Acquisition of rights to Actavis’ branded respiratory portfolio in the US and Canada

On March 3, 2015, AstraZeneca announced that it completed a transaction to acquire the rights to Actavis Plc’s (“Actavis”) branded respiratory business in the US and Canada.

The strategic transaction is expected to strengthen AstraZeneca’s respiratory franchise globally and build on the acquisition of Almirall’s respiratory portfolio in 2014 by extending AstraZeneca’s development and commercialisation rights into the US for both Tudorza Pressair and Duaklir Genuair.

AstraZeneca owns the development and commercial rights in the US and Canada to Tudorza Pressair (aclidinium bromide inhalation powder), a twice-daily long-acting muscarinic antagonist (LAMA) for chronic obstructive pulmonary disease (COPD), and to Daliresp (roflumilast), the only once-daily oral PDE4 inhibitor currently on the market for COPD, in the US. AstraZeneca also owns the development rights in the US and Canada for LAS40464, the combination of a fixed dose of aclidinium with formoterol long acting beta agonist (LAMA/LABA) in a dry powder inhaler, which is approved in the EU under the brand name Duaklir Genuair.

On completion of the acquisition, AstraZeneca paid Actavis \$600 million of initial consideration and agreed to pay low single-digit royalties above a certain revenue threshold. AstraZeneca also paid Actavis an additional \$100 million for a number of contractual consents and approvals, including certain amendments to the ongoing collaboration agreements between AstraZeneca and Actavis.

Accounting Changes

Effective from January 1, 2015, AstraZeneca changed the presentation of its Statement of Comprehensive Income, which is expected to result in revenue from externalisation becoming more visible to enhance transparency for investors. The change will be reported as part of AstraZeneca's first quarter financial results on April 24, 2015. The impact is presentational and therefore does not impact Reported or Core profit.

Historically, reported revenue reflected only product sales (formerly known as sales revenue), with externalisation revenue forming part of other operating income presented below cost of goods sold ("COGS"). From January 1, 2015 externalisation revenue, alongside product sales, contributes to total revenue, which is shown above

COGS. Externalisation revenue includes development, commercialisation, partnership and out-licence revenue, such as royalties and milestone receipts, together with income from services or repeatable licences.

Income will be recorded as externalisation revenue when AstraZeneca has an ongoing interest in the product and/or it is repeatable business and there is no derecognition of an intangible asset. Disposals of assets and businesses, where AstraZeneca does not retain an interest, will continue to be recorded in other operating income.

2015 Financial Guidance

To reflect the change outlined in “—Accounting Changes” above, AstraZeneca provides 2015 total revenue guidance. Total revenue is expected to decline by mid single-digit percent at constant exchange rates (“CER”). This is consistent with previous guidance stating that sales revenue was expected to decline by mid single-digit percent at CER. Core EPS guidance is unchanged and Core EPS is expected to increase by low single-digit percent at CER. This expectation involves a number of assumptions, including the imminent launch of a Nexium generic in the US market.

Participation in US FDA Endocrinologic and Metabolic Drugs Advisory Committee

AstraZeneca announced on March 4, 2015 that it will participate in the US FDA’s Endocrinologic and Metabolic Drugs Advisory Committee meeting on April 14, 2015 to discuss the results of the Saxagliptin Assessment of Vascular Outcomes Recorded in Patients with Diabetes Mellitus (SAVOR) trial for Onglyza (saxagliptin) and Kombiglyze XR (saxagliptin and metformin HCl extended-release). The primary objective of this trial was to determine that the addition of saxagliptin to standard of care in this patient population did not significantly increase the incidence of major cardiovascular events as compared to placebo. The topic of the Advisory Committee is based on an ongoing review of a previously submitted supplemental NDA to the FDA for Onglyza and Kombiglyze XR.

