Notes to Condensed Financial Statements
September 30, 2018
(unaudited)

The words “we” and “our” refer collectively to AllianceBernstein Holding L.P. (“AB Holding”) and AllianceBernstein L.P. and its subsidiaries (“AB”), or to their officers and employees. Similarly, the word “company” refers to both AB Holding and AB. Where the context requires distinguishing between AB Holding and AB, we identify which of them is being discussed.

1. Business Description, Organization and Basis of Presentation

Business Description

AB Holding’s principal source of income and cash flow is attributable to its investment in AB limited partnership interests. The condensed financial statements and notes of AB Holding should be read in conjunction with the condensed consolidated financial statements and notes of AB included as an exhibit to this quarterly report on Form 10-Q and with AB Holding’s and AB’s audited financial statements included in AB Holding’s Form 10-K for the year ended December 31, 2017.

AB provides research, diversified investment management and related services globally to a broad range of clients. Its principal services include:

Institutional Services – servicing its institutional clients, including private and public pension plans, foundations and endowments, insurance companies, central banks and governments worldwide, and affiliates such as AXA S.A. (“AXA”), AXA Equitable Holdings, Inc. (“EQH”) and their respective subsidiaries, by means of separately-managed accounts, sub-advisory relationships, structured products, collective investment trusts, mutual funds, hedge funds and other investment vehicles.

Retail Services – servicing its retail clients, primarily by means of retail mutual funds sponsored by AB or an affiliated company, sub-advisory relationships with mutual funds sponsored by third parties, separately-managed account programs sponsored by financial intermediaries worldwide and other investment vehicles.

Private Wealth Management Services – servicing its private clients, including high-net-worth individuals and families, trusts and estates, charitable foundations, partnerships, private and family corporations, and other entities, by means of separately-managed accounts, hedge funds, mutual funds and other investment vehicles.

Bernstein Research Services – servicing institutional investors, such as pension fund, hedge fund and mutual fund managers, seeking high-quality fundamental research, quantitative services and brokerage-related services in equities and listed options.

AB also provides distribution, shareholder servicing, transfer agency services and administrative services to the mutual funds it sponsors.

AB’s high-quality, in-depth research is the foundation of its business. AB’s research disciplines include economic, fundamental equity, fixed income and quantitative research. In addition, AB has experts focused on multi-asset strategies, wealth management and alternative investments.

AB provides a broad range of investment services with expertise in:

• Actively-managed equity strategies, with global and regional portfolios across capitalization ranges, concentration ranges and investment strategies, including value, growth and core equities;

• Actively-managed traditional and unconstrained fixed income strategies, including taxable and tax-exempt strategies;

• Passive management, including index and enhanced index strategies;

• Alternative investments, including hedge funds, fund of funds and private equity (e.g., direct real estate investing and direct lending); and

• Multi-asset solutions and services, including dynamic asset allocation, customized target-date funds and target-risk funds.

Index

AB's services span various investment disciplines, including market capitalization (e.g., large-, mid- and small-cap equities), term (e.g., long-, intermediate- and short-duration debt securities), and geographic location (e.g., U.S., international, global, emerging markets, regional and local), in major markets around the world.

Organization

During the second quarter of 2018, AXA Equitable Holdings, Inc. ("EQH"), the holding company for a diversified financial services organization, conducted an initial public offering; AXA, a French holding company for AXA Group, a worldwide leader in life, property and casualty and health insurance and asset management owns approximately 72% of the outstanding common stock of EQH as of September 30, 2018. AXA has announced its intention to sell its entire interest in EQH over time, subject to market conditions and other factors. AXA is under no obligation to do so and retains the sole discretion to determine the timing of any future sales of shares of EQH common stock.

As of September 30, 2018, EQH owns approximately 3.9% of the issued and outstanding units representing assignments of beneficial ownership of limited partnership interests in AB Holding ("AB Holding Units"). AllianceBernstein Corporation (an indirect wholly-owned subsidiary of EQH, "General Partner") is the general partner of both AB Holding and AB. AllianceBernstein Corporation owns 100,000 general partnership units in AB Holding and a 1% general partnership interest in AB.

