FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND

The primary investment objective of the First Trust Specialty Finance and Financial Opportunities Fund ("FGB" or the "Fund") is to seek a high level of current income. As a secondary objective, the Fund seeks an attractive total return. The Fund pursues its investment objectives by investing at least 80% of its managed assets in a portfolio of securities of specialty finance and other financial companies that the Fund's Sub-Advisor believes offer attractive opportunities for income and capital appreciation. There can be no assurance that the Fund's investment objectives will be achieved. The Fund may not be appropriate for all investors.

PORTFOLIO COMMENTARY (UNAUDITED) (CONTINUED)

MARKET RECAP

FGB is a financial sector fund with a particular focus on business development companies (BDCs). Accordingly, 75% of the Fund was invested in 17 different BDCs on November 30, 2008. The balance of the portfolio was principally invested in real estate investment trusts. The Fund pursues both income and growth objectives, while maintaining a minimum allocation of 80% in the financial sector, under normal circumstances.

The year ended November 30, 2008 was a very difficult one for financial sector companies. Problems began in 2007 when risky subprime mortgages began to

default. Losses were substantial, and the magnitude of the problems was compounded by the fact that the subprime loans were held by investors who had borrowed heavily to fund their positions. As the year progressed, losses continued to rise, forcing highly-leveraged investors to sell their positions. This selling set in motion a downward spiral in pricing that spread far beyond risky mortgages. Ultimately, even companies with quality investments and only modest amounts of leverage were negatively impacted.

BDCs do not invest in subprime mortgages and have one of the lowest leverage profiles among financial sectors. Nevertheless, BDCs were adversely affected by the widespread collapse in the financial sector. Their stock prices declined significantly, often without regard to how their loan and investment portfolios actually performed. Prior to the turmoil, BDCs often traded at 20 to 60% premiums to their net asset values ("NAVs"). At the end of November, 2008, the majority of BDCs were trading at substantial discounts to their NAVs, often 30 to 80% or more.

Another industry in which the Fund invests is commercial finance REITs, which represented 8% of the Fund on November 30, 2008. These companies struggled throughout the year as debt financing for commercial real estate became scarce. The ability to buy, sell or refinance commercial real estate became extremely difficult because of the lack of capital. As a result, many companies in this space were forced to substantially curtail their operations and experienced dramatic declines in their stock prices.

A relatively bright area of the portfolio has been the prime residential mortgage REITs, which were 16% of the Fund at November 30, 2008. These companies do not invest in subprime mortgages, and instead focus on agency mortgages backed by the U.S. government. The combination of high quality assets and access to funding enabled these companies to earn and pay substantial dividends throughout the year.

PERFORMANCE ANALYSIS (ONE YEAR ENDED 11/30/2008)

| | |
|-------------------------------|---------|
| FGB Market Value Total Return | -72.80% |
| FGB NAV Total Return | -61.38% |
| Blended Benchmark* | -55.46% |

* Components of the blended benchmark: Red Rocks Listed Private Equity Index (40%); FTSE NAREIT Mortgage REIT Index (20%); FTSE NAREIT Hybrid REIT Index (20%); Merrill Lynch Preferred Stock Hybrid Securities Index (10%); Russell 2000 Financial Services Index (10%).

SOURCE: BLOOMBERG

Over the course of the fiscal year, BDCs and prime residential mortgage REITs were positive contributors relative to the benchmark, while commercial finance REITs performed negatively consistent with the benchmark component. The Fund's relative performance also lagged due to the absence of preferred securities in the portfolio. Because FGB has a unique profile as a BDC-focused fund, it is significantly different than the blended benchmark due to differing compositions.

Another significant contributor to negative relative performance was the Fund's leverage. Although we managed through the year with limited amounts of leverage, we elected to reduce the Fund's leverage even further as market turmoil rose. We also note that the difference between market value and NAV total return was affected by the fact that shares began the year at a modest premium and ended at

a significant discount.

PORTFOLIO COMMENTARY (UNAUDITED) (CONTINUED)

MARKET AND FUND OUTLOOK

Although we expect the financial sector to remain volatile, we believe that substantial progress is being made to move through the turmoil. Late in 2008, the Federal Reserve strengthened its ability to direct short-term interest rates and through coordinated efforts with the Treasury, policy decisions helped to lower both LIBOR and residential mortgage rates. Substantial declines in these two interest rates are very stimulative as they affect large portions of the U.S. economy. Lower gasoline and other fuel prices are also very helpful in restoring growth. Our expectation is for the U.S. economy to recover in the middle to latter half of 2009. We also expect the financial markets to anticipate a recovery, and begin moving in advance of the recovery.

As a group, the BDCs survived the 2007-2008 financial storm with varying amounts of success. Some incurred substantial damage and are likely to spend significant time repairing their businesses. Others were conservatively positioned going into the downturn and should be well-positioned to grow and prosper during the recovery. The Fund is focused on the latter group, which we expect to return to market price premiums over NAV valuations and begin growing dividends.

