BOULDER GROWTH & INCOME FUND, INC.
Semi Annual Report
May 31, 2004

Dear Shareholder:

Howdy Partners! 1 Let's get right to the meat of this report.

Total Returns
FOR THE PERIODS ENDING MAY 31, 2004

Most Recent	BIF NAV WITH DILUTION+	BIF NAV WITHOUT DILUTION	S&P 500 Index	Dow Jones Industrial Average	NASDAQ Composite
3 Months	-5.3%	-5.3%	-1.7%	-3.3%	-2.0%
6 Months	7.6%	7.6%	6.8%	5.2%	1.6%
1 Year	26.0%	26.0%	18.3%	17.6%	25.1%
Since 1/02*	-4.2%	3.8%	1.4%	3.4%	1.6%

+ The total returns for BIF include the effect of dilution from the 12/2002 rights offering, effecting only the 'Since 1/02' returns.

* Annualized since January 23, 2002, the date the current Advisers became investment advisers to the Fund.

We're a bit disappointed in our results for the most recent quarter. We under-performed all of our relevant benchmarks. However, we are comfortable with the relative results we have achieved since January 23, 2002, when current management took over, although even 2 1/2 years is a relatively short period of time. Nevertheless, we seldom pay much attention to short-term results. Contrary to a lot of contemporary thinking, we believe that the longer the period of performance you are comparing, the more apt it is to reflect the skill, or lack thereof, of the manager and the less likely it is to be the result of luck. We like long periods of success in the "investees" (the securities we buy) and you will seldom find a turnaround situation in our portfolio. We do invest in companies and managements that have had a long run of success but may have had a recent disappointment. We try to judge if the factors causing the disappointment are temporary and will be successfully resolved by management, or whether the disappointment will continue. While this is not an easy thing to predict, we find it far easier to do than to find a start up that will succeed or a company with a long history of disappointment that all of a sudden is purportedly going to be a winner. While we can often find glowing stories in this area, they so seldom pan out that we don't pay much attention to them. We think the same thing is true with picking good mutual funds.

The Fund's stocks outperformed the S&P 500 Index by 0.8% during the 6 months ended May 31, 2004. Berkshire Hathaway, still by far the Fund's largest holding at 27% of assets, was up 6.3% during the period. We sometimes get calls from people asking: "Do you still hold Berkshire Hathaway?" Asking this question is somewhat akin to somebody calling Warren Buffet and asking: "Does Berkshire Hathaway still have Geico Insurance?"

The following are some of the other significant holdings in the Fund and their returns during the period: USG Corp. was down 7%, Merck was up 2.4% and Avalonbay Communities was up 13.9%.

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSRS

1 IF YOU READ THE 11/30/2003 SHAREHOLDER LETTER, WE SAID WE'D NEVER BE CALLED "GUNSLINGERS," BUT WE DIDN'T SAY ANYTHING ABOUT USING COWBOY JARGON. BESIDES, WE REALLY DO CONSIDER YOU PARTNERS.

1

Real Estate Investment Trusts ("REITs") overall were down sharply in April. Take a look at the table above and you'll see that BIF with a -5.3% return, under-performed the S&P 500 Index by 3.6% in the latest quarter. Obviously, we outperformed the S&P 500 Index during the first quarter, since the 6-month return for BIF is 0.8% greater. Most of this is explained by the Fund's significant holdings in REITs. When it became a widespread belief that interest rates were going up, REITs were treated like other interest sensitive assets and declined dramatically. We have a different view and believe that an improving economy will benefit the REITs we own in several ways: (1) higher occupancy rates; (2) higher rental rates--most of our REITs will be able to raise rents fairly much in line with any increased inflation; and (3) fixed borrowing costs--most of our REITs have an above average amount of cheap fixed rate borrowings which will allow them to enjoy a leveraged benefit if the above two assumptions are correct. We expect that most of our REIT holdings will raise their earnings and dividends as interest rates increase, and that is why we bought them in the first place. Consequently, we suffered paper losses in our REITs, but our holdings were essentially unchanged during this rather abrupt re-pricing of them. Nonetheless, when REITs went down, the Fund's NAV suffered as a result. The NAREIT Index, a commonly used REIT index which will be used here to demonstrate a point, started moving down on April 2, and suddenly holders of REITs couldn't seem to sell them fast enough. The NAREIT Index bottomed out on May 10, having gone down some 18% from the high. It has since recovered with about a 10% increase from the low, but still below the highs it reached.