As of September 30, 2018, the ownership structure of AB, expressed as a percentage of general and limited partnership interests, is as follows:

EQH and its subsidiaries	63.7 %
AB Holding	35.5
Unaffiliated holders	0.8
	100.0%

Including both the general partnership and limited partnership interests in AB Holding and AB, EQH and its subsidiaries have an approximate 65.1% economic interest in AB as of September 30, 2018.

Basis of Presentation

The interim condensed financial statements have been prepared in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC"). In the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the interim results, have been made. The preparation of the condensed financial statements requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the condensed financial statements and the reported amounts of revenues and expenses during the interim reporting periods. Actual results could differ from those estimates. The condensed statement of financial condition as of December 31, 2017 was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America ("GAAP").

AB Holding records its investment in AB using the equity method of accounting. AB Holding's investment is increased to reflect its proportionate share of income of AB and decreased to reflect its proportionate share of losses of AB and cash distributions made by AB to its Unitholders. In addition, AB Holding's investment is adjusted to reflect its proportionate share of certain capital transactions of AB.

AB's ASC 606 Implementation

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Codification (“ASC”) 606, Revenue from Contracts with Customers, which outlines a single comprehensive revenue recognition model for all contracts with customers and supersedes most of the existing revenue recognition requirements. This standard had no impact on AB Holding’s statement of income. AB adopted this new standard on January 1, 2018 on a modified retrospective basis for contracts that were not completed as of the date of adoption.

Index

On January 1, 2018, AB recorded a cumulative effect adjustment, net of tax, of a \$35.0 million increase to partners' capital in its condensed consolidated statement of financial condition. Accordingly, AB Holding, as a result of its 35.5% ownership interest in AB as of January 1, 2018, recorded a cumulative effect adjustment, net of tax, of \$12.5 million to partners' capital in its condensed statement of financial condition.

2. Cash Distributions

AB Holding is required to distribute all of its Available Cash Flow, as defined in the Amended and Restated Agreement of Limited Partnership of AB Holding ("AB Holding Partnership Agreement"), to its Unitholders pro rata in accordance with their percentage interests in AB Holding. Available Cash Flow is defined as the cash distributions AB Holding receives from AB minus such amounts as the General Partner determines, in its sole discretion, should be retained by AB Holding for use in its business (such as the payment of taxes) or plus such amounts as the General Partner determines, in its sole discretion, should be released from previously retained cash flow.

On October 24, 2018, the General Partner declared a distribution of \$0.69 per unit, representing a distribution of Available Cash Flow for the three months ended September 30, 2018. Each general partnership unit in AB Holding is entitled to receive distributions equal to those received by each AB Holding Unit. The distribution is payable on November 15, 2018 to holders of record at the close of business on November 5, 2018.

3. Long-term Incentive Compensation Plans

AB maintains several unfunded, non-qualified long-term incentive compensation plans, under which the company grants awards of restricted AB Holding Units to its employees and members of the Board of Directors, who are not employed by AB or by any of AB's affiliates ("Eligible Directors").

AB funds its restricted AB Holding Unit awards either by purchasing AB Holding Units on the open market or purchasing newly-issued AB Holding Units from AB Holding, and then keeping all of these AB Holding Units in a consolidated rabbi trust until delivering them or retiring them. In accordance with the AB Holding Partnership Agreement, when AB purchases newly-issued AB Holding Units from AB Holding, AB Holding is required to use the proceeds it receives from AB to purchase the equivalent number of newly-issued AB Units, thus increasing its percentage ownership interest in AB. AB Holding Units held in the consolidated rabbi trust are corporate assets in the name of the trust and are available to the general creditors of AB.

During the three and nine months ended September 30, 2018, AB purchased 1.6 million and 2.9 million AB Holding Units for \$48.0 million and \$83.2 million, respectively (on a trade date basis). These amounts reflect open-market purchases of 1.6 million and 2.8 million AB Holding Units for \$48.0 million and \$80.9 million, respectively, with the remainder relating to purchases of AB Holding Units from employees to allow them to fulfill statutory tax withholding requirements at the time of delivery of long-term incentive compensation awards. During the three and nine months ended September 30, 2017, AB purchased 0.3 million and 5.9 million AB Holding Units for \$6.9 million and \$134.6 million, respectively (on a trade date basis). These amounts reflect open-market purchases of 0.3 million and 5.2 million AB Holding Units for \$6.8 million and \$117.1 million, respectively, with the remainder relating to purchases of AB Holding Units from employees to allow them to fulfill statutory tax withholding requirements at the time of delivery of long-term incentive compensation awards.

