NUCOTEC, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

THREE MONTHS ENDED MARCH 31, 2003 AND 2002

(1) Summary of Significant Accounting Policies:

Business Activity:

Edgar Filing: NUCOTEC INC - Form 10QSB

Nucotec, Inc. and its subsidiary, Salty's Warehouse, Inc. (collectively the "Company") sell various home and automobile electronic equipment, computer accessories and supplies to the general public through its website <http://www.saltyswarehouse.com>.

Organization:

Nucotec, Inc. was incorporated in the State of Nevada on October 8, 2001.

Plan of Reorganization:

During May 2002, Nucotec, Inc. ("Nucotec") entered into a plan of reorganization, whereby, Nucotec issued 912,000 shares of its common stock in exchange (the "Exchange") for 80% of the outstanding common stock of Salty's Warehouse, Inc. ("Salty's"), a Florida Corporation. The two principal shareholders of Nucotec immediately prior to the Exchange were Winthrop Venture Management, Inc. and Lady Jean Charters, Inc. These two principal shareholders also had majority management and voting control of Salty's, by virtue of common ownership, prior to the Exchange. After the Exchange, the majority shareholders of Winthrop Venture Management, Inc. and Lady Jean Charters, Inc. maintained significant control of the combined entities. As such, this business combination has been accounted for as a reorganization of companies under common control in a manner similar to a pooling of interest, whereby the carrying value of the net assets of Salty's was transferred to Nucotec, pursuant to Statement of Financial Accounting Standards No. 141 "*Business Combinations*."

The accompanying consolidated financial statements have been restated to present the financial information of the combined entities as of the beginning of the earliest period presented. All significant intercompany accounts and transactions have been eliminated in consolidation.

Interim Financial Statements:

The accompanying financial statements include all adjustments (consisting of only normal recurring accruals), which are, in the opinion of management, necessary for a fair presentation of the results of operations for the periods presented. Interim results are not necessarily indicative of the results to be expected for the full year ending December 31, 2003. The financial statements should be read in conjunction with the audited financial statements included in the annual report of Nucotec, Inc. and Subsidiary (the "Company") on Form 10-KSB for the year ended December 31, 2002.

Going Concern:

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company has no established source of material revenue, has incurred a net loss of \$36,413 in 2002 and \$30,293 in three months ended March 31, 2003, and has a negative working capital and net capital deficit of \$40,131 and \$63,631, respectively. These matters raise substantial doubts about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments relating to the

5

recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Management plans to take the following steps that it believes will be sufficient to provide the Company with the ability to continue in existence:

Management intends to continue to raise additional financing through private equity financing, loans from officer-stockholders or other means and interests that it deems necessary, with a view to moving forward and sustain a prolonged growth in its strategy phases.

The Company plans to raise additional operating funds through equity or debt financings. The Company plans on applying to have its securities quoted on the Over-the-Counter Bulletin Board maintained by the National Association of Securities Dealers, Inc. The Company believes that should it be successful in causing its securities to be so quoted, it will improve its chances of raising funds through either equity or debt financings. The Company may not be able to arrange for loans or other forms of financings on favorable terms. The Company intends to raise working capital from a variety of sources, including from investors who are associates of the Company's management, or by waiting until a public market develops for shares of the Company's common stock. There is no assurance that the Company will be able to arrange for financing and has not, to

Edgar Filing: NUCOTEC INC - Form 10QSB

date, had any substantive discussions with any third parties regarding such financing.

Revenue Recognition:

The Company accounts for revenues pursuant to SAB 101 "Revenue Recognition" and EITF 99-19 "Reporting Revenue Gross as a Principal versus Net as an Agent." Net revenue as an agent, from the sale of products (consisting primarily of automobile electronic equipment, home electronics, computer accessories and supplies) are recognized when title to the products are transferred to the customer (product shipment) and only when no further contingencies or material performance obligations are warranted and, thereby, have earned the right to receive and retain reasonably assured payments.

