Date of fiscal year end: May 31

Date of reporting period: June 1, 2014 - November 30, 2014

Item 1. Reports to Stockholders.

The registrant's semi-annual report transmitted to shareholders pursuant to Rule 30e-1 under the Investment Company Act of 1940, as amended (the "Investment Company Act"), is as follows:

GUGGENHEIMINVESTMENTS.COM/GOF

... YOUR WINDOW TO THE LATEST, MOST UP-TO-DATE INFORMATION ABOUT GUGGENHEIM STRATEGIC OPPORTUNITIES FUND

The shareholder report you are reading right now is just the beginning of the story. Online at guggenheiminvestments.com/gof, you will find:

- Daily, weekly and monthly data on share prices, net asset values, distributions and more
 - Portfolio overviews and performance analyses
 - Announcements, press releases and special notices
 - Fund and adviser contact information

Guggenheim Partners Investment Management, LLC and Guggenheim Funds Investment Advisors, LLC are continually updating and expanding shareholder information services on the Fund's website in an ongoing effort to provide you with the most current information about how your Fund's assets are managed and the results of our efforts. It is just one more small way we are working to keep you better informed about your investment in the Fund.

November 30, 2014

DEAR SHAREHOLDER

We thank you for your investment in the Guggenheim Strategic Opportunities Fund (the “Fund”). This report covers the Fund’s performance for the six-month period ended November 30, 2014.

The Fund’s investment objective is to maximize total return through a combination of current income and capital appreciation. The Fund pursues a relative value-based investment philosophy, which utilizes quantitative and qualitative analysis to seek to identify securities or spreads between securities that deviate from their perceived fair value and/or historical norms. There is no guarantee that the perceived fair value will be achieved. The Fund’s sub-adviser seeks to combine a credit-managed fixed-income portfolio with access to a diversified pool of alternative investments and equity strategies.

All Fund returns cited—whether based on net asset value (“NAV”) or market price—assume the reinvestment of all distributions. For the six-month period ended November 30, 2014, the Fund provided a total return based on market price of 5.69% and a total return based on NAV of 2.18%. NAV performance data reflects fees and expenses of the Fund.

As of November 30, 2014, the Fund’s market price of \$21.89 represented a premium of 9.94% to its NAV of \$19.91. The market value of the Fund’s shares fluctuates from time to time and may be higher or lower than the Fund’s NAV. Past performance is not a guarantee of future results.

From June 2014 through November 2014, the Fund paid a monthly distribution of \$0.1821. The November distribution represents an annualized distribution rate of 9.98% based on the Fund’s closing market price of \$21.89 on November 30, 2014. The Fund’s distribution rate is not constant and is subject to change based on the performance of the Fund.

Guggenheim Funds Investment Advisors, LLC (the “Adviser”) serves as the investment adviser to the Fund. Guggenheim Partners Investment Management, LLC (“GPIM” or the “Sub-Adviser”) serves as the Fund’s investment sub-adviser and is responsible for the management of the Fund’s portfolio of investments. Each of the Adviser and the Sub-Adviser is an affiliate of Guggenheim Partners, LLC (“Guggenheim”), a global diversified financial services firm.

We encourage shareholders to consider the opportunity to reinvest their distributions from the Fund through the Dividend Reinvestment Plan (“DRIP”), which is described in detail on page 35 of this report. When shares trade at a discount to NAV, the DRIP takes advantage of the discount by reinvesting the monthly dividend distribution in common shares of the Fund purchased in the market at a price less than NAV. Conversely, when the market price of the Fund’s common shares is at a premium above NAV, the DRIP reinvests participants’ dividends in newly-issued common shares at the greater of NAV per share or 95% of the market price per share. The DRIP provides a cost-effective means to accumulate additional shares and enjoy the benefits of compounding returns over time. Since the Fund endeavors to maintain a stable monthly distribution, the DRIP effectively provides an income averaging technique, which causes shareholders to accumulate a larger number of Fund shares when the market price is depressed than when the price is higher.

To learn more about the Fund’s performance and investment strategy, we encourage you to read the Questions & Answers section of this report, which begins on page 4. You’ll find information on GPIM’s investment philosophy, views on the economy and market environment, and detailed information about the factors that impacted the Fund’s

performance.

We appreciate your investment and look forward to serving your investment needs in the future. For the most up-to-date information on your investment, please visit the Fund's website at guggenheiminvestments.com/gof.

Sincerely,

Donald C. Cacciapaglia
President and Chief Executive Officer
Guggenheim Strategic Opportunities Fund

GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND SEMIANNUAL REPORT 13

QUESTIONS & ANSWERS

November 30, 2014

Guggenheim Strategic Opportunities Fund (the “Fund”) is managed by a team of seasoned professionals at Guggenheim Partners Investment Management, LLC (“GPIM”). This team includes B. Scott Miner, Chairman of Investments and Global Chief Investment Officer; Anne B. Walsh, CFA, JD, Senior Managing Director; and James W. Michal, Managing Director and Portfolio Manager. In the following interview, the investment team discusses the market environment and the Fund’s performance for the six-month period ended November 30, 2014.

What is the Fund’s investment objective and how is it pursued?

The Guggenheim Strategic Opportunities Fund (the “Fund”) seeks to maximize total return through a combination of current income and capital appreciation. The Fund pursues a relative value-based investment philosophy, which utilizes quantitative and qualitative analysis to seek to identify securities or spreads between securities that deviate from their perceived fair value and/or historical norms. There is no guarantee that the perceived fair value of the Fund’s portfolio investments will be achieved.

GPIM seeks to combine a credit-managed fixed income portfolio with access to a diversified pool of alternative investments and equity strategies.

The Fund seeks to achieve its investment objective by investing in a wide range of fixed income and other debt and senior equity securities (“income securities”) selected from a variety of credit qualities and sectors, including, but not limited to, corporate bonds, loans and loan participations, structured finance investments, U.S. government and agency securities, mezzanine and preferred securities and convertible securities, and in common stocks, limited liability company interests, trust certificates and other equity investments (“common equity securities,” exposure to which is obtained primarily by investing in exchange-traded funds, or ETFs) that GPIM believes offer attractive yield and/or capital appreciation potential, including employing a strategy of writing (selling) covered call and put options on such equities. GPIM believes the volatility of the Fund can be reduced by diversifying across a large number of sectors and securities, many of which historically have not been highly correlated to one another.

Under normal market conditions:

- The Fund may invest up to 60% of its total assets in fixed income securities rated below investment grade (commonly referred to as “junk bonds”); the Fund may invest in below-investment grade income securities of any rating;
- The Fund may invest up to 20% of its total assets in non-U.S. dollar denominated fixed income securities of corporate and governmental issuers located outside the U.S., including up to 10% of total assets in fixed income securities of issuers located in emerging markets;
- The Fund may invest up to 50% of its total assets in common equity securities; and
- The Fund may invest up to 30% of its total assets in investment funds that primarily hold (directly or indirectly) investments in which the Fund may invest directly, of which amount up to 30% of the Fund’s total assets may be invested in investment funds that are registered as investment companies under the Investment Company Act of 1940 (the “1940 Act”) to the extent permitted by applicable law and related interpretations of the staff of the U.S. Securities and Exchange Commission.

GPIM's investment process is a collaborative effort between its Portfolio Construction Group, which utilizes tools such as a proprietary risk optimization model to determine allocation of assets among a variety of sectors, and its Sector Specialists, who are responsible for security selection within these sectors and for implementing securities transactions.

The Fund uses financial leverage (borrowing) to finance the purchase of additional securities. Although financial leverage may create an opportunity for increased return for shareholders, it also results in additional risks and can magnify the effect of any losses. There is no assurance that the strategy will be successful. If income and gains earned on securities purchased with the financial leverage proceeds are greater than the cost of the financial leverage, common shareholders' return will be greater than if financial leverage had not been used. Conversely, if the income or gains from the securities purchased with the proceeds of financial leverage are less than the cost of the financial leverage, common shareholders' return will be less than if financial leverage had not been used.

What were the significant events affecting the economy and market environment over the past six months?

