated balance sheet as of January 31, 2012 relating to employee termination costs. Below is a summary of the restructuring reserve balance as of January 31, 2012:

2012 Restructuring Plan
(in thousands)

Restructuring reserve balance as of April 30, 2011	\$--
Additions	2,401
Payments	(140)
Reserve balance as of January 31, 2012	\$2,261

The Company has a total of four manufacturing plants classified as held for sale; two manufacturing plants that were idled in 2009, plus the two manufacturing plants for which the Company plans to cease operations by April 30, 2012. During the third quarter of fiscal 2012, the Company recorded an impairment charge of \$5.4 million relating to three of the four plants that are included as held for sale. The Company believes that the remaining \$10.0 million net book value of these four plants is fully recoverable. These assets are included in Other Assets on the Company’s balance sheet at January 31, 2012.

NOTE L—FAIR VALUE MEASUREMENTS

The Company utilizes the hierarchy of fair value measurement to classify certain of its assets and liabilities based upon the following definitions:

Level 1- Investments with quoted prices in active markets for identical assets or liabilities. The Company’s cash equivalents are invested in money market funds, mutual funds and United States Treasury instruments. The Company’s mutual fund investment assets represent contributions made and invested on behalf of the Company’s named executive officers in a supplementary employee retirement plan.

Level 2- Investments with observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. The Company has no Level 2 assets or liabilities.

Level 3- Investments with unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. The Company has no Level 3 assets or liabilities.

The following table summarizes the fair values of assets that are recorded in the Company's unaudited condensed consolidated financial statements as of January 31, 2012 and April 30, 2011 at fair value on a recurring basis (in thousands):

	Fair Value Measurements As of January 31, 2012		
	Level 1	Level 2	Level 3
ASSETS:			
Money market funds	\$46,212	\$--	\$--
Mutual funds	1,481	--	--
Total assets at fair value	\$47,693	\$--	\$--
	As of April 30, 2011		
	Level 1	Level 2	Level 3
ASSETS:			
Money market funds	\$61,226	\$--	\$--
Mutual funds	1,574	--	--
Total assets at fair value	\$62,800	\$--	\$--

NOTE M--OTHER INFORMATION

The Company is involved in suits and claims in the normal course of business, including without limitation product liability and general liability claims and claims pending before the Equal Employment Opportunity Commission. On at least a quarterly basis, the Company consults with its legal counsel to ascertain the reasonable likelihood that such claims may result in a loss. As required by FASB Accounting Standards Codification Topic 450, "Contingencies," (ASC 450), the Company categorizes the various suits and claims into three categories according to their likelihood for resulting in potential loss: those that are probable, those that are reasonably possible, and those that are deemed to be remote. The Company accounts for these loss contingencies in accordance with ASC 450. Where losses are deemed to be probable and estimable, accruals are made. Where losses are deemed to be reasonably possible or remote, a range of loss estimates is determined and considered for disclosure. Where no loss estimate range can be made, the Company and its counsel perform a worst-case estimate. In determining these loss range estimates, the Company considers known values of similar claims and consults with independent counsel.

The Company believes that the aggregate range of loss stemming from the various suits and asserted and unasserted claims which were deemed to be either probable or reasonably possible was not material as of January 31, 2012.

Item 2.

Management's Discussion and Analysis of Financial Condition
and Results of Operations

The following discussion should be read in conjunction with our unaudited condensed consolidated financial statements and the related notes, both of which are included in Part I, Item 1 of this report. The Company's critical accounting policies are included in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2011.

