1All or a portion of these securities have been physically segregated in connection with borrowings and reverse repurchase agreements. As of July 31, 2015, the total value was \$267,823,664.

2All or a portion of these securities represent cover for outstanding written option. As of July 31, 2015, the total value of these positions segregated was \$1,347,360.

3Perpetual maturity.

Edgar Filing: Advent Claymore Convertible Securities & Income Fund II - Form N-Q

- 4All or a portion of these securities are reserved and/or pledged with the custodian for forward foreign currency exchange contracts. At July 31, 2015, the total amount segregated was \$5,611,695.
- 5Security is a 144A or Section 4(a)(2) security. The total market value of 144A or Section 4(a)(2) securities is \$85,007,380 (cost \$89,250,061), or 35.5% of total net assets. These securities have been determined to be liquid under guidelines established by the Board of Trustees.
- 6Zero coupon rate security.
- 7Security is a step-up/down bond. The coupon increases or decreases at regular intervals until the bond reaches full maturity.
- 8Security is an accreting bond until December 15, 2017 with a 4.00% principal accretion rate, and then accretes at a 2.00% principal accretion rate until maturity.
- 9Security is in default of interest and/or principal obligations.
- 10Security was fair valued by the Valuation Committee at July 31, 2015. The total market value of fair valued securities amounts to \$5,680, (cost \$2,840,000) or less than 0.1% of total net assets.
- 11Variable rate security. The rate shown is as of July 31, 2015.

NOTES TO SCHEDULE OF INVESTMENTS (Unaudited)

July 31, 2015

For information on the Advent Claymore Convertible Securities and Income Fund II's (the "Fund") policy regarding valuation of investments and other significant accounting policies, please refer to the Fund's most recent semiannual or annual shareholder report.

Note 1 – Accounting Policies:

The preparation of the financial statements in accordance with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

The following is a summary of the significant accounting policies followed by the Fund.

Equity securities listed on an exchange are valued at the last reported sale price on the primary exchange on which they are traded. Equity securities traded on an exchange or on the other over-the-counter market and for which there are no transactions on a given day are valued at the mean of the closing bid and ask prices. Securities traded on NASDAQ are valued at the NASDAQ Official Closing Price. Equity securities not listed on a securities exchange or NASDAQ are valued at the mean of the closing bid and ask prices. Debt securities are valued by independent pricing services or dealers using the mean of the closing bid and ask prices for such securities or, if such prices are not available, at prices for securities of comparable maturity, quality and type. If sufficient market activity is limited or does not exist, the pricing providers or broker-dealers may utilize proprietary valuation models which consider market characteristics such as benchmark yield curves, option-adjusted spreads, credit spreads, estimated default rates, coupon rates, anticipated timing of principal repayments, underlying collateral, or other unique security features in order to estimate relevant cash flows, which are then discounted to calculate a security's fair value. Exchange-traded funds and listed closed-end funds are valued at the last sale price or official closing price on the exchange where the security is principally traded. Swaps are valued daily by independent pricing services or dealers using the mid price. Forward foreign currency exchange contracts are valued daily at current exchange rates. Futures contracts are valued using the settlement price established each day on the exchange on which they are traded. Exchange-traded options are valued at the closing price, if traded that day. If not traded, they are valued at the mean of the bid and ask prices on the primary exchange on which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at market price, or if a market price is not available, at amortized cost, provided such amount approximates market value. The Fund values money market funds at net asset value.

For those securities where quotations or prices are not available, the valuations are determined in accordance with procedures established in good faith by management and approved by the Board of Trustees. A valuation committee consisting of representatives from investment management, fund administration, legal and compliance is responsible for the oversight of the valuation process of the Fund and convenes monthly, or more frequently as needed. The valuation committee reviews monthly Level 3 fair valued securities methodology, price overrides, broker quoted securities, price source changes, illiquid securities, unchanged priced securities, halted securities, price challenges, fair valued securities sold and back testing trade prices in relation to prior day closing prices. On a quarterly basis, the valuations and methodologies of all Level 3 fair valued securities are presented to the Fund's Board of Trustees.