Disclosures Under the Iran Threat Reduction and Syria Human Rights Act of 2012

The Company is a global, innovation-driven biopharmaceutical business with operations in over 100 countries and our innovative medicines are used by millions of patients worldwide. AstraZeneca does not have a legal entity based in Iran, or any employees or an office located in Iran. The Company, through one of its non-US Group companies that is neither a U.S. person nor a foreign subsidiary of a U.S. person, currently has sales of prescription pharmaceuticals in Iran solely through a single third-party distributor, which uses three known entities in the Iranian distribution chain. None of AstraZeneca’s US entities are involved in any business activities in Iran, or with the Iranian government. To the best knowledge of the management of AstraZeneca, the third-party distributor used by AstraZeneca is not owned or controlled by the Iranian government and the Company does not have any agreements, commercial arrangements, or other contracts with the Iranian government. However, the Company understands that one of the independent sub-distributors is likely controlled indirectly by the Iranian government. Further, AstraZeneca’s third-party distributor may initiate payments using banks associated with the government of Iran for the purchase of AstraZeneca products. Finally, in view of the types of products created and distributed by AstraZeneca, it is anticipated that the ultimate end-payers for our medicines may also include the Iranian government.

For the year ended December 31, 2014, the Company’s gross revenues and net profits attributable to the above-mentioned Iranian activities were \$16 million and \$6 million respectively. For the same period, the AstraZeneca Group’s gross revenues and net profits were \$26.1 billion and \$1.2 billion respectively. Accordingly, the gross revenues and net profits attributable to the above-mentioned Iranian activities amounted to approximately 0.061% of the AstraZeneca Group gross revenues and approximately 0.486% of its net profits.

At the time of publication, the management of AstraZeneca does not anticipate any change in its activities in Iran that would result in a material impact on the AstraZeneca Group.

Patent litigation

Faslodex (fulvestrant)

Patent proceedings outside the US

In March 2015, AstraZeneca was served with a writ of summons by which Actavis Group PTC ehf. and Actavis Italy S.p.A (collectively “Actavis”) commenced invalidity and non-infringement proceedings before a court in Turin, Italy relating to two Faslodex formulation patents, European patent EP 1 250 138 and the Italian patent IT 1 333 490.

Pulmicort Respules (budesonide inhalation suspension)

US patent litigation

In October 2014, the US District Court for the District of New Jersey (the “District Court”) held a trial on the merits in respect of US Patent No. 7,524,834 (the ‘834 Patent) and to determine whether AstraZeneca’s request for permanent injunctive relief against Breath Limited, Apotex, Inc. and Apotex Corp., Sandoz, Inc. and Watson Laboratories, Inc. (together, the “Generic Challengers”) should be granted. On February 13, 2015, the District Court determined that the ‘834 Patent is invalid and denied the injunction request. Also on February 13, 2015, AstraZeneca filed a motion for an injunction pending an appeal of the District Court’s decision, which was denied

on the same day. On February 16, 2015, AstraZeneca appealed the District Court's decision to the US Court of Appeals for the Federal Circuit ("Court of Appeals") and filed an Emergency Motion for an Injunction Pending Appeal ("Emergency Motion"). On February 17, 2015, the Court of Appeals issued an injunction against the Generic Challengers pending submissions by the parties. A decision on the Emergency Motion is awaited.

Seroquel XR (quetiapine fumarate)

Patent proceedings in the US

In October and November 2014, AstraZeneca filed patent infringement lawsuits against Pharmadax, Inc. and Pharmadax USA, Inc. In February 2015, AstraZeneca settled the patent infringement litigation by granting Pharmadax a license to the Seroquel XR product patent effective November 1, 2016, or earlier, in certain circumstances.

In February 2015, AstraZeneca received a Paragraph IV Notice from AB Pharmaceuticals, LLC, the US agent of Macleods Pharmaceuticals, Ltd., (together, "Macleods") alleging that the patent listed in the FDA Orange Book with reference to Seroquel XR is invalid, unenforceable and/or is not infringed by Macleods' proposed generic product. Macleods submitted an Abbreviated New Drug Application seeking to market quetiapine fumarate tablets. In February 2015, AstraZeneca filed a patent infringement lawsuit against Macleods and Macleods Pharma USA, Inc. in the US District Court for the District of New Jersey.

