SHAREHOLDER LETTER

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND (FFA)
ANNUAL REPORT
DECEMBER 31, 2005

Dear Shareholders:

We are pleased to present you with this annual report on the First Trust/Fiduciary Asset Management Covered Call Fund (NYSE: FFA). For the 2005 fiscal year, the Fund paid an annualized dividend rate of 8.0% on the \$20 common share IPO price. The Fund posted a total return of 3.5% based on the net asset value ("NAV") and a market price total return of -6.9% for the fiscal year ended December 31, 2005. This compared to a total return of 4.9% for the S&P 500 and 4.3% for the CBOE S&P 500 BuyWrite Index (BXM) for the same one-year period.

The Fund's investment objective is to provide a high level of current income and gains and, to a lesser extent, capital appreciation. The Fund seeks to achieve its investment objective by investing in a diversified portfolio of equity securities and writing (selling) call options on at least 80% of the Fund's managed assets. According to Chicago Board Options Exchange ("CBOE"), for the second consecutive year, annual trading volume at the CBOE posted a new all-time record. The 468.2 million contracts traded in 2005 represented the busiest year in CBOE history and a 30% increase over 2004's then-record total of 361.1 million contracts.

Throughout the year the markets were confronted with many obstacles including rising energy and oil prices, several short-term rate increases and natural disasters. In spite of some of the difficulties of this past year, the American economy continues to grow, posting an overall growth rate of 3.5% for 2005, although this is down from 4.2% for 2004. According to U.S. News & World Report, since April 2003 the economy has created a net 5.1 million new jobs and unemployment, which was 4.9% in December 2005, is lower than the average for the 1970s, 1980s and 1990s. For calendar year 2005, core inflation was only 2.2% and oil prices have come down from their post-hurricane peaks.

First Trust Advisors L.P. ("First Trust") serves as the Fund's investment advisor and currently manages or supervises approximately \$23 billion in assets. Fiduciary Asset Management, LLC ("FAMCO") serves as the Fund's Sub-Advisor and invests in a broad range of equity, hedged equity, master limited partnership and fixed income strategies for institutional and high net worth clients. FAMCO's clients include Fortune 500 companies, public pensions and large endowments and foundations. FAMCO was established as an independent investment firm in 1994 and has managed covered call option portfolios for clients since 1997. FAMCO currently manages and supervises approximately \$16.5 billion in

client assets. I encourage you to read the commentary from the portfolio management team found on the following pages. It includes a review of the Fund's performance and the portfolio managers' outlook for the markets.

We thank you for your confidence in First Trust and FAMCO and will work diligently to keep earning it.

Sincerely,

/s/ James A. Bowen

PORTFOLIO COMMENTARY

Equity markets in 2005 presented a number of challenging headwinds, most notably crude oil prices advancing from \$45 per barrel in January 2005 to a summer peak of nearly \$70 per barrel, with contract pricing for NYMEX wholesale gasoline spiking to \$2.61 per gallon at the end of August 2005. Also there were eight consecutive 25-basis point Fed funds target rate increases on the heels of four tightenings during 2004 and lingering inflationary concerns throughout much of the year. For a covered call writer, one would think that a tight overlay strategy would be appropriate within this uncertain investment environment, and for the most part this type of strategy paid off during the year. However, periods of strength in the market throughout the year also caused a conservative option strategy - and, by design, the First Trust/Fiduciary Asset Management Covered Call Fund (the "Fund") - to sacrifice some of the upside participation within the market for downside protection and income generation from call premiums.

That said, the Fund produced a NAV total return of 3.5% for the full year - net of fees - as compared to the S&P 500 Index performance of 4.9%. Another index, the CBOE S&P 500 BuyWrite Index (BXM), returned 4.3% for the period. Fixed-income investors faced an even more difficult 2005 environment with the Lehman U.S. Aggregate Index returning 2.4%. The underlying equity positions in the Fund advanced a solid 7.0% return for the year. The market price total return of the Fund was -6.9%.

During 2005, the Fund declared and paid four-quarterly dividends to shareholders. The aggregate amount of these dividends, \$1.60 per share, represented ordinary income earned by the Fund's investment portfolio throughout the year, and computes to an annualized yield of 8.0% on the initial offering price of \$20.00 per share.