Each quarter, AB considers whether to implement a plan to repurchase AB Holding Units pursuant to Rules 10b5-1 and 10b-18 under the Securities Exchange Act of 1934, as amended ("Exchange Act"). A plan of this type allows a company to repurchase its shares at times when it otherwise might be prevented from doing so because of self-imposed trading blackout periods or because it possesses material non-public information. Each broker selected by AB has the authority under the terms and limitations specified in the plan to repurchase AB Holding Units on AB's behalf in accordance with the terms of the plan. Repurchases are subject to regulations promulgated by the SEC as

well as certain price, market volume and timing constraints specified in the plan. The plan adopted during the third quarter of 2018 expired at the close of business on October 22, 2018. AB may adopt additional plans in the future to engage in open-market purchases of AB Holding Units to help fund anticipated obligations under its incentive compensation award program and for other corporate purposes.

During the first nine months of 2018 and 2017, AB granted to employees and Eligible Directors 2.5 million and 2.1 million restricted AB Holding Unit awards, respectively. AB used AB Holding Units repurchased during the periods and newly-issued AB Holding Units to fund these restricted AB Holding Unit awards.

Index

During the first nine months of 2018 and 2017, AB Holding issued 0.6 million and 1.0 million AB Holding Units, respectively, upon exercise of options to buy AB Holding Units. AB Holding used the proceeds of \$10.8 million and \$17.7 million, respectively, received as payment in cash for the exercise price to purchase the equivalent number of newly-issued AB Units.

4. Net Income per Unit

Basic net income per unit is derived by dividing net income by the basic weighted average number of units outstanding for each period. Diluted net income per unit is derived by adjusting net income for the assumed dilutive effect of compensatory options ("Net income – diluted") and dividing by the diluted weighted average number of units outstanding for each period.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
	(in thousands, except per unit amounts)			
Net income – basic	\$65,900	\$43,178	\$182,517	\$128,829
Additional allocation of equity in net income attributable to AB resulting from assumed dilutive effect of compensatory options	117	136	376	450
Net income – diluted	\$66,017	\$43,314	\$182,893	\$129,279

Basic net income per unit	\$0.68	\$0.46	\$1.87	\$1.35
Diluted net income per unit	\$0.68	\$0.46	\$1.87	\$1.35

For the three and nine months ended September 30, 2018, we excluded 824,245 options and 844,973 options, respectively, from the diluted net income computation due to their anti-dilutive effect. For the three and nine months ended September 30, 2017, we excluded 2,427,527 options from the diluted net income computation due to their anti-dilutive effect.

5. Investment in AB

Changes in AB Holding's investment in AB during the nine-month period ended September 30, 2018 are as follows (in thousands):

6. Units Outstanding

Changes in AB Holding Units outstanding during the nine-month period ended September 30, 2018 are as follows:

Outstanding as of December 31, 2017	96,461,989
Options exercised	629,493
Units issued	2,712,263
Units retired	(3,430,781)
Outstanding as of September 30, 2018	96,372,964

7. Income Taxes

AB Holding is a “grandfathered” publicly-traded partnership (“PTP”) for federal tax purposes and, accordingly, is not subject to federal or state corporate income taxes. However, AB Holding is subject to the 4.0% New York City unincorporated business tax (“UBT”), net of credits for UBT paid by AB, and to a 3.5% federal tax on partnership gross income from the active conduct of a trade or business. AB Holding’s partnership gross income is derived from its interest in AB.

AB Holding’s federal income tax is computed by multiplying certain AB qualifying revenues (primarily U.S. investment advisory fees and brokerage commissions) by AB Holding’s ownership interest in AB, multiplied by the 3.5% tax rate. AB Holding Units in AB’s consolidated rabbi trust are not considered outstanding for purposes of calculating AB Holding’s ownership interest in AB.

Effective tax rate	9.5 %	12.0 %			10.5 %	12.2 %	

In order to preserve AB Holding’s status as a “grandfathered” PTP for federal income tax purposes, management ensures that AB Holding does not directly or indirectly (through AB) enter into a substantial new line of business. If AB Holding were to lose its status as a “grandfathered” PTP, it would be subject to corporate income tax, which would reduce materially AB Holding’s net income and its quarterly distributions to AB Holding Unitholders.

