UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarter Ended:
August 1, 2015

Commission File Number:
001-16435

Chico's FAS, Inc.
(Exact name of registrant as specified in charter)

Florida
(State of Incorporation)

59-2389435
(I.R.S. Employer
Identification No.)

11215 Metro Parkway, Fort Myers, Florida 33966
(Address of principal executive offices)
239-277-6200
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer, accelerated filer and smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☒ Accelerated filer ☐

Non-accelerated filer ☐ (do not check if a smaller reporting company) Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

At August 20, 2015, the registrant had 139,289,039 shares of Common Stock, \$0.01 par value per share, outstanding.

Chico's FAS, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
August 1, 2015
(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Chico's FAS, Inc. and its wholly-owned subsidiaries (collectively, the "Company") have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and notes required by accounting principles generally accepted in the U.S. ("U.S. GAAP") for complete financial statements. In the opinion of management, such interim financial statements reflect all normal, recurring adjustments considered necessary to present fairly the condensed consolidated financial position, the results of operations and cash flows for the interim periods presented. All significant intercompany balances and transactions have been eliminated in consolidation. For further information, refer to the consolidated financial statements and notes thereto for the fiscal year ended January 31, 2015, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on March 9, 2015.

As used in this report, all references to "we," "us," "our," and "the Company," refer to Chico's FAS, Inc. and all of its wholly-owned subsidiaries.

Our fiscal years end on the Saturday closest to January 31 and are designated by the calendar year in which the fiscal year commences. Operating results for the thirteen weeks and twenty-six weeks ended August 1, 2015 are not necessarily indicative of the results that may be expected for the entire year.

Note 2. New Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board ("FASB") issued ASU No. 2015-11, Simplifying the Measurement of Inventory (Topic 330). The amendments, which apply to inventory that is measured using any method other than the last-in, first-out (LIFO) or retail inventory method, require that entities measure inventory at the lower of cost or net realizable value. ASU 2015-11 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016 and should be applied on a prospective basis. We are currently assessing the potential impact of adopting this ASU, but do not, at this time, anticipate a material impact to our consolidated results of operations, financial position or cash flows.

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, which modifies the presentation of debt issuance costs in financial statements. ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts, rather than the Company's current classification as a deferred asset within Other Assets. ASU 2015-03 is effective for interim and annual reporting periods beginning after December 15, 2016. Early adoption is permitted. We elected to early adopt this guidance in the second quarter ended August 1, 2015, and have presented the debt issuance costs related to our revolving credit facility as a deferred asset within Other Assets, as is permitted by ASU No. 2015-15, Imputation of Interest, which was issued in August 2015. Such adoption did not have a material impact to our consolidated financial position.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers. The update outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. ASU 2014-09 requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration the entity expects to be entitled to in exchange for those goods or services. In July 2015, the FASB approved a one year deferral of the effective date, to make it effective for annual and interim reporting periods beginning after December 15, 2017. The standard allows for either a full retrospective or a modified retrospective transition method. We are currently assessing the new standard and its potential impact to our consolidated results of operations, financial position and cash flows.

In April 2014, the FASB issued ASU No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360). Under ASU 2014-08, only disposals that represent a strategic shift that has (or will

have) a major effect on the entity's operations and financial results would qualify as discontinued operations. The update also requires expanded disclosures for discontinued operations and requires entities to disclose information about disposals of individually significant components that don't qualify for discontinued operations reporting. ASU 2014-08 was effective prospectively for interim and annual reporting periods beginning after December 15, 2014. We adopted this standard beginning with the first quarter ended May 2, 2015 and have applied this standard to the Boston Proper disposal, as further discussed in Note 3.

Table of Contents

Chico's FAS, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
August 1, 2015
(Unaudited)

Note 3. Restructuring and Strategic Charges

During the fourth quarter of fiscal 2014, we initiated a restructuring program, including the acceleration of domestic store closures and an organizational realignment, to ensure that resources are aligned with long-term growth initiatives, including omni-channel. In connection with this effort, in the fourth quarter of fiscal 2014, we recorded pre-tax restructuring and other charges of approximately \$16.7 million primarily related to severance, store closures and other impairment charges.

During the second quarter of fiscal 2015 in connection with the restructuring program, we completed an evaluation of the Boston Proper brand and initiated a plan (the "Plan") to sell the direct-to-consumer ("DTC") business and close its stores, allowing us to focus our efforts on our core omni-channel brands. The Boston Proper DTC business is currently being marketed by a third party on our behalf. As of August 1, 2015, all assets and liabilities of the Boston Proper DTC business have been recorded as held for sale in the accompanying condensed consolidated balance sheets at fair value less costs to sell. While we currently expect to sell the Boston Proper DTC business, the sale is dependent on local and global economic factors and the existence of prospective buyers, among other factors. There can be no assurance that we will realize our expected proceeds or that the sale, if any, will be complete within a reasonable time. We assessed the disposal group and determined that the sale of the Boston Proper DTC business will not have a major effect on our consolidated results of operations, financial position or cash flows. Accordingly, the disposal group is not presented in the financial statements as a discontinued operation. Pretax losses in the second quarter of fiscal 2015 and 2014 for the Boston Proper DTC business were \$1.4 million and \$0.9 million, respectively. Pretax losses in the year-to-date period of fiscal 2015 and 2014 were \$4.4 million and \$2.6 million, respectively.

A summary of the restructuring and strategic charges is presented in the table below:

	Twenty-Six Weeks Ended		Thirteen Weeks Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
	(in thousands)			
Impairment charges	\$20,930	\$—	\$14,978	\$—
Continuing employee-related costs	5,639	—	14	—
Severance charges	1,820	—	186	—
Lease termination charges	2,757	—	1,688	—
Other	(105)) —	(700)) —
Total restructuring and strategic charges, pre-tax	\$31,041	\$—	\$16,166	\$—

During the second quarter of fiscal 2015, we recorded pre-tax restructuring and strategic charges in the accompanying condensed consolidated statements of income of \$16.2 million, primarily related to \$12.7 million in property and equipment impairment charges related to Boston Proper and a \$2.0 million loss recognized on Boston Proper DTC assets held for sale. During the year-to-date period of fiscal 2015, we recorded pre-tax restructuring and strategic charges of \$31.0 million, primarily related to \$20.9 million in property and equipment impairment charges, \$5.6 million in continuing employee-related costs, \$1.8 million in severance charges and \$2.8 million in lease termination charges.