From a sector standpoint, the investment environment during calendar year 2005 can essentially be summed up in a single word: Energy. While the S&P 500 Index generated a total return of 4.9% for the year, if the energy sector is excluded it was up just over 3.0%. Although the Energy sector only represents just under 9% of the total S&P 500 composite, a key determinant of the Fund's return throughout 2005 was under-owning the sector. Unfortunately this was the scene where the Fund opened the year, armed with our assumption that \$45 per barrel crude oil was "most likely" unsustainable. However, strong demand from newly industrialized Asian economies coupled with a supply imbalance pushed crude higher throughout the year, peaking at the end of the summer months with the advent of Hurricanes Katrina and Rita. Recognizing the growing demand for global natural resources and with the supply scarcity within these markets becoming more and more evident, we not only offset the Fund's underweight in oil commodities as the year progressed, but additionally increased the Fund's exposure in global infrastructure investments, including oil services, coal transportation and mining materials.

Specifically, while the Fund's stock selection process in the Energy sector generated returns in excess of the S&P Energy sector, the Fund's underweight in the sector during the first quarter of 2005 negatively impacted performance for the Fund through the year. The Fund's largest position within the Energy sector was Valero Energy Corp. (representing 2.6% of the portfolio as of December 31, 2005), which advanced 52.8% since purchased for the Fund, and was the top-performing equity within the S&P 500 for 2005 based on total return.

The under-performance within the Energy sector was nearly offset by excess performance from the Fund's positions in the Materials and Industrial sectors, a by-product of our global resources investment theme. Specifically, the Fund's position in Phelps Dodge (representing 2.1% of the portfolio as of December 31, 2005) added approximately 90 basis points of excess performance versus the S&P 500 index, with the stock advancing just over 50% for the full year.

The Fund maintained a large overweight in the Technology sector for much of the year, amounting to a 4.5% overweighting as compared to the technology weightings within the S&P 500 composite, helping to add excess performance for the Fund. The Fund's ownership in Apple Computer (representing 3.3% of the portfolio as of December 31, 2005) turned in the best performance for the Fund during the year - and, incidentally, the second best performing equity within the S&P 500 Index for 2005 - advancing almost 115% while owned in the Fund, benefiting from excitement in new product development and introductions. Conversely, the Fund's positions in Dell Computer (representing 1.0% of the portfolio as of December 31, 2005) and Symantec (representing 1.0% of the portfolio as of December 31, 2005) negatively impacted the Fund's performance for the year, declining 29% and 32%, respectively.

The Fund's overweight in Healthcare - specifically Healthcare Services and Biotechnology -- generated a large percentage of the Fund's excess performance on a long-only basis. The Fund's largest position in the Healthcare Services sector was UnitedHealth Group, Inc. (representing 4.3% of the portfolio as of December 31, 2005), advancing 41.2% for the year. That said, the Fund's ownership in Zimmer Holdings Inc. - a knee and hip replacement healthcare equipment company - (representing 2.7% of the portfolio as of December 31, 2005) declined over 17% during the year as the market became increasingly concerned with product pricing. We still believe the demographic theme for Zimmer Holdings Inc. remains intact and continued to hold the position through year-end.

Our underweight in the Financial sector modestly hindered overall performance on a relative basis despite outperforming the S&P Financial sector on an individual equity basis. Specifically, the Fund's largest position in the group was Lehman Brothers Holdings, Inc. (representing 4.3% of the portfolio as of December 31, 2005), which increased just under 35% for the period held in the Fund. Conversely, the Fund's ownership of MBNA Corp. and American International Group Inc. - each owned earlier in the year -- negatively impacted overall performance within the Financial sector, declining 6.1% and 17.0%, respectively.

As mentioned previously, the Fund maintained a relatively tight option overlay for the first half of the year, as our investment strategy recognized more downside risks than upside potential given the tightening Federal Reserve monetary policy, a squeezing of monetary liquidity, and some inflationary concerns. However, as we progressed through the first half of the year, we became more convinced that the Federal Open Market Committee ("FOMC") was likely closer to ending its tightening policy sooner than the market was expecting. With this in mind, we loosened up the Fund's option overwriting strategy late in the spring to take advantage of what we envisioned to be a strong earnings period for the second quarter. Despite the market pull-back witnessed during the month of October, the Fund's option strategy has remained more out-of-the-money in an effort to capture greater underlying stock price appreciation.