The Fund's performance doesn't live and die with the REITs it owns, but with 28.6% invested in them, they do have an impact.

We read lots of annual reports. We read the annual reports of companies the Fund owns; we read annual reports of some companies we find interesting. And some we read late at night, when we're having trouble falling asleep. We read the financials, the footnotes, and one of the things we will usually read is the shareholder letter from the President or the CEO. If the company's legal department writes it, then it's usually filled with disclaimers and definitions--lawyers hate to be misunderstood. But to an investor it won't give you any of the CEO's thoughts or evaluations of the business. Sometimes, though not always, you can glean insights from the shareholder letter that is pertinent to us as investors in the company. Berkshire Hathaway is a golden example of such a letter. If you've never read one, it is highly recommended reading for investors.

2

The Fund currently has about 2% of its assets in cash or cash equivalents as of the date of this letter. We had over 10% in cash, however since the date of this report we decided to pay down \$11 million on the line of credit we had, thus reducing the Fund's leverage to \$9 million, down from \$20 million as of May 31,

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSRS

2004. We always have the option of drawing the \$11 million back down again if we find something to buy. Short-term interest rates have climbed in recent months in anticipation of the Fed raising interest rates. This has caused an increase in our cost of leverage. The Fund had been paying in the 2.1% range, but more recently the cost has jumped to 2.4%.

Our website at WWW.BOULDERFUNDS.NET is an excellent source for information on the Fund. If you've lost your annual report, or want to read an old one, it's available on the website. You will also find information about the Boulder Growth & Income Fund's sister fund - the Boulder Total Return Fund.

BOULDER GROWTH & INCOME FUND, INC.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Boulder Growth & Income Fund, Inc. (the "Fund"), is registered under the Investment Company Act of 1940, as amended, as a closed-end, non-diversified management investment company. The policies described below are followed consistently by the Fund in the preparation of its financial statements in conformity with accounting principles generally accepted in the United States of America.

PORTFOLIO VALUATION: The net asset value of the Fund is determined by the Fund's administrator no less frequently than on the last business day of each week and month. It is determined by dividing the value of the Fund's net assets by the number of shares of Common Stock outstanding. The value of the Fund's net assets is deemed to equal the value of the Fund's total assets less the Fund's liabilities. Securities listed on a national securities exchange are valued on the basis of the last sale on such exchange or the NASDAQ Official Close Price ("NOCP") on the day of valuation. In the absence of sales of listed securities and with respect to securities for which the most recent sale prices are not deemed to represent fair market value and unlisted securities (other than money market instruments), securities are valued at the mean between the closing bid and asked prices, or based on a matrix system which utilizes information (such as credit ratings, yields and maturities) from independent sources. Investments for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund, including reference to valuations of other securities which are considered comparable in quality, maturity and type. Investments in money market instruments, which mature in 60 days or less at the time of purchase, are valued at amortized cost.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME: Securities transactions are recorded as of the trade date. Realized gains and losses from securities sold

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSRS

are recorded on the identified cost basis. Dividend income is recorded on ex-dividend dates. Interest income is recorded on the accrual basis, with premiums and discounts being amortized or accreted, respectively.

Cash distributions received from the Fund's investment in real estate investment trusts ("REITs") and registered investment companies ("RICs") are recorded as income. A portion of these distributions are returns of capital. As of May 31, 2004, all accumulated net realized gains relating to returns of capital from REIT distributions have been reclassified to unrealized gain.