In this regard, management has made the same assessment and reached the same conclusion as that set forth in the

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

AstraZeneca PLC:

We have audited AstraZeneca PLC’s (‘the Company’ or ‘AstraZeneca’) internal control over financial reporting as of 31 December 2014, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). AstraZeneca’s management is

responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, AstraZeneca PLC maintained, in all material respects, effective internal control over financial reporting as of 31 December 2014, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statement of financial position of AstraZeneca PLC and subsidiaries as of 31 December 2014, and the related consolidated statements of comprehensive income, changes in equity, and cash flows for the year then ended, and our report dated 5 February 2015 expressed an unqualified opinion on those consolidated financial statements.

At the 2014 Annual General Meeting, the Company's Shareholders authorized the Company to repurchase 126,096,700 of its own shares, but the Company's Board of Directors did not lift the suspension on share repurchases and, accordingly, the Company did not repurchase any of its shares in 2014.

ITEM 16F. CHANGE IN REGISTRANT'S CERTIFYING ACCOUNTANT

In 2014, the Company's auditor, KPMG Audit Plc instigated an orderly wind down of business as part of a KPMG group-internal reorganisation; accordingly, KPMG Audit Plc declined to stand for re-election in 2014. A resolution was passed at the AGM on April 24, 2014 for the appointment of KPMG LLP as auditor of the Company. The decision to change accountants was unanimously recommended to the Board of Directors by the Audit Committee.

During the years ended December 31, 2013 and December 31, 2012, (1) KPMG Audit Plc has not issued any reports on the financial statements of the Company or on the effectiveness of internal control over financial reporting that contained an adverse opinion or a disclaimer of opinion, nor were the auditors' reports of KPMG Audit Plc qualified or modified as to uncertainty, audit scope, or accounting principles, (2) there has not been any disagreement over any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements if not resolved to KPMG Audit Plc's satisfaction would have caused it to make reference to the subject matter of the disagreement in connection with its auditors' reports, or any "reportable event" as described in Item 16F(a)(1)(v) of Form 20-F.

The Company has provided KPMG Audit Plc with a copy of the foregoing disclosure and has requested that KPMG Audit Plc furnish the Company with a letter addressed to the Securities and Exchange Commission (the “SEC”) stating whether KPMG Audit Plc agrees with such disclosure and, if not, stating the respects in which it does not agree. A copy of KPMG Audit Plc’s letter, dated March 10, 2015, in which KPMG Audit Plc stated that it agrees with such disclosure, is filed herewith as Exhibit 15.8.

ITEM 16G. CORPORATE GOVERNANCE

AstraZeneca PLC is a public limited company incorporated in England and Wales, admitted to the Official List of the Financial Conduct Authority (“FCA”) and to trading on the main market of the London Stock Exchange. As a result, it follows the UK Corporate Governance Code (the “UK Code”) in respect of its corporate governance practices. The 2014 edition of the UK Code came into effect for reporting periods beginning on or after 1 October 2014. The Companies Act 2006 (the “UK Act”) imposes certain statutory requirements that also influence the Company’s corporate governance practices. The Company has ADRs listed on the NYSE and, under the NYSE Corporate Governance Standards (the “NYSE Standards”) applicable to listed companies, as a foreign private issuer, the Company is permitted to follow the corporate governance practice of its home country in lieu of certain provisions of the NYSE Standards.

A summary of the significant ways in which the Company’s corporate governance practices differ from those followed by US domestic companies under the NYSE Standards is set forth below.

NYSE Standards

AstraZeneca Corporate Governance Practice

1. Under the NYSE Standards, the audit committee is to be directly responsible for the appointment, compensation, retention and oversight of a listed company’s external auditor, unless there is a conflicting requirement under the home country laws of the company.