In connection with the restructuring and strategic activities, we determined to increase the rate of domestic store closures and identified 160-165 under-performing stores for closure, including the Boston Proper stores. Through the second quarter of 2015, 20 stores across our brands have been closed. We plan to close an additional 53 stores, including the Boston Proper stores, in fiscal 2015, with the remainder to be closed in fiscal 2016 and 2017. As a result, we expect to incur additional cash charges related to lease termination expenses of approximately \$9.4 million.

Table of Contents

Chico's FAS, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
August 1, 2015
(Unaudited)

As of August 1, 2015, a reserve of \$6.3 million related to restructuring and strategic activities was outstanding and was included in other current and deferred liabilities in the accompanying condensed consolidated balance sheets. A roll-forward of the reserve is presented as follows:

	Severance Charges	Lease Termination Charges	Other	Total
	(in thousands)			
Beginning Balance, January 31, 2015	\$7,577	\$—	\$486	\$8,063
Charges	1,820	2,757	596	5,173
Payments	(5,564)	(313)	(1,082)	(6,959)
Ending Balance, August 1, 2015	\$3,833	\$2,444	\$—	\$6,277

Note 4. Goodwill and Trade Name Impairment Charges

In the second quarter of fiscal 2015, in connection with the Plan, we recorded a pre-tax goodwill impairment charge of \$48.9 million, reducing the carrying value of goodwill to zero, and a pre-tax impairment charge related to the Boston Proper trade name of \$18.0 million, reducing the carrying value of the trade name to \$23.6 million. The carrying value of the Boston Proper trade name is included in assets held for sale in the condensed consolidated balance sheet as of August 1, 2015.

The following table provides changes in the carrying amount of Boston Proper goodwill:

	August 1, 2015
	(in thousands)
Gross carrying amount	\$141,919
Cumulative impairment, January 31, 2015	(93,066)
Impairment charges	(48,853)
Cumulative impairment, August 1, 2015	(141,919)
Net carrying amount	\$—

Note 5. Stock-Based Compensation

For the twenty-six weeks ended August 1, 2015 and August 2, 2014, stock-based compensation expense was \$13.7 million and \$12.7 million, respectively. As of August 1, 2015, approximately 6.8 million shares remain available for future grants of equity awards under our 2012 Omnibus Stock and Incentive Plan.

Restricted Stock Awards

Restricted stock award activity for the twenty-six weeks ended August 1, 2015 was as follows:

	Number of Shares	Weighted Average Grant Date Fair Value
Unvested, beginning of period	3,918,189	\$15.70
Granted	1,262,720	18.14
Vested	(1,316,265)	16.04
Forfeited	(410,879)	16.92
Unvested, end of period	3,453,765	16.32

Table of Contents

Chico's FAS, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
August 1, 2015
(Unaudited)

Performance-based Restricted Stock Units

For the twenty-six weeks ended August 1, 2015, we granted performance-based restricted stock units ("PSUs"), contingent upon the achievement of a Company-specific performance goal during fiscal 2015. Any units earned as a result of the achievement of this goal will vest over 3 years from the date of grant and will be settled in shares of our common stock.

Performance-based restricted stock unit activity for the twenty-six weeks ended August 1, 2015 was as follows:

	Number of Shares	Weighted Average Grant Date Fair Value
Unvested, beginning of period	213,453	\$15.01
Granted	526,810	18.23
Vested	(213,453)	15.01
Forfeited	(18,732)	18.23
Unvested, end of period	508,078	18.23

Stock Option Awards

For the twenty-six weeks ended August 1, 2015 and August 2, 2014, we did not grant any stock options. In the years that we granted options, we used the Black-Scholes option-pricing model to value our stock options.

Stock option activity for the twenty-six weeks ended August 1, 2015 was as follows:

	Number of Shares	Weighted Average Exercise Price
Outstanding, beginning of period	1,947,928	\$15.16
Granted	—	—
Exercised	(695,461)	11.46
Forfeited or expired	(110,866)	29.88
Outstanding and exercisable at August 1, 2015	1,141,601	15.99

Note 6. Income Taxes

The provision for income taxes is based on a current estimate of the annual effective tax rate and is adjusted as necessary for quarterly events. Our effective income tax rate may fluctuate from quarter to quarter as a result of a variety of factors, including changes in our assessment of certain tax contingencies, valuation allowances, changes in tax law, outcomes of administrative audits, the impact of discrete items, and the mix of earnings.

For the thirteen weeks ended August 1, 2015 and August 2, 2014 the effective tax rate was (108.1)% and 35.5%, respectively. The income tax benefit for the second quarter of 2015 of \$28.2 million and effective tax rate of (108.1)% primarily reflected the tax benefit related to the expected disposition of Boston Proper's stock and the tax benefit of Boston Proper goodwill impairment on the annual effective tax rate.

For the twenty-six weeks ended August 1, 2015 and August 2, 2014, the effective tax rate was (32.5)% and 36.7%, respectively. The income tax benefit for fiscal 2015 of \$8.5 million and effective tax rate of (32.5)% primarily reflected the tax benefit related to the expected disposition of Boston Proper's stock and the tax benefit of Boston Proper goodwill impairment on the annual effective tax rate.

Note 7. Earnings Per Share

In accordance with relevant accounting guidance, unvested share-based payment awards that include non-forfeitable rights to dividends, whether paid or unpaid, are considered participating securities. As a result, such awards are required to be

Table of Contents

Chico's FAS, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

August 1, 2015

(Unaudited)

included in the calculation of earnings per common share pursuant to the "two-class" method. For us, participating securities are composed entirely of unvested restricted stock awards and PSUs that have met their relevant performance criteria.

Earnings per share ("EPS") is determined using the two-class method, as it is more dilutive than the treasury stock method. Basic EPS excludes dilution and is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding during the period, including participating securities. Diluted EPS reflects the dilutive effect of potential common shares from non-participating securities such as stock options and PSUs.

