The Company commenced operations during the fourth quarter of 2007 (December 3, 2007) and therefore it is unable to present a meaningful comparison of its first nine months and/or third quarter of 2008 and 2007 results.

Third Quarter 2008 Results

For the quarter ended September 30, 2008, Voyage Revenues amounted to \$65.18 million and Operating Income amounted to \$37.64 million. Net Income for the third quarter of 2008 was \$35.24 million representing \$0.63 earnings per share calculated on 55,873,973 weighted average number of shares, basic and \$0.62 earnings per share calculated on 56,971,504 weighted average number of shares, diluted.

The above Net Income figure includes:

- Gain of \$1.02 million, or \$0.02 per basic and diluted share, in connection with the sale of the vessel Star Iota.

- Amortization of fair value of below/above market acquired time charters of \$16.89 million, or \$0.30 per basic and diluted share, respectively, attributable to the amortization of the fair value of time charters attached to vessels acquired, which are amortized over the remaining period of the time charter as increases to net revenue.
-

- Expenses of \$0.44 million, or \$0.01 per basic and diluted share relating to the amortization of stock based compensation recognized in connection with the vesting portion of a total of 315,000 restricted common shares issued to directors.

Excluding all the above items for the quarter ended September 30, 2008, Net Income would have amounted to \$17.77 million, or \$0.32 earnings per share calculated on 55,873,973 weighted average number of shares, basic and \$0.31 earnings per share calculated on 56,971,504 weighted average number of shares, diluted.

EBITDA for the third quarter of 2008 was \$51.64 million. Adjusted EBITDA for the same period excluding all the above items was \$34.17 million. Please see later in this release for a reconciliation of EBITDA and adjusted EBITDA to net cash provided by cash flows from operating activities.

An average of 12.1 vessels were owned and operated during the third quarter of 2008, earning an average Time Charter Equivalent, or TCE rate of \$62,156 per day. Adjusted to exclude the effect of the amortization of time charters attached to vessels acquired at above or below market rates, the TCE rate for the third quarter of 2008 was \$45,756. The Company refers you to the information under the heading "TCE rate and adjusted TCE rate" later in this release for further information regarding its calculation of TCE rate.

#### Nine Months ended September 30, 2008 Results

For the nine months ended September 30, 2008, Voyage Revenues amounted to \$166.10 million and Operating Income amounted to \$88.53 million. Net Income for the nine months ended September 30, 2008 was \$83.54 million representing \$1.63 earnings per share calculated on 51,201,845 weighted average number of shares, basic and \$1.54 earnings per share calculated on 54,200,802 weighted average number of shares, diluted.

The above Net Income figure includes:

- Vessel impairment loss of \$3.63 million, or \$0.07 per basic and diluted share, in connection with the sale of the vessel Star Iota.
- Amortization of fair value of below/above market acquired time charters of \$51.81 million, or \$1.01 and \$0.96 per basic and diluted share, respectively, attributable to the amortization of the fair value of time charters attached to vessels acquired, which are amortized over the remaining period of the time charter as increases to net revenue.
- Expenses of \$2.66 million, or \$0.05 per basic and diluted share, respectively, relating to the amortization of stock based compensation recognized in connection with -the vesting of a portion of a total of 315,000 restricted common shares issued to directors.

Excluding all the above items for the nine months ended September 30, 2008, Net Income would have amounted to \$38.0 million representing \$0.74 earnings per share calculated on 51,201,845 weighted average number of shares, basic and \$0.70 earnings per share calculated on 54,200,802 weighted average number of shares, diluted.

EBITDA for the nine months ended September 30, 2008 was \$123.54 million. Adjusted EBITDA for the same period excluding all the above items was \$78.01 million. Please see later in this release for a reconciliation of EBITDA and adjusted EBITDA to net cash provided by cash flows from operating activities.

An average of 10.3 vessels were owned and operated during the nine months ended September 30, 2008, earning an average TCE rate of \$63,489 per day. Adjusted to exclude the effect of the amortization of time charters attached to vessels acquired at above or below market rates, the time charter equivalent rate for the nine months ended

September 30, 2008 was \$43,353. The Company refers you to the information under the heading “TCE rate and adjusted TCE rate” later in this release for further information regarding its calculation of TCE rate.

