Revenues:

At Euros 135.7 million, **revenues** for the third quarter of 2003 decrease 12 % compared to the third quarter of 2002 and are stable in USD. At Euros 454.6 million, CGG total revenues at the end of September decrease 7% in Euros and increase 11% in USD compared to the first 9 months of 2002.

Total revenues for **Geophysical Services** for the third quarter 2003 are Euros 76.0 million, down 39% in Euros, (-31% in USD), compared to the third quarter 2002. At the end of September 2003, total revenues for Geophysical Services are Euros 316.7 million, down 11% in Euros and up 6% in USD compared to the same period last year.

The **Land** acquisition total revenues for the third quarter 2003 decreased 53% to Euros 20.6 million, (-47% in USD), compared to the third quarter 2002. 7 crews were in operation at the end of September. The **Offshore** revenues with Euros 26.3 million for the third quarter 2003 was down 48% in Euros and down 41% in USD, compared to the third quarter 2002. Multi-clients after sales were very low during this quarter. The net book value of the offshore seismic data library at the end of September is Euros 147 million.

Edgar Filing: GENERAL GEOPHYSICS CO - Form 6-K

The **Processing-Reservoir** revenues, with Euros 29.1 million for the third quarter 2003, decreased 4% in Euros and increased 9% in USD, compared to the third quarter 2002.

For the third quarter 2003, **Sercel** total sales were Euros 63.8 million, up 11 % in Euros and up 26% in USD, compared to the third quarter 2002. External sales for the third quarter 2003 were Euros 59.7 million, up 104% in Euros and up 131% in USD.

At the end of September 2003, **Sercel** total revenues were Euros 152.0 million, down 24% in Euros compared to the same period last year (-9% in USD). At the end of September 2003, Sercel external sales were Euros 137.9 million, up 3% in Euros and 26% in USD.

Operating Result before NRI:

For the third quarter 2003, the **operating result before NRI** is a Euros 0.2 million profit compared to Euros 17.6 million operating profit last year. This strong decrease in the operating result is exclusively attributable to the geophysical services and reflects the 2003 competitive environment of the geophysical services market, further aggravated by a strong \$/ exchange negative impact.

For the third quarter 2003, the **operating result of the Geophysical Services before NRI** is a loss of Euros 12.6 million compared to an operating profit of Euros 11.2 million for the third quarter 2002. The very low level of after sales and the very weak land acquisition market explain this poor operating performance.

For the third quarter 2003, the **operating result of Sercel** is a profit of Euros 13.8 million, representing 22% of revenues, compared to an operating result of Euros 10.8 million for the third quarter 2002. The increasing international demand in Land acquisition products supported this strong operational performance.

For the first nine months of 2003, the **operating result before NRI** is a profit of Euros 12.1 million, a significant decrease compared to the profit of Euros 34.5 million at the end of September 2002. This operating profit does not include a positive contribution of Euros 5.8 million from subsidiaries consolidated under the equity method, principally Argas, compared to a positive contribution of Euros 3.8 million at the end of September 2002.

Land acquisition restructuring / NRI:

The **land acquisition restructuring program** should be completed by late 2003 / early 2004. This plan anticipates a redundancy of overall 270 personnel as well as the closure of a number of international representation offices, corresponding to approximately Euros 30 million of fixed costs savings on a yearly basis, with full effect in the second half of 2004. A Euros 19 million provision has been booked in the Q3 accounts as Non Recurring Item (NRI), split Euros 10.2 million for provisions and risks and Euros 8.8 million for depreciation of assets, of which Euros 1.6 million have been booked as goodwill depreciation

Adjusted EBITDA:

The adjusted **EBITDA** for the third quarter 2003 is Euros 22.3 million, 16% of the revenues reflecting in particular the low level of multi-clients sales. The adjusted EBITDA at the end of September is Euros 122.7 million, 27% of the revenues.

Summary of cash-flows

Equity stake in PGS:

Further to the approval by a US Court on October 21st 2003 of the PGS financial restructuring program, CGG will own, 868 000 shares, i.e, 4.35 % of PGS capital for a cumulated total investment of approximately USD 19.0 million.

Backlog:

The backlog as of November 1st 2003 stands at USD 305 million, an increase of 33% compared to the USD 230 millions at September 1st. This increase comes in particular from Sercel with a USD 118 million high record backlog, and from the offshore acquisition contract order book.
