DANIEL GREEN COMPANY
Notes to Consolidated Financial Statements

Note 1.

In the opinion of the Company, the accompanying unaudited consolidated financial statements contain adjustments, all of which are of a normal and recurring nature, necessary to present fairly the financial position as of September 30, 2001 and the results of operations and cash flows for the three and nine months then ended. The results of operations for the nine months ended September 30, 2001 are not necessarily indicative of the results to be expected for the full year.

Note 2.

The accounting policies used in preparing these statements are the same as those used in preparing the Company's consolidated financial statements for the year ended December 31, 2000. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's annual report to stockholders for the year ended December 31, 2000.

Note 3.

Due to severe global competition, the Company ceased domestic manufacturing and transitioned to a fully sourced importer during 1999. At the same time, several acquisition opportunities were aggressively evaluated and pursued. This activity resulted in acquiring certain assets of one of the Company's largest competitors, L. B. Evans and Son Company Limited Partnership ("Evans") on February 3, 2000. In addition, the Company purchased all of the outstanding

Edgar Filing: GREEN DANIEL CO - Form 10-Q

shares of Penobscot Shoe Company ("Penobscot") from Riedman Corporation on March 30, 2000. Penobscot Shoe Company has been making women's footwear for over 60 years and is based in Old Town, Maine. Since a significantly more modern distribution facility, with excess capacity came with the Penobscot acquisition, it was decided that relocating the Daniel Green operation to Maine would provide the most efficient and effective platform for optimizing the synergies from the three businesses. During May 2000, and pursuant to a public announcement made by the Company on March 30, 2000, the Company's headquarters and distribution operation previously located in Dolgeville, New York were relocated to, and consolidated with, the newly acquired operations in Old Town, Maine.

The acquisition of Penobscot has been accounted for under the purchase method of accounting and, accordingly, the operation results of Penobscot have been included in the Company's consolidated financial statements since the date of acquisition.

7

The following summary presents unaudited proforma consolidated results of operations as if the acquisition had occurred at the beginning of 2000, and includes adjustments for estimated amounts of goodwill amortization, depreciation of fixed assets acquired based on their estimated fair values, and increased interest expense assuming the purchase consideration had resulted in additional borrowing during the period presented. The pro forma results are for illustrative purposes only, and do not purport to be indicative of the actual results which would have occurred had the transaction been consummated as of the earlier dates, nor are they indicative of results of operations which may occur in the future. The results do not reflect synergies.

Nine Months Ended September 30, 2000

In thousands, except per share amounts (unaudited)	
Net Sales	\$25,260
Net Loss	\$ 1,648
Net Loss per Common Share	\$ 1.05

Note 4.

Effective January 1, 2001, the Company adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 133, "Accounting for Derivative Instruments and Hedging Activities" as amended by SFAS No. 138, "Accounting for Derivative Instruments and Certain Hedging Activities." These standards require the Company to recognize all derivatives as either assets or liabilities at fair value in its balance sheet. The accounting changes in the fair value of a derivative depends on the use of the derivative. To the extent that a derivative is effective as a hedge of a future exposure to changes in value, the fair value of the derivative is deferred in other comprehensive income. Any portion considered to be ineffective is reported in the statement of operations immediately.

The adoption of these standards did not have a material impact on the Company's financial statements and therefore, a transition adjustment is not separately presented.

The Financial Accounting Standards Board issued SFAS No. 141, "Business Combinations", and SFAS No. 142, "Goodwill and Other Intangible Assets". These statements make significant changes to the accounting for business combinations, goodwill and intangible assets. SFAS No. 141 eliminates the pooling-of-interests method of accounting for business combinations with limited exceptions for

Edgar Filing: GREEN DANIEL CO - Form 10-Q

combinations initiated prior to July 1, 2001. In addition, it further clarifies the criteria for recognition of intangible assets separately from goodwill. This statement is effective for business combinations completed after June 30, 2001.

8

SFAS No. 142 discontinues the practice of amortizing goodwill and indefinite-lived intangible assets and initiates an annual review for impairment. Impairment would be examined more frequently if certain indicators are encountered. Intangible assets with a determinable useful life will continue to be amortized over their useful lives. SFAS No. 142 applies to goodwill and intangible assets acquired after June 30, 2001. Goodwill and intangible assets existing prior to July 1, 2001 will be affected when the Company adopts the statement. SFAS No. 142 is effective for fiscal years beginning after December 15, 2001. The Company is evaluating the impact of the adoption of these standards and has not yet determined the effect of adoption on its financial position and results of operations.

Note 5.

During the quarter ended June 30, 2001, the Company completed the termination of its defined benefit pension plan. On the date of the termination, the Company received cash totaling \$2,377,600, which was less than the carrying value of the prepaid pension cost asset of \$3,734,670, resulting in a loss of \$1,357,070. This loss was increased by an excise tax totaling \$356,640, which resulted in a total loss on this transaction totaling \$1,713,710. This amount is included in other expense in the 2001 statement of operations.