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

We believe the overall economy remains in fine shape, which is noteworthy considering this past summer's dramatic increase in energy prices and the varied natural disasters that occurred over the summer. From an economic standpoint, growth in the Gross Domestic Product ("GDP") remains above trend-line, while core inflation has trended down since the beginning of the year. Personal consumption has surprised on the upside with unemployment moderating, and corporate profits remain robust. We continue to view current monetary policy as tight, but expect these headwinds to moderate with the Federal Reserve off "auto-pilot" and monetary liquidity resuming modest growth.

From a strategic standpoint we maintain that the market is currently exiting a typical mid-cycle slowdown phase, caused principally by 13 consecutive Fed funds interest rate target tightenings. The completion of this tightening cycle should bode well for equities, given that corporate profits continued to proliferate throughout this period despite the Fed's policy actions. The release from the December 13th FOMC meeting indicated some promising signs of relief with respect to further monetary tightening, helping to drive improved performance from interest-rate sensitive sectors. Equity valuations remain particularly attractive relative to other asset classes, especially given the low interest-rate environment.

While earnings growth will likely moderate over the next 12 months, large cap growth stocks should begin to outperform value investment styles as valuations catch up with the recent profit performance. Business and capital spending should begin to accelerate given clean corporate balance sheets, large cash positions and growing activism from shareholders forcing management teams to utilize cash for value-enhancing propositions or to distribute it to shareholders. This revitalization in the corporate sector should help to more than offset an expected slowing of growth in consumer spending if housing values finally begin to moderate and equity-withdrawals from homes decline.

NOTES TO FINANCIAL STATEMENTS

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND
DECEMBER 31, 2005

1. FUND DESCRIPTION

First Trust/Fiduciary Asset Management Covered Call Fund (the "Fund") is a diversified closed-end management investment company organized as a Massachusetts business trust on May 20, 2004 and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FFA on the New York Stock Exchange ("NYSE").

The Fund's investment objective is to provide a high level of current income and gains and, to a lesser extent, capital appreciation. The Fund seeks to achieve its investment objective by investing in a diversified portfolio of equity securities and writing (selling) call options on at least 80% of the Fund's Managed Assets ("Managed Assets" is gross assets of the Fund minus the sum of the Fund's accrued and unpaid dividends on Common Shares and accrued liabilities, including the value of call options written). There can be no assurance that the Fund's investment objective will be achieved.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

A. PORTFOLIO VALUATION:

The Fund determines the net asset value ("NAV") of its shares daily, as of the close of regular session trading on the NYSE, normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. The NAV is computed by dividing the value of all assets of the Fund (including accrued interest and dividends), less all liabilities (including accrued expenses, the value of call options written (sold) and dividends declared but unpaid), by the total number of shares outstanding.

The Fund's investments are valued at market value or, in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities trading on the NASDAQ, are valued at the closing bid prices. Fixed income securities with a remaining maturity of 60 days or more will be valued by the Fund using a pricing service. Short-term investments that mature in less than 60 days are valued at amortized cost.

The Fund values exchange-traded options and other derivative contracts at the closing price on the exchange on which they are principally traded, or if not traded, or no closing price is available, at the mean between the last bid and ask price.

B. OPTION CONTRACTS:

COVERED OPTIONS. When the Fund purchases equity securities, it simultaneously writes (sells) covered call or put options ("options") on substantially all of such equity securities. The number of options the Fund can write (sell) is limited by the amount of equity securities the Fund holds in its portfolio. The Fund will not write (sell) "naked" or uncovered options. By writing (selling) options, the Fund seeks to generate additional income, in the form of premiums received for writing (selling) the options, and provide a partial hedge against a market decline in the underlying equity security. Options are marked-to-market daily and their value will be affected by changes in the value and dividend rates of the underlying equity securities, an increase in interest rates, changes in the actual or perceived volatility of the securities markets and the underlying equity securities and the remaining time to the options' expiration. The value of options may also be adversely affected if the market for the options becomes less liquid or smaller.