Forward-Looking Statements

This report contains statements concerning the Company's expectations, plans, objectives, future financial performance, and other statements that are not historical facts. These statements are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. In most cases, the reader can identify these forward-looking statements by words such as "anticipate," "estimate," "forecast," "expect," "believe," "should," "could," "would," "plan," "may" or other similar words. Forward-looking statements contained in this report, including in Management's Discussion and Analysis of Financial Condition and Results of Operations, are based on current expectations and our actual results may differ materially from those projected in any forward-looking statements. In addition, the Company participates in an industry that is subject to rapidly changing conditions and there are numerous factors that could cause the Company to experience a decline in sales and/or earnings or deterioration in financial condition. These include:

- general economic or business conditions and instability in the financial and credit markets, including their potential impact on our (i) sales and operating costs and access to financing, (ii) customers and suppliers and their ability to obtain financing or generate the cash necessary to conduct their respective businesses;
- the cyclical nature of the Company's industry, which is particularly sensitive to changes in consumer confidence, the amount of consumers' income available for discretionary purchases, and the availability and terms of consumer credit;
 - economic weakness in a specific channel of distribution;
- the loss of sales from specific customers due to their loss of market share, bankruptcy or switching to a competitor;
- risks associated with domestic manufacturing operations, including fluctuations in capacity utilization and the prices and availability of key raw materials as well as fuel, transportation, warehousing and labor costs and environmental compliance and remediation costs;
 - the need to respond to price or product initiatives launched by a competitor;
- the Company's ability to successfully implement initiatives related to increasing market share, new products, maintaining and increasing its sales force and new product displays; and
- sales growth at a rate that outpaces the Company's ability to install new capacity or a sales decline that requires reduction or realignment of the Company's manufacturing capacity.

Additional information concerning the factors that could cause actual results to differ materially from those in forward-looking statements is contained in this report, including elsewhere in Management's Discussion and Analysis of Financial Condition and Results of Operations and also in the Company's most recent Annual Report on Form 10-K for the fiscal year ended April 30, 2011, filed with the U.S. Securities and Exchange Commission, including under "Management's Discussion and Analysis of Financial Condition and Results of Operations," Item 1A, "Risk Factors," and Item 7A, "Quantitative and Qualitative Disclosures about Market Risk." While the Company believes that these risks are manageable and will not adversely impact the long-term performance of the Company, these risks could, under certain circumstances, have a material adverse impact on its operating results and financial condition.

Any forward-looking statement that the Company makes, speaks only as of the date of this report. The Company undertakes no obligation to publicly update or revise any forward-looking statements or cautionary factors, as a result of new information, future events or otherwise, except as required by law.

Overview

American Woodmark Corporation manufactures and distributes kitchen cabinets and vanities for the remodeling and new home construction markets. Its products are sold on a national basis directly to home centers, major builders and home manufacturers, and through a network of independent dealers and distributors. At January 31, 2012, the Company operated 11 manufacturing facilities and 9 service centers across the country.

The three-month period ended January 31, 2012 was the Company's third quarter of its fiscal year that ends on April 30, 2012 (fiscal 2012). During the third quarter and first nine months of fiscal 2012, the Company experienced a continuation of the difficult housing market conditions that have prevailed since the market peaked in 2006, although the outlook began to become more constructive. In new home construction, total homes started during the first 9 months of the Company's fiscal year 2012 approximated an annualized level of 632,000, 12% higher than prior year levels, but still more than 50% below their long-term average. In remodeling, existing homes sold during the same period were 6% above the same period of the prior year. Gross private fixed investment in residential property, as supplied by the Bureau of Economic Analysis, improved by 0.5% during the first eight months of fiscal 2012, but remained well below half of its peak levels. Cabinet sales reported by members of the Kitchen Cabinet Manufacturers Association (KCMA) declined by 0.5% in the first eight months of fiscal 2012. Since the KCMA data was down slightly but includes both new construction (which increased with housing starts) and remodeling sales, it appears that market remodeling sales declined during the first eight months of fiscal 2012.

