NOTES TO FINANCIAL STATEMENTS — (Unaudited)

1. *Significant Accounting Policies* — Central Securities Corporation (the “Corporation”) is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end management investment company. The following is a summary of the significant accounting policies consistently followed by the Corporation in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles.

Security Valuation — Marketable common and preferred stocks are valued at the last or closing sale price or, if unavailable, at the closing bid price. Investments in money market funds are valued at net asset value per share. Securities for which no ready market exists are valued at estimated fair value pursuant to procedures adopted by the Board of Directors. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the price used by other investors or the price that may be realized upon the actual sale of the security.

Federal Income Taxes — It is the Corporation’s policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income and net capital gains to its stockholders. Management has analyzed positions taken on the Corporation’s tax returns and has determined that no provision for income taxes is required in the accompanying financial statements.

Use of Estimates — The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported. Actual results may differ from those estimates.

Other — Security transactions are accounted for as of the trade date, and cost of securities sold is determined by specific identification. Dividend income and distributions to stockholders are recorded on the ex-dividend date.

2. *Fair Value Measurements* — The Corporation’s investments are categorized below in three broad hierarchical levels based on market price observability as follows:

Level 1 — Quoted prices in active markets for identical investments;

Level 2 — Other significant observable inputs obtained from independent sources, for example, quoted prices in inactive markets for identical investments or other valuation methodologies;

Level 3 — Significant unobservable inputs including the Corporation’s own assumptions based upon the best information available. The Corporation’s only Level 3 investment is The Plymouth Rock Company, Inc. (“Plymouth Rock”) Class A Common Stock.

The designated level for a security is not necessarily an indication of the risk associated with investing in that security.

The Corporation's investments as of June 30, 2015 are classified as follows:

	Level 1	Level 2	Level 3	Total Value
Common stocks	\$445,212,354	—	\$132,532,400	\$577,744,754
Preferred stocks	—	\$958,469	—	958,469
Short-term investments	46,916,944	—	—	46,916,944
Total	\$492,129,298	\$958,469	\$132,532,400	\$625,620,167

Any security that does not actively trade in public markets will be classified as Level 2 if the Corporation determines that the most recent quoted price is representative of the fair value of the security; otherwise it will be classified as Level 3. The Corporation's investment in GeoMet, Inc. Series A Preferred Stock was classified as Level 1 on December 31, 2014 when its market was considered active. It was classified as Level 2 on June 30, 2015 as its market is no longer considered active.

The following is a reconciliation of the change in the value of Level 3 investments:

Balance as of December 31, 2014	\$132,532,400
Net realized gains and change in net unrealized appreciation of investments included in net decrease in net assets resulting from operations	—
Sales	—
Balance as of June 30, 2015	\$132,532,400

Unrealized appreciation of Level 3 investments held at June 30, 2015 was unchanged during the six months ended June 30, 2015.

In valuing the Plymouth Rock Level 3 investment as of June 30, 2015, management used a number of significant unobservable inputs to develop a range of possible values for the investment. It used a comparable company approach that utilized the following valuation multiples from selected publicly traded companies: price-to-book value (range: 0.5–2.2); price-to-earnings (range: 11.4–26.5); and price-to-revenue (range: 0.6–2.3). Management also used a discounted cash flow model based on a forecasted return on equity rate ranging from 8%–9% and a weighted average cost of capital of 10%. An independent valuation of Plymouth Rock's shares was also considered. The value obtained from weighting the three methods described above (with greater weight given to the comparable company approach) were then discounted by 15% and 35% for the lack of marketability, which represents the range of rates management believes market participants would apply. The resulting range of values, together with the underlying support, other information about Plymouth Rock's financial condition and results of operations, its corporate governance, the insurance industry outlook, and transactions in Plymouth Rock's shares were considered by management, which recommended a value for the investment. All of this information was subsequently considered by the Corporation's directors, who selected the value.

NOTES TO FINANCIAL STATEMENTS — continued (unaudited)

Significant increases (decreases) in the price-to-book value multiple, price-to-earnings multiple, price-to-revenue multiple and return on equity rate in isolation would result in a higher (lower) range of fair value measurements. Significant increases (decreases) in the discount for lack of marketability or weighted average cost of capital in isolation would result in a lower (higher) range of fair value measurements.

3. *Common Stock Purchases* — The Corporation may from time to time purchase its Common Stock in such amounts and at such prices as the Board of Directors may deem advisable in the best interests of the stockholders. Purchases will only be made at less than net asset value per share, thereby increasing the net asset value of shares held by the remaining stockholders. Shares so acquired may be held as treasury stock available for stock distributions, or may be retired. During the six months ended June 30, 2015, the Corporation purchased 511,410 shares as treasury stock at an average price of \$21.79 per share representing an average discount from net asset value of 16.7%.

4. *Investment Transactions* — The aggregate cost of securities purchased and the aggregate proceeds of securities sold during the six months ended June 30, 2015, excluding short-term investments, were \$103,083,239 and \$109,494,343, respectively.

As of June 30, 2015, based on cost for Federal income tax purposes, the aggregate gross unrealized appreciation and depreciation for all securities were \$278,746,817 and \$29,383,130, respectively.

5. *Affiliated Companies* — Plymouth Rock is an affiliated company as defined in the Investment Company Act of 1940 due to the Corporation's ownership of 5% or more of Plymouth Rock's outstanding voting securities. The President of the Corporation is a director of Plymouth Rock.