#### Fleet Developments

##### Vessel deliveries

On September 18, 2008, the Company took delivery of the Capesize dry bulk carrier vessel Star Ypsilon which the Company had agreed to acquire on June 3, 2008 for approximately \$87.2 million. The vessel is chartered for a period of approximately three years, with the charter expiring in July 2011.

On October 6, 2008, the Company delivered the Star Iota, a Panamax bulk carrier to its buyers. The Company had previously entered into an agreement to sell the Star Iota for approximately \$18.4 million.

Following the above transactions, the Company’s fleet is currently comprised of 12 vessels of an average age of 9.5 years with a total capacity of 1,106,250 dwt including four Capesize and eight Supramax vessels.

##### New Charter Party Agreement

The Star Beta has entered into a short term period employment with Brazil’s Companhia Vale do Rio Doce (Vale) for a minimum of two and a maximum of four months at the gross daily rate of \$15,500 for the first 50 days and \$25,000 for the days beyond 50 plus a repositioning ballast bonus of \$525,000.

Currently, the Company has secured 100% of its operating days in 2008, 74% in 2009 and 64% in 2010 under time charters.

##### Other Developments

The Company commenced an arbitration proceeding as complainant against Oldendorff GmbH & Co. KG of Germany (“Oldendorff”), seeking damages resulting from Oldendorff’s repudiation of a charter relating to the Star Beta. The Star Beta had been time chartered by a subsidiary of the Company to Industrial Carriers Inc. of Ukraine (“ICI”). Under that time charter, ICI was obligated to pay a gross daily charter hire rate of \$106,500 until February 2010. In January 2008, ICI sub-chartered the vessel to Oldendorff for one year at a gross daily charter hire rate of \$130,000 until February 2009. In October 2008, ICI assigned its rights and obligations under the sub-charter to a subsidiary of the Company in exchange for ICI being released from the remaining term of the ICI charter. According to press reports, ICI subsequently filed for protection from its creditors in a Greek insolvency proceeding. Oldendorff notified the Company that it considers the assignment of the sub-charter to be an effective repudiation of the sub-charter by ICI. The Company believes that the assignment was valid and that Oldendorff has erroneously repudiated the sub-charter.

On November 3, 2008, the SEC declared effective a Registration Statement on Form F-3 relating to the resale of shares held by F5 Capital, the nominee of TMT Co. Ltd. (“TMT”). In August 2008, TMT alleged that it had suffered unspecified damages arising from an alleged breach by the Company of a purported obligation under the Master Agreement, dated January 12, 2007. As of the date hereof, no claim has been filed by TMT or any affiliate thereof against the Company.

##### Share Buyback Program update

The Company, under the share and warrant repurchase program announced on January 24, 2008 has repurchased as of November 24, 2008 977,000 shares of common stock for \$7,458,828 (average \$7.63 per share) and 1,362,500 warrants for \$5,474,363 (average \$4.02 per warrant). During the third quarter, the Company has repurchased 700,000

shares of common stock for \$5,667,420 (average \$8.10 per share). Moreover, post quarter-end and during the month of October 2008, the Company purchased an additional 225,000 shares of common stock for \$1,204,702.50 (average \$5.35 per share).

The Company has paid an aggregate of \$12,933,191 for the repurchased securities leaving \$37,066,809 of repurchasing capacity in the Company's \$50,000,000 share and warrant buyback program.

#### Summary of Selected Data

(TCE rate in Dollars in thousands)

	Three months Ended September 30, 2008	Nine months Ended September 30, 2008
Average number of vessels(1)	12.1	10.3
Number of vessels	13	13
Average age of operational fleet (in years) (2)	10.6	10.6
Ownership days (3)	1,116	2,818
Available days (4)	1,056	2,629
Voyage days for fleet (5)	1,030	2,573
Fleet Utilization (6)	92%	91%
Time charter equivalent rate(7)	62,156	63,489

(1) Average number of vessels is the number of vessels that constituted the Company's fleet for the relevant period, as measured by the sum of the number of days each vessel was a part of its fleet during the period divided by the number of calendar days in that period.

(2) Average age of operational fleet is calculated as at September 30, 2008.

(3) Ownership days are the total calendar days each vessel in the fleet was owned by the Company for the relevant period.

(4) Available days for the fleet are the total calendar days the vessels were in possession for the relevant period after subtracting for off-hire days with major repairs dry-docking or special or intermediate surveys or transfer of ownership.

