CERTIFIED SHAREHOLDER REPORT OF REGISTERED MANAGEMENT
INVESTMENT COMPANIES

Investment Company Act file number 811-06179

PREFERRED INCOME FUND INCORPORATED

(Exact name of registrant as specified in charter)

301 E. Colorado Boulevard, Suite 720
PASADENA, CA 91101

(Address of principal executive offices) (Zip code)

Donald F. Crumrine
Preferred Income Fund Incorporated
301 E. Colorado Boulevard, Suite 720
PASADENA, CA 91101

(Name and address of agent for service)

Registrant's telephone number, including area code: 626-795-7300

Date of fiscal year end: November 30, 2003

Date of reporting period: May 31, 2003

Form N-CSR is to be used by management investment companies to file reports with the Commission not later than 10 days after the transmission to stockholders of any report that is required to be transmitted to stockholders under Rule 30e-1 under the Investment Company Act of 1940 (17 CFR 270.30e-1). The Commission may use the information provided on Form N-CSR in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-CSR, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-CSR unless the Form displays a currently valid Office of Management and Budget ("OMB") control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. ss. 3507.

ITEM 1. REPORTS TO STOCKHOLDERS.

Edgar Filing: PREFERRED INCOME FUND INC - Form N-CSR

PREFERRED INCOME FUND INCORPORATED

Dear Shareholder:

Spurred by declining interest rates and increased demand for preferred securities, the Preferred Income Fund continued to perform well during the second quarter of fiscal 2003. For the three months ending May 31st, the Fund produced an 8.7% total return on net asset value ("NAV"). For the first six months of the Fund's fiscal year, the return was 19.2%.

The return on the market value of the Fund's shares was somewhat lower as the premium of the market price over the NAV declined during the quarter. For the period, the total return based upon the market value of the Fund's shares equaled 3.1%, while the return for the first six months was 15.9%. Please keep in mind, however, that past performance does not guarantee future results.

Despite a quick and successful outcome to the Iraq war, the domestic economy has not yet demonstrated that it is on the road to recovery. The Federal Reserve has kept short-term interest rates at historic lows, and many believe that further reductions will be necessary. With inflation subdued and substantial slack in output capacity and labor markets (suggesting that short-term rates are likely to remain low for an extended period), long-term interest rates have also declined. Since the start of the Fund's fiscal year, yields on two-year and ten-year US Treasuries have fallen by approximately 0.75%. Lower short-term interest rates provide a direct benefit by reducing the variable cost of the Fund's leverage in the form of its Money Market Cumulative PreferredTM Stock ("MMP(TM)"). Recently, the rates have been running below 1 1/4%.

When long-term interest rates decline, we expect to lose money on the Fund's hedges and make money on the securities in the portfolio. The hedging strategy, however, is intended to tilt the playing field in the Fund's favor, and it has been working! Since the hedge is constructed by purchasing put options on US Treasury bond futures, the Fund's loss on the hedge is limited to the cost of the puts. On the other hand, with the right issues in the portfolio, the gains on our preferred securities have more than offset the cost of the hedge, and the NAV has increased.

As we have written often in the past, our fundamental investment philosophy is to own the issues that offer the best value within the preferred securities universe. While this may seem obvious, it often means that we pass up issues offering higher yields. If we make sound investments with attractive yields and avoid serious credit losses, then the Fund will have more money to invest to generate income over time. This strategy should enable the Fund to meet its objective of high current income for shareholders.

In recent quarters, we have increased the portfolio's allocation to lower coupon, traditional preferred stocks. Falling interest rates and new legislation lowering the tax rate on Qualified Dividend Income ("QDI") to 15% have benefited these securities more than taxable (or "hybrid") preferreds.

Investors are still evaluating the new tax law and determining how to incorporate it into investment decisions (more on this in the Q&A section), but one thing is clear - certain dividend paying securities will be more valuable to individual investors. Issuers of preferred securities are also assessing the impact of the new law and we expect to see several new issues of preferred stock in the months to come. While the market tries to sort it all out, we'll stick to the basic game plan and keep looking for the best bargains within the various

Edgar Filing: PREFERRED INCOME FUND INC - Form N-CSR

sectors of the preferred market.