Other Comprehensive Income:

Statement of Financial Accounting Standards No. 130, "Reporting Comprehensive Income" ("SFAS 130"), established new rules for the reporting and display of comprehensive loss and its components, which requires unrealized gains or losses on the Company's available for sale securities, currency translation adjustments and minimum pension liability to be included in other comprehensive income. Other comprehensive income consisted only of net income (loss).

Net Loss Per Share:

Net loss per share has been computed using the weighted average number of common shares outstanding during 2003 and 2002. There were no common stock equivalents.

6

(2) Net Revenue:

A summary of net revenue by product category, for the three months ended March 31, 2003 and 2002, are as follows:

	2003	2002
Home electronics	\$ 9,505	\$ 2,883
Automobile electronics	1,317	2,785
Computer supplies and accessories	144	4,094
	10,966	9,762
Less cost of revenue	9,569	8,166
Net revenue as an agent	\$ 1,397	\$ 1,596

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis should be read in conjunction with the Company's financial statements, including the notes thereto, appearing elsewhere in this Report.

THE FOLLOWING INFORMATION CONTAINS CERTAIN FORWARD-LOOKING STATEMENTS OF MANAGEMENT OF THE COMPANY. FORWARD-LOOKING STATEMENTS ARE STATEMENTS THAT ESTIMATE THE HAPPENING OF FUTURE EVENTS AND ARE NOT BASED ON HISTORICAL FACT. FORWARD-LOOKING STATEMENTS MAY BE IDENTIFIED BY THE USE OF FORWARD-LOOKING TERMINOLOGY, SUCH AS "MAY," "COULD," "EXPECT," "ESTIMATE," "ANTICIPATE," "PLAN," "PREDICT," "PROBABLE," "POSSIBLE," "SHOULD," "CONTINUE," OR SIMILAR TERMS. THE FORWARD-LOOKING STATEMENTS SPECIFIED IN THE FOLLOWING INFORMATION HAVE BEEN COMPILED BY OUR MANAGEMENT ON THE BASIS OF ASSUMPTIONS MADE BY MANAGEMENT AND CONSIDERED BY MANAGEMENT TO BE REASONABLE. OUR FUTURE OPERATING RESULTS, HOWEVER, ARE IMPOSSIBLE TO PREDICT AND NO REPRESENTATION, GUARANTY, OR WARRANTY IS TO BE INFERRED FROM THOSE FORWARD-LOOKING STATEMENTS.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses the Company's financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments, including those related to financing operations, and contingencies and litigation. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of the Company's financial statements include estimates as to the appropriate carrying value of certain assets and liabilities which are not readily apparent from other sources, primarily accruals for operating costs, and the classification of net operating loss and tax credit carryforwards. These accounting policies are fully described at relevant sections in the discussion and analysis and in the notes to the financial statements included in our Form 10-K report filed on March 31, 2003.

7

Overview

Nucotec, Inc was incorporated in Nevada on October 8, 2001 in order to serve as a holding company for Salty's Warehouse, Inc. which sells consumer electronics products and other name brand consumer products over the Internet.

On May 10, 2002, Nucotec entered into a Plan of Reorganization, whereby, Nucotec acquired 80% of the outstanding common stock of Salty's Warehouse (see a discussion of this transaction under "Business"). This business combination has been accounted for in a manner similar to pooling of interest, whereby the carrying value of the net assets of Salty's Warehouse was transferred to Nucotec, pursuant to FASB 141 "Business Combinations." The accompanying consolidated financial statements have been restated to present the financial information of the combined entities as of the beginning of the earliest period presented. All significant intercompany accounts and transactions have been eliminated in consolidation.