6. *Restricted Securities* — The Corporation may from time to time invest in securities the resale of which is restricted. On June 30, 2015, the Corporation's restricted securities consisted of 34,424 shares of Plymouth Rock that were acquired on December 15, 1982 at a cost of \$860,600. These securities had a value of \$132,532,400 at June 30, 2015, which was equal to 21.2% of the Corporation's net assets. The Corporation does not have the right to demand registration of this investment.

7. *Bank Line of Credit* — The Corporation has entered into a \$25 million uncommitted, secured revolving line of credit with UMB Bank, n.a. ("UMB"), the Corporation's custodian. All borrowings are payable on demand of UMB. Interest on any borrowings is payable monthly at a rate based on the federal funds rate, subject to a minimum annual rate of 2.50%. No borrowings were made during the six months ended June 30, 2015.

NOTES TO FINANCIAL STATEMENTS — continued (unaudited)

8. *Compensation and Benefit Plans* — The aggregate remuneration paid to all officers during the six months ended June 30, 2015 was \$975,000. This amount represents the taxable income to these officers and therefore differs from the amounts included in the accompanying Statement of Operations that are expensed in accordance with generally accepted accounting principles.

Officers and other employees participate in a 401(k) and profit sharing plan. The Corporation has agreed to contribute 3% of each participant's qualifying compensation to the plan, which is immediately vested. Contributions in excess of 3% may be made at the discretion of the Board of Directors and vest after three years of service. During the six months ended June 30, 2015, the Corporation accrued \$95,080 related to the plan.

The Corporation maintains an incentive compensation plan (the "2012 Plan") which permits the grant of awards of unrestricted stock, restricted stock, restricted stock units and cash to full-time employees and non-employee directors of the Corporation. The 2012 Plan provides for the issuance of up to 1,000,000 shares of the Corporation's Common Stock over the ten-year life of the 2012 Plan, of which 970,805 remain available for future grants at June 30, 2015. The 2012 Plan limits the amount of shares that can be awarded to any one person in total or within a certain time period. Any award made under the 2012 Plan may be subject to performance conditions. The 2012 Plan is administered by the Corporation's Compensation and Nominating Committee (the "Committee").

Pursuant to the terms of the 2012 Plan, each non-employee director is awarded 500 shares of vested unrestricted Common Stock at his initial election to the Board of Directors or at his continuation of service as a director after the Corporation's annual meeting. During the six months ended June 30, 2015, non-employee directors were granted a total of 3,000 shares of Common Stock valued at \$22.27 per share, which was the average of the high and low prices of the Corporation's Common Stock on the grant date. The aggregate share value of \$66,810 plus cash payments of \$78,750 made to all non-employee directors are included in Directors' Fees expense in the accompanying Statement of Operations.

On July 23, 2014, the Corporation granted a performance-based award to an officer. Achievement of this award was based on the Corporation satisfying at least one of three performance goals determined by the Committee over the period from July 1, 2014 through June 30, 2015 (the "2015 Performance Period"). Two of the performance goals were based on the Corporation's absolute and relative investment performance and the third was based on its ratio of expenses to average net assets. The maximum amount payable that could have been paid under this grant is \$1,000,000, of which a maximum of one-third of this amount relates to each performance goal. The Committee had full discretion to reduce the amount awarded for the achievement of any of the performance goals to zero. For the 2015 Performance Period, the Corporation satisfied one of the performance goals. On July 23, 2015, the Committee awarded the officer \$204,250, of which half will be paid through the issuance of shares of Common Stock of the Corporation valued at \$21.11 per share and the balance will be paid in cash. The total award amount was accrued ratably during the 2015 Performance Period.

9. *Operating Lease Commitment* — The Corporation has an operating lease for office space that expires at June 30, 2019. Future minimum rental commitments under the lease at June 30, 2015 aggregate \$1.5 million as follows: \$187,442 in 2015, \$374,884 annually in 2016 – 2018 and \$187,442 in 2019. The lease agreement contains escalation clauses relating to operating costs and real property taxes. The landlord may terminate the lease with one-year's notice, in which case the Corporation's rental commitment would end as of the termination date.

FINANCIAL HIGHLIGHTS

The following table shows per share operating performance data, total returns, ratios and supplemental data for the six months ended June 30, 2015 and each year in the five-year period ended December 31, 2014. This information has been derived from information contained in the financial statements and market price data for the Corporation's shares.

The Corporation's total returns reflect changes in market price or net asset value, as applicable, and assume reinvestment of all distributions. Distributions that are payable only in cash are assumed to be reinvested at the market price or net asset value, as applicable, on the payable date of the distribution. Distributions that may be taken in shares are assumed to be reinvested at the price designated by the Corporation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders of Central Securities Corporation

We have reviewed the accompanying statement of assets and liabilities, including the statement of investments, of Central Securities Corporation as of June 30, 2015, and the related statements of operations, changes in net assets, cash flows and financial highlights for the six-month period ended June 30, 2015. These interim financial statements and financial highlights are the responsibility of Central Securities Corporation's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements and financial highlights referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of changes in net assets for the year ended December 31, 2014 and financial highlights for each of the years in the five-year period ended December 31, 2014, and in our report, dated January 30, 2015, we expressed an unqualified opinion on such statement of changes in net assets and financial highlights.