8. Commitments and Contingencies

Legal and regulatory matters described below pertain to AB and are included here due to their potential significance to AB Holding's investment in AB.

With respect to all significant litigation matters, we consider the likelihood of a negative outcome. If we determine the likelihood of a negative outcome is probable and the amount of the loss can be reasonably estimated, we record an estimated loss for the expected outcome of the litigation. If the likelihood of a negative outcome is reasonably possible and we are able to determine an estimate of the possible loss or range of loss in excess of amounts already accrued, if any, we disclose that fact together with the estimate of the possible loss or range of loss. However, it is often difficult to predict the outcome or estimate a possible loss or range of loss because litigation is subject to inherent uncertainties, particularly when plaintiffs allege substantial or indeterminate damages. Such is also the case when the litigation is in its early stages or when the litigation is highly complex or broad in scope. In these cases, we disclose that we are unable to predict the outcome or estimate a possible loss or range of loss.

AB may be involved in various matters, including regulatory inquiries, administrative proceedings and litigation, some of which may allege significant damages. It is reasonably possible that AB could incur losses pertaining to these matters, but management cannot currently estimate any such losses.

Management, after consultation with legal counsel, currently believes that the outcome of any individual matter that is pending or threatened, or all of them combined, will not have a material adverse effect on our results of operations, financial condition or liquidity. However, any inquiry, proceeding or litigation has an element of uncertainty; management cannot determine whether further developments relating to any individual matter that is pending or threatened, or all of them combined, will have a material adverse effect on our results of operations, financial condition or liquidity in any future reporting period.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

AB Holding's principal source of income and cash flow is attributable to its investment in AB Units. AB Holding's interim condensed financial statements and notes and management's discussion and analysis of financial condition and results of operations ("MD&A") should be read in conjunction with those of AB included as an exhibit to this Form 10-Q. They also should be read in conjunction with AB's audited financial statements and notes and MD&A included in AB Holding's Form 10-K for the year ended December 31, 2017.

Income taxes	6,902	5,877	17.4	21,371	17,839	19.8
Net income of AB Holding	\$65,900	\$43,178	52.6	\$182,517	\$128,829	41.7
Diluted net income per AB Holding Unit	\$0.68	\$0.46	47.8	\$1.87	\$1.35	38.5
Distribution per AB Holding Unit ⁽¹⁾	\$0.69	\$0.51	35.3	\$2.04	\$1.46	39.7

⁽¹⁾ Distributions reflect the impact of AB's non-GAAP adjustments.

Net income for the three and nine months ended September 30, 2018 increased \$22.7 million and \$53.7 million, respectively, due to higher net income attributable to AB Unitholders and a higher weighted average equity ownership interest.

AB Holding's partnership gross income is derived from its interest in AB. AB Holding's income taxes, which reflect a 3.5% federal tax on its partnership gross income from the active conduct of a trade or business, are computed by multiplying certain AB qualifying revenues (primarily U.S. investment advisory fees and brokerage commissions) by AB Holding's ownership interest in AB, multiplied by the 3.5% tax rate. AB Holding's effective tax rate was 9.5% in the third quarter of 2018 compared to 12.0% during the third quarter of 2017. AB Holding's effective tax rate during the nine months ended September 30, 2018 was 10.5% compared to 12.2% during the nine months ended September 30, 2017. See Note 7 to the condensed financial statements contained in Item 1 for the calculation of income tax expense.

Management Operating Metrics

As supplemental information, AB provides the performance measures "adjusted net revenues", "adjusted operating income" and "adjusted operating margin", which are the principal metrics management uses in evaluating and comparing the period-to-period operating performance of AB. Management principally uses these metrics in evaluating performance because they present a clearer picture of AB's operating performance and allow management to see long-term trends without the distortion primarily caused by long-term incentive compensation-related mark-to-market adjustments, real estate consolidation charges and other adjustment items. Similarly, management believes that these management operating metrics help investors better understand the underlying trends in AB's results and, accordingly,

provide a valuable perspective for investors. Such measures are not based on generally accepted accounting principles (“non-GAAP measures”). These non-GAAP measures are provided in addition to, and not as substitutes for, net revenues, operating income and operating margin, and they may not be comparable to non-GAAP measures presented by other companies. Management uses both GAAP and non-GAAP measures in evaluating the company’s financial performance. The non-GAAP measures alone may pose limitations because they do not include all of AB’s revenues and expenses. Further, adjusted diluted net income per AB Holding Unit is not a liquidity measure and should not be used in place of cash flow measures. See AB’s MD&A contained in Exhibit 99.1.