The U.S. economy continued to grow through the six months ended November 30, 2014, despite volatility in September and October that caused spreads in leveraged credit to widen and upward momentum in U.S. stocks to deteriorate. By the end of October, the spread widening had reversed and equities regained their footing.

U.S. economic data remain strong, with third quarter GDP growing at an annualized rate of 3.5%. Among the highlights were strong net exports and unemployment that had fallen faster than expected and consumer confidence at seven year highs. While falling oil prices are helping consumer spending in the near term, they could be signaling that the global economy is not growing fast enough.

The U.S. is adding close to 225,000 jobs per month on average in 2014, considerably more than the 2013 monthly average of 194,000. Employment levels are transitioning from the recovery phase to the expansion phase, which typically coincides with accelerating economic activity. The downward trend in labor force participation has begun to flatten and, as fewer people leave the workforce, the rapid decline in the nation's unemployment rate could begin to slow. Until unemployment falls below 5.5%, it's unlikely that the U.S. economy will experience the kind of meaningful wage pressure that would spur action by the Federal Reserve (the "Fed"). An improving labor market, subdued mortgage rates, and tight housing inventory all point to a rebound in the housing market.

QUESTIONS & ANSWERS continued

November 30, 2014

The economies of Europe and Asia continue to deteriorate. The European Central Bank (“ECB”) is desperately trying to figure out how to get liquidity into the financial system, as their current program is not large enough to boost growth. Germany just barely avoided a recession in the third quarter. The Japanese economy now is officially in a recession as the first two arrows of Abenomics, monetary accommodation and fiscal stimulus, were relatively easy, but the third arrow of structural reform has been much more elusive.

Overseas geopolitical concerns and comparatively attractive yields have pushed global investors to U.S. Treasuries. Such “beggar thy neighbor” policies from Europe and Asia were a driving force behind the most recent rally in U.S. fixed income, and indicate that U.S. long-term rate should continue to be well supported. Momentum in the U.S. continued into the fourth quarter, with December’s seasonal effects and the boost from declining fuel prices. Fed tightening expectations continue to decrease on the back of concerns about a global growth slowdown.

For the six months ended November 30, 2014, the Standard & Poor’s 500 Index returned 8.58%; the Barclays U.S. Aggregate Bond Index returned 1.92%; and the Barclays 1–3 Month U.S. Treasury Bill Index returned 0.01%. All returns are total return.

How did the Fund perform for the six months ended November 30, 2014?

All Fund returns cited—whether based on net asset value (“NAV”) or market price—assume the reinvestment of all distributions. For the six-month period ended November 30, 2014, the Fund provided a total return based on market price of 5.69% and a total return based on NAV of 2.18%. NAV performance data reflects fees and expenses of the Fund.

As of November 30, 2014, the Fund’s market price of \$21.89 represented a premium of 9.94% to its NAV of \$19.91. As of May 31, 2014, the Fund’s market price of \$21.83 represented a premium of 6.18% to its NAV of \$20.56. The market value of the Fund’s shares fluctuates from time to time and may be higher or lower than the Fund’s NAV. Past performance is not a guarantee of future results.

From June 2014 through November 2014, the Fund paid a monthly distribution of \$0.1821. The November distribution represents an annualized distribution rate of 9.98% based on the Fund’s closing market price of \$21.89 on November 30, 2014. The Fund’s distribution rate is not constant and is subject to change based on the performance of the Fund.

Why did the Fund accrue excise tax during the period?

While the Fund generally intends to distribute income and capital gains in the manner necessary to minimize imposition of the 4% excise tax imposed on a registered investment company that does not distribute by the end of any calendar year at least the sum of (i) 98% of its ordinary income (not taking into account any capital gain or loss) for the calendar year and (ii) 98.2% of its capital gain in excess of its capital loss (adjusted for certain ordinary losses) for a one-year period generally ending on October 31 of the calendar year (unless an election is made to use the fund’s fiscal year), there can be no assurance that sufficient amounts of the Fund’s taxable income and capital gain will be distributed to entirely avoid the imposition of the excise tax. In certain circumstances, the Fund may elect to retain income or capital gain and pay the excise tax on such undistributed amount, to the extent that the Board of Trustees, in consultation with Fund management, determines it to be in the best interest of shareholders at that time.

What influenced performance over the period?

Credit-spread and risk assets continued to find investor favor through the six months ended November 30, 2014 despite periods of volatility. Additional liquidity from central banks outside the U.S. supported foreign capital flows into U.S. assets, which, along with the search for yield among U.S. investors, was positive for fixed income. However, just as the market appeared to be growing complacent in the third quarter of 2014, leveraged credit had its first correction in nearly a year, as mutual fund investors withdrew from the sector amid concerns about frothy valuations and talk of a credit bubble. Volatility spread across risk assets, including equities.

The events that drove spread widening in the third quarter showed that investors are becoming increasingly reactive to factors outside of the fundamentals that underscore a generally positive outlook on credit. Even though U.S. economic data was mixed in September, it had been strong year to date, and the improving health of the U.S. economy and low interest rates underscored our expectation that spreads can compress further. Volatility is likely to continue, but as the economy improves, brief periods of spread widening could present buying opportunities.

The asset backed security (ABS) sector contributed positively for the period, as reflected in the 1.04% gain of the BofA Merrill Lynch ABS Master BBB-AA Index. Credit performance across the commercial ABS and collateralized loan obligation (CLO) sectors remained strong given benign credit conditions and improving collateral valuations across the U.S. economy. 2014 issuance is well ahead of 2013's pace and likely to break 2012's post-crisis peak.

Residential mortgage-backed securities (RMBS) also contributed to return for the period. Housing activity has been uneven, as price appreciation has been slowing and sales remain below the post-crisis peak in 2013, despite attractive mortgage rates. We continue to see opportunities in floating rate non-Agency RMBS, an area of fixed income that we believe will benefit as the housing market continues its recovery.

High yield corporate bonds and bank loans had strong performance through the first half of 2014. As upside potential declined in the leveraged credit space, the Fund rotated into higher quality credits. With the onset of a leveraged credit sell-off in the third quarter, the Fund was able to add exposure back to many of the names it had sold several months before. The Barclays U.S. Corporate High Yield Index returned -0.60% for the six-month period. The Credit Suisse Leveraged Loan Index returned 1.02%.

GOF I GUGGENHEIM STRATEGIC OPPORTUNITIES FUND SEMIANNUAL REPORT 15

QUESTIONS & ANSWERS continued

November 30, 2014

Discuss the Fund's approach to duration.

Although the Fund has no set policy regarding portfolio duration or maturity, the Fund currently maintains a low-duration target, but adds opportunistically to duration when it can take advantage of short-term fluctuations in interest rates. Our view continues to be that rates will remain range bound, as the Fed continues to keep short-term interest rates anchored for an extended period of time.

What is the overall credit quality of the portfolio?

The Fund has the ability to invest up to 60% of its total assets in below investment grade securities of any rating (including securities rated below 'CCC' by Moody's or 'Caa2' by S&P or that, at the time of purchase, are in default). As of the Fund's fiscal year end, approximately 51% of the Fund's total assets were invested in below-investment grade securities. The Fund continues to pursue a relative value based investment philosophy, which utilizes quantitative and qualitative analysis to seek to identify securities that deviate from their perceived value and/or historical norms. The Fund's flexibility to invest in equity securities and income securities across the credit rating spectrum gives the Fund the ability to more effectively pursue this strategy.

How is the Fund positioned as of the end of the period?

The Fund remains relatively short duration and overweight floating rate securities. This is in line with our view that interest rates will remain low but volatile for an extended time, and meets investors' need to protect against the inevitable volatility associated with an eventual change in policy from the Fed. The Fed is not expected to raise rates until the second half of 2015, if not 2016. However, we believe that the market should continue to focus on factors outside of the fundamentals that underscore our positive outlook on credit, and in this environment we believe that floating rate assets should outperform.

The Fund remains significantly invested in ABS, bank loans, and nonAgency RMBS, sectors that benefit from a low duration and where, in those deals on which we are constructive on credit, we see room for further spread tightening as the U.S. economy continues to improve.

What is the Fund's leverage strategy?

