Item 3.02 Unregistered Sales of Equity Securities

On June 29, 2007, Airgas, Inc. ( Airgas ) reached a definitive agreement with its National Welders Supply Company ( National Welders ) joint venture partners to exchange all 3.2 million preferred shares of National Welders, with a redemption value of \$57 million, for 2.47 million shares of Airgas common stock. The exchange will transition the joint venture into a wholly-owned subsidiary of Airgas. Since 1996, Airgas has owned 100% of the joint venture s common stock, with a 50% voting interest. The Turner family and other owners of National Welders preferred stock held the balance of the voting interest and received a 5% annual preferred stock dividend. The effect of the transaction will be to convert a minority interest liability of \$57 million, representing the redemption value of the preferred stock, to Airgas common equity. In addition, Airgas will recognize a one-time after-tax charge of approximately \$3 million in its quarter ended September 30, 2007 as a result of the transaction.

On July 3, 2007, Airgas issued the 2.47 million shares of Airgas common stock for the benefit of the National Welders preferred stockholders in reliance upon an applicable exemption from registration under Section 4(2) of the Securities Act of 1933 in connection with a transaction that did not involve a public offering. Judith Carpenter of the Turner family has custody of the shares of Airgas common stock, as agent for and on behalf of the preferred stockholders. The shares of Airgas common stock were acquired for investment and not with a view to their distribution and were issued to holders thereof that had access to information respecting Airgas and its business. Airgas has agreed to use its commercially reasonable best efforts to register the Airgas common stock under the Securities Act of 1933 as soon as reasonably practicable.

The press release dated July 2, 2007 announcing the definitive agreement reached by Airgas with its National Welders joint venture partners is attached hereto as Exhibit 99.1 and is incorporated herein by reference.