Index

The impact of these adjustments on AB Holding's net income and diluted net income per AB Holding Unit is as follows:

	Three Months Ended September 30, 2018		September 30, 2017		Nine Months Ended September 30, 2018		September 30, 2017	

Management believes that AB Holding will have the resources it needs to meet its financial obligations as a result of the cash flow AB Holding realizes from its investment in AB.

CAUTIONS REGARDING FORWARD-LOOKING STATEMENTS

Certain statements provided by management in this report and in the portion of AB's Form 10-Q attached hereto as Exhibit 99.1 are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results to differ materially from future results expressed or implied by such forward-looking statements. The most significant of these factors include, but are not limited to, the following: the performance of financial markets, the investment performance of sponsored investment products and separately-managed accounts, general economic conditions, industry trends, future acquisitions, integration of acquired companies, competitive conditions and government regulations, including changes in tax regulations and rates and the manner in which the earnings of publicly-traded partnerships are taxed. We caution readers to carefully consider such factors. Further, these forward-looking statements speak only as of the date on which such statements are made; we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date of such statements. For further information regarding these forward-looking statements and the factors that could cause actual results to differ, see "Risk Factors" in Part I, Item 1A of our Form 10-K for the year ended December 31, 2017 and Part II, Item 1A in this Form 10-Q. Any or all of the forward-looking statements that we make in our Form 10-K, this Form 10-Q, other documents we file with or furnish to the SEC, and any other public statements we issue, may turn out to be wrong. It is important to remember that other factors besides those listed in "Risk Factors" and those listed below could also adversely impact our revenues, financial condition, results of operations and business prospects.

The forward-looking statements referred to in the preceding paragraph, most of which directly affect AB but also affect AB Holding because AB Holding's principal source of income and cash flow is attributable to its investment in AB, include statements regarding:

Our belief that the cash flow AB Holding realizes from its investment in AB will provide AB Holding with the resources it needs to meet its financial obligations: AB Holding's cash flow is dependent on the quarterly cash distributions it receives from AB. Accordingly, AB Holding's ability to meet its financial obligations is dependent on AB's cash flow from its operations, which is subject to the performance of the capital markets and other factors beyond our control.

Our financial condition and ability to access the public and private capital markets providing adequate liquidity for our general business needs: Our financial condition is dependent on our cash flow from operations, which is subject to the performance of the capital markets, our ability to maintain and grow client assets under management and other factors beyond our control. Our ability to access public and private capital markets on reasonable terms may be limited by adverse market conditions, our firm's credit ratings, our profitability and changes in government regulations, including tax rates and interest rates.

The outcome of litigation: Litigation is inherently unpredictable, and excessive damage awards do occur. Though we have stated that we do not expect any pending legal proceedings to have a material adverse effect on our results of operations, financial condition or liquidity, any settlement or judgment with respect to a pending or future legal proceeding could be significant, and could have such an effect.

The possibility that we will engage in open market purchases of AB Holding Units to help fund anticipated obligations under our incentive compensation award program: The number of AB Holding Units AB may decide to buy in future periods, if any, to help fund incentive compensation awards depends on various factors, some of which

are beyond our control, including the fluctuation in the price of an AB Holding Unit (NYSE: AB) and the availability of cash to make these purchases.

Our determination that adjusted employee compensation expense should not exceed 50% of our adjusted net revenues: Aggregate employee compensation reflects employee performance and competitive compensation levels. Fluctuations in our revenues and/or changes in competitive compensation levels could result in adjusted employee compensation expense exceeding 50% of our adjusted net revenues.

Our Relocation Strategy: While the expenses, expense savings and EPU impact we expect will result from our Relocation Strategy are presented with numerical specificity, and we believe these figures to be reasonable as of the date of this report, the uncertainties surrounding the assumptions on which our estimates are based create a significant risk that our current estimates may not be realized. These assumptions include:

Index

the amount and timing of employee relocation costs, severance and overlapping compensation and occupancy costs we experience; and

the timing for execution of each phase of our relocation implementation plan.

