Supplemental information on noncash operating and investing activities:
During the nine month period ended November 26,1999, the Company transferred a net of \$216 from inventory to property, plant and equipment.

The accompanying notes are an integral part of the consolidated financial statements.

Edgar Filing: ENVIRONMENTAL TECTONICS CORP - Form 10-Q

1. Basis of Presentation

The accompanying consolidated financial statements include the accounts of Environmental Tectonics Corporation ("ETC" or the "Company"), its wholly-owned subsidiaries ETC International Corporation, Entertainment Technology Corporation, and ETC Europe, and its majority-owned subsidiary ETC-PZL Aerospace Industries, Ltd. ("ETC-PZL").

The accompanying consolidated financial statements have been prepared by Environmental Tectonics Corporation, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission, and reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results for the interim periods presented. All such adjustments are of a normal recurring nature.

Certain information in footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles has been condensed or omitted pursuant to such rules and regulations and the financial results for the period presented may not be indicative of the full year's results, although the Company believes the disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended February 25, 2000. Certain reclassifications have been made to the 1999 financial statements to conform with the 2000 presentation.

2. Earnings per Share

Basic earnings per share excludes dilution and is computed by dividing income available to common shareholders by the weighted average common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised and converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity. The following table demonstrates the components of basic and diluted earnings per share for the three and nine-month periods ended November 24, 2000 and November 26, 1999. All earnings per share and share amounts have been restated to reflect a 2 for 1 stock split effective May 28, 1999.

3. Accounts Receivable

The components of accounts receivable are as follows:

	November 24, 2000	February 25, 2000
	-----	-----
	(amounts in thousands)	
U.S. Government receivables billed and unbilled contract costs subject to negotiation	\$ 5,717	\$ 5,145
U.S. commercial receivables billed	4,779	1,395
International receivables billed and unbilled contract costs subject to negotiation	6,425	4,598
	-----	-----
	16,921	11,138
Less allowance for doubtful accounts	(375)	(367)
	-----	-----
	\$16,546	\$10,771
	=====	=====

U.S. Government receivables billed and unbilled contract costs subject to negotiation:

Unbilled contract costs subject to negotiation represent claims made or to be made against the U.S. Government under a contract for a centrifuge. These costs were recorded beginning in fiscal year 1994, including \$1,148,000 recorded during the three months ended May 26, 2000. The Company has recorded claims, amounting to \$3,898,000 to the extent of contract costs incurred, and accounts receivable of \$1,649,000 representing the balance due under the contract. Claim

costs have been incurred in connection with U.S. Government caused delays, errors in specifications and designs, and other unanticipated causes and may not be received in full during fiscal 2001. In accordance with generally accepted accounting principles, revenue recorded by the Company from a claim does not

Edgar Filing: ENVIRONMENTAL TECTONICS CORP - Form 10-Q

exceed the incurred contract costs related to the claim. The Company currently has approximately \$12,000,000 in claims filed with the U.S. Government (including the aforementioned recorded claim and accounts receivable balances), which are subject to negotiation and audit by the U.S. Government. The U.S. Government has responded to the claims with either denials or deemed denials that the Company has appealed. In May, 2000, the Company and the U.S. Government had reached an agreement in principle which would have included resolution of all U.S. Navy claims on a global basis and contracted additional work on the centrifuge. In July, 2000, the Company received notice that the Navy, citing an inability to obtain the prerequisite approvals and thus the necessary funding to effect the settlement, was rescinding the agreement.

International receivables and unbilled contract costs subject to negotiation:

International receivables billed includes \$900,000 related to a certain contract with the Royal Thai Air Force.

In October 1993, the Company was notified by the Royal Thai Air Force ("RTAF") that the RTAF was terminating a certain \$4,600,000 simulator contract with the Company. Although the Company had performed in excess of 90% of the contract, the RTAF alleged a failure to completely perform. In connection with this termination, the RTAF made a call on a \$229,000 performance bond, as well as a draw on an approximately \$1,100,000 advance payment letter of credit. Work under this contract had stopped while under arbitration, but on October 1, 1996, the Thai Trade Arbitration Counsel rendered its decision under which the contract was reinstated in full and the Company was given a period of nine months to complete the remainder of the work. Except as noted in the award, the rights and obligations of the parties remained as per the original contract including the potential invoking of penalties or termination of the contract for delay. On December 22, 1997, the Company successfully performed acceptance testing and the unit passed with no discrepancy reports. Although the contract was not completed in the time allotted, the Company has requested an extension on the completion time due to various extenuating circumstances, including allowable "force majeure" events, one of which was a delay in obtaining an

7

export license to ship parts required to complete the trainers. The balance due on the contract is still under review and at this point the Company is not able to determine what, if any, impact the extended completion period will have upon the receipt of final payment. However, the Company continues to pursue collection.