Faced with these challenging market conditions, the Company's largest remodeling customers and competitors have continued to utilize an elevated level of sales promotions in the Company's product category to boost sales. These promotions have typically included free products and cash discounts to consumers based upon the amount and/or type of cabinets they purchased. Although some of the Company's competitors have participated vigorously in these promotional activities, the Company has begun to ease the amount of its promotional offerings while continuing to remain competitive with its competitors. Price-conscious consumers have generally responded to these promotional offerings, helping the Company to gain market share and realize increased sales volumes. The Company's remodeling sales rose by more than 10% during its first nine months of fiscal 2012, but registered a mid-single digit decline in line with the market during the third quarter when compared to the same periods of fiscal 2011.

The Company continued to realize strong sales gains in its new construction channel, where sales increased by more than 30% in the third quarter and by more than 20% in the first nine months of fiscal 2012 when compared to the same periods of fiscal 2011, each significantly outpacing the improvement in housing starts.

During the third quarter of fiscal 2012, the Company announced several initiatives designed to reduce its manufacturing capacity and its cost base, including the permanent closure of two manufacturing plants, the decision to place a previously closed manufacturing plant for sale, and the realignment of its retirement program, including the freezing of its pension plans. All of these initiatives are scheduled for completion by April 30, 2012. Restructuring charges related to these actions have been reflected in the Company's results.

Despite a flat overall market, the Company's net sales rose by 8% during the third quarter of fiscal 2012 and by 16% during its first nine months, indicative of strong market share gains in both its remodeling and new construction sales channels. The Company's sales increase helped the gross margin rate improve to 12.2% in the third quarter of fiscal 2012, compared with 10.9% in the prior year's third quarter and to 12.9% in the first nine months of fiscal 2012, compared with 11.1% in the prior year's first nine months. The improvement in the Company's gross margin during the three- and nine-month periods was driven by the beneficial impact of increased sales volume upon direct labor and manufacturing overhead costs. These beneficial factors were partially offset by the unfavorable impact of higher material and fuel costs during both periods and by the impact of higher sales promotion costs in the nine-month period.

Despite the continuing housing market downturn, the Company believes that the long-term fundamentals for the American housing industry continue to remain positive, based upon continued population and household growth, favorable demographics, job creation and low long-term interest rates. Based upon this belief, the Company has continued to invest in improving its operations and its capabilities to service its customers. The Company remains focused on growing its market share and continuing to invest in developing and launching new products and expanding its marketing reach to new customers.

The Company regularly assesses its long-lived assets to determine if any impairment has occurred, and regularly evaluates its deferred tax assets to determine whether a valuation allowance is necessary. Although the Company is presently operating at a loss in what appears to be the bottom of the housing market, the Company expects that a combination of continued market share gains and cost containment will enable it to return to profitability. As a result of its restructuring initiatives, the Company recorded a pre-tax impairment charge of \$5.4 million related to three of its manufacturing facilities during the third quarter of fiscal 2012. The Company has concluded that none of the long-lived assets pertaining to its other 9 manufacturing plants or any of its other long-lived assets were impaired and that no valuation allowance on its deferred tax assets was necessary as of January 31, 2012.

In connection with the aforementioned manufacturing realignment, the Company has listed for sale a manufacturing facility that was idled in 2009, as well as the two manufacturing plants that will cease production in April 2012. Combined with one additional previously closed manufacturing plant, the Company has available for sale a total of four plants with an aggregate net book value of \$10.0 million at January 31, 2012. These assets are classified as held for sale and included in the Company's "Other Assets" in its January 31, 2012 balance sheet.

The Company recorded restructuring charges during the third quarter of fiscal 2012 in connection with its cost saving initiatives. The pre-tax and after-tax impact of these charges aggregated \$10.3 million and \$6.3 million, respectively. The Company expects to record additional pre-tax charges of approximately \$5 million related to these initiatives. Exclusive of these charges, the Company's net loss was \$2.8 million for the third quarter of fiscal 2012, compared with a net loss of \$5.8 million in the third quarter of its prior fiscal year. The Company generated a net loss excluding restructuring charges of \$8.5 million in the nine-month period ended January 31, 2012, compared with a net loss of \$16.6 million in the comparable period of the prior fiscal year. Once the restructuring activities are completed, the Company expects to realize ongoing pre-tax savings of approximately \$18 million per year, commencing with the first quarter of its upcoming fiscal year.