Our 2020 Margin Target: While our 2020 Margin Target is presented with numerical specificity, and we believe the target to be reasonable as of the date of this report, the uncertainties surrounding the assumptions on which the 2020 Margin Target is based create a significant risk that these assumptions may not be realized. These assumptions include:

the levels of positive net flows into our investment services;

the level of growth (in terms of additional AUM) in our alternatives product business;

the rate of increase in our fixed costs due to inflation and similar factors, the transitional costs related to our relocation strategy and the timing of such costs, the success we have in achieving planned new cost reductions (including those relating to our relocation strategy) and the timing of such cost reductions, and the investments we make in our business; and

general conditions of the markets in which our business operates, including modest appreciation in both equity and fixed income total investment returns.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in AB Holding's market risk from the information provided under "Quantitative and Qualitative Disclosures About Market Risk" in Part II, Item 7A of AB Holding's Form 10-K for the year ended December 31, 2017.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Each of AB Holding and AB maintains a system of disclosure controls and procedures that is designed to ensure that information required to be disclosed in our reports under the Exchange Act is (i) recorded, processed, summarized and reported in a timely manner, and (ii) accumulated and communicated to management, including the Chief Executive Officer ("CEO") and the Chief Financial Officer ("CFO"), to permit timely decisions regarding our disclosure.

As of the end of the period covered by this report, management carried out an evaluation, under the supervision and with the participation of the CEO and the CFO, of the effectiveness of the design and operation of the disclosure controls and procedures. Based on this evaluation, the CEO and the CFO concluded that the disclosure controls and procedures are effective.

Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting occurred during the third quarter of 2018 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

OTHER INFORMATION

Item 1. Legal Proceedings

See Note 8 to the condensed financial statements contained in Part I, Item 1.

Item 1A. Risk Factors

In AB Holding's 10-K for the year ended December 31, 2017, we indicated that AB's revenues and results of operations depend on the market value and composition of AB's AUM, which can fluctuate significantly based on various factors. We then described these factors, one of which, market factors, has evolved significantly during October 2018.

Market volatility has accelerated significantly during October 2018, and has accelerated during October, resulting from increasing concerns about global trade wars, the slowing pace of global growth, inflation and more aggressive monetary policy in the U.S. These factors may adversely impact the global economy and the capital markets, as a result of which AB's AUM and revenues would be expected to decline.

Otherwise, there have been no material changes in our risk factors from those disclosed in AB Holding's Form 10-K for the year ended December 31, 2017.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no AB Holding Units sold by AB Holding in the period covered by this report that were not registered under the Securities Act.

Each quarter, since the third quarter of 2011, AB has implemented plans to repurchase AB Holding Units pursuant to Rules 10b5-1 and 10b-18 under the Exchange Act. The plan adopted during the third quarter of 2018 expired at the close of business on October 22, 2018. AB may adopt additional plans in the future to engage in open-market purchases of AB Holding Units to help fund anticipated obligations under the firm's incentive compensation award program and for other corporate purposes. See Note 3 to the condensed financial statements contained in Part 1, Item 1.

Item 5. Other Information

Iran Threat Reduction and Syria Human Rights Act

AB, AB Holding and their global subsidiaries had no transactions or activities requiring disclosure under the Iran Threat Reduction and Syria Human Rights Act (“Iran Act”), nor were they involved in the AXA Group matters described immediately below.

The non-U.S. based subsidiaries of AXA operate in compliance with applicable laws and regulations of the various jurisdictions in which they operate, including applicable international (United Nations and European Union) laws and regulations. While AXA Group companies based and operating outside the United States generally are not subject to U.S. law, as an international group, AXA has in place policies and standards (including the AXA Group International Sanctions Policy) that apply to all AXA Group companies worldwide and often impose requirements that go well beyond local law. For additional information regarding AXA, see Note 1 to the condensed financial statements in Part 1, Item 1.

AXA has informed us that AXA Konzern AG, an AXA insurance subsidiary organized under the laws of Germany, provides, accident and health insurance to diplomats based at the Iranian embassy in Berlin, Germany. The total annual premium of these policies is approximately \$139,700 before tax and the annual net profit arising from these policies, which is difficult to calculate with precision, is estimated to be \$24,272.