We certainly haven't been perfect, and some of our holdings are on life support. We have previously mentioned Consecro, Inc. and Farmland Industries, and there is unfortunately not much new to report on these two. However, we need to add one additional issue to the short list of problem credits - Touch America Holdings. Formerly Montana Power Company, management sold off its electric utility assets to focus on its fiber optic business (i.e., they zigged when they should have zagged!). The issue we own remained with the fiber optic business and has not paid a dividend for the past two quarters. (These three issuers now account for 0.2% of the Fund.)

It is important to remember that the investment objective of the Fund is to produce high current income consistent with preservation of capital. While no one will apologize for the returns of the past six months, it would be imprudent to expect them to be repeated very often. Of course, that doesn't mean we won't try, but when yields on long-term US Treasuries are well below 5% and money market funds are earning less than 1%, investors need to keep their expectations realistic. The Fund is well positioned to participate in a continuation of the rally in the bond market, but its hedging strategy is there to help protect the Fund should interest rates rise significantly.

We encourage you to read the Questions and Answers section beginning on the next page, which contains additional information on the Fund's strategy and operation, including a description of the new information that we intend to post to the Fund's web site in the near future, and discussion of a possible change in the Fund's name.

Sincerely,

/S/ SIGNATURE
Donald F. Crumrine
Chairman of the Board

QUESTIONS & ANSWERS

HOW DOES THE MARKET PRICE OF THE FUND'S SHARES COMPARE TO ITS NET ASSET VALUE?

The following chart shows the relationship between the market price of the Fund's shares and its net asset value ("NAV"). Recently, the share price has been flat while the NAV has been rising. You might expect the share price to track the NAV, although obviously this is not always the case.

The calculation of total return based upon the NAV is a straightforward measurement of the job management is doing. The linkage to performance based upon share price is less direct. While we continually promote the Fund's shares, the strongest endorsement comes from an evaluation of the NAV performance.

WHAT IS THE OUTLOOK FOR THE DIVIDEND PAID BY THE FUND?

The recent decline in interest rates has had two offsetting impacts. First, the rate that the Fund is paying on its MMP(TM) shares has declined, saving a substantial sum. Second, the income earned by the Fund is a bit lower than projected, as we have purchased securities at lower yields. For now, these two have roughly offset, and, at this point, we remain comfortable with the Fund's current dividend rate.

HOW WILL THE NEW TAX LAW TREAT PREFERRED SECURITIES?

On May 28, 2003, President Bush signed the Jobs and Growth Tax Relief Reconciliation Act of 2003. The cornerstone of the Act is a provision to lower the maximum rate paid by individuals on certain types of qualified dividend income ("QDI") to 15%. Prior to this legislation, dividend income was typically taxed at the same rate as ordinary income.

Edgar Filing: PREFERRED INCOME FUND INC - Form N-CSR

Back in January, the Bush Administration proposed eliminating the double taxation of dividends. When a company distributes a dividend to its shareholders, it does so with income left over after it has already paid taxes. Prior to the new legislation, shareholders were required to pay taxes at their maximum tax rate on that same dividend. So a dollar earned by a company could be taxed twice if it was distributed to the shareholders of the company. By lowering the tax rate, the new law reduces, but doesn't eliminate, this double taxation.

To be eligible for the lower tax rate as QDI, the dividend must be paid from the company's after-tax income. For this reason, it is important to understand the difference between taxable (or "hybrid") preferred securities and traditional preferred stock. Hybrid preferreds pay interest, which the issuer can deduct from revenue in determining its taxable income. Traditional preferreds pay dividends, which are distributed from income after taxes have been paid. Because of the different tax treatment, hybrid preferred securities normally have a higher yield than traditional preferred stocks.

For the investor, interest from hybrids is taxed as ordinary income, while dividends from traditional preferreds may be taxed at the new, lower rate. As a result, an investor in a low tax bracket or an IRA investor is more likely to purchase taxable preferreds for the higher pre-tax income, while an investor in a high tax bracket may prefer the QDI issue for the higher after-tax income. But this isn't always the case. The market tends to offset the tax impact pretty effectively, and securities that pay QDI will usually yield less (before taxes) than those that pay interest.

HOW WILL THE NEW TAX LAW IMPACT THE FUND?