The following table sets forth the computation of basic and diluted EPS shown on the face of the accompanying condensed consolidated statements of income (in thousands, except per share amounts):

	Twenty-Six Weeks Ended		Thirteen Weeks Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Numerator				
Net income	\$34,647	\$70,008	\$2,122	\$30,126
Net income and dividends declared allocated to participating securities	(804)	(1,902)	(28)	(842)
Net income available to common shareholders	\$33,843	\$68,106	\$2,094	\$29,284
Denominator				
Weighted average common shares outstanding – basic	140,992	148,584	138,606	148,694
Dilutive effect of non-participating securities	347	543	355	524
Weighted average common and common equivalent shares outstanding – diluted	141,339	149,127	138,961	149,218
Net income per common share:				
Basic	\$0.24	\$0.46	\$0.02	\$0.20
Diluted	\$0.24	\$0.46	\$0.02	\$0.20

For the twenty-six weeks ended August 1, 2015 and August 2, 2014, 0.8 million and 0.6 million potential shares of common stock, respectively, were excluded from the diluted per share calculation relating to non-participating securities, because the effect of including these potential shares was antidilutive.

For the thirteen weeks ended August 1, 2015 and August 2, 2014, 0.3 million and 0.6 million potential shares of common stock, respectively, were excluded from the diluted per share calculation relating to non-participating securities, because the effect of including these potential shares was antidilutive.

Note 8. Fair Value Measurements

Our financial instruments consist of cash, money market accounts, marketable securities, assets held in our non-qualified deferred compensation plan, accounts receivable and payable, and debt. Cash, accounts receivable and accounts payable are carried at cost, which approximates their fair value due to the short-term nature of the instruments. Refer to Note 11 for the fair value of the Company's outstanding debt instruments.

Marketable securities are classified as available-for-sale and as of August 1, 2015 generally consist of corporate bonds, U.S. government agencies and commercial paper with \$26.9 million of securities with maturity dates within one year or less and \$21.1 million with maturity dates over one year and less than two years.

We consider all marketable securities available-for-sale, including those with maturity dates beyond 12 months, and therefore classify these securities within current assets on the condensed consolidated balance sheets as they are available to support current operational liquidity needs. Marketable securities are carried at fair value, with the unrealized holding gains and

Table of Contents

Chico's FAS, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
August 1, 2015
(Unaudited)

losses, net of income taxes, reflected in accumulated other comprehensive income until realized. For the purposes of computing realized and unrealized gains and losses, cost is determined on a specific identification basis.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. Entities are required to use a three-level hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 — Unadjusted quoted prices in active markets for similar assets or liabilities, or; Unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or; Inputs other than quoted prices that are observable for the asset or liability

Level 3 — Unobservable inputs for the asset or liability

We measure certain financial assets at fair value on a recurring basis, including our marketable securities, which are classified as available-for-sale securities, certain cash equivalents, specifically our money market accounts, and assets held in our non-qualified deferred compensation plan. The money market accounts are valued based on quoted market prices in active markets. Our marketable securities are generally valued based on other observable inputs for those securities (including market corroborated pricing or other models that utilize observable inputs such as interest rates and yield curves) based on information provided by independent third party pricing entities, except for U.S. government securities which are valued based on quoted market prices in active markets. The investments in our non-qualified deferred compensation plan are valued using quoted market prices and are included in other assets on our condensed consolidated balance sheets.

From time to time, we measure certain assets at fair value on a non-recurring basis, including evaluation of long-lived assets, goodwill and other intangible assets for impairment using company-specific assumptions which would fall within Level 3 of the fair value hierarchy. The carrying value of the current assets and liabilities held for sale related to the the Boston Proper DTC business approximate their fair value due to their short-term nature. We estimate the fair value of other assets held for sale using market values for similar assets which would fall within Level 2 of the fair value hierarchy. During the second quarter of fiscal 2015, we recorded \$81.6 million in pre-tax impairment charges related to assets measured at fair value on a non-recurring basis, comprised of \$48.9 million in Boston Proper goodwill impairment, \$18.0 million pre-tax in Boston Proper trade name impairment, \$12.7 million in property and equipment impairment charges related to Boston Proper and a \$2.0 million loss recognized on Boston Proper DTC assets held for sale.

To assess the fair value of Boston Proper goodwill, we utilized an income approach, which incorporated market assumptions. Inputs used to calculate the fair value based on the income approach primarily included estimated future cash flows for the DTC business, discounted at a rate that approximates a rate that would be used by a market participant. Inputs used to calculate the fair value also incorporated market assumptions and included consideration of multiples of sales and earnings based on guidelines for publicly traded companies and recent transactions.

To assess the fair value of the Boston Proper trade name, we utilized a relief from royalty approach. Inputs used to calculate the fair value of the trade name primarily included future sales projections for the DTC business, discounted at a rate that approximates a rate that would be used by a market participant and estimated royalty rate.

Fair value calculations contain significant judgments and estimates, which may differ from actual results due to, among other things, economic conditions, changes to the business model or changes in operating performance.

During the quarter ended August 1, 2015, we did not make any transfers between Level 1 and Level 2 financial assets. Furthermore, as of August 1, 2015, January 31, 2015 and August 2, 2014, we did not have any Level 3 cash equivalents or marketable securities. We conduct reviews on a quarterly basis to verify pricing, assess liquidity, and determine if significant inputs have changed that would impact the fair value hierarchy disclosure.

(Unaudited)

Note 9. Inventories

As of August 1, 2015, in connection with the Plan, Boston Proper DTC inventories of \$11.3 million were reclassified to assets held for sale, as further discussed in Note 10. When including inventory related to the Boston Proper DTC business, inventories totaled \$250.3 million compared to \$238.1 million in last year's second quarter.

Note 10. Assets and Liabilities Held for Sale

As of August 1, 2015, all assets and liabilities of the Boston Proper DTC business have been recorded as held for sale in the accompanying condensed consolidated balance sheets. All assets held for sale were measured at fair value less costs to sell, resulting in a loss of \$2.0 million in the second quarter of 2015, which is reflected in restructuring and strategic charges in the condensed consolidated statements of income.

