ITEM 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On April 20, 2011, Boston Scientific Corporation issued a press release announcing financial results for the first quarter ended March 31, 2011. A copy of the release is furnished with this report as Exhibit 99.1.

The information in this Current Report on Form 8-K and Exhibit 99.1 shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934 (the “Exchange Act”) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, regardless of any general incorporation language in such filing.

ITEM 2.06. MATERIAL IMPAIRMENTS

On April 19, 2011, we concluded that we were required to record a goodwill impairment charge related to our U.S. Cardiac Rhythm Management (CRM) reporting unit in our results of operations for the first quarter ended March 31, 2011. Based on market information that became available to us during the quarter, we concluded that there was a reduction in the estimated size of the U.S. CRM market, which led to lower projected U.S. CRM results compared to prior forecasts and created an indication of potential impairment of our goodwill balance. Consequently, we performed an interim impairment test of our goodwill associated with the U.S. CRM reporting unit and recorded a \$723 million estimated write-down of goodwill. The amount of the goodwill impairment charge is subject to finalization and is estimated to range between \$650 million and \$800 million. This non-cash impairment charge will not affect the debt covenants under our existing term loan and revolving credit facility agreements.