(5) Voyage days are the total days the vessels were in the Company's possession for the relevant period after subtracting all off-hire days incurred for any reason (including off-hire for dry-docking, major repairs, special or intermediate surveys).

(6) Fleet utilization is calculated by dividing voyage days by ownership days for the relevant period and takes into account the dry-docking periods.

(7)

Time charter equivalent rate, or TCE rate, is a measure of the average daily revenue performance of a vessel on a per voyage basis. The Company's method of calculating TCE rate is determined by dividing voyage revenues (net of voyage expenses) or time charter equivalent revenue or TCE revenue by voyage days for the relevant time period. Voyage expenses primarily consist of port, canal and fuel costs that are unique to a particular voyage, which would otherwise be paid by the charterer under a time charter contract, as well as commissions. TCE rate is a standard shipping industry performance measure used primarily to compare period-to-period changes in a shipping company's performance despite changes in the mix of charter types (i.e., spot charters, time charters and bareboat charters) under which the vessels may be employed between the periods. The Company refers you to the information under the heading "TCE rate and adjusted TCE rate" later in this release for further information regarding its calculation of TCE rate.

---

During the nine months ended September 30, 2008, the Company's fleet utilization was significantly affected by the dry-docking and upgrading expenses of the five vessels, Star Beta, Star Iota, Star Theta, Star Delta and Star Alpha which resulted in 190 off-hire days. Excluding off-hire days due to scheduled dry-dockings, fleet utilization would amount to approximately 98% for third quarter and nine months period ended September 30, 2008, respectively.

TCE rate and adjusted TCE rate

The Company reports TCE revenues, a non-GAAP measure, because management believes it provides additional meaningful information in conjunction with voyage revenues, the most directly comparable GAAP measure and because management uses TCE revenues in making decisions regarding the deployment and use of its vessels and in evaluating their financial performance. TCE rate is also included herein because it is a standard shipping industry performance measure used primarily to compare period-to-period changes in a shipping company's performance despite changes in the mix of charter types (i.e., spot charters, time charters and bareboat charters) under which the vessels may be employed between the periods and because the Company believes that it presents useful information to investors.

The Company excluded amortization of the fair value of below/above market acquired time charters agreements, to derive the adjusted TCE rate.

The following table reflects the calculation of the Company's TCE rates and adjusted TCE rates as reflected in the unaudited interim consolidated condensed income statements for the three and nine month periods ended September 30, 2008:

(In thousands of U.S. dollars)	Three months Ended September 30, 2008	Nine months Ended September 30, 2008

## Dividend Payment

On November 17, 2008, the Company declared a cash and stock dividend on its common stock totaling \$0.36 per common share. The dividend payment consists of a cash portion in the amount of \$0.18 per share with the remaining half of the dividend payable in the form of newly issued common shares. The amount of newly issued shares will be based on the volume weighted average price of the Company's shares on the Nasdaq Global Market during the five trading days before November 25, 2008. The dividend will be payable on or about December 1, 2008 to stockholders of record on November 28, 2008.

The Company also announced that management and directors who currently hold approximately 10.3 million of the Company's common shares have committed to reinvest the cash portion of their dividend into newly issued shares in a private placement at the same weighted average price, thereby electing to effectively receive the full amount of their dividend in the form of newly issued shares.

By paying a portion of this quarterly dividend in the form of newly issued shares, the Company has limited the cash outlay to approximately \$8 million and conserved \$11.6 million of cash.

## EBITDA and adjusted EBITDA Reconciliation

The Company considers EBITDA to represent net income before interest, taxes, depreciation and amortization. EBITDA does not represent and should not be considered as an alternative to net income or cash flow from operations, as determined by United States generally accepted accounting principles, or U.S. GAAP, and its calculation of EBITDA may not be comparable to that reported by other companies. EBITDA is included herein because it is a basis upon which the Company assesses its liquidity position; it is used by its lenders as a measure of its compliance with certain loan covenants; and because the Company believes that it presents useful information to investors regarding the Company's ability to service and/or incur indebtedness.

The Company excluded amortization of the fair value of above/below market acquired time charters associated with time charters attached to vessels acquired the vessel impairment adjustment relating to the sale of Star Iota and expenses relating to the amortization of stock – based compensation recognized during the period to derive adjusted EBITDA.

The following table reconciles net cash provided by operating activities to EBITDA and adjusted EBITDA:
