Notes to Condensed Consolidated Financial Statements (Unaudited)

Note 1 - The interim condensed consolidated financial statements, included herein, are unaudited, but reflect all adjustments which are, in the opinion of management, necessary for a fair statement of the results of operations for the interim periods presented and the financial condition as of the dates indicated, which adjustments are of a normal recurring nature. The results for the six-month period ended June 30, 2008 are not necessarily indicative of the results to be expected for the full year ending December 31, 2008.

Note 2 - Approximately \$103,000 and \$238,500 are included in royalty and fee income for the three-month and six-month periods ended June 30, 2008, respectively, and approximately \$300,000 and \$766,000 are included in the three-month and six-month periods ended June 30, 2007, respectively, for initial franchise fees. Approximately \$96,597 and \$207,072, and approximately \$236,948 and \$444,358 are included in royalty and fee income for the three-month and six-month periods ended June 30, 2008 and 2007, respectively, for equipment commissions. In addition, included in royalties and fees were approximately \$104,825 and \$104,825, and \$686,000 and \$1,046,000, in the three-month and six-month periods ended June 30, 2008 and 2007, respectively, for the sale of Area Development Agreements. Royalty and fee income, less initial franchise fees, equipment commissions and area development fees were \$1,682,510 and \$3,384,688, and \$1,564,284 and \$3,116,282 for the three-month and six-month periods ended June 30, 2008 and 2007, respectively. During the six-month period ending June 30, 2008 there were 40 franchised units opened and 30 franchised units closed. The Company's ongoing royalty income is primarily paid electronically by the Company initiating a draft on the franchisee's account by electronic withdrawal. As such, the Company has no material amount of past due royalties.

Note 3 - The following table sets forth the calculation of basic and diluted earnings per share for the three-month period and six-month period ended June 30, 2008:

quality products, simple operating systems, labor minimizing operations, attractive food costs and overall affordability.

Noble Roman's Pizza

Superior quality that our customers can taste - that is the hallmark of Noble Roman's Pizza. Every ingredient and process has been designed with a view to produce superior results. Here are a few of the differences that we believe make our product unique:

8

- o Crust made with only specially milled flour with above average protein and yeast.
- o Fresh packed, uncondensed sauce made with secret spices, parmesan cheese and vine-ripened tomatoes.
- o 100% real cheese blended from mozzarella and Muenster, with no soy additives or extenders.
- o 100% real meat toppings, again with no additives or extenders - a real departure from many pizza concepts.
- o Vegetable and mushroom toppings that are sliced and delivered fresh, never canned.
- o An extended product line that includes breadsticks with dip, pasta, baked sandwiches, salads, wings and a line of breakfast products for non-traditional locations.
- o A fully-prepared pizza crust that captures the made-from-scratch pizzeria flavor which gets delivered to the franchise location shelf-stable so that dough handling is no longer an impediment to a consistent product.

The Company carefully developed all of its menu items to be delivered in a ready-to-use form requiring only on-site assembly and baking. These menu items are manufactured by third party vendors and distributed by unrelated distributors in an independent national network that allows the Company to service franchisees throughout the country. This process results in products that are great tasting, quality consistent, easy to assemble, relatively low in food cost and require very low amounts of labor.

Tuscano's Italian Style Subs

Tuscano's Italian Style Subs is a separate restaurant concept with an Italian-themed menu that focuses on sub sandwich menu items. Tuscano's was designed to be comfortably familiar from a customer's perspective but with many distinctive features. The franchise fee and ongoing royalty for a Tuscano's is identical to that charged for a Noble Roman's Pizza franchise. For the most part, the Company awards Tuscano's franchises for the same facilities as Noble Roman's Pizza franchises, although Tuscano's franchises are also available for non-traditional locations that do not have a Noble Roman's Pizza franchise. However, in the traditional stand-alone locations we only sell franchises for Noble Roman's Pizza/Tuscano's Subs together as a dual-branded concept.

With its Italian theme, Tuscano's offers a distinctive yet recognizable format. Like most other brand name sub concepts, customers select menu items at the start of the counter line then choose toppings and sauces according to their preference until they reach the check out point. Tuscano's, however, has many unique competitive features, including its Tuscan theme, the extra rich yeast content of its fresh baked bread, the thematic menu selections and serving options, high quality meats, and generous yet cost-effective quality sauces and spreads. Tuscano's was designed to be premium quality, simple to operate and cost-effective.