Since leverage adds to performance when the cost of leverage is less than the total return generated by investments, the use of leverage contributed to the Fund's total return during this period. The purpose of leverage (borrowing) is to fund the purchase of additional securities that provide increased income and potentially greater appreciation to common shareholders than could be achieved from an unlevered portfolio. Leverage results in greater NAV volatility and entails more downside risk than an unlevered portfolio.

As of November 30, 2014, the amount of leverage was approximately 32% of total managed assets. GPIM employs leverage through two vehicles: reverse repurchase agreements, under which the Fund temporarily transfers possession of portfolio securities and receives cash which can be used for additional investments, and a committed financing facility through a leading financial institution. There is no guarantee that the Fund's leverage strategy will be successful. The Fund's use of leverage may cause the Fund's NAV and market price of common shares to be more volatile and can magnify the effect of any losses.

Index Definitions

Indices are unmanaged and reflect no expenses. It is not possible to invest directly in an index.

The Standard & Poor's 500 Index is a capitalization-weighted index of 500 stocks. The index is designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries.

The BofA/ML ABS Master AA-BBB Index is a subset of the BofA Merrill Lynch U.S. Fixed Rate Asset Backed Securities Index including all securities rated AA1 through BBB3, inclusive.

The Barclays U.S. Aggregate Bond Index represents securities that are U.S. domestic, taxable, and dollar denominated. The index covers the U.S. investment grade fixed rate bond market, with index components for government and corporate securities, mortgage pass-through securities, and asset-backed securities.

The Barclays U.S. Corporate High Yield Index is an unmanaged index of below investment grade bonds issued by U.S. corporations.

The Barclays 1-3 Month U.S. Treasury Bill Index tracks the performance of U.S. Treasury bills with a remaining maturity of one to three months. U.S. Treasury bills, which are short-term loans to the U.S. government, are full faith-and-credit obligations of the U.S. Treasury and are generally regarded as being free of any risk of default.

The Credit Suisse Leveraged Loan Index is an Index designed to mirror the investable universe of the \$US-denominated leveraged loan market.

Risks and Other Considerations

The views expressed in this report reflect those of the portfolio managers only through the report period as stated on the cover. These views are subject to change at any time, based on market and other conditions and should not be construed as a recommendation of any kind. The material may also include forward looking statements that involve risk and uncertainty, and there is no guarantee that any predictions will come to pass. There can be no assurance that the Fund will achieve its investment objectives. The value of the Fund will fluctuate with the value of the underlying securities. Historically, closed-end funds often trade at a discount to their net asset value.

Please see guggenheiminvestments.com/gof for a detailed discussion of the Fund's risks and considerations.

FUND SUMMARY (Unaudited)

November 30, 2014

Fund Statistics

Share Price	\$21.89
Net Asset Value	\$19.91
Premium to NAV	9.94%
Net Assets (\$000)	\$328,027

AVERAGE ANNUAL TOTAL RETURNS FOR THE PERIOD ENDED NOVEMBER 30, 2014

	Six Month (non-annualized)	One Year	Three Year	Five Year	Since Inception (07/26/07)
NAV	2.18%	8.99%	13.45%	15.77%	11.86%
Market	5.69%	13.48%	13.40%	17.74%	12.81%

Performance data quoted represents past performance, which is no guarantee of future results and current performance may be lower or higher than the figures shown. NAV performance data reflects fees and expenses of the Fund. The deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares is not reflected in the total returns. For the most recent month-end performance figures, please visit guggenheiminvestments.com/gof. The investment return and principal value of an investment will fluctuate with changes in market conditions and other factors so that an investor's shares, when redeemed, may be worth more or less than their original cost.

- 1 Security was fair valued by the Valuation Committee at November 30, 2014. The total market value of fair valued securities amounts to \$9,140,819, (cost \$10,183,924) or 2.8% of total net assets.
- 2 All or a portion of these securities have been physically segregated in connection with borrowings, unfunded commitments and reverse repurchase agreements. As of November 30, 2014, the total amount segregated was \$205,054,300.
- 3 Variable rate security. Rate indicated is rate effective at November 30, 2014.
- 4 Perpetual maturity.
- 5 Security is a 144A or Section 4(a)(2) security. The total market value of 144A or Section 4(a)(2) securities is \$199,816,901 (cost \$192,265,222), or 60.9% of total net assets.
- 6 Security represents cover for outstanding written options.
- 7 Security is a step up/step down bond. The coupon increases or decreases at regular intervals until the bond reaches full maturity.
- 8 Security has no stated coupon. However, it is expected to receive residual cash-flow payments on defined deal dates.
- 9 Security has a fixed rate coupon which will convert to a floating or variable rate coupon on a future date.
- 10 Company has filed for protection in federal bankruptcy court.

- (a) Based on average shares outstanding.
- (b) Total return is calculated assuming a purchase of a common share at the beginning of the period and a sale on the last day of the period reported either at net asset value (“NAV”) or market price per share. Dividends and distributions are assumed to be reinvested at NAV for NAV returns or the prices obtained under the Fund’s Dividend Reinvestment Plan for market value returns. Total return does not reflect brokerage commissions. A return calculated for a period of less than one year is not annualized.
- (c) The ratios of total expenses to average net assets applicable to common shares do not reflect fees and expenses incurred indirectly by the Fund as a result of its investment in shares of other investment companies. If these fees were included in the expense ratios, the expense ratios would increase by 0.03% for the six months ended November 30, 2014, 0.03% for the year ended May 31, 2014, 0.05% for the year ended May 31, 2013, 0.04% for the year ended May 31, 2012, 0.03% for the year ended May 31, 2011, and 0.05% for the year ended May 31, 2010.
- (d) Portfolio turnover is not annualized for periods of less than one year.
- (e) Calculated by subtracting the Fund’s total liabilities (not including the borrowings) from the Fund’s total assets and dividing by the total borrowings.
- (f) Excluding interest expense, the operating expense ratios for the six months ended November 30, 2014 and years ended May 31 would be:

November 30, 2014	May 31, 2014	May 31, 2013	May 31, 2012	May 31, 2011	May 31, 2010
1.73% (g)	1.78%	1.81%	1.78%	1.85%	1.98%

- (g) Annualized.

See notes to financial statements.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

November 30, 2014

Note 1 – Organization:

Guggenheim Strategic Opportunities Fund (the “Fund”) was organized as a Delaware statutory trust on November 13, 2006. The Fund is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (“1940 Act”).

The Fund’s investment objective is to maximize total return through a combination of current income and capital appreciation.

Note 2 – Accounting Policies:

The preparation of the financial statements in accordance with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

The following is a summary of significant accounting policies consistently followed by the Fund.

(a) Valuation of Investments

The Board of Trustees of the Fund (the “Board”) has adopted policies and procedures for the valuation of the Fund’s investments (the “Valuation Procedures”). Pursuant to the Valuation Procedures, the Board has delegated to a valuation committee, consisting of representatives from Guggenheim’s investment management, fund administration, legal and compliance departments (the “Valuation Committee”), the day-to-day responsibility for implementing the Valuation Procedures, including, under most circumstances, the responsibility for determining the fair value of the Fund’s securities or other assets.

Valuations of the Fund’s securities are supplied primarily by pricing services appointed pursuant to the processes set forth in the Valuation Procedures. The Valuation Committee convenes monthly, or more frequently as needed and will review the valuation of all assets which have been fair valued for reasonableness. The Fund’s officers, through the Valuation Committee and consistent with the monitoring and review responsibilities set forth in the Valuation Procedures, regularly review procedures used by, and valuations provided by, the pricing services.

Equity securities listed on an exchange (New York Stock Exchange (“NYSE”) or American Stock Exchange) are valued at the last quoted sales price as of the close of business on the NYSE, usually 4:00 p.m. on the valuation date. Equity securities listed on the NASDAQ market system are valued at the NASDAQ Official Closing Price on the valuation date, which may not necessarily represent the last sale price. If there has been no sale on such exchange or NASDAQ on such day, the security is valued at the closing bid price on such day.

Debt securities with a maturity of greater than 60 days at acquisition are valued at prices that reflect broker/dealer supplied valuations or are obtained from independent pricing services, which may consider the trade activity, treasury spreads, yields or price of bonds of comparable quality, coupon, maturity, and type, as well as prices quoted by dealers who make markets in such securities. Short-term debt securities with a maturity of 60 days or less at acquisition and repurchase agreements are valued at amortized cost, which approximates market value.