Options the Fund writes (sells) will either be exercised, expire or be cancelled pursuant to a closing transaction. If the price of the underlying equity security exceeds the option's exercise price, it is likely that the option holder will exercise the option. If an option written (sold) by the Fund is exercised, the Fund would be obligated to deliver the underlying equity security to the option holder upon

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND DECEMBER 31, 2005

payment of the exercise price. In this case, the option premium received by the Fund will be added to the amount realized on the sale of the equity security for purposes of determining gain or loss. If the price of the underlying equity security is less than the option's exercise price, the option will likely expire without being exercised. The option premium will be treated as short-term capital gain on the expiration date of the option. The Fund may also elect to close out its position in an option prior to its expiration by purchasing an option of the same series as the option written (sold) by the Fund.

The Fund writes (sells) options on at least 80% of the Fund's Managed Assets. These options give the option holder the right, but not the obligation, to purchase a security from the Fund at the strike price on or prior to the option's expiration date. The ability to successfully implement the Fund's investment strategy depends on Fiduciary Asset Management, LLC's ("FAMCO" or the "Sub-Advisor") ability to predict pertinent market movements, which cannot be assured. Thus, the use of options may require the Fund to sell portfolio securities at inopportune times or for prices other than current market value, may limit the amount of appreciation the Fund can realize on an investment, or may cause the Fund to hold a security that it might otherwise sell. As the writer (seller) of a covered option, the Fund forgoes, during the option's life, the opportunity to profit from increases in the market value of the security covering the option above the sum of the premium and the strike price of the option, but has retained the risk of loss should the price of the underlying security decline. The writer (seller) of an option has no control over the time when it may be required to fulfill its obligation as a writer (seller) of the option. Once an option writer (seller) has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying security at the exercise price.

C. SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis, including amortization of premiums and accretion of discounts.

Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date; interest income on such securities is not accrued until settlement date. The Fund instructs the custodian to segregate assets of the Fund with a current value at least equal to the amount of its when-issued purchase commitments.

D. DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

Dividends from net investment income of the Fund are declared and paid quarterly or as the Board of Trustees may determine from time to time. Distributions of any net capital gains earned by the Fund are distributed at least annually. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund. During the year ended December 31, 2005, there were no permanent differences in book and tax accounting.

Page 17

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND
DECEMBER 31, 2005

The tax character of distributions paid during the fiscal year ended December 31, 2005 and the period ended December 31, 2004 is as follows:

Distributions paid from:

	2005	2004
	----	----
Ordinary Income	\$ 31,805,703	\$10,582,426

As of December 31, 2005, the components of distributable earnings on a tax basis were as follows:

Undistributed Ordinary Income	\$ 3,245,219
Net Unrealized Depreciation	(4,694,072)

E. INCOME TAXES:

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, and by distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

F. EXPENSES:

The Fund pays all expenses directly related to its operations.

G. ORGANIZATION AND OFFERING COSTS:

Organization costs consist of costs incurred to establish the Fund and enable it to legally do business. These costs include filing fees, listing fees, legal services pertaining to the organization of the business and audit fees relating to the initial registration and auditing the initial statement of assets and liabilities, among other fees. Offering costs consist of legal fees pertaining to the Fund's shares offered for sale, registration fees, underwriting fees, and printing of the initial prospectus, among other fees. First Trust Advisors L.P. ("First Trust") has paid all organization expenses. The Fund's share of Common Share offering costs, \$791,209, were recorded as a reduction of the proceeds from the sale of Common Shares during the period ended December 31, 2004.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for implementing the Fund's overall

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

investment strategy, including the allocation and periodic reallocation of the portion of the Fund's assets to be invested in common stocks, managing the Fund's business affairs and certain administrative services necessary for the management of the Fund. For these services, First Trust is entitled to a monthly fee calculated at an annual rate of 1.00% of the Fund's Managed Assets.

FAMCO serves as the Fund's Sub-Advisor and manages the Fund's portfolio subject to First Trust's supervision. The Sub-Advisor receives an annual portfolio management fee of 0.50% of Managed Assets that is paid monthly by First Trust from its investment advisory fee.