Business Strategy

The Company's business strategy can be summarized as follows:

Continue Focus on Sales of Non-Traditional Franchises. The Company plans to continue its focus on awarding franchise agreements for both Noble Roman's Pizza and Tuscano's Italian Style Subs in non-traditional venues such as hospitals, military bases, universities, convenience stores, attractions, entertainment facilities, casinos, airports, travel plazas, office complexes and hotels. The Company has pursued this focus for the past several years and has recently increased its focus on planned increases in the growth of non-traditional locations.

9

Growth of our Traditional Concept. In order to seek more rapid growth, the Company initiated a strategy to sell franchises and to sell development territories to Area Developers for stand-alone traditional locations. Area Developers have the exclusive right to develop the traditional concept in their areas. Area Developers generally pay a development fee of \$.05 per capita in their development area and will receive 30% of the initial franchise fee and 2/7ths of the royalty from the franchise locations developed pursuant to those Development Agreements. The Company retains all training and supervision responsibilities and must approve all franchisees and all locations. In order to maintain the rights to develop the territories, each Developer has to meet the minimum development schedule stipulated in the Area Development Agreement.

The Company is continuing to implement the initiatives it announced in November 2007 that it believes will enhance the operations of its traditional co-brand franchise program. These enhancements include: more rigorous franchisee selection criteria; a longer, more robust training period for new franchisees; more direct franchise involvement in the construction and marketing process; and intensified monitoring and enforcement of operating standards and unit performance. Recognizing that these steps have slowed the speed of franchise development within territories covered by existing Area Development Agreements, the Company intends to offer reasonable accommodations to the exclusive development time frames specified in those agreements as long as the Area Developer is diligently pursuing franchise development for growth of the traditional franchise program.

Maintain Superior Product Quality. The Company believes that the quality of its products will contribute to the growth of both its non-traditional and traditional locations. Every ingredient and process was designed with a view to producing superior results. Most of our menu items were developed to be delivered in a ready-to-use form requiring only on-site assembly and baking. The Company believes this process results in products that are great tasting, quality consistent, easy to assemble, relatively low in food cost and requiring very low amounts of labor, which allows for a significant competitive advantage due to the speed at which its products can be prepared, baked and served to customers.

Financial Summary

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results may differ from those estimates. The Company periodically evaluates the carrying values of its assets, including property, equipment and related costs, accounts receivable and

Edgar Filing: NOBLE ROMANS INC - Form 10-Q

deferred tax asset, to assess whether any impairment indications are present due to (among other factors) recurring operating losses, significant adverse legal developments, competition, changes in demands for the Company's products or changes in the business climate that affect the recovery of recorded value. If any impairment of an individual asset is evident, a charge will be provided to reduce the carrying value to its estimated fair value.

The following table sets forth the percentage relationship to total revenue of the listed items included in Noble Roman's consolidated statements of operations for the three-month and six-month periods ended June 30, 2007 and 2008, respectively.

Recent Development

On March 19, 2008, the Company announced that it had engaged Roth Capital Partners, LLC to act as its financial advisor to advise and assist the Company with respect to defining objectives and evaluating certain strategic alternatives to enhance shareholder value. The Company anticipates that a range of options will be presented as a result of this analysis, which the Company will then review in consultation with its board of directors and advisors.

Results of Operations

Noble Roman's, Inc. and Subsidiaries

Results of Operations - Three-Month and Six-Month Periods Ended June 30, 2007 and 2008

Edgar Filing: NOBLE ROMANS INC - Form 10-Q

Total revenue decreased from \$3,080,147 to \$2,422,042 and from \$5,935,846 to \$4,772,477 for the three-month and six-month periods ended June 30, 2008, respectively, compared to the corresponding periods in 2007. These decreases were a result of selling fewer franchises, less equipment commissions and less Area Development Agreements in both the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007. These decreases were partially offset by increases in ongoing royalties and fees of \$118,226 and \$268,406, respectively, for the three-month and six-month periods ended June 30, 2008 compared to the same periods in 2007.