The following table summarizes the balances of assets and liabilities held for sale as of August 1, 2015. Other intangible assets is presented net of impairment charges, as further discussed in Note 4:

	August 1, 2015
	(in thousands)
Assets:	
Inventories	\$11,282
Other current assets	1,709
Property and equipment, net	565
Other intangible assets, net	50,341
Boston Proper DTC assets	63,897
Loss recognized on Boston Proper DTC assets held for sale	(2,000)
Total Boston Proper DTC assets held for sale	61,897
Land and other assets held for sale	24,044
Total assets held for sale	\$85,941
Liabilities:	
Current liabilities	\$7,297
Total Boston Proper DTC liabilities held for sale	\$7,297

Note 11. Debt

On May 4, 2015, we entered into a credit agreement (the "Agreement") among the Company, JPMorgan Chase Bank, N.A. as Administrative Agent, Bank of America, N.A., as Syndication Agent and the Lenders party hereto. Our obligations under the Agreement are guaranteed by certain of our material U.S. subsidiaries. The Agreement provides for a term loan commitment in the amount of \$100.0 million, of which \$100.0 million was drawn at closing, and matures on May 4, 2020, payable in quarterly installments, as defined in the Agreement, with the remainder due at maturity. The Agreement also provides for a \$100.0 million revolving credit facility, of which \$24.0 million was drawn at closing and was repaid in the second quarter of 2015. The revolving credit facility matures on May 4, 2020. The Agreement has borrowing options which accrue interest by reference, at our election, at either an adjusted eurodollar rate tied to LIBOR or an Alternate Base Rate plus an interest rate margin, as defined in the Agreement. The Agreement contains customary representations, warranties, and affirmative covenants, including the requirement to maintain certain financial ratios. The Company was in compliance with the applicable ratio requirements and other covenants at August 1, 2015.

On May 4, 2015, in connection with our entry into the Agreement, we repaid and terminated, with no prepayment penalties, the \$124.0 million outstanding obligation under our 2011 revolving credit facility. We used the proceeds

from the initial draw of the term loan and revolving credit facility of the Agreement to repay such obligations.

Table of Contents

Chico's FAS, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
August 1, 2015
(Unaudited)

As of August 1, 2015, \$97.2 million in net borrowings were outstanding under the Agreement, and are reflected as \$10.0 million in current debt and \$87.2 million in long-term debt in the accompanying condensed consolidated balance sheets. As of August 1, 2015, an unamortized debt discount of \$0.7 million was outstanding related to the Agreement and is allocated to other assets and long-term debt in the accompanying condensed consolidated balance sheet.

The following table provides details on our debt outstanding as of August 1, 2015, January 31, 2015 and August 2, 2014:

	August 1, 2015	January 31, 2015	August 2, 2014
	(in thousands)		
Credit Agreement, net of unamortized debt discount	\$97,186	\$—	\$—
Less: current portion	(10,000)) —	—
Total long-term debt, net of unamortized debt discount	\$87,186	\$—	\$—

Note 12. Share Repurchases

In December 2013, we announced a \$300.0 million share repurchase authorization, and immediately prior to the execution of the accelerated stock repurchase agreements ("ASR Agreements") described below, we had \$290.0 million remaining under the existing authority.

In March 2015, we entered into ASR Agreements with each of Merrill Lynch, Pierce, Fenner and Smith Incorporated ("Merill Lynch"), as agent for Merrill Lynch International, and J.P. Morgan Securities, LLC ("JP Morgan"), as agent for JPMorgan Chase Bank, N.A., to purchase \$250.0 million in outstanding shares of our common stock. Under the ASR Agreements, we made a payment of approximately \$125.0 million to each of Merrill Lynch and JP Morgan and received from each of them an initial delivery of approximately 5.35 million common shares. The value of the initial shares received on the date of purchase was approximately \$187.5 million. In the second quarter of fiscal 2015, Merill Lynch and JP Morgan delivered an additional 3.9 million shares upon completion of the ASR Agreements, valued at approximately \$62.5 million.

We accounted for the ASR Agreements as treasury stock repurchase transactions, reducing the shares outstanding by the 10.7 million common shares initially repurchased and resulted in an immediate reduction of the outstanding shares used to calculate the weighted-average common shares outstanding for basic and diluted earnings per share. The additional 3.9 million shares delivered resulted in a reduction of the outstanding shares on the date of delivery in the second quarter of fiscal 2015.

Following the consummation of the ASR Agreements, we had approximately \$40.0 million remaining under our share repurchase program. The repurchase program has no specific termination date and will expire when we have repurchased all securities authorized for repurchase thereunder, unless terminated earlier by our Board of Directors.

Note 13. Subsequent Events

The Company is not aware of any material subsequent events which would require recognition or disclosure in the condensed consolidated financial statements.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and notes thereto and our 2014 Annual Report to Stockholders.

Executive Overview

We are a leading omni-channel specialty retailer of women's private branded, sophisticated, casual-to-dressy clothing, intimates, complementary accessories, and other non-clothing items operating under the Chico's, White House | Black Market ("WH|BM"), Soma and Boston Proper brand names. We earn revenues and generate cash through the sale of merchandise in our domestic and international retail stores, on our various websites, through our call center which takes orders for all of our brands, and through an unaffiliated franchise partner in Mexico.

We utilize an integrated omni-channel approach to managing our business. We want our customers to experience our brands, not a channel within our brands, and view our various sales channels as a single, integrated process rather than as separate sales channels operating independently. This approach allows our customers to browse, purchase, return, or exchange our merchandise through whatever sales channel and at whatever time is most convenient for her. As a result, we track total sales and comparable sales on a combined basis.

During the second quarter of fiscal 2015, we completed an evaluation of the Boston Proper brand, including consideration of the long-term potential of stores for the brand, and initiated a plan (the "Plan") to sell the direct-to-consumer ("DTC") business and close its stores, as further discussed in Note 3, allowing us to focus our efforts on our core omni-channel brands.

Net sales for the second quarter of fiscal 2015 were \$680.4 million, an increase of 1.4% compared to \$671.1 million in last year's second quarter. The increase reflected 23 net new stores for a 1.3% square footage increase since last year's second quarter and a 0.5% increase in comparable sales. The 0.5% increase in comparable sales for the second quarter was on top of a 0.3% increase in last year's second quarter, reflecting an increase in average dollar sale partially offset by a decrease in transaction count.

Net income for the second quarter of fiscal 2015 was \$2.1 million, or \$0.02 per diluted share, compared to net income of \$30.1 million, or \$0.20 per diluted share, in last year's second quarter. Results for the second quarter of fiscal 2015 include the impact of Boston Proper non-cash goodwill and trade name impairment charges of \$47.1 million after-tax, or \$0.33 per diluted share, restructuring and strategic charges primarily related to property and equipment impairment charges for the Boston Proper stores of \$10.1 million after-tax, or \$0.07 per diluted share, and a tax benefit related to the expected disposition of Boston Proper's stock of \$23.8 million, or \$0.17 per diluted share. The change in earnings per share also reflects a decrease in net income, partially offset by the impact of approximately 14.6 million shares repurchased since the end of the second quarter last year, all of which were repurchased in fiscal 2015.

