Press Release

CVRD Joins the Good Corporate Governance Practices at Bovespa

Rio de Janeiro, December 12, 2003 Companhia Vale do Rio Doce (CVRD) informs that it joined today the Level 1 (*Nível 1*) of the Program of Corporate Governance instituted by the São Paulo Stock Exchange (Bovespa). This Program of Corporate Governance is designed for the listing of companies whose administrators and controlling shareholders have made a voluntary commitment to follow a series of corporate initiatives, known generically as good corporate governance practices. Such practices are stricter than those required by the Brazilian legislation.

The decision to join this program is another testament to CVRD's commitment with good corporate governance practices. Starting on December 12, 2003, CVRD shares became part of the IGC Corporate Governance Index, with a participation of 20%. This index is a benchmark for the performance of the stocks of companies listed under the Program of Corporate Governance at Bovespa.

This press release may contain statements that express management's expectations about future events or results rather than historical facts. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates. For additional information on factors that could cause CVRD's actual results to differ from expectations reflected in forward-looking statements, please see CVRD's reports filed with the Brazilian Comissão de Valores Mobiliários and the U.S. Securities and Exchange Commission.