Typically loans are valued using information provided by an independent third party pricing service which uses broker quotes in a non-active market, or price derived from significant observable inputs and is also compared to broker quote (matrixed). If the pricing service cannot or does not provide a valuation for a particular loan or such valuation is deemed unreliable, such loan is fair valued by the Valuation Committee.

Listed options are valued at the Official Settlement Price listed in by the exchange, usually as of 4:00 p.m. Long options are valued using the bid price and short options are valued using the ask price. In the event that a settlement price is not available, fair valuation is enacted. Over-the-counter options are valued using the average bid price (for long options), or average ask price (for short options) obtained from one or more security dealers.

Generally, trading in foreign securities markets is substantially completed each day at various times prior to the close of the NYSE. The values of foreign securities are determined as of the close of such foreign markets or the close of the NYSE, if earlier. All investments quoted in foreign currency are valued in U.S. dollars on the basis of the foreign currency exchange rates prevailing at the close of business. Investments in foreign securities may involve risks not present in domestic investments. The Valuation Committee will determine the current value of such foreign securities by taking into consideration certain factors which may include those discussed above, as well as the following factors, among others: the value of the securities traded on other foreign markets, ADR trading, closed-end fund trading, foreign currency exchange activity, and the trading prices of financial products that are tied to foreign securities such as World Equity Benchmark Securities. In addition, under the Valuation Procedures, the Valuation Committee and the Adviser are authorized to use to use prices and other information supplied by a third party pricing vendor in valuing foreign securities.

Investments for which market quotations are not readily available are fair valued as determined in good faith by Guggenheim Funds Investment Adviser, LLC (“GFIA” or the “Adviser”), subject to review and approval by the Valuation Committee, pursuant to methods established or ratified by the Board. Valuations in accordance with these methods are intended to reflect each security’s (or asset’s) “fair value.” Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. Examples of such factors may include, but are not limited to: (i) the type of security, (ii) the initial cost of the security, (iii) the existence of any contractual restrictions on the security’s disposition, (iv) the price and extent of public trading in similar securities of the issuer or of comparable companies, (v) quotations or evaluated prices from broker-dealers and/or pricing services, (vi) information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange traded securities), (vii) an analysis of the company’s financial statements, and (viii) an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold (e.g. the existence of pending merger activity, public offerings or tender offers that might affect the value of the security).

November 30,
2014

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

(b) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Paydown gains and losses on mortgage and asset-backed securities are treated as an adjustment to interest income. For the six months ended November 30, 2014, the Fund recognized an increase of interest income and a decrease of net realized gain of \$242,676. This reclassification is reflected on the Statement of Operations and had no effect on the net asset value of the Fund. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Discounts on debt securities purchased are accreted to interest income over the lives of the respective securities using the effective interest method. Premiums on debt securities purchased are amortized to interest income up to the next call date of the respective securities using the effective interest method.

(c) Restricted Cash

A portion of cash on hand is pledged with a broker for current or potential holdings, which includes options, swaps and securities purchased on a when issued or delayed delivery basis.

(d) Swaps

A swap is an agreement to exchange the return generated by one instrument for the return generated by another instrument. The Fund may enter into swap agreements to manage its exposure to interest rates and/or credit risk or to generate income. The swaps are valued daily at current market value and any unrealized gain or loss is included in the Statement of Assets and Liabilities. Gain or loss is realized on the termination date of the swap and is equal to the difference between the Fund's basis in the swap and the proceeds of the closing transaction, including any fees. During the period that the swap agreement is open, the Fund may be subject to risk from the potential inability of the counterparty to meet the terms of the agreement. The swaps involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities. Upon termination of a swap agreement, a payable to or receivable from swap counterparty is established on the Statement of Assets and Liabilities to reflect the net gain/loss, including interest income/expense, on terminated swap positions. The line item is removed upon settlement according to the terms of the swap agreement.

Realized gain (loss) upon termination of swap contracts is recorded on the Statement of Operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation (depreciation) of swap contracts. Net periodic payments received by the Fund are included as part of realized gain (loss) and, in the case of accruals for periodic payments, are included as part of unrealized appreciation (depreciation) on the Statement of Operations.

As of November 30, 2014, the Fund had no swap contracts outstanding.

(e) Covered Call and Put Options

The Fund will pursue its investment objective by employing an option strategy of writing (selling) covered call options and may, from time to time, buy or sell put options on equity securities and indices. The Fund seeks to generate current gains from option premiums as a means to enhance distributions payable to the Fund's common

shareholders.

When an option is written, the premium received is recorded as an asset with an equal liability and is subsequently marked to market to reflect the current market value of the option written. These liabilities are reflected as options written on the Statement of Assets and Liabilities. Premiums received from writing options which expire unexercised are recorded on the expiration date as a realized gain. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transactions, as a realized loss. If an option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether there has been a realized gain or loss.

When a call option is purchased, the Fund obtains the right (but not the obligation) to buy the underlying instrument at the strike price at anytime during the option period. When a put option is purchased, the Fund obtains the right (but not the obligation) to sell the option's underlying instrument at the strike price at anytime during the option period. When the Fund purchases an option, an amount equal to the premium paid by the Fund is reflected as an asset and subsequently marked-to-market to reflect the current market value of the option purchased. The maximum exposure the Fund has at risk when purchasing an option is the premium paid. Purchased options are included with Investments on the Statement of Assets and Liabilities. Realized and unrealized gains and losses on purchased options are included with Investments on the Statement of Operations.

(f) Currency Translation

Assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the mean of the bid and ask price of respective exchange rates on the last day of the period. Purchases and sales of investments denominated in foreign currencies are translated at the exchange rate on the bid and ask price of respective exchange rates on the date of the transaction.

The Fund isolates that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on foreign currency.

Foreign exchange realized gain or loss resulting from holding of a foreign currency, expiration of a currency exchange contract, difference in exchange rates between the trade date and settlement date of an investment purchased or sold, and the difference between dividends or interest actually received compared to the amount shown in the Fund's accounting records on the date of receipt is shown as net realized gains or losses on foreign currency transactions on the Fund's Statement of Operations.

Foreign exchange unrealized gain or loss on assets and liabilities, other than investments, is shown as unrealized appreciation (depreciation) on foreign currency translation on the Fund's Statement of Operations.

November 30,
2014

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

(g) Forward Exchange Currency Contracts

The Fund entered into forward exchange currency contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings, to hedge certain firm purchases and sales commitments denominated in foreign currencies and for investment purposes. Forward exchange currency contracts are agreements between two parties to buy and sell currencies at a set price on a future date. Fluctuations in the value of open forward exchange currency contracts are recorded for financial reporting purposes as unrealized appreciation and depreciation by the Fund until the contracts are closed. When the contracts are closed, realized gains and losses are recorded, and included on the Statement of Operations.

(h) Distributions to Shareholders

The Fund declares and pays monthly distributions to common shareholders. These distributions consist of investment company taxable income, which generally includes qualified dividend income, ordinary income and short-term capital gains. To the extent distributions exceed net investment income, the excess will be deemed a return of capital. Any net realized long-term capital gains are distributed annually to common shareholders.

Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

Note 3 – Investment Advisory Agreement, Sub-Advisory Agreement and Other Agreements:

Pursuant to an Investment Advisory Agreement between the Fund and the Adviser, the Adviser furnishes offices, necessary facilities and equipment, provides administrative services, oversees the activities of Guggenheim Partners Investment Management, LLC (“GPIM” or “Sub-Adviser”), provides personnel including certain officers required for the Fund’s administrative management and compensates the officers and trustees of the Fund who are affiliates of the Adviser. As compensation for these services, the Fund pays the Adviser a fee, payable monthly, in an amount equal to 1.00% of the Fund’s average daily managed assets (net assets applicable to common shareholders plus any assets attributable to financial leverage).