Net sales for the year-to-date period of fiscal 2015 were \$1.374 billion, an increase of 1.5% compared to \$1.353 billion in last year's year-to-date period. Net income for the year-to-date period of fiscal 2015 was \$34.6 million, or \$0.24 per diluted share, compared to net income of \$70.0 million, or \$0.46 per diluted share, in last year's year-to-date period. Results for the year-to-date period of fiscal 2015 include the impact of Boston Proper non-cash goodwill and trade name impairment charges of \$47.1 million after-tax, or \$0.33 per diluted share, restructuring and strategic charges primarily related to property and equipment impairment charges, employee-related costs and lease termination charges of \$19.3 million after-tax, or \$0.13 per diluted share, and a tax benefit related to the expected disposition of Boston Proper's stock of \$23.8 million, or \$0.17 per diluted share. The change in earnings per share also reflects a decrease in net income, partially offset by the impact of approximately 14.6 million shares repurchased since the end of the second quarter last year, all of which were repurchased in fiscal 2015.

Our Business Strategy

Our overall business strategy is focused on building and cultivating a portfolio of high-performing retail brands serving the fashion needs of women 35 years and older. In the near term, we are focused on increasing the sales volume and profitability of our existing brands. Over the long term, we may build our brand portfolio by considering the organic development or acquisition of other specialty retail concepts when our research indicates that the

opportunity complements our current brands and is appropriate and in the best interest of the shareholders.

Table of Contents

We pursue the growth of the brands in our portfolio by building our omni-channel capabilities, which includes managing our store base and our growing online presence, executing innovative marketing plans, effectively leveraging expenses and optimizing the potential of each of our brands. As part of our continuous efforts to improve our overall strategy while seeking to enhance and support our long-term growth, in fiscal 2014, we initiated new capital allocation and cost reduction initiatives that are focused on advancing our omni-channel capabilities in order to improve the overall customer experience, reducing overall capital expenditures, re-balancing our store fleet, effectively managing other expenses and improving our inventory management. Additionally, in fiscal 2015, we completed an evaluation of the Boston Proper brand and initiated a Plan to sell the DTC business and close its stores, allowing us to focus our efforts on our core omni-channel brands.

Table of Contents

Selling, General and Administrative Expenses

The following table depicts SG&A, which includes store and direct operating expenses, marketing expenses and National Store Support Center ("NSSC") expenses, in dollars and as a percentage of total net sales for the thirteen weeks ended August 1, 2015 and August 2, 2014:

	Thirteen Weeks Ended	
	August 1, 2015	August 2, 2014
	(dollars in thousands)	
Selling, general and administrative expenses	\$308,437	\$304,737
Percentage of total net sales	45.3	% 45.4

For the second quarter of fiscal 2015, SG&A was \$308.4 million compared to \$304.7 million in last year's second quarter. SG&A was 45.3% of net sales, a 10 basis point decrease from last year's second quarter, primarily reflecting benefits from previously announced cost reduction efforts, partially offset by an increase in accrued incentive compensation and occupancy costs.

Restructuring and Strategic Charges

In fiscal 2014, we initiated a restructuring program, including the acceleration of domestic store closures and an organizational realignment, to ensure that resources are aligned with long-term growth initiatives, including omni-channel. In connection with this effort, in the second quarter of fiscal 2015, we recorded pre-tax restructuring and strategic charges of \$16.2 million, primarily related to \$12.7 million in property and equipment impairment charges related to Boston Proper and a \$2.0 million loss recognized on Boston Proper DTC assets held for sale. The after-tax impact of the restructuring and strategic charges in the second quarter totaled \$10.1 million, or \$0.07 per diluted share.

In connection with the restructuring and strategic activities, we determined to increase the rate of domestic store closures and identified 160-165 under-performing stores for closure, including the Boston Proper stores. Through the second quarter of 2015, we have closed 20 stores across our brands. We plan to close an additional 53 stores, including the Boston Proper stores, in fiscal 2015, with the remainder to be closed in fiscal 2016 and 2017. As a result, we expect to incur additional cash charges related to lease termination expenses of approximately \$9.4 million.

Goodwill and Trade Name Impairment Charges

In the second quarter of fiscal 2015, in connection with the Plan, the Company determined that certain Boston Proper intangibles were impaired and recorded \$66.9 million in pre-tax, non-cash goodwill and trade name impairment charges. The \$66.9 million Boston Proper impairment charges included \$48.9 million related to goodwill and \$18.0 million related to the trade name.

The after-tax impact of the goodwill and trade name impairment charges totaled \$47.1 million, or \$0.33 per diluted share, inclusive of a \$13.0 million non-cash tax benefit resulting from the tax effect of the goodwill impairment on the annual effective tax rate. The \$13.0 million non-cash tax benefit in the second quarter is expected to be offset by approximately \$13.0 million in non-cash tax charges in the balance of the fiscal year.

Provision for Income Taxes

Our effective tax rate for the second quarter of fiscal 2015 was (108.1)%, compared to an effective tax rate of 35.5% in last year's second quarter. The income tax benefit of \$28.2 million and effective tax rate of (108.1)% primarily reflected the tax benefit related to the expected disposition of Boston Proper's stock and the tax benefit of Boston Proper goodwill impairment on the annual effective tax rate. Excluding the tax benefit related to the expected disposition of Boston Proper's stock and the tax benefit related to Boston Proper goodwill and trade name impairment charges, the 2015 second quarter effective tax rate would have been 37.7% compared to an effective tax rate of 35.5% in the second quarter of fiscal 2014, primarily reflecting favorable state tax settlements in fiscal 2014.