We take all of this into consideration when making investments for the Fund. The Fund's investment objective is high current income, but that doesn't mean we will always own the securities with the highest yields. In recent years, the portion of the portfolio in traditional preferred stock has been steadily increasing. Traditional preferreds typically yield less than hybrid preferreds, but if that differential is small (as it was during this period), traditional preferreds can be more attractive.

The Fund's cost for its leverage may also be lower if more of the income from the portfolio comes from traditional preferreds. This is because the Fund must make additional payments to the holders of its MMP(TM) if some of the income distributed to them is from hybrid preferreds.

The allocation between traditional and hybrid preferreds is likely to change over time. Investors should NOT assume that there is a target level for traditional preferreds or other securities that pay QDI. The Fund will own these securities when we think they are more attractive than hybrid preferreds, taking all factors, including taxes, into account (even if the yield is lower). But if we are right, and relationships move back in line, we are likely to sell the traditional preferreds and buy hybrid preferreds.

HOW WILL THE FUND REPORT THE BREAKDOWN BETWEEN DIVIDENDS AND INTEREST?

At the end of the year, the Fund will calculate the breakdown according to the new rules and expects to report it to shareholders on Form 1099. We will also publish the breakdown on the Fund's web site and in the Annual Report to Shareholders.

CAN I REINVEST DIVIDENDS DIRECTLY INTO THE FUND?

Edgar Filing: PREFERRED INCOME FUND INC - Form N-CSR

Yes, the Fund's Dividend Reinvestment Plan (the "DRIP") provides a means of acquiring additional shares of the Fund without paying the full market premium. When the market price is at or above NAV, DRIP participants' dividends are reinvested into new shares acquired directly from the Fund at NAV. The only limitation is the IRS rule that the purchase cannot be more than 5% below the market price. If the shares are selling at a discount from NAV, reinvestments are executed in the market to take advantage of the discount.

More information on the DRIP is available. If your shares are held in a brokerage account, ask your broker if his/her firm is set up to participate. If you hold your shares in certificate form, or if you would just like more information, call the DRIP's agent, PFPC Inc., at 1-800-331-1710.

DOES THE FUND HAVE A WEB SITE?

Once again, we want to put in a plug for www.preferredincome.com, the web site for the Preferred Income Group of closed-end funds. You can find current information there on market prices, net asset values, discounts, yields, dividends, performance and portfolio holdings, as well as news items and general information about the Fund. In the near future, we intend to post on a monthly basis the industry concentrations, the percent of the portfolio holdings rated investment grade by at least one of the rating agencies (Moody's and S&P), and the month-end NAV. We will also post monthly the Fund's 1940 Act asset coverage ratio, which calculates the ratio of the liquidation value of the Fund's Money Market Cumulative Preferred(TM) Stock (MMP(TM)) relative to the Fund's total net assets. We continue to improve the site, but we need to know what additionally would be helpful. Please let us hear from you.

IS THE FUND CONSIDERING CHANGING ITS NAME?

Yes. Fund management thinks it is important to have a name that more effectively distinguishes it from the myriad of other preferred funds. To minimize the chances of confusion, we are considering changing the name to one that is more clearly associated with the adviser.

16

 Preferred Income Fund Incorporated
 NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION

Preferred Income Fund Incorporated (the "Fund") was incorporated as a Maryland corporation on September 28, 1990, and commenced operations on January 31, 1991 as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's investment objective is to provide its Common Shareholders with high current income consistent with the preservation of capital.

2. SIGNIFICANT ACCOUNTING POLICIES

Edgar Filing: PREFERRED INCOME FUND INC - Form N-CSR

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

PORTFOLIO VALUATION: The net asset value of the Fund's Common Stock is determined by the Fund's Administrator no less frequently than on the last business day of each week and month. It is determined by dividing the value of the Fund's net assets attributable to common shares by the number of shares of Common Stock outstanding. The value of the Fund's net assets attributable to common shares is deemed to equal the value of the Fund's total assets less (i) the Fund's liabilities, (ii) the aggregate liquidation value of the outstanding Money Market Cumulative Preferred(TM) Stock and (iii) accumulated and unpaid dividends on the outstanding Money Market Cumulative Preferred(TM) Stock.