Valuations in accordance with these procedures are intended to reflect each security's (or asset's) fair value. Such fair value is the amount that the Fund might reasonably expect to receive for the security (or asset) upon its current sale. Each such determination is based on a consideration of all relevant factors, which are likely to vary from one security to another. Examples of such factors may include, but are not limited to: (i) the type of security, (ii) the initial cost of the security, (iii) the existence of any contractual restrictions on the security's disposition, (iv) the price and extent of public trading in similar securities of the issuer or of comparable companies, (v) quotations or evaluated prices from

broker-dealers and/or pricing services, (vi) information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange traded securities), (vii) an analysis of the company's financial statements, and (viii) an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold (e.g. the existence of pending merger activity, public offerings or tender offers that might affect the value of the security). There were no securities fair valued in accordance with such procedures established by the Board of Trustees as of July 31, 2015.

GAAP requires disclosure of fair valuation measurements as of each measurement date. In compliance with GAAP, the Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and summarized in the following fair value hierarchy:

Level 1 - quoted prices in active markets for identical securities

Level 2 - quoted prices in inactive markets or other significant observable inputs (e.g. quoted prices for similar securities; interest rates; prepayment speed; credit risk; yield curves)

Level 3 - significant unobservable inputs (e.g. discounted cash flow analysis; non-market based methods used to determine fair value)

Observable inputs are those based upon market data obtained from independent sources, and unobservable inputs reflect the Fund's own assumptions based on the best information available. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following are certain inputs and techniques that are generally utilized to evaluate how to classify each major type of investment in accordance with GAAP.

Equity Securities (Common and Preferred Stock) – Equity securities traded in active markets where market quotations are readily available are categorized as Level 1. Equity securities traded in inactive markets and certain foreign equities are valued using inputs which include broker quotes, prices of securities closely related where the security held is not trading but the related security is trading, and evaluated price quotes received from independent pricing providers. To the extent that these inputs are observable, such securities are categorized as Level 2. To the extent that these inputs are unobservable, such securities are categorized as Level 3.

Convertible Bonds & Notes – Convertible bonds and notes are valued by independent pricing providers who employ matrix pricing models utilizing various inputs such as market prices, broker quotes, prices of securities with comparable maturities and qualities, and closing prices of corresponding underlying securities. To the extent that these inputs are observable, such securities are categorized as Level 2. To the extent that these inputs are unobservable, such securities are categorized as Level 3.

Corporate Bonds & Notes – Corporate bonds and notes are valued by independent pricing providers who employ matrix pricing models utilizing various inputs such as market prices, broker quotes, prices of securities with comparable maturities and qualities, and closing prices of corresponding underlying securities. To the extent that these inputs are observable, such securities are categorized as Level 2. To the extent that these inputs are unobservable, such securities are categorized as Level 3.

Listed derivatives that are actively traded are valued based on quoted prices from the exchange and categorized in Level 1 of the fair value hierarchy. Over-the-counter (OTC) derivative contracts including forward foreign currency

exchange contracts and option contracts derive their value from underlying asset prices, indices, reference rates, and other inputs. Depending on the product and terms of the transaction, the fair value of the OTC derivative products can be modeled taking into account the counterparties' creditworthiness and using a series of techniques, including simulation models. Many pricing models do not entail material subjectivity because the methodologies employed do not necessitate significant judgments, and the pricing inputs are observed from actively quoted markets. These OTC derivatives are categorized within Level 2 of the fair value hierarchy.

Transfers between valuation levels, if any, are in comparison to the valuation levels at the end of the previous fiscal year, and are effective using the fair value as of the end of the current fiscal period.

There were no transfers between valuation levels during the period ended July 31, 2015.