Net Income and Earnings Per Diluted Share

Net income for the second quarter of fiscal 2015 was \$2.1 million, or \$0.02 per diluted share, compared to net income of \$30.1 million, or \$0.20 per diluted share in last year's second quarter. Results for the second quarter of fiscal 2015 include the impact of Boston Proper non-cash goodwill and trade name impairment charges of \$47.1 million after-tax, or \$0.33 per diluted share, restructuring and strategic charges primarily related to property and equipment impairment

charges for the Boston Proper stores of \$10.1 million after-tax, or \$0.07 per diluted share, and a tax benefit related to the expected disposition

Table of Contents

Selling, General and Administrative Expenses

The following table depicts SG&A, which includes store and direct operating expenses, marketing expenses and NSSC expenses, in dollars and as a percentage of total net sales for the twenty-six weeks ended August 1, 2015 and August 2, 2014:

	Twenty-Six Weeks Ended	
	August 1, 2015	August 2, 2014
	(dollars in thousands)	
Selling, general and administrative expenses	\$636,654	\$623,786
Percentage of total net sales	46.3	% 46.1 %

SG&A for the year-to-date period was \$636.7 million compared to \$623.8 million in last year's year-to-date period. SG&A was 46.3% of net sales, a 20 basis point increase from last year's year-to-date period, primarily reflecting sales deleverage of occupancy expenses, and an increase in accrued incentive compensation, partially offset by benefits from previously announced cost reduction efforts.

Restructuring and Strategic Charges

Restructuring and strategic charges for the year-to-date period was \$31.0 million pre-tax, which consisted primarily of \$20.9 million in non-cash property and equipment impairment charges, \$5.6 million in continuing employee-related costs, \$2.8 million in lease termination charges and \$1.8 million in severance charges. The after-tax impact of the restructuring and strategic charges totaled \$19.3 million, or \$0.13 per diluted share.

Goodwill and Trade Name Impairment Charges

In the second quarter of fiscal 2015, in connection with the Plan, the Company determined that certain Boston Proper intangibles were impaired and recorded \$66.9 million in pre-tax, non-cash goodwill and trade name impairment charges. The \$66.9 million Boston Proper impairment charges included \$48.9 million related to goodwill and \$18.0 million related to the trade name.

The after-tax impact of the goodwill and trade name impairment charges totaled \$47.1 million, or \$0.33 per diluted share, inclusive of a \$13.0 million non-cash tax benefit resulting from the tax effect of the goodwill impairment on the annual effective tax rate. The \$13.0 million non-cash tax benefit in the second quarter is expected to be offset by approximately \$13.0 million in non-cash tax charges in the balance of the fiscal year.

Provision for Income Taxes

Our effective tax rate for the year-to-date period was (32.5)%, compared to an effective tax rate of 36.7% in last year's year-to-date period. The income tax benefit of \$8.5 million and effective tax rate of (32.5)% primarily reflected the tax benefit related to the expected disposition of Boston Proper's stock and the benefit of Boston Proper goodwill impairment on the annual effective tax rate. Excluding the tax benefit related to the expected disposition of Boston Proper's stock and the tax benefit related to Boston Proper goodwill and trade name impairment charges, the effective tax rate for the year-to-date period of fiscal 2015 would have been 37.7% compared to an effective tax rate of 36.7% in last year's year-to-date period.

Net Income and Earnings Per Diluted Share

Net income for the year-to-date period of fiscal 2015 was \$34.6 million, or \$0.24 per diluted share, compared to net income of \$70.0 million, or \$0.46 per diluted share, in last year's year-to-date period. Results for the year-to-date period of fiscal 2015 include the impact of Boston Proper non-cash goodwill and trade name impairment charges of \$47.1 million after-tax, or \$0.33 per diluted share, restructuring and strategic charges primarily related to property and equipment impairment charges, employee-related costs and lease termination charges, of \$19.3 million after-tax, or \$0.13 per diluted share, and the tax benefit related to the expected disposition of Boston Proper's stock of \$23.8 million, or \$0.17 per diluted share. The change in earnings per share also reflects a decrease in net income, partially offset by the impact of approximately 14.6 million shares repurchased since the end of the second quarter last year, all of which were repurchased in fiscal 2015.

Table of Contents

Liquidity and Capital Resources

We believe that our existing cash and marketable securities balances, cash generated from operations, available credit facilities and potential future borrowings will be sufficient to fund capital expenditures, working capital needs, dividend payments, potential share repurchases, commitments, and other liquidity requirements associated with our operations for the foreseeable future. Furthermore, while it is our intention to repurchase our stock and pay a quarterly cash dividend in the future, any determination to repurchase additional shares of our stock or pay future dividends will be made by the Board of Directors and will depend on our stock price, future earnings, financial condition, and other factors considered by the Board.

Our ongoing capital requirements will continue to be primarily for enhancing and expanding our omni-channel capabilities, including: information technology and relocated, remodeled and new stores.

Operating Activities

Net cash provided by operating activities for the year-to-date period of fiscal 2015 was \$112.1 million, a decrease of approximately \$41.1 million from last year's year-to-date period. This decrease primarily reflected changes in working capital, partially offset by higher net income when adjusted for non-cash impairment charges and the deferred tax benefit related to the exit of Boston Proper. The changes in working capital primarily reflected the timing of payables, a decrease in accruals related to new store openings and an increase in net income tax receivable, partially offset by an increase in accrued incentive compensation.

At the end of the second quarter of 2015, inventories totaled \$250.3 million, when including inventory related to the Boston Proper DTC business, compared to \$238.1 million in last year's second quarter. Inventories per selling square foot decreased 5.7%, when excluding in-transit inventories, primarily reflecting improved inventory management and lower average unit cost compared to the second quarter last year. In-transit inventories increased by \$20.3 million, primarily reflecting longer in-transit times and accelerated shipping dates to facilitate timely merchandise receipts.

Investing Activities

Net cash provided by investing activities for the year-to-date period of fiscal 2015 was \$35.7 million compared to \$41.3 million used in investing activities in last year's year-to-date period, reflecting a \$78.5 million decrease in marketable securities in fiscal 2015 related to the partial funding of the ASR Agreements as further discussed in Note 12, compared to a \$21.7 million decrease in the same period last year to fund general business operating needs. Investing activities in the year-to-date period of fiscal 2015 included net purchases of property and equipment totaling \$42.8 million compared to \$63.0 million in the same period last year.

Financing Activities

Net cash used in financing activities for the year-to-date period of fiscal 2015 was \$172.2 million compared to \$33.9 million in last year's year-to-date period. The increase in net cash used in financing activities primarily reflects \$250.0 million in fiscal 2015 share repurchases under our ASR Agreements, partially offset by \$97.5 million in net proceeds from borrowings under the Credit Agreement, as further discussed in Note 11.