PFPC Inc. ("PFPC"), an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Administrator and Transfer Agent in accordance with certain fee arrangements. PFPC Trust Company, an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Custodian in accordance with certain fee arrangements.

The Fund paid each Trustee who is not an officer or employee of First Trust or any of its affiliates an annual retainer of \$10,000, which included compensation for all regular quarterly board meetings and regular committee meetings. No additional meeting fees were paid in connection with regular quarterly board meetings or regular committee meetings. Additional fees of \$1,000 and \$500 were paid to non-interested Trustees for special board meetings and non-regular committee meetings, respectively. These additional fees were shared by the funds in the First Trust fund complex that participated in the particular meeting and are not per fund fees. Trustees are also reimbursed for travel and out-of-pocket expenses in connection with all meetings. Effective January 1, 2006, the non-interested Trustees will no longer be paid additional fees of \$1,000 and \$500 for special board meetings and non-regular committee meetings, respectively.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF FIRST TRUST/FIDUCIARY ASSET
MANAGEMENT COVERED CALL FUND

We have audited the accompanying statement of assets and liabilities of First Trust/Fiduciary Asset Management Covered Call Fund (the "Fund"), including the portfolio of investments, as of December 31, 2005, the related statement of operations for the year then ended and the statements of changes in net assets and the financial highlights for the year then ended and for the period August 17, 2004 (inception) through December 31, 2004. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2005, by correspondence with the Fund's custodian and brokers. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of December 31, 2005, the results of its operations and the changes in its net assets, and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

ADDITIONAL INFORMATION

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND DECEMBER 31, 2005 (UNAUDITED)

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect, by written notice to the Fund, to receive cash distributions, all dividends including any capital gain distributions, on your Common Shares will be automatically reinvested by PFPC Inc. (the "Plan Agent") in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc. as dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If the Common Shares are trading at or above net asset value ("NAV") at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) NAV per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If the Common Shares are trading below NAV at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may elect to opt-out of or withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone at (800) 331-1710, in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan, and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all Common shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you. Consult your financial advisor for more information.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PFPC Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

ITEM 6. SCHEDULE OF INVESTMENTS.

Schedule of Investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the report to shareholders filed under Item 1 of this form.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Proxy Voting Policies are attached herewith.

FIDUCIARY ASSET MANAGEMENT, LLC PROXY VOTING POLICY

A. STATEMENT OF POLICY

1. It is the policy of Fiduciary Asset Management, LLC ("FAM") to vote all proxies over which it has voting authority in the best interest of FAM's clients.

B. Definitions

2. By "best interest of FAM's clients," FAM means clients' best economic interest over the long term -- that is, the common interest that all clients share in seeing the value of a common investment increase over time. Clients may have differing political or social interests, but their best economic interest is generally uniform.

3. By "material conflict of interest," FAM means circumstances when FAM itself knowingly does business with a particular proxy issuer or closely affiliated entity, and may appear to have a significant conflict of interest between its own interests and the interests of clients in how proxies of that issuer are voted.

C. FAM Invests With Managements That Seek Shareholders' Best Interests

4. Under its investment philosophy, FAM generally invests client funds in a company only if FAM believes that the company's management seeks to serve shareholders' best interests. Because FAM has confidence in the managements of the companies in which it invests, it believes that management decisions and

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

recommendations on issues such as proxy voting generally are likely to be in shareholders' best interests.

5. FAM may periodically reassess its view of company managements. If FAM concludes that a company's management no longer serves shareholders' best interests, FAM generally sells its clients' shares of the company. FAM believes that clients do not usually benefit from holding shares of a poorly managed company or engaging in proxy contests with management. There are times when FAM believes management's position on a particular proxy issue is not in the best interests of our clients but it does not warrant a sale of the client's shares. In these circumstances, FAM will vote contrary to management's recommendations.

D. FAM's Proxy Voting Procedures

6. When companies in which FAM has invested client funds issue proxies, FAM routinely votes the proxies as recommended by management, because it believes that recommendations by these companies' managements generally are

in shareholders' best interests, and therefore in the best economic interest of FAM's clients.

7. If FAM has decided to sell the shares of a company, whether because of concerns about the company's management or for other reasons, FAM generally abstains from voting proxies issued by the company after FAM has made the decision to sell. FAM generally will not notify clients when this type of routine abstention occurs.