Results of Operations

(in thousands)	Three Months Ended January 31			Nine Months Ended January 31		
	2012	2011	Percent Change	2012	2011	Percent Change
Net Sales	\$ 119,976	\$ 111,443	8 %	\$ 379,593	\$ 328,359	16 %
Gross Profit	14,588	12,164	20 %	49,109	36,367	35 %
Selling and Marketing Expenses	13,671	16,069	(15 %)	44,155	45,977	(4 %)
General and Administrative Expenses	6,273	5,421	16 %	18,780	17,283	9 %

Net Sales. Net sales were \$120.0 million for the third quarter of fiscal 2012, an increase of 8% compared with the third quarter of fiscal 2011. For the first nine months of fiscal 2012, net sales were \$379.6 million, reflecting a 16% increase compared with the same period of fiscal 2011. Overall unit volume for the three- and nine-month periods ended January 31, 2012 improved by 3% and 10%, respectively. Average revenue per unit increased by 5% during the three- and nine-month periods ended January 31, 2012, driven by improvements in the Company's sales mix.

Gross Profit. Gross profit margin for the third quarter of fiscal 2012 was 12.2%, compared with 10.9% for the same period of fiscal 2011. Gross profit margin was 12.9% for the first nine months of fiscal 2012, compared with 11.1% in the first nine months of fiscal 2011. Overhead and labor costs were reduced by a combined 2.0% of net sales in the third quarter of fiscal 2012 and 3.9% in the first nine months, as compared with the comparable prior year periods.

The increase in gross profit margin for the third quarter and first nine months of fiscal 2012 was primarily due to the improvement in sales, which in turn drove improved labor efficiencies and more favorable absorption of fixed overhead costs compared with the same periods of fiscal 2011.

Higher sales promotion costs partially offset these improvements during the nine-month period ended January 31, 2012, as these costs increased by 0.6% of net sales compared with the same period in the prior fiscal year. Sales promotional costs incurred during the Company's third quarter of fiscal 2012 decreased 1.2% when compared with the same period in the prior fiscal year. The prior year's first quarter marked the last time that sales promotional levels were at a lower, more traditional cost level. Since most of these sales promotions involved the use of free product or reimbursements back to the Company's large retail customers, their associated costs were deducted from gross margin as opposed to being classified as operating expenses. Materials and freight costs also increased by 1.9% and 1.5% of net sales, respectively, during the third quarter and first nine months of fiscal 2012, as a result of inflationary pressures in finishing materials, lumber, cartons, imported components and diesel fuel, and changes in the Company's sales mix.

Selling and Marketing Expenses. Selling and marketing expenses were 11.4% of sales in the third quarter of fiscal 2012, compared with 14.4% of sales for the same period in fiscal 2011. For the first nine months of fiscal 2012, selling and marketing costs were 11.6% of sales, compared with 14.0% of sales for the same period of fiscal 2011. Sales and marketing costs decreased by 15% in relation to the 8% increase in net sales for the third quarter of fiscal 2012, and decreased by 4% in relation to the 16% increase in net sales for the first nine months of fiscal 2012. Although the breadth of the Company's fall product launch was in line with both its recent launches and with its internal product release schedule, efficiencies from lower marketing collateral costs, as well as reductions in branding costs were of a sufficient magnitude to reduce overall cost levels.

General and Administrative Expenses. General and administrative expenses were 5.2% of sales in the third quarter of fiscal 2012 and 4.9% in the first nine months of fiscal 2012, compared with 4.9% of sales in the prior year's third quarter and 5.3% of sales in the prior year's first nine months. The Company's general and administrative costs increased by 16% during the third quarter and 9% during the first nine months of fiscal 2012 compared with the prior year, driven by increased incentive-based compensation expenses. As of January 31, 2012, the Company had approximately \$0.1 million of accounts with aggregate receivables from customers with a higher perceived level of risk.