Results of Operations for the Three Months Ended March 31, 2003 Compared To The Three Months Ended March 31, 2002 (unaudited)

Revenue

Our net revenue was \$1,397 for the three months ended March 31, 2003 compared to \$1,596 for the three months ended March 31, 2002. All revenues were from the sale of products on the Salty's Warehouse web site. This decrease in our revenues is primarily the result of a slowing economy and the competitive environment that we operate in. While we believe that revenues will eventually increase, there can be absolutely no assurance that we will achieve profitability or any other results expressed or implied in any forward looking statements. Our net revenue is net of the wholesale price and shipping charges paid by Salty's Warehouse to its suppliers for products sold on the web site. In the beginning of 2002, Yahoo! started charging Salty's Warehouse a half percent transaction based fee for every product sold over the web site, further increasing these costs netted against revenues.

Operating Expenses

Our operating expenses for the three months ended March 31, 2003 were \$31,690 compared to \$6,205 for the three months ended March 31, 2002. Expenses consisted primarily of general operating expenses and professional fees. The increase in general operating expenses from 2002 to 2003 is mostly due to legal and accounting fees incurred in early 2003 in connection with our Form 10 KSB.

Net Loss

We had a net loss of \$30,293 or basic and diluted net loss per common share of \$0.01 for the three months ended March 31, 2003 compared to a net loss of \$4,609 or basic and diluted net loss per common share of \$0.00 for the three months ended March 31, 2002.

Liquidity And Capital Resources

Edgar Filing: NUCOTEC INC - Form 10QSB

As of March 31, 2003, we had a net working capital deficit of \$40,131 as compared with positive working capital of \$25,767 at March 31, 2002.

Net cash used for operating activities was \$3,744 for the three months ended March 31, 2003 compared to \$5,439 for the three months ended March 31, 2002.

Salty's Warehouse generally does not hold the products we sell in inventory. Net revenue as an agent from the sale of products (consisting primarily of automobile electronic equipment, home electronics, computer accessories and supplies) is recognized when title to the products are transferred to the customer (product shipment) and only when no further contingencies or material performance

8

obligations are warranted and, thereby, have earned the right to receive and retain reasonably assured payments. At the time a customer orders a product on our web site, the customer pays for the product by credit card. If the credit card is Visa or Mastercard we usually receive the funds within twenty-four hours. However if the credit card is American Express or Discover, we receive the funds as part of an aggregated payment from the respective credit card company once a month. The supplier invoices us when the product is actually shipped on terms requiring us to pay within 30 days. So in most transactions, we will have already received payment from the customer before we must pay the supplier for the product that this customer has ordered. Therefore, we do not have any significant requirements for capital to fund replenishing inventory.

Our only internal sources of liquidity are our bank accounts and the future revenues we may receive from the sale of products on our web site. Our only external source of liquidity is loans from our management. We do not have any material commitments for capital expenditures.

Due to numerous economic and competitive risks, any or all of which may have a material adverse impact upon our operations, there can be no assurance that we will be able to successfully generate significant revenues or achieve a level of profits which will permit us to stay in business. However, we believe cash generated from net revenues, together with the \$15,000 loaned to us by management, will be sufficient to fund all or our general and administrative expenses for the next twelve months.

Fluctuations in Operating Results; Seasonality

Annual and quarterly fluctuations in our results of operations may be caused by the timing and quantity of orders from our customers. Our future results also may be affected by a number of factors, including our ability to offer our products at competitive prices and to anticipate customer demands. Our results may also be affected by economic conditions in the geographical areas in which we operate. All of the foregoing may result in substantial unanticipated quarterly earnings shortfalls or losses. Due to all of the foregoing, we believe that period-to-period comparisons of our results of operations are not necessarily meaningful and should not be relied upon as indicative of future performance.

Inflation

We believe that our revenue and results of operations have not been significantly impacted by inflation since we began operations.

ITEM 3. CONTROLS AND PROCEDURES

Our President and Chief Financial Officer (the "Certifying Officers") are responsible for establishing and maintaining disclosure controls and procedures for the Company. The Certifying Officers have designed such disclosure controls and procedures to ensure that material information is made known to them, particularly during the period in which this report was prepared. The Certifying Officers have evaluated the effectiveness of the Company's disclosure controls and procedures within 90 days of the date of this report and believe that the Company's disclosure controls and procedures are effective based on the required evaluation. There have been no significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