8. FAM also may abstain from voting proxies in other circumstances. FAM may determine, for example, that abstaining from voting is appropriate if voting may be unduly burdensome or expensive, or otherwise not in the best economic interest of clients, such as when foreign proxy issuers impose unreasonable voting or holding requirements. FAM generally will not notify clients when this type of routine abstention occurs.

9. The procedures in this policy apply to all proxy voting matters over which FAM has voting authority, including changes in corporate governance structures, the adoption or amendment of compensation plans (including stock options), and matters involving social issues or corporate responsibility.

E. Alternative Procedures for Potential Material Conflicts of Interest

10. In certain circumstances, such as when the proponent of a proxy proposal is also a client of FAM, an appearance might arise of a potential conflict between FAM's interests and the interests of affected clients in how the proxies of that issuer are voted.

11. Because FAM does not exercise discretion in voting proxies, but routinely votes proxies as recommended by management, no potential conflict of interest could actually affect FAM's voting of the proxies.

12.a. Nevertheless, when FAM itself knowingly does business with a particular proxy issuer and a material conflict of interest between FAM's interests and clients' interests may appear to exist, FAM generally would, to avoid any appearance concerns, follow an alternative procedure rather than vote proxies as recommended by management. Such an alternative procedure generally would involve causing the proxies to be voted in accordance with the recommendations of an independent service provider that FAM may use to assist in voting proxies. FAM generally will not notify clients if it uses this procedure to resolve an apparent material conflict of interest. FAM will document the identification of any material conflict of interest and its procedure for resolving the particular

conflict.

12.b. In unusual cases, FAM may use other alternative procedures to address circumstances when a material conflict of interest may appear to exist, such as, without limitation:

(i) Notifying affected clients of the conflict of interest (if practical), and seeking a waiver of the conflict to permit FAM to vote the proxies under its usual policy;

(ii) Abstaining from voting the proxies; or

(iii) Forwarding the proxies to clients so that clients may vote the proxies themselves.

FAM generally will notify affected clients if it uses one of these alternative procedures to resolve a material conflict of interest.

F. Other Exceptions

13. On an exceptions basis, FAM may for other reasons choose to depart from its usual procedure of routinely voting proxies as recommended by management.

G. Voting by Client Instead of FAM

14. A FAM client may vote its own proxies instead of directing FAM to do so. FAM recommends this approach if a client believes that proxies should be voted based on political or social interests.

15. FAM generally will not accept proxy voting authority from a client (and will encourage the client to vote its own proxies) if the client seeks to impose client-specific voting guidelines that may be inconsistent with FAM's guidelines or with the client's best economic interest in FAM's view.

16. FAM generally will abstain from voting on (or otherwise participating in) the commencement of legal proceedings such as shareholder class actions or bankruptcy proceedings.

H. Persons Responsible for Implementing FAM's Policy

17. FAM's client services staff has primary responsibility for implementing FAM's proxy voting procedures, including ensuring that proxies are timely submitted. FAM also may use a service provider to assist in voting proxies, recordkeeping, and other matters.

18. FAM's Senior Vice President, Client Relations will routinely confer with FAM's Chief Investment Officer if there is a proxy proposal which would result in a vote against management.

I. Recordkeeping

19. FAM or a service provider maintains, in accordance with Rule 204-2 of the Investment Advisers Act:

(i) Copies of all proxy voting policies and procedures;

(ii) Copies of proxy statements received (unless maintained elsewhere as described below);

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

- (iii) Records of proxy votes cast on behalf of clients;
- (iv) Documents prepared by FAM that are material to a decision on how to vote or memorializing the basis for a decision;
- (v) Written client requests for proxy voting information, and (vi) written responses by FAM to written or oral client requests.

20. FAM will obtain an undertaking from any service provider that the service provider will provide copies of proxy voting records and other documents promptly upon request if FAM relies on the service provider to maintain related records.

21. FAM or its service provider may rely on the SEC's EDGAR system to keep records of certain proxy statements if the proxy statements are maintained by issuers on that system (as is generally true in the case of larger U.S.-based issuers).

22. All proxy related records will be maintained in an easily accessible place for five years (and an appropriate office of FAM or a service provider for the first two years).

