period in 2002.

II. 2003 Fourth Quarter and 2004 Natural Gas and Crude Oil Financial Price Swap and Natural Gas Financial Collar Contracts

With the objective of enhancing the certainty of future revenues, from time to time EOG enters into NYMEX-related financial commodity price swap and collar contracts. In addition to these financial transactions, EOG is a party to various physical commodity contracts for the sale of hydrocarbons that cover varying periods of time and have varying pricing provisions. The financial impact of these various physical commodity contracts is included in revenues which in turn affects average realized hydrocarbon prices.

Presented below is a summary of EOG's 2003 fourth quarter and 2004 natural gas and crude oil financial price swap contracts and natural gas financial collar contracts as of October 16, 2003. EOG accounts for these price swap and collar contracts using the mark-to-market accounting method.
