Investing in the Notes involves significant risks. See "Risk Factors" beginning on page S-2 of the prospectus supplement and "Risk Factors" beginning on page PS-5 below.

The Notes are not bank deposits and are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency.

None of the Securities and Exchange Commission, any state securities commission or any other regulatory body has approved or disapproved of these Notes or passed upon the adequacy or accuracy of this pricing supplement, the accompanying prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

	Price to Public (1) (2)	Selling Agent's Commission (3)	Proceeds to Lloyds TSB Bank plc
Per Note	At variable prices	$12.50	$987.50
Total	At variable prices	$187,500.00	$14,812,500.00

(1) The Notes will be offered from time to time in one or more negotiated transactions at varying prices to be determined at the time of each sale, which may be at prevailing market prices, at prices related to such prevailing prices or at negotiated prices; provided however, that such price will not be less than $987.50 per $1,000 principal amount of the Notes and will not be more than $1,000 per $1,000 principal amount of the Notes. See "Risk Factors—The price you pay for the Notes may be higher than the prices paid by other investors." on page PS-5 of this pricing supplement.

(2) The proceeds you might expect to receive if you were able to resell the Notes on the Issue Date are expected to be less than the price you paid. This is because the price you paid includes the Selling Agent's commission set forth above and also reflects certain hedging costs associated with the Notes. For additional information, see "Risk Factors — The price you paid for the Notes has certain built-in costs, including the Selling Agent's commission and our cost of hedging, both of which are expected to be reflected in secondary market prices" on page PS-5 of this pricing supplement. You may also be charged fees if you buy the Notes through your registered investment advisers for managed fee-based accounts.

(3) Barclays Capital Inc. (the "Selling Agent") will receive varying commissions from the Issuer of up to $12.50 per $1,000 principal amount of the Notes, or $187,500 of the Aggregate Principal Amount of the Notes, and may retain all or a portion of these commissions or use all or a portion of these commissions to pay selling concessions or fees to other dealers. See "Supplemental Plan of Distribution" beginning on page PS-15 of this pricing supplement.

Guarantee:	The Notes are fully and unconditionally guaranteed by the Guarantor. The Guarantee will constitute the Guarantor's direct, unconditional, unsecured and unsubordinated obligations ranking pari passu with all of the Guarantor's other outstanding unsecured and unsubordinated obligations, present and future, except such obligations as are preferred by operation of law.
Aggregate Principal Amount:	US$15,000,000. May be increased prior to the issue date but we are not required to do so.
Denominations:	Minimum denominations of $1,000 and multiples of $1,000 thereafter
Issue Price:	At variable prices
Specified Currency:	U.S. dollars (also referred to as "US$" or "USD")
Trade Date:	March 21, 2012, with respect to US$5,000,000 principal amount. March 22, 2012, with respect to US$10,000,000 principal amount.
Issue Date:	April 13, 2012
Maturity Date:	April 13, 2015
Business Day:	Any day, other than a Saturday or Sunday, that is a day on which commercial banks are generally open for business in New York City (a "New York Banking Day") and London (a "London Banking Day")
Payment at Maturity:	100% repayment of principal, plus any accrued and unpaid interest, at maturity. Repayment of principal at maturity and all payments of interest are subject to the creditworthiness of Lloyds TSB Bank plc, as the Issuer, and Lloyds Banking Group plc, as the Guarantor of the Issuer's obligations under the Notes.
Interest Rate:	

	For each Interest Period commencing on or after the Issue Date, to but excluding April 13, 2013, the interest rate per annum will be equal to the Fixed Interest Rate. For each Interest Period commencing on or after April 13, 2013 to but excluding the Maturity Date, the interest rate per annum (the "Floating Interest Rate") will be equal to the Reference Rate plus the Spread, subject to the Minimum Interest Rate.
Fixed Interest Rate:	3.00% per annum
Reference Rate:	3 Month USD LIBOR (Designated LIBOR Page: Reuters: LIBOR01)