Securities listed on a national securities exchange are valued on the basis of the last sale on such exchange on the day of valuation, except as described hereafter. In the absence of sales of listed securities and with respect to (a) securities for which the most recent sale prices are not deemed to represent fair market value and (b) unlisted securities (other than money market instruments), securities are valued at the mean between the closing bid and asked prices when quoted prices for investments are readily available. Investments in over-the-counter derivative instruments, such as interest rate swaps and options thereon ("swaptions") are valued at the prices obtained from the broker/dealer or bank that is the counterparty to such instrument, subject to comparison of such valuation with one or more valuations obtained from one or more broker/dealers or banks that are not counterparties to the particular derivative instrument. Investments for which market quotations are not readily available or for which management determines that the prices are not reflective of current market conditions are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund, including reference to valuations of other securities which are comparable in quality, maturity and type. Investments in money market instruments, which mature in 60 days or less, are valued at amortized cost. Investments in Money Market Funds are valued at the net asset value of such funds.

17

Preferred Income Fund Incorporated
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

SECURITIES TRANSACTIONS AND INVESTMENT INCOME: Securities transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded on ex-dividend dates. Interest income is recorded on the accrual basis.

The AICPA Audit and Accounting Guide, Audits of Investment Companies, requires that, for book accounting purposes, the Fund amortize premium and accrete discount on those fixed-income securities, such as capital securities, which trade and are quoted on an "accrued income" basis. Prior to December 1, 2001, the Fund was not required to amortize premium and accrete discounts for these securities. Adopting these accounting principles has not affected the Fund's net asset value, but changes the classification of certain amounts between interest income and realized and unrealized gain/loss in the Statement

Edgar Filing: PREFERRED INCOME FUND INC - Form N-CSR

of Operations. The adoption of this principle was not material to the financial statements.

The Statement of Changes in Net Assets and Financial Highlights for prior periods have not been restated to reflect these changes in presentation.

OPTIONS: Upon the purchase of an option by the Fund, the total purchase price paid is recorded as an investment. The market valuation is determined as set forth in the preceding portfolio valuation paragraph. When the Fund enters into a closing sale transaction, the Fund will record a gain or loss depending on the difference between the purchase and sale price. The risks associated with purchasing options and the maximum loss the Fund would incur are limited to the purchase price originally paid.

REPURCHASE AGREEMENTS: The Fund may engage in repurchase agreement transactions. The Fund's Investment Adviser reviews and approves the eligibility of the banks and dealers with which the Fund may enter into repurchase agreement transactions. The value of the collateral underlying such transactions is at least equal at all times to the total amount of the repurchase obligations, including interest. The Fund maintains possession of the collateral through its custodian and, in the event of counterparty default, the Fund has the right to use the collateral to offset losses incurred. There is the possibility of loss to the Fund in the event the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS: The Fund expects to declare dividends on a monthly basis to shareholders of Common Stock. The shareholders of Money Market Cumulative Preferred(TM) Stock are entitled to receive cumulative cash dividends as declared by the Fund's Board of Directors. Distributions to shareholders are recorded on the ex-dividend date. Any net realized short-term capital gains will be distributed to shareholders at least annually. Any net realized long-term capital gains may be distributed to shareholders at least annually or may be retained by the Fund as determined by the Fund's Board of Directors. Capital gains retained by the Fund are subject to tax at the capital gains corporate tax rate. Subject to the Fund's qualifying as a regulated investment company, any taxes paid by the Fund on such net realized long-term gains may be used by the Fund's shareholders as a credit against their own tax liabilities.

18

Preferred Income Fund Incorporated
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

FEDERAL INCOME TAXES: The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies and intends to distribute substantially all of its taxable net investment income to its shareholders. Therefore, no Federal income tax provision is required.

Income and capital gain distributions are determined and characterized in accordance with income tax regulations which may differ from generally accepted accounting principles. These differences are primarily due to (1) differing treatments of income and gains on various investment securities held by the Fund, including timing differences, (2) the attribution of expenses against certain components of taxable investment income, and (3) federal regulations requiring proportionate allocation of income and gains to all classes of shareholders.