REPURCHASE AGREEMENTS: The Fund may engage in repurchase agreement transactions. The Fund's Management reviews and approves periodically the eligibility of the banks and dealers with which the Fund enters into repurchase agreement transactions. The value of the collateral underlying such transactions is at least equal at all times to the total amount of the repurchase obligations, including interest. The Fund maintains possession of the collateral and, in the event of counterparty default, the Fund has the right to use the collateral to offset losses incurred. There is the possibility of loss to the Fund in the event the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS: Dividends from net investment income, if any, are declared and paid annually. Distributions to shareholders are recorded on the ex-dividend date. Any net realized short-term capital gains will be distributed to shareholders at least annually. Any net realized long-term capital gains may be distributed to shareholders at least annually or may be retained by the Fund as determined by the Fund's Board of Directors. Capital gains retained by the Fund are subject to tax at the corporate tax rate. Subject to the Fund qualifying as a registered investment company, any taxes paid by the Fund on such net realized long-term gains may be used by the Fund's Shareholders as a credit against their own tax liabilities.

FEDERAL INCOME TAXES: The Fund intends to qualify as a registered investment company by complying with the requirements under subchapter M of the Internal Revenue Code of 1986, as amended, applicable to RICs and intends to distribute substantially all of its taxable net investment income to its shareholders. Therefore, no Federal income tax provision is required.

Income and capital gain distributions are determined and characterized in accordance with income tax regulations, which may differ from generally accepted accounting principles. These differences are primarily due to (1) differing treatments of income and gains on various investment securities held by the Fund, including timing differences, (2) the attribution of expenses against certain components of taxable investment income, and (3) federal regulations requiring proportional allocation of income and gains to all classes of Shareholders. The Internal Revenue Code of 1986, as amended, imposes a 4% nondeductible excise tax on the Fund to the extent the Fund does not distribute by the end of any calendar year at least (1) 98% of the sum of its net investment income for that year and its capital gains (both long term and short term) for its fiscal year and (2) certain undistributed amounts from previous years.

CASH: Cash as used in the Statement of Cash Flows is the amount reported in the Statements of Assets and Liabilities. Information on cash payments or any cash movement is presented in the Statement of Cash Flows. Accounting practices that do not affect reporting activities on a cash basis include unrealized gain or loss on investment securities and accretion income recognized on investment securities.

OTHER: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

2. INVESTMENT CO-ADVISORY FEES, DIRECTORS' FEES, ADMINISTRATION FEE, CO-ADMINISTRATION FEE, CUSTODY FEE AND TRANSFER AGENT FEE

Boulder Investment Advisers, L.L.C. ("BIA") and Stewart Investment Advisers ("SIA") serve as the Fund's Co-Investment Advisers ("Advisers"). The Fund pays the Advisers a monthly fee at an annual rate of 1.25% of the value of the Fund's average monthly net assets. The equity owners of BIA are Evergreen Atlantic, LLC, a Colorado limited liability company ("EALLC"), and the Lola Brown Trust No. 1B (the "Lola Trust"), each of which is considered to be an "affiliated person" of the Fund as that term is defined in the 1940 Act. Stewart West Indies Trading Company, Ltd. is a Barbados international business company doing business as Stewart Investment Advisers. SIA receives a monthly fee equal to 75% of the fees earned by the Advisers, and BIA receives 25% of the fees earned by the Advisers. The equity owner of SIA is the Stewart West Indies Trust, considered to be an "affiliated person" of the Fund as that term is defined in the 1940 Act. The Advisers agreed to waive one half of their fee on the proceeds from the December 2002 rights offering, and on the proceeds from the \$20 million Line of Credit with Custodial Trust Company of Bear Stearns on April 16, 2003, until such time as more than 50% of the respective proceeds plus cash on hand at the time the proceeds were received, are invested, which has since then occurred.