Approximately \$103,000 and \$238,500 are included in royalty and fee income for the three-month and six-month periods ended June 30, 2008, respectively, and approximately \$300,000 and \$766,000 are included in the three-month and six-month periods ended June 30, 2007, respectively, for initial franchise fees. Approximately \$96,597 and \$207,072, and approximately \$236,948 and \$444,358 are included in royalty and fee income for the three-month and six-month periods ended June 30, 2008 and

11

2007, respectively, for equipment commissions. In addition, included in royalties and fees were approximately \$104,825 and \$104,825, and \$686,000 and \$1,046,000, in the three-month and six-month periods ended June 30, 2008 and 2007, respectively, for the sale of Area Development Agreements. Royalty and fee income, less initial franchise fees, equipment commissions and area development fees were \$1,682,510 and \$3,384,688, and \$1,564,284 and \$3,116,282 for the three-month and six-month periods ended June 30, 2008 and 2007, respectively.

Restaurant revenues increased from approximately \$274,276 to \$414,679 and \$525,861 to \$803,520 for the three-month and six-month periods ended June 30, 2008, respectively, compared to the corresponding periods in 2007. The Company only intends to operate two restaurants to be used for testing and demonstration purposes, but from time to time temporarily operates others until a suitable franchisee is located. Restaurant revenue increased because the Company was operating more restaurants in the three-month and six-month periods ended June 30, 2008 than in the corresponding periods in 2007.

Salaries and wages increased from 13.7% of total revenue to 14.4% of total revenue and from 13.5% of total revenue to 15.3% of total revenue, respectively, for the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007. These increases were the result of the decrease in revenue, as discussed above. The actual expense decreased from \$422,067 to \$349,007 and from \$799,612 to \$730,099 for the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007. In April 2008, the Company took action to reduce salaries and wages as a result of the slower growth of new franchises resulting from a stronger emphasis on non-traditional franchises and from the initiatives it announced in November 2007 that it believes will enhance the operations of its traditional co-brand franchise program.

Trade show expenses increased from 4.4% of total revenue to 5.0% of total revenue and 4.6% of total revenue to 5.1% of total revenue, respectively, for the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007. These increases were the result of the decrease in revenue with the actual amount of trade show expense decreasing slightly in both the three-month and six-month periods in 2008 compared to 2007.

Travel expenses increased from 4.0% of total revenue to 4.5% of total revenue and 3.4% of total revenue to 4.7% of total revenue, respectively, for the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007. These increases were the result of a decrease in

Edgar Filing: NOBLE ROMANS INC - Form 10-Q

revenue and the actual amount of travel expenses decreased \$13,471 in the three-month period and increased \$20,870 in the six-month period ended June 30, 2008 compared to the corresponding periods in 2007.

Sales commissions decreased from 7.9% of total revenue to .5% of total revenue and 6.0% of total revenue to .9% of total revenue, respectively, for the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007. These decreases were the result of fewer franchise sales and Area Development Agreement sales.

Other operating expenses increased, as a percentage of total revenue, from 7.2% of total revenue to 9.7% of total revenue and 7.5% of total revenue to 9.9% of total revenue, respectively, for the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007. These increases were primarily the result of a decrease in revenue.

Restaurant expenses increased as a percentage of total revenue from 8.3% of total revenue to 16.1% of total revenue and 8.2% of total revenue to 16.0% of total revenue, respectively, for the three-month

12

and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007. These increases were primarily a result of an increase in the number of restaurants operated by the Company while total revenues decreased. The Company only intends to operate two restaurants to be used for testing and demonstration purposes, but from time to time temporarily operates others until a suitable franchisee is located.

General and administrative expenses increased as a percentage of total revenue from 13.7% of total revenue to 17.4% of total revenue and 14.3% of total revenue to 17.7% of total revenue, respectively, for the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007. These increases were the result of the decrease in total revenue. The actual amount of the general and administrative expense decreased in both the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007.

Operating income decreased as a percentage of total revenue from 40.0% of total revenue to 31.4% of total revenue and 41.7% of total revenue to 29.4% of total revenue, respectively, for the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007. The primary reason for these decreases were the decrease in total revenue. Actual operating expenses, excluding restaurant expenses, decreased by approximately \$321,009 and \$368,038 for the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007.

Interest expense increased as a percentage of total revenue from 5.4% of total revenue to 6.7% of total revenue and 5.7% of total revenue to 6.6% of total revenue, respectively, for the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007. These increases were primarily the result of the decrease in revenue. The amount of interest decreased in both the three-month and six-month periods ended June 30, 2008 compared to the corresponding periods in 2007. This decrease was the result of lower interest rates offset by the increased amount of debt outstanding due to the additional borrowing of \$3 million in February 2008 offset by \$1.5 million debt re-payments during the past twelve months.