Pursuant to a Sub-Advisory Agreement among the Fund, the Adviser and GPIM, GPIM under the supervision of the Fund’s Board of Trustees and the Adviser, provides a continuous investment program for the Fund’s portfolio; provides investment research; makes and executes recommendations for the purchase and sale of securities; and provides certain facilities and personnel, including certain officers required for its administrative management and pays the compensation of all officers and trustees of the Fund who are GPIM’s affiliates. As compensation for its services, the Adviser pays GPIM a fee, payable monthly, in an annual amount equal to 0.50% of the Fund’s average daily managed assets.

Certain officers and trustees of the Fund may also be officers, directors and/or employees of the Adviser or GPIM. The Fund does not compensate its officers or trustees who are officers, directors and/or employees of the aforementioned firms.

Rydex Fund Services, LLC (“RFS”), an affiliate of the Adviser and the Sub-Adviser, provides fund administration services to the Fund. As compensation for these services RFS receives a fund administration fee payable monthly at

the annual rate set forth below as a percentage of the average daily managed assets of the Fund:

Managed Assets	Rate
First \$200,000,000	0.0275%
Next \$300,000,000	0.0200%
Next \$500,000,000	0.0150%
Over \$1,000,000,000	0.0100%

RFS serves as the accounting agent for the Fund. As accounting agent, RFS is responsible for maintaining the books and records of the Fund's securities and cash. RFS receives an accounting fee payable monthly at the annual rate set forth below as a percentage of the average daily managed assets of the Fund.

Managed Assets	Rate
First \$200,000,000	0.0300%
Next \$300,000,000	0.0150%
Next \$500,000,000	0.0100%
Over \$1,000,000,000	0.0075%
Minimum Annual Charge Per Fund	\$50,000
Certain Out of Pocket Charges	Varies

For purposes of calculating the fees payable under the foregoing agreements, average daily managed assets means the average daily value of the Fund's total assets minus the sum of its accrued liabilities. Total assets means all of the Fund's assets and is not limited to its investment securities. Accrued liabilities means all of the Fund's liabilities other than borrowings for investment purposes.

The Bank of New York Mellon ("BNY") acts as the Fund's custodian. As custodian, BNY is responsible for the custody of the Fund's assets.

Note 4 – Fair Value Measurement:

In accordance with U.S. GAAP, fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. U.S. GAAP establishes a three-tier fair value hierarchy based on the types of inputs used to value assets and liabilities and requires corresponding disclosure. The hierarchy and the corresponding inputs are summarized below:

Level 1 — quoted prices in active markets for identical assets or liabilities.

Level 2 — significant other observable inputs (for example quoted prices for securities that are similar based on characteristics such as interest rates, prepayment speeds, credit risk, etc.).

Level 3 — significant unobservable inputs based on the best information available under the circumstances, to the extent observable inputs are not available, which may include assumptions.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

November 30, 2014

The types of inputs available depend on a variety of factors, such as the type of security and the characteristics of the markets in which it trades, if any. Fair valuation determinations that rely on fewer or no observable inputs require greater judgment. Accordingly, fair value determinations for Level 3 securities require the greatest amount of judgment.

The following table represents the Fund's investments carried on the Statement of Assets and Liabilities by caption and by level within the fair value hierarchy as of November 30, 2014.

	Level 1	Level 2	Level 3	Total
Assets:				
Corporate Bonds	\$–	\$135,367,366	\$4,817,970	\$140,185,336
Asset Backed Securities	–	146,691,079	7,487,305	154,178,384
Collateralized Mortgage Obligations	–	9,170,494	4,398,904	13,569,398
Senior Floating Rate Interests	–	79,476,279	6,026,016	85,502,295
Municipal Bonds	–	6,734,826	–	6,734,826
Foreign Government Bonds	–	3,241,275	–	3,241,275
Common Stocks	450,341	–	3	450,344
Preferred Stocks	24,049,637	–	–	24,049,637
Exchange Traded Funds	61,828,920	–	–	61,828,920
Warrant	–	–	–	*
Money Market Fund	698,376	–	–	698,376
Forward Exchange Currency Contracts	–	47,566	–	47,566
Total Assets	\$87,027,274	\$380,728,885	\$22,730,198	\$490,486,357
Liabilities:				
Options Written	687,193	–	–	687,193
Forward Exchange Currency Contracts	–	303	–	303
Unfunded Commitments	–	4,204	–	4,204
Total Liabilities	\$687,193	\$4,507	\$–	\$691,700

* Market value is less than minimum amount disclosed.

Independent pricing services are used to value a majority of the Fund's investments. When values are not available from a pricing service, they will be determined under the valuation policies that have been reviewed and approved by the Board of Trustees. In any event, values are determined using a variety of sources and techniques, including:

market prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics or based on inputs such as anticipated cash flows or collateral, spread over Treasuries, and other information and analysis.

Indicative quotes from broker-dealers, adjusted for fluctuations in criteria such as credit spreads and interest rates, may be also used to value the Fund's assets and liabilities, i.e. prices provided by a broker-dealer or other market participant who has not committed to trade at that price. Although Indicative quotes are typically received from established market participants, the Fund may not have the transparency to view the underlying inputs which support the market quotations.

Certain fixed income securities are valued by obtaining a monthly indicative quote from a broker-dealer, adjusted for fluctuations in criteria such as credit spreads and interest rates. The Fund's fair valuation guidelines were recently revised to transition such monthly indicative quoted securities from Level 2 to Level 3.

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The suitability of the techniques and sources employed to determine fair valuation are regularly monitored and subject to change.

The following is a summary of significant unobservable inputs used in the fair valuation of assets and liabilities categorized within Level 3 of the fair value hierarchy:

Category	Ending Balance at 11/30/14	Valuation Technique	Unobservable Inputs
Corporate Bonds	\$1,703,170	Monthly Broker Quote	Indicative Quote
Corporate Bonds	\$3,114,800	Monthly Model Price	Trade Price
Asset Backed Securities	\$7,487,305	Monthly Broker Quote	Indicative Quote
Senior Floating Rate Interests	\$5,833,886	Enterprise Value	Valuation Multiple*
Senior Floating Rate Interests	\$ 192,130	Broker Mark	Indicative Quote
Collateralized Mortgage Obligations	\$4,398,904	Monthly Broker Quote	Indicative Quote

* Valuation multiples utilized ranged from 4 to 24.

Significant changes in an indicative quote or valuation multiple would generally result in significant changes in the fair value of the security.

Any remaining Level 3 securities held by the Fund and excluded from the tables above, were not considered material to the Fund.

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. Transfers between valuation levels, if any, are in comparison to the valuation levels at the end of the previous fiscal year, and are effective using the fair value as of the end of the current fiscal period. The Fund recognized transfers between the levels as of the beginning of the period. As of November 30, 2014, the Fund had securities with a total value of \$11,861,401 transferred from Level 2 to Level 3 due to lack of a vendor price. The Fund had securities with a total value of \$23,495,353 transferred from Level 3 to Level 2 due to availability of market price information at the period end. See the tables below for changes to Level 3.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

November 30, 2014

Following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value for the six months ended November 30, 2014:

Assets	Total
Beginning Balance at 5/31/2014	
Corporate Bonds	\$737,150
Asset Backed Securities	20,201,614
Senior Floating Rate Interests	13,181,702
Common Stocks	3
Paydowns Received	
Corporate Bonds	(55,091)
Asset Backed Securities	(785,293)
Collateralized Mortgage Obligations	(9,026)
Senior Floating Rate Interests	(4,935,516)
Payment-in-kind Distributions Received	
Senior Floating Rate Interests	39,030
Realized Gain/Loss	
Asset Backed Securities	23,898
Collateralized Mortgage Obligations	73
Senior Floating Rate Interests	94
Change in Unrealized Gain/Loss	
Corporate Bonds	(44,542)
Asset Backed Securities	356,491
Collateralized Mortgage Obligations	169,131
Senior Floating Rate Interests	(121,068)
Purchases	
Corporate Bonds	3,123,000
Senior Floating Rate Interests	2,482,500
Transfers into Level 3	
Corporate Bonds	1,057,453
Asset Backed Securities	4,103,836
Collateralized Mortgage Obligations	4,238,726
Senior Floating Rate Interests	2,461,386
Transfers out of Level 3	
Asset Backed Securities	(16,413,241)
Senior Floating Rate Interests	(7,082,112)
Ending Balance at 11/30/2014	
Corporate Bonds	4,817,970
Asset Backed Securities	7,487,305
Collateralized Mortgage Obligations	4,398,904
Senior Floating Rate Interests	6,026,016
Common Stocks	3
Total Level 3 Holdings	\$22,730,198

Note 5 – Federal Income Taxes:

Edgar Filing: GUGGENHEIM STRATEGIC OPPORTUNITIES FUND - Form N-CSRS

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, (the "Internal Revenue Code"), applicable to regulated investment companies.