The following table represents the Fund's investments carried on the Statement of Assets and Liabilities by caption and by level within the fair value hierarchy as of July 31, 2015:

| Description | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | Total |
|---|--|---|--|----------------------|
| Assets: | | | | |
| Convertible Bonds | \$- | \$219,308,186 | \$ 5,680 | \$219,313,866 |
| Corporate Bonds | - | 105,061,856 | - | \$105,061,856 |
| Senior Floating Rate Interests | - | 2,116,079 | - | \$2,116,079 |
| Convertible Preferred Stocks | 29,260,127 | - | - | \$29,260,127 |
| Common Stocks | 41,429,176 | - | - | \$41,429,176 |
| Short Term Investments | 5,611,695 | - | - | \$5,611,695 |
| Forward Foreign Currency Exchange Contracts | - | 1,574,541 | - | \$1,574,541 |
| Total | \$76,300,998 | \$328,060,662 | \$ 5,680 | \$404,367,340 |
| Liabilities: | | | | |
| Call Options Written | \$3,360 | \$- | \$ - | \$3,360 |
| Put Options Written | 22,680 | | | \$22,680 |
| Forward Foreign Currency Exchange Contracts | - | 58,649 | - | \$58,649 |
| Total | \$26,040 | \$58,649 | \$ - | \$84,689 |

If not referenced in the table, please refer to the Portfolio of Investments for a breakdown of investment type by industry category.

The following table summarizes valuation techniques and inputs used in determining the fair value of holdings categorized as Level 3 at July 31, 2015:

| Category | Ending balance as of July 31, 2015 | Valuation Technique | Unobservable Inputs |
|------------------|--|-------------------------------|---------------------------------------|
| Convertible Bond | \$ 5,680 | Last Available Transaction | Discount on Last Transaction Price |

A significant change in the unobservable inputs could result in significant changes in the fair value of the securities.

Summary of Fair Value Level 3 Activity

Following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value for the period ended July 31, 2015:

Level 3 Holdings Convertible Bonds

Edgar Filing: Advent Claymore Convertible Securities & Income Fund II - Form N-Q

| | | |
|---------------------------------|----|-------|
| Beginning Balance at 10/31/2014 | \$ | 5,680 |
| Ending Balance at 7/31/15 | \$ | 5,680 |

Note 2 – Federal Income

Taxes:

As of July 31, 2015, the cost of investments and accumulated unrealized appreciation/depreciation on investments for federal income tax purposes were as follows:

| Cost of Investments for Tax Purposes | Gross Tax Unrealized Appreciation | Gross Tax Unrealized Depreciation | Net Tax Unrealized Depreciation on Investments | Net Tax Unrealized Appreciation on Derivatives and Foreign Currency |
|--------------------------------------|-----------------------------------|-----------------------------------|--|---|
| \$ 409,369,921 | \$ 13,653,389 | \$ (20,230,511) | \$ (6,577,122) | \$ 1,525,743 |

Note 3 – Forward Foreign Currency Exchange

Contracts:

As of July 31, 2015, the following forward foreign currency exchange contracts were outstanding:

Note 4 – Loan Commitments:

As of July 31, 2015, the Fund had the following unfunded loan commitments which could be extended at the option of the borrower:

| Borrower | Maturity Date | Face Amount | Value |
|-------------------------------------|---------------|-------------|------------|
| FMG Resources August 2006 Pty. Ltd. | 06/30/2019 | \$ 660,000 | \$ 542,506 |

Item 2. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) as of a date within 90 days of the filing date of this report and have concluded, based on such evaluation, that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant on this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.
- (b) There was no change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) that occurred during the registrant's last fiscal quarter that has materially affected or is reasonably likely to materially affect the registrant's internal control over financial reporting.

Item 3. Exhibits.

A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940, as amended (17 CFR 270.30a-2(a)), is attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