Effective Income Tax Rates. The Company's effective income tax rates for the third quarter and first nine months of fiscal 2012 were 41.8% and 38.5%, respectively, as compared with 37.4% and 38.0%, respectively, in the comparable periods of fiscal 2011. The higher effective tax rates in fiscal 2012 were the result of more favorable permanent tax differences and changes driven by the restructuring charges.

Outlook. The Company expects the continuing impact of housing supply overhang, unemployment and weak consumer confidence will cause the remodeling market for its products to remain subdued until these conditions are resolved. The Company expects that total housing starts during fiscal 2012 will increase by approximately 12%.

LIQUIDITY AND CAPITAL RESOURCES

The Company's cash, cash equivalents and restricted cash totaled \$73.6 million at January 31, 2012, representing a \$3.8 million increase from its April 30, 2011 balance, and a \$6.6 million increase from January 31, 2011. At January 31, 2012, total long-term debt (including current maturities) was \$24.9 million, down \$0.7 million from its balance at April 30, 2011 and down \$0.8 million from January 31, 2011. The Company's ratio of long-term debt to total capital was 15.1% at January 31, 2012 compared with 13.8% at April 30, 2011.

The Company's main source of liquidity is its existing cash and cash equivalents on hand and cash generated from its operating activities. The Company maintains a \$35 million secured revolving credit facility with Wells Fargo Bank, N.A. (Wells Fargo). Pursuant to the terms of the Wells Fargo credit facility, \$14.4 million of the Company's cash served as security for borrowings under this facility and was classified as restricted cash at both January 31, 2012 and April 30, 2011.

Cash provided by operating activities in the first nine months of fiscal 2012 was \$13.4 million, compared with \$7.7 million in the comparable period of fiscal 2011. The prior year's operating cash flows included the beneficial impact of approximately \$7 million of incremental tax refunds received. Excluding this impact, the Company's operating activities generated an additional \$12.7 million of increased cash during the first nine months of fiscal 2012, driven primarily by the \$8.1 million reduction in the Company's net loss excluding restructuring charges, as well as the timing of cash receipts and disbursements. Of the Company's \$10.3 million in restructuring charges recorded during the third quarter of fiscal 2012, only \$0.1 million of cash was expended as of January 31, 2012.

The Company's primary investing activities are capital expenditures and investments in promotional displays. Cash used for capital expenditures and promotional displays was \$7.6 million in the first nine months of fiscal 2012, compared with \$4.3 million in the comparable period of fiscal 2011. The increase of \$3.3 million was driven by an increase of \$1.6 million in capital outflows, combined with the absence of \$1.5 million in proceeds received in the prior year from the sale of a closed plant. Capital expenditures made in both nine-month periods of fiscal 2011 and 2012 did not include any new plant construction activities. The Company expects its investments in capital expenditures and promotional displays for fiscal 2012 will increase to approximately \$10 million for fiscal 2012, up from \$8.4 million in fiscal 2011.

The Company generated positive free cash flow (defined as net cash provided by operating activities less net cash used for investing activities) of \$5.8 million in the first nine months of fiscal 2012, compared with \$3.4 million in the first nine months of fiscal 2011. Excluding the prior year impact from the increased income tax refund and the building sale which aggregated \$8.5 million, the Company's free cash flow improved by \$10.9 million during the first nine months of fiscal 2012, driven primarily by the \$8.1 million reduction in its net loss before restructuring charges and the timing of cash receipts and disbursements.

