## **Report of Independent Accountants'**

To the Participants and Administrator of the PPL Employee Stock Ownership Plan:

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the PPL Employee Stock Ownership Plan (the "Plan") at December 31, 2001 and 2000, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) and schedule of reportable transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

PPL EMPLOYEE STOCK OWNERSHIP PLAN  
NOTES TO FINANCIAL STATEMENTS

---

## 1. PLAN DESCRIPTION

The PPL Employee Stock Ownership Plan (the "Plan") was adopted effective January 1, 1975 to provide for employee ownership in PPL Corporation (PPL). The Plan is currently sponsored by PPL Services Corporation (the "Company"), an unregulated subsidiary of PPL. Amounts contributed to the Plan are used to purchase shares of common stock of PPL. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan provisions.

Employees of participating PPL companies, as defined in the Plan agreement, who have completed one year of credited service are eligible to participate in the Plan.

The shares of common stock allocated to a participant's account may not exceed the maximum permitted by law. All shares of common stock credited to a participant's account are 100% vested and nonforfeitable, but cannot be pledged as security by the employee. Stock certificates representing shares in the Plan are held by Mellon Bank (the "Trustee").

The Plan requires that dividends on shares credited to participants' accounts be paid in cash. Under existing income tax laws, PPL is permitted to deduct the amount of those dividends for income tax purposes on its consolidated Federal income tax return and to contribute the resulting tax savings (dividend-based

contribution) to the Plan. The dividend-based contribution is used to buy shares of PPL's common stock and is expressly conditioned upon the deductibility of the contribution for federal income tax purposes. Shares are allocated to participants' accounts, 75% on the basis of shares held in a participant's account and 25% on the basis of the participant's compensation.

Participants may elect to withdraw from their accounts common stock which has been allocated with respect to a Plan year ending at least 84 months prior to the end of the Plan year in which the election is made. Participants so electing may receive cash or stock certificates for the number of whole shares, cash for any fractional shares available for withdrawal or may make a rollover to a qualified plan.

Participants who have attained age 55 and have completed ten years of participation in the Plan may elect to withdraw a limited number of shares added to their accounts after December 31, 1986. For the first five years after meeting the requirement, participants may withdraw up to an aggregate of 25% of such shares. In the sixth year, qualified participants may withdraw up to an aggregate of 50% of such shares.

Upon termination of service with a participating company, participants are entitled to receive cash or stock certificates for the number of whole shares, cash for any fractional shares allocated to them or may make a rollover to a qualified plan. Participants who terminate service with a participating company and whose account balance exceeds, or exceeded at the time of any prior distribution, \$5,000, may defer distribution of the shares of stock in the account until the earlier of age 65 or death. Participants who terminate service with a participating company on or after age 55 may defer distribution of the shares of stock in the account up to April 1 of the year following the year in which the participant attains the age of 70-1/2.

The Company has reserved the right to amend or terminate the Plan at any time by or pursuant to action of its Board of Directors. Upon termination of the Plan the interests of Plan participants, their estates and beneficiaries shall be nonforfeitable and shall be fully vested. Distributions shall be made to those eligible under Plan provisions in full shares of stock and cash in lieu of fractional shares. No stock may be distributed to a participant within seven years after the month in which such stock was allocated to a participant's account except in the case of the participant's retirement. Such stock will be held by the trustee until the participant satisfies the seven year holding period.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended.

## 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared under the accrual basis of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases during the reporting period. Actual results could differ from those estimates.

The Plan's common stock investment is stated at fair value. Fair value is the quoted market price of PPL's common stock at the end of the year. Realized gains and losses from the sale or distribution of stock by the Trustee are based on the average cost of common stock held at the time of sale. Net appreciation/depreciation as reported in the accompanying financial statements includes both realized and unrealized gains and losses.

Dividend income and dividend distributions to participants are recorded on dividend record dates.

### 3. ADMINISTRATION

The Plan is administered by the Employee Benefit Plan Board, composed of certain PPL officers appointed by the Board of Directors of PPL.

Expenses incurred in the administration of the Plan are paid by the Company, and the facilities of the Company are used by the Plan at no charge.

### 4. INVESTMENTS

The plan's investments, at December 31, are presented in the following table:

	<u>2001</u>	<u>2000</u>
PPL Corporation Common Stock:		
Number of Shares	5,140,869	5,377,849
Cost	\$99,417,121	\$101,440,208
Fair Value	\$179,159,285	\$243,014,241

The fair value per share of PPL Corporation common stock at December 31, 2001 and 2000 was \$34.85 and \$45.188, respectively.

### 5. TAX STATUS

In 1995, the Internal Revenue Service (IRS) issued a determination letter that the Plan, as amended through December 20, 1994, continues to be qualified under Section 401(a) of the Internal Revenue Code as a stock bonus plan and constitutes an employee stock ownership plan under Section 409 of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and is currently operated in compliance with the applicable requirements of the Internal Revenue Code.

Under present Federal income tax laws and regulations, a qualified plan is not taxed on contributions received from PPL or participants, on dividend income, on realized gains from the sale of stock or on any unrealized appreciation of investments. A participant in a qualified plan is not subject to Federal income tax on amounts contributed by PPL until that participant receives a distribution from the Plan.