Credit Facility

On May 4, 2015, we entered into a credit agreement (the "Agreement") among the Company, JPMorgan Chase Bank, N.A. as Administrative Agent, Bank of America, N.A., as Syndication Agent and the Lenders party hereto. Our obligations under the Agreement are guaranteed by certain of our material U.S. subsidiaries. The Agreement provides for a term loan commitment in the amount of \$100.0 million, of which \$100.0 million was drawn at closing, and matures on May 4, 2020. The Agreement also provides for a \$100.0 million revolving credit facility, of which \$24.0 million was drawn at closing and was repaid in the second quarter of 2015. The revolving credit facility matures on May 4, 2020. The Agreement has borrowing options which accrue interest by reference, at our election, at either an adjusted eurodollar rate tied to LIBOR or an Alternate Base Rate plus an interest rate margin, as defined in the Agreement.

On May 4, 2015, in connection with our entry into the Agreement, we repaid and terminated, with no prepayment penalties, the \$124.0 million outstanding obligation under our 2011 revolving credit facility. We used the proceeds from the initial draw of the term loan and revolving credit facility of the Agreement to repay such obligations.

As of August 1, 2015, \$97.2 million in net borrowings were outstanding under the Agreement, and are reflected as \$10.0 million in current debt and \$87.2 million in long-term debt in the accompanying condensed consolidated balance sheets.

Table of Contents

Store and Franchise Activity

During the fiscal 2015 year-to-date period, we had 1 net opening, consisting of net closures of 2 Chico's and 2 WH|BM stores, and net openings of 4 Soma and 1 Boston Proper store. Currently, we expect 30-35 net store closures in fiscal 2015, reflecting approximately 6 net closures of Chico's stores, 12 net closures of WH|BM stores, 4 net openings of Soma stores and 19 net closures of Boston Proper stores. We continuously evaluate the appropriate new store growth rate in light of economic conditions and may adjust the growth rate as conditions require or as opportunities arise. As of August 1, 2015, we also sold merchandise through 33 international franchise locations.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based upon the condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of condensed consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue, expenses, and related disclosure of contingent assets and liabilities. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Management has discussed the development and selection of these critical accounting policies and estimates with the Audit Committee of our Board of Directors and believes the assumptions and estimates, as set forth in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015, are significant to reporting our results of operations and financial position. There have been no material changes to our critical accounting policies as disclosed in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Forward-Looking Statements

This Form 10-Q may contain certain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which reflect our current views with respect to certain events that could have an effect on our future financial performance, including but without limitation, statements regarding our plans, objectives, and future growth rates of our store concepts. These statements may address items such as future sales, gross margin expectations, SG&A expectations, operating margin expectations, earnings per share expectations, planned store openings, closings and expansions, future comparable sales, future product sourcing plans, inventory levels, planned marketing expenditures, planned capital expenditures and future cash needs. In addition, from time to time, we may issue press releases and other written communications, and our representatives may make oral statements, which contain forward-looking information.

These statements, including those in this Form 10-Q and those in press releases or made orally, relate to expectations concerning matters that are not historical fact and may include the words or phrases such as “expects,” “believes,” “anticipates,” “plans,” “estimates,” “approximately,” “our planning assumptions,” “future outlook,” and similar expressions. Except for historical information, matters discussed in such oral and written statements, including this Form 10-Q, are forward-looking statements. These forward-looking statements are based largely on information currently available to our management and on our current expectations, assumptions, plans, estimates, judgments and projections about our business and our industry, and are subject to various risks and uncertainties that could cause actual results to differ materially from historical results or those currently anticipated. Although we believe our expectations are based on reasonable estimates and assumptions, they are not guarantees of performance and there are a number of known and unknown risks, uncertainties, contingencies, and other factors (many of which are outside our control) that could cause actual results to differ materially from those expressed or implied by such forward-looking statements. Accordingly, there is no assurance that our expectations will, in fact, occur or that our estimates or assumptions will be correct, and we caution investors and all others not to place undue reliance on such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those described in Item 1A, “Risk Factors” in our Annual Report on Form 10-K filed with the SEC on March 9, 2015 and the following:

These potential risks and uncertainties include: the financial strength of retailing in particular and the economy in general; the extent of financial difficulties that may be experienced by customers; our ability to secure and maintain customer acceptance of styles and store concepts; the ability to maintain an appropriate level of inventory; the extent

and nature of competition in the markets in which we operate; the extent of the market demand and overall level of spending for women's private branded clothing and related accessories; the effectiveness of our brand awareness and marketing programs; the adequacy and perception of customer service; the ability to respond to actions of activist shareholders and others; the ability to coordinate product development with buying and planning; the quality of merchandise received from suppliers; the ability to efficiently, timely and successfully execute significant shifts in the countries from which merchandise is supplied; the ability of

Table of Contents

our suppliers to timely produce and deliver clothing and accessories; the changes in the costs of manufacturing, labor and advertising; the availability of quality store sites; our ability to grow through new store openings; the buying public's acceptance of any of our new store concepts; the ability to successfully execute our business strategies; the continuing performance, implementation and integration of management information systems; the impact of any systems failures, cyber security or security breaches, including any security breaches that result in theft, transfer, or unauthorized disclosure of customer, employee, or company information or our compliance with information security and privacy laws and regulations in the event of such an incident; the ability to hire, train, energize and retain qualified sales associates, managerial employees and other employees; the ability to achieve the results of our restructuring program; the ability to expand our distribution center and other support facilities in an efficient and effective manner; the ability to effectively and efficiently establish our websites; the ability to secure and protect trademarks and other intellectual property rights and to protect our reputation and brand images; the ability to effectively and efficiently operate our brands; risks associated with terrorist activities; risks associated with natural disasters such as hurricanes and other risks. In addition, there are potential risks and uncertainties that are related to our reliance on sourcing from foreign suppliers, including the impact of work stoppages; transportation delays and other interruptions; political or civil instability; imposition of and changes in tariffs and import and export controls such as import quotas; changes in governmental policies in or towards foreign countries; currency exchange rates and other similar factors.

All written or oral forward-looking statements that are made or attributable to us are expressly qualified in their entirety by this cautionary notice. The forward-looking statements included herein are only made as of the date of this Quarterly Report on Form 10-Q. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The market risk of our financial instruments as of August 1, 2015 has not significantly changed since January 31, 2015. We are exposed to market risk from changes in interest rates on any future indebtedness and our marketable securities and from foreign currency exchange rate fluctuations.