Edgar Filing: PREFERRED INCOME FUND INC - Form N-CSR

Distributions from net realized gains for book purposes may include short-term capital gains, which are included as ordinary income for tax purposes and may exclude amortization of premium on "accrued income" securities, which are not reflected in ordinary income for tax purposes. The tax character of distributions paid, including changes in accumulated undeclared distributions to MMP(TM) Shareholders, during 2002 and year-to-date was as follows:

	DISTRIBUTIONS PAID IN FISCAL YEAR 2003		DISTRIBUTIONS PAID IN FISCAL YEAR 2002	
	ORDINARY INCOME	LONG-TERM CAPITAL GAINS	ORDINARY INCOME	LONG-TERM CAPITAL GAINS
Common	N/A	N/A	\$10,982,983	
Preferred	N/A	N/A	\$1,253,932	

As of November 30, 2002, the components of distributable earnings (i.e., ordinary income and capital gain/(loss)) available to Common and Preferred Stock Shareholders, on a tax basis were as follows:

CAPITAL (LOSS) CARRYFORWARD	UNDISTRIBUTED ORDINARY INCOME	UNDISTRIBUTED LONG-TERM GAIN	UNREALIZED APPRECIATION
\$(7,288,104)	\$1,427,327	--	\$ ()

At November 30, 2002, the composition of the Fund's \$7,288,104 accumulated realized capital losses was \$6,014,198, \$513,821 and \$760,085 in 2000, 2001 and 2002, respectively. These losses may be carried forward and offset against any future capital gains through 2008, 2009 and 2010, respectively.

EXCISE TAX: The Internal Revenue Code of 1986, as amended, imposes a 4% nondeductible excise tax on the Fund to the extent the Fund does not distribute by the end of any calendar year at least (1) 98% of the sum of its net investment income for that year and its capital gains (both long term and short term) for its fiscal year and (2) certain undistributed amounts from previous years. During the fiscal year ending November 30, 2003, the Fund paid \$1,812 of Federal excise taxes attributable to calendar year 2002.

 Preferred Income Fund Incorporated
 NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

3. INVESTMENT ADVISORY FEE, DIRECTORS' FEES, ADMINISTRATION FEE, TRANSFER AGENT FEE AND CUSTODIAN FEE

Flaherty & Crumrine Incorporated (the "Adviser") serves as the Fund's Investment Adviser. The Fund pays the Adviser a monthly fee at an annual rate of 0.625% of the value of the Fund's average monthly total net assets available to

Edgar Filing: PREFERRED INCOME FUND INC - Form N-CSR

Common and Preferred Stock up to \$100 million and 0.50% of the value of the Fund's average monthly total net assets available to Common and Preferred Stock in excess of \$100 million.

The Fund currently pays each Director who is not a director, officer or employee of the Adviser a fee of \$9,000 per annum, plus \$500 for each in-person meeting of the Board of Directors or any committee and \$100 for each telephone meeting. In addition, the Fund will reimburse all Directors for travel and out-of-pocket expenses incurred in connection with such meetings.

PFPC Inc., a member of the PNC Financial Services Group, Inc. ("PNC Financial Services"), serves as the Fund's Administrator and Transfer Agent. As Administrator, PFPC Inc. calculates the net asset value of the Fund's shares and generally assists in all aspects of the Fund's administration and operation. As compensation for PFPC Inc.'s services as Administrator, the Fund pays PFPC Inc. a monthly fee at an annual rate of 0.10% of the Fund's average monthly total net assets available to Common and Preferred Stock. PFPC Inc. also serves as the Fund's Common Stock servicing agent (transfer agent), dividend-paying agent and registrar and, as compensation for PFPC Inc.'s services as such, the Fund pays PFPC Inc. a fee at an annual rate of 0.02% of the Fund's average monthly total net assets available to Common and Preferred Stock plus certain out-of-pocket expenses.

PFPC Trust Company ("PFPC Trust") serves as the Fund's Custodian. PFPC Trust is an indirect subsidiary of PNC Financial Services. As compensation for PFPC Trust's services as custodian, the Fund pays PFPC Trust a monthly fee at the annual rate of 0.01% of the Fund's average monthly total net assets available to Common and Preferred Stock.

4. PURCHASES AND SALES OF SECURITIES

Cost of purchases and proceeds from sales of securities for the six months ended May 31, 2003, excluding short-term investments, aggregated \$35,826,294 and \$33,051,679, respectively.