Net income decreased from 22.8% of total revenue to 16.2% of total revenue and 23.8% of total revenue to 15.1% of total revenue, respectively, for the three-month and six-month periods ended June 30, 2008 compared to the

Edgar Filing: NOBLE ROMANS INC - Form 10-Q

corresponding periods in 2007. These decreases in net income were primarily the result of the decrease in total revenue, partially offset by the decrease in operating expenses.

Liquidity and Capital Resources

The Company's strategy is to grow its business by continuing to focus on franchising non-traditional locations and by franchising in traditional locations partially through the use of Area Developers. This strategy does not require significant capital.

As a result of the Company's strategy, cash flow generated from operations and the anticipated growth in Franchise Agreements and Area Development Agreements in the future, the Company believes it will have sufficient cash flow to meet its obligations and to carry out its current business plan.

On February 4, 2008, the Company and certain of its subsidiaries, entered into a First Amendment to Loan Agreement (the "Amendment") with Wells Fargo Bank, N.A. that amended the existing Loan Agreement dated August 25, 2005, between the Company and Wells Fargo (the "Loan Agreement"). Under the Amendment, Wells Fargo loaned the Company an additional \$3.0 million. The Amendment also reduced the interest rate applicable to amounts borrowed under the Loan Agreement from LIBOR

13

plus 4% per annum to LIBOR plus 3.75% per annum and extended the maturity date for borrowings under the loan from August 31, 2011 to August 31, 2013. Finally, the Amendment provides that the Company may repurchase shares of its common stock in such amounts and on such terms as are approved by the Company's board of directors from time to time, provided the aggregate purchase price of such repurchased shares shall not exceed \$3.0 million. The Board has not yet approved any such share repurchases.

On February 6, 2008, the Company elected to trade its previous swap contract for a new swap contract fixing the rate on 50% of the principal balance under the Loan Agreement, as amended by the Amendment (approximately \$4.2 million as of February 6, 2008), at an annual interest rate of 8.20%. This swap contract replaces the previously existing swap contract that fixed the interest rate on \$3,000,000 of the outstanding principal balance under the Loan Agreement at an annual interest rate of 8.83% at the time it was replaced.

The Company does not anticipate that any of the recently issued Statement of Financial Accounting Standards will have a material impact on its Statement of Operations or its Balance Sheet.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's exposure to interest rate risk relates primarily to its variable-rate debt. As of June 30, 2008, the Company had outstanding interest-bearing debt in the aggregate principal amount of \$7,875,000. The Company's current borrowings are at a monthly variable rate tied to the London Interbank Offered Rate ("LIBOR") plus 3.75% per annum adjusted on a monthly basis. To mitigate interest rate risk, the Company purchased a swap contract fixing the rate on 50% of the principal balance under the loan agreement, as amended by the amendment, at an annual interest rate of 8.20%. Based upon the principal balance outstanding at June 30, 2008, for each 1.0% increase in LIBOR, the Company would incur increased interest expense of approximately \$36,000 over the succeeding twelve-month period.

ITEM 4. Controls and Procedures

Based on his evaluation as of the end of the period covered by this report, Paul W. Mobley, the Company's Chief Executive Officer and Chief Financial Officer, has concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) are effective. There have been no changes in internal controls over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. Legal Proceedings.

Kari Heyser, Fred Eric Heyser and Meck Enterprises, LLC, et al v. Noble Roman's, Inc. et al was filed in Superior Court in Hamilton County, Indiana on June 19, 2008 (Cause No. 29D01 0806 PL 739). The Plaintiffs in the case are eight former franchisees and two existing franchisees of the dual-branded traditional franchise of the Company. The Defendants are the Company, Paul W. and A. Scott Mobley, Troy Branson, Mitch Grunat, CIT Small Business Lending Corporation and PNC Bank. The

14

Plaintiffs all allege that they purchased traditional franchises as a result of certain fraudulent representations by the Defendants and the omission of certain material facts regarding the franchises and seek compensatory and punitive damages. The Defendants have filed a Motion to Dismiss the lawsuit. In addition, the Company has filed a Counter-Claim for Damages, Preliminary Injunction and Permanent Injunction against all ten of the Plaintiffs. In addition, the Company filed a Motion for Preliminary Injunction against the eight Plaintiffs that are former franchisees. Although litigation is inherently uncertain, the Company believes that it has strong and meritorious legal and factual defenses to these claims and will vigorously defend its interests in this case.

The Company, from time to time, is involved in various litigation relating to claims arising out of its normal business operations.
