Item 5. Other Events and Regulation FD Disclosure

The following information was derived from a press release of The St. Paul Companies, Inc. dated July 16, 2001:

The St. Paul Companies announced that its second-quarter operating earnings per share will be in the range of \$0.35 to \$0.40, which is lower than expected. Losses from Tropical Storm Allison are currently expected to be approximately \$50 million pretax, or \$0.14 per share after-tax, with total second-quarter pretax catastrophes losses reaching about \$70 million, or \$0.20 per share after-tax.

Continued deterioration in the Health Care segment for the accident years 1997 through 1999 will also contribute to lower than expected second-quarter operating earnings. The company currently expects to record a pretax increase in reserves for these three accident years totaling \$100 million, or \$0.29 per share after tax.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