It's also worth noting that, unlike the broader financial sector which has been plagued with failures in industries from banking to insurance to brokerage firms, none of the BDCs have been forced into bankruptcy. The durability of the BDCs legitimizes their structure, and we expect the number and size of BDCs to expand and grow as the markets stabilize. FGB has a unique profile as a BDC-focused fund. Going forward we anticipate the Fund will deliver income and NAV accretion from this attractive niche in the financial sector.

NOTES TO FINANCIAL STATEMENTS

FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND
NOVEMBER 30, 2008

1. FUND DESCRIPTION

First Trust Specialty Finance and Financial Opportunities Fund (formerly First Trust/Gallatin Specialty Finance and Financial Opportunities Fund) (the "Fund") is a non-diversified, closed-end management investment company organized as a Massachusetts business trust on March 20, 2007, and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FGB on the New York Stock Exchange ("NYSE").

The Fund's primary investment objective is to seek a high level of current income. The Fund seeks attractive total return as a secondary objective. Under normal market conditions, the Fund will invest at least 80% of its Managed Assets in a portfolio of securities of specialty finance and other financial

companies that Confluence Investment Management LLC ("Confluence" or the "Sub-Advisor") believes offer attractive opportunities for income and capital appreciation. Under normal market conditions, the Fund will concentrate its investments in securities of companies within industries in the financial sector. "Managed Assets" means the average daily gross asset value of the Fund (including assets attributable to the principal amount of borrowings) minus the sum of the Fund's accrued and unpaid dividends and accrued liabilities (other than the principal amount of any borrowings incurred by the Fund). There can be no assurance that the Fund will achieve its investment objectives. The Fund may not be appropriate for all investors.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

A. PORTFOLIO VALUATION:

The net asset value ("NAV") of the Common Shares of the Fund is determined daily as of the close of regular trading on the NYSE, normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. Domestic debt securities and foreign securities are priced using data reflecting the earlier closing of the principal markets for those securities. The NAV per Common Share is calculated by dividing the value of all assets of the Fund (including accrued interest and dividends), less all liabilities (including accrued expenses, dividends declared but unpaid and any borrowings of the Fund) by the total number of Common Shares outstanding.

The Fund's investments are valued daily at market value or, in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. A majority of the Fund's assets are valued using market information supplied by third parties. In the event that market quotations are not readily available, the pricing service does not provide a valuation for a particular asset, or the valuations are deemed unreliable, the Fund's Board of Trustees has designated First Trust Advisors L.P. ("First Trust") to use a fair value method to value the Fund's securities and investments. Additionally, if events occur after the close of the principal markets for particular securities (e.g., domestic debt and foreign securities), but before the Fund values its assets, that could materially affect NAV, First Trust may use a fair value method to value the Fund's securities and investments. The use of fair value pricing by the Fund is governed by valuation procedures adopted by the Fund's Board of Trustees and in accordance with the provisions of the 1940 Act.

Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities traded on the NASDAQ, are valued at the closing bid prices. Short-term investments that mature in less than 60 days when purchased are valued at amortized cost.

In September 2006, the Financial Accounting Standards Board ("FASB") issued

Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157"), effective for fiscal years beginning after November 15, 2007. This standard clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. FAS 157 became effective for the Fund as of December 1, 2007, the beginning of its current fiscal year. The three levels of the fair value hierarchy under FAS 157 are described as follows:

Page 13

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND
NOVEMBER 30, 2008

- Level 1 - quoted prices in active markets for identical securities
- Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. A summary of the inputs used to value the Fund's investments as of November 30, 2008 is included in the Fund's Portfolio of Investments.

B. SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

C. RESTRICTED SECURITIES:

The Fund invests in restricted securities, which are securities that cannot be offered for public sale without first being registered under the Securities Act of 1933, as amended. Prior to registration, restricted securities may only be resold in transactions exempt from registration. As of November 30, 2008, the Fund held restricted securities as shown in the following table. The Fund does not have the right to demand that such securities be registered. These securities are valued according to the valuation procedures as stated in the Portfolio Valuation footnote (Note 2A) and are not expressed as a discount to the carrying value of comparable unrestricted securities.

| SECURITY | ACQUISITION DATE | SHARES | CARRYING VALUE PER SHARE | CARRYING COST | VALUE |

D. DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

Dividends from net investment income, if any, of the Fund are declared and paid quarterly or as the Board of Trustees may determine from time to time. Distributions of any net capital gains earned by the Fund are distributed at least annually. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund. Permanent differences incurred during the year ended November 30, 2008, resulting in book and tax accounting differences, have been reclassified at year end to reflect an increase to accumulated net investment income (loss) by \$142,146 and a increase in accumulated net realized gain (loss) by \$13 and decrease to paid-in capital of \$142,159. Net assets were not affected by these reclassifications.