The Fund is subject to an excise tax of 4% of the amount by which 98% of the Fund's annual taxable income and 98.2% of net realized gains exceed the distributions from such taxable income and realized gains for the calendar year.

As of November 30, 2014, the cost and related unrealized appreciation and depreciation of securities for Federal income tax purposes, were as follows:

Cost of Investments for Tax Purposes	Gross Tax Unrealized Appreciation	Gross Tax Unrealized Depreciation	Net Tax Unrealized Appreciation on Investments	Net Tax Unrealized Depreciation on Derivatives and Foreign Currency
\$482,608,516	\$22,800,346	\$(14,970,071)	\$7,830,275	\$(102,653)

The differences between book basis and tax basis unrealized appreciation (depreciation) is primarily attributable to the tax deferral of losses on wash sales, Passive Foreign Investment Companies (PFICs) and non-real estate investment trust return of capital.

As of May 31, 2014 (the most recent fiscal year end for federal income tax purposes) the tax components of accumulated earnings/losses on a tax basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Capital Gains/ Accumulated Capital and Other Losses	Net Unrealized Appreciation
\$12,007,536	\$(2,159,032)	\$10,882,047

For the year ended May 31, 2014 (the most recent fiscal year end for federal income tax purposes), the tax character of distributions paid to shareholders as reflected in the Statements of Changes in Net Assets was as follows:

Distributions paid from	2014
Ordinary income	\$26,520,608
Long-term capital gain	5,245,435
	\$31,766,043

For all open tax years and all major jurisdictions, management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Uncertain tax positions are tax positions taken or expected to be taken in the course of preparing the Fund's tax returns that would not meet a more-likely-than not threshold of being sustained by the applicable tax authority and would be recorded as a tax expense in the current year. Open tax years are those that are open for examination by taxing authorities (i.e. generally the last four tax year ends and the interim tax period since then).

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

November 30,
2014

Note 6 – Investments in Securities:

During the six months ended November 30, 2014, the cost of purchases and proceeds from sales of investments, excluding written options and short-term investments were \$330,528,436 and \$245,711,964, respectively.

Note 7 – Derivatives:

As part of its investment strategy, the Fund utilizes a variety of derivative instruments including options, forwards and swap agreements. These investments involve, to varying degrees, elements of market risk and risks in excess of the amounts recognized in the Statement of Assets and Liabilities.

(a) Covered Call Options and Put Options

An option on a security is a contract that gives the holder of the option, in return for a premium, the right to buy from (in the case of a call) or sell to (in the case of a put) the writer of the option the security underlying the option at a specified exercise or “strike” price. The writer of an option on a security has the obligation upon exercise of the option to deliver the underlying security upon payment of the exercise price (in the case of a call) or to pay the exercise price upon delivery of the underlying security (in the case of a put).

There are several risks associated with transactions in options on securities. As the writer of a covered call option, the Fund forgoes, during the option’s life, the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the strike price of the call, but has retained the risk of loss should the price of the underlying security decline. A writer of a put option is exposed to the risk of loss if the fair value of the underlying security declines, but profits only to the extent of the premium received if the underlying security increases in value. The writer of an option has no control over the time when it may be required to fulfill its obligation as writer of the option. Once an option writer has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying security at the exercise price.

To the extent that the Fund purchases options, the Fund will be subject to the following additional risks. If a put or call option purchased by the Fund is not sold when it has remaining value, and if the market price of the underlying security remains equal to or greater than the exercise price (in the case of a put), or remains less than or equal to the exercise price (in the case of a call), the Fund will lose its entire investment in the option. Also, where a put or call option on a particular security is purchased to hedge against price movements in a related security, the price of the put or call option may move more or less than the price of the related security. If restrictions on exercise were imposed, the Fund might be unable to exercise an option it had purchased. If the Fund were unable to close out an option that it had purchased on a security, it would have to exercise the option in order to realize any profit or the option may expire worthless.

The Fund entered into written option contracts during the six months ended November 30, 2014.

Details of the transactions were as follows:

	Number of	Premiums
--	-----------	----------

	Contracts	Received
Options outstanding, beginning of the period	3,631	\$ 756,021
Options written during the period	25,897	2,933,104
Options closed during the period	(17,998)	(2,114,436)
Options assigned during the period	(6,676)	(1,036,227)
Options outstanding, end of period	4,854	\$ 538,462

(b) Swaps

Swap agreements are contracts between parties in which one party agrees to make periodic payments to the other party (the “Counterparty”) based on the change in market value or level of a specified rate, index or asset. In return, the Counterparty agrees to make periodic payments to the first party based on the return of a different specified rate, index or asset. Swap agreements will usually be done on a net basis, the Fund receiving or paying only the net amount of the two payments. The net amount of the excess, if any, of each Fund’s obligations over its entitlements with respect to each swap is accrued on a daily basis and an amount of cash or liquid securities having an aggregate value at least equal to the accrued excess is maintained in an account at the Fund’s custodian bank.

The Fund is party to various derivative contracts governed by International Swaps and Derivatives Association Master Agreements (“ISDA agreements”). The Fund’s ISDA agreements, which are separately negotiated with each Counterparty, typically contain provisions allowing, absent other considerations, a Counterparty to exercise rights, to the extent not otherwise waived, against the Fund in the event the Fund does not meet certain collateral requirements or the Fund’s net assets decline over time by a predetermined percentage or fall below a pre-determined floor. With respect to certain Counterparties, collateral posted to the Fund is held in a segregated account by the Fund’s custodian and with respect to those amounts which can be sold or repledged, are presented in the Fund’s Statement of Assets and Liabilities in Restricted cash. Collateral pledged by the Fund is segregated by the Fund’s custodian and is identified in the Fund’s Portfolio of Investments. Collateral can be in the form of cash or securities as agreed to by the Fund and the applicable Counterparty. Collateral requirements are determined based on the Fund’s net position with each Counterparty. The ISDA agreements also contain provisions, absent other conditions, for the Fund to exercise rights, to the extent not otherwise waived, against Counterparties (i.e. decline in a Counterparty’s credit rating below a specified level). Such rights for both the Counterparty and the Fund often include the ability to terminate (i.e., close out) open contracts at prices which may favor the Counterparty, which could have an adverse effect on the Fund. The ISDA agreements with certain Counterparties allow the Fund and Counterparty to offset certain derivative instruments’ payables or receivables with collateral posted to a segregated custody account.

2014

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

Credit default swap transactions involve the Fund's agreement to exchange the credit risk of an issuer. A buyer of a credit default swap is said to buy protection by paying periodic fees in return for a contingent payment from the seller if the issuer has a credit event such as bankruptcy, a failure to pay outstanding obligations or deteriorating credit while the swap is outstanding. A seller of a credit default swap is said to sell protection and thus collects the periodic fees and profits if the credit of the issuer remains stable or improves while the swap is outstanding but the seller in a credit default swap contract would be required to pay an agreed upon amount, which approximates the notional amount of the swap, to the buyer in the event of an adverse credit event of the issuer.

The Fund may utilize index swap transactions to manage its exposure to various securities markets, changes in interest rates, or currency values. Index swap transactions allow the Fund to receive the appreciation/depreciation of the specified index over a specified time period in exchange for an agreed upon fee paid to the counterparty.

The Fund did not have any swap agreements outstanding as of November 30, 2014.

(c) Forward Exchange Currency Contracts

A forward exchange currency contract is a commitment to purchase or sell a foreign currency on a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contracts and the closing of such contracts would be included in net realized gain or loss on foreign currency transactions. Forward exchange currency contracts involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities. Risk may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The face or contract amount, in U.S. dollars, reflects the total exposure the Fund has in that particular currency contract.