AXA has informed us that AXA Belgium, an AXA insurance subsidiary organized under the laws of Belgium, has two policies providing for car insurance for Global Trading NV, who were designated on 17th May 2018 under (E.O.) 13224, and subsequently changed its name to Energy Engineers Procurement & Construction on August 20, 2018. The total annual premium of these policies is approximately \$6,559 before tax and the annual net profit arising from these policies, which is difficult to calculate with precision, is estimated to be \$983.

Index

In addition, AXA has informed us that AXA Insurance Ireland, an AXA insurance subsidiary, provides statutorily required car insurance under four separate policies to the Iranian Embassy in Dublin, Ireland. AXA has informed us that compliance with the Declined Cases Agreement of the Irish Government prohibits the cancellation of these policies unless another insurer is willing to assume the coverage. The total annual premium for these policies is approximately \$7,115 and the annual net profit arising from these policies, which is difficult to calculate with precision, is estimated to be \$853.

Also, AXA has informed us that AXA Sigorta, a subsidiary of AXA organized under the laws of Republic of Turkey, provides car insurance coverage for vehicle pools of the Iranian General Consulate and the Iranian Embassy in Istanbul, Turkey. Motor third party liability insurance coverage is compulsory in Turkey and cannot be canceled unilaterally. The total annual premium in respect of these policies is approximately \$3,150 and the annual net profit, which is difficult to calculate with precision, is estimated to be \$473.

Additionally, AXA has informed us that AXA Winterthur, an AXA insurance subsidiary organized under the laws of Switzerland, provides Naftiran Intertrade, a wholly-owned subsidiary of the Iranian state-owned National Iranian Oil Company, with life, disability and accident coverage for its employees. In addition, AXA Winterthur also provides car and property insurance coverage for the Iranian Embassy in Bern. The provision of these forms of coverage is mandatory in Switzerland. The total annual premium of these policies is approximately \$396,597 and the annual net profit arising from these policies, which is difficult to calculate with precision, is estimated to be \$59,489.

In addition, AXA has informed us that AXA Egypt, an AXA insurance subsidiary organized under the laws of Egypt, provides the Iranian state-owned Iran Development Bank two life insurance contracts, covering individuals who have loans with the bank. The total annual premium of these policies is approximately \$19,839 and annual net profit arising from these policies, which is difficult to calculate with precision, is estimated to be \$2,000.

Furthermore, AXA has informed us that AXA XL, which AXA acquired during the third quarter of 2018, through various non-U.S. subsidiaries, provides insurance to marine policyholders located outside of the U.S. or reinsurance coverage to non-U.S. insurers of marine risks as well as mutual associations of ship owners that provide their members with protection and liability coverage. The provision of these coverages may involve entities or activities related to Iran, including transporting crude oil, petrochemicals and refined petroleum products. AXA XL's non-U.S. subsidiaries insure or reinsure multiple voyages and fleets containing multiple ships, so they are unable to attribute gross revenues and net profits from such marine policies to activities with Iran. As the activities of these insureds and reinsureds are permitted under applicable laws and regulations, AXA XL intends for its non-U.S. subsidiaries to continue providing such coverage to its insureds and reinsureds to the extent permitted by applicable law.

Lastly, a non-U.S. subsidiary of AXA XL provided accident & health insurance coverage to the diplomatic personnel of the Embassy of Iran in Brussels, Belgium during the third quarter of 2018. AXA XL's non-U.S. subsidiary received no payments for this insurance during the three months ended September 30, 2018 and the aggregate payments received by this non-U.S. subsidiary for this insurance from inception through the three months ended September 30, 2018 are approximately \$73,451. Benefits of approximately \$2,994 were paid to beneficiaries during the three months ended September 30, 2018. These activities are permitted pursuant to applicable law. The policy has been cancelled and is no longer in force.

The aggregate annual premium for the above-referenced insurance policies is approximately \$646,411, representing approximately 0.0007% of AXA's 2017 consolidated revenues, which exceed \$100 billion. The related net profit, which is difficult to calculate with precision, is estimated to be \$88,070, representing approximately 0.002% of AXA's 2017 aggregate net profit.