The tax character of distributions paid during the fiscal years ended November 30, 2008 and November 30, 2007 was as follows:

Distributions paid from:

| | 2008 | 2007 |
|-------------------------|--------------|-------------|
| | ----- | ----- |
| Ordinary Income | \$17,995,120 | \$9,973,682 |
| Return of Capital | 1,293,149 | -- |

As of November 30, 2008, the components of distributable earnings on a tax basis were as follows:

| | | |
|---|----|---------------|
| Undistributed Ordinary Income | \$ | -- |
| Net Unrealized Appreciation (Depreciation) | | (113,930,149) |
| Accumulated Capital and Other Losses | | (87,077,243) |

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND
NOVEMBER 30, 2008

E. INCOME TAXES:

The Fund intends to continue to qualify as a regulated investment company by

complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, which includes distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

The Fund intends to utilize provisions of the federal income tax laws, which allows it to carry a realized capital loss forward for eight years following the year of loss and offset such loss against any future realized capital gains. At November 30, 2008, the Fund had available realized capital losses of \$5,166,354 and \$62,586,895 to offset future net capital gains through the fiscal years ending 2015 and 2016, respectively.

Certain capital losses realized after October 31 may be deferred and treated as occurring on the first day of the following fiscal year. For the fiscal year ended November 30, 2008, the Fund intends to elect to defer net realized capital losses of \$19,323,993 and foreign currency losses of \$1 incurred between November 1, 2008 through November 30, 2008.

In June 2006, FASB issued Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes". FIN 48 establishes the minimum threshold for recognizing, and a system for measuring, the benefits of a tax position taken or expected to be taken in a tax return and is effective for the Fund's current fiscal year. As of November 30, 2008, management has evaluated the application of FIN 48 to the Fund, and has determined that no provision for income tax is required in the Fund's financial statements.

F. EXPENSES:

The Fund pays all expenses directly related to its operations.

G. ORGANIZATION AND OFFERING COSTS:

Organization costs consist of costs incurred to establish the Fund and enable it to legally do business. These costs include filing fees, listing fees, legal services pertaining to the organization of the business and audit fees relating to the initial registration and auditing the initial statement of assets and liabilities, among other fees. Offering costs consist of legal fees pertaining to the Fund's Common Shares offered for sale, registration fees, underwriting fees, and printing of the initial prospectus, among other fees. First Trust and Gallatin Asset Management, Inc. ("Gallatin"), the Fund's prior sub-advisor, paid all organization costs and all offering costs of the Fund (other than sales load) that exceeded \$0.04 per Common Share. The Fund's share of Common Share offering costs, \$561,210, was recorded as a reduction of the proceeds from the sale of Common Shares during the fiscal period ended November 30, 2007. During the fiscal year ended November 30, 2008, it was determined that actual offering costs were less than the estimated offering costs by \$85,301. Therefore, paid-in-capital was increased by that amount in the current year, as reflected in the Statements of Changes in Net Assets.

H. ACCOUNTING PRONOUNCEMENT:

In March 2008, FASB released Statement of Financial Accounting Standards No. 161, "Disclosures about Derivative Instruments and Hedging Activities" ("FAS 161"). FAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit risk-related contingent features in derivative agreements. The application of FAS 161 is required for fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. Management is currently evaluating the impact the adoption of FAS 161 will have on the Fund's financial statement disclosures, if any.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for the ongoing monitoring of the Fund's investment portfolio, managing the Fund's business affairs and providing certain administrative services necessary for the management of the Fund. For these investment management services, First Trust is entitled to a monthly fee calculated at an annual rate of 1.00% of the Fund's Managed Assets.

Prior to July 29, 2008, Gallatin served as the Fund's sub-advisor and managed the Fund's portfolio subject to First Trust's supervision. Effective July 29, 2008, Confluence began serving as the Fund's Sub-Advisor. The Sub-Advisor receives a monthly portfolio management fee calculated at an annual rate of 0.50% of Managed Assets that is paid by First Trust from its investment advisory fee.

PNC Global Investment Servicing (U.S.) Inc., formerly known as PFPC, Inc., an indirect majority-owned subsidiary of the PNC Financial Services Group, serves as the Fund's Administrator, Fund Accountant, Transfer Agent and Board Administrator in accordance with certain fee arrangements. PFPC Trust Company, also an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Custodian in accordance with certain fee arrangements.

Each Trustee who is not an officer or employee of First Trust, any sub-advisor or any of their affiliates ("Independent Trustees") is paid an annual retainer of \$10,000 per trust for the first 14 trusts of the First Trust Fund Complex and an annual retainer of \$7,500 per trust for each additional trust in the First Trust Fund Complex. The annual retainer is allocated equally among each of the trusts. No additional meeting fees are paid in connection with board or committee meetings.