Fund Administrative Services, LLC ("FAS") serves as the Fund's Administrator. Under the Administration Agreement, FAS provides certain administrative and executive management services to the Fund including: providing the Fund's principal offices and executive officers, overseeing and administering all contracted service providers, making recommendations to the Board regarding policies of the Fund, conducting shareholder relations, authorizing expenses and other administrative tasks. As of February 1, 2004, under the Co-Administration Agreement, the Fund pays FAS a monthly fee calculated at an annual rate of 0.20% of the value of the Fund's average monthly net assets up to \$250 million; 0.18% of the Fund's average monthly net assets on the next \$150 million; and, 0.15% on the value of the Fund's average monthly net assets over \$400 million. Notwithstanding, FAS has agreed to cap the Fund's total administration costs at 0.30% (including administration and co-administration, transfer agent, and custodian fees). As such, FAS has agreed to waive a portion of its fees should the total monthly administration expenses exceed 0.30%. Prior to February 1, 2004, the Fund paid FAS a monthly fee, calculated at an annual rate of 0.30% of the value of the Fund's average monthly net assets out of which FAS was required to pay any fees for outsourcing any administrative, custodial or transfer agency services, which it had done. The equity owners of FAS are EALLC and the Lola Trust, each of which is considered to be an "affiliated person" of the Fund as that term is defined in the 1940 Act.

The Fund pays each Director who is not a director, officer or employee of the Advisers or FAS a fee of \$8,000 per annum, plus \$3,000 for each in-person meeting of the Board of Directors and \$500 for each telephone meeting. In addition, the Chairman of the Board and the Chairman of the Audit Committee receive \$1,000 per meeting and each member of the Audit Committee receives \$500 per meeting. The Fund will also reimburse all Directors for travel and out-of-pocket expenses incurred in connection with such meetings.

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSRS

PFPC Inc. ("PFPC"), an indirect, majority-owned subsidiary of The PNC Financial Services Group Inc., serves as the Fund's Co-administrator and Transfer Agent. As Co-administrator, PFPC calculates the net asset value of the Fund's shares and generally assists in all aspects of the Fund's administration and operation. The Fund pays PFPC a fee on a monthly basis based on average net assets. PFPC Trust Company, an indirect subsidiary of The PNC Financial Services Group Inc., serves as the Fund's Custodian. As compensation to PFPC Trust Company, the Fund pays PFPC Trust Company a monthly fee based on the Fund's monthly gross assets.

3. PURCHASES AND SALES OF SECURITIES

Cost of purchases and proceeds from sales of securities for the six months ended May 31, 2004, excluding short-term investments, aggregated \$20,975,397 and \$15,266,561 respectively.

At May 31, 2004, aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost was \$16,858,763 and aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value was \$337,902.

4. COMMON STOCK

At May 31, 2004, 250,000,000 shares of \$0.01 par value Common Stock were authorized.

5. PORTFOLIO INVESTMENTS, CONCENTRATION AND INVESTMENT QUALITY

The Fund operates as a "non-diversified" investment company, as defined in the 1940 Act. As a result of being "non-diversified", with respect to 50% of the Fund's portfolio, the Fund must limit to 5% the portion of its assets invested in the securities of a single issuer. There are no such limitations with respect to the balance of the Fund's portfolio, although no single investment can exceed 25% of the Fund's total assets at the time of purchase. A more concentrated portfolio may cause the Fund's net asset value to be more volatile than it has been historically and thus may subject shareholders to more risk. The Fund may hold a substantial position (up to 25% of its assets) in the common stock of a single issuer. As of May 31, 2004, the Fund held a significant position in Berkshire Hathaway, Inc., and thus, the volatility of the Fund's common stock, and the Fund's net assets value and its performance in general, depends disproportionately more on the performance of this single issuer than that of a more diversified fund.

