News Release

April 25, 2003

Performance Review - Year ended March 31, 2003

The Board of Directors of ICICI Bank Limited (NYSE: IBN) at its meeting held at Mumbai today, approved the audited accounts of the Bank for the year ended March 31, 2003 (FY2003). The Board also approved the audited consolidated accounts for the period. In view of the merger of ICICI Limited (ICICI) and two of its subsidiaries with the Bank on March 30, 2002, the results for FY2003 are not comparable with the results on a standalone basis for the year ended March 31, 2002 (FY2002).

Edgar Filing: ICICI BANK LTD - Form 6-K

Results

ICICI Bank's profit after tax for FY2003 was Rs. 1,206 crore as compared to Rs. 258 crore for FY2002. The profit after tax for FY2003 represents a return on equity of 18.3%. This was achieved inspite of the negative impact of compliance with regulatory reserve requirements on ICICI's historic liabilities.

During the year, the ICICI Bank Shares Trust divested 101.4 million shares of the Bank (transferred to the Trust by erstwhile ICICI prior to the merger) to strategic and institutional investors, resulting in capital gains of Rs. 1,191 crore flowing to the Bank.

The Bank made total provisions and write-offs, including accelerated/ additional provisions and write-offs, of Rs. 1,791 crore against loans and other assets, primarily relating to erstwhile ICICI's portfolio.

The profit after tax for the quarter ended March 31, 2003 (Q4-2003) increased to Rs. 338 crore from Rs. 330 crore for the quarter ended December 31, 2002 (Q3-2003), despite the significantly lower treasury gains (Rs. 17 crore as compared to Rs. 180 crore in the previous quarter) on account of the interest rate environment prevailing during the quarter. The profit after tax for the quarter ended March 31, 2002 (Q4-2002) was Rs. 57 crore.

Dividend

The Board has recommended a significant stepping up of the rate of dividend on equity share capital from 20% for FY2002 to 75% for FY2003. The declaration and payment of dividend is subject to the approval of Reserve Bank of India (RBI) and the shareholders of the Bank.

Operational highlights

During the year the Bank achieved market leadership across products in the retail finance segment. The Bank made retail loan disbursements of about Rs. 20,300 crore during the year, including home loan disbursements of Rs. 8,660 crore. The retail assets increased by over Rs. 13,000 crore to Rs. 19,132 crore. ICICI Bank's retail assets now constitute 18% of total assets and 30% of customer assets as compared to 6% of total assets and 11% of customer assets at March 31, 2003. The Bank's total net customer assets at March 31, 2003 were Rs. 64,051 crore as against Rs. 57,526 crore at March 31, 2002, an increase of 11%. The Bank's agri-business portfolio was about Rs. 2,100 crore, which was achieved with a limited rural distribution network through innovative financing structures, supply chain linkages and technology.

During FY2003, the Bank repaid about Rs. 22,400 crore of erstwhile ICICI's liabilities as they fell due in accordance with their terms of repayment, including the exercise of all available call options. At March 31, 2003, the Bank's total deposits were Rs. 48,169 crore, a growth of 50% over total deposits at March 31, 2002, which is estimated to be the highest deposit growth rate in the banking system. The Bank's estimated market share in incremental banking system deposits was about 10.4%. The Bank's average cost of deposits declined to 6.2% for Q4-2003 from 7.4% for Q1-2003.

Edgar Filing: ICICI BANK LTD - Form 6-K

The Bank's international initiative, launched in FY2002, is proceeding as planned. The Bank is in the process of operationalising its branch in Singapore and representative office in China and is awaiting overseas regulatory approval for setting up subsidiaries in the United Kingdom and Canada and a representative office in Dubai. The Bank already has representative offices in the United States and the United Kingdom.

At March 31, 2003, the Bank's net non-performing customer assets were Rs. 3,151 crore constituting 4.9% of customer assets. The Bank's standard assets included net restructured assets of Rs. 8,943 crore. The additions to net restructured assets in Q4-2003 included borrower accounts in the iron and steel sector restructured through RBI's Corporate Debt Restructuring (CDR) mechanism. At March 31, 2003, the Bank had a provision coverage of about 62% against non-performing assets.

The Bank's recovery efforts have been strengthened by the enactment of the Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002. The Bank has sponsored Asset Reconstruction Company (India) Limited (ARCIL) jointly with State Bank of India, Industrial Development Bank of India and other banks and institutions, under the framework created by the Act. ARCIL has submitted its application for registration to RBI and would become operational on receipt of the same.

ICICI Bank's capital adequacy at March 31, 2003 (after taking into account the proposed dividend) was 11.1% (including Tier-1 capital adequacy of 7.0%), well above RBI's requirement of 9.0%. In accordance with the new RBI guidelines, deferred tax asset of Rs. 488 crore has been reduced from Tier-1 capital, unlike in prior periods.

The international credit rating agency Moody's Investor Service upgraded the Bank's long-term foreign currency debt rating from Ba1 to Baa3. This is one notch higher than the sovereign ceiling for India. With this upgrade, ICICI Bank became the first Indian company to be assigned an investment grade rating by Moody's since 1998.

Audited consolidated accounts under Indian GAAP

The consolidated profit after tax was Rs. 1,152 crore including the results of operations of subsidiaries and affiliates of erstwhile ICICI that became subsidiaries and affiliates of the Bank on merger. ICICI Securities earned a profit after tax of Rs. 108 crore in FY2003. ICICI Lombard General Insurance Company achieved break-even during the year, focusing on profitable business segments with low loss ratios. ICICI Prudential Life Insurance Company maintained its market leadership among private sector life insurance companies, with a market share of 39% among private life insurers and 22% in the total pensions market. Future bonus provisions and non-amortisation of expenses by ICICI Prudential Life Insurance Company in line with insurance company accounting norms had a negative impact of Rs. 109 crore on the Bank's consolidated profit. Life insurance companies worldwide require five to seven years to achieve breakeven, in view of business set-up and customer acquisition costs in the initial years as well as reserving for actuarial liability. The deficit in the initial years is usually higher for faster-growing companies; the profit streams after breakeven is achieved are expected to be

correspondingly higher.

US GAAP financial statements

The Bank will announce its US GAAP results in compliance with the requirements of the Bank's listing on the New York Stock Exchange, on completion of the audit of its US GAAP accounts. As stated in the Bank's press release dated July 31, 2002, there are significant differences in the basis of accounting between US GAAP and Indian GAAP. These differences arise primarily due to ICICI being the accounting acquirer of ICICI Bank under US GAAP. Consequently, the US GAAP results would be divergent from the Indian GAAP results. Certain primary differences are set out below:

- a. US GAAP requires the capital gains on the sale of shares of ICICI Bank (included in income under Indian GAAP Rs. 1,191 crore) to be directly added to the stockholders' equity without being routed through the income statement.
- b. A significant portion of the treasury gains of Rs. 447 crore realised during the year and recognised as income under Indian GAAP, does not appear in the current year's US GAAP income statement as these gains were already recognized while marking-to-market ICICI Bank's treasury portfolio while accounting for the merger under US GAAP.

Consequent to these primary differences, the results under Indian GAAP and US GAAP are not comparable.