Additionally, the Lead Independent Trustee is paid \$10,000 annually and the Chairman of the Audit Committee is paid \$5,000 annually, with such compensation paid by the trusts in the First Trust Fund Complex and divided among those trusts. Trustees are also reimbursed by the trusts in the First Trust Fund Complex for travel and out-of-pocket expenses in connection with all meetings. Effective January 1, 2008, each of the chairmen of the Nominating and Governance Committee and the Valuation Committee are paid \$2,500 annually to serve in such capacities, with such compensation paid by the trusts in the First Trust Fund Complex and divided among those trusts. Also, effective January 1, 2008, the Lead Independent Trustee and each Committee chairman will serve two-year terms. The officers and interested trustee receive no compensation from the Fund for serving in such capacities.

For the fiscal year ended November 30, 2008, the Fund paid brokerage commissions to A.G. Edwards & Sons, Inc., an affiliate of Gallatin, the Fund's prior sub-advisor, totaling \$305.

4. PURCHASES AND SALES OF SECURITIES

Cost of purchases and proceeds from sales of investment securities, excluding U.S. government and short-term investments, for the year ended November 30, 2008, were \$26,702,670 and \$61,486,152, respectively.

5. LEVERAGE

On September 12, 2008, the Fund entered into a Customer Agreement and a Credit Annex thereto with Credit Suisse Securities (USA) LLC, which currently provides for an uncommitted credit facility to be used as leverage for the Fund (the "Credit Suisse Facility"). The proceeds of the first borrowing under the Credit Suisse Facility were used to repay all amounts outstanding under the Loan and Pledge Agreement dated as of July 11, 2007 between the Fund and Custodial Trust Company (the "CTC Facility"). The Credit Suisse Facility provides for a secured, uncommitted line of credit for the Fund, where Fund assets are pledged against advances made to the Fund. Under the requirements of the 1940 Act, the Fund, immediately after any such borrowings, must have an "asset coverage" of at least 300% (33 1/3% of the Fund's total assets after borrowings). The total amount of loans that may be outstanding at any one time under the Credit Suisse Facility is \$70,000,000. For the year ended November 30, 2008, the daily average amount outstanding under the CTC Facility and the Credit Suisse Facility was \$36,689,617. The high and low annual interest rates during the year ended November 30, 2008 were 5.87% and 3.40%, respectively, and the weighted average interest rate was 4.00%. The interest rate at November 30, 2008 was 3.47%.

6. INDEMNIFICATION

The Fund has a variety of indemnification obligations under contracts with its service providers. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

7. RISK CONSIDERATIONS

Risks are inherent in all investing. The following summarizes some of the risks that should be considered for the Fund. For additional information about the risks associated with investing in the Fund, please see the Fund's prospectus and statement of additional information, as well as other Fund regulatory filings.

INVESTMENT AND MARKET RISK: An investment in the Fund's Common Shares is subject to investment risk, including the possible loss of the entire principal invested. An investment in Common Shares represents an indirect investment in the securities owned by the Fund. The value of these securities, like other market investments, may move up or down, sometimes rapidly and unpredictably. Common Shares at any point in time may be worth less than the original investment, even after taking into account the reinvestment of Fund dividends and distributions. Security prices can fluctuate for several reasons including the general condition of the equity market, or when political or economic events affecting the issuers occur. When the Advisor or Sub-Advisor determines that it is temporarily unable to follow the Fund's investment strategy or that it is impractical to do so (such as when a market disruption event has occurred and trading in the securities is extremely limited or absent) the Fund may take temporary defensive positions.

In 2008, securities markets have been significantly negatively affected by the financial crisis that initially resulted from the downturn in the subprime mortgage market in the United States. The potential impact of the financial crisis on securities markets may prove to be significant and long-lasting and may have a substantial impact on the value of the Fund.

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND
NOVEMBER 30, 2008

FINANCIAL SECTOR CONCENTRATION RISK: Under normal market conditions, the Fund will invest at least 25% of its total assets in securities of companies within industries in the financial sector. A fund concentrated in a single industry or sector is likely to present more risks than a fund that is broadly diversified over several industries or groups of industries. Compared to the broad market, an individual sector may be more strongly affected by changes in the economic climate, broad market shifts, moves in a particular dominant stock, or regulatory changes. Specialty finance and other financial companies in general are subject to extensive government regulation, which may change frequently. The profitability of specialty finance and other financial companies is largely dependent upon the availability and cost of capital funds, and may fluctuate significantly in response to changes in interest rates, as well as changes in general economic conditions. From time to time, severe competition may also affect the profitability of specialty finance and other financial companies. Financial companies can be highly dependent upon access to capital markets and any impediments to such access, such as general economic conditions or a negative perception in the capital markets of a company's financial condition or prospects, could adversely affect its business. Leasing companies can be negatively impacted by changes in tax laws which affect the types of transactions in which such companies engage.