At May 31, 2003, aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost was \$31,720,165 and aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value was \$8,906,244.

5. COMMON STOCK

At May 31, 2003, 240,000,000 shares of \$0.01 par value Common Stock were authorized.

Common Stock transactions excluding costs of additional MMP(TM) issuance in June 2002 (See Note 6) were as follows:

SIX MONTHS ENDED
5/31/03

SHARES AMOUNT SHA

Edgar Filing: PREFERRED INCOME FUND INC - Form N-CSR

Issued as reinvestment of dividends under the Dividend			
Reinvestment and Cash Purchase Plan	79,670	\$1,190,788	135

6. MONEY MARKET CUMULATIVE PREFERRED(TM) STOCK

The Fund's Articles of Incorporation authorize the issuance of up to 10,000,000 shares of \$0.01 par value preferred stock. The Money Market Cumulative Preferred(TM) Stock is senior to the Common Stock and results in the financial leveraging of the Common Stock. Such leveraging tends to magnify both the risks and opportunities to Common Stock Shareholders. Dividends on shares of Money Market Cumulative Preferred(TM) Stock are cumulative.

The Fund is required to meet certain asset coverage tests with respect to the Money Market Cumulative Preferred(TM) Stock. If the Fund fails to meet these requirements and does not correct such failure, the Fund may be required to redeem, in part or in full, Money Market Cumulative Preferred(TM) Stock at a redemption price of \$100,000 per share plus an amount equal to the accumulated and unpaid dividends on such shares in order to meet these requirements. Additionally, failure to meet the foregoing asset requirements could restrict the Fund's ability to pay dividends to Common Stock Shareholders and could lead to sales of portfolio securities at inopportune times.

Under Emerging Issues Task Force (EITF) promulgation Topic D-98, Classification and Measurement of Redeemable Securities, which was issued on July 19, 2001, preferred securities that are redeemable for cash or other assets are to be classified outside of permanent equity to the extent that the redemption is at a fixed or determinable price and at the option of the holder or upon the occurrence of an event that is not solely within the control of the issuer. Subject to the guidance of the EITF, the Fund's Money Market Cumulative Preferred(TM) Stock, which was previously classified as a component of total net assets, has been reclassified outside of permanent equity (net assets available to common stock) in the accompanying financial statements. Prior year amounts have also been reclassified to conform with this presentation. The impact of this reclassification creates no change to the net assets available to Common Shareholders.

If the Fund allocates any net gains or income ineligible for the Dividends Received Deduction to shares of the Money Market Cumulative Preferred(TM) Stock, the Fund is required to make additional

 Preferred Income Fund Incorporated
 NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

distributions to Money Market Cumulative Preferred(TM) Stock Shareholders or to pay a higher dividend rate in amounts needed to provide a return, net of tax, equal to the return had such originally paid distributions been eligible for the Dividends Received Deduction.

Prior to November 30, 1999, additional distributions were not reported as available to Money Market Cumulative Preferred(TM) Stock until declared by the Board of Directors. The amount of additional distributions payable for any year may be highly uncertain and will not be known until after a fiscal year has been

Edgar Filing: PREFERRED INCOME FUND INC - Form N-CSR

completed.

An auction of the Money Market Cumulative Preferred(TM) Stock is generally held every 49 days. Existing shareholders may submit an order to hold, bid or sell such shares at par value on each auction date. Money Market Cumulative Preferred(TM) Stock Shareholders may also trade shares in the secondary market between auction dates.

On June 4, 2002, the Fund issued 225 shares of additional Money Market Cumulative Preferred(TM) Stock with an initial dividend rate equal to 2.04%. These newly issued shares are identical to the previously outstanding 575 shares in all respects on and after their first auction date, which was June 5, 2002. Consequently, the Fund now has 800 shares of Money Market Cumulative Preferred(TM) Stock now outstanding in one series, which represents a par value of \$80 million.

The newly issued shares were underwritten by Lehman Brothers. The underwriter's discount of 1.25% of the \$22.5 million face value totaled \$281,250 and was immediately charged to common equity capital upon completion of the offering.

Costs of the issue, including legal, printing, registration, rating fees, etc. of \$219,027 were charged against common equity capital. The sum of underwriters discount and cost of the issue totaled \$500,277.

