News Release

Wednesday, 13 November, 2002

Coles Myer first quarter sales up 7.3%

- Q1 2003 sales up 7.3%
- Solid growth in Food and Liquor
- Target and Kmart gain simultaneous momentum
- MGB rebuild continues

- Strong Q1 earnings improvement
 - EBIT margins up across Food & Liquor and all GM&A brands
- Effect of shareholder discount reduction within expectations

Coles Myer Ltd (CML) announced first quarter sales of \$6.3 billion, an increase of 7.3% for the 13-week quarter ended 27 October 2002.

CML CEO, John Fletcher, said the Food & Liquor division had delivered a solid sales increase of 7.3% in a very competitive environment. Sales in General Merchandise and Apparel (GM&A) were up 6.6%, with Target and Kmart continuing to simultaneously gain momentum.

CML's comparable store sales rose by 4.2% on last year.

The effect on sales of the first reduction in shareholder discount rates, which were introduced on 31 July, has been within expectations.

Food & Liquor

- Sales up 7.3% in an aggressive promotional environment
- Market share gains
- EBIT margins continue to improve year on year
- Store expansion plans on track

Alan Williams, Chief Operating Officer, Food & Liquor, said sales growth in the division was in line with our expectations in the current competitive market.

"Despite intensifying competition across all businesses during the quarter, we continued to grow market share," Mr Williams said.

"Top line growth includes the effect of both the current competitive promotional environment and the first reduction in shareholder discount rates, which has been marginally lower than anticipated. We continue our strategy of reinvesting the savings into driving improved value for all customers.

"Our customers have responded well to our promotional offer however the aggressive use of petrol promotions by our major competitor has affected the rate of our sales growth. We are well down the track of reviewing a fuel offer for the Food & Liquor businesses, with a decision anticipated prior to Christmas."

Mr Williams said the FY2003 store expansion program was on schedule, with the majority of the projected 34 new and 10 acquisition supermarkets, along with 40 liquor store openings to occur during the second half of the year.

"This quarter we opened six new supermarkets, plus five acquisition supermarkets, and five liquor stores.

"EBIT margins continue to improve year on year, as a result of our ongoing initiatives to improve the quality of our earnings.

"Sales growth will strengthen in the second half due to the contribution of additional new stores. Top line growth for the year is forecast to be in the high single digits in line with strategy.

"We continue our strategy of delivering a balanced approach between sales growth, market share gains and margin improvement."

General Merchandise & Apparel (GM&A)

- Sales up 6.6%
- Continuing progress in Target and Kmart
- Rebuild underway at MGB
- EBIT margin improvement in all brands

The General Merchandise and Apparel (GM&A) Group includes Target, Kmart, Myer Grace Bros (MGB), Megamart and Officeworks.

Warren Flick, Chief Operating Officer, GM&A, said sales and margins in Target and Kmart continued to grow strongly, reflecting the effective consumer positioning of each brand.

Myer Grace Bros sales were slightly lower in the quarter than last year, affected, as anticipated, by the temporary closure for redevelopment of our Bondi store, the permanent closure of a GoodBuy clearance store and the initial reduction in the shareholder discount rate. MGB achieved good margin improvement during the quarter as the brand rebuild develops.

"Inventory management continued to improve as stockturns increased by approximately 10% across GM&A brands.

"The strategic plan for the GM&A Group calls for mid-single digit sales growth and strong EBIT margin expansion over the year. The trend this quarter reflects that improvement in quality."

Target

lifted sales by 12.1% for the quarter.

"New ranges in womenswear, childrenswear, manchester, intimate apparel and footwear are performing well. Home and entertainment sales are improving with new assortments being well received by customers," Mr Flick said.

"Our focus remains on delivering on-trend, high quality ranges and achieving rapid sell-through within each season.

"We are very pleased with the customer reaction to this direction, especially our revamped catalogues with an increased emphasis on items versus total departmental percentage off sales," Mr Flick said.

Kmart

sales, including Officeworks, increased by 9.4%.

"Kmart performed strongly, particularly in the areas of entertainment, books, cosmetics and consumables.

"Our promotional activity continues to focus on item and price, while the trend to regular price merchandise has intensified and underscores the successful repositioning of the brand. Customers are responding well to our lowest price guarantee positioning.

"Late in the first quarter four new stores were opened, including two new Kmart stores, one Kmart Tyre and Auto store and a Garden Supercentre. A further six new stores will open in FY03, including two new Kmart stores, one Kmart Tyre and Auto store and three Garden Supercentres."

Officeworks

continues to show strong improvement with an on-going focus on range, price, cost controls and new store roll-outs.

Myer Grace Bros

and **Megamart** combined sales were down slightly, but EBIT margins improved in line with our expectations.

"The work to rebuild MGB and return the brand to its heritage as Australia's leading department store is underway," Mr Flick said.

"Our priority is to return to a traditional department store focus, building our range of national, international and private brands which will be supported by a comprehensive new marketing program. Our strategy includes a promotional and events driven program, which will be balanced with gift-giving occasions such as Christmas and fashion themed events.

"While we are encouraged by customer response to our improved offer, this will be our first Christmas under the turnaround strategy. Further enhancements to product ranges, service quality and store environments will continue through 2003.

"Megamart opened its first store in Sydney during the quarter to a very positive response from customers. We have plans to open two additional stores nationally by the end of FY03."

Emerging Businesses

Sales in the Emerging Businesses division (formerly known as e.colesmyer) increased by 44% to \$61 million, led by strong growth in Harris Technology.

Mr Fletcher said Emerging Businesses continued to deliver valuable learnings in the evolution of new business channels, technologies and ideas.

Earnings update

Mr Fletcher said the company achieved a strong earnings improvement in the first quarter, in line with our expectations. Importantly, EBIT margins improved across Food & Liquor and all GM&A brands.

Full year earnings guidance will be given at the Annual General Meeting on 20 November 2002.