BUSINESS DEVELOPMENT COMPANY ("BDC") RISK: Investments in closed-end funds that elect to be treated as BDCs may be subject to a high degree of risk. BDCs typically invest in small and medium-sized private and certain public companies that may not have access to public equity markets or capital raising. As a result, a BDC's portfolio typically will include a substantial amount of securities purchased in private placements, and its portfolio may carry risks similar to those of a private equity or venture capital fund. Securities that are not publicly registered may be difficult to value and may be difficult to sell at a price representative of their intrinsic value. Investments in BDCs are subject to various risks, including management's ability to meet the BDC's investment objective, and to manage the BDC's portfolio when the underlying securities are redeemed or sold, during periods of market turmoil and as investors' perceptions regarding a BDC or its underlying investments change. BDC shares are not redeemable at the option of the BDC shareholder and, as with shares of other closed-end funds, they may trade in the secondary market at a discount to their NAV.

REIT, MORTGAGE-RELATED AND ASSET-BACKED SECURITIES RISKS: Investing in REITs involves certain unique risks in addition to investing in the real estate industry in general. REITs are subject to interest rate risks (especially mortgage REITs) and the risk of default by lessees or borrowers. An equity REIT may be affected by changes in the value of the underlying properties owned by the REIT. A mortgage REIT may be affected by the ability of the issuers of its portfolio mortgages to repay their obligations. REITs whose underlying assets are concentrated in properties used by a particular industry are also subject to risks associated with such industry. REITs may have limited financial resources, their securities may trade less frequently and in a limited volume, and their securities may be subject to more abrupt or erratic price movements than larger company securities.

In addition to REITs, the Fund may invest in a variety of other mortgage-related securities, including commercial mortgage securities and other mortgage-backed

instruments. Rising interest rates tend to extend the duration of mortgage-related securities, making them more sensitive to changes in interest rates, and may reduce the market value of the securities. In addition, mortgage-related securities are subject to prepayment risk, the risk that borrowers may pay off their mortgages sooner than expected, particularly when interest rates decline. This can reduce the Fund's returns because the Fund may have to reinvest that money at lower prevailing interest rates.

The Fund's investments in other asset-backed securities are subject to risks similar to those associated with mortgage-backed securities, as well as additional risks associated with the nature of the assets and the servicing of those assets.

LEVERAGE RISK: The use of leverage results in additional risks and can magnify the effect of any losses. The funds borrowed pursuant to a leverage borrowing program constitute a substantial lien and burden by reason of their prior claim against the income of the Fund and against the net assets of the Fund in liquidation. The rights of lenders to receive payments of interest on and repayments of principal on any borrowings made by the Fund under a leverage borrowing program are senior to the rights of holders of Common Shares with respect to the payment of dividends or upon liquidation. If the Fund is not in compliance with certain credit facility provisions, the Fund may not be permitted to declare dividends or other distributions or purchase Common Shares.

NON-DIVERSIFICATION RISK: Because the Fund is non-diversified, it is only limited as to the percentage of its assets which may be invested in the securities of any one issuer by the diversification requirements imposed by the Internal Revenue Code of 1986, as amended. Because the Fund may invest a relatively high percentage of its assets in a limited number of issuers, the Fund may be more susceptible to any single economic, political or regulatory occurrence and to the financial conditions of the issuers in which it invests.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND:

We have audited the accompanying statement of assets and liabilities of First Trust Specialty Finance and Financial Opportunities Fund (the "Fund") (formerly known as First Trust/Gallatin Specialty Finance and Financial Opportunity Fund), including the portfolio of investments, as of November 30, 2008, the related statements of operations and cash flows for the year then ended and the statement of changes in net assets and financial highlights for the year then ended and for the period May 25, 2007 (commencement of operations) through November 30, 2007. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of

expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of November 30, 2008, by correspondence with the Fund's custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of First Trust Specialty Finance and Financial Opportunities Fund as of November 30, 2008, the results of its operations and cash flows for the year then ended and changes in its net assets and financial highlights for the year ended and for the period May 25, 2007 (commencement of operations) through November 30, 2007, in conformity with accounting principles generally accepted in the United States of America.

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect, by written notice to the Fund, to receive cash distributions, all dividends, including any capital gain distributions, on your Common Shares will be automatically reinvested by PNC Global Investment Servicing (U.S.) Inc. (the "Plan Agent"), in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by the Plan Agent, as dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If Common Shares are trading at or above NAV at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) NAV per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If Common Shares are trading below NAV at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the NYSE or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation,

resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may elect to opt-out of or withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone at (800) 331-1710, in accordance with such reasonable requirements as the Plan Agent and the Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all Common Shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you. Consult your financial advisor for more information.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PNC Global Investment Servicing (U.S.) Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