The Company's financing activities typically consist of returning a portion of its free cash flow to its shareholders and repayments of debt, net of any proceeds received from the exercise of stock options. During the first nine months of fiscal 2012, net cash used for financing activities was \$2.0 million, compared with net cash used in the comparable period of fiscal 2011 of \$4.1 million. The primary use of cash for financing activities during both periods was to return cash to the Company's shareholders in the form of dividends. Despite the Company's strong liquidity and positive free cash flow, the Company's Board of Directors elected to suspend the Company's regular quarterly dividend during its meeting on August 25, 2011. This decision was made in consideration of recent events, both in the US and abroad, that have significantly increased the level of economic uncertainty and reduced consumer confidence. The determination as to the payment and amount of any future dividends will be made by the Board of Directors from time to time and will depend on the Company's then-current financial condition, capital requirements, results of operations and any other factors then deemed relevant by the Board of Directors. The Company made no repurchases of its common stock during either period and had \$93.3 million of remaining stock repurchases authorized by its Board of Directors as of January 31, 2012.

The Company can borrow up to \$35 million under its revolving credit facility with Wells Fargo; however, its aggregate debt under the credit facility cannot exceed the collateral value of the Company's cash and specified investments held in accounts pledged to Wells Fargo. At January 31, 2012, \$10 million of loans and \$3.7 million of letters of credit were outstanding under the credit facility, and \$14.4 million of the Company's cash was held as security. Effective January 3, 2012, Wells Fargo amended the Company's credit facility to extend the maturity date for principal amounts due under the facility from December 31, 2012 to December 31, 2015 and increase the required ratio of the Company's total liabilities to its tangible net worth to be a maximum of 1.5 to 1.0, up from its previous requirement of a maximum of 0.9 to 1.0. Under the terms of the amended credit facility, the Company must now maintain at the end of each fiscal quarter a ratio of total liabilities to tangible net worth not greater than 1.5 to 1.0 and must comply with other customary affirmative and negative covenants. The Company's ratio of total liabilities to tangible net worth at January 31, 2012 was 0.9 to 1.0. The credit facility does not limit the Company's ability to use unrestricted cash to pay dividends or repurchase its common stock as long as the Company maintains the required ratio of total liabilities to tangible net worth. As of January 31, 2012, the Company was in compliance with all covenants specified in the credit facility.

The Company's cash flow from operations combined with accumulated cash and cash equivalents on hand are expected to be more than sufficient to support forecasted working capital requirements, service existing debt obligations, fund obligations created by the Company's recent restructuring activity, and fund capital expenditures for the remainder of fiscal 2012.

The timing of the Company's contractual obligations as of April 30, 2011 is summarized in the table below.

(in thousands)	Total Amounts	FISCAL YEARS ENDED APRIL 30			
		2012	2013 – 2014	2015 – 2016	2017 and Thereafter
Revolving credit facility	\$10,000	\$--	\$10,000	\$--	\$--
Economic development loans	3,524	--	--	--	3,524
Term loans	4,359	416	761	763	2,419
Capital lease obligations	7,700	512	1,057	1,099	5,032
Interest on long-term debt(a)	2,494	500	731	556	707
Operating lease obligations	15,772	3,707	5,909	5,079	1,077
Pension contributions(b)	35,936	2,871	18,565	14,500	--
Total	\$79,785	\$8,006	\$37,023	\$21,997	\$12,759

- (a) Interest commitments under interest bearing debt consist of interest under the Company's primary loan agreement, term loans and capitalized lease agreements. Amounts outstanding under the Company's revolving credit facility, \$10 million at April 30, 2011, bear a variable interest rate determined by the London Interbank Offered Rate (LIBOR) plus 1.25%. Interest under the Company's term loans and capitalized lease agreements is fixed at rates between 2% and 6%. Interest commitments under interest bearing debt for the Company's revolving credit facility are at LIBOR plus the spread in effect as of April 30, 2011, throughout the remaining term of the facility. During the quarter ended January 31, 2012, the Company's revolving credit facility was amended and the maturity date was extended to December 31, 2015.
- (b) The estimated cost of the Company's two defined benefit pension plans is determined annually based upon the discount rate and other assumptions at fiscal year end. During the quarter ended January 31, 2012, the Company announced the decision to freeze both pension plans as of April 30, 2012. As a result, aggregate future pension funding contributions are estimated to be made as follows: 2013-2014, \$13.6 million; 2015-2016, \$11.3 million; 2017, \$5.2 million. The remaining future pension funding contributions beyond 2017 have not been determined at this time.