Spread:	1.50% per annum
Minimum Interest Rate:	2.25% per annum
Interest Payment Dates:	Quarterly, payable in arrears on the 13th day of each January, April, July and October, commencing on (and including) July 13, 2012 and ending on (and including) the Maturity Date. If any Interest Payment Date is not a Business Day, interest will be paid on the following Business Day, and interest on that payment will not accrue during the period from and after the scheduled Interest Payment Date.
Interest Record Dates:	Interest will be paid to holders of record of each Note in respect of the principal amount thereof outstanding 15 days preceding the relevant Interest Payment Date.
Interest Periods:	Each period from and including the most recent Interest Payment Date (or the Issue Date, in the case of the first Interest Period) to, but excluding, the following Interest Payment Date (or the Maturity Date, in the case of the final Interest Period).
3 Month USD LIBOR:	The 3 Month USD LIBOR rate, as reported on Reuters Page LIBOR01 or any successor page as of 11:00 a.m. London time, on the relevant Interest Determination Date. If such rate does not appear on the Reuters Page LIBOR01 on such Interest Determination Date, then the Calculation Agent will request the principal London offices of each of four major reference banks (which may include the Selling Agent or its affiliates) in the London interbank market, as selected by the Calculation Agent (after consultation with us), to provide the Calculation Agent with its offered quotation for deposits in U.S. dollars for a three-month period commencing on the first day of each Interest Period, to prime banks in the London interbank market at approximately 11:00 a.m., London time, on such Interest Determination Date and in a principal amount that is representative of a single transaction in U.S. dollars in that market at such time. If at least two quotations are so provided, then the 3 Month USD LIBOR rate determined on such Interest Determination Date will be the arithmetic mean of such quotations. If fewer than two such quotations are so provided, then the 3 Month USD LIBOR rate on such Interest Determination Date will be the arithmetic mean of the rates quoted at approximately 11:00 a.m. in New York, New York on such Interest Determination Date by three major banks (which may include the Selling Agent or its affiliates) in New York, New York selected by the Calculation Agent (after consultation with us) for loans in U.S. dollars to leading European banks, having a three-month maturity, commencing on the first day of each Interest Period and in a principal amount that is representative of a single transaction in U.S. dollars in that market at such time. If the banks so selected by the Calculation Agent are not quoting as set forth above, the 3 Month USD LIBOR rate on such Interest Determination Date will be the 3 Month USD LIBOR rate in effect on such Interest Determination Date.
Business Day Convention:	Following unadjusted
Interest Reset Dates:	

	Quarterly, in advance on the 13th day of each January, April, July and October, commencing on and including April 13, 2013, to (and including) January 13, 2015.
Interest Determination Dates:	The second London Banking Day preceding each Interest Reset Date
Day Count Basis:	Interest payable with respect to an Interest Period will be computed on the basis of a 360-day year of twelve 30-day months.

Payment Determination:	The Paying Agent will calculate the amount you will be entitled to receive on each Interest Payment Date and at maturity. For each Interest Determination Date, the Calculation Agent will cause to be communicated to us, the Trustee and the Paying Agent, the relevant Reference Rate. The Paying Agent will calculate the amount you will be entitled to receive on each Interest Payment Date and at maturity using the Reference Rate as so provided.
Tax Redemption:	Following the occurrence of one or more changes in tax law that would require the Issuer or the Guarantor to pay additional amounts and in other limited circumstances as described under “Description of the Notes and the Guarantees—Redemption for Tax Reasons” in the prospectus supplement and “Description of Debt Securities—Redemption” in the prospectus, the Issuer may redeem all, but not fewer than all, of the Notes prior to maturity.
Settlement and Clearance:	DTC; Book-entry

RISK FACTORS

Your investment in the Notes involves significant risks. Your decision to purchase the Notes should be made only after carefully considering the risks of an investment in the Notes, including those discussed below and in the section entitled "Risk Factors" beginning on page S-2 of the prospectus supplement, with your advisers in light of your particular circumstances. The Notes are not an appropriate investment for you if you are not knowledgeable about significant elements of the Notes or financial matters in general. We also urge you to consult with your investment, legal, accounting, tax, and other advisers before you invest in the Notes.

The credit risk of Lloyds Bank and LBG and their credit ratings and credit spreads may adversely affect the value of the Notes.

You are dependent on Lloyds Bank's ability to pay all amounts due on the Notes, and therefore you are subject to the credit risk of Lloyds Bank and to changes in the market's view of Lloyds Bank's creditworthiness. In addition, because the Notes are fully and unconditionally guaranteed by Lloyds Bank's parent company, LBG, you are also dependent on the credit risk of LBG in the event that Lloyds Bank fails to make any payment or delivery required by the terms of the Notes. If Lloyds Bank and LBG were to default on their respective payment obligations, you may not receive any amounts owed to you under the Notes and you could lose your entire investment. The credit ratings of Lloyds Bank and LBG are an assessment by rating agencies of their ability to pay their obligations, including those under the Notes. Any actual or anticipated decline in Lloyds Bank's and LBG's credit ratings, or increase in the credit spreads charged by the market for taking credit risk, is likely to adversely affect the value of the Notes. However, because the return on the Notes is dependent upon factors in addition to Lloyds Bank's and LBG's credit ratings, an improvement in their credit ratings will not necessarily increase the value of the Notes and will not reduce market risk and other investment risks related to the Notes.

The price you paid for the Notes has certain built-in costs, including the Selling Agent's commission and our cost of hedging, both of which are expected to be reflected in secondary market prices.