SUBMISSION OF MATTERS TO A VOTE OF SHAREHOLDERS

At a Special Shareholder meeting of the Fund held on February 20, 2008, Shareholders voted to approve a new investment sub-advisory agreement with Gallatin. Gallatin was previously a wholly-owned subsidiary of A.G. Edwards, Inc. On May 31, 2007, Wachovia Corp. announced that it had reached an agreement in principle with A.G. Edwards, Inc. under which Wachovia Corp. would acquire A.G. Edwards, Inc. (the "Acquisition"). The Acquisition was completed on October 1, 2007. The consummation of the Acquisition resulted in a change of control of Gallatin, which constituted an "assignment" under federal securities laws of the original investment sub-advisory agreement among the Fund, Gallatin and First Trust. Accordingly, the Fund's Board of Trustees approved an interim sub-advisory agreement with Gallatin effective October 1, 2007, whereby Gallatin would continue to serve as the Fund's sub-advisor for a maximum period of 150 days. The new sub-advisory agreement, approved by Shareholders on February 20, 2008, was substantially similar to the Fund's original sub-advisory agreement with Gallatin. The number of votes cast in favor of the new sub-advisory agreement was 6,739,848, the number of votes against was 256,656, and the number of abstentions was 7,376,629.

The Joint Annual meeting of Shareholders of the Common Shares of Macquarie/First Trust Global Infrastructure/Utilities Dividend & Income Fund, Energy Income and Growth Fund, First Trust Enhanced Equity Income Fund, First Trust/Aberdeen Global Opportunity Income Fund, First Trust/FIDAC Mortgage Income Fund, First Trust Strategic High Income Fund, First Trust Strategic High Income Fund II, First Trust/Aberdeen Emerging Opportunity Fund, First Trust Specialty Finance and Financial Opportunities Fund (formerly First Trust/Gallatin Specialty Finance and Financial Opportunities Fund) and First Trust Active Dividend Income

Fund and Shareholders of the Preferred Shares of First Trust Tax-Advantaged Preferred Income Fund, was held on April 14, 2008. At the Annual Meeting, Independent Trustee Robert F. Keith was elected for a three-year term. The number of votes cast in favor of Mr. Keith was 13,764,464, the number of votes against was 173,146 and the number of abstentions was 0. James A. Bowen, Richard E. Erickson, Thomas R. Kadlec and Neil B. Nielson are the current and continuing Trustees.

At a Special Shareholder meeting of the Fund held on November 17, 2008, Shareholders voted to approve a new investment sub-advisory agreement with Confluence following the resignation of the Fund's prior sub-advisor, Gallatin, effective July 31, 2008. Accordingly, the Fund's Board of Trustees approved an interim sub-advisory agreement among the Fund, First Trust and Confluence, whereby Confluence would serve as the Fund's sub-advisor for a maximum period of 150 days, subject to shareholder approval. The new sub-advisory agreement, approved by Shareholders on November 17, 2008, is substantially similar to the Fund's previous sub-advisory agreements with Gallatin. The number of votes cast in favor of the new sub-advisory agreement was 6,425,404, the number of votes against was 393,979, and the number of abstentions was 456,771.

SUB-ADVISORY AGREEMENTS

BOARD CONSIDERATIONS REGARDING APPROVAL OF SUB-ADVISORY AGREEMENTS

The Board of Trustees of the First Trust Specialty Finance and Financial Opportunities Fund (then known as First Trust/Gallatin Specialty Finance and Financial Opportunities Fund; the "Fund"), including a majority of the Independent Trustees, approved the Interim Sub-Advisory Agreement and the New Sub-Advisory Agreement (collectively, the "Agreements") among the Fund, First Trust Advisors L.P. (the "Advisor") and Confluence Investment Management LLC ("Confluence") at a meeting held on July 29, 2008. The Board determined that the terms of the Agreements are fair and reasonable and in the best interests of the Fund.

On June 2, 2008, Gallatin Asset Management, Inc. ("Gallatin") notified the Fund and the Advisor of its resignation as sub-advisor to the Fund, effective July 31, 2008 (the "Resignation"). Gallatin indicated that, following personnel changes within its equity team, it had conducted an internal review of its capabilities and resources and determined that it was in the best interests of Fund shareholders and Gallatin to resign. The Advisor immediately notified the Board and thereafter conducted a review of potential sub-advisors to replace Gallatin. The Board considered that pursuant to the Investment Company Act of 1940, as amended ("1940 Act"), any sub-advisory agreement with a replacement sub-advisor would require shareholder approval prior to such sub-advisor assuming its duties. In light of the short amount of time available to the Fund and the Advisor to find a suitable replacement for Gallatin and to obtain shareholder approval of a new sub-advisory agreement, the Advisor worked with Fund counsel to obtain a "no-action letter" from the staff of the Securities and Exchange Commission ("SEC"). The "no-action letter" received on July 11, 2008 stated that the staff would not recommend enforcement action to the SEC against the Fund, the Advisor and any successor sub-advisor if the Fund and the Advisor were to enter into an interim sub-advisory agreement without first obtaining

shareholder approval to cover the period while shareholder approval of a new sub-advisory agreement was sought.