Unbilled contract costs subject to negotiation represent claims made or to be made against an international customer for three contracts covering 1994 to the present. Claims receivables and corresponding revenue aggregating \$4,377,000 have been recorded, including \$1,674,000 in the current quarter. Claim costs have been incurred in connection with customer caused delays, errors in specifications and designs, other out-of-scope items and exchange losses and may not be received in full during fiscal 2001. In accordance with generally accepted accounting principles, revenue recorded by the Company from a claim does not exceed the incurred contract costs related to the claim. The Company is currently updating and finalizing these claims and also has begun legal proceedings in the United Kingdom against the customer. As a related item, during the third quarter of fiscal 2000, the aforementioned international customer, citing failure to deliver product within contract terms, assessed liquidated damages totalling approximately \$1,600,000 on two contracts currently in progress. The Company disputes the basis for these liquidated damages and plans to contest them vigorously. However, following generally accepted accounting principles, the Company has reduced contract values and corresponding revenue recognition by approximately \$1,600,000.

Edgar Filing: ENVIRONMENTAL TECTONICS CORP - Form 10-Q

4. Inventories

Inventories are valued at the lower of cost or market using the first in, first out (FIFO) method and consist of the following (net of reserves):

	November 24, 2000	February 25, 2000
	-----	-----
	(amounts in thousands)	
Raw materials	\$ 356	\$ 343
Work in Process	4,145	3,561

	=====	=====	=====	=====	=====	=====

6. Business Segment Presentation:

The Company primarily manufactures under contract various types of high-technology equipment which it has designed and developed. The Company considers its business activities to be divided into two segments: Aircrew

Edgar Filing: ENVIRONMENTAL TECTONICS CORP - Form 10-Q

Training Systems (ATS) and Industrial Simulation. The ATS business segment produces devices which create and monitor the physiological effects of motion, including spatial disorientation and centrifugal forces for the medical, training, research and entertainment markets. The Industrial Group produces chambers that create environments that are used for sterilization, research, and medical applications. The following segment information reflects the accrual basis of accounting:

	=====	=====	

Segment operating income (loss) consists of net sales less applicable costs and expenses related to those revenues. Unallocated general corporate expenses and other miscellaneous fees have been excluded from total profit for segments. General corporate expenses are primarily central administrative office expenses including executive salaries, stockholders expenses and legal and accounting fees. Other miscellaneous expenses include banking and letter of credit fees. Property, plant and equipment are not identified with specific business segments as these are common resources shared by all segments.

Approximately 39.9% of sales totaling \$3,442,000 in the third quarter of fiscal 2001 were made to one international and one domestic customer in the ATS segment. Approximately 47.6% of sales totaling \$4,336,000 in the third quarter of fiscal 2000 were made to two international customers primarily in the ATS segment.

Approximately 47.2% of sales totaling \$10,760,000 in the nine months ended November 24, 2000, were made to two international customers and one domestic customer primarily in the ATS area. Approximately 56.9% of sales totaling \$14,604,000 in the nine months ended November 26, 1999, were made to two international customers and one domestic customer primarily in the ATS segment.

Included in the segment information for the third quarter of fiscal 2001 are export sales of \$ 4,108,000. Of this amount, there are sales to commercial or government accounts in Great Britain of \$1,425,000 and Africa of \$786,000. Sales to the US government and its agencies aggregate \$315,000 for the period.

Included in the segment information for the third quarter of fiscal 2000 are export sales of \$6,861,000. Of this amount, there are sales to government accounts in Great Britain of \$2,309,000 and Africa of \$2,027,000. Sales to the US government and its agencies aggregate \$320,000 for the period.

Included in the segment information for the nine months ended November 24, 2000, are export sales of \$10,490,000. Of this amount, there are sales to commercial or government accounts in Great Britain of \$3,394,000 and Africa of \$2,313,000. Sales to the US government and its agencies aggregate \$1,888,000 for the period.