Our exposure to interest rate risk relates in part to our revolving line of credit with our bank. On May 4, 2015, we entered into a credit agreement, as further discussed in Note 11. The Agreement, which matures on May 4, 2020, has borrowing options which accrue interest by reference, at our election, at either an adjusted eurodollar rate tied to LIBOR or an Alternate Base Rate plus an interest rate margin, as defined in the Agreement. An increase or decrease in market interest rates of 100 basis points would not have a material effect on annual interest expense.

Our investment portfolio is maintained in accordance with our investment policy which identifies allowable investments, specifies credit quality standards and limits the credit exposure of any single issuer. Our investment portfolio consists of cash equivalents and marketable securities including corporate bonds, U.S. government agencies and commercial paper. The marketable securities portfolio as of August 1, 2015, consisted of \$26.9 million of securities with maturity dates within one year or less and \$21.1 million with maturity dates over one year and less than or equal to two years. We consider all marketable securities available-for-sale, including those with maturity dates beyond 12 months, and therefore classify these securities as short-term investments within current assets on the condensed consolidated balance sheets as they are available to support current operational liquidity needs. As of August 1, 2015, an increase or decrease of 100 basis points in interest rates would not have a material effect on the fair value of our marketable securities portfolio.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in our reports under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

As of the end of the period covered by this report, an evaluation was carried out under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of such period, our disclosure controls and procedures were effective in providing reasonable assurance in timely alerting them to material information relating to us (including our consolidated subsidiaries) and that information required to be disclosed in our reports is recorded, processed, summarized, and reported as required to be included in our periodic SEC filings.

Changes in Internal Controls

There were no significant changes in our internal controls or in other factors that could significantly affect our disclosure controls and procedures subsequent to the date of the above referenced evaluation. Furthermore, there was no change in our internal control over financial reporting or in other factors during the quarterly period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In June 2015, the Company was named as a defendant in a putative representative Private Attorney General action filed in the Superior Court of California, County of Los Angeles, Ackerman v. Chico's FAS, Inc. The Complaint attempts to allege numerous violations of California law related to wages, meal periods, rest periods, wage statements, and failure to reimburse business expenses, among other things. The Company denies the material allegations of the Complaint and filed its Answer on July 27, 2015. The Company believes that the case is without merit and intends to vigorously defend. As a result, the Company does not believe that the case should have a material adverse effect on the Company's consolidated financial condition or results of operations.

In July 2015, the Company was named as a defendant in a putative class action filed in July 2015 in the United States District Court for the Northern District of Georgia, Altman v. White House Black Market, Inc. The Complaint alleges that the Company, in violation of federal law, published more than the last five digits of a credit or debit card number or an expiration date on customers' receipts. The Company denies the material allegations of the complaint and will file its response by the required deadline. The Company believes that the case is without merit and intends to vigorously defend. As a result, the Company does not believe that the case should have a material adverse effect on the Company's consolidated financial condition or results of operations.

Other than as noted above, we are not currently a party to any legal proceedings other than claims and lawsuits arising in the normal course of business. All such matters are subject to uncertainties and outcomes may not be predictable. Consequently, the ultimate aggregate amount of monetary liability or financial impact with respect to these matters as of August 1, 2015 are not ascertainable. However, while such matters could affect our consolidated operating results when resolved in future periods, management believes that upon final disposition, any monetary liability or financial impact to us would not be material to our annual consolidated financial statements.

ITEM 1A. RISK FACTORS

In addition to the other information discussed in this report, the factors described in Part I, Item 1A. "Risk Factors" in our 2014 Annual Report on Form 10-K filed with the SEC on March 9, 2015 should be considered as they could materially affect our business, financial condition or future results. Other than as noted below, there have not been any significant changes with respect to the risks described in our 2014 Form 10-K, but these are not the only risks facing our company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may adversely affect our business, financial condition or operating results.

During the second quarter of fiscal 2015, we completed an evaluation of the Boston Proper brand and initiated a Plan to sell the DTC business and close its stores, as further discussed in Note 3. As of August 1, 2015, all current year assets and liabilities of the Boston Proper DTC business have been recorded as held for sale in the accompanying condensed consolidated balance sheets at fair value less costs to sell. While we currently expect to sell the Boston Proper DTC business, the sale is dependent on local and global economic factors and the existence of prospective buyers, among other factors. There can be no assurance that we will realize our expected proceeds or that the sale, if any, will be complete within a reasonable time.

Table of Contents

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table sets forth information concerning our purchases of common stock for the periods indicated (amounts in thousands, except share and per share amounts):

Period	Total Number of Shares Purchased (a)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans (b)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Publicly Announced Plans (d)
May 3, 2015 - May 30, 2015	4,574	\$ 17.03	—	\$40,000
May 31, 2015 - July 4, 2015 (c)	1,265,851	\$ 15.92	1,249,264	\$40,000
July 5, 2015 - August 1, 2015 (c)	2,682,484	\$ 15.91	2,680,167	\$40,000
Total	3,952,909	\$ 15.91	3,929,431	\$40,000

(a) Includes 23,478 shares of restricted stock repurchased in connection with employee tax withholding obligations under employee compensation plans, which are not purchases under any publicly announced plan.

(b) In December 2013, we announced a \$300.0 million share repurchase plan. There was approximately \$40.0 million remaining under the program as of the end of the second quarter. The repurchase program has no specific termination date and will expire when we have repurchased all securities authorized for repurchase thereunder, unless terminated earlier by our Board of Directors.

(c) In March 2015, we entered into ASR Agreements, as further discussed in Note 12, under which we paid \$250.0 million and received an initial delivery of 10,714,286 shares of our common stock, representing approximately 75% of the shares expected to be repurchased based on the share price on the date of the agreement. In the second quarter of fiscal 2015, we received an additional 3,929,431 shares valued at approximately \$62.5 million, completing the repurchases under the ASR Agreements. Shares purchased pursuant to the ASR Agreements are presented in the above table in the periods in which they are received.

(d) As the entire \$250.0 million payment made in March 2015 reduced the amount that may yet be purchased under our share repurchase program at that time, the delivery of the additional shares in the second quarter had no impact on the amount that may yet be purchased under our share repurchase plan.