J. Availability of Policy and Proxy Voting Records to Clients

23. FAM will initially inform clients of this policy and how a client may learn of FAM's voting record for the client's securities through summary disclosure in Part II of FAM's Form ADV. Upon receipt of a client's request for more information, FAM will provide to the client a copy of this proxy voting policy and/or how FAM voted proxies for the client during the period since this policy was adopted.

(A) (2) OTHER ACCOUNTS MANAGED BY PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBER AND POTENTIAL CONFLICTS OF INTEREST

OTHER ACCOUNTS MANAGED BY PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBER

The information in the table below is as of December 31, 2005.

NAME OF PORTFOLIO MANAGER OR TEAM MEMBER	TYPE OF ACCOUNTS	TOTAL NO. OF ACCOUNTS MANAGED	TOTAL ASSETS	NO. OF ACCOUNTS WHERE ADVISOR FEE IS BASED ON PERFORMANCE
Mohammed Riad	Registered Investment Companies:	3	\$113.9 mil	0
	Other Pooled Investment Vehicles:	1	\$5.5 mil	0
	Other Accounts:	40	\$6,063 mil	0

	Other Accounts:	36	\$6,063 mil	0

POTENTIAL CONFLICTS OF INTERESTS

Actual or apparent conflicts of interest may arise when a portfolio manager has day-to-day management responsibilities with respect to more

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

than one Fund or other account. More specifically, portfolio managers who manage multiple Funds and /or other accounts may be presented with one or more of the following potential conflicts:

The management of multiple Funds and/or other accounts may result in a portfolio manager devoting unequal time and attention to the management of each fund and/or other account. FAMCO seeks to manage such competing interests for the time and attention of a portfolio manager by having the portfolio manager's focus on a particular investment discipline. Most other accounts managed by a portfolio manager are managed using the same investment models that are used in connection with the management of the Fund.

If a portfolio manager identifies a limited investment opportunity which may be suitable for more than one fund or other account, a fund may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible funds and other accounts. To deal with these situations, FAMCO has adopted procedures for allocating portfolio transactions across multiple accounts.

With respect to securities transactions for the funds, FAMCO determines which broker to use to execute each order, consistent with its duty to seek best execution of the transaction. However, with respect to certain other accounts (such as mutual funds for which FAMCO acts as sub-adviser, other pooled investment vehicles that are not registered mutual funds, and other accounts managed for organizations and individuals), FAMCO may be limited by the client with respect to the selection of brokers or may be instructed to direct trades through a particular

broker. In these cases, trades for a fund in a particular security may be placed separately from, rather than aggregated with, such other accounts. Having separate transactions with respect to a security may temporarily affect the market price of the security or the execution of the transaction, or both, to the possible detriment of the Fund or other account(s) involved.

FAMCO has adopted certain compliance procedures which are designed to address these types of conflicts. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

(A) (3) COMPENSATION STRUCTURE OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS

As of December 31, 2005, the portfolio managers are paid a fixed base salary by FAMCO which is set at a level determined to be appropriate based upon the individual's experience and responsibilities through the use of independent compensation surveys of the investment management industry.

Mr. Riad is paid a variable annual bonus by FAMCO calculated as 25% of the pre-tax profitability of the product line of FAMCO for which he is responsible. The product line profitability is defined as the revenue generated by all accounts within the portfolio manager's investment discipline less the fixed and variable costs associated with supporting that revenue. Such costs include employee costs, technology, office administration, and similar costs.

Mr. Swanson is paid a quarterly bonus determined through a

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

subjective process that evaluates numerous qualitative and quantitative factors. Part of Mr. Swanson's bonus will be based on investment performance over one-, three-, five-, and 10-year periods. This is primarily measured on a pre-tax basis though tax-efficiency is considered. Relative performance is determined with reference to the S&P 500 Index and the target total return over a market cycle, though other benchmarks may be used as well. Other qualitative factors such as Mr. Swanson's contributions to the Investment and Strategy Committees as well as his contribution to FAMCO's overall investment process are important considerations. There is no set formula for any of the above components of Mr. Swanson's compensation.

The portfolio managers also participate in benefit plans and programs generally available to all employees of FAMCO.