Included in the segment information for the nine months ended November 26, 1999, are export sales of \$17,899,000. Of this amount, there are sales to commercial or government accounts in Great Britain of \$5,398,000 and Africa of \$6,586,000. Sales to the US government and its agencies aggregate \$843,000 for the period.

7. Acquisitions

On September 9, 2000, the company purchased the assets of the "Pro-Pilot" flight simulation game for \$400,000 cash. The Company plans to develop a next generation "Pro-Pilot 2000"™ game which will be marketed through the internet. Also, this software can be integrated into the Company's General Aviation Trainer product for commercial application.

On September 27, 2000, the Company purchased an additional 30% ownership interest in ETC-PZL for \$300,000 cash. With this purchase, the Company's ownership interest increases to 95%.

8. Derivative Instruments and Hedging Activity

In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 133, " Accounting and Derivative Instruments and Hedging Activity." SFAS No. 133 establishes accounting and reporting standards for derivative instruments, including certain derivative instruments imbedded in other contracts and for hedging activities. It requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. If certain conditions are met, a derivative may be specifically designated as a hedge. The accounting for changes in the fair value of a derivative (gains and losses) depends on the intended use of the derivative and resulting designation. SFAS No. 133 is effective for all fiscal quarters of fiscal years beginning after June 15, 1999. Earlier application is permitted only as of the beginning of any fiscal quarter. The Company is currently reviewing the provisions of SFAS No. 133. The Company does not feel that the implementation of this pronouncement will have a material impact on the financial results of the Company.

Edgar Filing: ENVIRONMENTAL TECTONICS CORP - Form 10-Q

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition
(amounts in dollars, except where noted and share and per share amounts)

Results of Operations

Three months ended November 24, 2000 compared to November 26, 1999.

The Company had net income of \$227,000, or \$.03 per share (diluted), versus net income of \$764,000 or \$.10 per share (diluted), for the corresponding third quarter of fiscal 2000. Sales for the quarter were \$8,622,000, a decrease of \$485,000 or 5.3%, over the corresponding prior period. The primary contributors to the sales decrease were international contracts for the Company's Hypo/hyperbaric Systems. Partial offsets were an increase in domestic Sterilizer work, worldwide Environmental Systems projects, and a 135.8% increase in the Entertainment group. Overall, domestic sales were up \$2,273,000, or 118.0% from the prior period, and represented 48.7% of the Company's total sales, up from 21.1% a year ago. International sales were down \$2,753,000 or 40.1%, and represented 47.6% of total sales, down from 75.3% in the prior period.

Gross profit dollars were down \$572,000 from the prior period, reflecting the lower sales level and a reduced rate as a percentage of revenue. The rate as a percentage of sales was down 4.5 percentage points to 32.6%. The primary contributor to the rate decrease was the Hypo/hyperbaric Group as the prior period benefited from higher international sales at a higher rate as a percentage of sales.

Selling and administrative expenses increased \$211,000 or 11.6%. This primarily reflected additional legal expenses for both domestic and international claims and local expenses for the Company's ETC Europe subsidiary acquired in March, 2000.

Research and development expenses were within \$1,000 of the prior period reflecting continued product development primarily in the Company's Turkish Branch.

Interest and other fees were up \$68,000 or 31.8% reflecting increased borrowings albeit at a lower average rate.

The Company's tax rate approximated the statutory rate for both periods.

14

Results of Operations

Nine months ended November 24, 2000 compared to November 26, 1999.

The Company had net income of \$1,227,000, or \$.16 per share (diluted), versus net income of \$1,969,000, or \$.24 per share (diluted), for the corresponding period of fiscal 2000. Sales for the nine months were \$22,773,000, a decrease of \$2,908,000 or 11.3% over the corresponding prior period. The primary contributor to the sales decrease was international contracts for both Hypo/hyperbaric and Aircrew Training Systems. A partial offset was increased domestic sales for Sterilizers and Entertainment products and worldwide sales of Environmental Systems. Overall, domestic sales were up \$3,457,000 or 49.8% over the prior period, and represented 45.6% of the Company's total sales, up from 27.0% a year ago. Government sales were up \$1,045,000 or 123.9% over the prior period, and represented 8.3% of total sales, up from 3.3% in the prior period.

Gross profit decreased \$636,000, or 6.7% reflecting reduced sales partially offset by a 1.9 percentage point increase in the rate as a percentage of sales

Edgar Filing: ENVIRONMENTAL TECTONICS CORP - Form 10-Q

to 38.8%. The primary contributor to this increase in rate was a higher rate as a percentage of sales for the Company's Entertainment products and additional claims gross margin booked for the Company's U.S. Government claims.

