**TEEKAY ACQUIRES 50 PERCENT OF SKAUGEN PETROTRANS**

---

Nassau, The Bahamas, October 2, 2003 Teekay Shipping Corporation (Teekay) today announced the successful completion of the purchase of 50 percent of I.M. Skaugen ASA's wholly owned subsidiary, Skaugen PetroTrans (SPT).

The purchase price for 50 percent of the shares in SPT consists of a cash payment of \$25 million and an earn-out element to be calculated based on the financial performance of SPT over the next five years.

Teekay and IM Skaugen envisage that with the combined strengths and leading position of each company, SPT will be able to expand the ship to ship transfer business into geographic regions beyond the Gulf of Mexico. SPT will continue to operate as an autonomous entity governed by a joint venture agreement with its own management and Board of Directors, but with the additional benefit of the backing of Teekay, the world's largest owner and operator of mid-sized tankers.

**About Teekay**

With offices in 12 countries, Teekay employs more than 4,200 seagoing and shore-based staff around the world. The Company has earned a reputation for safety and excellence in providing transportation services to major oil companies, oil traders and government agencies worldwide. ### Forward Looking Statements

This release contains forward-looking statements (as defined in Section 21E of the Securities Exchange Act of 1934, as amended) which reflect management's current views with respect to certain future events and performance, including statements regarding: the future expansion of SPT's business into geographic regions beyond the Gulf of Mexico and the potential financial and other benefits relating to the transaction with IM Skaugen ASA. The following factors are among those that could cause actual results to differ materially from the forward-looking statements, which involve risks and uncertainties, and that should be considered in evaluating any such statement: ability of SPT to expand in to other geographical markets; ability of Teekay to manage the joint venture relationship; customer and market reaction to the transaction; changes in production of or demand for oil and petroleum products, either generally or in particular regions; changes in the requirement for ship to ship transfer services; changes in trading patterns significantly impacting overall tanker tonnage requirements; changes in applicable industry regulations; changes in the typical seasonal variations in tanker charter rates; and changes in the demand for oil and other factors discussed in Teekay's Report on Form 20-F for the fiscal year ended December 31, 2002 which is on file with the SEC.