Seasonal and Inflationary Factors

The Company's business has historically been subject to seasonal influences, with higher sales typically realized in the second and fourth fiscal quarters.

The costs of the Company's products are subject to inflationary pressures and commodity price fluctuations. The Company has generally been able over time to recover the effects of inflation and commodity price fluctuations through sales price increases.

Critical Accounting Policies

The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. There have been no significant changes to the Company's critical accounting policies as disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2011.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Since the fiscal year ended April 30, 2011, the Company had no material exposure to changes in interest rates for its debt agreements.

The Company does not currently use commodity or interest rate derivatives or similar financial instruments to manage its commodity price or interest rate risks. See “Seasonal and Inflationary Factors” in Management’s Discussion and Analysis of Financial Condition and Results of Operations above for additional information regarding the effects inflation and commodity price fluctuations have on the costs of the Company’s products.

Item 4. Controls and Procedures

Senior management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of January 31, 2012. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective. In addition, there have been no changes in the Company's internal control over financial reporting that occurred during the quarter ended January 31, 2012 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in various suits and claims in the normal course of business all of which constitute ordinary, routine litigation incidental to the Company’s business. The Company does not have any litigation that does not constitute ordinary, routine litigation incidental to its business.

Item 1A. Risk Factors

Risk factors that may affect the Company’s business, results of operations and financial condition are described below. This description includes any material changes to, and supersedes, the description of risk factors associated with the Company’s business previously disclosed in Part I, Item 1A, “Risk Factors” of the Company’s Annual Report on Form 10-K for the fiscal year ended April 30, 2011. Additional risks and uncertainties not presently known to the Company or that it currently believes to be immaterial also may become important factors that affect the Company. The risks described below should be considered in addition to all the other information provided in this report, in the Company’s Annual Report on Form 10-K for the fiscal year ended April 30, 2011, and in the Company’s subsequent filings with the Securities and Exchange Commission. Any of the following risks could materially and adversely affect the Company’s business, results of operations and financial condition.

The Company’s business is dependent upon remodeling activity and residential construction. The Company’s results of operations are affected by levels of home improvement and residential construction activity, including repair and remodeling and new construction. Job creation levels, interest rates, availability of credit, energy costs, consumer confidence, national and regional economic conditions, and weather conditions and natural disasters can significantly impact levels of home improvement and residential construction activity.

Prolonged economic downturns may adversely impact the Company’s sales, earnings and liquidity. Through fiscal year 2011, the Company’s sales levels have fallen 46% from their peak levels in 2006. The Company’s industry historically has been cyclical in nature and has fluctuated with economic cycles, including the current housing downturn. During economic downturns, the Company’s industry could experience longer periods of recession and

greater declines than the general economy. The Company believes that its industry is significantly influenced by economic conditions generally and particularly by housing activity, consumer confidence, the level of personal discretionary spending, demographics and credit availability. These factors not only may affect the ultimate consumer of the Company's products, but also may impact home centers, builders and the Company's other primary customers. As a result, a continuation or worsening of current conditions could adversely affect the Company's sales and earnings as well as its cash flow and liquidity.

The Company's future financial performance depends in part on the success of its new product development and other growth strategies. The Company has increased its emphasis on new product development in recent years and continues to focus solely on organic growth. Consequently, the Company's financial performance will, in part, reflect its success in implementing its growth strategies in its existing markets and in introducing new products.

