Items 1 through 11

As permitted by General Instruction F to Schedule TO, the information set forth in Amendment No. 2 to the Registration Statement on Form S-4 (Commission file No. 333-54800) filed with the SEC by Northrop Grumman Corporation (formerly NNG, Inc.) on March 27, 2001 is incorporated by reference into this Tender Offer Statement on Schedule TO.

Item 8. Interest in Securities of the Subject Company

Item 8 of the Schedule TO is hereby amended and supplemented to include the following information:

Expiration of the Offer and Results

The Offer expired at Midnight, New York City time, on Monday, April 2, 2001. EquiServe Trust Company N.A., the Depositary for the Offer, has informed Northrop that at that time, 44,660,440 Common Shares and 240,632 Preferred Shares had been validly tendered and not properly withdrawn by the Company's stockholders. At approximately 12:30 a.m., New York City Time, on Tuesday, April 3, 2001, Northrop accepted for purchase or exchange all of the Common Shares and Preferred Shares validly tendered and not properly withdrawn prior to the expiration of the Offer. Based on information provided to Northrop by the Company and Bank of New York, the Company's transfer agent, there were 45,900,722 Common Shares and 410,643 Preferred Shares outstanding as of March

## Edgar Filing: LITTON INDUSTRIES INC - Form SC TO-T/A

28, 2001. Therefore, the number of Common Shares and Preferred Shares accepted for purchase or exchange by Northrop represent approximately 97.3% and 58.6% of the Common Shares and Preferred Shares outstanding as of March 28, 2001, respectively.

Based on these numbers, Northrop will issue the full allotment of 13,000,000 shares of Northrop common stock and 3,500,000 shares of Northrop preferred stock available for issuance pursuant to the Offer. In addition, the number of shares of Northrop common stock and Northrop preferred stock issuable to the Company's stockholders requesting such securities will be subject to proration, because the number of such securities requested by tendering holders of Common Shares exceeds the respective amounts of such securities available for issuance pursuant to the Offer.

### Proration Factors

Based on the tender numbers reported by the Depositary, the total number of Common Shares tendered for Northrop preferred stock was approximately 24,962,376, which substantially exceeds the maximum preferred stock consideration available in the Offer. As a result, all tenders of Common Shares for Northrop preferred stock are subject to a proration factor of 0.175269414. Based on the tender numbers reported by the Depositary, the total number of Common Shares tendered for Northrop common stock, together with the total number of Common Shares tendered for Northrop common stock that could not be satisfied due to pro ration, was approximately 16,352,503. Of such number, 11,237,071 shares were subject to Alternative A elections and 5,115,432 shares were subject to Alternative B elections. As a result of these amounts, the Common Shares tendered for Northrop common stock with an Alternative A election are subject to a proration factor of 0.790733996. There will be no proration of (a) Common Shares tendered (or deemed tendered as a result of proration) for Northrop common stock with an Alternative B election, (b) Common Shares tendered for cash or (c) Preferred Shares tendered for cash.

### Average Closing Prices of Northrop Grumman Corporation Common Stock

The average of the closing prices for Northrop Grumman Corporation common stock on the NYSE for the five consecutive trading days ending on the second full trading day before the expiration of the Offer was \$86.42. As described in the Offer to Purchase or Exchange filed as a part of Northrop's Registration Statement on Form S-4 dated February 1, 2001 and subsequently amended (the "Prospectus"), this number is used in determining both the amounts payable to tendering holders of Common Shares in lieu of fractional shares of Northrop common stock, and to determine the common stock exchange ratio for the Offer. Accordingly, all references in the Prospectus to the average of the closing prices for Northrop Grumman Corporation common stock on the NYSE for the five consecutive trading days ending on the second full trading day before the expiration of the Offer should be read to refer to \$86.42.

As described in the section of the Prospectus entitled "The Offer - Cash Instead of Fractional Shares of NNG Stock," each tendering holder of Common Shares that would otherwise receive a fractional share of Northrop common stock will instead be paid cash in an amount equal to the fraction of the share of Northrop common stock (expressed as a decimal and rounded to the nearest 0.01 of a share) multiplied by \$86.42.

As described throughout the Prospectus, the number of shares of Northrop common stock issuable in exchange for Common Shares is determined by dividing \$80.25 by the average of the closing prices for Northrop Grumman Corporation common stock on the New York Stock Exchange for the five consecutive trading days ending on the second full trading day before the expiration of the Offer (i.e. \$86.42). Therefore, each Common Share exchanged for Northrop common stock pursuant to the Offer will be exchanged for 0.9286 shares of Northrop common