At May 31, 2003, 800 shares of Money Market Cumulative Preferred(TM) Stock were outstanding at the annual rate of 1.21%. The dividend rate, as set by the auction process, is generally expected to vary with short-term interest rates. These rates may vary in a manner unrelated to the income received on the Fund's assets, which could have either a beneficial or detrimental impact on net investment income and gains available to Common Stock Shareholders. While the Fund expects to structure its portfolio holdings and hedging transactions to lessen such risks to Common Stock Shareholders, there can be no assurance that such results will be attained.

7. PORTFOLIO INVESTMENTS, CONCENTRATION AND INVESTMENT QUALITY

The Fund invests primarily in traditional DRD-eligible preferred securities (i.e., adjustable and fixed rate preferred and preference stocks) and similar hybrid, i.e., fully taxable, preferred securities. Under normal market conditions, at least 80% of the value of the Fund's net assets will be invested in preferred securities. Also, under normal market conditions, the Fund invests at least 25% of its assets, in securities issued by utilities and at least 25% of its assets in securities issued by companies in the banking industry. The Fund's portfolio may therefore be subject to greater risk and market fluctuation

22

Preferred Income Fund Incorporated
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

than a portfolio of securities representing a broader range of investment alternatives. The risks could adversely affect the ability and inclination of companies in these industries to declare and pay dividends or interest and the ability of holders of securities of such companies to realize any value from the assets of the issuer upon liquidation or bankruptcy.

The Fund may invest up to 25% of its assets at the time of purchase in

Edgar Filing: PREFERRED INCOME FUND INC - Form N-CSR

securities rated below investment grade. These securities must be rated at least either "Ba3" by Moody's Investors Service, Inc. or "BB-" by Standard & Poor's or judged to be comparable in quality, in either case, at the time of purchase; however, these securities must be issued by an issuer having a class of senior debt rated investment grade outstanding. The percentage limitation was raised from 15% by the Fund's Board of Directors at its regular board meeting on April 19, 2002.

The Fund may invest up to 15% of its assets in common stocks and, under normal market conditions, up to 20% of its assets in debt securities. Certain of its investments in hybrid, i.e., fully taxable, preferred securities, such as TOPrS, TIPS, QUIPS, MIPS, QUIDS, QUICS, QIB's, STOPS, CorTS, REIT, Capital Securities, and other similar or related investments, will be subject to the foregoing 20% limitation to the extent that, in the opinion of the Fund's Investment Adviser, such investments are deemed to be debt-like in key characteristics. Typically, a security will not be considered debt-like (a) if an issuer can defer payment of income for eighteen months or more without triggering an event of default and (b) if such issue is a junior and fully subordinated liability of an issuer or its ultimate guarantor.

8. SPECIAL INVESTMENT TECHNIQUES

The Fund may employ certain investment techniques in accordance with its fundamental investment policies. These may include the use of when-issued and delayed delivery transactions. Securities purchased or sold on a when-issued or delayed delivery basis may be settled within 45 days after the date of the transaction. Such transactions may expose the Fund to credit and market valuation risk greater than that associated with regular trade settlement procedures. The Fund may also enter into transactions, in accordance with its fundamental investment policies, involving any or all of the following: lending of portfolio securities, short sales of securities, futures contracts, interest rate swaps, options on futures contracts, options on securities and swaptions. As in the case of when-issued securities, the use of over-the-counter derivatives, such as interest rate swaps and swaptions, may expose the Fund to greater credit, operations, and market value risk than is the case with regulated, exchange traded futures and options. With the exception of purchasing securities on a when-issued or delayed delivery basis or lending portfolio securities, these transactions are used for hedging or other appropriate risk-management purposes or, under certain other circumstances, to increase income. As of May 31, 2003, the Fund owned put options on US Treasury bond futures contracts. No assurance can be given that such transactions will achieve their desired purposes or will result in an overall reduction of risk to the Fund.

Preferred Income Fund Incorporated
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

9. SIGNIFICANT SHAREHOLDERS

At July 7, 2003, the Commerce Group, Inc. and its affiliates owned approximately 19.9% of the Fund's outstanding Common Stock, according to a Schedule 13G filing dated July 17, 2003.

