Item Entry into a Material Definitive Agreement

1.02

On March 27, 2009, Entertainment Distribution Company, LLC ("EDC") entered into the Ninth Amendment (the "Ninth Amendment") to its Senior Secured Credit Facility (the "Credit Agreement") with Entertainment Distribution Company (USA), LLC and Glenayre Electronics, Inc., ("GEI") as guarantors (the "Guarantors"), Wachovia Bank, National Association ("Wachovia") and ING Capital, LLC ("ING") as lenders (the "Lenders") and Wachovia as administrative agent (the "Agent"). The Ninth Amendment modified certain terms of the Credit Agreement dated as of May 31, 2005, by and among EDC, the Guarantors, the Lenders and the Agent. The Ninth Amendment modified the definition of EBITDA as it applies to the Credit Agreement as follows: for the fiscal quarter ended December 31, 2008, and each fiscal quarter thereafter, EBITDA shall be calculated by adding back impairment charges, non-cash charges and one-time charges related to EDC's sale of its U.S operations to Sony DADC U.S., Inc., any charges related to U.S. operations or discontinued operations (but not including any ongoing overhead from U.S. operations), and impairment charges pertaining to the write-down of intangibles of the EDC GmbH ("Hannover, Germany") operations, which charges to be added back shall not exceed, in the aggregate, \$30,000,000, to the extent such charges were deducted for the applicable period.

A copy of the Ninth Amendment is filed with this report as Exhibit 10.1. The foregoing description of the Ninth Amendment does not purport to be complete and is qualified in its entirety by reference to the full text of such amendment.

Item Results of Operations and Financial Condition.

2.02

On March 30, 2009, EDCI Holdings, Inc. ("EDCI"), the holding company for Entertainment Distribution Company, Inc., the majority shareholder of EDC, issued a news release providing financial results for the quarterly period and year ended December 31, 2008. The news release contains forward-looking statements regarding EDCI and includes cautionary statements identifying important factors that could cause actual results to differ. This EDCI press release is furnished as Exhibit 99.1 to this current report.

On March 31, 2009, the management of EDCI hosted a conference call to discuss EDCI's financial condition and results of operations for the quarterly period and year ended December 31, 2008. This conference call was webcast and was broadly accessible over EDCI's website at www.edcih.com. A written transcript of EDCI's prepared remarks for this conference call is furnished as Exhibit 99.2 to this current report.

Item Costs Associated with Exit or Disposal Activities

2.05

On March 31, 2009, EDCI issued a press release announcing that the Board of Directors of EDC approved a plan to consolidate EDC's Blackburn, UK ("Blackburn") and Hannover, Germany manufacturing volumes within the Hannover facility (the "Consolidation"). As a result of the Consolidation, EDC intends to cease by year-end 2009 all operations presently conducted at its Blackburn facility in the United Kingdom, and resultantly produce all of the manufacturing volume for Universal, its largest customer, in EDC's Hannover plant through the expiration of the

Universal manufacturing agreements in May 2015.

EDC is implementing the Consolidation at this time as the result of on an extensive feasibility analysis that was based in part on a particular customer delivering to EDC in early February 2009 a sizable percentage cut in that customer's volume forecast for Blackburn that month. As a result of those and other forecast cuts, reasonable forecasts of continued unpredictability, if not outright erosion of the volume of sales and the pricing of music CDs that comprise substantially all of the business conducted at the Blackburn facility, and the potential loss of credit insurance for UK third party customers and other significant risks associated with the continued operations in Blackburn, Management determined and EDC's Board of Directors confirmed that it was not commercially reasonable to continue operating the Blackburn manufacturing facility.

Blackburn closure costs currently are forecast at approximately \$9-10 million, comprised primarily of severance costs for approximately 300 employees, costs associated with exiting Blackburn's existing leases and costs associated with relocating equipment, parts and inventory from Blackburn to Hannover. Closure costs will be financed out of existing cash in the Blackburn operations with additional financial and other support from the Hannover operations. As a result of continuing to manufacture in Hannover the Universal volume that was previously manufactured in Blackburn, without any significant increase in Hannover's fixed costs, after completion of the consolidation the overall profitability of the European operations is expected to be increased materially compared to what it would have been without such consolidation, resulting in an estimated payback of the closure costs in approximately 2.0 – 2.5 years. EDCI's news release on the Consolidation is furnished as Exhibit 99.3 to this current report.