Between the time the Fund and the Advisor received notice of the Resignation and the July 29, 2008 special Board meeting, the Advisor determined that two potential sub-advisors should be presented to the Board for consideration as the successor sub-advisor. One of these candidates - Confluence - employed three former Gallatin employees who had served as the original portfolio managers of the Fund and managed the Fund until they left Gallatin in May 2008. Prior to the meeting, each potential sub-advisor provided to the Board written responses to questions posed by independent legal counsel on behalf of the Independent Trustees. At the meeting, representatives from Confluence and the other potential sub-advisor made presentations to the Board and responded to questions. The Board then discussed the presentations and the materials provided. The Advisor recommended that Confluence be selected as successor sub-advisor. The Independent Trustees then met separately with their independent legal counsel to discuss the information provided by the two potential sub-advisors and the Advisor. Based on their consideration of all the information received, the Trustees appointed Confluence as the interim sub-advisor to the Fund, pursuant to the Interim Sub-Advisory Agreement, effective August 1, 2008. Also at the special meeting, the Board approved the New Sub-Advisory Agreement and determined to recommend it to shareholders of the Fund for their approval. The Board noted that the Advisor and Confluence had agreed to bear the costs associated with soliciting shareholder approval of the New Sub-Advisory Agreement.

To reach its determinations as to the Agreements, the Board considered its duties under the 1940 Act, as well as under the general principles of state law in reviewing and approving advisory contracts; the requirements of the 1940 Act in such matters; the fiduciary duty of investment advisors with respect to advisory agreements and compensation; the standards used by courts in determining whether investment company boards have fulfilled their duties; and the factors to be considered by the Board in voting on such agreements. In its evaluation of the Agreements, the Board considered a report from Confluence responding to a request for information from counsel to the Independent Trustees. The report, among other things, outlined the services to be provided by Confluence (including the relevant personnel responsible for these services and their experience, including their experience as former portfolio managers for the Fund); the sub-advisory fee for the Fund as compared to fees charged to other clients of Confluence; the potential for economies of scale, if any; financial data on Confluence; any fall out benefits to Confluence; and information on Confluence's compliance program. The Board applied its business judgment to determine whether the arrangements between the Fund, the Advisor and Confluence are reasonable business arrangements from the Fund's perspective as well as from the perspective of shareholders.

In reviewing the Agreements, the Board considered the nature, quality and extent of services to be provided by Confluence under the Agreements. The Board noted Confluence's investment style and the backgrounds of the investment personnel who would be responsible for the day-to-day management of the Fund. The Board noted that the proposed portfolio managers had previously managed the Fund as portfolio managers at Gallatin and considered the benefits of maintaining continuity in the management of the Fund. The Board considered, in particular, the performance of the Fund during a very difficult market for financial services companies when the Fund was managed by the proposed portfolio managers. The Board considered the support and assistance provided by one of the major investors in Confluence and its experience as a registered investment advisor. In light of the information presented and the considerations made, the Board concluded that the nature, quality and extent of services to be provided to the Fund by Confluence under the Agreements are expected to be satisfactory.

ADDITIONAL INFORMATION - (CONTINUED)

FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND
NOVEMBER 30, 2008 (UNAUDITED)

The Board considered the sub-advisory fees to be paid under each Agreement, noting that they would be the same as the fees paid under the current Sub-Advisory Agreement. The Board considered the proposed sub-advisory fee and how it would relate to the overall management fee structure of the Fund, noting that the fees to be paid to Confluence would be paid by the Advisor from its advisory fee. On the basis of all the information provided, the Board concluded that the sub-advisory fees to be paid under the Agreements were reasonable and appropriate in light of the nature, quality and extent of services expected to be provided by Confluence under the Agreements.

The Board considered that Confluence was unable to estimate the profitability of the Agreements to Confluence, but the Board noted that the sub-advisory fee rate was negotiated at arm's length between the Advisor and Confluence, and that Confluence would be paid by the Advisor. The Board noted that the overall management fee structure reflects an appropriate level of sharing of any economies of scale. The Board also considered the fall-out benefits expected to be realized by Confluence from its relationship with the Fund. The Board noted that Confluence will not utilize soft dollars in connection with its management of the Fund's portfolio.

Based on all of the information considered and the conclusions reached, the Board, including a majority of the Independent Trustees, determined that the terms of the Agreements are fair and reasonable and that the approval of the Agreements is in the best interests of the Fund. No single factor was determinative in the Board's analysis.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Proxy Voting Policies are attached herewith.