As of November 30, 2014, the following forward exchange currency contracts were outstanding:

Contracts to Sell	Counterparty	Settlement Date	Settlement Value	Value as of 11/30/14	Net Unrealized Appreciation/Depreciation)
AUD 690,000	The Bank of New York Mellon	12/05/2014	\$ 600,208	\$ 586,814	\$13,394
for USD 600,208					
EUR 2,800,000	The Bank of New York Mellon	12/05/2014	3,502,584	3,481,757	20,827

for USD 385,177					
GBP 350,000	The Bank of New York Mellon	12/05/2014	560,113	546,768	13,345
for USD 560,113					
Total unrealized appreciation for forward exchange currency contracts					\$47,263

(d) Summary of Derivatives Information

The Fund is required by GAAP to disclose: a) how and why a fund uses derivative instruments, b) how derivative instruments and related hedge fund items are accounted for, and c) how derivative instruments and related hedge items affect a fund's financial position, results of operations and cash flows.

The following table presents the types of derivatives in the Fund by location as presented on the Statement of Assets and Liabilities as of November 30, 2014.

Primary Risk Exposure	Statement of Asset and Liabilities Presentation of Fair Values of Derivative Instruments (value in \$000s):		Statement of Asset and Liabilities Presentation of Fair Values of Derivative Instruments (value in \$000s):

Derivative Volume

Swaps:

The Fund decreased the volume of activity in swaps during the six months ended November 30, 2014 with an average notional balance of approximately \$5,589,666. At November 30, 2014, there were no swap agreements outstanding.

Forward Exchange Currency Contracts:

Average Settlement Value Purchased	\$1,606,717
Average Settlement Value Sold	1,556,599
Ending Settlement Value Purchased	—
Ending Settlement Value Sold	5,048,082

In December 2011, the Financial Accounting Standards Board (“FASB”) issued an Accounting Standards Update (“ASU”) No. 2011-11: Disclosures about Offsetting Assets and Liabilities on the Statements of Assets and Liabilities that are subject to master netting arrangements or similar agreements. ASU 2011-11, was amended by ASU No. 2013-01, clarifying which investments and transactions are subject to the netting disclosure.

The scope of the disclosure requirements is limited to derivative instruments, repurchase agreements and reverse repurchase agreements, and securities borrowing and securities lending transactions to the extent they are subject to an enforceable master netting arrangement or similar agreement. This information will enable users of the Funds’ financial statements to evaluate the effect or potential effect of netting arrangements on the Funds’ financial position. The ASU is effective for financial statements with fiscal years beginning on or after January 1, 2013, and interim periods within those fiscal years. The Funds adopted the disclosure requirement on netting for the current reporting period. For financial reporting purposes, the Funds do not offset financial assets and financial liabilities across derivative types that are subject to master netting arrangements or similar agreements on the Statement of Assets and Liabilities. Therefore, all qualifying transactions are presented on a gross basis in the Statement of Assets and Liabilities. As of November 30, 2014, the impact of netting of assets and liabilities and the offsetting of collateral pledged or received based on contractual netting/offsetting provisions are detailed in the following table.

Description	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Statement of Assets and Liabilities	Net Amounts of Assets Presented in the Statement of Assets and Liabilities	Gross Amounts Not Offset in the Statement of Assets and Liabilities	Net Amount
Forward Exchange Currency Contract	\$47,566	\$ —	\$47,566	\$303	\$47,263

Description	Gross Amounts of Recognized	Gross Amounts Offset in the Statement of	Net Amounts of Liabilities Presented in the Statement of	Gross Amounts Not Offset in the	Net

Reverse Repurchase Agreement	\$90,696,633	\$ –	\$90,696,633	\$90,696,633	\$ –
Forward Exchange Currency Contract	303	–	303	303	–

Note 8 – Leverage:

Reverse Repurchase Agreements

The Fund may enter into reverse repurchase agreements as part of its financial leverage strategy. Under a reverse repurchase agreement, the Fund temporarily transfers possession of a portfolio instrument to another party, such as a bank or broker-dealer, in return for cash. At the same time, the Fund agrees to repurchase the instrument at an agreed upon time and price, which reflects an interest payment. Such agreements have the economic effect of borrowings. The Fund may enter into such agreements when it is able to invest the cash acquired at a rate higher than the cost of the agreement, which would increase earned income. When the Fund enters into a reverse repurchase agreement, any fluctuations in the market value of either the instruments transferred to another party or the instruments in which the proceeds may be invested would affect the market value of the Fund's assets. As a result, such transactions may increase fluctuations in the market value of the Fund's assets. For the six months ended November 30, 2014, the average daily balance for which reverse repurchase agreements were outstanding amounted to \$80,328,353. The weighted average interest rate was 0.96%. As of November 30, 2014, there was \$90,696,633 in reverse repurchase agreements outstanding.

As of November 30, 2014, the Fund had outstanding reverse repurchase agreements with various counterparties. Details of the reverse repurchase agreements by counterparty are as follows:

Counterparty	Range of Interest Rates	Range of Maturity Dates	Face Value
Barclays Capital, Inc.	0.50% – 1.98%	12/04/14 – 03/11/15	\$46,298,727
Barclays Capital, Inc.	0.05%-0.25%	Open Maturity	5,063,886
Credit Suisse Securities LLC	0.50% – 0.95%	12/08/14 – 02/11/15	19,908,927
Goldman Sachs	1.03%	01/22/15	393,000
Merrill Lynch	1.58% – 2.02%	01/26/15 – 02/04/15	6,796,000
Morgan Stanley, Inc.	0.65%	02/02/15	964,593
Nomura	1.23%	01/21/15	6,990,000
RBC Capital	0.47%-0.75%	02/10/15	3,317,500
Wells Fargo Bank, Ltd.	1.51%	01/05/15	964,000
			\$90,696,633

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued

November 30,
2014

Borrowings

On November 20, 2008, the Fund entered into a \$30,000,000 credit facility agreement with an approved lender whereby the lender has agreed to provide secured financing to the Fund and the Fund will provide pledged collateral to the lender. On February 15, 2012, the \$30,000,000 revolving credit agreement was increased to \$40,000,000 and effective August 12, 2012, it increased again to \$50,000,000. On January 25, 2013, the credit line was increased to \$65,000,000. On August 26, 2013, the credit line was increased to \$80,000,000. Interest on the amount borrowed is based on the 3-month LIBOR plus 0.85%. As of November 30, 2014, there was \$62,438,955 outstanding in connection with the Fund's credit facility. The average daily amount of borrowings on the credit facility during the six months ended November 30, 2014, was \$61,040,594 with a related average interest rate of 1.10%. The maximum amount outstanding during the six months ended November 30, 2014 was \$62,438,955. As of November 30, 2014, the total value of securities segregated and pledged as collateral in connection with borrowings was \$32,445,786.

The credit facility agreement governing the loan facility includes usual and customary covenants. These covenants impose on the Fund asset coverage requirements, collateral requirements, investment strategy requirements, and certain financial obligations. These covenants place limits or restrictions on the Fund's ability to (i) enter into additional indebtedness with a party other than the counterparty, (ii) change its fundamental investment policy, or (iii) pledge to any other party, other than to the counterparty, securities owned or held by the Fund over which the counterparty has a lien. In addition, the Fund is required to deliver financial information to the counterparty within established deadlines, maintain an asset coverage ratio (as defined in Section 18(g) of the 1940 Act) greater than 300%, comply with the rules of the stock exchange on which its shares are listed, and maintain its classification as a "closed-end management investment company" as defined in the 1940 Act.

There is no guarantee that the Fund's leverage strategy will be successful. The Fund's use of leverage may cause the Fund's NAV and market price of common shares to be more volatile and can magnify the effect of any losses.

Note 9 – Loan Commitments

Pursuant to the terms of certain Term Loan agreements, the Fund held unfunded loan commitments as of November 30, 2014. The Fund is obligated to fund these loan commitments at the borrower's discretion. The Fund reserves against such contingent obligations by designating cash, liquid securities, and liquid term loans as a reserve. As of November 30, 2014, the total amount segregated in connection with reverse repurchase agreements and unfunded commitments was \$172,608,514. The unrealized depreciation on these commitments of \$4,204 as of November 30, 2014 is reported as "Unrealized depreciation on unfunded commitments" on the Statement of Assets and Liabilities.