In determining the economic terms of the Notes, and consequently the potential return on the Notes to you, we have taken into account compensation to the Selling Agent for distributing the Notes, which is reflected in the Selling Agent's commission described on the cover of this pricing supplement, as well as certain costs associated with hedging our obligations under the Notes. The price you paid for the Notes reflects these factors. As a result, the value of the Notes on the Issue Date is expected to be less than the price you paid for the Notes. Assuming no change in market conditions or any other relevant factors, the price, if any, at which the Selling Agent or another purchaser is willing to purchase the Notes in secondary market transactions will likely be less than the price you paid for the Notes. This is due to, among other things, the fact that the price you paid for the Notes includes, and secondary market prices are likely to exclude, the Selling Agent's commission with respect to, and the hedging costs associated with, the Notes. The cost of hedging includes the projected profit that may be realized in consideration for assuming the risks inherent in managing the hedging transactions. These secondary market prices are also likely to be reduced by the costs of unwinding the related hedging transactions. A profit may be realized from the expected hedging activity even if investors do not receive a favorable investment return under the terms of the Notes or in any secondary market transaction. In addition, any secondary market prices may differ from values determined by pricing models used by the Selling Agent, as a result of dealer discounts, mark-ups or other transaction costs.

The price you paid for the Notes may be higher than the prices paid by other investors.

The Selling Agent proposes to offer the Notes from time to time for sale to investors in one or more negotiated transactions, or otherwise, at prevailing market prices at the time of sale, at prices related to then-prevailing prices, at negotiated prices, or otherwise. Accordingly, there is a risk that the price you paid for your Notes will be higher than the prices paid by other investors based on the date and time you made your purchase, from whom you purchased the Notes, any related transaction cost, whether you hold your Notes in a brokerage account, a fiduciary or fee-based account or another type of account and other market factors.

Because the Notes accrue interest at a fixed-rate during the first year of their term, the amount of interest payable on your Notes on each fixed-rate interest payment date may be below market interest rates.

Because interest payable on your Notes during the fixed-rate interest periods accrues at a fixed rate, there can be no guarantee that the interest you will receive on one or more of the fixed-rate interest payment dates will be equal to or greater than the market interest rate on such dates. We have no control over a number of factors that may affect market interest rates, including economic, financial and political events that are important in determining the existence, magnitude and longevity of these risks and their results. See "—The value of the Notes prior to maturity will be influenced by many unpredictable factors, and may be less than the price you paid" below. You should have a view as to the Fixed Interest Rate on the Notes (as specified on the cover of this pricing supplement) and its level relative to market interest rates before investing, and you must be willing to forgo guaranteed market interest rates for the first year of the term of the Notes.

Because the Notes accrue interest at a floating-rate after the first year of their term, you may receive a lesser amount of interest in the future.

Because interest payable on the Notes during the floating-rate interest periods is indexed to an external interest rate (the 3 Month USD LIBOR rate) that may vary from time to time, there will be significant risks not associated with a conventional fixed-rate debt security. These risks include fluctuation of the 3 Month USD LIBOR rate and the possibility that, in the future, the interest rate on the Notes will decrease and may be the Minimum Interest Rate. We have no control over a number of factors that may affect the 3 Month USD LIBOR, including economic, financial and political events that are important in determining the existence, magnitude and longevity of these risks and their results. See "—The value of the Notes prior to maturity will be influenced by many unpredictable factors, and may be less than the price you paid" below.

The amount of interest payable on your Notes on each floating-rate interest payment date will not be affected by the 3 Month USD LIBOR rate on any day other than the relevant Interest Determination Date.

For each floating-rate interest period, the amount of interest payable on each floating-rate interest payment date is calculated based on the 3 Month USD LIBOR rate on the relevant Interest Determination Date plus the Spread. Although the actual 3 Month USD LIBOR rate on a floating-rate interest payment date or at other times during a floating-rate interest period may be higher than the 3 Month USD LIBOR rate on the relevant Interest Determination Date, you will not benefit from the 3 Month USD LIBOR rate at any time other than on the relevant Interest Determination Date for such floating-rate interest period.

The amount of interest payable on the Notes may be less than the return you could earn on other investments with a comparable maturity.

Interest rates may change significantly over the term of the Notes, and it is impossible to predict what interest rates will be at any point in the future. Although the Floating Interest Rate on the Notes will be based on the level of the 3 Month USD LIBOR rate, the Floating Interest Rate that will apply during each floating-rate interest period on the Notes may be more or less than other prevailing market interest rates at such time. As a result, the amount of interest you receive on the Notes may be less than the return you could earn on other investments with a comparable maturity.

If the 3 Month USD LIBOR rate changes, the value of the Notes may not change in the same manner.

The price of your Notes may move differently than the 3 Month USD LIBOR rate. Changes in the 3 Month USD LIBOR rate may not result i