PROXY VOTING POLICIES AND PROCEDURES

1. INTRODUCTION

As a registered investment adviser, Confluence Investment Management LLC ("Confluence" or the "Adviser") has a fiduciary duty to act solely in the best interests of its clients. If the client is a registered investment company under the Investment Company Act of 1940 or the client requests Confluence to do so in writing, the Adviser will vote proxy materials for its clients. In the event the Adviser receives any proxies intended for clients who have not delegated proxy voting responsibilities to the Adviser, the Adviser will promptly forward such proxies to the client for the client to vote. When requested by the client, the Adviser may provide advice to the client regarding proposals submitted to the client for voting. In the event an employee determines that the Adviser has a conflict of interest due to, for example, a relationship with a company or an affiliate of a company, or for any other reason which could influence the advice given, the employee will advise the Chief Compliance Officer who will advise the Investment Committee, and the Investment Committee will decide whether the Adviser should either (1) disclose to the client the conflict to enable the client to evaluate the advice in light of the conflict or (2) disclose to the client the conflict and decline to provide the advice.

In cases in which the client is a registered investment company under the Investment Company Act of 1940 or in cases where the client has delegated proxy voting responsibility and authority to the Adviser, the Adviser has adopted and implemented the following policies and procedures, which it believes are reasonably designed to ensure that proxies are voted in the best interests of its clients. In pursuing this policy, proxies should be voted in a manner that is intended to maximize value to the client. In situations where Adviser accepts such delegation and agrees to vote proxies, Adviser will do so in accordance with these Policies and Procedures. The Adviser may delegate its responsibilities under these Policies and Procedures to a third party, provided that no such delegation shall relieve the Adviser of its responsibilities hereunder and the Adviser shall retain final authority and fiduciary responsibility for such proxy voting.

2. GENERAL

- a. In the event requests for proxies are received with respect to the voting of equity securities on routine matters, such as election of directors or approval of auditors, the proxies usually will be voted with management unless the Adviser determines it has a conflict or the Adviser determines there are other reasons not to vote with management. On non-routine matters, such as amendments to governing instruments, proposals relating to compensation and stock option and equity compensation plans, corporate governance proposals and shareholder proposals, the Adviser will vote, or abstain from voting if deemed appropriate, on a case by case basis in a manner it believes to be in the best economic interest of the Company's shareholders. In the event requests for proxies are received with respect to debt securities, the Adviser will vote on a case by case basis in a manner it believes to be in the best economic interest of the Company's shareholders.
- b. The Chief Compliance Officer or his/her designate is responsible for monitoring Adviser's proxy voting actions and ensuring that (i) proxies are received and forwarded to the appropriate decision makers; and (ii) proxies are voted in a timely manner upon receipt of voting instructions. The Adviser is not responsible for voting proxies it does not receive, but will make reasonable efforts to obtain missing proxies.

- c. The Chief Compliance Officer or his/her designate shall implement procedures to identify and monitor potential conflicts of interest that could affect the proxy voting process, including (i) significant client relationships; (ii) other potential material business relationships; and (iii) material personal and family relationships.
- d. All decisions regarding proxy voting shall be determined by the Investment Committee of the Adviser and shall be executed by the Chief Compliance Officer or his/her designate. Every effort shall be made to consult with the portfolio manager and/or analyst covering the security.
- e. The Adviser may determine not to vote a particular proxy, if the costs and burdens exceed the benefits of voting (e.g., when securities are subject to loan or to share blocking restrictions).

3. CONFLICTS OF INTEREST

The Adviser shall use commercially reasonable efforts to determine whether a potential conflict may exist, and a potential conflict shall be deemed to exist only if one or more of the managers of the Adviser actually knew or should have known of the conflict. The Adviser is sensitive to conflicts of interest that may arise in the proxy decision-making process and has identified the following potential conflicts of interest:

- A principal of the Adviser or any person involved in the proxy decision-making process currently serves on the Board of the portfolio company.
- An immediate family member of a principal of the Adviser or any person involved in the proxy decision-making process currently serves as a director or executive officer of the portfolio company.
- The Adviser, any fund managed by the Adviser, or any affiliate holds a significant ownership interest in the portfolio company.

This list is not intended to be exclusive. All employees are obligated to disclose any potential conflict to the Adviser's Chief Compliance Officer.

If a material conflict is identified, Adviser management may (i) disclose the potential conflict to the client and obtain consent; or (ii) establish an ethical wall or other informational barriers between the person(s) that are involved in the conflict and the persons making the voting decisions.

4. RECORDKEEPING The Chief Compliance Officer or his/her designate is responsible for maintaining the following records:

- proxy voting policies and procedures;
- proxy statements (provided, however, that the Adviser may rely on the Securities and Exchange Commission's EDGAR system if the issuer filed its proxy statements via EDGAR or may rely on a third party as long as the third party has provided the Adviser with an undertaking to provide a copy of the proxy statement promptly upon request);
- records of votes cast and abstentions; and

Edgar Filing: FIRST TRUST SPECIALTY FINANCE & FINANCIAL OPPORTUNITIES FUND - Form N-CSR

(A) (3) COMPENSATION STRUCTURE OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS

The members of the Confluence Portfolio Management Team are compensated with an annual base salary and a discretionary bonus based on Confluence's overall firm profits rather than individual product line performance or profitability.