Selling and administrative expenses increased \$298,000, or 5.6%, primarily reflecting additional legal expenses for both domestic and international claims and the addition of local expenses for the Company's ETC Europe subsidiary acquired in March, 2000.

Research and development expenses were down slightly between the periods (\$12,000, 1.8%).

Interest and other fees were up \$86,000 or 14.3% from the prior period reflecting increased interest charges on higher borrowings albeit at a lower average rate.

The Company's tax rate approximated the statutory rate in both periods.

15

Liquidity and Capital Resources

During the nine month period ended November 24, 2000, the Company used \$5,739,000 for operating activities. This was primarily a result of an increase in accounts receivable and inventories, an increase in costs and estimated earnings in excess of billings on uncompleted long-term contracts, and a decrease in accounts payable. Positive cash was generated by net income, non-cash expenses, and an increase in billings in excess of costs and estimated earnings on uncompleted long-term contracts. Versus last year's corresponding period, net cash used in operating activities reflected an increase of \$2,146,000 as the current period included higher billing activity and corresponding higher accounts receivable.

Investment activities consisted of purchases for capital equipment, capitalized software, and the net cash impact of buying ETC Europe.

Financing activities consisted of bank borrowings, cash from the issuance of long-term bonds and cash from the issuance of stock partially offset by an increase in restricted cash. On February 25, 2000, the Company signed an amendment to its revolving credit agreement originally entered into on March 27, 1997, which increased its credit facility to \$15,000,000 and extended its expiration date to August 31, 2001. On November 21, 2000, the Company signed an additional amendment which extended the expiration date to August 31, 2002 and increased the British Pound Sterling denominated portion from \$1 million equivalent to \$2 million equivalent. Terms and conditions of both amendments remained essentially the same as the original agreement. Substantially all of the Company's short term financing is provided by this bank. On March 15, 2000, the Company issued approximately \$5,500,000 of unregistered taxable variable rate demand/fixed rate revenue bonds (Series of 2000). Net proceeds from these bonds were used to repay a \$4,100,000 advance taken on the Company's revolving credit facility and to finance construction of an addition to the Company's main plant in Southampton, Pa. The bonds are secured by a \$5,600,000 irrevocable direct pay letter of credit issued by the Company's main lender which expires on March 15, 2005 and which is secured by all assets of the Company. The bonds carry a maturity date of April 1, 2020, bear a variable interest rate which adjusts each week to a rate required to remarket the bonds at full principal value (currently at 7.0% on December 28, 2000) with a cap of 17%, and are subject to mandatory redemption of \$275,000 per year for 19 years and \$245,000 for the 20th year.

The Company's sales backlog at November 24, 2000, and February 25, 2000, for work to be performed and revenue to be recognized under written agreements after such dates was approximately \$40,648,000 and \$44,146,000 respectively. In addition, the Company's training and maintenance contracts backlog at November 24, 2000, and February 25, 2000, for work to be performed and revenue to be recognized after that date under written agreements was approximately \$1,156,000 and \$1,288,000 respectively.

This report contains certain 'forward-looking statements' including, without limitation, statements containing the words "believes", "anticipates", "intends", "expects", and words of similar import relating to the Company's operations. There are important factors that could cause actual results to differ materially from those indicated by such forward-looking statements including contract delays and cancellations, political unrest in customer countries, general economic conditions and the risk factors detailed from time to time in ETC's periodic reports and registration statements filed with the Securities and Exchange Commission, including, without limitation, ETC's Annual Report on Form 10-K for the fiscal year ended February 25, 2000.

Part II - OTHER INFORMATION

Item 1. Legal Proceedings
none

Item 2. Changes in Securities

The constituent instruments defining the rights of the holders of any class of securities were not modified nor were the rights evidenced by any class of registered securities materially limited or qualified during the period covered by this report.

Item 3. Defaults Upon Senior Securities

No defaults occurred during the period covered in this report.

Item 4. Submission of Matters to Vote of Security Holders

At the Company's Annual Meeting of Stockholders held on August 31, the following proposal was adopted by the vote specified below. No other matters were submitted to a vote of security holders at the Annual Meeting.

Proposal One: To elect five directors to serve until successors have been elected and qualified.