24

Preferred Income Fund Incorporated
ADDITIONAL INFORMATION (UNAUDITED)

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

Under the Fund's Dividend Reinvestment and Cash Purchase Plan (the "Plan"), a shareholder whose Common Stock is registered in his own name will have all distributions reinvested automatically by PFPC Inc. as agent under the Plan, unless the shareholder elects to receive cash. Distributions with respect to shares registered in the name of a broker-dealer or other nominee (that is, in "street name") may be reinvested by the broker or nominee in additional shares under the Plan, but only if the service is provided by the broker or nominee, unless the shareholder elects to receive distributions in cash. A shareholder who holds Common Stock registered in the name of a broker or other nominee may not be able to transfer the Common Stock to another broker or nominee and continue to participate in the Plan. Investors who own Common Stock registered in street name should consult their broker or nominee for details regarding reinvestment.

The number of shares of Common Stock distributed to participants in the Plan in lieu of a cash dividend is determined in the following manner. Whenever the market price per share of the Fund's Common Stock is equal to or exceeds the net asset value per share on the valuation date, participants in the Plan will be issued new shares valued at the higher of net asset value or 95% of the then current market value. Otherwise, PFPC Inc. will buy shares of the Fund's Common Stock in the open market, on the New York Stock Exchange or elsewhere, on or shortly after the payment date of the dividend or distribution and continuing until the ex-dividend date of the Fund's next distribution to holders of the Common Stock or until it has expended for such purchases all of the cash that would otherwise be payable to the participants. The number of purchased shares that will then be credited to the participants' accounts will be based on the average per share purchase price of the shares so purchased, including brokerage commissions. If PFPC Inc. commences purchases in the open market and the then current market price of the shares (plus any estimated brokerage commissions) subsequently exceeds their net asset value most recently determined before the completion of the purchases, PFPC Inc. will attempt to terminate purchases in the open market and cause the Fund to issue the remaining dividend or distribution in shares. In this case, the number of shares received by the participant will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issues the remaining shares. These remaining shares will be issued by the Fund at the higher of net asset value or 95% of the then current market value.

Plan participants are not subject to any charge for reinvesting dividends or capital gains distributions. Each Plan participant will, however, bear a proportionate share of brokerage commissions incurred with respect to PFPC Inc.'s open market purchases in connection with the reinvestment of dividends or capital gains distributions. For the period ended May 31, 2003, no brokerage commissions were incurred.

Preferred Income Fund Incorporated
ADDITIONAL INFORMATION (UNAUDITED) (CONTINUED)

Edgar Filing: PREFERRED INCOME FUND INC - Form N-CSR

The automatic reinvestment of dividends and capital gains distributions will not relieve Plan participants of any income tax that may be payable on the dividends or capital gains distributions. A participant in the Plan will be treated for Federal income tax purposes as having received, on the dividend payment date, a dividend or distribution in an amount equal to the cash that the participant could have received instead of shares.

In addition to acquiring shares of Common Stock through the reinvestment of cash dividends and distributions, a shareholder may invest any further amounts from \$100 to \$3,000 semi-annually at the then current market price in shares purchased through the Plan. Such semi-annual investments are subject to any brokerage commission charges incurred by PFPC Inc. under the Plan.

A shareholder whose Common Stock is registered in his or her own name may terminate participation in the Plan at any time by notifying PFPC Inc. in writing, by completing the form on the back of the Plan account statement and forwarding it to PFPC Inc. or by calling PFPC Inc. directly. A termination will be effective immediately if notice is received by PFPC Inc. not less than 10 days before any dividend or distribution record date. Otherwise, the termination will be effective, and only with respect to any subsequent dividends or distributions, on the first day after the dividend or distribution has been credited to the participant's account in additional shares of the Fund. Upon termination and according to a participant's instructions, PFPC Inc. will either (a) issue certificates for the whole shares credited to the shareholder's Plan account and a check representing any fractional shares or (b) sell the shares in the market. Shareholders who hold common stock registered in the name of a broker or other nominee should consult their broker or nominee to terminate participation.

The Plan is described in more detail in the Fund's Plan brochure. Information concerning the Plan may be obtained from PFPC Inc. at 1-800-331-1710.