The loss of, or a reduction in business from, either of the Company's key customers would have a material adverse effect upon its business. The size and importance to the Company of its two largest customers is significant. These customers could make significant changes in their volume of purchases and could otherwise significantly affect the terms and conditions on which the Company does business. Sales to The Home Depot and Lowe's Companies, Inc. were approximately 73% of total company sales for fiscal 2011. Although builders, dealers, and other retailers represent other channels of distribution for the Company's products, an unplanned loss of a substantial portion of sales to The Home Depot or Lowe's Companies, Inc. would have a material adverse impact on the Company.

Manufacturing realignments and cost savings programs similar to the Company's 2012 Restructuring Plan could result in a decrease in the Company's near-term earnings and liquidity. The Company continually reviews its manufacturing operations. These reviews could result in manufacturing realignments and cost savings programs, such as the consolidation and integration of facilities, functions, systems, or procedures, which in turn could result in a charge that would decrease near-term earnings and liquidity until the expected cost reductions are achieved. Any such realignments would likely result in significant costs including, among others, severance, impairment, exit, and disposal costs and capital expenditures.

Impairment charges could reduce the Company's profitability. The Company has significant long-lived tangible, intangible and deferred tax assets recorded on its balance sheets. If operating results decline or if the Company decides to restructure results as it did with the 2012 Restructuring Plan, the Company could incur impairment charges, which could have a material impact on its financial results. The Company evaluates the recoverability of the carrying amount of its long-lived tangible, intangible and deferred tax assets on an ongoing basis. The outcome of future reviews could result in substantial impairment charges. Impairment assessments inherently involve judgments as to assumptions about market conditions and the Company's ability to generate future cash flows and profitability, given those assumptions. Future events and changing market conditions may impact the Company's assumptions as to prices, costs or other factors that may result in changes in the Company's estimates. Although the Company believes the assumptions used in testing for impairment are reasonable, significant changes in these assumptions could produce a significantly different result.

The Company's operating results are affected by the cost and availability of raw materials. Because the Company is dependent on outside suppliers for raw material needs, it must obtain sufficient quantities of quality raw materials from its suppliers at acceptable prices and in a timely manner. The Company has no long-term supply contracts with its key suppliers. A substantial decrease in the availability of products from the Company's suppliers, the loss of key supplier arrangements, or a substantial increase in the cost of its raw materials could adversely impact the Company's results of operations.

The Company may not be able to maintain or raise the prices of its products in response to inflation and increasing costs. Short-term market and competitive pressures may prohibit the Company from raising prices to offset inflationary raw material and freight costs, which would adversely impact profit margins.

Additional risks and uncertainties that may affect the Company's business, results of operations and financial condition are discussed elsewhere in this report and in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2011, including in Item 7A, "Quantitative and Qualitative Disclosures about Market Risk" and in "Management's Discussion and Analysis of Financial Condition and Results of Operations" under the headings "Forward-Looking Statements," and "Outlook for Fiscal 2012."

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On August 24, 2007, the Company announced that the Company's Board of Directors approved the repurchase of up to \$100 million of the Company's common stock. This authorization has no expiration date. In the third quarter of fiscal 2012, the Company did not repurchase any shares under this authorization. At January 31, 2012, \$93.3 million remained authorized by the Company's Board of Directors to repurchase shares of the Company's common stock.

Item 6. Exhibits

Exhibit Number	Description
3.1 (a)	Articles of Incorporation as amended effective August 12, 1987 (incorporated by reference to Exhibit 3.1 to the Registrant's Form 10-Q for the quarter ended January 31, 2003; Commission File No. 000-14798).
3.1 (b)	Articles of Amendment to the Articles of Incorporation effective September 10, 2004 (incorporated by reference to Exhibit 3.1 to the Registrant's Form 8-K as filed on August 31, 2004; Commission File No. 000-14798).
3.2	Bylaws – as amended and restated December 14, 2009 (incorporated by reference to Exhibit 3.2 to the Registrant's Form 10-K for the fiscal year ended April 30, 2010; Commission File No. 000-14798).