At the April 2003 shareholder meeting, Shareholders approved a proposal that permits the Fund to be concentrated in REITs (real estate investment trusts). REITs are securities of companies whose primary objective is investment in real property or providing services to real property interests. The Fund must invest at least 25% of its assets in REIT securities. The Fund intends to invest in REIT securities primarily for income. Risks associated with investing in REITs include the potential for loss of value if there is an underlying decline in value of the properties in which the REIT invests. Property valuations may rise and fall with either local economic conditions or with the national economy. Furthermore, the dividend income paid by a REIT may be reduced or eliminated. In addition, the Fund bears its ratable share of REIT expenses while

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSRS

still paying management fees on the Fund assets so invested.

The Fund intends to concentrate its common stock investments in a few issuers and to take large positions in those issuers, consistent with being a "non-diversified" fund. As a result, the Fund is subject to a greater risk of loss than a diversified fund or a fund that has diversified its investments more broadly. Taking larger positions is also likely to increase the volatility of the Fund's net asset value reflecting fluctuation in the value of large Fund holdings. Under normal market conditions, the Fund intends to invest at least 80% of its net assets in common stocks. Common stocks include dividend-paying closed-end funds and REITs. The portion of the Fund's assets that are not invested in common stocks may be invested in fixed income securities and cash equivalents. The term "fixed income securities" includes RICs whose objective is income, REITs, bonds, U.S. Government securities, notes, bills, debentures, preferred stocks, convertible securities, bank debt obligations, repurchase agreements and short-term money market obligations.

6. SIGNIFICANT SHAREHOLDERS

On May 31, 2004, trusts and other entities affiliated with Stewart R. Horejsi and the Horejsi family owned 2,354,600 shares of Common Stock of the Fund, representing approximately 20.79% of the total Fund shares.

7. SHARE REPURCHASE PROGRAM:

In accordance with Section 23(c) of the Investment Company Act of 1940, as amended, the Fund hereby gives notice that it may from time to time repurchase shares of the Fund in the open market at the option of the Board of Directors and upon such terms as the Directors shall determine.

8. RIGHTS OFFERING

On October 15, 2002 the Fund's shareholders approved a transferable rights offering which would permit shareholders to acquire one new share of the Fund for each share held. The rights were transferable, which allowed shareholders who did not wish to exercise their rights to sell them on the New York Stock Exchange. The record date for determining shareholders eligible to participate in the rights offering was November 29, 2002. The subscription period was from December 2, 2002 to December 20, 2002. The Market price for the shares issued through the rights offering was calculated based on the volume-weighted average closing price of the Fund's shares from December 16 through December 20, 2002. The rights offering was fully subscribed and the Fund issued 5,663,892 new shares at a price of \$4.34 each. The total gross proceeds to the Fund were \$24,581,291. As of November 30, 2003, the expense associated with the rights offering totaled \$159,614.

9. LOAN OUTSTANDING

The Fund has a credit agreement with the Custodial Trust Company of Bear Stearns, in which the Fund may borrow from the Custodial Trust Company an aggregate amount of up to the lesser of \$20,000,000 or the maximum amount the Fund is permitted to borrow under the Investment Company Act of 1940. At May 31, 2004, the Fund had a loan payable in the amount of \$20,000,000 with a weighted average interest rate of 1.09%, calculated at a rate per annum during each Interest Period equal to 30-day LIBOR on the Interest Commencement Date of such Interest Period plus 1%. This loan has no maturity date and can be paid or called at any time.

10. DEFERRED COMPENSATION

At May 31, 2004, the Fund had a deferred compensation liability to a former Director of the Fund which totaled \$100,325 including any accrued interest.

11. CHANGE OF DIRECTOR

On May 18, 2004, Susan L. Ciciora did not stand for re-election as Director of the Fund. In her place, the Nominating Committee recommended John S. Horejsi. At the same meeting, shareholders elected John S. Horejsi to serve a one year term as Director to the Fund.