During the second quarter ended June 30, 2001 and the third quarter ended September 30, 2001, following the termination of its defined benefit pension plan, the Company contributed cash of \$2,015,000 to the Company's 401(k) savings plan ("the Plan"). Subsequently, in June 2001 the Plan acquired 391,297 shares of the Company's common stock at a price per share of \$5.15, which was based on an independent appraisal. There were no allocated shares as of September 30, 2001. The unallocated shares in the Plan have been classified as treasury stock in stockholders' equity. Compensation expense will be recognized as the shares are allocated to the participants, which is expected to occur over a seven-year period.

9

DANIEL GREEN COMPANY Management Discussion & Analysis of Financial Condition and Results of Operations

1. Liquidity and Capital Resources

At September 30, 2001 the Daniel Green Company had working capital of \$2,971,666 vs. a working capital deficiency of (\$1,607,359) at December 31, 2000.

The consolidated statement of cash flows for the nine months ended September 30, 2001 shows an increase of cash of approximately \$503,113 since December 31, 2000. Net cash provided from operations was \$1,078,451, primarily due to the reduction in accounts receivable from December 31,

Edgar Filing: GREEN DANIEL CO - Form 10-Q

2000. During the nine months ended September 30, 2001 accounts payable trade was reduced by \$2,047,304.

At the end of the third quarter of 2001, total indebtedness was \$20,208,137 which consisted of: line of credit balance, current of \$10,100,365, notes payable, current, of \$7,293,488 (which includes \$750,000 due to a major stockholder), notes payable noncurrent of \$1,008,333, and a liability relating to the dissenting shareholders of Penobscot of \$1,805,951.

The Company has a revolving line of credit ("revolver"), an additional term loan facility in the amount of \$6,000,000, a supplemental loan facility in the amount of \$2,800,000, and an additional bridge loan (amendment to the revolver) of \$2,000,000. The borrowing base for the revolver is based on certain balances of accounts receivable and inventory, as defined in the agreement. The maximum credit amount under the revolver is \$12,500,000, and the interest rate is prime plus .75% (the prime rate was 6.0% at September 30, 2001) and the revolver expires on April 1, 2003. The revolver is secured by accounts receivable, inventory, and equipment. The term loan is payable through April 1, 2003 and is also secured by accounts receivable, inventory and equipment. The supplemental loan facility is available through April 1, 2003. The bridge loan has an expiration date of May 30, 2002. A major stockholder of the Company guarantees these facilities.

The revolver and the term loan agreements contain covenants relative to average borrowed funds to earnings ratio, net income, current ratio, and cash flow coverage. In addition, the payment or declaration of dividends and distributions is prohibited unless a written consent form from the lender is received. On May 31, 2001, the bridge loan was executed, and upon the effective date of this amendment to the revolver, the Bank waived the Company's failure to comply with certain covenants, subject to complying with newly stated covenants.

10

Management is not aware of any known demands, commitments, or events that would materially effect its liquidity. There are no material expenditures or commitments, which would affect capital resources in a significant way. Cash generated by operations, supplemented by borrowings, should cover planned requirements.

2. Results of Operations

Net Sales for the third quarter of 2001 were \$12.9 million compared to \$11.2 million for the same period last year. This year's results represent a 15% increase over the results for last year. The net sales increase is primarily attributable to the Trotters and Softwalk brands, which were part of the Penobscot Shoe Company acquisition, which took place in 2000.

The gross margin in the current quarter was approximately 31%, compared to 36% in the same quarter last year. This reduction is attributable to the increased costs associated with returns and allowances in 2001 over 2000, as well as procurement costs associated with product receipts in the third quarter of 2001, greater than 2000.

Selling, general and administrative expenses as a percentage of net sales were 22% or \$2.8 million for the third quarter of 2001 as compared to 26.3% or \$2.9 million for the same quarter in 2000. The results in 2000 include amounts associated with closing and securing the Company's Dolgeville location and terminated employees' severance packages.

Edgar Filing: GREEN DANIEL CO - Form 10-Q

For the nine months ended September 30, 2001, income before taxes and before other expenses associated with the pension termination referred to in Note 5 was \$1,218,975 as compared to a loss of (\$2,160,746) for the same period in the prior year.

During the third quarter of 2001, interest expense amounted to \$297,910 as compared to \$451,430 for the third quarter of 2000. For the nine months ended September 30, 2001, interest expense amounted to \$1,307,644 compared to \$520,712 for the same period last year.

Given the challenging retail environment and the recent events of the terrorists' attacks on the country, which has had a negative impact on the overall economy, management is pleased with the performance and results primarily as they relate to the Trotters and Softwalk brands. Our order backlog position continues to run ahead of last year's results.