As of November 30, 2014, the Fund had the following unfunded loan commitments which could be extended at the option of the borrower:

Borrower	Expiration Date	Principal Amount	Unrealized Appreciation/ (Depreciation)
Acosta, Inc.	09/26/2019	\$ 611,111	\$(2,817)
Acosta, Inc.	09/26/2019	488,889	(2,254)
CareCore National LLC	06/10/2015	1,000,000	—

Edgar Filing: GUGGENHEIM STRATEGIC OPPORTUNITIES FUND - Form N-CSRS

DTZ US Borrower LLC	10/28/2021	373,333	–
IntraWest Holdings	12/10/2018	200,000	867
			\$(4,204)

Note 10 – Capital:

Common Shares

The Fund has an unlimited amount of common shares, \$0.01 par value, authorized and 16,478,390 issued and outstanding.

Transactions in common shares were as follows:

	Six Months ended November 30, 2014	Year ended May 31, 2014
Beginning Shares	15,467,075	13,672,683
Common shares issued through at-the-market offering	965,929	1,720,207
Shares issued through dividend reinvestment	45,386	74,185
Ending Shares	16,478,390	15,467,075

On April 8, 2011, the Fund’s shelf registration allowing delayed or continuous offering of common shares became effective and a post-effective amendments thereto became effective on January 4, 2012 and September 28, 2012. The shelf registration statement allows for the issuance of up to \$100,000,000 of common shares. On December 16, 2011, the Fund entered into an at-the-market offering sales agreement with the Adviser and Cantor Fitzgerald & Co. to offer and sell common shares, from time to time through Cantor Fitzgerald & Co. as agent for the Fund.

On October 26, 2013, the Fund’s new shelf registration allowing for delayed or continuous offering of additional shares became effective and a post-effective amendment thereto became effective on October 3, 2014. The shelf registration statement allows for the issuance of up to \$150,000,000 of common shares. The Fund entered into an agreement with Cantor Fitzgerald & Co. for the sale of up to an additional 3,977,022 shares.

The Adviser has paid the costs associated with the at-the-market offering of shares and will be reimbursed by the Fund up to 0.60% of the offering price of common shares sold pursuant to the shelf registration statement, not to exceed the amount of actual offering costs incurred. For the six months ended November 30, 2014, the Fund incurred \$126,035 of expenses associated with the at-the market offerings.

GOF I GUGGENHEIM STRATEGIC OPPORTUNITIES FUND SEMIANNUAL REPORT I 31

November 30, 2014

Note 11 – Indemnifications:

In the normal course of business, the Fund enters into contracts that contain a variety of representations, which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would require future claims that may be made against the Fund that have not yet occurred. However, the Fund expects the risk of loss to be remote.

Note 12 – Subsequent Event:

The Fund evaluated subsequent events through the date the financial statements were available for issue and determined there were no additional material events that would require disclosure in the Fund's financial statements, except as noted below.

On December 1, 2014, the Fund declared a monthly dividend to common shareholders of \$0.1821 per common share. The dividend was payable on December 31, 2014, to shareholders of record on December 15, 2014.

On January 2, 2015, the Fund declared a monthly dividend to common shareholders of \$0.1821 per common share. The dividend is payable on January 30, 2015, to shareholders of record on January 15, 2015.

Each officer serves an indefinite term, until his or her successor is duly elected and qualified. Time served includes
** time served in the respective position for the Predecessor Corporation.

DIVIDEND REINVESTMENT PLAN (Unaudited)

November 30, 2014

Unless the registered owner of common shares elects to receive cash by contacting the Computershare Shareowner Services LLC (the "Plan Administrator"), all dividends declared on common shares of the Fund will be automatically reinvested by the Plan Administrator, Administrator for shareholders in the Fund's Dividend Reinvestment Plan (the "Plan"), in additional common shares of the Fund. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional common shares of the Fund for you. If you wish for all dividends declared on your common shares of the Fund to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each common shareholder under the Plan in the same name in which such common shareholder's common shares are registered. Whenever the Fund declares a dividend or other distribution (together, a "Dividend") payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ("Newly Issued Common Shares") or (ii) by purchase of outstanding common shares on the open market ("Open-Market Purchases") on the New York Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commission per common share is equal to or greater than the net asset value per common share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per common share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per common share on the payment date. If, on the payment date for any Dividend, the net asset value per common share is greater than the closing market value plus estimated brokerage commission, the Plan Administrator will invest the Dividend amount in common shares acquired on behalf of the participants in Open-Market Purchases.

If, before the Plan Administrator has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per common share, the average per common share purchase price paid by the Plan Administrator may exceed the net asset value of the common shares, resulting in the acquisition of fewer common shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per common share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will

forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instruction of the participants.

There will be no brokerage charges with respect to common shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commission incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such Dividends.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare Shareowner Services LLC, P.O. Box 30170, College Station, TX 77842-3170; Attention: Shareholder Services Department, Phone Number: (866) 488-3559.

Privacy Principles of the Fund

The Fund is committed to maintaining the privacy of its shareholders and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information the Fund collects, how the Fund protects that information and why, in certain cases, the Fund may share information with select other parties.

Generally, the Fund does not receive any non-public personal information relating to its shareholders, although certain non-public personal information of its shareholders may become available to the Fund. The Fund does not disclose any non-public personal information about its shareholders or former shareholders to anyone, except as permitted by

law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

The Fund restricts access to non-public personal information about its shareholders to employees of the Fund's investment advisor and its affiliates with a legitimate business need for the information. The Fund maintains physical, electronic and procedural safeguards designed to protect the non-public personal information of its shareholders.

Questions concerning your shares of Guggenheim Credit Allocation Fund?

- If your shares are held in a Brokerage Account, contact your Broker.
- If you have physical possession of your shares in certificate form, contact the Fund's Transfer Agent: Computershare Shareowner Services LLC, P.O. Box 30170 College Station, TX 77842-3170; (866) 488-3559

This report is sent to shareholders of Guggenheim Strategic Opportunities Fund for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this report.

A description of the Fund's proxy voting policies and procedures related to portfolio securities is available without charge, upon request, by calling the Fund at (800)345-7999.

Information regarding how the Fund voted proxies for portfolio securities, if applicable, during the most recent 12-month period ended June 30, is also available, without charge and upon request by calling (800)345-7999, by visiting the Fund's website at guggenheiminvestments.com/gof or by accessing the Fund's Form N-PX on the U.S. Securities and Exchange Commission's (SEC) website at www.sec.gov.

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC website at www.sec.gov or by visiting the Fund's website at guggenheiminvestments.com/gof. The Fund's Form N-Q may also be viewed and copied at the SEC's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330 or at www.sec.gov.

Notice to Shareholders

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that the Fund from time to time may purchase shares of its common stock in the open market.

GOF I GUGGENHEIM STRATEGIC OPPORTUNITIES FUND SEMIANNUAL REPORT I 39

ABOUT THE FUND MANAGERS

Guggenheim Partners Investment Management, LLC

Guggenheim Partners Investment Management, LLC (“GPIM”) is an indirect subsidiary of Guggenheim Partners, LLC, a diversified financial services firm. The firm provides capital markets services, portfolio and risk management expertise, wealth management, and investment advisory services. Clients of Guggenheim Partners, LLC subsidiaries are an elite mix of individuals, family offices, endowments, foundations, insurance companies and other institutions.

Investment Philosophy

GPIM’s investment philosophy is predicated upon the belief that thorough research and independent thought are rewarded with performance that has the potential to outperform benchmark indexes with both lower volatility and lower correlation of returns over time as compared to such benchmark indexes.

Investment Process

GPIM’s investment process is a collaborative effort between various groups including the Portfolio Construction Group, which utilize proprietary portfolio construction and risk modeling tools to determine allocation of assets among a variety of sectors, and its Sector Specialists, who are responsible for security selection within these sectors and for implementing securities transactions, including the structuring of certain securities directly with the issuers or with investment banks and dealers involved in the origination of such securities.
