FLAHERTY & CRUMRINE PREFERRED INCOME FUND

To the Shareholders of Flaherty & Crumrine Preferred Income Fund:

Stating the obvious, we are facing extraordinary and unprecedented times in the financial markets. The events that ultimately culminated in the government's massive financial rescue plan have impacted the market for preferred securities particularly hard. As a result, for the quarter ended August 31, 2008, the Fund's common shareholders experienced a total return on net asset value of -14.2%, subsequent to the quarter-end and through the date of this letter, the net asset value has continued to decline significantly.

Prices on long-term US Treasury bonds rose during the quarter, as investors sought the safety of government bonds despite historically low yields. On the flip side, there were few buyers and abundant sellers of most preferred securities and corporate bonds. A downward cycle for prices ensued, as selling pressure pushed prices lower which in turn led to more selling pressure.

This pattern of selling begetting selling is an effect of severe bear market psychology. In addition, investors and lenders, seeking the safety and security of cash, withhold capital from borrowers. Since the free flow of capital is essential to our economy, and economic growth is a key factor in security valuation, concerns about price declines become self-fulfilling. The bears clearly were in control both during and subsequent to the quarter.

The root cause of the current financial problems remains unresolved-residential real estate markets have yet to stabilize. The speculative component of residential housing has resulted in "bubble and crash" cycles in the past, but the current adjustment is unlike any we can recall. Far too many people wanted to buy homes under the "greater fool" plan and lenders were far too willing to help. The real estate market will eventually return to equilibrium and the dramatic measures taken by the government will help calm the markets. In the meantime we must deal with circumstances at hand.

Since the end of our fiscal quarter events have transpired at a breathtaking pace - particularly relating to the Fund's use of leverage and its dividend. Our website allows for much more frequent communication than our quarterly letters. We have posted updates throughout this financial crisis and we encourage you to continue visiting us at www.preferredincome.com.

In addition to managing your Fund, we are also shareholders. We understand your concerns about recent events and we are doing our best to respond to them. Nonetheless, our goals remain constant - conduct exhaustive research and construct an investment portfolio that is designed to deliver high current income consistent with the objectives and guidelines of the Fund.

Sincerely,

/s/ Donald F. Crumrine

2. ADDITIONAL ACCOUNTING STANDARDS

STATEMENT OF FINANCIAL ACCOUNTING STANDARDS NO. 157 "FAIR VALUE MEASUREMENTS" ("SFAS 157")

In September 2006, the Financial Accounting Standards Board issued SFAS 157 effective for fiscal years beginning after November 15, 2007. This standard clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. The Fund has adopted SFAS 157 as of December 1, 2007. The three levels of the fair value hierarchy under SFAS 157 are described below:

- Level 1 - quoted prices in active markets for identical securities
- Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Edgar Filing: FLAHERTY & CRUMRINE PREFERRED INCOME FUND INC - Form N-30B-2

- Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. A summary of the inputs used to value the Fund's net assets as of August 31, 2008 is as follows:

VALUATION INPUTS	INVESTMENTS IN SECURITIES (MARKET VALUE)	OTHER FINANCIAL INSTRUMENTS (UNREALIZED APPRECIATION/ DEPRECIATION) *

3. SECTION 19 NOTICES

Section 19 of the Investment Company Act of 1940 requires registered investment companies to include a notice with the payment of a dividend if a portion of that dividend may come from sources other than undistributed net income (other sources could include realized gains from the sale of securities and non-taxable return of capital). Copies of the Section 19 notices for the Fund are available on the website at www.preferredincome.com.

The amounts and sources of distributions reported below are only estimates and are not being provided for tax reporting purposes. Form 1099-DIV will be sent to shareholders in January 2009 reporting the amount and tax characterization of distributions for the 2008 calendar year.

4. SUBSEQUENT EVENTS

On September 7, 2008, Fannie Mae was placed into conservatorship. The value of preferred stock issued by this entity, which was held by the Fund, has been adversely impacted and is not reflected in this report. From August 31, 2008 to September 25, 2008, when the Fund sold its remaining position, the decrease in value totaled \$572,760.

On September 15, 2008, Lehman Brothers Holdings Inc. filed for bankruptcy. On September 26, 2008, Washington Mutual Inc. filed for bankruptcy. As a result, the Fund may not be able to recover the principal invested in securities issued by these entities, and also does not expect to receive income payments on these securities going forward. The value of securities issued by these entities, which were held by the Fund, has been adversely impacted and may decline further. The decline since August 31, 2008 is not reflected in this report.

Subsequent to the reporting period, the market values of certain investments of the Fund have declined significantly and may decline further as a result of the ongoing financial crisis. The market value of the Fund's investments is reflected in the weekly net asset values reported by the Fund.

The Funds are subject to several different asset coverage requirements that arise from the use of leverage by the Fund. The decline in asset values has resulted in the Fund not meeting these asset coverage requirements at various points in time since the end of the fiscal quarter. According to these requirements, the Fund may not declare, set aside, or pay a common stock dividend unless the asset coverage requirements are met. The Fund has delayed the payment of the September common stock dividend as a result. To meet the requirements and pay the delayed dividend and future dividends, the Fund has been selling assets to raise cash, and has applied much of the proceeds to the reduction of

leverage or invested in higher quality short-term securities in anticipation of future reductions in leverage. On October 14, 2008, the Fund announced the redemption of \$8.1 million of auction preferred stock to be redeemed on November 12, 2008. The Fund may be adversely impacted by the reduction in leverage. Updated information on the status of these requirements may be found on the Fund website at www.preferredincome.com.