Under the UK Act, a company’s external auditors are appointed by its shareholders. Under the UK Code, the Company’s audit committee is responsible for making recommendations to the Board of Directors, for the Board of Directors to propose to the Company’s shareholders in general meeting, in relation to the appointment, re-appointment and removal of the external auditors, and for approving the remuneration and terms of engagement of the external auditor. If the Board of Directors does not accept the audit committee’s recommendation, it should include in the annual report, and in any papers recommending appointment or re-appointment, a statement from the audit committee explaining the recommendation and should set out reasons why the Board of Directors has taken a different position.

2. Under the NYSE Standards, the nominating/corporate governance committee and compensation committee are to be composed entirely of independent directors.

Under the UK Code, a majority of the members of a company’s nomination committee, and all of the members of its remuneration committee, should be independent non-executive directors. The chairman of the company may be a member of, but not chair, the remuneration committee, provided he or she was considered independent on appointment as chairman (under the UK Code, the test of independence is not appropriate in relation to the chairman thereafter), and in the case of the nomination committee, the chairman may chair such committee.

The Company’s Nomination and Governance Committee and Remuneration Committee include four and five members, respectively, including the chairman of the Company’s Board of Directors, with the remainder all being considered by the Company’s Board of Directors to be independent in accordance with the

NYSE Standards

AstraZeneca Corporate Governance Practice

principles and criteria of the UK Code. The Company's chairman was considered to be independent upon his appointment as chairman.

3. Under the NYSE Standards, the compensation committee is to make recommendations to the listed company's Board of Directors with respect to non-CEO executive officer compensation and certain other compensation plans which are subject to Board approval.

In compliance with the UK Code, the Company's Remuneration Committee determines the Company's global remuneration frameworks and principles, approves individual salary decisions and related matters for members of the Company's Board of Directors, Senior Executive Team ("SET") and the Company Secretary, and reviews annual bonus payments for all executives reporting directly to SET members. While the Remuneration Committee does not make initial recommendations to the Board of Directors in this respect, it does report to the Board of Directors on these matters.

Under the UK Act, the Company is required to offer shareholders: (i) a binding vote on the Company's forward looking remuneration policy for its directors at least every three years; and (ii) a separate annual advisory vote on the implementation of the Company's existing remuneration policy in terms of the payments and share awards made to its directors during the year, which is disclosed in an annual remuneration report.

4. Under the NYSE Standards, shareholders are entitled to vote on all equity compensation plans and material revisions thereto, with certain limited exemptions.

Under the listing rules of the UK Listing Authority (the "UKLA Rules"), with which the Company complies, shareholder approval is required to be obtained by the Company for the adoption of equity compensation plans which are either long-term incentive schemes in which directors of the Company can participate or schemes which may involve the issue of new shares. Under the UKLA Rules, these plans may not be changed to the benefit of the plan participants unless shareholder approval is obtained (with certain minor exceptions, for example, to benefit the administration of the plan or to take account of tax benefits). The UKLA Rules in respect of shareholder approval regarding equity compensation plans, or any material revision thereto, may differ from the NYSE Standards.

5. Under the NYSE Standards, each listed company Chief Executive Officer must certify to the NYSE each year that he or she is not aware of any violation by the listed company of any NYSE corporate governance listing standards.

As the Company is a foreign private issuer, the Company's Chief Executive Officer is not required to make this certification. He is, however, required to promptly notify the NYSE in writing after any executive officer of the Company becomes aware of any non-compliance with any NYSE corporate governance rules applicable to the Company.

The UKLA Rules require the Company to include a statement in its annual report and accounts as to whether it has complied throughout the applicable accounting period with all relevant provisions set out in the UK Code or, if it has not complied, set out those provisions it has not complied with and its reasons for non-compliance.

The information set forth under the heading “Corporate Governance—Corporate Governance Report—US corporate governance requirements” (final paragraph only) on page 92 of the Company’s “Annual Report and Form 20-F Information 2014” included as exhibit 15.1 to this Form 20-F dated March 10, 2015 is incorporated by reference.
